Please focus 1st on stopping corruption and fixing everything you f#cked up in the past 26 years e.g all the State owned enterprises (Eskom, SAA, Denel, Transnet) to name but a few, before trying to be like China.  Respect the citizens of this country's privacy. We don't meddle in yours.	Tanya

If people want to have sex change , they can apply to have their ID changed accordingly. That's their prerogative. I do not see the need to have one's child fingerprinted and their photos demanded at the age of ten. Changing ID'S will place an even greater burden on taxpayers. There are countless problems that should take priority such as more dams being built & the existing dam infrastructure to be properly fixed, not just patched up. Schools need upgrading. Our railways and buses are in dire straits. For Heaven's sake, stop wasting peoples' hard earned taxes and do the right thing.	Hillary

						<p>The governments want to know everything about citizens, continuously encroaching on our privacy with the reasoning that it is for our own good. But what would truly be for our collective good would be a transparent government, not one that gets increasingly obfuscated and vague with their true intentions. There will never be an ID system that is incorruptible, as long as there are corrupt people that steal identity and those that apply undue control (and extortion) by holding identity information.</p> <p>Keep the randomised ID system because it really would remove bias, but throw out the rest of the bill.</p> <p>The politicians and bureaucrats don't realise that they will not always be safely on top and out of reach of their own laws; everything inevitably changes - they will lose their positions of status and they and their generations to come will suffer for their foolishness now. A dire but true warning that may hopefully direct to a beneficial decision now, while it is still not too late.</p>

	2021-02-01 00:04:54	Gauteng		No I do not	Privacy	I completely object to mandatory bio data being collected. This should only be collected if someone commits a crime, to be on a police database. A person's privacy is protected in SA and DNA should not be collected. Existing ID's work fine and we do not have the funds to keep changing systems. Why change something that works.	K
	2021-01-31 22:14:21	Gauteng		No I do not	Privacy	I do not wish for my personal data to be shared with other countries or any other entity. There are only two genders physically. 	2021-01-29 15:42:22	Gauteng		No I do not	Privacy	Privacy is one of the biggest concerns of the biometric solution. If the servers storing biometric information is hacked, it could have extremely serious consequences for individuals. Lack of accuracy when capturing the data is another concern. Further we are in a financial crisis. Should this really be a priority? This is just another opportunity for tender corruption. The present D system is sufficient.	Hester

	2021-01-25 14:10:51	Gauteng		No I do not	Privacy	First of all.We indeed have other pressing issues to deal with. I am sure it will also be costly to roll out. Please use the money to get us a vaccine for covid 19 as it is government has already bailed out SAA instead of putting the money towards a vaccine or creating jobs in poorer communities so that they can also have some kind of dignity as it is our goverments budget is already under strain. This just opens up a route to corruption again.	husmuk

	2021-01-24 15:05:40	Gauteng		No I do not	Privacy	Besides being a waste of Taxpayers money why do we need another ID card/document?? There are NO jobs and too many people in the country to serve timeously. Too much red tape and queues of people needing money. So no I think it's a bad idea all round! I as a Taxpayer feel it's my right to say No! I am not a non gender either! Just another way of siphoning money from the Taxpayers again!	Carmela
	2021-01-24 11:35:13	Gauteng		No I do not	Privacy	The question citizens need to ask are such as why now? Why so much government control? Why so much info (biometric data) on the individual? In my view of individual rights and freedom, random ID numbers should suffice! Let us not set ourselves up for manipulation and slavery in the future!	Johannes

					<p>My ID reveals my birth date. I is very important me since it provides a unque identification. I am able to remember my ID due to the fact that it starts with my birth date. I must always proivde my ID number during inquiries. I am not going to remember or provide my my new ID number.</p> <p>I cherish my privacy. Although my birth date is not private, the remaining digits are private. This is enough to protect my privacy.</p> <p>If the State is running out of ID numbers, it must add additional digits to the existing ID number. The other option is to move the birth date from the front to the back and move the remaining digits to the beginning for new births starting from year 2022.</p> <p>But leave the existing ID numbers alone. Do not reinvent the wheel when it is not broken.</p>

It is a book of recipes and instructions on how to achieve wealth beyond the dreams of avarice and is after 26 years of heavy use by the "comrades", by now a very well-worn cookbook !</p> <p>The first line in that book is "First invent a project - any project at all whether needed or not by this country - and get enormous funding allocated into your control...!"</p>

	2021-01-16 12:37:30	Gauteng		No I do not	Privacy	<p>Capturing of ones DNA and/or biological identity is a massive invasion of ones privacy. This will lead to further abuse and corruption. I am totally against this proposal and I feel that it is vastly unconstitutional and inhumane.</p> <p>Rather implement this in the jail and prison system. Those who have committed heinous crimes, such as rape and murder for example, forfeit their right to privacy and therefore must have their biological identity captured.</p> <p>Roll-out of this for the entire population would be extremely costly and would require further monies to be paid to international companies. This country is already in a massive amount of debt. The proposal is not viable and is essentially unconstitutional.</p>	Damian

	2021-01-12 15:34:16	Gauteng		No I do not	Privacy	<p>This is another way of taking our biometric data and controlling our lives and privacy. It poses an enormous threat to our privacy, our rights and liberties and there is no confidence in the security of our biometric data. Imagine if this gets a botch in the system? It fits in with The Great Reset where governments will have intrude and take complete, digital control of our lives. The last year has shown how easily they removed all our constitutional rights in the name of a low mortality disease. "Social distancing" with 5G takes on a whole new meaning! They know no bounds and are now pursuing every avenue to take away all freedoms. They will probably enforce the vaccine and the digital dust inserted or a "digital tattoo" (Gates has the patent) will suffice as we will have given away our rights with this digital, biometric ID. I am vehemently against it. Enough is enough. I do not want to carry the "mark of the beast".</p>	Patricia

Dit lyk asof SA nou China se modus operandi volg en dit kan baie gevaarlik raak vir die burgers van SA. Wat is die beweegrede hiervoor? Waarom biometrix, veral vir kinders van geboorte af en dan weer op 5? Mens se privaatheid en vryheid sal sò in gedrang kom, dit sal die einde van vryheid wees! Hoe kan mens hierdie ooit vertrou? Hoekom 'n databasis stig wat absoluut alles van jou het, insluitend biometrix? Ek vertrou geen instansie wat sò ver wil gaan om mense te kan monitor nie. Wat is die agenda?	Suzette

	2021-02-27 07:32:43	Western Cape		No I do not	Privacy	I think this is an invasion of privacy. It is very important that state powers are not extended to the point of megalomania, as this allows space for highly oppressive systems (no matter how well intentioned a project is). 						There is no valid reason for the government to have so much information on its citizens. This will give government more power than it needs. We should always remember that government works for citizens and not the other way around. Government intervention and data gathering should be kept minimal to avoid future potential government control of citizens. Governments role is to administrate on behalf of citizens, not control citizens. This is a scary step towards government having more power than the people, that should never be allowed. We are men and women of the soil, not barcodes. If anyone should be tracked and traced it is government officials and that information should be made public, not the other way around. If this thing takes off we are on the road to a totalitarian state where people can be discriminated against, victimised and surveyed. This is not acceptable.	fotini

	2021-01-17 17:22:37	Western Cape		No I do not	Privacy	This is a complete overreach of government into personal privacy and is far to open to being abused by those in power. I strongly disagree with this form of identification and the biometric tracking which will be linked to it. The current ID system works just fine and the money required to make the changes proposed are far more needed elsewhere. We have to stop governments interference and over control of the population. It is beyond their mandate and unconstitutional. Enough rights and freedoms are already in severe jeopardy as it is. This cannot be allowed to be implemented.	Margaret

Why should my information be so closely linked to that of my parents? Some people have parents they'd rather forget, it's okay that they are om our birth certificates, linking them to their kids like that is just too much. Some people will find themselves stigmatized by virtue of who their parents are and their information appearing parallel to that.	Kedibone

						There are too many hazards associated with this. Firstly, biometric data is private and is dangerous in the wrong hands, especially a corrupt government. It can be used to control and manipulate the populace in any manner the government sees fit, no matter how unethical. For example, it can be used in the monitoring of the populace 24/7, and can easily lead to a system which blackmails citizens into compliance with the state's idea of how everyone should act. China is a prime example of this. Biometrics could also be used in the regulation of monetary transactions, and if the state wishes to influence a person or certain class of person, they will not be able to buy or sell as the transactions will be linked to their biometrics.  Further, the current identity system has sufficed for decades and is simple and effective as is (when run properly). The Dept of Home Affairs struggles with the current set up merely because of inefficiency and corruption. It is a nightmare trying to deal with this institution as it is, and anything more complicated will create an even worse situation. A "randomly" issued ID number will inevitably lead to complications, such as duplications.

Medically, there are only two genders and gender dysphoria is still leading to raging debates among the pro-trans and more traditional spheres of medicine / endocrinology / psychiatry as well. When the dusts settles and the non-scientific nature of the trans-train is revealed for fallacy that it is, we "proud South Africans" would like to look back on this and at least find solace in our DHA having done the right albeit unfashionable thing. We have a lot of challenges far more exigent than ID number systems, our current system needn't be overhauled when there are for more important things to which the DHA's attention can be directed. 	2021-01-06 08:48:02	Free State		No I do not	Privacy	Which kid uses another kid's birth certificate? For what reason? And how often does it actually happen? God created only 2 genders, male and female, even if you are born as a hermaphrodite, still only male and female. Nobody is non-male or non-female or genderless. Why are you buying into this nonsense from overseas? Have you seen how devadtating gender reassignment surgeries are on teenagers? The law tgat you put in place in 2019, that any child of 12 can sign for any medical procedure without thete parents knowledge or consent is absolute hogwash. Who in government is actually protecting our children? Now you want to teach kids that even if they were born as a boy or a girl, they can still choose there gender? In a country where more than 80% of people are Christians, how can you teach children this nonsense? Children need guidance not indoctrination! Biometrics of people? Why? Can you not identify someone from a photograph? You will not control us and stop trying to. We will never comply to your New World Order.	Judith

To include any other gender category is against the Bible and not acceptable.  No such amendment of the Identity policy must be allowed.	Steve
	2021-02-09 17:18:57	Gauteng		No I do not	other	Just so unnecessary...more wasted money and longer employment contracts for the already disfunctional civil service.	Doris
	2021-02-08 21:40:09	Gauteng		No I do not	other	It is so difficult to renew a vehicle license how long do you thinknit would take to do n all the other requitements i.e. Iris scanning 10 finger prints etc Also the cost involved for parents again after 5 years? Why . . just keep going with what we have. It is working. Also changing all current ID numbers at banks, insurance policies etc. A nigitmare!	Desre
	2021-02-02 09:28:43	Gauteng		No I do not	other	There are more important issues in this country that need immediate attention and finance.	Rozanne
	2021-02-02 07:26:23	Gauteng		No I do not	other	This is just another waste of tax payers money. Why fix what is not btoken	Petro
	2021-01-31 23:03:18	Gauteng		No I do not	other	They just want this so more money can be stolen through corruption.	Tom
	2021-01-29 14:59:48	Gauteng		No I do not	other	The current ID numbers provide all the information needed for our needs. This is a waste of time and money and sounds like another gravy train waiting to leave the station. No!!	Jenny

	2021-01-28 18:55:34	Gauteng		No I do not	other	I am concerned and alarmed of the consequences and ability to fund the program and it is more wasted tax money when we are already in a shambles. Also, why change everything for no apparent reason? For what gain? There is no justification. The implementation is also questionable... gov have proven their ability to do almost everything... and now people, stretched to the limits have to add this to their burden. No! SA is nearing a fully failed country. Dont add more issues when not needed. Corruption can be expected, and maybe this is a new idea to steal...just dont! Finally, information security and privacy are a concern... stop trying to over control the nation.	Arthur
	2021-01-28 16:45:36	Gauteng		No I do not	other	Try and sort out more important issues like poverty and unemployment. Stop wasting money on things that actually are working.	Ryan
	2021-01-28 14:13:40	Gauteng		No I do not	other		Paige
	2021-01-27 20:49:35	Gauteng		No I do not	other	What is wrong with the system we have now???? This is just another excuse to continue the looting. Rather take the money that is available and spend where its needed hospitals, schools, roads etc. Stop wasting the south african taxpayers money on nonsense.	Anthony
	2021-01-27 14:09:05	Gauteng		No I do not	other	The current ID system works well and there is no reason to change it. It will cost a fortune to do this and it is money we do not have. The taxpayer will be forking out more unnecessary money and the government will just find some way to overspend. It would also mean that all South Africans will have to change their ID numbers on all their legal documentation, which will be a mess. Don't fix something that isn't broken and spend the money on feeding all the unemployed instead.	Colette
	2021-01-27 08:08:28	Gauteng		No I do not	other	We have a working system. This new system would be a complete waste of taxpayers' funds at a point where our country is near bankrupt. This is insanity! Use the intended funds to improve the health system and education!	Astrid
	2021-01-27 00:54:14	Gauteng		No I do not	other	The current is system is fine and works well . This is another waste of tax payer money ..unnecessary! Another way to steal money from the taxpayers. Security and Privacy is a big concern, especially under our constitution - thus unconstitutional.	Quinton

	2021-01-26 20:19:54	Gauteng		No I do not	other	Why engage in unnecessary expense ....this also hints of control by outside globalist powers.I want to live in a sovereign country...not a communist controlled Ghetto...all these tracking measures have ulterior motives...as victims of these globalists why do we keep falling for their (frankly weird) demands...it hasn't done anyone any good anywhere in the past has it?	David
	2021-01-26 18:41:26	Gauteng		No I do not	other	I am totally against it. Unnecessary to introduce a new system. First make the current systems work. Who must fund this as the ANC looted all funding. We have no money but you want to tax already burdened tax payers even more!	Susan
	2021-01-26 01:06:39	Gauteng		No I do not	other	The current system is sufficient for our present and future needs, it only needs proper, corruption free implementation. We cannot afford yet another blue sky project that will be severely over budget, delivered many years late, and be looted and fleeced into a standstill by the same old tenderpreneur government corruption that has already killed what used to be a Wonderful country and turned it into a slum that every citizen capable of thinking for themselves just a little is desperately trying to leave. This will simply become more money wasted on corruption that the corrupt few take out of this country so that they can live the high life somewhere else leaving the rest of us mere morons to pay for their sins, literally. Get the basics right first please.	Dimitri
	2021-01-25 20:32:54	Gauteng		No I do not	other	Just another money making scheme. Have changed my ID three times. 1 Black book 2 Green book 3 ID card. Enough. Parents are deceased long time ago. Some of our children immigrated and obtaining any info from Home Affairs is a challenge. No thank no. Not necessary. All babies / people will ever be registered. To many remote areas, refugees etc	Ria
	2021-01-25 14:50:36	Gauteng		No I do not	other	This is another way for the ANC to squander our money to break a system that is working fine. They have run out of money and are thinking of new ways to obtain it, and what better way than to give the contractor to a Comrade.	Lorenza
	2021-01-25 13:58:04	Gauteng		No I do not	other		Kerry
	2021-01-25 09:32:28	Gauteng		No I do not	other	My Top Concern is all the above. The government has time and again shown they cant manage data and leaks abound.	Tinus

	2021-01-25 09:02:51	Gauteng		No I do not	other	I feel that there are so many many more pressings situations that need to be attended to ie. housing ,roads,electricity,poverty , SARS , schooling etc etc	Sharon
	2021-01-24 22:15:14	Gauteng		No I do not	other	I did not vote for the ANC. I do not accept the puppets of the illuminati making decisions on my behalf. I as SOOOO disappointed in Cyril Ramaphosa. Growing up as a Christian, throwing it all away for money! God is right! Read Revelations These are the last days. May Jesus be with us!	Marissa
	2021-01-24 20:25:13	Gauteng		No I do not	other	There are only two genders. Male and female created in the image of GOD. There is not a third or any other gender. Other genders are a perversion. What is wrong with the current ID system??? If its not broke dont fix it	Michael
	2021-01-24 18:03:35	Gauteng		No I do not	other	A new I'D system is a complete waste of money, especially seeing as SA is all but bankrupt! South Africa has more important needs which need funding ie vaccines, proper operating clean hospitals; schools without put toilets, poverty, job creation, delapatated infrastructure should I go on?	J
	2021-01-24 14:15:58	Gauteng		No I do not	other	This is simply another way for the criminals in the ANC to steal more money from the fiscus.	Richard
	2021-01-24 12:38:50	Gauteng		No I do not	other	This is an absolute waste of tax payers money, spend the money on more important issues like, unemployment, covid-19 ,and housing, new id number system really!!!!!!	Gary
	2021-01-23 18:49:12	Gauteng		No I do not	other	None of the motivating points offer any positives for us the citizens who's best interests you are meant to serve as public servants. Our country has far more pressing issues that need addressing. NO NO NO!	Barry
	2021-01-23 14:00:51	Gauteng		No I do not	other	Home affairs can hardly manage the existing system, how would they ever replace/update it totally? It is absurd.	Norman
	2021-01-22 12:37:49	Gauteng		No I do not	other	A waste of time and money.	Rautenbach
	2021-01-21 12:09:29	Gauteng		No I do not	other		Chantelle
	2021-01-21 11:07:24	Gauteng		No I do not	other	I do not consent to governments invasion of privacy according to our constitution it is our right. Its also another means off exhausting citizens financially as the Lockdown already has us in poverty and no choice of free will anymore.	Sebastian

	2021-01-21 07:26:58	Gauteng		No I do not	other	This is once again another money making racket for corruption and something that will never ever ever work in this 3rd world country. There are too many government thieves that live to rob us ordinary citizens blind, they won't stop until we've got nothing left of ourselves, no privacy, no freedom of speech, no democracy, no jobs. Instead do something constructive and useful instead of trying to enrich yourselves, you should be ashamed of yourselves. This is just another stupid idea brought to you by a government who doesn't give a damn about its citizens.	Trewin
	2021-01-20 17:27:19	Gauteng		No I do not	other	Stop wasting time and money. There is nothing wrong with the current system. Has somebody in the government got a friend who wants to tender for the new system.	Pieter
	2021-01-19 19:50:06	Gauteng		No I do not	other	Waste of money . More for the government to steal	John
	2021-01-19 17:06:15	Gauteng		No I do not	other	The current system cannot be run effectively and then they want such an elaborate system.	Lionel
	2021-01-19 17:06:11	Gauteng		No I do not	other	The current system cannot be run effectively and then they want such an elaborate system.	Lionel
	2021-01-19 16:40:28	Gauteng		No I do not	other	Home Affairs is in such a mess at the moment, with fraud and corruption top on the list.... Stop wasting the tax payers money on any more wasteful projects.	Dawood
	2021-01-19 15:45:20	Gauteng		No I do not	other	Just another way to steal money rather take the money you are intending on spending and put it into school, hospitals and infostructure	Marcel
	2021-01-19 11:56:57	Gauteng		No I do not	other	More jobs for pals. At taxpayers expense. There are only 2 genders. Why fiddle with something that is not broken. Transformation = replacing white excellence, with black incompetence. The current system works. Leave it alone. We are not your slaves. Our privacy is paramount. I fought in a war against communism. I 'll do it again. Voetsek ANC. Voetsek EFF.	Valin
	2021-01-19 09:33:17	Gauteng		No I do not	other	Why fix that which is not broken. South Africa is in trouble. Rather concentrate on the important issues. Why waste money. Why want to 'check up" on children. Will this solve out trafficking problem? No. Will this solve our child abuse problem? No. And so many other "no, it won'ts"	caroline

	2021-01-19 07:27:15	Gauteng		No I do not	other	Die huidige regime is nie instaat om enige stelsels instand te hou nie. Daar is geen aanduiding van enige probleme met die huidige ID nommer nie - tog snaaks dat hulle die biometriese inligting soos bv geslag en geb. datum wil verwyder maar tog die alternatiewe van biometriese elektroniese inligting ( Retina, vinger afdrucke ens) wil behou ? Die huidige nommer stelsel is baie eenvoudig en kontroles om die wettigheid van die nimmer te kontroleer is baie maklik en ooste effektief. Nog 'n ANC geld steel aksie ?	Pieter
	2021-01-19 06:54:25	Gauteng		No I do not	other	Money making they can't even help us now with ID's ect ...leave it alone it's working NOTHING wrong with it ??	Rowles
	2021-01-19 00:03:39	Gauteng		No I do not	other	WTF They don't have any right to try and do this! They are abusing their power and the citizens, this is going to be another Zimbabwe and worse. All our professions are leaving , also Doctors and nurses, teachers, Artisans etc. and I can go on and on. This Government is becoming a Dictatorship! Where the hell is this Country going. I refuse to do this and it is my right to privacy. First they want all he land without compensation and now this, they can go to hell and burn! I have had enough! They are trying and will eventually succeed but there are going to be riots soon because they have no money and people are starving and millions of jobs being lost and businesses closing and they want to be stupid by tracking you? Give me a break! #FoetsekANC and especially #VoetsekDlaminiZuma. My apologies for ranting here like a lunatic, but I like millions of citizens have had enough. They should have a look around them! They are losing votes!	Bev
	2021-01-18 16:48:09	Gauteng		No I do not	other	I'm so sick of ineffective solutions for the problems the government created and then the transference onto the population to fix. I must go reregister , spend time in ques being served by unprofessional, incompetent staff at home Affairs and for what? The people with false SA ID's have them because of government failures... find a solution that doesn't involve me!	Lenise
	2021-01-18 08:14:53	Gauteng		No I do not	other	There is nothing wrong with the existing system that updates to security could not fix.	DEREK
	2021-01-18 07:42:09	Gauteng		No I do not	other	I have had my SA ID for the last 50 years! Why change now. The cot implication will be tremendous and subject to fraud and corruption	Ian

	2021-01-17 21:48:16	Gauteng		No I do not	other	How about getting the current system properly in place first? Always something new to rob the already cash strapped citizens!	Brigitte
	2021-01-17 20:17:47	Gauteng		No I do not	other	We are supposed to live in a democratic country and the old ID system was working fine till now that the NEW WOLD ORDER wants to implement there strategy of controlling individuals. Rather take DNA from birth and start to control the up normal crime we experience in this country and police does not have the excuse of no evidence.	Wilhelm
	2021-01-17 16:49:27	Gauteng		No I do not	other	NEW WORLD ORDER rollout. We do not consent.	Veronique
	2021-01-17 12:47:00	Gauteng		No I do not	other	The entire policy is overreaching, unsustainable and not practical  New random numbers will remove the existing verification built into the number  The addition of other genders. There are only 2 genders, the rest are mental conditions.  "Re-registering at the age of 5" is impractical and will cause an additional layer of red-tape resulting in longer rows, many more civil servants producing nothing except heaps of paper, less productivity, more cost, duplication of information.  The "new register" is doomed to fail as the entire population cannot accurately and timeously be transferred.  Although I do support biometrics the draft is overreaching and seems to be drafted by a committee using internet search engines for ideas	Gerhard
	2021-01-16 17:48:08	Gauteng		No I do not	other		Gys
	2021-01-16 17:30:11	Gauteng		No I do not	other	I dont see the use for new ID 's as our country is bankrupt. Unnecesary costs...we will not be forced into this.	Annelize
	2021-01-16 16:44:03	Gauteng		No I do not	other		Martyn
	2021-01-16 04:23:39	Gauteng		No I do not	other	Korrupsie	Ralie

	2021-01-15 17:33:23	Gauteng		No I do not	other	I do not understand why a new ID Card system is necessary. The existing ID card system was implemented a few years ago and I have the ID Card. I think the government is looking at ways of generating income by implementing a new card. The majority of South Africans still use the green ID book because they can't afford to apply for an ID card and they do not know how to use the internet. Why did not look at innovation when they implemented the card system originally. Is this going to be another mandatory obligation forced down on people. If this is introduced, the Home Affairs Minister should think about rolling out the application of the card to all banks post offices, e-toll facilities which are white elephants so that people do not have to go to Home Affairs offices to stand in queues.	Ursula
	2021-01-15 17:00:24	Gauteng		No I do not	other	I have already had three different ID numbers in my lifetime. Another money wasting exercise.	Paddy
	2021-01-15 13:58:53	Gauteng		No I do not	other	The government does not need to waste money on this at all, the current ID system is adequate!	Marco
	2021-01-15 13:57:26	Gauteng		No I do not	other	There is nothing wrong with the current system, and we do not need to waste money!!	Agata
	2021-01-15 09:05:19	Gauteng		No I do not	other	There is no need to change the current ID system. It works fine as it is. A new system would cost too much and the implementation would never happen properly like anything else in this country. Money can be better spent on other more important issues in the country	Mohamed
	2021-01-14 20:12:02	Gauteng		No I do not	other		Marjorie
	2021-01-14 19:37:43	Gauteng		No I do not	other	I don't trust the government - it's too corrupt to justify spending time and money on this. There's nothing wrong with my old number.	Schalk
	2021-01-14 12:00:01	Gauteng		No I do not	other		Sharon
	2021-01-14 10:59:49	Gauteng		No I do not	other	I think this is just another way to control us and I won't be controlled but anyone.  Why spend more time and money on a system that works.	Marius
	2021-01-13 21:37:43	Gauteng		No I do not	other	Cannot even manage current system ????	Dries
	2021-01-13 16:09:02	Gauteng		No I do not	other		Magda
	2021-01-13 09:17:52	Gauteng		No I do not	other	They can't process current work load and now we want to introduce new ID numbers. Someone is going to make a lot of money again	Wendy
	2021-01-13 09:06:08	Gauteng		No I do not	other	SA is already bankrupt. Spend the money where it can help people who need it.	Alan

	2021-01-13 08:51:54	Gauteng		No I do not	other	Just another money making scheme.	Cherene
	2021-01-13 08:20:32	Gauteng		No I do not	other	Take your New World Agenda and shove it up your ass!	Veronique
	2021-01-13 05:58:55	Gauteng		No I do not	other	So the "caster semenya" people are gonna cost millions extra? There is nothing wrong with the current system, so why change it. The anc want to impliment more things but cannot even keep the current systems running. Card backlogs due to lazy unionists and arrogant government workers will make the system unstable and overloaded.	Koos
	2021-01-12 21:13:30	Gauteng		No I do not	other	Waste of manpower and funds	Lucia
	2021-01-12 21:11:21	Gauteng		No I do not	other	Wild goose chase and devilish.	Dr.
	2021-01-12 17:08:13	Gauteng		No I do not	other	Another total waste of money. There Ares far more pressing issues than this	Beverley
	2021-01-12 16:24:47	Gauteng		No I do not	other	This country is broke. We cannot afford any new expenses put in place right now. With more dodgy tenders and more theft of taxpayers money. Stop looking to line your pockets when there is NO MONEY IN THE COFFERS	Devora
	2021-01-12 16:06:19	Gauteng		No I do not	other	There are only two genders male and female! There is no other! Stop overriding nature, it will not end well.	Shanan
	2021-01-12 16:05:08	Gauteng		No I do not	other	I am not comfortable with the idea of having or introducing another gender role in society, and I not not think there is anything wrong with the current ID Numbering system.  We need to firstly find ways of protecting our current information from con artists and corrupt home affairs employees.  If we do not use unique markers like DOB etc what would they be replaced with?? Random guessed numbers?  The biometrics are something that is secure and I can agree with that portion, however that coupled with the rest is just not a good suitable / plausible solution	Annon
	2021-01-12 15:23:38	Gauteng		No I do not	other	Just another excuse to reinvent the wheel so some ANC crony can profiteer.  More theft.  Totally not required.  Far too many thieves in government.	Steven
	2021-01-12 15:18:14	Gauteng		No I do not	other		Elizaberh

	2021-01-12 10:37:05	Gauteng		No I do not	other	The govt is not able to manage anything. Where is the 500 billion? New system is just to fill their pockets and will be mismanaged and corrupted by the politician and government officials. Enough is Enough. When do we vote them out and pull the corrupt in jail?	Conrad
	2021-01-12 07:19:03	Gauteng		No I do not	other	Unnecessary as system already exists.	Dino
	2021-01-12 03:05:50	Gauteng		No I do not	other	Data security and various others however, let's get over covid-19 for a couple of years before we come up with bright ideas	Glen
	2021-01-11 20:14:50	Gauteng		No I do not	other		Lee
	2021-01-11 15:17:20	Gauteng		No I do not	other	This is an intrusion into the home life of children, to insist that they be identified to the government at the age of 5. The government has nothing to do with these children. They are not in the care of the government. They are in the care of their parents. Giving half-person status to children under 5 is to deny them the rights of citizens, and that is abhorrent. Just give them their identification once: they will only get born once. They will not be born again into the family of the government at all. It's nonsense.	Anton
	2021-01-11 11:10:10	Gauteng		No I do not	other	Its a waste of time and money. Fix the system we have, don't make everyone have to apply ago. Home affairs is a mess just trying to get anything done as is. Noone wants to have to redo everything. Just stop wasting money and fix what you already have.	Sam
	2021-01-11 10:46:59	Gauteng		No I do not	other	No, I don't support this. Seems like another money making system, just like renewing our drivers licenses every 5 years.	Jane

						<p>So now the ANC is openly trying to give us a new ID number just like the Nazi's did for Jews in 1930's Germany. And for what? To facilitate those that get the Bill Gates Poison rDNA modification Nano-Tech bio weapon called a vaccine and then limit your rights if you refuse to take it?</p> <p>Why else is this needed now just as the vaccine is about to be rolled out in SA? Or is this just another way to make more taxes as the ANC has destroyed this country and has sapped every bit of life force out of this economy and the SA tax payer? Or perhaps this is another plan given to our president by the Chinese Communist dictator (his boss) to achieve both goals in one neatly packaged scheme?</p> <p>There is no need for this. The ANC has to be held accountable for the destruction of this country and the deepening poverty by the SA people. The ANC has shown that they have zero interest in law and order, so why do they want to pass any news laws? Only to their own political goals to further enslave and impoverish our citizens.</p> <p>This is yet another move towards a global communist system under the scam called COVID-19! Wake up people!</p>	
	2021-01-11 08:01:37	Gauteng		No I do not	other		Devon
	2021-01-10 16:09:04	Gauteng		No I do not	other	<p>Home Affairs can't cope now, how will they get this done for the whole country.</p> <p>It isn't necessary but Government pretends it is because they want to force us to take the evil vaccine and micro chip. Work of Satan and an excuse to extort money from suffering people.</p>	Valerie
	2021-01-10 13:36:52	Gauteng		No I do not	other	<p>Things at home affairs don't work as it is. Stop spending needlessly when there are people living in shacks with no way of ending their poverty cycle.</p>	Tamarin
	2021-01-10 11:46:16	Gauteng		No I do not	other	<p>All of the above. Our ID numbers worked just fine. Fixing the economy is more important.</p>	Jessie

	2021-01-10 11:40:08	Gauteng		No I do not	other	<p>The govt is spending time on things that have been changed already from the green ID book to the card system and it works</p> <p>Why trying to make the people of this country more poor and suffering than they already are</p> <p>We the SASSA pensioners find it hard to pay for the renewals of ID'S and drivers licenses everytime and this is just another way for them to mess up something that does not need change</p> <p>PLEASE LEAVE IT BE!!!!!!!!!!</p>	Cecil
	2021-01-10 10:18:59	Gauteng		No I do not	other	<p>Just another expensive waste of time. People don't have money to waste on paying for yet another type of ID. Use the time and resources fixing this corrupt country and getting rid of its corrupt politicians rather.</p>	Susan
	2021-01-09 22:06:50	Gauteng		No I do not	other	<p>It's a waste of time. The current system works. What about divorced siblings and parents. How can you link a child to the mother instead of both parents. What if they are divorced and has adopted a new mother? What if the mother is imprisoned and the child has a new motherly figure? What we have works keep it that way. Rather concentrate on men being abused by vindictive women keeping their children away from their fathers. Men abuse is on the rise but it's not spoken of. Do something positive rather than waste resources on trivial stuff like this. The current system works. Don't mess with what works. Fix up the family advocate system to be more efficient in dealing with families that have been split up by poor ineffective government bodies to deal with the crisis. Get good social workers involved. Let fathers have more control of their families after divorces. Get processes in place that work without all the red tape. This linking of ID numbers to parents is a triviality which has no bearing on real life issues. The ID system works. Fix up the family advocate system and legislate laws giving both parents full rights and make violations of a court order to become effective and workable empowering police to take action instead of the courts.</p>	Iqbaal

						<p>From a personal privacy and data security point-of-view, the South African government will need to really very well respect and protect each and every South African's rights to privacy regarding their personal information and details and this will need to be so much so, due to the rife existence of cyber crimes worldwide and the wrong people getting hold of personal information and details that they definitely should not be receiving by any means. So, what gets recorded on the Internet is of the utmost importance and so many people worldwide are continually warned not to put too much of their personal information and details anywhere on the Internet because of the many cyber crimes worldwide that take place on a daily basis! Computers, laptops, tablets, cell phones and so on are therefore not safe-havens by any means for personal information and details and this will need to be kept to the absolute minimum on these mentioned- and other devices.</p> <p>A new population register is very questionable here in South Africa, what huge costs are we talking about here to accomplish this and what will this huge cost amount to for the South African tax payers? What about the millions of legal as well as illegal migrants from other African countries, how will the new population register address and deal with this huge increase in the South African population? Surely, all of these migrants living in South Africa will have to be included in a new population register because how can so many millions of migrants be left out of South Africa's population register?</p> <p>Subjecting South African and migrant children to re-register their IDs at the mere age of 5, including 10 finger prints, a copy of their eyes irises and their family-trees, sounds far too over the top to implement and record really successfully countrywide here in South Africa and again, what will the huge costs be to the tax payers once again? Likewise, obtaining each and every South African and migrant's family-trees will not be possible because so many parents and fore fathers/mothers and their families have long past away and there's no one left to find out about the family-trees, for what the family-trees have been in the past that will be truthful and trustworthy information and details! What is the point then, to only get some family trees</p>

	2021-01-08 22:03:09	Gauteng		No I do not	other	This is just a new method of the ANC to discriminate against minorities. It will also be a money wasting effort, for the ANC to pull more money, from the taxpayers, into their own pockets. The current system works, why change?	Jan

	2021-01-07 20:39:14	Gauteng		No I do not	other	Firstly, Home Affairs is in a shambles and has been for years, they can't cope with their current workload. Secondly, this country can't afford frivolous changes, IF there is money available for this it would be better spent on education and healthcare.	Beverley
	2021-01-07 19:06:28	Gauteng		No I do not	other	Why fix what is not broken. This country is in such a financial mess surely money spent on this unnecessary procedure could be far better spent in other areas i.e health care, housing etc	Desree
	2021-01-07 18:42:18	Gauteng		No I do not	other	Given the state of the country's economy, there are surely more pressing issues than a new ID system. Wonder who will be getting the tender for this new money making scheme, and how long before the signs of corruption and wasteful spending surfaces, if implemented.	Tersia
	2021-01-07 18:41:45	Gauteng		No I do not	other	Stop this no gender based nonsense. You are waisting precious resources to change something that does not need to be changed. Fix the huge problems this country is facing. Seriously, this nonsense needs to stop.	Isabel

	2021-01-07 17:56:50	Gauteng		No I do not	other	The existing system will work fine if the department got rid of the cadres and employed properly skilled people. 	2021-01-07 15:26:36	Gauteng		No I do not	other	Waste is money. Government implement systems that does not work. We had the blue ID, then the green ID, then it was changed to the Card ID format, where the photo imprinted on the card makes you look like a criminal, to say the least. The blue ID book was sufficient, it had pages for all personal data to be added, marriage certificate, blood group, medical condition, etc. Stop wasting money and stop issuing illegal ID's to illegal immigrants	Sandra
	2021-01-07 12:45:12	Gauteng		No I do not	other	You left out a few concerns, like sheer stupidity, cost and corruption. 	2021-01-05 11:27:14	Gauteng		No I do not	other	The government cannot control or issue Drivers Licenses or the current new ID's timeously or correctly , so how in heavens name can they do this correctly??? 	2021-01-05 07:12:59	Gauteng		No I do not	other	No need to change something that is functioning. The financial implications are huge. The Department of Home Affairs could better spend their time and resources on making the border posts without bribery and corruption.	Heather
	2021-01-05 07:11:55	Gauteng		No I do not	other	The necessity for this change is questionable. Add to that the utter chaos that will ensue! The change of the last three digits some time ago is testament to that! A total waste of money as well as additional cost to the population. The capability (lack of) of the South African Home Affairs Department (as well as ALL Government departments) has been laid bare in the last 10 months (as well as the last 26 years)! They have bigger fish to fry, the biggest being keeping the population alive!	Ingrid

						<p>There is a big push towards tracking people's behaviour... to reward or punish a person for behaving "good" or "bad" ... just like a dog. The problem is : WHO decides "WHAT is GOOD", and "WHAT is BAD"...? This will inevitably exclude certain people from all kinds of rights. And We, The People, will NOT allow this to happen. We DO NOT ACCEPT it! We RESIST it!</p> <p>The SA government is yet to prove itself as a competent governing body over South Africa. Putting this kind of PRIVATE biometric information in their hands would just be IRRESPONSIBLE.</p> <p>I utterly reject this draft policy for a new ID system. And We, the People of South Africa, say absolutely NOT!</p> <p>This draft policy sounds like it was prepared by the Chinese Communist Party for South Africa. The whole thing reeks with hidden agendas. And creates endless avenues for corruption... NO! Just NO!</p> <p>The proposition that South Africans will have to apply, and re-apply... and who will pay for each application?? NO! What about the cost implications of such a system? The tax-payer that may have to pay for the hardware &amp; software for this system... government MUST listen to the tax-payers wishes, and the tax-payers says NO!</p> <p>Government just wants something more to sell off it's citizens... their information. I have a right to privacy. My biometric information is not your intellectual property, and you may NOT do with it as you wish, ESPECIALLY not sell or trade it. I have a massive concern with data privacy - this draft policy can open up ways for all kinds of infringement of the security of people's data. And why is there such a emphasis on immediate registering at birth? What offence could a child commit between ages 0 and 5 that his or her birth registration is THAT important? Why would the government want to keep such close tabs on the babies of the nation that they have to re-register at 5years? and not only re-register, but re-register with FULL biometric data?</p>

	2021-01-24 21:01:42	Western Cape		No I do not	other	Government, please explain what is wrong with the current system; I fail to see the point of spending money that is sorely needed elsewhere.	Dave
	2021-01-24 14:55:14	Western Cape		No I do not	other	This is absolutely ridiculous and all part of controlling the citizens and to take away our sexual identity. We were created by God and the image of God. A definite NO!!	Amri
	2021-01-24 12:18:09	Western Cape		No I do not	other	Government wasting money and effort on this bureaucratic garbage in the middle of the pandemic.	Dolores

	2021-01-23 20:45:39	Western Cape		No I do not	other	Home Affairs is unable to cope with their present responsibilities, and failing dismally in serving the public. Phones are not answered, the website is not up to date, there is an unacceptably long waiting period for documents, and they are disorganised. A new ID system will be anitjer unnecessary financial burden on our citizens.	Natasha
	2021-01-23 15:43:21	Western Cape		No I do not	other	STOP, controlling the people. That is the need of the new world order. We are individual and have the right to live.	Pine
	2021-01-23 09:38:50	Western Cape		No I do not	other	There is nothing wrong with the current. Everything is wrong with the corrupt government. We reject new world order systems. Voetsek anc	Aurelia
	2021-01-22 15:56:34	Western Cape		No I do not	other	Your identity system is extremely primitive and belongs with the ox wagon era. Why do you not move into the 21st century and into the future that can immediately positively identify the person, is the person under the influence of anything or any drug, is the person under stress or causing stress, does the person have terrorist intentions or is the person actually a terrorist in action, is the person about to commit a crime or has the person committed a crime? What is the persons medical history? What illness does the person has? What is the persons criminal record? What has the person purchased? Where? Was it paid for? Was taxes paid? What law did the person break? In which country? What is the persons Passport and is is valid. What Visas does the person have? Does the person have a drivers Licence? Is it valid? Does the person own any property or has the pperson owned any property? Or any othe Asset? Does the person own any digital currency? Where is that currency right now? And much much much more.....! Without ever owning and form of Identity document! What has the person purchased ever, when, where and for how much? All of this information can be proved in a Court of Law. All records will have a 15 year shelf life!	Wilhelm
	2021-01-22 11:10:52	Western Cape		No I do not	other	This is just another money making scheme. Rather spend money on more pressing issues like improving education and housing.  If this new ID is going to be linked to the vaccine in order to controll people's movements it will be a gross violation of human rights and liberty.	Emile

	2021-01-22 09:51:00	Western Cape		No I do not	other	Home affairs is not capable of being professional and competent.( look at their history ) Secondly, what is their motivation? Whenever the ruling party are looking for money, they come up with a new scheme. As it is, I have not yet been able to procure my new Smart Card. There are long queues and I have a medical condition, and no staff member has been able to help me.	Eric
	2021-01-22 08:08:45	Western Cape		No I do not	other	The current system is working well and I cannot see why it should be changed. It is going to cost a lot of funding, that could have been utilized for a more needed problem, like to beef up the education system or the medical facilities. We don't need any more of this draconian rubbish! "The more corrupt the Government, the more senseless Legislation they want to put through"	Johann
	2021-01-22 06:04:39	Western Cape		No I do not	other		Selma
	2021-01-21 19:59:10	Western Cape		No I do not	other	I am totally against this vaccine ID card and passport. It is discrimination, totally against my human rights and unacceptable to track me. I will not get a vaccine and I will not get a vaccine ID or passport or will allow government to track me. I have a choice and rights. It is also against my Christian values, to not identify me as a woman created by Almighty God Jesus Christ. You are not going to infringe on my choices and use it against me. If you make this mandatory, you will see many riots in SA and people will not stand for this.	Susan
	2021-01-21 17:30:01	Western Cape		No I do not	other	The Government is wasting money hand over fist, with nothing ever being done properly. All these big ideas and look at what has been achieved.... a big fat zero! Corruption is rife and escalating as we speak. NO I do not support this draft.	Sandy
	2021-01-21 15:21:04	Western Cape		No I do not	other	This new I'd system that is based on health records and vaccine choice will take away freedom of choice for medical treatments and restrict the free movement of individuals. I wholly reject it and would consider legal action	Germaine
	2021-01-21 14:47:29	Western Cape		No I do not	other	This brings back one of the things, albeit in a different form, that the ANC fought against i.e. passbooks. Why bring it back at huge cost other than as a way to divert public funds to the trough of corruption.	Ian

	2021-01-21 08:17:23	Western Cape		No I do not	other	The government wants just another way to control the citizens and make this country a socialist country. There is no money to pay for vaccines but want to start new system that wil cost billions and we do no need. Stop the anc to control the people	Belinda
	2021-01-21 00:13:09	Western Cape		No I do not	other	There are other much more important issues to attend to. In my opinion this is just another ANC tender, income generator. What's next.... a new vehicle number plate system, or renaming all towns and streets etc., etc. Let's spend money that uplifts this country and its infrastructure. Let's help the poor, let's support opportunities, let's create equal opportunities for all, let's support each other. Let's become a better nation. A corrupt government wanting more, it must stop.	Jackie
	2021-01-20 23:16:01	Western Cape		No I do not	other	So much money to waste. Is covid not s pressing issue. Nothing currently works in government departments. How do you expect poor people that cannot get help or aid from the government to even afford to pay for it. Just another ployto make money. Where you are currently not even able to function effeciantly now. All you people are doing is blaming covid. Where there was already poor management before covid. Besides I do not even know my parents so how will Thier history benefit me. Go back to the drawing board. Work out how to make you division more effective instead of wasting people's time and money.	Cindy
	2021-01-20 22:09:47	Western Cape		No I do not	other	It's irrelevant!	Margaret
	2021-01-20 21:33:21	Western Cape		No I do not	other	There are other much more important issues to attend to. In my opinion this is just another ANC tender, income generator. What's next.... a new vehicle number plate system, or renaming all towns and streets etc, etc. Piss off, and stop trying to make your corrupt selves relevant. If this sounds disrespectful, just remember that genuine respect should only given where it is due.	Leigh
	2021-01-20 10:39:00	Western Cape		No I do not	other	Not only privacy.....or data...but a government that is churning out Communist ideology....towards population control. I do not support this.	Theunis

	2021-01-20 07:22:22	Western Cape		No I do not	other	I wish to remain free to make decisions about my own body & health as I see fit. I wish to remain free to do business & travel without being forced to take a vaccine which I do not need & is potentially harmful to my health!	Chrismari
	2021-01-20 01:30:56	Western Cape		No I do not	other	No. NO. NO!!! Privacy lost. Waste of time money & energy. I do not consent!!!	Zane

	2021-01-19 17:23:08	Western Cape		No I do not	other	I feel like this is a waste of time and money. Money which the government doesn't even have.	Shirley
	2021-01-19 11:46:25	Western Cape		No I do not	other	Why change something that is still working? This will be a huge waste of money and there are far more important things to deal with like building more houses for the poor and getting more and better trained Police to ensure a safer South Africa. This country is not in a position to keep wasting money on non essentials. Our borders also need to be better managed and protected. Concentrate on what is essential.	monica
	2021-01-19 07:51:25	Western Cape		No I do not	other	We are not a communist country and I dont want to live in one. This system smells of Communism	Annamari
	2021-01-19 07:50:06	Western Cape		No I do not	other	No I do not. This will cost a lot of money. Where will the money come from - the tax payers? The current system work just fine. Why do they want to change it?	Sandra
	2021-01-18 22:58:09	Western Cape		No I do not	other		Pauline
	2021-01-18 21:11:54	Western Cape		No I do not	other	What are the mechanisms for preventing incompetence, corruption and abuse? What hope have we of such mechanisms being effective in serving and protecting the freedom and power of ALL South Africans?	Monica

	2021-01-18 09:31:09	Western Cape		No I do not	other	Top concern is all of the above. We the people of South Africa deserve our freedom. You can shackle the satanic elite who wish to turn our people into cattle. We will not be bought. We will fight for our freedom. We will fight for our country, we do not want your tracing from birth to death. We want ethical leaders who are not deceived through bribery. I call for a ceasing of all governmental new rushed laws until such time as the corruption has been dealt with. I will not work or abide by any laws put forward by a corrupt government.	Tracey

	2021-01-18 08:50:26	Western Cape		No I do not	other	However great a biometrics system sounds I do feel government lacks the ability to implement it properly. It's a struggle just to have a regular ID DOCUMENT made. In my opinion it's just going to be a waste of tax payers money. There's nothing wrong with the old system.	Neil
	2021-01-18 08:20:10	Western Cape		No I do not	other	A TAKE OVER OF OUR LIFVES AND FREEDOM ENOUGH IS ENOUGH. I am starting to feel like a BARCODED COMMODITY	Marcelle
	2021-01-17 20:02:51	Western Cape		No I do not	other	There is no real reason for this except to waste money and become more controlling.	Christoph er
	2021-01-17 18:18:21	Western Cape		No I do not	other	Ek sien nie die nodigheid vir nuwe ID nie Dit wat ons nou het is voldoende Ek gaan nie myne verander nie	Estelle
	2021-01-17 12:35:33	Western Cape		No I do not	other	As a sign of good faith, let the public first have immediate access to all communication, transactions and movements of government officials (why not throw in their biometric information as well). If they're not wiling to share them, then why do they expect the public to?	Vicky
	2021-01-17 12:18:58	Western Cape		No I do not	other	corrupted leadership. NO NO NO ,we are already so bankrupt, what the hell are these fools doing.  Mass ID PRODUCTION for foreigners	Debbie
	2021-01-16 23:52:24	Western Cape		No I do not	other	This is Unconstitutional. I do NOT support this Official ID Management Policy. This opens the possibility for even more ID theft and is rife for abuse. Currently the government is already unable to protect citizen data, there is nothing in this policy that will change that. Kindly STOP creating policies that create no benefit for the citizens of the country.	Thomas
	2021-01-16 22:55:26	Western Cape		No I do not	other	It is really ridiculous to spend money on implementing a new ID process when so many of our people are not receiving education, are unemployed and don't have a proper roof over their heads. Priorities!!	Rana
	2021-01-16 19:23:19	Western Cape		No I do not	other		Gerolene
	2021-01-16 10:41:56	Western Cape		No I do not	other	I see no reason to change the system that works already.  How about focusing on fixing the country through education, nutrition and employment before trying to deal with these unimportant niceties?	Scott

	2021-01-16 09:42:13	Western Cape		No I do not	other	There doesn't appear to be any real reason for any changes. But, more importantly, the DHA has been in a state of disarray for so long with some people waiting years for things to happen, and long queues. Rather direct the money proposed for this task to sorting out current system and staffing problems. Our current IDs work just fine.	Alison
	2021-01-16 06:30:34	Western Cape		No I do not	other	Funding, privacy, ridiculousness!! Our system works now! It will be way too complicated and difficult and expensive to maintain. This is just crazy	Marietta
	2021-01-15 21:08:02	Western Cape		No I do not	other	Not needed	Richard
	2021-01-15 14:54:42	Western Cape		No I do not	other	Building more home affairs offices and training more personnel, offering efficient service is more important. Very long ques stand in front of home affairs and people have to wait many hours to get served. Many people have not even got the ID cards yet. And who will be paying for these new ID documents?	Gerda
	2021-01-15 10:05:01	Western Cape		No I do not	other	There is absolutely nothing wrong with the current system. Why waste more millions of Rands that could be utilized better elsewhere.	Susan

	2021-01-14 10:13:57	Western Cape		No I do not	other	Nothing wrong with current ID.. There is only 2 gengers!! Rest is BS! Not 10 fingers, then what!?? Stop wasting our tax money on stupid money gobbling sheit!!	Markus
	2021-01-14 00:17:42	Western Cape		No I do not	other	Dear South Africa, while you do give some of the possible options, you haven't actually given the reasons behind needing to change the existing system.  So while I certainly have an opinion, I could adapt it if I had the background to the actual issue.	Rod
	2021-01-13 22:21:20	Western Cape		No I do not	other	I do not agree with this. Government breaks everything that was once fixed and working fine. I see this as a plot for someone to make money. It has no benefit to redesign the wheel, it will end up being square!!	G
	2021-01-13 11:27:38	Western Cape		No I do not	other	This is just a new BEE money making racket, stop trying to fix what is not broken, stop wasting our hard earned tax money on bullshit.	Peter

	2021-01-13 11:16:29	Western Cape		No I do not	other	<p>It doesnt make sense to try and fix something that isnt broken, we already moved from the book to the card which has caused a back log for home affairs and made things so much more hectic for the department of home affairs.. this is unnecessary work added to their already full load..</p> <p>Money can be used else where, like helping the poor and needy, boosting the economy</p> <p>Its already a hassle getting anything from home affairs in the first place for the few people who still needs ids, etc , imagine the entire country having to go get a new I.d</p>	Shandri
	2021-01-13 09:58:37	Western Cape		No I do not	other	<p>why alter something that has been working for many years. The only thing that should change is that babies should be given a FULL birth certificate within a week of being born, and all hospitals should have a registrar on hand to fill out the forms needed to be taken to the Home Affairs office to get this.</p>	Angela
	2021-01-13 08:07:41	Western Cape		No I do not	other		Josie
	2021-01-13 00:16:05	Western Cape		No I do not	other	<p>The DHA offices are already swamped and cannot cope with existing docs. Now they will need to learn /apply another 58m? Any the numbers on passports and driving licences etc. will all need to be changed too. ?????</p>	Philip
	2021-01-12 20:58:01	Western Cape		No I do not	other	<p>You are messing with something that works fine. I bet the information will be incorrect.there is nothing wrong with how it is now</p>	Kathy
	2021-01-12 20:45:46	Western Cape		No I do not	other	<p>I do not agree with any of the proposals in this draft policy.</p> <p>It reads very much like the preparation of the same biometric controls used in communist China to punish citizens not "kowtowing" to the way the Government dictates they should live their lives. Especially when you give ONE department SOLE AND FULL UNCHECKED AUTHORITY.</p>	Erlani
	2021-01-12 17:08:33	Western Cape		No I do not	other	<p>Government is saying they don't have money for various things, so why are they not prioritising their "plans". This is a no go until corruption &amp; misgovernance had been dealt with.</p>	Carol

	2021-01-11 15:38:03	Western Cape		No I do not	other	This is not an issue we should be trying to deal with now. There are far too many other things which need priority like managing Covid, health, unemployment, education etc etc. Going to be a total waste of time and money!!	Ellen
	2021-01-10 10:38:34	Western Cape		No I do not	other	The issue will be why fix the system when it's not the issue and having arbitrary this notion of a 3rd gender is ludicrous	Nathan
	2021-01-10 05:04:37	Western Cape		No I do not	other	The current ID system I have just got on now it changes again. The citizens of South Africa are strapped for money due to the Pandemic. Are they mad ????	Graham
	2021-01-09 23:03:42	Western Cape		No I do not	other	Waste of money!!!	Johanna

	2021-01-08 18:01:37	Western Cape		No I do not	other	We have just converted to the Smart ID card. Has SA not got more pressing issues than to introduce a new ID policy???? They can't even manage their borders FFS.What a WASTE of money!! SA does not even know how many people are in the country...	Angela
	2021-01-08 16:19:31	Western Cape		No I do not	other	Not necessary. Just another waste of time.	Karen
	2021-01-08 12:18:45	Western Cape		No I do not	other	Don't waste the taxpayers time and money in changing things for the sake of change. Home Affairs is understaffed as it is - sort out backlogs first, before embarking on something new.	Chris
	2021-01-08 09:46:21	Western Cape		No I do not	other	What for. The goverment can't administer the current system. Corruption fraud nepotism looting. Another con to steal more money	Peter
	2021-01-07 16:05:55	Western Cape		No I do not	other	Too much at one time going to be like the drivers licence A huge wast of time and money Can only be anc asking for this How much corruption is going to be in this And I'm sure this is for one of anc cronies to make money So from me it's a big fat NO	R
	2021-01-06 17:12:53	Western Cape		No I do not	other	I do not know the cost to our citizens. We are already cash strapped.	Ian Eugene
	2021-01-06 14:11:26	Western Cape		No I do not	other	No to ALL of the above! No to the GREAT reset! No to one New world order!	Sheppard
	2021-01-06 08:52:51	Western Cape		No I do not	other	I will again be discriminated against due to not being born here even though I have full citizenship with a valid SA ID document. I was refused the smart card ID based on the above. Why should this new method be any different? I also have privacy issues.	Micky

	2021-01-06 00:58:55	Western Cape		No I do not	other	You can't even control money and send it to the right place it needs to be with all your dirty hands in the pot do u know how many south African citizens there are like seriously you think you can pull this 1 off my question how is profiting from this? SA GOV, YOU ARE USELESS !!!	Joe
	2021-01-05 20:33:59	Western Cape		No I do not	other	I cannot support the new world order system that our president has decided for our country and it goes against my Christian beliefs.	Joanne

	2021-01-05 07:32:13	Western Cape		No I do not	other	Government should nit focus on something that is working. Rather spend the money and resources on things that requires the effort, like Covid, Health, Roads, etc.	Emsie
	2021-01-05 07:27:53	Western Cape		No I do not	other	I'm not aware of any problem with the current ID process that isn't a result of corrupt officials. This will only add extra bureaucracy to an already pathetic home affairs department, the motivation of which is the tender one of our minister's wives friends will probably fill.  Just another opportunity to loot.	Kevin

	2021-01-05 06:52:46	Western Cape		No I do not	other	You haven't managed to complete the last roll out of identity cards and here you are again with yet another money making scam. We're in the middle of a pandemic for which you don't seem to want to obtain the vaccine and you want us to queue again? Not interested. I'll die with my old green booklet, thank you very much. At least I can see the damn thing when I put it down somewhere.	Gillian

	2021-02-24 22:20:08	KwaZulu -Natal		No I do not	other	There is already a system in place and would be an unnecessary waste of money to make these changes. The issue of the new 5 year old child id process is also a waste of tax payers money. Rather spend money and clean up the home affairs offices and their facilities they are very unclean and in a bad state not a good image for a Government Dept.	Delyse
	2021-02-24 16:35:43	KwaZulu -Natal		No I do not	other	Identity system currently in use is doing what it is supposed to do. Simply identifying a person. It will be a total waste of money in this poverty stricken country. Support the people, not the systems.	Elize
	2021-02-23 10:36:12	KwaZulu -Natal		No I do not	other	The Department of Home Affairs is in the top 3 of the most poorly managed in the country. The staff from the top down to the bottom are not coping for many reasons. A new ID number will just add to the problem.	Elaine
	2021-02-23 07:30:26	KwaZulu -Natal		No I do not	other	I do not support the proposed policy. The government is already battling to process and deal with the registration and documentation of citizens in South Africa. Although I do think that it is good to be advancing technologically, I do worry that a system like that is going to end up costing the taxpayers money, and not work out (as have many other systems). The job of having to change all of the citizens of South Africa's ID Numbers, is a task that I do not believe our government is capable of performing.	Keith

	2021-02-22 05:54:14	KwaZulu -Natal		No I do not	other	Government needs to get its "house in order" before starting to implement new things like this. The money could be spent more wisely on repairs and maintenance of existing structures... in this instance employing more people to handle the current applications for ID documents, passports, etc. The queues are long enough just for those items at this point in time so I can't even begin to imagine how an implementation of this sort would affect turnaround times.	Lynda

	2021-02-17 14:08:16	KwaZulu -Natal		No I do not	other	There are many reasons why this is not ok. Regardless of how people identify themselves. There are only male and females on this planet. Should someone go through a sex change a legal process needs to be followed to identify them as male or female. In sports this should be taken with extra concerns as males going through transformation still naturally produce testosterone making them stronger than females.  Privacy of data is also a big concern with the amount of information collected at birth and at the age of five. Should someone have access to this information they could easily commit identity theft or serious crimes under someone else's name.	Miles

	2021-02-10 08:06:54	KwaZulu -Natal		No I do not	other	Actually they all concern me. The last attempt of updating the ID documents is not yet complete and they want us to start again. Who has time to stand in the long lines! Why do they need all this information and what guarantees of the data securities. With the Covid and economy the way it is, the funding is indeed a questionable expense. I definitely do not agree to this policy change!	Annella
	2021-02-09 20:58:05	KwaZulu -Natal		No I do not	other	The new system currently is fine....no need to waste taxpayers money ? on change just because a few people want to change their sex.....and name.... really unnecessary.	Amina

	2021-01-31 22:15:51	KwaZulu -Natal		No I do not	other	It is an absolutely unnecessary expenditure, funds can be used towards more life threatening issues. There are people with proper housing and food in South Africa. I strongly believe our focus should be in the right places that really and absolutely require urgent attention. We need to get the basics right then roll out other fancy systems which is not the highest priority right now.	ramona
	2021-01-31 09:57:05	KwaZulu -Natal		No I do not	other	It appears to be another unnecessary process we will all be forced to endure at both financial cost and immense inconvenience. I stood in long queues only a year ago to get my new credit card ID format. And to what useful end and purpose. More money to be made from a tired public?	Patricia

	2021-01-26 09:56:28	KwaZulu -Natal		No I do not	other	An identity number (or biometric) must clearly indicate your date of birth, your gender and that you are South African. It MUST NOT indicate race or race of parents.	Rodney
	2021-01-26 09:27:39	KwaZulu -Natal		No I do not	other	Governments hold too much power over people already. This is just to serve for further control and isolation of individuals. The cost rollout can be better utilized for education.	Roger

	2021-01-23 13:10:32	KwaZulu -Natal		No I do not	other	Not everyone has got the card system yet so why start another system. People do not have the money to keep paying for systems that do not work. Get the home affairs in order before even thinking of something like that. Look at the queues for the Sassa grants, it's a shambles.	Estelle

	2021-01-22 23:05:21	KwaZulu -Natal		No I do not	other	The country is bankrupt and this is further sheltered employment for those incompetently wielding the interminable red tape, at cost to, and wasting more time of citizens struggling to make ends meet. I am also deeply disturbed by the violations of privacy to which citizens used deserve the right in a society that values liberty and freedom. I feel we are all being treated like criminals, while the government condones the massive criminal activity that continues under the radar, often abetted by people in government. People will buy fraudulent IDs just as they buy fraudulent licences, so besides the sheltered employment for ANC-supporting staff, and extracting more money from citizens, what is the real point of this? 	2021-01-22 14:26:33	KwaZulu -Natal		No I do not	other	I do not approve of this new identity document because I feel the existing one works well enough. Instead of wasting time and money on setting up this new system, resources can be better used to set up effective Home Affairs offices with correctly trained staff. In order to institute this change it will cost many hours of citizens' time in long queues and then many delays; just as happens with renewing car and driver's licenses, registering births and deaths, collecting pensions etc etc as in all other government departments. It is totally not necessary to redo our existing IDs	Val

	2021-01-20 12:59:55	KwaZulu -Natal		No I do not	other	Why is this necessary?? If vaccinations are NOT mandatory, WHY are we being forced into getting vaccinated if we need a new ID???? This is absolutely unnecessary and another way to LOOT and STEAL tax payers money. No to Vaccines! NO to the NWO and No to this idiotic idea of a ID system.	Kaylin
	2021-01-19 14:17:34	KwaZulu -Natal		No I do not	other	i simply think there are much bigger things to deal with in this country right now. we have a system that more or less works and the effort reward of changing this right now isnt attractive. lets focus on more important things first.	Alex
	2021-01-19 11:36:34	KwaZulu -Natal		No I do not	other	The one that we gave with the ID card is absolutely fine and secure enough. It will be a huge waste of money both on the government and the customer. The system cant cope as it is how will it possibly manage this. The long queues at the home affairs where most of them closed due to Corona should be more than enough of a reason.	Sharon
	2021-01-18 15:22:36	KwaZulu -Natal		No I do not	other	The tender to do this, much like previous ones given to convicted criminal Shabir Shaik, is simply to line the pockets of politicians and their friends. The current system is fine. We don't need a new one. This is a luxury we cannot afford, using our tax payer money to line the pockets of the powerful politicians and their homies.	terrence

	2021-01-17 23:18:55	KwaZulu -Natal		No I do not	other	The South African Taxpayer can not afford an unnecessary change to a fully functional system. Spending money on a fruitless change to a system for the sake of change means spending money the Country haven't got, which must be borrowed, requiring interest to be paid, by an already overburdened taxpayer. Senseless spending can not be condoned. The ruling Government should start saving money by reducing a top heavy civil service incapable of effective administration, and refrain from spending on stupid, unproductive projects, and senseless regulatory legislation. 						<p>The government can't keep the current system going. How are they going to implement a new system, and how much is it going to cost? Look at municipalities and their lack of control over small systems. What make the government so sure that they would get a new system working. How much corruption are going to be incorporated in the new system. I dont think that is a wise move. Instead just start looking at the personnel responsible for the current system doing their work. In the 70's all government departments had a system where you would get a set amount of work/files and it was assigned to your name. Every afternoon the completed files was marked off your list and you know who had worked on each file and you was responsible for that work done. Implement that again and stuff would get done and no more " It wasnt me" . A new system will have to record all old info. How and when is that going to happen. For example. I worked in the usa for 7 years. Just before I left I applied for the then new card drivers licence. I never recieved it. When I got back after 7 years I was told there is not evidence that I ever had a licence. I tried at my home town traffic department. They told me there is nothing to suggest that I got my code 10 licence there. Ok now I tried Vereeniging traffic department. A young lady told me there is noway they can help me. She said everything off the old system must be captured on the new system. She showed me the files going back to whenever. It was stacked shoulder high and in almost every corridor and anyone could have taken one or more files with a lot of personal info and use it for illegal purposes. In the end I had to apply for my learners again and then my drivers licence at a huge cost. I have trust any government department to keep personal info from crimminals and much less in a new system. Look at Sassa and .any other department and see what is going on. Who is going to get the contracts to supply the system and who is going to supply the hardware? No , there is noway that I support this new circus</p>

						<p>The system that is currently in place is badly managed, administrated and badly maintained. The people who implement things in the regional offices barely turn up for work and lack basic understanding of the technology currently in use which appears to be pre Y2k in many instances. Introducing this proposed system, costing billions, to be handed to people who barely understand their own smartphones is the most ridiculous waste of money. We lack the competency to manage the existing low tech system. Every cent spent on this will ultimately be a massive waste in a country where there are people literally starving and being murdered for their skin color and political views, and the average citizen lacks consistent water or electrical supply and the city roads resemble the surface of Mars, petty crime is insane and goes unprosecuted, our politicians are looting the state, medical facilities are dangerous to go to, deadly for some... maybe fix those problems before getting into build biometric systems, which the people proposing don't even understand.</p> <p>And I'm not even going to mention the knock-on costs for hospitals, pharmacies, clinics, labor and home affairs, traffic, set up, remodeling, retraining, the thousands of jobs that will be lost because current unskilled admin staff will not be able to "just get" the B degree required to be able to actually use this new technology.</p>

	2021-01-14 12:41:52	Eastern Cape		No I do not	other	I do not think that any change is needed, but if you really must do something there is a simpler way to deal with gender. Keep the current format of number, but unlink the meaning.  Current meaning: in the current ID number the digit after the date of birth indicates gender by assigning numbers from 0 to 4 to females and 5 to 9 to males. The next 3 digits have no meaning, they are just sequential.  Solution: add the digit for gender to the sequential numbers. So the number 0001 would simply mean the first registration on that date no matter what the baby's gender is. If the number ihappens to be 5000 it will just mean that it was the five thousandth registration on that day and would not mean that the person is male.  This is cost very little if anything.	Andrew

	2021-01-05 17:15:17	Eastern Cape		No I do not	other	I cannot see any merit in this for a number of reason - 1. As a nation we cannot afford to spend millions on systems that will add no value to anyone. Besides , a significantly large percentage of the population still haven't got the new ID cards! Why waste more money. 2. Who would control who gets all this personal info? I for one will certainly not be happy to allow that info to be floatong arround. I think that individual privacy rights will end up being violated. 3. Why are we wasting tax payers money discussing this at a time when we need to be foccusing on rebuilding the economy, alleviating poverty and creating a better life for all our citizens.	Patrick

	2021-01-05 17:02:06	Eastern Cape		No I do not	other	Although I support the idea and understand the reasoning behind the idea, one cannot overlook the timing of such an idea. 	2021-02-01 07:10:25	Mpumal anga		No I do not	other	Spent my entire life repeating my ID number..on every form . Now I would have to start over.. The cost of new ID's is going to be ludacris. Will they be issued free of charge or do we just keep paying n paying..	Brenda
	2021-01-26 09:57:45	Mpumal anga		No I do not	other	A new ID system is exactly like the drivers licence. Just another method to loot and take money from citicens. There is nothing wrong with the current ID system	Rudi

	2021-01-25 09:52:37	Mpumalanga		No I do not	other	It was just the other day that they ruled out the green id book and we all had to get id cards! Now they want to waste more money by changing it again! They must rather use the money to support businesses that took a hell of a knock during covid, for them to take back employees, that lost their jobs. And also to get South Africa out of debt. They wasting money on stupid things!	Mart
	2021-01-24 20:22:45	Mpumalanga		No I do not	other	We have Id's and besides they can't even properly run the current system, spending time and money on a new system will be pointless. They can focus on the current challenges. This is brand new idea from the goverment, covid related for the greed of the might old greedy rand going to the wrong pockets	Natasha
	2021-01-24 06:15:06	Mpumalanga		No I do not	other	Can we really afford to pay for a new ID system, given that we are in the midst of the Covid 19 pandemic and cannot afford to pay for the vaccines? Definitely, muddled thinking is, once again, taking place. Someone will undoubtedly be making lots of money if this goes ahead.... If there are imperative reasons for such a system, then put it on the back burner until such time as it can be afforded.	Derek
	2021-01-21 10:05:05	Mpumalanga		No I do not	other	I am a musician an travels quite a bit by road and by flying. How can the vaccine be enforced to be able to do my work, but yet I have to then give up my rights to my own decision making. Is goes against the constitution and my human rights practice.	Magdalena
	2021-01-19 21:45:23	Mpumalanga		No I do not	other	This is why we did not want the vaccine in the first place. Because of this dictatorship policy. We will not comply, we will not conform	Jaco

	2021-01-19 06:39:46	Mpumalanga		No I do not	other	Why fix something that's not broken? Just create additional options as/ where required. This is another way of wasting and stealing money that can be otherwise used to improve the lives of our people by providing shelter, clean water and education.	Deirdre
	2021-01-17 07:32:42	Mpumalanga		No I do not	other	Why try to "fix" something that's not broken? Why follow America like puppets on a string? No! We are created individuals - male and female. If someone wants to change their gender its a personal choice. Why change it for everyone ?	Anita

	2021-01-15 11:17:14	Mpumalanga		No I do not	other	The people in our country are unemployed, hungry and struggling financially. Why waste money on a new system. Rather feed the hungry, create jobs clothe the naked and treat the sick. If you have money to waste on a new ID SYSTEM then why do we owe and borrow so much money from other sources. NO NO NO new id system.	Sybil

	2021-01-11 16:57:55	Mpumalanga		No I do not	other	Why for goodness sake go and change the system again. We have just changed to the smart ID document now we have to go through the whole process again. It's clear they don't have a proper population register in place and this is just an excuse to allow them to get a proper population register. At present the foreign nationals have free access with or without an ID document.	Brian

	2021-02-15 13:05:02	Gauteng		No I do not	funding model	The ID card system has just been implemented. To change systems again would be a monumental and rather expensive exercise. Home Affairs offices are a nightmare. Improve what is already in place and streamline everything so that the people don't have to bear the brunt of yet another system change. Not everyone even has ID'S. Fix that first. The ANC government likes to mix things up and then give up when the mess is too big to handle and start again. Stop wasting tax payers money.	Katarina

	2021-01-26 09:12:42	Gauteng		No I do not	funding model	They just changed the ID system, why do it again? Are they bored? Don't Home Affairs have enough to do to create and recreate the same system - which worked before the card system, as well - again and again and again? And the citizens just need to keep on coughing up and paying and paying for something they don't want or need. This is blatant theft by the government, blanketed under "improvement"? 	2021-01-23 11:15:55	Gauteng		No I do not	funding model	The suggestions add to an already constrained public enterprise system. There are barely enough resources currently to assist citizens with basic home affairs need. The addition of a new system with the requirement to reregister children at the age of 5 is time and money wasted. Focus should be shifted to perfecting the current processes that we have.  The current ID process has been used for more than 100 years - don't try to fix something if it isn't broken - it only ends in tears	Paula

	2021-01-20 11:01:30	Gauteng		No I do not	funding model	<p>This government department wants to introduce and implement another IT system but cannot manage what is currently in place for all Home Affairs responsibilities - birth/death/marriage, ID's, passports. All these systems are a shambles and disgrace.</p> <p>The responsible minister enjoys day dreaming and can spend but cannot fix and maintain working systems. This new ID system is case in point. Where is the funding coming from and how will it be managed (or not)? The country has more pressing needs than introducing another system that will end up exactly where the current system is today. 	2021-01-23 21:37:23	Western Cape		No I do not	funding model	The present system, I'd cards, has not been in operation for very long. This will be just another way for unscrupulous characters to make millions out of the implementation of this new system, which ultimately means theft from the citizens as we pay for everything via tax. The government as such, has no money, merely the handling of it. Why change a system that works? Why fix something that is not broken? I feel it's a waste of time and money when we are still trying to handle the expense of Covid-19 and are likely to be doing so for years. What are the reasons for wanting to do this? If the reasons are valid, I might feel differently!!	Judith

					<p>Tax payers money should be used to help revive the economy, improving the ailing healthcare structures and ensuring vaccines are available.</p> <p>Financing a new system for ID numbers is not necessary! Fix what is broken in the current processes and controls.</p> <p>Any perceived or real issues there are with regards the current system can be corrected by implementing better controls, processes, and training employees correctly and continually. Any new system will only be as good as the supporting processes, controls and people who use the system.</p> <p>My one concern is it seems that the government has yet to implement new 'anything' without kickbacks and collusion In the tender processes.</p> <p>Some concerns that need to be carefully considered:</p> <ol style="list-style-type: none"> <li>1. Why would you need to link an ID number to parents - surely this will cause issues when children are adopted? Biological parents will then be known by all and is this in the best interests of all parties?</li> <li>2. If identity theft of deceased children is such an issue - no system in the world will stop this. Proper security around the system is required. It needs proper controls in place and people with access to the system to have integrity. Relying on a new system only is totally misguided.</li> <li>3. How would reregistering at 10 help? So how will earlier registration help? If this is required at 10 ... it gives people 10 years to steal the identity and why would this be needed if the proposed new system is to be so 'brilliant'</li> </ol> <p>I definately do not support yet another ID system.</p>

	2021-02-14 14:19:24	Limpopo		No I do not	funding model	1). The main reason is the cost associated to us as the tax payer. Government budget and spending must rather go towards purchasing more COVID vaccinations, the poor in the rural areas suffering from hunger, depression and supplying basic services. Our government is drowning in debt already, we need to save our economy in order to get international investors interested in our country again. 2). A big part of our citizen population have not even converted from the old green ID to the new ID card. Reasons being, unnecessary cost again to us as the tax payers, broken and inefficient implementation at Home Affairs offices, with IT systems downtime, staff time management and skills, as well as no proper office hours. How will the implementation of this new system be any different if it is the same staff operating in the offices.	Leone

This will take up so much time and energy, what madness at this stage!</p> <p>Also, recording a person as male or female is enough. 	2021-01-23 08:15:49	Gauteng		No I do not	Data security	This new proposed draft of new ID system is unceremoniously unwelcomed as it infringes on the data privacy of the Citizens of South Africa and is therefore against the Constitution of the Republic of South Africa where the right of privacy is endorsed. We cannot have a government that rules it's citizens with iron fist by treading upon the very rights of the Citizens which are protected by the Constitution. If the government rules with autocratic methods then we are not longer living in a democratic country but in a communist country where citizens are controlled through fear . We cannot have a government that uses tyrant methods of institutionalization by infringing on every right that is set out in the Constitution to protect the privacy and dignity of the Citizens of South Africa	Cornerstone
	2021-01-20 21:44:34	Gauteng		No I do not	Data security	Why the need for it? More pressing issues in this country, why 'copy' what other countries are doing? Moreover, I cannot trust present government with anything, based on evidence on how they've managing practically everything they've touched thus far. 	2021-01-20 18:32:41	Gauteng		No I do not	Data security	This government cannot do anything right. There will be widespread corruption and nothing will be done about it. This is just another way to steal public funds. Nothing that the current government has touched have been successful.	Braam

	2021-01-19 14:32:46	Gauteng		No I do not	Data security	I do not believe anything placed in the custody of a new, and massive, government bureaucracy will be in the SA Citizen's best interest nor will our data be secure or protected. As we know the government is not able to protect it's citizens from many challenges in SA and we are robbed, our property is stolen, our lives are in danger at home and driving around and many have lost their lives. If NO LIFE MATTERS in SA and our taxes are there to be PILFERED by thieves at no consequence THEN HOW PRECIOUS WILL OUR DATA BE? NO, we cannot trust government at all.	Nicole

	2021-01-11 17:31:27	Western Cape		No I do not	Data security	There are aspects of the policy that are flawed on a number of points: 1. Government has not shown that it is a trustworthy custodian of sensitive information, so lining biometric data to the ID is not acceptable. It's a dangerous idea, that will not have any benefit to citizens. 2. Unless government can show biological proof that there are genders outside male and female, pandering to woke leftists again serves no purpose. People that imagine that they have another gender outside male or female, frequently change their minds about it, which creates more administration. I would support removing the gender option from the ID though.	Roland

	2021-01-09 15:30:02	Western Cape		No I do not	Data security	Where does one begin ? Data security and privacy are of great concern as well as time and costs associated to this naive proposal. The sudden introduction of the concept of 'gender identity' into public policy across the globe has generated quite a turmoil, riddled with worldwide confusion and clashes of mismatched theories relating to the meaning of sex, gender and personal identity. It's ridiculous that anyone expects to be identified on a ID document based on their "feeling of identity" rather than what science says you are. " I feel" we should pay less taxes or benefit more from that which we do pay . " I feel" that rather than wasting time and money Paying for an unnecessary new ID book system that you the government should rather stop stealing all the limited funds you have to run a country instead of coming up with Ponzi schemes to cover your ineptitude. Unfortunately, logic and reason falls on deaf ears. I thought I would give it a shot though.	Karen

	2021-01-06 09:08:18	Western Cape		No I do not	Data security	SOUTH AFRICA IS NOT A FIRST WORLD COUNTRY!!! When will the government learn that and accept it! Everyone does not even yet have the new ID card, and already they want to make more changes to the ID system?! First prove to the citizens that government can actually apply the current system effectively and efficiently, then maybe consider small changes to the system. A complete revamp of the ID system is not needed! It will only be a money- making scheme because everyone would have to pay for new ID's again or additional children ID's. If counterfeit ID's is the problem, assign the police to crack-down on that trade instead of patrolling the beaches (which is such a waste of resources).	Lian

	2021-01-18 09:06:27	KwaZulu -Natal		No I do not	Data security	<p>The government cannot be trusted with information or the good use of such. As we have seen with all the so called innovative laws such as Fica, Rica, plastic bag laws and others, the criminals side step the process every time while the law abiding get nailed. Fica is used by the tax department against the ordinary tax payer but has never nailed the criminals within the ANC , Sassa, and other departments or funded the police to eradicate criminal activity.</p> <p>The use of biometrics like all the other laws will be used to regulate the people not provide services. Sadly Government such as the Racist EFF and ANC have a penchant for control and will likely use such to control minorities as they do with current laws such as EE and Bee.</p> <p>Government after 25 years should by now worked out the best way forward for the country. They cannot get jobs without it and there have been reports over the years of people committing suicide because of it. The process needs to run efficiently before drastic changes are made. Also, what about South African citizens based overseas? How will they obtain this new documentation and how long will it take? Bear in mind that visa information, etc. might need to be updated in the host country. How will they re-register children under the age of five? They might need to fly to the nearest city that offers this service. Will embassies have the means to record biometrics? It's already extremely difficult to obtain identity documentation from South Africa and some citizens overseas wait years, unable to move forward with their lives. The problem lies with the honesty and corruption of the people running the home affairs department. I think every system needs regular analysis especially with rapid evolution of technology. However, there is a concern with level of data included with the ID. The question to ask, since the Government (who will be the curator of all this private and personal data) is trustworthy? And we know it isn't!</p> <p>However, regardless of what system is adopted or modified, I am vehemently against the exclusion of the biological binary distinction between male and female, most of humanity accept that we are created male and female and should not be excluded because of a minority with sentiments and identity crisis around gender preferences. I don't think it will ever be okay for a biological male to be incarcerated in a woman's prison, or attend a girls school or any other situation where potential sexual predators might take advantage of self identified gender selection to gain access.</p>	Margaret

					<p>I like that there are questions raised about the current ID system. I think every system needs regular analysis especially with rapid evolution of technology.</p> <p>I am however concerned about what level of data is included with the ID. In this discussion the premise is always that Government (who will be the curator of all this private and personal data) is trustworthy. And we know it isn't!</p> <p>However without personal ID's modern life can't function.</p> <p>However, regardless of what system is adopted or modified, I am vehemently against the exclusion of the biological binary distinction between male and female. Though I understand the sentiments around gender preferences, I don't think it will ever be okay for a biological male to be incarcerated in a woman's prison, or attend a girls school or any other situation where potential sexual predators might take advantage of self identified gender selection to gain access to places that traditionally have been 'safe spaces' for females. Especially in this country with our culture of GBV.</p> <p>I therefore feel that the current level of ID should remain as is and be regarded as Level 1.</p> <p>Then a second level can be evolved that contains things such as hereditary biometrics, dental records, blood group retina scan and DNA. Access to this Level would be much more restricted and curated perhaps by an independent body such as Public Protector.</p> <p>Then a third level could be evolved with elements like 3D facial recognition and other information that is needed for surveillance. This data would be curated by perhaps the Constitutional Court.</p> <p>The second and third level would have each require the addition of 5 digits respectively to the ID number, which would be known to the curators of those levels alone.</p> <p>Also the proposed data capturing of personal information of new born infants, would be where level 2 and 3 begin to evolve.</p>

Alternative issuing method needed to queueing at home affairs. Link to police database necessary, otherwise biometrics are mostly useless. The enhanced biometrics will result in a higher rate of crime solving. If ID number is linked to parents, this must eliminate need for additional paperwork for e. G. name changes. 	2021-01-10 06:28:20	Cautious	Not fully	funding model	<p>When a child is born the ID number must be birthed as well with biometric information of the mother only to have a bloodline trace for all the right reasons. Sadly a high percentage of mothers don't or can't confirm the biological father so his information should remain irrelevant which is sad if the child will be carrying his name. The gender can be irrelevant as well because the sex "of ADULT choice" is generally indicated separately &amp; requested so in all legal documents already. The child can be reconfirmed / reregistered at age when finger prints are completely formed &amp; again at age when considered an adult. At this point the "individual can decide what gender to be &amp; must drop their pants in home affairs so a camera can confirm the status "for security ID concerns &amp; confirmation of fact" reasons. After all, ID is chiefly about security is it not? The individual should be able to change or update gender status as transition occurs. Security in public toilets is a concern especially where it's not unisex. Using ears for identification is ludicrous for men especially as it will change continually as you age plus with sport injury. I'm all for extra control &amp; identification methods for security reasons but the state's ineffective policing has created the problem in the first place. So why stop here? Go all the way &amp; tattoo the population or add microchips so the oppressor can find the innocent. The criminals will always find a way around this! It would be best to waste the money on another project where misappropriation of tax money is easier. Fill the potholes. Stop billing for E-toll &amp; use this money to track motor vehicles in real time &amp; control speed on the freeways for security reasons. You can then force every vehicle to have a lifetime permanent transponder fitted. This will help with controlling crime. Lastly, ID theft must be dealt with immediately by home affairs or all this effort is of no rain. It remains the state's responsibility to protect the citizens that comply willingly. If not, it will remain a failed program forever. It has taken 20yrs for the idiotic idea of an eNatus system to be implemented. I will conform &amp; support the initiative if state can confirm that the ideal behind me it all is actually to prevent criminals from abusing the system. Dont think it will ever work in our third world situation. Just my opinion.</p>	David

	2021-01-05 11:09:26	Gauteng		Not fully	funding model	Although I do not have an issue implementing a new identification system, I think now is not the time. This is going to take money to implement that can be better spent in caring for citizens. No money should be spent during a global pandemic that is not in the interests of preventing illness or curing the population of countries.	susan

						<p>This is a massive undertaking and Government is already battling to issue the new smart ID cards for people who are already in the system, with the green barcoded ID book. Staff will need time to be properly trained on the new system and the IT systems will need to be suitable and thoroughly and robustly tested too before rollout. Government doesn't have a stellar track record with regard to implementing these kinds of projects.</p> <p>Linking ID to parents is all good and well but what about abandoned babies if the SAPS cannot find the mother or father? How will the confidentiality of adoptions be handled? The "how" needs a lot more debate and input vs the wish list we have at the moment.</p> <p>My understanding is that all births and deaths are currently required to be registered. How will changing the whole system fix that if people aren't currently complying? How will this address dishonesty on the part of Home Affairs officials with regard to identity theft, women discovering they're married to foreign nationals and the like?</p> <p>We need to be careful of creating additional layers of bureaucracy that can actually work against us. Simple systems are generally more robust and not as easy to circumvent. The more complicated something is the greater the chance of things going wrong or exploitable loopholes being created.</p>

	2021-01-05 09:49:15	Western Cape		Not fully	phased implementa tion	Our Department of Home Affairs keeps changing their systems and protocols. Nothing they do ever lasts longer than 6 months. Why implement new procedures if you can't follow through. The long lines at the offices don't help either. In order to make changes, simple guidelines need to be adhered too. They can't even capture simple data. It's just another way to waste our money.	Juanay

It is completely unscientific and will only lead to harm. This will open the door to all sorts of harmful legislation and it must not be allowed.  Randomising ID numbers takes away from their meaning.  I do agree that there should be a link to biological parents.	Devon

	2021-01-04 21:56:46	Limpopo	Yes I do	Privacy	Privacy would be my only concern, I would include a part in the bill that no civil public official or elected official (especially parliamentary members) without a valid reason should be allowed to access any citizens information without the written permission from the minister. And if such an individual accessed any citizens information with a valid reason the individual whose information was accessed should be informed of the reason. (I am referring here to reasons for whatever reason that doesn't have to do with why the police would be interested in someone's information) I would suppose that this system can also be used to collect personal information on anyone in the country. So if that would be the case anyone who supplies biomedical or any info should have the right to access any and all info they have ever supplied to the state. To have the right to inspect the information the state has of them and who accessed the information they had supplied to the state. Parents of Children under the age of 16 should be allowed to view information of their children. Ultimately it is their information. Such a system can also be useful to the police in finding missing people. Otherwise I support the new proposal. I would just not want anyone looking at my personal information. I would also include additional that if anyone who accessed any information without a valid reason of anyone that individual should have the right to sue the individual/s and the department for invasion of privacy. And any civil official who accessed information of anyone without a valid reason should be liable to criminal protection.	Werner

	2021-02-16 07:14:50	Gauteng		Yes I do	other	They have stolen my ideas from 2010 when I introduced the scheme to the ANC. Behind this is a lot more security. I was told it was too good. I presented an 86 page proposal. Once fully implemented, all computer crime, corruption etc will be easily identified. And the beauty is the Tax rate will come down, as everyone will pay tax. And drug dealers will be easily caught. There can be no child trafficking, and no need to complete income tax forms, unless you want to claim money. And they forgot to add that even visitors will need a visitors ID card to purchase anything.. If you want the complete details, you are welcome to email me.	Garth

						<p>The ID, as it is now, must have an element of personalisation, not necessarily linked to parent, because that can be vary challenging. Any system implementation must be supported in professional effective manner. Delays and long queues is the biggest single reason why these changes are not supported, in fact hated.</p> <p>I many countries across the world, you can obtain a new or replacement ID document in less that 15 minutes. Today, in most South African banks, you can open a bank account and be issued with a bank card after all your fingerprints are validated in a few minutes... you do not even have to come back at a later date to collect your card.</p> <p>Many of our systems are good and perhaps need a bit of tweaking, but can we not once and for all be customer/citizen focused and not be left in the hands of unhappy, "underpaid", poor customer focused individuals who's definition of effective service delivery is frustrating the he'll out of customers by letting them wait and openly demonstrate to them how slow and ineffective can be. Again, this function should be outsourced to banks who are geared to do it and trained to deal with customers.</p>
