2020-11-17 21:50:55	Gauteng		No I do not	corruption	Government will make the poor more poor and they will make themselves more richer. Just like the the BEE policy that the country has. Only the richest can afford to buy shares on non BEE companies. This only benefit the government	Adelia
2020-11-14 09:06:12	Gauteng		No I do not	corruption		John
2020-11-11 19:58:24	Gauteng		No I do not	corruption	I will let our Government do that. There will be more Corruption	Lily
2020-11-11 09:31:15	Gauteng		No I do not	corruption	Increasing taxes in any way, shape or form will result in further tax declines or wealth moving out of the country. More needs to be done to stop wasteful expenditure, corruption and to trim the huge politicians salaries and outrageous perks. All politicians accused of corruption must be subjected to lifestyle audits immediately and based on that with their suspension of the accusation, go through a disciplinary process immediately and without delay without pay and if found guilty criminal charges be instituted as well as the recovery of stolen and looted funds. This alone will bring back the cash flow into the system for the intended purposes.	Colin

2020-11-10 00:35:30	Gauteng		No I do not	corruption	This government has been mismanaged for the longest time and every term the minister has the audacity to tell us that their targets were not met when we the tax payers have been doing our part. Looting is our main problem as a country and if all that money can be returned we would be in a better state as a country so I think we do not need tax to be increased. Tito and other goons need to find a more creative way of raising the country's capital. We have had enough!!	Buhle

2020-11-05 12:09:36	Gauteng		No I do not	corruption	Absolutely astonishing.  In a time where people are dying of hunger (caused by your power-grabbing commie lock-down), you have the audacity to take away money from police, welfare, education etc to bail-out SAA.  You probably never realised in all your years of stealing, but while no country needs a national airline, we all need education or police or welfare.  Then, when a party like the DA (of which I am no supporter, but they are the enemy of my enemy, i.e. you, ANC), questions it, the minister of SOE's (to whit, a failed pharmacist turned communist middle manager), states that for the luxury of 2 000 jobs the whole country needs to go bankrupt.  How do you consider that a fair deal? Out of more than 2 million jobs you have destroyed, you now bail out one entity with the excuse to save 2 000 jobs.  This speech will just bankrupt the country further. Give us what we need: smaller government, more accountability and enforcement of the laws we already have.	Erich
2020-11-05 09:49:26	Gauteng		No I do not	corruption	This cannot be a practical solution. Thieves should be charged with theft. Corrupt officials must be held accountable and rather take steps to recover mismanaged funds from those responsible. The public has carried the cost for long enough. The government has become a bottomless pit accommodating greed and mismanagement. Enough is enough!	Glynn
2020-11-05 06:20:23	Gauteng		No I do not	corruption	Why throw more good money into bad.	Elsie
2020-11-05 02:32:28	Gauteng		No I do not	corruption		Y'rusha
2020-11-04 18:48:29	Gauteng		No I do not	corruption	Unless and until the ordinary citizen is allowed to get on with his or her economic life unhindered by government meddling and corruption I will find it very difficult to support any government budget.	Rory

	2020-11-04 17:33:51	Gauteng		No I do not	corruption	Get the money back from those who have stolen money through corruption we cannot afford it -Zuma has millions in his bank account and so do the Gupta	Felicia
	2020-11-04 17:31:17	Gauteng		No I do not	corruption	If there was less or no corruption everything will run smoothly. Currently Eskom financial statement shows that a mop cost them R200 000. Our roads have potholes the size of open pit mines. The Tollroads were supposed to pay for the maintenance of roads, not to mention what has happened to the petrol levy, which was implemented for road maintenance. The list is getting longer... One substation was damaged by employees after their contracts expired and a vast area was without electricity for 4 days. Collection of rubbish bins are now on a Sunday because employees want double pay. I can go on for hours!	Nadia

	2020-11-04 07:33:58	Gauteng		No I do not	corruption		Anton
	2020-11-04 04:21:41	Gauteng		No I do not	corruption	Seriously, sort out the corruption. I am a tax paying citizen. I try my best for my country. The tax payers must see our money being stolen and misused most times.  Sort out the country.  Rather implement laws, eg if you are from other countries, and you commit a crime, then you are never welcome here again. How many armed robberies, crimes are committed by people not originating from SA?  Stop rescuing SAI and use the money where needed.  Certain schools still have open toilets where kids die yearly, but yet money is rather used in an already sinking enterprise.  Government should seriously start holding people accountable.  All of us cannot emigrate, and it is unfair that the government fails us.	Chrizzanne
	2020-11-03 16:09:31	Gauteng		No I do not	corruption		Jack
	2020-11-03 11:33:40	Gauteng		No I do not	corruption	Instead of people being held accountable the citizens of SA are expected to pay for their criminality....for which they receive huge salaries and no accountability!! Bailing out SAA and other SOE's is a joke, waste of money and shows a complete disrespect to the citizens of SA.	Diteboho
	2020-11-03 09:37:51	Gauteng		No I do not	corruption		Danie
	2020-11-03 09:07:52	Gauteng		No I do not	corruption		Joanne
	2020-11-03 08:24:33	Gauteng		No I do not	corruption	The more we allow this type of unresearched and unfounded policies, the more the damage to our communities at large.	Patrick
	2020-11-03 08:05:59	Gauteng		No I do not	corruption	What is it with the ANC continually throwing billions of rands at tenderpreneurs . The ANC deployed members have stolen billions from SAA does the ANC want to top up the coffers so their employees can continue looking . ANC accept the fact that you have destroyed another state enterprise. It would be better to spend the billions on land reform . That's the main issue in South Africa. Further may we start to see the end of affirmative action and employment equity	vishal
	2020-11-03 07:29:25	Gauteng		No I do not	corruption	It 's like a movie put on repeat. You are corrupt and deplete the nations coffers. More and more bailouts etc but nothing gets done about the problem. You know what you could have done with the money for SAA and SAA Express? Fix the state hospitals their in dire straits, fix the corruption in municipalities and fix the sewerage, potholes and power and water supplies but no lets put some more money in SOE so that it can be mismanaged and stolen by inflating prices for tenders and make a killing. I dont even want to watch news anymore it makes me want to puke. To think I was rooting for mr Mboweni thinking that he was the one to stand firm. This just proves you cannot trust anyone or anything coming from the ANC. What a let down. And who needs to pay? The people who don't earn your massive salaries and can barely make ends meet and not to mention the poor who lost their jobs due to your lockdown which did not work and even depleted state funds even further. All I can say is well done this country will officially be bankrupt soon, but we all know what you will be saying its all Covid's fault not the fault of the ANC.	Christine
	2020-11-03 02:28:27	Gauteng		No I do not	corruption		Maddalena
	2020-11-02 21:24:46	Gauteng		No I do not	corruption		Raymond
	2020-11-02 19:44:09	Gauteng		No I do not	corruption	This budget, once again, is not practical and not thought through. The idea of building infrastructure is only one more opportunity for corruption and won't benefit most of this country. Bailing out the dead horse that is SAA while withholding increases from teachers, nurses and the police is just wrong. This budget seems to protect the ANC at the cost of the people again.	Catherine
	2020-11-02 11:58:49	Gauteng		No I do not	corruption	Endemic corruption, bailing out the hopelessly failing SAA again, bloated government payroll, etc. - how do you justify this? SA government is hostile to business and ordinary citizens - destroying the economy with a truly disastrous lockdown, alienating taxpayers and squeezing them ever harder, while entrenching dependency on social grants. As much as I love my country, my confidence in the government is at an all-time low and I simply don't see how we can avoid a civil war if the ANC government doesn't get its act together very soon. Around me, in Joburg, infrastructure is failing, service delivery and law and order are a shambles, people are getting increasingly desperate and despondent.	Soleil

	2020-11-01 11:41:34	Gauteng		No I do not	corruption	The amount of corrupt officials in the municipality and government is alarming not to mention the government themselves being and inciting Racism there is no Justice in this country !!!! why should the taxpayers fund the corrupt in this country	Dirk
	2020-10-31 14:32:01	Gauteng		No I do not	corruption	No increment for public servants but ministers will continue looting	Lydia

	2020-10-31 06:49:37	Gauteng		No I do not	corruption	Corruption is already so high. This would just lead to more	Johan
	2020-10-31 06:26:56	Gauteng		No I do not	corruption	Everytime you hear on the news how money is disappearing Out the coffers so why give them more free range	Ritha
	2020-10-31 06:17:57	Gauteng		No I do not	corruption		Francois
	2020-10-31 05:33:38	Gauteng		No I do not	corruption	Why must the minority tax payers still be charged more to pay for the corruption of the anc????? All the billions that have been stolen for soes that will never come right because the more the people pay the more it gets stilen. This needs to stop. South africans are not here to pay criminals salaries either. Cut the parliament members salaries ,start sending these thieves to jail. No tax payer.....no vote	Colette
	2020-10-31 03:58:52	Gauteng		No I do not	corruption	There will just be more stealing	Annalie
	2020-10-30 22:25:30	Gauteng		No I do not	corruption		Linde
	2020-10-30 22:06:55	Gauteng		No I do not	corruption	The government think they are intitled to spend money and doesnt realize that it is NOT there money but the tax payer and people who pay for what they use. time and time again it is been a shaking reality that how corrupt the ANC is and doesnt worry about a straight forward good management government. they must jail the corrupt lazy members of the ANC and bring them to justice.	Beatrice
	2020-10-30 19:49:54	Gauteng		No I do not	corruption	Sort out the corruption in Govt and most of the country's money problems will be resolved. We need to see the guilty go to jail. Leave our pensions alone! No wage freeze. How are people supposed to survive. How is that going to help the economy. These decisions are just crazy. Does not make sense.	Natasha
	2020-10-30 12:59:15	Gauteng		No I do not	corruption	We cannot live longer with the ANC that are not skilled in the position they fulfill.	Rina
	2020-10-30 12:10:37	Gauteng		No I do not	corruption	Whatever proposals the corrupt government makes or enforces is just to support further corruption. Especially the decision regarding SAA!	Gerrit
	2020-10-30 11:59:51	Gauteng		No I do not	corruption	Another bailout for saa when it's been proven incompetent? That money could be much better spent helping all the people who had to close their businesses or lost their jobs due to the lock down fiasco. Unbelievable, you are just sooo greedy and can't wait to find more ways to steal money from the handful of ppl left in the country that are paying taxes. It's disgusting	Monika
	2020-10-30 08:16:42	Gauteng		No I do not	corruption	Corruption is a sickness and it takes everything from te poor.	Mariette
	2020-10-30 07:47:37	Gauteng		No I do not	corruption	Corruption is rife in this country with state politicians constantly looting state coffers	Mpho
	2020-10-30 07:41:49	Gauteng		No I do not	corruption	I'm concerned about the following; - an inflated cabinet that is useless - stealing & looting - SOE's that are run into the ground by incompetence because of cadre and BEE deployment. - the increase of social grants with no new employment. - more taxing to cover the shortfall of incompetence. - more regulation on the private sector who are hamstrung by the usless government.	Luce
	2020-10-30 07:34:23	Gauteng		No I do not	corruption		Cathy
	2020-10-30 07:34:02	Gauteng		No I do not	corruption		Bongani
	2020-10-30 07:11:28	Gauteng		No I do not	corruption	This is an open check for more wasteful and fruitless expenditure. I'd they are always in trouble after the auditor general reviews why reward them with even more facilities destroy this country?	Ama-Tabu
	2020-10-30 06:51:56	Gauteng		No I do not	corruption	The more they borrow the more they steal! totally against saving SAA!	Kerry
	2020-10-30 06:09:56	Gauteng		No I do not	corruption		Elizabeth
	2020-10-30 04:53:41	Gauteng		No I do not	corruption	The incompetent government keep on failing us. I have zero trust in them, Saa is forever a failed SOE	Tian
	2020-10-29 23:49:22	Gauteng		No I do not	corruption	Because of the governments of the countries incapable of governing a country, we as citizens have to suffer under their uneducated and incompetence	Lizelle
	2020-10-29 23:32:52	Gauteng		No I do not	corruption	I am sick and tired that tax payers money get used every time to bail out state owned enterprises due to incompetent people that runs our municipalities. So .....NO	Naomi
	2020-10-29 21:19:41	Gauteng		No I do not	corruption	The government, Provincial government and Municipalities are full of corrupt, lazy, incompetent officials. That must change NOW!!!	Johannes
	2020-10-29 21:13:16	Gauteng		No I do not	corruption		Johan
	2020-10-29 17:21:38	Gauteng		No I do not	corruption	Municipal and All officials involved in tenders should be held accountable for every tender that will be awarded. Should the tender not be completed all funds must be paid back in full. This should apply in all corruption/fraudulent cases, new and old. Funds must be re cooperated by law. No nepotism - whatsoever should be tolerated and result in spontaneous dismissal without any appeal as that is deliberate contempt of personal power and national treasury.	Martie

	2020-10-29 16:14:40	Gauteng		No I do not	corruption	Die regering en sy trawante kan niks suksesvol bestuur nie. Korrupsie is aan die orde van die dag en daar word baie selde met sukses opgetree teen kaders wat oortree. Daar moet 'n absolute deersigtige beleid gevolg word sodat almal kan sien waar gaan geld heen.	Herkie
	2020-10-29 13:34:30	Gauteng		No I do not	corruption	Stop stealing the taxpayers money and covid money and th money from international loans. Cut salaries of all in parlement and other outrages expenditure. Sie man people are hungry and need homes. Get rid of illegal foreigners and start fixing the roads hospitals police etc. Do something about the crime oh and jail the criminal politicians and get rid of bbbeee it's nit working	Ri

	2020-10-29 11:34:15	Gauteng		No I do not	corruption	The existing laws are adequate but the damned ANC is not interested in implementing them only on how they can use them to steal more money	Calvin
	2020-10-29 11:29:53	Gauteng		No I do not	corruption	This Government is really taking tax payers for a ride! Instead of dealing with corruption and Saa what do they do? Oh let's just increase taxes. No man, no.	Phumi
	2020-10-29 10:18:14	Gauteng		No I do not	corruption	By having strict measures in place we can help to minimize nepotism and corruption.	Jack
	2020-10-29 10:11:23	Gauteng		No I do not	corruption	I do not trust the system. It is corrupt.	Christene
	2020-10-29 07:09:21	Gauteng		No I do not	corruption	Our local Municipality has failed us and used money in the wrong way and looted it, they should change it and make people in charge of Municipality held accountable and the money should be recovered. And they should rather show us how every cent is spent.	Sarah

	2020-11-17 08:30:16	Western Cape		No I do not	corruption	It seems that everyone has forgotten that these corrupt politicians WORK FOR US. We should therefore have a say as to how much they are paid, who gets elected into parliament, and how they spend our money. All because they stole all the foreign aid money, now we must suffer twice (once from not receiving any aid because it's already in their personal bank accounts, and two, now we have to dig deeper into already empty pockets to try bail them out). Realistically speaking, take ONE zero off the end of all the politicians' salaries (including Ramaphosa), make Ace, Zuma and all the other criminals pay back the money they stole, get the tax money from the Guptas that they owe (and all the other corrupt officials and politicians), lower the municipality officials' salaries too (R75000 per month for what?), stop paying salaries to employees who are under suspension or investigation, stop paying salaries to people who aren't actually working (like officials' wives, children, etc.), and generally just stop stealing the money that doesn't belong to you.	Gaynor

	2020-10-30 10:13:09	Western Cape		No I do not	corruption	This government does not know how to run the country. There is no backbone to do the right thing. The right thing is to look after the SOEs and all the citizens. With all the full-blown blatant corruption the billions which should be used for upliftment and support are being stolen. That is why the country has a debt problem. Paying more tax won't solve the problem when that money will inevitably also be stolen. Bailing out SAA is a fail. If SAA was a private company it would not exist today. Reducing budget for education is a disaster. With the current government there will be no end to these financial problems.	Wayne

	2020-10-28 21:04:14	Western Cape		No I do not	corruption	What South Africa needs : 1) Deregulated economy. 2) Abolishment of race-based regulations on the economy. 3) Liquidation of all SOE's to let the free market make it work. 4) retrenching of cadres and their cadres  There needs to be an end to : 1) Continued creation of debt and misery for all south african citizens. 2) Looting more and more. 3) Making more deals with spineless corporate SA to keep the party's patronage network together and not fractured . 4) Pushing impractical, destructive marxist policy and ideology.  It is quite obvious that the ANC's purpose is failure and failure by design to break south africa and make it a slave to a grand scheme playing out while everyone is distracted by the covid sideshow circus and racial issues which simply don't exist outside of social media . 					Ek is nou al van 1994 af moeg en sat om te hoor van korrupsie en diefstal van ons finansies. Die ge boetie boetie en familie van lede van die ministerie en hul familie wat nou skep asof ons op 'n goudmyn sit. Julle daar in die parlement en in hoë poste van firmas soos Transnet,SAUK, Denel,SAL en Eskom wat vir hulself onmoontlike bonusse en salarisse toe eien en dan nog die cheek het om te vra vir bailouts omdat hulle swak doen is blatante ondermyning en diefstal op grootste skaal. Stop hierdie malligheid want julle gaan binne 10 of 20 jaar nie meer 'n land hê wat kan voorsien in voedsel of tegnologie nie. Julle is besig om dit in 'n Zimbabwe te verander of Nigerië waar daar nou niks is om voor te lewe nie. Julle is tipiese diktators en dit beteken net afdraend vir enige land. Kyk na Noord Korea,zimbabwe en Nigeria en Haiti as voorbeeld. Red eerder die SOC's soos Denel wat ons land moet beskerm teen oorlog want op hierdie stadium is ons weermag en lugmag en vloot 'n grap van weermag wat die land het. Julle bestel treien wat nie eers op ons spore kan loop nie, hoe stupid en onvoorbereid is dit nie, ek dag julle doen jul werk goed maar al wat jul sien is ketjieng ketjieng in julle sakke as jul die kontrak kan kry. Julle koop skepe en dan is jul so onopgeleid dat julle 1 sink en 2 onherstelbaar laat verspoel deur onopgeleide personeel maar o wee ons moet kyk BEEEE employment op so 'n skip wat biljoene rande kos en personeel het wat dit nie eers kan bestuur nie. Die land was voor 1994 in staat om homself te verdedig teen enige iemand. Ons het boere en plase soos Zebediela gehad wat hierdie land voorsien het van al ons nodige voedsel, heng ons het selfs uitgevoer so oorvloed het ons gehad. Nou moet ons invoer want julle het hierdie plase aan julle mense gegee om te beheer tot in die afgrond in of hy het sommer net besluit om sy beste daar op te sit en van daardie pragtige plaas wat kos voorsien het aan die Mark het nou net mooi niks geword nie. Julle vermoor die plaas mense of hy nou wit of swart of kleurling is dit maak nie saak nie want julle het 'n ideaal om voor te streef ...Die liberale diktatoriese idee om net vir jouself te sorg en basta met die res van die land se mense. Nou gooi julle jul deure oop vir China en Jan Raap en sy maat om net in te kom soos die Guptas en die land leeg te steel. en wie se skuld is dit. Die ANC. Die EFF. Ja julle 2 partye span saam om hierdie land te verkoop en weg te gee en glo my ek weet waar julle heen sal vlug as die pap die fan strike. Dink julle ons weet nie van julle weelderige aftree plekke in Dubai en ander oorsese eilande nie. Ons kleurlinge en boere en anders kleuriges is nie sommer net hier nie. Ons het geleer tot waar ons kom. Magtag man , Die literacy van die land het so laag gedaal dat dit nou 'n grap is om matriek deur te kom..Ons help jou sommer oor en gee jou universiteit en gee jou 'n diploma en sertifikaat en wanneer jy nou by jou job kom dan weet jy nog minder as 'n matriekulant van 1990. En jy wil vir hierdie maatskappy vertel jyt die kwalifikasies en jy kan die werk doen. Dan moet 'n werker op die vloer vir jou vertel wat om te doen, hy wat nie eers die kwalifikasies het nie. So gaan dit by plekke soos SASOL en SAL en ESKOM en oral in maatskappye. Wat 'n grap. hou op steel en hou op om jou familie te betrek by kontrakte. ek sê bring terug die Staats tenderraad , selfs maatskappye wat nie onder die staat val nie en 'n tender wil uitstuur moet deur die staat tenderrad nou gaan sodat almal die beste voordeel kan kry van 'n tender en dit sal sorg dat ons ekonomie vorentoe gaan. Kyk na ons paaie as voorbeeld . Dit is so sleg omdat dit nie deur behoorlike vakmanskap en opgeleide padkonstruksie maatskappye herstel of gebou word nie maar deur persone wat net op winsbejag gemik is. Stel die staats tenderrad op en ongelukkig moet ek dit sê,,met 'n beheerraad van kleurlinge en indiërs en BEEEE persentasie van 20 nie blankes vir elke 80 anderkleuriges sodat daar nie korrupsie kan toetree nie. wat tenders en kontrakte sal toeken op die basis van geldigheid ,aflewering en voldoenbaarheid soos in die verlede. Dit is nou die 3de maal wat SAL biljoene kry vir bailout as voorbeeld. Dit sê net vir my julle weet nie hoe om 'n maatskappy soos SAL te laat maak werk en wins te maak nie. Maak 'n daadwerklike plan om julle land ,,ons almal se land te red en weer voorspoed kan intree vir almal. Stel die regte persone op om maatskappye te red en kyk net 'n bietjie weg van BEEEE want dit is ons ondergang.	Petrus

	2020-10-30 07:28:49	Eastern Cape		No I do not	corruption	A terrible budget that does not tackle the real issues of a dwindling Tax Base that is being asked to fund failing SOE's to the tune of Billions. Money which could be much better spent. Why do schools still have pit toilets and no running water but you still feel the need to have your free flight airline for politicians and there extended family????? You prioritise SAA over Police, Health and Education. That says everything about the ANC	Neil

	2020-10-29 19:48:15	Outside SA	Jersey	No I do not	corruption	<p>Funding SAAs business rescue plan to the tune of R10.5bn and taking this money away from vital departments (health/education/police etc) makes absolutely no sense. SAA will never be a successful company due to the massive corruption of the ANC cadres deployed into it, giving it free money to lose will adversely affect the private sector airlines who don't have access to free money.</p> <p>The ANC has lost all sense of what is right and wrong, seems to be trying to steal as much as possible through whatever means necessary before the plug is finally pulled via a debt default which is almost inevitable at this point.</p> <p>Stop stealing so much. I mean a little bit of stealing is expected from ANC politicians, but maybe you can try to first deliver some services to the people you work for, pay down some of the debt and if there is anything left then steal that?</p> <p>Privatise all SOEs, close down the ones that can't be privatised. Stop with the nonsensical policies of EWC, NHI, BEE. Encourage foreign investment instead of scaring it away. Create an environment for the private sector to flourish. Reduce the size of government.</p>	Thomas

	2020-11-13 11:48:34	Gauteng		No I do not	State Owned Enterprises	State owned enterprises and corruption is my biggest concern. The people of South Africa is suffering due to the corrupt government who has only fed themselves . The country is on a rapid decline.	Aneesa
	2020-11-12 15:33:00	Gauteng		No I do not	State Owned Enterprises	Bailing out the failed SAA once agn! That's ridiculous. It appears it's more important to bail out failed state enterprises than combating corruption and mismanagement. There are huger problems in this country that needs that money far more. Vast majority of the citizens can't even afford to travel with SAA. How many more times do the tax payers have to bail failed state enterprises? This money could have been better spend and created a lot more jobs that the amount that will be 'saved' on an entity that has failed over and over again.	Marthinus
	2020-11-12 12:02:46	Gauteng		No I do not	State Owned Enterprises	SOE's being bailed out continuously whilst country degenerates with water restrictions, loadshedding, poverty, corruption, junk status. Taxpayers are losing confidence in its government. Government incapable of seeing to basic human rights and needs of its citizens. Taxpayers tired of paying for mistakes of government and bailing out SOE's. We want to see taxpayers money work for the man on the street....education, housing, sanitation, employment.	B
	2020-11-10 13:50:04	Gauteng		No I do not	State Owned Enterprises	I strongly do not support the bailout of SAA and other SOEs. If they can make it financially they should be liquidated and she the taxpayer from bailing them out. These monies could then be better used for far more needed important things like education housing hospitals etc.	Iain
	2020-11-10 12:01:01	Gauteng		No I do not	State Owned Enterprises	Another bail out for SAA - why? The monies due by SAA were as a result of mismanagement, fraud and corruption. The guilty people who orchaestrated SAA demise must be made to pay back what they stole/ mismanaged. The public have paid their fees, their tax etc and are not expected to chip in to give the government more leeway with corruption. SAA should be dissolved. Like the other SOE that we used to be proud of it has now become a noose around our necks.	Laura

	2020-11-04 15:03:06	Gauteng		No I do not	State Owned Enterprises	We should not be pulling funds from other important projects to fund state owned enterprises. If they are unprofitable, they must be allowed to fail or privatised. We cannot keep going around pacifying unions and SOE's because we don't want to suffer the repercussions. Eskom itself posted a twenty billion rand loss even with all the bailouts that it received. We need to rethink this entire budget, we cannot keep giving money to places that encounter so much corruption!	Dean

	2020-10-29 11:30:32	Gauteng	No I do not	State Owned Enterprises	I don't understand how and why bailing SAA out once again is even an option! As the saying goes " Flogging a dead horse", why would we continue to let SAA drag the country and all other SOE's down? Besides the fact that it is a poor financial decision, the ones who py for this this is South Africas lower economic citizens. Furthermore, if this is allowed then we really need to look at the legality of this as government as repeatedly said it will not allocate more funds to SAA. If it does happen government should lock up the top officials who have said this including the president. SAA should not be kept alive as a political tool. I oppose this entirely.	Stephan
	2020-10-29 11:06:28	Gauteng	No I do not	State Owned Enterprises	S.O.E.'s are another word for corruption. And the tax-payer is the one footing the bill NOT the Gov. 	2020-10-29 08:35:43	Gauteng		No I do not	State Owned Enterprises	I do not agree with government's persistence in bailing out failing SOE's. During this pandemic, that R10.5 billion that's being spent on SAA could rather be allocated to debt relief or to employment stimulus or literally anything else that will benefit the people. We can't fly anywhere at the moment anyway, so why dump money into an airline? It makes no sense...	Michael
	2020-10-29 08:32:18	Gauteng		No I do not	State Owned Enterprises	Stop the bailouts! The money is desperately needed elsewhere! What dont you understand about this? The SOE should be either fully or partially privatised so that the people running them are made accountable and become more interested in posting positive results rather than corruption and lining their own pockets!	Tessa
	2020-10-29 07:44:42	Gauteng		No I do not	State Owned Enterprises	State owned enterprises should not be funded by the state they should be assets but they are liabilities and they are costing citizens, they should be scrapped if they are not making profit they are national liabilities and should be given to serious business people. They are not competitive and not run efficiently they should all be sold and the government can have shares, they will make more money that way because right now they are costing the nation.	Malehlo honolo
	2020-10-29 07:14:27	Gauteng		No I do not	State Owned Enterprises	The SAA bailout is completely irrational and a thinly veiled excuse to enable ANC cronies to keep looting and stealing. SAA should be shut down and the money redirected to education, which in the long term would empower citizens and grow the economy. SAA and other state owned enterprises are bottomless pits of corruption and where there are other entities that can provide similar services (like in the case of SAA) should be shut down completely. Where there are no other entity that can replace the state owned enterprise that state owned enterprise should be privatised.	Paul
	2020-10-29 06:53:27	Gauteng		No I do not	State Owned Enterprises	Bailing out a redundant airline to the effect of Billions seems utterly ridiculous, proverbially criminal in the face of the economic struggle that South Africa and its people are enduring in general, and moreso during a global pandemic. Raising taxes in order to obtain more money from South Africans in the process, is utterly outrageous as the Billions used to bail out a largely unused airline should be directed to where it is actually needed: building a better South Africa through means of housing, upliftment of impoverished areas, as well as upgrading hospitals, schools and roads.	Louise
	2020-10-29 06:48:42	Gauteng		No I do not	State Owned Enterprises	SoE are a shambles and should be run like public companies. Put all of them under rescue managed by legal and finance experts. 	2020-10-29 06:37:37	Gauteng		No I do not	State Owned Enterprises	Reducing the budgets of Health, Education and other departments to bail out SAA is fiscal treason. We do not need a national carrier and SAA is merely a funnel to syphon funds to the corrupt ANC	Chris
	2020-10-29 05:35:49	Gauteng		No I do not	State Owned Enterprises	Stop wasting tax payer money. NO to even R1 spent on SOEs. Its absurd to think they so corrupt and must now be funded. Also NO to any tax increases. SACans already over taxed. Public service seriously overstaffed and unproductive -freeze any employment and retrench the fat.	Esme
	2020-10-29 05:26:58	Gauteng		No I do not	State Owned Enterprises	Enough with spending on SAA! We want that money spent on schools, housing, fighting crime and infrastructure!!! It is enough!!	Luisa
	2020-10-29 03:20:44	Gauteng		No I do not	State Owned Enterprises	How can we keep funding this SAA monster? Bowing to political pressure to try save face and those jobs. That money could've been put to far more productive use. Public sector wage freeze, well done, but you're no hero for doing this, private sector as usual a step ahead there and we've all done this already. Was the least you could do. No wonder emigration is on the rise and your positive contributors are fleeing the country. It's not worth staying here and I can assure you if it were not so difficult, many more citizens would choose to leave.	Barry
	2020-10-29 00:10:56	Gauteng		No I do not	State Owned Enterprises	Let SOE die that are already dead. The poor and tax payers are tired of being neglected and squeezed to breath life into already dead entities	Justin

	2020-10-28 21:58:19	Gauteng		No I do not	State Owned Enterprises	The MTBPS still waste tax payer monies on the badly managed and ineffective state enterprises. The tender proses robs the country of hard earned taxes because instead of bringing prices down for purchases of items that can be bought directly in the trade and suppliers the tender process inflates prices sometimes hundreds of percent's. How can tenders be allocated if for instance a traffic car can be bought for much less from a dealer than through the tender process. Officials signing off on such tenders must be brought to book since it is clear people benefit unfairly from the process to the exspense of tax paying hard working labour force people.. All tiers of state must ensure tax payers money is applied in the most cost effective manner and not wasted by all tiers of state as is now the case. if tax monies are not waste through corruption there will be no need to increase the state and municipal incomes through higher taxes.H igher taxes will just further reduce economic activity and available expendable money and available resources which is already on a nearly an all time low .	Willie
	2020-10-28 21:14:28	Gauteng		No I do not	State Owned Enterprises	We pay 2x for everything. Police, education and health. Once with our taxes and again for Private security, private schools and medical aids. It is sinful to rescue SAA and Eskom at the cost of education, health and police and security. Education, health services and a well trained ethical police service are paramount to the success of South Africa. Kill SAA, retrench government employees and reduce politicians personal security teams.	Anne

	2020-10-28 21:12:11	Gauteng		No I do not	State Owned Enterprises	It is criminal to bail out SAA when most people in SA are very poor. We do not need SAA at any cost but people need safety and proper education. Crime in SA is almost worst in the world, but budget for police is cut. Education needs to be prioritized, not SOE's! Corruption is going on and there is not much hope that the perpetrators of state capture will ever be punished for the millions they squandered. All of these issues and many more cause citizens to feel robbed and without hope for the future.	Lenette
	2020-10-28 21:00:52	Gauteng		No I do not	State Owned Enterprises	Stop bailing out State owned enterprises. The cost of bailing these companies out affects tax payers as and during the pandemic, we can't afford higher taxes. Corrupt politicians and those also implicated should be held accountable and made to pay back the money stolen and jailed for their crimes. The ANC should hold themselves accountable as they are number one to steal money and ruin the country	Khoboso

	2020-11-08 20:48:31	Western Cape		No I do not	State Owned Enterprises	It is a nightmare that our government just keep on with SOE that corrodes our country's economy at a terrible alarming rate . SAA should have long been done away with. It is unclear why Pravin Ghordan insists on having a new SAA if the old SAA done so dismally - are they blind or is there agendas that are unclear to the citizen's of our country. The government employee's are overpaid and to want to insist on agreements of 3 years ago about salaries , is totally illogical when the economy suffered so much already. Be grateful to be employed. The perks of members of parliament should be definitely be adjusted to what our country can afford as well as the numbers be scaled down. Wake up and see the deterioration of our beloved country	Bertha

					<p>The MTBPS is a failure in that it fails to deal with the most pressing issues SA is facing today. The most pressing are:</p> <ol style="list-style-type: none"> <li>1. SOE's</li> <li>2. Corruption</li> <li>3. Income tax legislation which is becoming less and less fit for purpose</li> <li>4. Labour legislation and regulations</li> <li>5. Over regulation and growth of bureaucracy</li> <li>6. Job creation</li> </ol> <p>Unless SA starts to seriously consider these issues everything else is moot, i.e. not going to happen. A country we need to start a conversation on these 5 issues and how to fix them because unless these are addressed and radical transformation of the first 5, job creation is not going to take place. The first 5 directly influence job creation. The government can have all of these grant schemes and statements, but nothing every comes of it as the top 5 items above are curiously missing. This is why SA as a country has so spectacularly failed to address the crisis with unemployment. Simply put there has been no real job creation for a great many years. Welfare and benefits are not going to fix the problem as it is structural.</p> <p>Lets take a closer look at each of the top 4 listed.</p> <p>1. SOE's: These need to Singapore type approach where they are listed on a stock exchange and similar model to that of Telkom is applied to them or completely sold off. SAA needs to be sold off and remove this burden from the taxpayer and PIC or some SA sovereign fund hold the state's interests in these companies if the government still wants an interest in them. But they need to move out of direct control of the government. The revelations at the Zondo Commission show this is needed so there is complete independence and less interference and meddling. In many countries the governments have gotten out of the airline business as it is hyper competitive and where the government is majority shareholder they are simply not competitive and there are far too many political issues to deal with.</p> <p>2. Corruption: It needs to be dealt with decisively and those involved and identified as been involved need to be investigated and charges brought against them. The perception is there is no political will to ensure this happens and many of those who have been identified continue to act with impunity. This is extremely destructive to society and erodes the trust in government and all of its institutions, including SARS when it needs it most. People vote with their feet and leave quietly and this will leave SA poorer for as a result. By allocating more funds to SAA, Eskom and other SOE's the message the government is sending loud and clear to the public is corruption within the government and SOE's is continuing.</p> <p>Local government and municipalities are also another area of concern. Most of the municipalities are completely dysfunctional and run by incompetent and corrupt leaders and officials. The basics are not even been managed. This is another time bomb waiting to explode and cause significant harm to the public and SA as a country. We need to start holding our ward councilors accountable and pressing them on these issues.</p> <p>3. Income tax: This is a massive failure. The legislation is far too complex and no longer fit for purpose. Worse still is complex and very expensive to administer both for SARS and taxpayer. It is also making taxpayers very untrusting of the income tax legislation and SARS and immediately creates an adverse relationships between SARS and taxpayers. SA needs a much simpler income tax system and focus only on the seriously high earners. Interestingly Ireland has decided to keep their 12% income tax rate for companies and Australia as reduced income tax. What SA needs to start to do is the following:</p> <ol style="list-style-type: none"> <li>3.1. Scrap capital gains taxation as this is essentially a tax on long term inflation. Short terms gains taxes as ordinary income tax with a taper. If only 1 year -100% inclusion of gain, it 2 years - 80% inclusion of gain, 3 years - 60% percent of gain, 4 years - 40% inclusion of gain, 5 years - 20% inclusion of gain.</li> <li>3.2. Residence basis taxation - scrap this as this greatly adds to costs and complexity and is completely unnecessary. Every country has a system of taxation and leave it to the other country to deal with it. This is where the legislation is in fact completely corrupt. Taxing income from a source outside of SA, but that income it not protected by SA law.</li> <li>3.3. Tax excessive remuneration and bonuses aggressively to even up the distribution of income and bring more equity into the system at every level of society.</li> <li>3.4. Remove all of the special allowances such as section 12J, special economic zones as this causes all manner of distortions in the economy and results in poor allocation of resources and makes reinforces the concentration of wealth in the hands of a few as there provisions are only accessible to the wealthy and are used as tax shelters rather than real investment and sustainable job creation.</li> <li>3.5. A special tax on residential properties in excess of R5m at say 1%. The R5m from which this tax applies is very important as one only wants to impact the wealthy and not the average person running a small business. It must only apply to properties which are for rates purposes classified as residential so as not to negatively impact on the productive sector of the economy. This can be based on the rates valuations as this is public information and should be in the public domain. This can be seen as a mechanism to address inequality. All information regarding this must be in the public domain in order to ensure integrity and fairness.</li> <li>3.6. Income tax rates for companies needs to come down to say between 15% to 20%.</li> </ol>

	2020-11-07 08:43:45	Western Cape		No I do not	State Owned Enterprises	Stop allocating moneys to failing SOEs. SAA is a joke. Bleeding hard working tax payers dry to stroke the ego of a failing government. Those moneys could be used to upgrade the dismal health care system and education system. Just another way of corrupt government to loot.	Lizeth
	2020-11-06 14:06:14	Western Cape		No I do not	State Owned Enterprises	Please stop bailing out SAA. We do not need a national carrier. The ANC can retain votes instead by actually growing the country, instead of directly paying constituents by keeping non-profitable SOEs running.	Evan

Politicians, remember where your votes come from.	Shaun

	2020-11-03 10:22:29	Western Cape		No I do not	State Owned Enterprises	How can we keep on funding defunct, insolvent and useless state owned entities such as SAA. Logic business decisions should be made and the state should close such defunct SOE or allow the private sector to take over if there is at all a chance and need to keep these entities in operation. State expenditure should be curtailed by reducing staff numbers in line with the need as well as with the output linked to such jobs. Private sector employees all took large salary cuts, lower income during and after the lock down but this is not the case for government employees at all	George

	2020-10-30 13:12:09	Western Cape		No I do not	State Owned Enterprises	Government is finding itself between a rock and a hard place at the beginning of a depression that will most probably last for a while. Flogging a dead horse like SAA in my opinion is the type of mistake that SA government cannot afford to make and has undermined the efficacy of difference that MTBS could have had, in making harder political decisions in future. If only we had leaders capable and resolute enough to do so.  The only solution I can see to salvaging what remains is for those provinces that can to secede from the failed state of South Africa. To form countries that aren't pretending to be democracies being run by single party states but, actual democracies truly representative of their people and their values. If only SA's fractured inhabitants had the will power to force referendums in parliament to do so.	George

	2020-10-28 22:28:52	Western Cape		No I do not	State Owned Enterprises	<p>At the end of the day it is the taxpayers money and it never seems to end.</p> <p>Do not give any more money to any institution that has misappropriated money in the past, or which is alleged to be part of corruption. First prosecute all those criminals and remove them from society. Then we can talk about bailouts again.</p> <p>We cannot bail out SAA again. It's our money. Not the ANC's your budget digs us into a hold from which we will never recover</p> <p>The MTBPS still waste tax payer monies on the badly managed and ineffective state enterprises. The tender process robs the country of hard earned taxes because instead of bringing prices down for purchases of items that can be bought directly in the trade and suppliers the tender process inflates prices sometimes hundreds of percent's. How can tenders be allocated if for instance a traffic car can be bought for much less from a dealer than through the tender process. Officials signing off on such tenders must be brought to book since it is clear people benefit unfairly from the process to the expense of tax paying hard working labour force people.. All tiers of state must ensure tax payers money is applied in the most cost effective manner and not wasted by all tiers of state as is now the case. if tax monies are not waste through corruption there will be no need to increase the state and municipal incomes through higher taxes. Higher taxes will just further reduce economic activity and available expendable money and available resources which is already on a nearly an all time low .</p>	Wayne

	2020-10-29 08:22:31	Northern Cape		No I do not	State Owned Enterprises	The question with the meduim term budget is as simple as this: who is given the instructions?, any person with a little bit of commensence could have noticed the minister's body language when he repeated the sentence about the bailout for SAA. Why is somebody so adamant about the bailout for SOE's and SOC's? Just to have another investigation at a later stage, in essence the taxpayers are not considered with respect to the government expenditure. Do they really think we are fools? Money must be invested in developement with respect to job creation and not be waisted in nonsense or to be smart to have what other countries have! This is when books are used as a guideline, opinions of people who died a certain death, when leaders dwell in the past and refuse to listen to good advice. We need a regime change, younger generation to govern, new ideas, people who understand the different tribes, cultures and who understand economy. No, stop this irregular expenditure, waistless and fruitless! Government must follow their own regulations, and stop accusing other of the same mistakes, we need better leaders!!!!	Derek

	2020-11-03 23:13:44	Gauteng		No I do not	fiscal strategy	1. Public servants contribute a large percentage of SA's economy. As it stands, some of them particularly those in the health care sector are already earning less than their counterparts in the private sector and are forced to deal with resource shortages plus overcrowding. Public servants, most of whom are our frontline workers during this pandemic, have not even been provided with hazardous pay and yet our own government is quick to further restrict their earnings. This is constitutionally unjust and it is clear that this group is often targeted due to the influence government has over their livelihoods in contrast to the governments restricted capacity in the private sector. 2. It is highly ironic that we live in a democracy yet our healthcare professionals are subject to mandatory internships and community service as a ploy to reduce emigration. Couple this with every other downfall that public servants face, lack of hazardous pay and a wage freeze, why should we as public servants serves this country tirelessly at our own expense when all it ever does is prioritize the well being of others above healthcare professionals? For the above reasons, I think that this proposal in addition to existing inequalities in the public sector will drive more workers to migrate to safer countries that prioritize their wellbeing	Rical

I also do not agree with the idea of raising taxes. We are all recovering economically from Covid-19 and to raise our taxes even further will not solve the economic crises of South Africa, in fact it will only allow its citizens to suffer and will do nothing for poverty. 	2020-10-28 20:53:52	Gauteng		No I do not	fiscal strategy	We have a country rocked by poor covid management, seeing unemployment rocket and business upon business down scale or even close down, This same country was on the brink of collapse before covid, due to blatant rife corruption and state capture, to then hear how the strategy is to increase the tax burden on the few lucky enough to still have a job, and then reduce allocations in justice and prosecutions in particular, with a view to keeping a wingless pit of an SoE airline afloat simply boggles the mind! Flip rather bail out Eskom, at least that SoE is a necessary evil and catalyst to economic growth... but an airline already costing Billions ... in a world of restricted travel... blatant theft is what I think. This government just cannot stop themselves from literally stealing tax payer money to fund their own and personal little projects, be that overpaying for tenders because it's for relatives, friends or someone whose surname is Zuma, or just pocketing it on the sideline via bribes. It's a mafia that is currently in control, not a government. Their problem however is that the tax base has been halved, and I see no real plans in trying to curb unnecessary spending in this budget. The kitty is damn near empty and even the World Bank is ignoring the pleas for funding - because they see the very evident corruption. This country has the biggest debt because of your decisions, and the only people who will be effected is us and our children. You ANC EFF politicians are so rich you have all the power and control, nothing will effect you but every thing you do will only effect us will only be carried by us. All you do is spend money for your own projects instead of helping South Africans. All you do is buy peoples votes by forcing them to be poor and then holding out some pap and a grant. You ANC peoples biggest export is poverty. the only thing that can save this country is for you to fire all ministers, all politicians, cancel all your SOEs your state projects, stop spending money, it is our money. I demand you revise this speech bill for the budget and act properly	Doug
	2020-11-03 17:07:01	Western Cape		No I do not	spending	It's on account of the ANC Government that we are in this economic mess by allowing/closing their eyes to corruption to the extent that billions of our money has just disappeared. Merely prosecuting is not going to get the money back where it belongs. The guilty parties should be FORCED to pay back the money in whatever way possible.  Furthermore, propping up SOE's like SAA is insane. Why can't these parastatals be at least partially privatised? Desparate situations demand desparate measures & until the ANC realise this & do something about it we are never going to get ourselves out of this financial burden.	jack

	2020-11-02 14:39:01	Gauteng		No I do not	economic context	Oh wow, what has happened to the South African government wanting to :- "put a RESCUE PLAN into place for the South African ECONOMY"? However, the South African government is yet again throwing good money after bad, with the once again bail-out of the SAA? How many more times will the South African government use us taxpayers hard-earned money to bail-out the SAA, it has reached the point of being ridiculous! It must be very evident to the South African government that the SAA itself hasn't got what it really takes to keep SAA afloat. What is really going on now with SAA's huge debts - is it bribery and corruption, is it plain and simple bad and incompetent management via the SAA staff - is it all of the above? Surely, the government has been asking these all important questions by now! So then, what is the real and transparent reason now for the South African government needing to bail-out the SAA yet again, us South African citizens need to know what this reason is? Us South African citizens are struggling to make ends meet due to the many job losses here in South Africa and we are so very over-burdened and over-taxed now and we simply cannot afford to pay for so much more that the government now requires from us, never mind the government bailing-out the SOEs to the great extent that the government has been doing at the huge expense of us taxpayers money, rather than holding the management and staff responsible and accountable for the debts incurred by the SOEs, as well as the many debts of the various governmental sectors/departments and the municipalities, due to bribery and corruption and very bad and incompetent management by the staff! We do not see the perpetrators taken to task for the bribery, corruption and mismanagement that has been so very rife, very few have been taken to task thus far! The economy of South Africa will only start having a chance at recovery, once the bribery, corruption and mismanagement has been successfully eliminated in the government sectors/departments, as well as at municipal level. What will the South African government do about these very problematic issues now to improve the South African economy and in turn, the lives of all South African citizens?	Carien

We were told SAA wont be receiving another bailout , yet were we are and it is getting another bailout! and we cut funds to education and the police force, the police force is already broke and in serious need of funds, and education is the worst place to cut spending as it effects our future. and why must we pay even more taxes, they have done very little to recoup the stolen funds from corrupt officials and municipalities. working on a lend to continue paying for debt is a stupid plan and makes no logical sense, that is how you kill a nation, (take from Peter to pay Paul ), it doesn't work. 	2020-10-30 12:38:41	Gauteng	No I do not	economic context	I do not agree with any municipality increases here at all. I am a struggling mom battling financially to make ends meet and over and above what is been suggested here to pay now with these increases is high way robbery its not just expected to pay high water increases and also high charges in tariffs for eskom now this increases to. Absolutely no. The ANC government has also recently laid heavy financial burdens upon my already financially strained house hold because they have amended my rights way as a property owner with a sectional title flat rezoning all flat buildings and all sectional title units and complexes as multi living ,which the ANC government has directly instituted and passed as a law without the public consultation or neither the objection of the public at large whatsoever with owners of these buildings and complexes. This law amendment has set into motion all these type of sectional title complexes have no legal rights to oppose neither object to this law forcing this law upon me and millions of property owners with other types of sectional title units to pay as much as 109% increase in fees for sewerage as almost to a total increase of R500 per owner per unit additional to their monthly levy costs per month ,excluding the normal levy increases per owner billed to them they have to pay. Owners are being forced to pay the increases to sewerage amendment act, even if they laid complaints with Johannesburg water in advance even though there dispute lodged has not been resolved with Johannesburg water. Even some owners are saying that Johannesburg water has the rights to cut off all services of water to complexes if we don't pay even if disputes was lodged at Johanesburg water even if these disputes are ongoing. We are to pay immediately. There is absolutely no justice to turn to ,to fight this unfair decision taken by parliament and to overturn this amended sewerage bill passed by the ANC government taken where thousands of owners and millions of pensioners will even loos their homes due to overboard costs of sewerage ,high water and light charges and increases to levy ,as i cannot afford these costs and neither thousands of owners of these complexes, that will be left even possibly homeless, is also directly attacking our human rights, for what is happening here considering that covit 19 has hit families every race group caused major hunger and even starvation country wide right threw the country, together mass job losses, huge salary cuts to wages,its also clear no South African citizens has any legal recourse and legal protection against all the costs mentioned here and no human rights are being considered in basic services to the consumer. Also there is no platform that is opened up to challenge stop and block decisions on laws imposed upon the whole countries population ,which the whole population at large is gravely and servely now affected to more than possibly loos their homes and not even be able to buy the basic needs of food that cannot even qualify for any state support and are struggling to just catch up there debits to their creditors. The consumer act also has no protection to the public ,for these problems mentioned here against this amended act been forcibly imposed on the general public imposed as just told you, you have no rights just pay ,not our problem , government made this law ,the attitude displayed by staff of a local municipality approaching them about this sewerage amended act saying take your problem to Johannesburg water.	serena

	2020-11-07 21:29:44	Gauteng		No I do not	debt	Gross mismanagement by Government, wrong economic policies and corruption have almost bankrupted the State. Covid 19 has merely made it a lot worse quicker than planned. The MTBPS was a damp squib - it gave SAA money and state expenditure, especially civil servant salaries, has been left to roar on as if there is no tomorrow. Major cuts in this area are required - not just a freeze on increases. These never work in practice - managers simply give employees promotions to get around it. The Government's borrowing requirements have grown significantly. There is no doubt that a default is on the cards in the next couple of years. So where will funding come from in the future? The local banks are overloaded with Government bonds and any more bonds could bankrupt them when the default comes. Overseas institutions are not going to lend SA money that they know will not be repaid. And the Government's economic recovery plan will come to nought - it has no substance and is all smoke and mirrors. So what will Government do? Nobody will be retrenched and all other services for which we pay tax will be cut back to save money. In the end the Government will print money to meet its commitments and the Rand will continue to depreciate but at a faster rate.	Steven
	2020-10-31 14:59:26	Gauteng		No I do not	debt	The government have made it clear that they do not care about citizens. Shifting funding from essential services like policing, education and healthcare to fund a FAILED airline is ludicrous.  Instead of cutting spending, wages were "frozen," a measure as effective as using a plaster to cover an amputated leg.  Increasing taxes on the already overburdened tax payer is incredibly short-sighted. It's almost as if these politicians don't understand basic economics. Actually, of course they don't understand economics, they're all communists!  They are going to destroy this country with their policies, the youth of today, who will be the tax payers of tomorrow, are going to be saddled with debt that they never had a hand in. 	2020-11-03 19:04:31	Eastern Cape		No I do not	budget deficit	A lot can be done to address the Public Service inflated wage bill, but freezing salaries is illogical and innocent workers pay the prices for poor decisions of government leaders. It starts at the top, reduce the number of cabinet ministers and the structures below them. There is major imbalance in government structures, some have inflated structures and lack required skills, where others are over burdened and understaffed and possibly under-skilled. DPSA have failed their many attempts to address skills shortages and reshuffling attempts. Government structures are outdated, and can be streamlined, but not without addressing the inequality and proper work study initiatives to ensure structures can operate efficiently. Not honoring a multi-term agreement is further recipe for disaster as this will force an already burdened workforce to become resilient and demotivated. It seems the incompetent leader do not even understand the actual problem and will just end up aggravating the situation.	Jorge

	2020-10-29 00:05:07	Western Cape		Not fully	corruption	I believe that to curb corruption, fiscal limits need to be set. Structures should be in place to limit spending, even if it is legitimate. Municipalities should only be allowed to spend a certain amount on any project. If the project has been approved for an amount above their limits, they need to get authorization from local government who must sign off the expenditure. Amounts above their authority must be referred to the next person in the value queue for approval. These limits must be eventually referred to members of parliament for approval with the applicable Minister for approval. They must again in turn refer the expenditure to the Finance Minister and the head of SARS for final approval. That way tenders can be assessed and government has the final say in expenditure.	Elsabe

The unions will not allow it. Certain sectors such as hospital workers should be exempt anyway. To gain universal acceptance why not consider a national wage freeze? It was done once in by Maggie Thatcher. Secondly it is crazy to continue support for SAA---and Tito himself does not wish this. Many people have doubted the government's ability to cease "short term" support for unemployed people. How long will it be to see that poorly educated and skilled people exist world wide. The emphasis should be on education for young people---for our country 's sake. To spend huge funds on excessively admitted students for university is crazy.	freeman

It's impossible to implement practically. The unions won't allow cuts or freezes, & are actually suing government. The covid funds were stolen as soon as they materialised, ow we sit with more debt than we started with - which is hard to believe is possible. Unless Cyril gets a handle on the ANC & unions, as well as kicks Dlamini-Zuma out, Tito is an empty vessel & budgets of any sort aren't worth the paper they're written on.	NotWorth
	2020-11-04 11:16:27	Gauteng		Not fully	other	None of the issues raised by our sources of FDI have been addressed at all. There is no clear path set out by this budget. None of the issues raised by credit rating agencies have been addressed at all. How must anyone be held accountable on wishy washy budgets like what was presented?	Marnus
	2020-11-03 19:31:29	Gauteng		Not fully	other	My top concern is all of the above. We have a pathetic finance minister together with a pathetic, corrupt government. There is no plan, just milking the public for more funds. There is no vision and no leadership, hopefully the majority of South Africans can see how useless this speech was. Cutting funds to essential services such as education is really dumb. But then again our governing party has stolen everything and replaced competent people with morons. Hopefully the current government gets taught a lesson in the next elections.	Eugene
	2020-11-03 08:42:06	Gauteng		Not fully	other	I am really disappointed in this. Getting through this pandemic has been a nightmare. This continual bailout for people that do not know how to budget and waste money that doesn't belong to them smacks the face of every taxpayer in this country. When are you going to reduce taxes so that we can support small business with our extra cash? Why do you insist on increasing taxes when you fail so miserably at budgeting and keeping control over the money we give you? You are really showing that you don't care about the middle class which is being hit from every side and incurring more debt to fund your corruption and wasteful expenditure. This has to stop immediately! We are fed up !	Zaheda

	2020-10-30 14:42:51	Northern Cape		Not fully	other	My concern is the 3year salary freeze and the fact that we cannot borrow money from our own pension funds. Majority of us public servants are already over indebted, with our current salaries, we cannot even afford to buy houses, cars etc. Without the increase, we will be pushed more and more into debt, everything is getting expensive, e.g rent , food and policies are increasing every year by 6-10%. The freeze will be a temporary solution, however the psychological impact will last longer, instead of us having to borrow money from the bank, getting a chance to borrow atleast 10-20% from own pension fund can provide a relief to the majority of us. Thank you	Hilda

	2020-10-29 16:01:33	KwaZulu- Natal		Not fully	fiscal strategy	We require a sound, transparent and severe fiscal strategy which is not only directed by politically influenced decisions, and which offers policy certainty. This includes the professionalisation of the public service and SOEs, without political interference and the practice of cronyism. It is indeed very challenging, but regrettably necessary to protect the patrimony of the poor., our young people and future generations of South Africans. We cannot be utilitarian in any manner or form.	Mark

	2020-10-29 11:36:26	Gauteng		Not fully	debt	Dear Minister Mboweni, Thank you for a courageous budget. Can't we just in this crisis forget about political goals and focus on sound financial goals. The country just cannot afford all the grants, government workers, let alone SAA and other bail outs. Please REALLY ACTUALLY PRACTICALLY remove the red tape and help create more Entrepreneurial businesses. We are still getting untrainable young people from government schools. BBBEE is killing sound businesses. Please lift the barriers to doing spontaneous good business, improve education REALLY AND ACTUALLY from pre-school phase. Please STOP the wasteful expenditure in government. What does a good budget mean with not good implementation and a clean audit report? Start enforcing checks and balances by skilful & suitable managers. Forbid cadre deployment. I am sure Siya Kolisi's aunt will be a bad rugby player just as the many family members of cadres who are currently are bad workers, ruining the state departments and municipalities. What has happened to the performance management system in government? Government is very quiet about this. By now 50% of positions should have been vacant if incompetent workers were managed out effectively. We work with the Master, Waltloo licencing offices, Municipalities and Home Affairs - SHOCKING, SHOCKING, REALITY - AT LEAST WE CAN'T FALL OFF THE FLOOR.	Regina
	2020-10-29 06:08:33	Gauteng		Not fully	debt	Government should find other means of raising funds and make tax paying citizens easy targets by just increasing taxes. While continuing to loot the reserves with impunity. Increasing taxes will only make the country poorer. Government should create jobs. We are tired of grand plans and no implementation.	Seriti
	2020-10-28 15:56:30	Gauteng		Not fully	debt	The huge amount of interest on debt will probably only get worse. Stop bowing to the unions and reduce the size of parliament and their salaries and the dead wood in all municipal departments.	Roz

Eliminate corruption and bribery and you will eliminate govt debt. Also what is the reason for so many govt departments. You actually have an office of the presidency with a minister and his whole lot of advisers and troop.  Appoint ministers for their skills and knowledge and not experience. Not because they are friends and served time in jail .	Tommy
