	2021-09-09 08:40:13	Eastern Cape		No I do not	Television licences	What the government will do to steal more and more from taxpaying citizens! With the rubbish on TV I never switch to any TV channel. I already pay for what I watch. My TV is connected to my laptop and serve as a monitor mostly.	Yolanda	employed individual
	2021-07-24 18:59:02	Eastern Cape		No I do not	Television licences	Some of us do not even watch SABC channels. Why should we pay for a service we do not need. Owning a TV does not mean we want SABC.	Xoli	employed individual
▼ Gauteng	12							
	2021-09-02 20:06:57	Gauteng		No I do not	Television licences	Private stations can run with only add revenue and be very profitable. Why does the state funded entity which runs adds need even more money from people who do not utilize its services in the form of TV licenses. Is this not just a way to enrich the cronies of the connected in government and victimize the ordinary citizen.	Jonatan	employed individual
	2021-09-01 16:08:59	Gauteng		No I do not	Television licences	This licensing model is not sustainable . How can any device with screen e.g. mobile phones be regarded as a tv screen resulting in requiring a tv license ? This will extract extra moneys out of the economy which the economy is in direly need of . The SABC could not even be trusted with the current amount of money ? Has any of the rural population paid any license fees ? How will they register them as they don't have any fixed address ? How will the informal settlements be audited as there is no formal street address or working unit numbering system ? And to make matters worse , these license inspectors' safety cannot be guaranteed as they my have to carry vast amounts of cash and could be mugged or even killed.	Gilian	employed individual
	2021-08-26 12:14:57	Gauteng		No I do not	Television licences	Television licenses are archaic. They should be making their funds from selling promotional airtime to advertisers. This is a top heavy structure which is not doing what they are supposed to do.	Nico	employed individual
	2021-08-23 17:12:41	Gauteng		No I do not	Television licences	To paraphrase an author: "First, what is it you want us to pay for? Tell me what I get and perhaps I'll buy it." The SABC has nothing to sell that I want to buy. The license is to receive broadcast signals from the SABC. Since I don't receive those signals, what do I need to pay for? If I pay for this license, what do I get out of it? If you can answer that, we can negotiate, otherwise this feels the same as gangs asking for money for "protection."	John	employed individual

	2021-08-17 07:19:07	Gauteng		No I do not	Television licences	Scrap licenses entirely, this is an outdated taxation model.	Sibu	employed individual
	2021-08-01 07:34:41	Gauteng		No I do not	Television licences	1. I don't watch SABC channels. 2.Also the SABC just like all SOE's is not well managed and we all have proof of funds being mismanaged. 3. Financial I'm not coping, I'm struggling to support myself and my families. Everything has gone up and thanks to covid some of my family members have lost their jobs and I had to take a pay cut just to keep my job. Please recoup the money from all these other thugs and run the SABC like a proper organization.	Gugu	employed individual

	2021-07-31 12:48:33	Gauteng		No I do not	Television licences	It's covid times and we can not be allowing people into our homes.	Kitso	employed individual
	2021-07-31 10:41:45	Gauteng		No I do not	Television licences	No person should be forced to pay for TV licence if you are not watching SABC. Since moving to digital SABC should give access to those who are paying or qualify for exemption.	Monwabisi	employed individual
	2021-07-20 08:13:53	Gauteng		No I do not	Television licences	Why must I pay but dont watch any sabc program's. The people in the town ships dont pay but us in the suburbs must pay or get prosecuted. SABC is to scared to go there. Sort that out then we all pay or we all do not pay.	William	employed individual
	2021-07-19 19:12:59	Gauteng		No I do not	Television licences	I have not watched SABC for over a decade. I should not be forced to pay a tv license fee if I want to buy a tv. I already pay my monthly fibre fee and subscriptions and do not even have an aerial in order to access SABC. Surely, with all the tax we're already paying, a portion can be allocated to SABC without increasing taxes if the gov feels that it should have a national broadcaster. I may reconsider this if the SABC can make it their mission to produce content on par with that produced by the BBC. Until then, sod them and their mismanaged, looted entity. I will remain an online content consumer and should not be charged a cent by the gov for this as i already pay my subscriptions.	Cherene	employed individual
	2021-07-19 18:32:34	Gauteng		No I do not	Television licences		Charles	employed individual
▼ Western Cape		4						
	2021-08-31 10:21:39	Western Cape		No I do not	Television licences	It will cost more and cause ridiculous hinderance on access to laptops and cellphones which are badly needed in today's world of communicating, schooling and working. Waht would the people in te lower LSm do if they a "taxed" to have access to a cellphone or use a laptop? A cellphone is a phone not a television. A laptop is just that, a laptop. do not create your own definitions of what is a cellphone or a laptop. If this continues, next will be smart watches and AR gadgets!	Sirius	employed individual
	2021-08-28 21:10:17	Western Cape		No I do not	Television licences	If ENCA which is open air can run successfully without TV license why can't SABC. It's corruption and poor management ruined SABC so why must we pay. Why should I pay for something I don't use. Improve your business to generate the income you need through advertising. Sell off radio stations. Reduce tv channels. You then can have more revenue.. Increase your inspection and collection in all areas of licenses. Look at pay tv channels to subsidise your other channels.	Rob	employed individual
	2021-08-19 16:56:32	Western Cape		No I do not	Television licences	Why must I pay for a screen which I use, very seldom, for dvd's? The SABC did not provide me with a TV, I am not connected to SABC or DSTV. Have not been for years..... What justifies them getting payment for NOTHING?	Elsa	employed individual
	2021-07-31 14:45:20	Western Cape		No I do not	Television licences	Why should we pay tv license when the program quality is so bad we rather watch dstv. SABC funds are misused and mismanaged now we the ordinary poor people must foot their bill	Phurlan	employed individual
▼ Limpopo		2						
	2021-08-23 12:13:37	Limpopo		No I do not	Television licences	If other organizations or SABC competitors can survive and run without tv license collections, what's stopping SABC? why should we even pay for something (SABC Channels) we don't watch?	Tony	employed individual

	2021-07-31 11:15:15	Limpopo		No I do not	Television licences	TV license introduced not to for SABC only and now it turns out to be for SABC only. It is best SABC to be paid TV rather than enforcing TV License. We do not want to find ourselves paying licenses for every digital items we have in our homes.	Emmanuel	employed individual
▼ KwaZulu-Natal	5							
	2021-08-19 15:52:19	KwaZulu -Natal		No I do not	Television licences	Sabc content is bting and full of rubbish! The broadcaster should close down and spare us this unnecessary expense	Desi	employed individual
	2021-08-19 15:17:58	KwaZulu -Natal		No I do not	Television licences	I feel it's currently unjust to collect a some of money from south africans who don't even watch the sabc TV channels. I for one don't even pick up these networks and have never used them since purchasing my television about 8 years ago. I don't have any subscription services including dstv or Netflix and simply use my computer to watch anything I need to. My TV is simply a screen I use. This is unjust to ask us to pay a fee to keep the sabc running.	Leeann	employed individual
	2021-08-01 05:58:17	KwaZulu -Natal		No I do not	Television licences	In this 21st century, it's wrong for SABC to force every TV owner to have a Licence. Some of us do not even know how to connect to the channels using the aerial. SABC should lock its airwaves so that only those interested can subscribe and gain access	Thomas	employed individual
	2021-07-31 21:18:55	KwaZulu -Natal		No I do not	Television licences	Their is no need other than revenue generation to enforce TV license on a population to support a defunct broadcasting service. It is the equivalent to a forced subscription to Netflix that the customer doesn't want. If the SABC is unable to operate profitably as other broadcasters do, it should close down. It should not be enabled by a draconian enforcement of a license for no other reason than to ensure income. A license to drive or own a firearm etc implies a responsibility they comes with the privilege. What responsibility could possibly attributed to owning a TV? The violation of allowing inspectors to enter a home without a warrant is abhorrent. The TV license system should be scraped in its entirety.	Luke	employed individual
	2021-07-31 11:04:28	KwaZulu -Natal		No I do not	Television licences	Do not watch any SABC channels on my TV. Only watch streaming services Netflix, Amazon & Youtube	Rohan	employed individual

	2021-09-06 17:37:02	KwaZulu -Natal		No I do not	Television licences	Government can't tax people for tv or a phone - it's not a car that you need to learn how to use or hurt someone. Government uses SABC as a propaganda mouthpiece and therefore should find its own funding.	Kelly	business owner

	2021-08-21 15:14:40	Gauteng		No I do not	Television licences	Why pay for sabc shit that I dont watch. Why pay a tv license???? I dont listen to radio, and sure as hell dont watch sabc crap. They can close their doors. And scrape license for it	lizette	business owner
	2021-07-19 19:24:20	Gauteng		No I do not	Television licences	You will not get access to my property to check anything unless you have a warrent. You must be crazy to think I'm letting anyone in today's environment into my yard. No control in your part. Your use of public funds are shocking.	Breaan	business owner
▼ Eastern Cape	1							

	2021-07-31 14:40:06	Eastern Cape		No I do not	Television licences	Archaic. If you do not watch SABC programs you should not have to pay. If for instance you only watch Netflix or DSTV you are paying for that privledge already.	Simon	business owner
▼ Mpumalanga	1							
	2021-07-31 12:13:08	Mpumal anga		No I do not	Television licences	Television licenses are an additional burden and stress that the public cannot afford. The routes this government takes to syphon additional taxes from the public is mind blowing considering that that ha e proven on numerous occasions that they are incapable of administering public funds diligently. 	2021-08-29 09:10:53	Gauteng		No I do not	Television licences	I personally have not had a tv for more than 15 years. Despite this fact the rudeness of staff when phoning them to let them know I don't have a tv and being informed that I must prove it by finding the tv which broke in 2009 and was never replaced. To being called a liar and continued costs being added every month and every year. It's disgusting that they think they have the right to charge for services not received with such arrogance. I also get informed to just pay everything and they'll sort it out later It's not only theft of money and a person's dignity, it's also people being paid to do a job and not doing it effectively. Any new bill which gives additional power to ignorant non caring people would be absolutely disgusting	Vanesse	unemployed individual

	2021-07-31 14:58:35	Gauteng		No I do not	Television licences	You should go away with the funding model, it is costly and affect youth especially. Please reform SABC to be a competitive organ than a bullying organ. What is the point of paying TV licenses were as I'm not watching or gaining something from the SABC. AND THIS THING OF LICENCE INSPECTORS IS NOT DIFFERENT THAN WHAT THE ARMY IS DOING TO POOR HOUSE HOLDS IN DURBAN AND VOOSLORUS. NIYASIHLOKOMEZA KOLE NEW DAWN	Innocent	unemployed individual
	2021-07-31 12:23:43	Gauteng		No I do not	Television licences	Why are we paying taxes for everything and then add TV licenses to the list. We don't all watch SABC, people that watch it must pay a subscription fee like they pay foreverything else. You are going about this the wrong way. Enforcing payment instead of making this a service a compulsory fee that must be paid by those who watch your services. In the time of live streaming, why are you not making SABC a subscription service. Those that watch pay. Those that don't watch don't pay. If it falls flat it means marketing and sales did not do their job. Period. Instead of making it seem like this is a need. Really?When there is so much competition out there. Instead of showing your skills. You are going to ram this down our throats!	Thabs	unemployed individual

	2021-07-30 06:55:52	Gauteng		No I do not	Television licences	We cannot be paying exorbitant prices for multixhoice and the likes and still be expected to pay for TV lisenses. 	2021-08-20 14:17:14	Western Cape		No I do not	Television licences	The public cannot be expected to pay for rampant ANC thievery and corruption at the SABC. 						<p>It should be clear to anyone with a semblance of respect for technology that cellphones, tablets, monitors and computers are NOT televisions. Revising the definition to what is and is not a television should not be the solution to years of neglect, misuse of funds and blatant corruption. The people should not become scapegoats and will not be fleeced to fund a failing national broadcast network. A real solution can be found in passing the taxation on to entities like multi choice or maintaining a database of actual TV owners. I for one do not receive often receive SABC broadcasts and would prefer not to if given the choice, the programming is dismal, the organization is in a disarray and it's actual offering to paying customers is downright terrible. If you want people to pay for a tv license make the actual TV programmes worth watching.</p> <p>People watch what they like, they do not watch the SABC. This is obviously a generalization, however the sentiment holds true. Fix your own problems before aiming for a desperate, pitiful cash grab.</p> <p>Again to be 100% clear.</p> <p>A Smartphone is not a Television. A Laptop is not a Television. A Tablet is not a Television. A monitor is not a Television. A computer is not a Television. The only thing that is a Television is... you guessed it a Television.</p> <p>The argument that any device is capable of receiving broadcasts from the SABC is invalid, and is an argument made in bad faith, due mostly to the choices made by the SABC to display its content on a global network. The only device capable of receiving local broadcasts exclusively is an actual television.</p> <p>I do not agree with this bill, and reject it outright. Fix your own problems before passing the buck to the consumer.</p>

I might consider to pay TV licence once the SABC delivers quality service.</p>

	2021-07-24 00:46:53	Gauteng		No I do not	The Bill in its entirety	The SABC should get its funds from advertisers. If people do not want to advertise on this service, then maybe there is something wrong with it. If a person do have a TV and do not use any of the SABC's products (TV or radio), why should you then have to pay for this service? If you stream content over the internet you are not using the SABC's infrastructure, so why do you have to pay for it. The only amendment that makes sense is to scrap the TV license system in its totality. What does it cost to operate this revenue system? If all these people instead marketed the system to attract more advertisement the income from advertisements would far exceed the income from licenses. Furthermore the content available on the internet is far better than any local content that is pushed down our throats by the corrupt ANC government. 	2021-07-20 16:06:06	Gauteng		No I do not	The Bill in its entirety	This bill does not make sense and should be stopped immediately. To still pay a TV license does not make sense. Its an archaic system that should have been stopped 10 (maybe more) years ago. If you need money to run a system, then ask people that want to use the system to pay for it. Then you will see, no one will pay and it will show you the futility and waste of what you are trying to do and keep alive. I don't see a purpose of the SABC to exist any more. They are just wasting money and making new rules that does not make sense or apply to a new modern world. A lot of people don't watch or listen to any SABC channels /stations, but have to pay for a license to owe a TV that has nothing to do with broadcasting of signals. And keeping other people on a broadcasting system is to keep them in the dark and just an excuse to have them pay money. Rather uplift the people you need to serve. The "signal" bandwidth could be much better used for other uses. The inspectors is just an invasion of privacy and none of your citizens and tax payers and license payers want that. If you don't have a TV license anymore, then people will not have to pay for a license, you will not have issues with collection, nor do you need to appoint inspectors to invade peoples private property. This solves a lot more issues. The current bill and the new bill just create more issues. Please listen to the people, there is just so much wrong with the new rules and trying to keep SABC alive. It's poorly run and trying to force itself and it's citizens to pay for something they do not use. If you want to run the SABC properly, have a decoder where people have to pay either a monthly or annual subscription to view the contents. The government is failing to do this, because they know that they will not generate any income for the SABC due to the way it run and the poor quality of shows it offers. Broadcasting ans tv licenses should not be forced, it should be any citizen's right to spend money where they feel they get the most value. If this is from streaming Netflix, Showmax, DSTV etc, then so be it. The SABC needs to improve themselves and compete with change or die with old age. There are Radio/TV stations that do not receive any government subsidy but continue to work as they have an effective business model. The SABC has never realised that it is a business. Corruption and miss-management have been the order of the day and there is no reason for the SABC to continue to function as it is nothing but a mouth piece for the ANC. It should be clear to anyone with a semblance of respect for technology that cellphones, tablets, monitors and computers are NOT televisions. Revising the definition to what is and is not a television should not be the solution to years of neglect, misuse of funds and blatant corruption. The people should not become scapegoats and will not be fleeced to fund a failing national broadcast network. A real solution can be found in passing the taxation on to entities like multi choice or maintaining a database of actual TV owners. I for one do not receive often receive SABC broadcasts and would prefer not to if given the choice, the programming is dismal, the organization is in a disarray and it's actual offering to paying customers is downright terrible. 	2021-08-27 04:49:13	Mpumal anga		No I do not	The Bill in its entirety	Once again the law abiding citizens of this country has to pay for the greed and criminality of the ruling party. 	2021-08-19 15:49:29	Mpumal anga		No I do not	The Bill in its entirety	TV licenses should be scrapped entirely. This is an avoidable cost for an already cash strapped population. The ineffectiveness of the TV license system has already been proven, yet the SABC is still in existence without a large portion of these projected funds. Focus rather on doing your jobs correctly and less on trying to find ways to syphon additional funds out the people for a pathetically below par offering.	Brendon	business owner

	2021-07-19 19:16:57	Mpumal anga		No I do not	The Bill in its entirety	I have no problem paying an annual TV license even if I do not utilize SABC broadcasting services. I view the license as a TV license only. However, if government thinks they can suddenly have free access, without a search warrant, on private property, they are indeed going way too far with their amendments. If this is once again one of Stella Abraham's idiotic schemes? If it is, I suggest she is given a new portfolio on Mars. From 5G in our yards our properties, TV licenses for phones and computers and then government owned data clouds to freedom of entry to inspect properties, I wonder if the current portfolio could rather be operated smoothly and free of corruption, than try to create new schemes that make no logical sense. Government overreach is an understatement insofar as this bill intends. The state broadcaster is nothing less than a propaganda outlet, and a slush fund for more, otherwise unemployable, thieving cadres. Their history is evidence of this.	Lynethea	business owner

	2021-08-22 14:49:13	North West		No I do not	The Bill in its entirety	The SABC should be privatized and operated as any other commercial broadcaster. Free and fair competition for subscriptions and advertisements as the case may, be should be the basis of funding. South Africa does not need a state broadcaster that is completely inefficient, does not provide content in line with the public's interest and costing she taxpayer millions. This point of departure is in line with most free and democratic countries in the world. A general tax will only burden the small tax base even further and provide little if any value. Invading homes is defiantly a violations to the individual privacy. Regulating users and taxing people for using the internet, computers and cellphones which is already a paid and taxed service (VAT) amounts to double taxation and will harm the freedom of association and access to information. 	2021-08-19 14:24:02	KwaZulu -Natal		No I do not	The Bill in its entirety	This bill infringes on South Africas bill of rights when it comes to the when it comes to the freedom and security of the person and the right to privacy. If these inspectors are granted powers where based on how they feel can enter any property. It also opens the gates to criminals to pose as set inspectors and gain access to properties, putting the lives of citizens in danger and risk of property damage, thus creating a situation that can lead to the infringement of the right to an environment that is not harmful to a persons health or well-being. Why should a license be imposed on the purchasing and usage of a TV? When a person buys a TV, tax is paid. The reason for this is that the SABC does not have a quality service. 'Professional' broadcasters struggle to pronounce the most basic of terms. Surely the FIRST requirement for employment should be knowledge of the language that is being used? Knowledge includes pronunciation! Subject matter is abysmal, not everyone is interested in historical records of heroes of the struggle? This comes across as propaganda. Sick & tired of this! ANC propagandists & broadcasting is not a good mixture. Motsoeneng thought he was the master of this nonsense. The there is the issue of the licence. I am reasonably certain that the SABC is NOT a police service. An attempt to inspect premises for the presence of receiving apparatus will be met with a simple NO. The SAP(S) is incapable of doing the most basic of tasks. Don't know how they will add this ridiculous task to their list? SABC should go back to basics. Provide a basic news & entertainment service. 	2021-08-21 13:59:17	Western Cape		No I do not	The Bill in its entirety	I have two concerns. One is the fact that many people, instead of buying a new TV at a shop and producing their TV Licence first, they buy a good second hand one from a private buyer, who doesn't first ask to see their TV Licence. Secondly, for many years, Licence inspectors came around every single year to check our licences. Then it all stopped after the ANC got in. It was a slippery slope, and probably came about through the fact that many didn't notify the TV Licencing Department that they had changed their address. There was no motivation in doing so, as they could get away without paying for their Licence. The Townships are tightly packed, probably without the numbers on their house. Therefore, it wasn't easy to check up on people. Perhaps there was intimidation too, by the residents. Not sure. They could still check on people in their houses - a safe and easy option, but they didn't bother. Anyway, the result is, no Officers checking the Licences. Why should it work now, and what will change? There is still the difficulty in accessing the houses of people, still people buying TV's second hand. The only way, would be to charge everybody what will probably turn out to be an increased fee. Still, there will be many people not paying it for reasons of their own, and leaving the law abiding peoples to somehow find the money. Very difficult for those people, as our rates have gone up 60% at a time of strong hardship due to interest rates dropping (for the pensioners with investments - they now have half the return that they did before Covid. Many are unemployed now, and many have less money than they did because of the rampant inflation at the shops. Not for basic stuff like Mealie meal, Corned Beef, bread etc. But for things like Washing up liquid, detergents, typing paper, Meat, fish, etc. I wish I had suggestions to make. Personally, we don't watch SABC ever, nor do we stream. As a pensioner on a low pension, we are already struggling to stay afloat, but have had to go into our small savings every single month. I saw the growth of this broadcaster, till 1994, when this government took over. The decline of the broadcaster, started then. I left in 1997, when 4,000 employees were rationalised, as the SABC income had been decreasing, since 1994 and management was not fit to take proper control, listen to experienced employees and pushed the SABC, over the edge. What they have today is not a skeleton or a shadow, of what they took over in 1994. Management is in need of money to enrich themselves and might find that begging on street corners will help, but not if the people know they are SABC management. 					<p>TV licences itself has become outdated. It was implemented to maintain the SABC way back when it was the only broadcasting service out there.</p> <p>Now, there is a choice. Should you subscribe to the SABC, then by all means pay a subscription. If not, then why are we expected to pay for a service we: a.) Don't intend on using, and b.) Aren't interested in.</p> <p>It's the same concept of paying for a drivers license, when all you have is a bicycle. Or property tax, when you don't have a home. It makes no sense.</p> <p>A TV is just a means to provide a video output, same as a projector, monitor, screen of a cell phone, tablet, gps, calculator, etc.</p> <p>You don't charge a subscription fee for the screen on a gps device, you pay for the service, if at all. It's usually just a one time price to buy the unit, that's it.</p> <p>DSTV/Netflix/Youtube Premium/Amazon, they don't care on what device you watch their content. If you consume it, you pay for the service, if not, you don't have to pay anything.</p> <p>The argument that the SABC is not getting enough money, is a problem of the SABC internally. Those who don't consume it have found better alternatives. Those who do consume it, they can be charged a subscription. Or have it be increased for SABC to get in more money.</p> <p>If it still want's to be an open public service, then the funds for the budget should be provided by government via already in place taxing systems. Sin tax was a major source of governmental income, until they shut down bottle stores for some time.</p> <p>What that points out, is that mismanagement is the root of all business issues, such as the like SABC is experiencing.</p> <p>Don't make the SABC's problems the public's problems. They should do everything they can to sort it out on their end first, which they haven't; merely stating that they exhausted every option is a lie if there are no results or proof to show what they tried and why it failed.</p>

	2021-08-26 06:02:34	Western Cape		No I do not	The Bill in its entirety	This is just another example of how this greedy and corrupt ANC government has screwed up. What is the point of this, it is already obsolete. I do not watch SABC nor do I watch mainstream media. I am not interested in poor programming or fake news. The State Broadcaster has created this problem and now wants the public to bail them out with a household tax. The SABC wants to force owners of other digital devices such as laptops, tablets, game consoles and smartphones to pay a TV license whether they watch SABC content or not. If this was not bad enough the government wants to leverage private companies such as DStv, Netflix SA and Multichoice to enforce their subscribers to pay their tv licenses or track it on their bill whether their subscribers watch SABC or not. Private companies cannot be held responsible to collect tv licenses on behalf of the SABC. This is ridiculous, private companies are direct competitors to the SABC and more importantly they are required by law to protect their customers privacy. The SABC bill can be in direct contravention with such mandate. Why should third parties not involved in the sale of TV sets be obligated to collect tv licenses. This is not feasible and the SABC must do their own work. Collecting tv licenses for other devices will only create problems both in principle and practical implication. Also it is crazy to do away with the position of COO who is essential to core management structure. The Minister has given herself the right to day to day management issues such as remuneration of executives. Why, so that the government can steal more money from the people. The SABC bill is out of line with international best practices and utterly inappropriate and should not be given any consideration.	Nicole	unemployed individual

I say, cancel all TV license fees and have production houses pay to air their programmes and open up the licensing for other players other than ETV to participate in the TV economic sphere and they in turn can pay SABC - just like DSTV do. As well as the frankly ludicrous ideas of our communications minister. The idea of allowing any government agency or their agents to violate the right to privacy of citizens by being allowed to enter private property without a warrant is not only a violation of basic human rights and our constitution but also leaves the public open to exploitation by criminals. Not needing a warrant makes it that much easier for criminals to claim to be inspectors to gain access to a property. 					<p>Being unable to purchase a television without a tv license, I reluctantly and regrettably made the mistake of giving my details to the SABC so that I can excitedly purchase my first television set. I have never watched any SABC program on my television set. I use a HDMI cable to watch Netflix and Showmax from my laptop.</p> <p>I am unable to cancel with SABC as cancellation and inspector fees cost as much as subscribing to SABC.</p> <p>This is a prime example of a Catch 22 scenario.</p> <p>I have started a new business recently and cannot afford to pay my tv license and even if I could afford it, I feel that the SABC does not deserve this money as I do not believe in their troglodyte system to ensnare individuals to constantly cough up money to them for absolutely no reason.</p> <p>TV inspectors with unfettered access to homes will open the doors to a whole new level of "forced entry" crime as criminals will adapt and use this tactic to gain entrance to homes of unsuspecting people. I cannot imagine the horrors of a house wife alone with criminals gaining entrance to her home under false pretenses with no way of defending herself. This type of crime is already taking place with criminal impersonating Eskom technicians or "meter readers".</p> <p>With unemployment at an all time high, violent crimes are on the rise. This TV Inspector nonsense could not have come at a worse time and I hope for the safety and sake of many South Africans, that this Bill will never be ratified.</p> <p>I do not know the sustainability of SABC and their current trajectory is worrisome. I would rather not ride this wave with them and throw my hard earned money into a seemingly endless pit.</p> <p>I believe all state owned enterprises in South Africa are not functioning optimally and therefor not sustainable.</p> <p>If things were different with responsibility and accountability and good company culture, I would probably be more open to considering supporting a local company like the SABC.</p> <p>The world is constantly changing. Technology especially. The way people consume goods. Service quality and transparency. Outstanding work ethos and moral standards. Honesty and openness.</p> <p>I feel SABC has fallen a bit behind (or left behind) and tried to run in their old "success groove" ways expecting things will stay the same. Not adapting, not changing and not definitely not understanding it's consumers and their needs, wants and frustrations.</p> <p>Solutions</p> <p>I do not have the answers for the SABC. Should Netflix ever agree to collect fees on behalf of the SABC (which I highly doubt), I will simply cancel my South African Netflix, subscribe to a VPN service and consume Netflix America.</p> <p>I would suggest leadership look into researching what is happening internationally. How successful international broadcasting stations are</p>

It has been mismanaged from it's inception, and is a financial and cultural disaster. Added to that, the concept of demanding TV licenses for a streaming screen is state sanctioned robbery, and I can not even begin to express the level of apprehension that I fell about granting the SABC the power to physically invade anyone's home at any time, and how this will be used by the criminal elements in our country to gain access to home for felonious reasons. Everyone has the right to privacy, which includes the right not to have a. their person or home searched; b. their property searched; Since the SABC is a corporation and not a public service body, it may not infringe these rights itself. 						<p>The provision for TV license inspectors to enter upon any land as needed to exercise their powers is directly opposed to section 14 (a) and (b) of the Bill of Rights of the Constitution, and would grant TV license inspectors greater freedom than even the police. Furthermore, it introduces risk for citizens wherein criminals could claim to be TV license inspectors in order to demand entry to someone's land or home. Average people would not know how to distinguish valid TV license inspectors from imitators, and would be deprived of the safety of their land or home in such cases. Safety-concerned citizens who refused access could be criminalized for simply protecting themselves and their family. TV license inspectors who entered someone's land or home when the owner or resident was not present would also create a risk for the inspector as well as for the safety and security of the resident or owner's person or property.</p> <p>Section 28(7)(f) is unreasonable and unacceptable and should be removed or replaced. Instead of allowing TV license inspectors to enter wherever they want, they should be required to obtain a warrant where they have reasonable suspicion of an unlicensed TV being used, such as when observing antennas or satellite dishes or hearing sounds of television programs. Provisions could be made to streamline the issuing of such warrants and/or to provide escort by police to ensure the safety of both the inspector and the owner or resident.</p>

	2021-08-28 10:42:16	KwaZulu -Natal		Not fully	Television licences	<p>All well and good increasing the punishment however this law as with other laws such as those that are supposed to protect the country from electricity and copper theft are not applied equally either.</p> <p>Another example is the current SABC free distribution of the digital TVbox to the indigent. This is wrong as they have a TV they should pay as anybody else shall be forced.</p> <p>Another point is if they can afford the TV and unassumingly pay for electricity then they should be subject to the same TV payment law.</p> <p>If Joe soap squatter steals electricity to use his DSTV or other satellite service he is not sanctioned for no TV license or illegal connection while those with fixed homes and pay taxes will be sanctioned come what may.</p> <p>SABC would target only suburban homes and business not those in the townships. This will not be equal application of the law.</p> <p>As an exercise before the writing I drove past an informal settlement outside Durban easily seen from the N2. I counted 34 TV satellite dishes and that were those I could easily see. If SABC were so keen to increase revenue start in these settlements before increasing punishment for the tax paying citizens.</p> <p>I would fully support any license provided we can see an equal application of the laws of the land where squatter with a TV driven by battery or illegal connection or Suburban home is targeted equally.</p> <p>Moreover I would suggest that SABC get their data base corrected deleting the dead and buried before they even consider enforcing payments of service not used by the dead.</p>	hugh	retired

	2021-08-22 12:57:28	Gauteng		Not fully	Television licences	<p>My concerns regarding the draft bill are as follows:</p> <ul style="list-style-type: none"> - Only devices specifically designed/intended to receive a terrestrial television signal broadcast by the SABC should be regarded as a TV set and/or be required to be licenced. - TV licence inspectors should not be able enter the homes and businesses of citizens without either a warrant of the express permission of the home or business owner. - The idea of imposing a household levy ("hut tax") on all households in the country should be scrapped. The SABC's broadcast services should be funded entirely by those who have indicated that they plan to receive these broadcasts by purchasing a TV set. - The satellite and other digital streaming services should not be obliged to carry the SABC's channels/content. - Satellite/streaming services should not have to pay for SABC channels/content, unless they have voluntarily entered into an agreement to include them. - Satellite/streaming service providers should not be compelled or permitted to collect SABC TV licence fees from end-users and subscribers. 	2021-07-19 17:53:11	Western Cape		Not fully	Television licences	<p>I do not approve of the concept of "authorised inspectors" in any form. My reasons include (but are not limited to) not being able to trust a person knocking on my door, showing a form I cannot easily verify. The less laws which grant access to my home, the better.</p> <p>I also am confused by the lack of "television" under Definitions.</p> <p>On top of this, I do not agree with the license fee in general. I am not a TV owner, but my household is. I do not agree paying SABC for buying a "device that can display an image". A television by itself does not grant me access to SABC. If I wanted to buy one, it would be for my OWN media. I do not use Netflix or such, but I also fully disagree with any sort of TV license fee for using such products (regardless of what device it is used on?). It is NOT the business of SABC what I use my "image/sound viewing devices" for, other than their own services.</p>	Kyle	employed individual

	2021-07-27 15:46:08	Western Cape		Not fully	Television licences	TV licenses are a outdated way to collect income for the public broadcaster. The income generated is not worthwhile in terms of the cost and inconvenience to the viewing public when paying a small monthly/yearly fee. It would make more sense to tax TV sets when sold. The SABC should be privatized, and generate it own income, with a subsidy to cover the public service aspects provide by the public broadcaster.	Chris	business owner

	2021-07-19 17:44:03	Limpopo		Not fully	Television licences	In the first place, we need Not pay the Television Licences at all because we already pay for DSTV to view SABC Channels on our TV screens and it's Not for Free. We may pay if our viewing SABC channels does Not come to us via a platform we already pay as SABC doesn't provide a Stand Alone platform! It's unfair to pay dual fees for same viewing time and environment. I hope to be clarified about what difference will new board bring for us the poor and the public in general! Again, the SABC reduced its workforce and now want to give costly contracts to Inspectors, and such a duty could have been done by expelled employees. I find it hard to see the necessity of having the Bill revamping the works, roles, responsibilities and accountability after firing such a lot of employees. Recommendations: -that for the same reasons of making this Bill, it re-employ the fired employees and train them for the purpose this Bill is intended for. We are actually tired of footing the bills we are seeing people mismanaging Tax Payers funds, now the TV Licenses fees will be at a huge risk of being corruptly stolen, it's a No from me!!!
