	2025-06-23 09:46:26	Yes I do	Broad-Based Black Economic Empowerment Framework	Two comments: 1. We need to best and most cost-effective technology solutions to develop South Africa. This includes solutions for rural communities. If current laws and regulations, however well intended, result in protecting existing expensive solutions, we need to consider all alternatives to further the developmental goals of the country and then change the laws and regulations to enable those goals. 2. South African individuals and businesses are competing on the global stage. Access to the best technology solutions enables South Africa to compete on a level playing field with other countries. Laws and regulation, however well intended, that prevent or impair our ability to compete as a country should be amended to have the intended impact and not be an obstacle making South Africa less competitive.	Thys

	2025-06-23 09:45:34	Yes I do	Broad-Based Black Economic Empowerment Framework	I commend the Communications Minister for gazetting a draft policy direction that may allow Starlink to operate in South Africa. Access to affordable, high-speed internet—especially in remote and underserved areas—is no longer a luxury but a necessity. Satellite-based services like Starlink can help bridge the digital divide far more effectively than traditional infrastructure in many parts of our country. However, I am concerned that current licensing requirements—specifically the 30% ownership requirement by historically disadvantaged South Africans under ECNS and ECS legislation—are outdated and counterproductive. While these policies were implemented with the intention of addressing historical inequality, they have, in practice, served to entrench a narrow layer of politically connected beneficiaries while stifling innovation, discouraging foreign investment, and limiting access to global services. It is time to acknowledge that BBBEE, in its current form, is a failed social experiment. Rather than lifting the majority of disadvantaged South Africans out of poverty, it has contributed to the worsening of economic inequality and the exclusion of many from the opportunities that a modern, connected society can offer. South Africa's policy direction should prioritise practical outcomes: access to services, job creation, digital education, and national competitiveness. These objectives are far more likely to be achieved by removing artificial barriers to entry and creating an environment that encourages global technology providers to invest and operate locally. I urge the Minister to proceed with the policy direction and allow Starlink and similar services to operate freely in South Africa without being forced into ownership arrangements that do not align with their global operating models. Transformation should be measured by real-world impact, not compliance with arbitrary quotas.	Dirk	Mpumalanga		employed individual

	2025-06-23 09:40:45	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is race based policy. In the 'old' South Africa the National Party had laws that favored people and gave them priority in getting jobs based on race now the ANC is doing what the national party did so we are going back to the 'old' South Africa. Is the ANC the new National party, I thought they fought to stop that now they are doing that exactly themselves. Jobs have to go to the person genuinely suitable to provide the best economic out come for the country and the business in which they are employed. South Africa is not in a strong economic position and can ill afford to play around with this, it will disadvantage may more people over time and very significantly if BBBEE is done to simply satisfy some political agenda that is economically optimal.	Colin	KwaZulu-Natal		employed individual
	2025-06-23 09:40:38	Yes I do	Broad-Based Black Economic Empowerment Framework	It has been over 30 years and BBBEE has not benefited the deserving under privileged but the corrupt politicians who employ people for their own benefit. Every race should have an equal opportunity to a job and promotion within a company. It's time we put an end to this and gave the right jobs to the right people irrespective of color and race.	Annriette	Gauteng		employed individual

	2025-06-23 09:36:40	Yes I do	Broad-Based Black Economic Empowerment Framework	The BEE name tag has for years been a stumbling block for business in this country, you only have to see how many companies have folded because of this legislation. So, I'm strongly in agreement for a departure from any form of BBEE or any other acronym it's known by.	Russel	Eastern Cape		retired
	2025-06-23 09:36:34	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE has caused South Africa to lose its most qualified and experienced workers, and continues to drive young, entrepreneurial people out of the country. It's time to allow properly qualified people to do the jobs they are best suited to, in industry, commerce, and especially in government!!. It has been to the benefit of a few selected individuals only, and has not helped to eliminate unemployment. It killed enterpreneurship and contributed to slowing down he growth of our economy.	Hennie			
	2025-06-23 09:36:18	Yes I do	Broad-Based Black Economic Empowerment Framework	The broad based economic empowerment framework overall is stifling economic growth and has enriched a few of “the connected” rather than the many. As a result you will see that overall poverty hasn’t decreased and the unemployment rate in Doith Africa is astronomically high. Businesses are leaving SA, as are skilled workers because of this restrictive policy. In the case of Starlink it is depriving thousands of people in remote areas the opportunity to connect to the world, increase their knowledge, skills, and run businesses. This BBBEE has to be removed altogether, but modifying it for the implementation of Starlink is a start.	Keith	KwaZulu-Natal		retired

	2025-06-23 09:35:17	Yes I do	Broad-Based Black Economic Empowerment Framework	An open market competitive environment for business creates entrepreneurs and stimulates business and attracts both local and foreign investment. Business confidence and investment create sustainable jobs and grow the economy and the tax base, thereby moving away from a nanny state where the government maintains people through handouts. There is no money for handouts when it is needed to maintain and expand infrastructure. Do away with BBBEE and stimulate real and sustainable growth, leading to meaningful jobs and pride and sense of achievement in employees who feel they are adding to the economy and country. Add to this the incredible help that cheap and fast Starlink service would add to the ability of ALL South Africans to access education and information would make this a no-brainer in uplifting ALL South Africans. We must allow the to happen and then allow more open and transparent business and employment models.	Nic	KwaZulu-Natal

	2025-06-23 09:34:24	Yes I do	Broad-Based Black Economic Empowerment Framework	I fully support the direction this policy is heading. For too long, we've seen well-intentioned transformation policies create unintended barriers for new businesses and entrepreneurs who have worked tirelessly to turn great ideas into viable enterprises. Many of these individuals have put everything on the line to grow their businesses, only to be told they must give away a portion of what they’ve built to comply with policies that don’t always reflect the reality on the ground. While there are certainly cases where transformation goals have brought about positive change, it’s also true that many capable and innovative businesses have been hindered or slowed by rigid requirements. It's time we find a more balanced approach—one that still encourages empowerment but also rewards hard work, innovation, and sustainability. As someone once told me, “The opportunity of a lifetime only lasts the lifetime of the opportunity.” If we continue to delay progress because of outdated frameworks, we risk losing out on the very growth and transformation we aim to achieve. I encourage others to share their thoughts on this matter and support what could be a much-needed step toward creating a more enabling environment for all entrepreneurs.	Barry	Mpumalanga		business owner
	2025-06-23 09:34:14	Yes I do	Broad-Based Black Economic Empowerment Framework	This legislation has never worked and is racist. We need a proper free market economy where the best person, regardless of race, gets the job. BBEEE has been a disaster and we need to drag the economy out of its slump if we are ever going to address the multitude of issues we have in South Africa.	Matthew	Western Cape		business owner
	2025-06-23 09:34:09	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has no place in modern South Africa. Everyone should be given equal opportunities. BBBEE only enriches the top sector of society in South Africa and makes the rich richer, the poor are definitely poorer., as are the middle class. The track record of BBBEE has proven it does not work and is now purely race driven - there is no room for racism in modern South Africa. The man on the street is the one suffering because of BBBEE as international companies are either unable or unwilling to invest. This has to change if South Africa is to survive. The ANC has had ample time to right the wrongs of the past, constant discrimination of the minority population due to race borders on evil.	Lynn	Gauteng		employed individual
	2025-06-23 09:33:52	Yes I do	Broad-Based Black Economic Empowerment Framework	The B-BBEE has been and remains a monumental failure for our country.	Andre	Western Cape		business owner
	2025-06-23 09:33:44	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has failed. The economy and unemployment are worse off because of it. The community it was intended to support have not benefited enough. A minority have benefitted. Growth and education should be prioritised for improved economic prosperity for all. 	2025-06-23 09:24:15	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE should be scrapped in its entirety.	Antoinette	Western Cape		self-employed
	2025-06-23 09:23:35	Yes I do	Broad-Based Black Economic Empowerment Framework	This policy has choked SA to the very edge. It's time to stop this stupidity and the theft and destruction it has caused and give the country a chance to try and revive itself.	Trevor	Gauteng		self-employed
	2025-06-23 09:23:33	Yes I do	Broad-Based Black Economic Empowerment Framework	We need change our mindset, embrace positive changes, and work together so that we can move forward in South Africa.	Lesley	KwaZulu -Natal		retired
	2025-06-23 09:23:25	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has failed. The economy and unemployment are worse off because of it. The community it intended to support, have not benefitted. A minority have benefitted. Growth and education should be prioritised for improved economic prosperity for all. Starlink will improve access to education.	Terry	Western Cape		employed individual
	2025-06-23 09:23:15	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is damaging South Africa's economic growth prospects and harming the poor. It is stifling entrepreneurship and creating high unemployment which impacts the poorest of the poor in the worst way possible. South Africa has lagged far behind its peers in economic growth. BBBEE is has been in place for decades which shows that is was the cause of the lag. Peers to South Africa have grown 3 to 5 times faster. I deal with some of the harms below: Economic Inefficiency: BBBEE policies often prioritize racial quotas over merit, leading to mismanagement and reduced productivity in businesses. Companies may hire or promote less qualified individuals to meet compliance, undermining competence and innovation. Corruption and Cronyism: The system has enabled "tenderpreneurship," where politically connected individuals secure lucrative government contracts, often without delivering quality services. This diverts resources from genuine economic development and fosters nepotism. Investor Deterrence: Strict BBBEE requirements, such as equity transfers or preferential procurement, increase operational costs and complexity, discouraging foreign investment. Investors may perceive these policies as unpredictable or unfair, reducing South Africa's global competitiveness. Brain Drain: Skilled professionals, particularly from non-designated groups, face limited opportunities due to affirmative action policies, prompting emigration. This loss of talent weakens the economy and exacerbates skills shortages. Social Division: BBBEE reinforces racial categories, perpetuating division rather than fostering unity. It can breed resentment among those excluded from opportunities, deepening social tensions. SME Burden: Small and medium enterprises struggle with BBBEE compliance costs, limiting their growth and sustainability.	Deon	Western Cape		business owner
	2025-06-23 09:23:07	Yes I do	Broad-Based Black Economic Empowerment Framework	Mr Malatsi. B-BBEEE in its totality is a corrupt system that only benefits a select group of ANC representatives and their families to further enrich themselves. The average black citizen does not benefit at all from B-BBEEE, only the rich and connected that gets richer and richer. This whole system is fraudulent and corrupt and strangles growth in SA, which is evident from the neglect and proof of what SA was ,and what is left of it now, visible to anyone with open eyes, and not looking through racist glasses. I myself is a small business owner that has lost many contracts because I will not, hand out 51% of a business that I built from nothing with no white privilege or benefits from apartheid. Hard work, blood sweat and tears and 16 hour days at a minimum, to build my small company that has been surviving since 1997. Please open your eyes and realise that B-BBEEE is not working and should be abolished for the good of SA, and not only racist, connected cadres that is stealing all the wealth of SA and hiding in overseas bank accounts to where they will flee when everything in SA falls apart. I trust you will have the backbone to stand up and bring an end to this foolish persisting of pushing B-BBEEE that has no benefit to the health and wealth of SA or any citizen of this great country that used to be the envy of the African continent.	Riaan	Gauteng		self-employed
	2025-06-23 09:23:05	Yes I do	Broad-Based Black Economic Empowerment Framework	All people should have equal opportunities not only one race group	Ann	KwaZulu -Natal		employed individual
	2025-06-23 09:22:12	Yes I do	Broad-Based Black Economic Empowerment Framework	With our unemployment rate of 41%, our government needs to strongly encourage as much economic growth as possible. The current BBBEE legislation hampers economic growth and scares investors away. Its unwieldy, bureaucratic and expensive for companies to comply with. It should also be completely unnecessary - look at maths - if our economy was the size it should be, there would absolutely no need for any BBBEE as there simply isn't a big enough white population. We really need to focus on growing the economy, whilst ensuring fair labour practices, as much as possible.	Nina	KwaZulu -Natal		business owner
	2025-06-23 09:22:00	Yes I do	Broad-Based Black Economic Empowerment Framework	I support the removal of BBBEE ownership requirements for ECNS and ECS license applicants. While transformation and inclusion are important goals, the current framework has had unintended consequences- particularly for small and emerging businesses that are trying to compete, grow, and win more business in South Africa. As it stands, BBBEE requirements often favour large, well-resourced entities that can afford complex ownership structures and compliance mechanisms. This places a disproportionate burden on smaller players who may be innovative and capable but are locked out of opportunities simply because they do not meet rigid equity thresholds. The proposed policy direction presents a more open, competitive landscape - one that enables technology providers like Starlink to enter the market and extend access to underserved areas. More importantly, it sets a precedent for shifting transformation efforts from ownership-based compliance toward real outcomes - skills development, job creation, local empowerment, and service delivery. I believe this change can contribute meaningfully to economic growth, digital access, and a fairer playing field for businesses of all sizes. I urge the Minister and ICASA to take this opportunity to modernise our approach and create a more inclusive and competitive telecommunications sector.	Izane	Gauteng		business owner

	2025-06-23 09:20:45	Yes I do	Broad-Based Black Economic Empowerment Framework	B-BBEE has had more than 20years to right the wrongs of the past. It's time to let it go. We need to move forward as a unified country. This means equal opportunity. For ALL South Africans regardless of skin colour, ethnicity, cultural beliefs, religious beliefs etc. All South Africans and South African Companies whether large or small should have the right to government assistance through the DTI, SEDA, IDC and other Government platforms. We are all subject to the same taxes, but we do not all receive the same benefits. Likewise the availability of bursaries and learning opportunities should be granted purely on academic prowess or at the very least an affordability process, and not based on ethnicity. Its time to aboloish B-BBEE once and for all and start actually living up to the name of Rainbow Nation and implement equality for all.	Tandy	Western Cape		employed individual
	2025-06-23 09:20:32	Yes I do	Broad-Based Black Economic Empowerment Framework	I cannot for the life of me understand, that Any Human Being with a brain, has never noticed what BBBEEEXYX QLM, or whatever you wish to call this rubbish, how it has DESTROYED this country, with the NEPOTISM they created. 	2025-06-23 09:20:16	Yes I do	Broad-Based Black Economic Empowerment Framework	BBB-EE should become P&LS-EE (Poverty and Living Standards Economic Empowerment) which means that the more relevant principles applied to BBB-EE can still remain in place but will support the empowerment of those who are economically disenfranchised - REGARDLESS of colour, culture or belief system. The only affirmative action that should exist focusing on colour, should be the colour of green (the colour of money) - ie support and assistance given to those that need it financially regardless of skin colour. This will result in positive growth in the economy and not a small group of fat-cats lining their pockets.	DJ	Limpopo		self-employed
	2025-06-23 09:20:06	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has not benefited those who need it most - we need a better defined strategy that does address and help everyone in South Africa. Just just the 100 people that benefitted with earning a Trillion Rand through BBEEE	Marianne

	2025-06-23 09:06:33	Yes I do	Broad-Based Black Economic Empowerment Framework	Scrap BBBEE altogether. Let's move forward. We have been a Democracy for over 30 years! Enough BEE already, and it did not work and won't work going forward.	Grant	Western Cape		employed individual
	2025-06-23 09:06:21	Yes I do	Broad-Based Black Economic Empowerment Framework	Our countries BBBEE laws are costing businesses severely, whether State Owned, Non-Profit or Private. Because of this framework, businesses are unable to scale, causing stagnation in growth, worsening the unemployment rate. If these frameworks are relaxed, more businesses would thrive and employment opportunities would be positively affected. Not only would this have a direct-positive influence on private companies in RSA, but would further lower government expenditure, as it would allow public funding to award tenders on the basis of price - instead of on the basis of BBBEE. Reports have indicated that the government savings alone would lead to billions in tax revenue in the event of relaxed BBBEE laws which could assist in infrastructure development and job creation instead.	Samara	Eastern Cape		employed individual
	2025-06-23 09:06:12	Yes I do	Broad-Based Black Economic Empowerment Framework	This is a poverty inducing policy, only benefiting the ultra-connected. There is an African way we need to address, to the destruction of all the good that is going on. It is easily addressed through ideological shift to embrace the cultural identity and do away with the BEE. People must have the opportunity to be uplifted from the poverty trap, poor education and service delivery are the heart of perpetuating this horrid cycle.	simon			
	2025-06-23 09:05:56	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE does not help business or the economy. People need to earn their jobs and not receive it based on a policy. We need to remove blockers that stand in the way of our country progressing as a collective and we need foreign investment.	Garret	Western Cape		employed individual

	2025-06-23 09:05:41	Yes I do	Broad-Based Black Economic Empowerment Framework	I support the inclusion of Starlink in South Africa's telecommunications landscape and urge a reconsideration of rigid B-BBEE ownership requirements in this context. While the goals of transformation are important, the current implementation of B-BBEE often imposes structural barriers that hinder economic growth and individual freedom. Moreover, B-BBEE's race-based ownership quotas restrict economic freedom by compelling businesses to cede equity rather than compete on merit, capability, or performance. This undermines entrepreneurship and discourages international partnerships that could bring much-needed infrastructure and opportunity to underserved communities. South Africa needs a transformation policy that empowers without excluding — one that fosters real participation, not box-ticking compliance. In the case of Starlink, the national interest in universal, affordable internet access should take precedence over outdated ownership formulas.	Franco	KwaZulu-Natal		employed individual

	2025-06-23 09:04:34	Yes I do	Broad-Based Black Economic Empowerment Framework	It has proven beyond doubt that the BEE policies in terms of ownership does NOT achieve the results for which it was intended. There are many other ways to help educate and build skills amongst the previously disadvantaged. Further these policy can hinder benefits directly to the same disadvantaged citizens. An example is the Starlink initiative. Whilst the rest of Africa uses this solution to enable ALL its citizens access to the internet no matter the location without depending on infrastructure, South Africans ALL suffer by not having this facility.	Ralph	KwaZulu-Natal		retired
	2025-06-23 09:03:46	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE is just a space for fraud, i see this every day. Bribes, corruptions, theft in all industries	Gerrie	Gauteng		self-employed

	2025-06-23 08:59:36	Yes I do	Broad-Based Black Economic Empowerment Framework	Public Comment on the Draft Policy Regarding Starlink and Equity Requirements To whom it may concern, I fully support allowing Starlink and other international companies to operate in South Africa without being forced to comply with BEE ownership or equity equivalent requirements. ✅ Why I Support Starlink's Entry South Africa desperately needs fast, affordable, and reliable internet—especially in rural and underserved areas. Starlink can deliver that immediately, without waiting years for infrastructure rollouts. Blocking this kind of service due to outdated ownership rules is harming ordinary South Africans, not helping them. ❌ Why I Oppose BEE BEE, in practice, is not empowering ordinary people. It benefits a small group of politically connected individuals and has become a barrier to investment, innovation, and job creation. It punishes talent and merit, fuels corruption, and drives skilled people and businesses out of the country. Instead of chasing away international companies with red tape, we should welcome them—especially when they are offering world-class services that we need urgently. ✅ A Better Path Forward Instead of enforcing racial ownership rules, we should: Focus on creating real jobs, not forced shareholding. Improve education and training, so people can compete on merit. Encourage open access to services, especially in poor and rural areas. Remove all unnecessary barriers to investment, growth, and technology. ? Final Comment Let Starlink operate freely in South Africa. Remove BEE requirements altogether—not just for them, but for every company. Let ability, innovation, and results speak louder than race-based laws. South Africa needs solutions, not more policies that have failed to deliver transformation for the majority.	Christine	Gauteng		employed individual

	2025-06-23 08:59:10	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE was meant to fix the economic imbalances from apartheid by getting more Black South Africans involved in business. But honestly, it’s ended up mostly helping a small group of well-connected people instead of the wider community. It’s also caused problems like corruption, made businesses focus more on meeting race quotas than on actual skills or efficiency, and scared off some investors. Plus, it’s led to some skilled people leaving the country and made it harder for small businesses to keep up with all the rules. So, while the goal was good, in practice it hasn’t really helped everyone it was supposed to.	Ryno	Western Cape		employed individual
	2025-06-23 08:59:08	Yes I do	Broad-Based Black Economic Empowerment Framework	Politics should not influence bussiness decisions. SOuth Africa needs this technology and this will pave the way for a more connected society.	Jurgens	Western Cape		employed individual
	2025-06-23 08:58:40	Yes I do	Broad-Based Black Economic Empowerment Framework	the current BBBEE framework is nothing else than enriching the black elite . It does nothing to empower the previously disadvantaged people of South Africa . Allowing STARLINK into south africa will directly benifit previously disadvantaged people with Elon Musk offering free Starlink to all previously disadvantaged schools . that is REAL EMPOWERMENT right there .	Wayne	Eastern Cape		business owner

	2025-06-23 08:58:29	Yes I do	Broad-Based Black Economic Empowerment Framework	We should welcome all technological advances that can help the country grow and develop. This can benefit SO many students and people that currently do not have access.	Suzelle	Mpumalanga		employed individual
	2025-06-23 08:58:22	Yes I do	Broad-Based Black Economic Empowerment Framework	Already struggling businesses are under stain and the financial implications of compliance requirements makes it more difficult for business who already have international competition, difficult to try and survive. 	2025-06-23 08:55:39	Yes I do	Broad-Based Black Economic Empowerment Framework	While the original intention behind BBBEE was to redress past inequalities, in practice, the policy has often hindered innovation, global investment, and economic growth—especially in high-skill, high-tech sectors like telecommunications. For businesses like the one I run that operates globally, my Clients value merit, and strive for world-class excellence, enforced equity quotas risk sidelining capability in favour of compliance. We believe true transformation is best achieved through investment in education, upskilling, and inclusive opportunity, regardless of ownership structures.	Tracey	Western Cape		business owner
	2025-06-23 08:55:08	Yes I do	Broad-Based Black Economic Empowerment Framework	I have no objection to the removal of red tape. I think foreign investment should be encouraged but there should be measures to ensure the wealth generated has some positive effect in SA & is not all lost overseas. I don't think minimum local ownership percentages are the way to achieve this. Investment should be sufficiently attractive that investors are encouraged but their profit should depend on local upliftment. I have no objection to previously disadvantaged people being favoured. I object strongly to BBEEE being implemented in such a way that a small group of politically connected people benefit and there is no real transformation; in fact, the disadvantaged become even more disadvantaged. Lastly, despite all the above I think Elon Musk is dangerous and not to be trusted. Despite the potential benefits of Starlink I think no good can come of giving him any leverage. We are already tainted by his connection to South Africa.	David

	2025-06-23 08:51:26	Yes I do	Broad-Based Black Economic Empowerment Framework	The whole basis of race to determine anything is an aberration. We are supposed to have learned from the past that any discrimination based on race or religion is WRONG.	justin	KwaZulu-Natal		business owner
	2025-06-23 08:51:12	Yes I do	Broad-Based Black Economic Empowerment Framework	THIS BBBEE MUST CHANGE IN ALL SECTORS GET PEOPLE THATS GOT EXPERIENCE, KNOWLEDGE SEE WHERE DIT IT GET SA ON ALL MAINTENANCE AND SERVICE DEPARTMENTS BBBEE AND ALL RELATED MUST GO TO SAVE SA	SONJA	Gauteng		self-employed

	2025-06-23 08:50:55	Yes I do	Broad-Based Black Economic Empowerment Framework	As a country we should be looking at education and employing people on the basis of knowledge and education. Not everyone is capable of obtaining a degree, reintroducing apprenticeship into the mix would be a real winner. Educating people in fields such as, electricians, mechanics, plumbers etc. are absolutely essential to the economy. BBBEE has not really worked per se. In certain areas there have been advantages to elevate people who are well educated into areas previously closed to them. However, if after 30 years we have not seen the major changes envisaged by the government, we really need to re-think the methodology. It is time for change in all areas, not just communications. Having said that, Starling offers poor people the opportunity to be 'connected', in areas where other infrastructure is lacking. It is an essential educational tool.	David	Gauteng		retired

	2025-06-23 08:44:26	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE has not worked or helped Black people for the last 30 years. It is clear it is just a tools to enrich a privileged few black people, and black people broadly in South Africa still suffers, while this policy tries to punish minorities, eve though they had no part in past injustices.	Michael			

	2025-06-23 08:44:14	Yes I do	Broad-Based Black Economic Empowerment Framework	BBEEE only helps the Rich Black Person with political connection I support this but feel this should open the door for the reduction in the use of the BBEEE requirements accross all areas in SA. BEE rules and requirements has been the driver for the demise in all SOE's, I ahve seen this first hand while working for Eskom for 2 years. BEE causes over expenditure for sub standard works and require rework most of the time. BBEEE is not helping the poor black person, its making the rich jus richer and causing more equality in the country, higher levels than we have seen ever. BBEEE is crippiling the ecconomy, after 30 years its time to stop these racial laws which are not working. We call for the end of the racial advantages given to the majority of the people in the counry and call for fair contarcts and fair job oppertunities,	Marne	Gauteng		employed individual
	2025-06-23 08:43:57	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE only benefits the politically connected and does not promote a free economy.. All people in this country should have the same opportunities and should be evaluated on merit, not race. We need to encourage investors to SA to create more jobs thereby giving people dignity.	Lesley	Western Cape		retired
	2025-06-23 08:43:45	Yes I do	Broad-Based Black Economic Empowerment Framework	The BBBEE framework has already come to term, it has been extended under various amendments, and actually caused more damage economically, not allowing competition which would have had a positive outcome for all South Africans. So, if Starlink changes this policy then yes, count my vote	Samantha	KwaZulu -Natal		self-employed
	2025-06-23 08:43:42	Yes I do	Broad-Based Black Economic Empowerment Framework	Being in a democratic country, it is only fair that ALL South Africans have an opportunity to have a business as they please and not be concerned with BBEEE. The tenders that are being awarded shouldn't be based on BBEEE but should be based on a history of good work governance having a positive impact on the infrastructure of our country.	Zelda	Eastern Cape		business owner
	2025-06-23 08:43:29	Yes I do	Broad-Based Black Economic Empowerment Framework	It is quite clear that the current BBBEE framework destroys foreign investment, local growth and productivity within the South African context. BBBEE had its place and it was conceived as a measure to stimulate inclusion but with the associated side effects. It would have been far better adopted and promulgated if these policies had an end date in sight, which is what need to happen now. Push it hard, but put an end date to any and all so called racial biased laws and allow for the economy to grow naturally for the benefit of all South Africans. 	2025-06-23 08:29:17	Yes I do	Broad-Based Black Economic Empowerment Framework	The whole principle of BBBEE is nothing but racist and discriminatory. In the past 3 decades since the implimentation of BBBEE it has done absolutely nothing to better the lives of the "previously disadvantaged" but has only served to enrich the few elite within the ruling party and discriminate against white owned businesses. It is time for this violation against all South Africans basic human rights to stop. The ANC has stolen enough of white South African's money, jobs and business to enrich themselves. It is time for a drastic change and fair business practices.	Lynette	Western Cape		business owner
	2025-06-23 08:29:01	Yes I do	Broad-Based Black Economic Empowerment Framework		Renier			
	2025-06-23 08:28:30	Yes I do	Broad-Based Black Economic Empowerment Framework	Any loosening of BBEEE requirements is better than nothing but to my mind does not go far enough. The greatest benefit to all South Africans would be to totally liberalise the economy and let it grow. Growth is the best BBEEE engine. When Companies need people, they will invest in their development as happened in the 1980's without any quotas. BBEEE is a brake on the economy, a massive loss of per capita GDP and loss of talent to the rest of the globe. THis Governments policies have made the large majority of South Africans poorer reklative to all counterparts in Africa and benifitted a small elite massively. Stop it dead and let's go.	Johan	Gauteng		business owner
	2025-06-23 08:28:27	Yes I do	Broad-Based Black Economic Empowerment Framework	As a business owner in this country i find it unacceptable that after 30 years this government still has not made any headway on the Broad-Based Framework, and as a result has benefitted a few with absolutely no business experience over the many highly educated business experienced individuals, resulting in very little FDI and a huge brain drain.	Gustav	KwaZulu -Natal		business owner
	2025-06-23 08:27:53	Yes I do	Broad-Based Black Economic Empowerment Framework	RSA needs drastic acceleration of its Economic growth. I therefor support the proposed Policy direction fully.	Jaco	Western Cape		retired
	2025-06-23 08:27:36	Yes I do	Broad-Based Black Economic Empowerment Framework	This amendment will create more economic growth for SA from investors abroad. It is a good opportunity for SA. Unemployment will decrease. Also companies can now employ based on competencies and not colour.	Leena	KwaZulu -Natal		employed individual
	2025-06-23 08:27:30	Yes I do	Broad-Based Black Economic Empowerment Framework		Gert	Gauteng		self-employed
	2025-06-23 08:27:05	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE and then later BBBEE has caused the taxpayers millions in valuable money that could have gone towards keeping infrastructure and services maintained. I have witnessed first hand how contractors that comply with BBBEE standards, merely put a markup on a tender whereas the actual service provider got subcontracted to do the job in the first place, but because of a lower BEE level, did not qualify to have the tender awarded to them. The BBBEE middleman gets rich and tenders are greatly overcharged to deliver goods and services. It is a racist policy and contradicts the constition where all are supposed to be equal. It must be scrapped in totality, not just amended!	Frik	Gauteng		business owner
	2025-06-23 08:27:01	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBee is merely a political tool to enrich the well politically connected and steal from the poor, this has already cost SA billions. This prevents our economy from growing and creating jobs and wealth for all South Africans. Only with a free economy can we stimulate growth and investment opportunities. It is time for Ramaphosa and his gangsters to forget the past in live now for the future.	Bennie			business owner
	2025-06-23 08:26:48	Yes I do	Broad-Based Black Economic Empowerment Framework	Lets not forget that since "Democracy" and the now hundreds of Race-based laws, many of the truly Previously disadvantaged people NOW are actually no longer Black, but are also Coloured, White, Indian etc that have lived in absolute poverty with no future due to this view of INEQUALITY makes "equality" - So why are these disadvantaged and racially discriminated against peoples then not INCLUDED into this "Previously disadvantaged" framework? BEE has destroyed ALL of Our peoples ability to operate within a free market, and therefore reducing international Investment and Shrinking Output to half of what it used to be, and the Work force has suffered tremendously. Since the introduction of BBBEE, unemployment has reached a RECORD high! Only a select 100 "previously disadvantaged" families have really benefitted from it and to the tune of Hundreds of BILLIONS of Rands - but has cruelly left the rest of the True previously disadvantaged begging for food and employment or turning to crime. The proof in the pudding is that every BEE system & Racial Law that has been implemented has been redirected and used to STEAL from the people of this country - and is proven NOT to have achieved that which it was supposedly set out to do. In fact it has worsened the situation and pushed the previously disadvantaged deeper and deeper into poverty with NO WAY OUT and they cannot get work even if they tried!	Quentin	KwaZulu -Natal		employed individual
	2025-06-23 08:25:52	Yes I do	Broad-Based Black Economic Empowerment Framework	Considering the fact that we live in a democracy, equal opportunity should be given to all without any bias towards specific ethnic group, and in doing so eliminating the consequence of bias towards certain groups. 	2025-06-23 08:25:25	Yes I do	Broad-Based Black Economic Empowerment Framework	I work in an accounting / audit environment. I have seen a number of our clients try to implement Black Ownership in their companies. Apart from one company, all the others have failed as it appears the previously disadvantaged want the benefits, but are not prepared to work for it, i.e. they do not bring in new business, are not willing to make management decisions.	Anne	Gauteng		employed individual
	2025-06-23 08:25:08	Yes I do	Broad-Based Black Economic Empowerment Framework	After 30 years of freedom, self-wealth should have already been created and further BBBEE will never benefit this country so change the current requirements to allow the start of real growth.	David			

	2025-06-23 08:24:49	Yes I do	Broad-Based Black Economic Empowerment Framework	My perspective aligns with substantial evidence and critiques from economists, activists, and even former government officials. Here’s a breakdown of the key challenges and why BEE is perceived by many as having fallen short of its goals: 1. **Elite Capture & "Connected Cadres"** - **The Core Issue:** BEE often benefited a small, politically connected Black elite ("tenderpreneurs," ANC-linked businessmen, or those with pre-existing networks) rather than the broader Black majority. This created a new wealthy class while leaving behind marginalized communities. - **Evidence:** Numerous high-profile BEE deals involved politically connected individuals, while unemployment and poverty remain disproportionately high among Black South Africans (officially ~33%, but likely higher). 2. **Fraudulent Implementation & "Fronting"** - **Fronting Practices:** Companies frequently engaged in "fronting" — appointing Black figureheads or creating token ownership structures to meet BEE scorecard requirements without transferring real economic power or opportunities. - **Weak Enforcement:** Despite laws like the B-BBEE Amendment Act (2013) criminalizing fronting, enforcement has been inconsistent due to corruption, lack of capacity, and political interference. 3. **Neglect of Broad-Based Development** - **Focus on Ownership vs. Inclusion:** BEE prioritized ownership transfers and board representation over *mass economic inclusion*. This neglected critical areas like: - **SME Development:** Insufficient support for Black-owned small businesses. - **Skills Development & Education:** Inadequate investment in vocational training or quality education to create a competitive workforce. - **Rural & Township Economies:** Limited focus on uplifting the poorest communities. 4. **Reinforcing Inequality & Crony Capitalism** - **Consequence:** BEE unintentionally reinforced a system where success depended on political access rather than merit o	Juani	Gauteng		self-employed

	2025-06-23 08:18:43	Yes I do	Broad-Based Black Economic Empowerment Framework	Public Comment on the Draft Policy Direction Regarding Starlink and Telecommunications Licensing As a South African business owner, I would like to express my strong opposition to the current B-BBEE requirements tied to ECNS and ECS licences. In my experience, these policies have created more obstacles than opportunities for genuine business growth and fair participation in the economy. The B-BBEE framework, while intended to support transformation, has unfortunately opened the door to widespread corruption. In order to even be considered for certain tenders or opportunities, I've repeatedly encountered situations where I'm expected to make unofficial payments or offer financial incentives to individuals — something I refuse to do on principle. These practices not only undermine the integrity of the system but also prevent many honest entrepreneurs like myself from participating in the economy on a fair basis. The policy, in its current form, is stifling innovation and blocking global opportunities like Starlink that could benefit millions of South Africans. I urge the Minister to consider removing or substantially reforming the B-BBEE requirements, especially where they act as a barrier to new technologies and ethical business participation. The focus should be on transparency, merit, and inclusive economic growth — not gatekeeping through a flawed system. Thank you for considering my views	charlin	Gauteng		self-employed

	2025-06-23 08:15:21	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE Has done nothing for our country except encourage corruption. I think it should fall away and let Businesses operate with the best intentions to grow our economy by employing the best people for the job based on skills not on skin colour.	Diane	Gauteng		self-employed
	2025-06-23 08:15:07	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE has driven South Africa to poverty and maladministration. It is time to stop this destructive practice and allow the best people to do the correct job without political interference, This will also allow for investment from outside. In 30 years BEE has only made the Black elite wealthier without benefitting the masses. Job creation should be the priority and BEE has stopped that.	George	KwaZulu -Natal		Non-profit
	2025-06-23 08:14:07	Yes I do	Broad-Based Black Economic Empowerment Framework	SA is being held back by archaic laws inly benefiting those in power. Removing laws like BBBEE and 30% ownership paves the way for ALL South Africans to benefit from internet services to advance their careers, studying and school operations. We must look ahead for the benefit of our people and not for an agenda only benefitting the monopolising governmental parties that have no interest in the well-being of our nation.	Olivia			employed individual
	2025-06-23 08:13:42	Yes I do	Broad-Based Black Economic Empowerment Framework	By denying starlink to operate because of BBEE are forcing South Africans and their businesses to operate at a disadvantage in the digital economy relying on old slow, outdated technology that is sold to us at a premium. All poor South Africans spend a lot of their income on pre-paid mobile data that expires. Give all schools free starlink internet, give all businesses the ability to expand and empower their employees by allowing us to adopt this new affordable technology to improve our lives. Its 2025 and the majority of the youth and unemployed don't have access to the internet. This is crime against the Children of South Africa and is directly inhibiting their ability to learn and compete in the global digital economy. By not allowing starlink because of racial issues of the past makes the ANC exactly the same as the NP that preceded them. What a shame and it's the school children that will ultimately suffer from these decision made to protect political elites financial interest. Cry the beloved country now more than ever!	Andrew	Limpopo		self-employed
	2025-06-23 08:12:26	Yes I do	Broad-Based Black Economic Empowerment Framework	BBE means racist. In addition to denying opportunity to citizens who are not black it has been a severe brake on economic progress and has has caused huge loss to the broad black public and particularly to black children.	Brian	Western Cape		retired
	2025-06-23 08:12:07	Yes I do	Broad-Based Black Economic Empowerment Framework	I believe BBBEE is a noose around South Africa's economic neck. It should be scrapped completely. It has only served to make a very small group of people very rich.	Vincent	Western Cape		
	2025-06-23 08:12:07	Yes I do	Broad-Based Black Economic Empowerment Framework	I believe BBBEE is a noose around South Africa's economic neck. It should be scrapped completely. It has only served to make a very small group of people very rich.	Vincent	Western Cape		
	2025-06-23 08:11:47	Yes I do	Broad-Based Black Economic Empowerment Framework	For South Africa to grow in any way, there should not be any BEE policy. Spesidically not for investors.	Charmaine			self-employed
	2025-06-23 08:11:37	Yes I do	Broad-Based Black Economic Empowerment Framework	All racism must fall. And BEE is racist is all forms. Investing in the education of all people is the only way to a better future for all South Africans.	Kéan

	2025-06-23 07:56:11	Yes I do	Broad-Based Black Economic Empowerment Framework	1. Enrichment of a Small Elite (Not Broad-Based) B-BBEE often benefits a small number of politically connected individuals, rather than the majority of disadvantaged South Africans. A few recurring names appear in large empowerment deals, leading to the perception of “crony capitalism.” 2. Discourages Meritocracy In some cases, appointments and promotions are seen to be based on race rather than skills or experience, potentially undermining morale and productivity in organizations. This can lead to inefficiency in both public and private sectors. 3. Investor Uncertainty and Reduced Competitiveness B-BBEE compliance is seen by some investors as an added cost or risk when doing business in South Africa. The complexity and bureaucracy of compliance may deter foreign investment and reduce competitiveness globally. 4. Corruption and Fronting "Fronting" (where a company misrepresents its B-BBEE credentials) has become a common form of fraud. The policy has at times created opportunities for manipulation and corruption, especially in public procurement. 5. Brain Drain and Emigration Some skilled white professionals feel alienated or limited in their career advancement due to B-BBEE, leading to emigration and loss of expertise. This has long-term implications for skills development and the tax base. 6. Focus on Ownership Rather than Skills Development B-BBEE scorecards tend to reward ownership and management control more than education, training, or enterprise development. Critics argue this approach does not effectively address long-term structural poverty or inequality.	Jacques	Western Cape		employed individual

	2025-06-23 07:47:32	Yes I do	Broad-Based Black Economic Empowerment Framework	Policy Direction should be changed as proposed as Starlink brings many advantages as follows: Empowering Education and Economic Growth Reliable internet access is a catalyst for educational advancement. With Starlink, rural schools and students could access online resources, participate in virtual classrooms and benefit from digital learning tools, helping to close the urban-rural education gap. Teachers would gain new opportunities for professional development and collaboration. The economic benefits are equally significant. Rural entrepreneurs and small businesses could participate in e-commerce, expand their reach and access global markets. Farmers would benefit from access to online marketplaces, agricultural innovations and real-time data, boosting productivity and profitability. Enhancing Healthcare and Social Inclusion Starlink's high-speed internet would also enable telemedicine and remote consultations, improving healthcare delivery in underserved regions. Emergency responders like the National Sea Rescue Institute (NSRI) could coordinate more effectively, access real-time data and operate safely during disasters or rescue operations—especially where traditional networks fail. Dr. Cleeve Robertson, CEO of NSRI, As Dr. Cleeve Robertson, CEO of NSRI, remarked: "Starlink's satellite internet service will revolutionise our ability to respond to emergencies, especially in remote and underserved areas. Reliable, high-speed internet access can be a game-changer for our volunteers and the lives they work tirelessly to save." Reliable connectivity supports social inclusion, connecting rural residents to information, government services and the broader society, thereby reducing isolation. Sector-Wide Benefits Improved connectivity would benefit sectors beyond households, such as tourism, fishing and shipping, supporting innovation and growth in rural regions. Challenges to Starlink's entry B-BBEE ownership and licensing The 30% Black ownership requirement	Barry	Western Cape		business owner
	2025-06-23 07:47:30	Yes I do	Broad-Based Black Economic Empowerment Framework	It has never worked for the masses as it was originally intended. Few have benefited from it. It's archaic and leading our country into an economic abyss	Paul	Gauteng		self-employed
	2025-06-23 07:47:12	Yes I do	Broad-Based Black Economic Empowerment Framework		Rabe			
	2025-06-23 07:47:10	Yes I do	Broad-Based Black Economic Empowerment Framework	The country needs to start focusing on economic security. This should be no 1 priority before we sink even further into poverty. BBBEE has adversely affected the economy.	Fiona	KwaZulu-Natal		self-employed

	2025-06-23 07:45:06	Yes I do	Broad-Based Black Economic Empowerment Framework	I disagree with BEE to continue now since it's covert racism and only the 1% elite who are already filthy rich benefit,definitely not the masses.BEE has ruined this country resulting in the mass migration of professionals who are desperately needed in South Africa!	Najma	KwaZulu-Natal		employed individual
	2025-06-23 07:45:00	Yes I do	Broad-Based Black Economic Empowerment Framework	Widely available connectivity will empower everybody.	Louise	Mpumalanga		self-employed
	2025-06-23 07:44:53	Yes I do	Broad-Based Black Economic Empowerment Framework	The failure of BBBEE is plain to see. Our economy is in decline, and unemployment is at crisis levels. How much more damage do we need before we rethink the system? An open economy, truly inclusive and based on merit—benefits everyone. I've founded two successful businesses, both with partners of colour. Not because policy demanded it, but because we built something meaningful together. Real empowerment doesn't need to be forced. It happens when we walk the road together.	Dennis	Western Cape		business owner
	2025-06-23 07:44:46	Yes I do	Broad-Based Black Economic Empowerment Framework	I'm writing to share my strong support for the proposed Policy Directive that would allow Equity Equivalent Investment Programmes (EEIPs) to be recognized for Individual Telecommunications License holders in South Africa's ICT sector. Right now, South Africa has a real opportunity to take a big step forward. Around the world, countries are updating their policies to attract the communications technologies that are shaping the future. If we want to stay competitive and build a stronger digital economy and future for South Africans, we need to do the same. That's why I believe this Policy Directive is so important. It's a smart, forward-looking move that will: • Attract global investment by giving international companies a more accessible and effective way to contribute to South Africa's economy. In this instance, Starlink has committed a R500 million investment in providing free internet to 5000 schools and 2.4 million children • Advance digital access and innovation without compromising on our national transformation goals • Create more inclusive growth by encouraging meaningful investment in skills development, infrastructure, and community upliftment Thank you for considering this perspective.	Martin	KwaZulu-Natal		business owner

	2025-06-23 07:05:41	Yes I do	Broad-Based Black Economic Empowerment Framework	South Africa is in urgent need of a strategic framework that enhances its attractiveness to international investors. The objective is to attract investment that fosters business development, creates employment opportunities, stimulates economic growth, reduces poverty, and promotes dignity among the population. We are at a critical juncture in our economic trajectory. The existing framework has proven to be ineffective over the past 35 years, which provides sufficient reason to consider a change. It is time to embrace bold reforms that can lead to meaningful improvements for the betterment of our nation.	Quinton

	2025-06-23 06:19:17	Yes I do	Broad-Based Black Economic Empowerment Framework	I support amending the BBBEE requirements because the current framework has utterly failed its intended purpose. Instead of empowering the truly disadvantaged, it has been hijacked by politically connected elites and turned into a system of legalized fronting and exclusion. As a 100% African-owned business that does not qualify as “black-owned” under the current codes, we’ve experienced firsthand how the system ignores local, independent enterprises while rewarding hollow structures with no real value to the economy. The existing model promotes ownership on paper while neglecting actual empowerment. It fails to support those of us creating real jobs, developing skills, and building communities from the ground up. We are currently developing an AI-powered training platform that will provide free, practical tech education to underserved South Africans — something that should be championed by the very frameworks claiming to uplift black economic participation, but instead is overlooked entirely. South Africa needs transformation, not tokenism. We need a clean break from politically driven enrichment schemes, and a renewed focus on real economic justice: Rewarding actual contribution, not paperwork. Encouraging grassroots innovation and small business development. Making it easier for ethical, independent African-owned businesses to thrive without being forced into artificial partnerships. The system as it stands is broken. A new approach is long overdue — one built on fairness, substance, and results.	Charles	Western Cape		self-employed
	2025-06-23 06:16:50	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEEE has only empowered a select few and stops development and empowerment for all. 	2025-06-23 06:11:30	Yes I do	Broad-Based Black Economic Empowerment Framework	Undermining South Africa’s transformation agenda. The Equity Ownership requirement (30% by Historically Disadvantaged Individuals, or HDIs) is a pillar of the country’s efforts to: Redress past injustices, Promote inclusive economic participation, Empower black South Africans and other historically marginalised groups. By creating exceptions or workarounds for companies like Starlink, the concern is that: Large foreign companies may sidestep meaningful local ownership, weakening efforts to uplift HDIs. Local ISPs and telecoms companies that do comply with ownership requirements may face unfair competition. It could set a precedent for other foreign entities to lobby for similar exemptions, gradually eroding transformation goals across sectors. However with that being said , it will give South Africa Greater access to affordable, high-speed internet, especially in rural and underserved areas. Global competition and innovation in the local market. A more flexible approach to transformation obligations in the telecoms space, potentially allowing foreign players like Starlink to operate via partnerships or alternate models.	Zita	Gauteng		employed individual

	2025-06-23 04:51:08	Yes I do	Broad-Based Black Economic Empowerment Framework	Broad-Based Black Economic Empowerment (BBBEE) was intended to correct historical injustices by expanding opportunity to the many who had been excluded. But in practice, it has too often concentrated benefits in the hands of a connected few — stifling the inclusive growth it was meant to drive. To unlock real economic opportunity for more South Africans, we must rethink restrictive ownership requirements that deter international investment. Removing local shareholding obligations — while strengthening transparent, broad-based development commitments — would invite global firms to invest, create jobs, transfer skills, and provide vital services. True empowerment isn't about mandated ownership by a few — it's about meaningful inclusion for the many. It's time to modernize BBBEE so it serves the country, not the insiders.	Gary	Western Cape		business owner
	2025-06-23 04:40:29	Yes I do	Broad-Based Black Economic Empowerment Framework	This policy did huge damages to the country and the economy. We need a change that will benefit all people in South Africa and not just one race.	Marlis	KwaZulu -Natal		employed individual

	2025-06-23 00:01:37	Yes I do	Broad-Based Black Economic Empowerment Framework	This has only benefitted a small group who have become the new elite. It has discouraged investment in our country and without new investment our economy is going backwards- which means especially the poorer people are suffering more and more through lack of jobs and opportunities. It is also encouraging skilled people to seek better job opportunities outside of SA	Jenniner	KwaZulu -Natal		self-employed
	2025-06-22 23:55:48	Yes I do	Broad-Based Black Economic Empowerment Framework	South Africa's BEE Policy: Challenges and Limitations South Africa's Black Economic Empowerment (BEE) policy, now known as Broad-Based Black Economic Empowerment (BBBEE), has several negatives: - Inefficient implementation benefits a select few rather than addressing broader economic disparities. - Limited access to benefits for some previously disadvantaged individuals due to narrow definitions and codes. - Corruption and nepotism undermine effectiveness, with a small group of individuals garnering most benefits. - Inadequate monitoring and enforcement lead to a lack of transparency and accountability. - Restricting economic growth due to rigid quotas and compliance requirements. - Increased unemployment and reduced state efficiency. Empowerment Outcomes: - Narrow elite benefits: BEE largely benefits politically connected individuals rather than the broader black population. - Limited social equality progress: Despite some progress, BEE fails to fully address social inequality. Overall, while BEE has opened doors for some, its execution has been criticized for failing to deliver meaningful economic transformation and broad-based empowerment.	Mattie	KwaZulu -Natal		retired
	2025-06-22 23:50:31	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is discrimination and not Democracy. Other groups suffer because of it	Sandie	Western Cape		retired

	2025-06-22 22:47:15	Yes I do	Broad-Based Black Economic Empowerment Framework	Remove BBBEEE from the country	Paul	Western Cape		employed individual
	2025-06-22 22:45:05	Yes I do	Broad-Based Black Economic Empowerment Framework	The BBBEE framework has done nothing to uplift the sectors whose interests it supposedly has at heart. It seems to benefit those who already "have" or cronies and such. I surmise that there is an enormous mountain of capital waiting to be injected into the economy if it were not so regulated, and where investment is so subject to red tape and socialist constraints in the form of BBBEE regulations. The economy must be freed from all these artificial, race-based laws. If they were somewhat justified in 1994, they are no longer! Let these communications regulations be relaxed - at least to allow for Starlink to operate. It will open internet access to rural communities and can only be beneficial to the country! We need to unfetter the economy - it will unleash a boom!	Bernard	Western Cape		employed individual

	2025-06-22 22:12:46	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has done nothing but diminish many black people's credibility and accomplishments in the job market. Black people's merit and efforts in upskilling and learning are forcing then to look at opportunities outside SA, because it's almost impossible to find well established, competent and accomplished mentors to learn from and improve even further. Even if they have certifications, not only do they constantly get question if they hired because of their competence, but even in the work place colleagues see it as "he/she only got the job because he/she's black". This makes it significantly harder to contribute to innovation and competitiveness. BBBEE is the worst thing that has ever happened for black people who put in the work to establish themselves, and it incentivises laziness and lack of accountability. This is forcing potential employers to stop investing in those of us with the drive to improve, due to the decreasing resources and revenue - in having to pay for incompetence - and eventually those employers can no longer afford to keep their doors open, resulting in job losses anyway.	Van Zyl	Free State		self-employed

	2025-06-22 22:05:01	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE must end. The more Bs and Es are added, the more corrupt it becomes. It just sounds, with no offence meant to those that stutter, like the ANC stuttering when this policy comes up tome and time and time again. It's been 30, count them, 30 years! It does not work for SA. BBBEE must GO!	Lisa			
	2025-06-22 22:04:37	Yes I do	Broad-Based Black Economic Empowerment Framework	I am sure the results of the implementation of BBbE speaks fot itself. Equality and respect for each other will bring change ??	Sandra	Western Cape		employed individual
	2025-06-22 22:04:34	Yes I do	Broad-Based Black Economic Empowerment Framework	I am sure the results of the implementation of BBbE speaks fot itself. Equality and respect for each other will bring change ??	Sandra	Western Cape		employed individual
	2025-06-22 22:04:01	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has not resulted in job creation nor economic growth in South Africa over the past 30 years. It has only served to enrich the politically connected. Unemployment, poverty and crime is at an all-time high. The country is falling further and further behind in an increasingly competitive global market because of attachment to ideology. In the words of Albert Einstein, insanity is doing the same thing over and over again expecting different results. The proposed policy direction to the Independent Communications Authority of South Africa to amend BBBEE requirements is a watershed moment for our beloved country.	SUE	Gauteng		business owner
	2025-06-22 22:00:48	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE makes way for corruption and appointment based on race only rather then competence. It also can breed jealousy and judgement between races rather than respect and support.	Michael	Free State		business owner
	2025-06-22 22:00:45	Yes I do	Broad-Based Black Economic Empowerment Framework	Everyone with the slightest hint of an IQ obviously knows that Black Empowerment did not and will never empower the people it was supposed to help. Only a small percentage of blacks (of whom no one was previously disadvantaged) were enriched by this crooked and completely illogical system. Our country bleeds daily. Maybe this is a shimmer of hope.	Scholtz	Western Cape		self-employed
	2025-06-22 21:59:52	Yes I do	Broad-Based Black Economic Empowerment Framework	The BEE policies of the ANC have been the cause of the economic downfall of this country as well as the ANC cadre self enrichment, hopefully this could be the catalyst to remove these destructive economic policies . This is an opportunity for the ANC to do something that will actually benefit the people who can barely afford to feed themselves, let alone get Internet connectivity.	Ronald	KwaZulu -Natal		retired
	2025-06-22 21:57:10	Yes I do	Broad-Based Black Economic Empowerment Framework	I'm black and BBBEE has done nothing but diminish my credibility and accomplishments in the job market. My merit and efforts in upskilling and learning are forcing me to look at opportunities outside SA, because it's almost impossible to find well established, competent and accomplished mentors to learn from and improve even further. Even if I have certifications, not only do I constantly have to question if I get hired because of my competence, but even colleagues see it as "she only got the job because she's black". This makes it significantly harder to contribute to innovation and competitiveness. BBBEE is the worst thing that has ever happened for black people who put in the work to establish themselves, and it incentivises laziness and lack of accountability. 	2025-06-22 21:29:39	Yes I do	Broad-Based Black Economic Empowerment Framework	Discrimination agains white South Africans for job opportunities.	MARLIZE	Western Cape		self-employed
	2025-06-22 21:29:34	Yes I do	Broad-Based Black Economic Empowerment Framework	I believe that after 31 years, both legal and juristic people should be able to secure a position based on merit and not race. It is important to remember that apartheid applied to all people of colour, yet today, BBBEE does not apply to all people of colour.	Cindy	Gauteng		self-employed
	2025-06-22 21:29:34	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE is slowing our economy down and does not improve the lives of the minority of South Africa's that suffered in apartheid	Jenna	Gauteng		employed individual
	2025-06-22 21:27:58	Yes I do	Broad-Based Black Economic Empowerment Framework	The BEE policy of the ANC Kill Economic Growth in SA and only Enrich ANC Caders,it Must be Stopped and so for All the Anti White Laws.The ANC must be Voted Out of Power and Dissapear Completely,that will be the Best fir SA.	Willem	Gauteng		business owner
	2025-06-22 21:27:30	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is not resulting in the desired social equity outcomes. The SA economic wealth is shrinking relative to population growth and this the slices of por supposedly held by the average white south african that bbbee is targeting is too small to meaningfully impact the intended beneficiaries. Grow the pie people. All local ownership a.d race based legislation should be ended to facilitate amd incentives investment, local amd foreign, amd this create improved economic activity which will lead to more jobs ...people need income before wealth...one step at a time. The average white south african is not wealthy (generational wealth) amd simply living paycheck to paycheck.	Dennis	Western Cape		employed individual
	2025-06-22 21:26:32	Yes I do	Broad-Based Black Economic Empowerment Framework	Contracts should be given on merit, not skin colour. After 30 years all races had equal education and chances to secure contracts based on ability.	Esmarie			
	2025-06-22 21:22:44	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE is killing the county as people won't invest in SA and it's not benefiting the people as only the thieves get rich. It is not helping unemployment and more people are starving ! BEE and all racial laws must GO !!	gaby	KwaZulu -Natal		retired
	2025-06-22 21:22:39	Yes I do	Broad-Based Black Economic Empowerment Framework	With Broad based black economic empowerment in place our country will not grow, each and every citizen in our country needs a job.	Clinton	Gauteng		employed individual
	2025-06-22 21:20:44	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE should be optional.	Leon	Gauteng		retired
	2025-06-22 21:20:11	Yes I do	Broad-Based Black Economic Empowerment Framework	As a South African citizen, regardless of colour or race we should be allowed to without penalties establish private ownership of a company. If the skill set, funding and law abiding management comes from a non-black citizen that should not need black owner or partnership. This in itself has become a criteria to bow so called disadvantaged non-bla k citizens. Money which can be used to grow our companies or pay better wages to our employees must be paid out to entities and other to create ownership. This is wasteful and in my opinion is making someone else rich.	Gillian	Gauteng		business owner
	2025-06-22 21:20:09	Yes I do	Broad-Based Black Economic Empowerment Framework	1. Starlink will make the internet easily available with much faster speed, thus the rural communities will benefit greatly. 2. By insisting B-BBEE requirements on Starlink, ONLY a few will benefit financially	Siegfried	Gauteng		unemployed individual

	2025-06-22 20:41:44	Yes I do	Broad-Based Black Economic Empowerment Framework	Let's make South Africa great - provide internet-based access to education for the most vulnerable of our society - the poor children in rural areas. Starlink is the way forward. Time for SA to remove draconian BBBEE laws and open up opportunities to companies that CAN deliver what SA sorely needs.	Catherine	Western Cape		business owner
	2025-06-22 20:37:44	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is discouraging investment in South Africa, with Starlink being the latest company to avoid SA based on these requirements. BBBEE only benefits a handful of connected individuals and does not server the larger South African society. After decades in use, it has not had any meaningful positive impact on the economy. One can make the argument that BBBEE is one of the main contributors to the stagnant SA economy. Changing the BBBEE requirements to allow Starlink to operate, giving them the option to provide free internet to 5000 schools instead, will do more to uplift the poor than anything BBBEE has ever achieved. South Africa is a vast and spread out country and we need Starlink to remain competitive in the information economy. This exception has to be made to allow it to operate in SA.	Lukas	Western Cape		employed individual
	2025-06-22 20:37:15	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE must go along with all the 145 race laws in South Africa.	Gert	Gauteng		employed individual

	2025-06-22 19:42:42	Yes I do	Broad-Based Black Economic Empowerment Framework	The BBBEE policies of South Africa are causing a brain drain in South Africa. Furthermore, keeping the latest technology out of South Africa, or requiring 30% equity for previously disadvantaged persons who have no knowledge of these technologies, is keeping South Africa in the dark ages while the rest of the world is rapidly embracing AI and effective technological systems that causes them to be competitive in the global spheres while we are falling further behind. Starlink has promised to uplift rural schools and children which is a much-needed development to support children living a poverty. Anyone opposing this is not in their right minds - it is clearly beneficial to South Africa and its people. If Starlink gives cheaper options and more effective technological coverage in South Africa - it a further win and competition from local players who exercise monopolies should not be supported. It is not in the best interest of the South African people. It is about the people and not the interest of corporations or the politicians - is it not? Politicians need to start to listen to the people of South Africa and what they want. To keep on with policies that are causing harm to the economy and the future of all South Africans - especially our youth - is not sustainable. Social unrest is a real problem if people with skills are chased away due to these empowerment policies and like we have seen in Iran - politicians who embrace ideology instead of the interest of their people will topple. The people will start to call for their downfall of a regime that prefers ideology over the interest of voters. BBBEE is not sustainable - as it only favours a few select individuals. Nobody can survive on a grant of R350 per month. Jobs need to be created, and business owners are sitting on cash or sending money overseas - they are not creating business expansion to create more jobs. The reason is BBBEE. They are cutting their business interests. The tax pool is shrinking.	Sonja	Western Cape		business owner

	2025-06-22 18:54:22	Yes I do	Broad-Based Black Economic Empowerment Framework	BBEEE was to have been a temporary (10-year) correction. It is, in effect, a very racist policy, excusable only as a temporary change of direction. This has become the backbone of extreme racist intolerances and exploited by the cANCer's cadre deployment and black elitist enrichment. The promise by Nelson Mandela that corruption will end and the masses pulled out of poverty has been subverted to the extreme. Never in the history of RSA have we seen such high unemployment, high poverty and low economic growth as under the cANCer's economic policy. In the cANCer elitists camp "none are so blind as those that do not wish to see!" and they have too much to lose and will oppose this vehemently.	George	Gauteng		employed individual

	2025-06-22 18:46:18	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has held this country back for nigh on 30 years. White entrepreneurs are taking their expertise abroad to prevent having to sacrifice 30% of their hard earned revenue for racial reasons. I should know because my daughter is one of them. South Africa has lost a brilliant family of 5 to Scotland for racist ideologies. How many more have we lost?	Keith	KwaZulu -Natal		retired
	2025-06-22 18:45:27	Yes I do	Broad-Based Black Economic Empowerment Framework	Concern,Subject: Opposition to BEEE Policies Due to Inequitable OutcomesI am writing to express my strong opposition to Broad-Based Black Economic Empowerment (BEEE) policies, as they have, in practice, primarily enriched a select few while leaving the majority of intended beneficiaries marginalized and excluded from meaningful economic progress.While the stated intent of BEEE is to address historical inequalities and promote economic inclusion for Black South Africans, the implementation has often resulted in a concentration of wealth and opportunities among a small, well-connected elite. This outcome undermines the policy's original purpose and perpetuates economic disparity. Many ordinary citizens, particularly those in underserved communities, remain "left in the dark," with limited access to the resources, opportunities, or benefits that BEEE was meant to deliver.The policy's structure has inadvertently favored those with existing networks, capital, or political influence, creating a perception of cronyism and exclusion. Small businesses, young entrepreneurs, and rural communities, who should be at the heart of empowerment initiatives, often face bureaucratic hurdles or lack the means to compete in a system that appears rigged in favor of a privileged few. This has deepened public disillusionment and eroded trust in institutions tasked with fostering equitable growth.I urge policymakers to reevaluate BEEE's framework to ensure it genuinely uplifts the broader population. Reforms should prioritize transparency, equitable access to opportunities, and support for grassroots initiatives that empower communities rather than individuals. Economic empowerment must be inclusive, not a tool for enriching a select few at the expense of the many.Thank you for considering this perspective. I hope for a constructive dialogue and meaningful action to address these concerns.	Wynand	Gauteng		
	2025-06-22 18:45:06	Yes I do	Broad-Based Black Economic Empowerment Framework	Blatant racial discrimination against whites, and a policy that is destroying the Nation economically	Richard	Gauteng		retired
	2025-06-22 18:42:44	Yes I do	Broad-Based Black Economic Empowerment Framework	The inconvenient truth to the BEE policy and the implementation thereof over the recent years has not lead to the overall betterment of the SA economy and its people. BEE has not made SA more investable whether supporters thereof like it or not. SA needs decent connectivity and peoples personal perceptions of Elon Musk should not cloud their judgment - Starlink will be good for SA.	Craig	Western Cape		self-employed
	2025-06-22 18:42:40	Yes I do	Broad-Based Black Economic Empowerment Framework	I would be glad if BEE can fully be taken away, as it makes it difficult for us as white South Africans to get work. I previously wanted to apply for lots of jobs, which I knew I stood a huge chance to get, however, my skin colour was a disadvantage. If this is taken away, people who deserves a spot can get it. Not someone who is just taken because their skin is the right colour and doesn't properly have the experience. That's why I started my own business as this irritated me.	Adele	Gauteng		self-employed
	2025-06-22 18:42:08	Yes I do	Broad-Based Black Economic Empowerment Framework	I support the scrapping of the race based legal requirements.	Wallace	Gauteng		
	2025-06-22 18:40:11	Yes I do	Broad-Based Black Economic Empowerment Framework	So far, BBBEE has benefited only a select elite and has not been exactly 'broad-based'. Finding a compromise that could allow affordable technologies, such as internet access to rural areas, would benefit schools and hospitals enormously.	Sarah	Western Cape		retired
	2025-06-22 18:39:04	Yes I do	Broad-Based Black Economic Empowerment Framework	I believe the BBEE frame work needs to be a reward system and not punishment system. Any racial based politics or policies are bad for democracies as they don't allow the best business deals and best humans for specific jobs. This is the same sports. In doing this you also bring the standard down on services rendered.	Jürgen Albert	Western Cape	Germany	self-employed

	2025-06-22 18:15:51	Yes I do	Broad-Based Black Economic Empowerment Framework		Nonzwakazi	Gauteng		retired
	2025-06-22 18:15:36	Yes I do	Broad-Based Black Economic Empowerment Framework	Broad-Based Black Economic Empowerment has not lifted the majority of Black South Africans. The official Black African unemployment rate remains stuck at 37.0 %, while White unemployment is 7.9 % (Statistics South Africa, Quarterly Labour Force Survey, 13 May 2025; Reuters, *South Africa's racial divide in numbers*, 23 September 2024). Youth prospects are even worse: unemployment for 15- to 34-year-olds rose from 36.9 % in 2015 to 46.1 % in 2025 (Statistics South Africa, *South Africa's Youth in the Labour Market*, 13 May 2025). Ownership patterns tell the same story. Although headline figures claim nearly 30 % Black shareholding on the JSE, detailed analysis shows effective, enduring Black control at about 1 % (Reuters, 23 September 2024). Two decades on, BEE has produced optics but not opportunity for the broader population. The policy architecture itself deepens inequality and throttles growth. The B-BBEE Commission has logged 1,348 fronting complaints since 2017 without a single conviction, underscoring how the scorecard regime is routinely gamed while honest firms face extra cost and red tape (TechCentral, *South Africa seeks to reform faltering BEE system*, 23 September 2024). Compliance drains roughly R290 billion a year and has erased an estimated R5,000,000,000,000 in economic output and 4,000,000 jobs, while funnelling at least R1 trillion in deals to fewer than 100 politically connected individuals (Free Market Foundation & Solidarity Research Institute, *The Costs of BEE Compliance*, 12 June 2025). A scheme that entrenches insider enrichment, pushes investment offshore and leaves unemployment near record highs is beyond repair; scrapping it is the logical first step toward an inclusive, opportunity-driven economy.	Jacques	Gauteng		business owner
	2025-06-22 18:15:07	Yes I do	Broad-Based Black Economic Empowerment Framework	My main concern is that the 30% BBBEE would be grabbed by the already rich elitists (so called disadvantaged people .... Insiders!) just to enrich themselves even more at the expense of the disadvantaged masses that live in abject poverty. Furthermore, these elitists already own major shares in the current digital distribution networks. They would oppose the availability of Starlink as it will have a detrimental impact on the communication networks that they currently own major shares in.	Albert	Western Cape		employed individual

	2025-06-22 17:39:26	Yes I do	Broad-Based Black Economic Empowerment Framework	BBEE hinders my business from growing. As a small business employing fewer than 50 people we could have expanded the business into other areas and grown a lot, resulting in more job opportunities. BBBEE requirements have really held us back and sometimes doing business in South Africa feels like fighting with one hand tied behind your back. At our small company we have made huge improvements to the lives of our previously disadvantaged staff - because we care, not because we have to. We could do more for our staff, grow faster and create more jobs without the burden of BBBEE. Personally I also feel that The use of BBEEE or any other social engineering to ensure that certain people are excluded or penalised is constitutionally illegal and morally questionable. In my view, BEE has not successfully benefited all of society, but only a select few.	Nikki	Western Cape		business owner
	2025-06-22 17:39:25	Yes I do	Broad-Based Black Economic Empowerment Framework	Apartheid ended decades ago. Truth and reconcillation process took place. ANC Goivernment has had decades to provide housing and jobs to the previously disadvantaged. This is a new South Africa. We need to all free ourselves for outdated mental constructs. "you must support the African National Congress only so far as it delivers the goods, if the ANC does not deliver the goods, you must do to it what you have done to the apartheid regime". ~ Nelson mandela End these BEE discrimanatory laws.	john	Western Cape		self-employed
	2025-06-22 17:39:20	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBE has systematically eroded out institutions because the best canditates for jobs have been consistently overlooked. 	2025-06-22 17:22:30	Yes I do	Broad-Based Black Economic Empowerment Framework	South Africa's economy is not growing as expected because of lack of international investments. The current negotiations with Stalink is testament to this concern. We all know BBBEE is a huge factor in aggravating the lack of investments in South Africa. Some big investors are even leaving our country pursuing more lucrative requirements to conduct business. The reason for BBBEE has no place in our economy anymore as it is a whole generation since the end of apartheid, which is the reason for BBBEE. Lifting BBBEE requirements will encourage more international investors to do business in South Africa and convince those consider leaving to rather stay on. In a country with one of the highest unemployment rates internationally it is dire to create jobs through international investments.	Willem	Western Cape		unemployed individual
	2025-06-22 17:21:35	Yes I do	Broad-Based Black Economic Empowerment Framework	Starlink should have the right to operate in SA as it does in other African countries who also have restrictions that are acceptable to Starlink. 	2025-06-22 16:49:41	Yes I do	Broad-Based Black Economic Empowerment Framework	We need a change in policy - Neither BBBEE nor has the 30 % local ownership improved investor confidence in SA , in fact local and overseas investors plus local expertise and human capital are withdrawing from SA due to the negative impact of BBBEE and forced local (black) ownership. Increased investments will lead to greater employment opportunities	Peter	Gauteng		retired
	2025-06-22 16:47:42	Yes I do	Broad-Based Black Economic Empowerment Framework	Whites are mow the disadvantaged. There should be NO BBBEE, just the best, right person for the job.	Gordon	Western Cape		retired
	2025-06-22 16:47:40	Yes I do	Broad-Based Black Economic Empowerment Framework	Whites are mow the disadvantaged. There should be NO BBBEE, just the best, right person for the job.	Gordon	Western Cape		retired
	2025-06-22 16:47:39	Yes I do	Broad-Based Black Economic Empowerment Framework	Whites are mow the disadvantaged. There should be NO BBBEE, just the best, right person for the job.	Gordon	Western Cape		retired
	2025-06-22 16:44:52	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE is Affirmative Action in disguise. Both BEE and AA have a solid track record of spectacular failure. SA needs to get rid of it to prosper.	Stuart			employed individual
	2025-06-22 16:43:47	Yes I do	Broad-Based Black Economic Empowerment Framework	Get rid of race based policies and open the development of the economy to ALL South Africans.	W	Gauteng		self-employed
	2025-06-22 16:42:49	Yes I do	Broad-Based Black Economic Empowerment Framework	There seems to be no evidence that this policy has brought about a more fair, merit based society in South Africa. Media seems to confirm a select few, many in government who contribute nothing to business, benefit from this policy, but it does not trickle down to create employment, equity, or any financial benefit to 'ordinary' South Africans. This ANC-led policy 'skewes' business principles and discourages entrepreneurs from flourishing. It opens the door to corruption as it is an unfair business practice. If it did benefit the masses, business would be 100% behind it.	Christian	Western Cape		retired

	2025-06-22 16:33:19	Yes I do	Broad-Based Black Economic Empowerment Framework	I believe that the BBBEE policy needs to be amended to benefit the disadvantaged majority, in particular the black majority. The 30% ownership should stand in a form of community social investment projects on a year to year basis. That way everyone, from the communities/public to whoever is awarded that CSI tender that year.	Momare	Gauteng		employed individual
	2025-06-22 16:32:03	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE has not been beneficial to economic growth in South Africa	Linda	North West		self-employed
	2025-06-22 16:31:40	Yes I do	Broad-Based Black Economic Empowerment Framework	It has been 30 years since our country has become a democracy. And still we talk about previously disadvantaged. Most of the workforce has been dumbed down, with ridiculously low pass rates at schools to just push students through, without actually getting them educated properly. I think by now it should be the best candidate or company for the job, regardless of skin colour…..	Wayne	Eastern Cape		employed individual
	2025-06-22 16:31:04	Yes I do	Broad-Based Black Economic Empowerment Framework		Charles	Western Cape		retired

	2025-06-22 16:27:06	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE, and BEE and Affirmative Action before it, have patently failed to improve the financial situation of the previously disadvantaged masses. These laws have hugely enriched a very small number of politically connected people. A recent report suggested R1 trillion basically became available and moved between around one hundred individuals. That is as a direct result of the BEE laws imo.	Graham	Western Cape		retired
	2025-06-22 16:25:47	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is not benefitting the majority of people who are supposed to benefit, but rather a small percentage of Black people who have manipulated the system to their financial benefit. Furthermore, BBBEE has resulted in an increase in unemployment.	Vic			employed individual
	2025-06-22 16:25:44	Yes I do	Broad-Based Black Economic Empowerment Framework		Neil	Gauteng		retired
	2025-06-22 16:23:24	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has done far more damage than any of the proposed good it supposedly set out to achieve. It is nothing short of racially based prejudice which has enabled gross corruption among the black elite at the expense of the overwhelming majority of the population. If this country wants to do anything to address the unemployment crisis, this would be a first step in that direction.	Emily

	2025-06-22 16:07:08	Yes I do	Broad-Based Black Economic Empowerment Framework	South Africa’s economy is struggling, and many companies are collapsing—not because of a lack of opportunity, but because skilled employees are being let go in favor of meeting BBBEE scorecard requirements. Hiring based on policy rather than merit is weakening businesses, reducing productivity, and stifling growth. If we prioritize skill and competence, companies can thrive again—creating real, sustainable job opportunities and empowering youth through proper training and mentorship. We must acknowledge our past, but we can’t remain stuck in it. Apartheid ended over 30 years ago. It’s time to stop blaming it for every current failure. Today’s problems stem from today’s decisions. You cannot blame the ox wagon for why the train isn’t running. South Africa needs policies that unite us around excellence, not divide us through enforced quotas. A thriving economy benefits everyone—regardless of race. Let’s build one based on merit, accountability, and opportunity for all.	Shelly	Gauteng		employed individual
	2025-06-22 16:05:51	Yes I do	Broad-Based Black Economic Empowerment Framework	This has to end the enrichment of only a few selected to gain from BBBEE. Thousands of well knowledged people lost their jobs, stop this injustice! This is not about race, it is all about who is able to deliver the best results for a company!	Susanna	Gauteng		retired
	2025-06-22 16:03:20	Yes I do	Broad-Based Black Economic Empowerment Framework	There is nothing much to say, other than this ridiculous legislation needs to be abolished in it's entirety. It has a choking grip on the throat of the South African economy.	André	Mpumal anga		unemployed individual

	2025-06-22 13:41:35	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is reversed discrimination. There is an upside to this; as a white South African male this draconian law has made me and my company more resourceful and resilient. Instead of humiliating us; by the Grace of God we became stronger. We have built up a network of clients outside our borders and gained experience and increased our international foot print. The ANC's obsession with retribution creates a stronger informal business community and elevates opportunity to white South Africans and increased the begging bowl mentality and victim-mind-set of black South Africans, as Ramaphosa so aptly demonstrated during his epic visit to the White House.	Chris	Gauteng		business owner
	2025-06-22 13:40:43	Yes I do	Broad-Based Black Economic Empowerment Framework	The BBBEE policy in South Africa has done more harm than good. It cripples economic growth in our country. Elon Musk, much like BBEE, only has his own interests at heart and I fear he has ulterior motives. He abandoned South Africa and now he wants to exploit the country. Just like BBBEE it spells ill for our country.	Jenny	Western Cape		retired

	2025-06-22 12:45:49	Yes I do	Broad-Based Black Economic Empowerment Framework	The link between growth in broadband penetration and an increase in GDP is a clear win for SA. The minister is rightly pointing out that the ICT sector follow other sectors in its application of B-EEEE, with due consideration given to equivalency programs. The fact that ISACA has to be given direction from the minister in this regards is telling. There are a few local companies doing great work to connect the unconnected, but they cannot cross the divide in one swift leap in the way that Starlink is able to. The position that some of our esteemed politicians have taken on the matter illustrate that though they campaign in the name of the people, those very people's interests are easily sacrificed at the altar of narrow B-EEEE interests and ideologies. Anyone who is able to help South Africa grow for all should be welcomed with open arms.	Rowan	Gauteng		business owner

	2025-06-22 12:26:07	Yes I do	Broad-Based Black Economic Empowerment Framework	I believe that black economic empowerment will happen when black children are empowered through decent education systems. When black professionals are recognised for their skills and not just their qualifications, this is reliant on them developing those skills through regular skill development and not through unrealistically being thrown into positions they don't have the skill to perform in. This is applicable to any human culture and not to skin colour. Children require the right foundation from their parents(first), the community(second), the school(third) they go to and the work environment(fourth) they will eventually find. If these foundations are not correct no amount of Economic Empowerment will solve our historics issues.	Brett	Gauteng		employed individual
	2025-06-22 12:25:33	Yes I do	Broad-Based Black Economic Empowerment Framework	The best candidate should get the job. Qualifications, experience, work ethic, honesty. Those qualities will improve our economy.	Michelle	Gauteng		employed individual

	2025-06-22 12:17:31	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is a racist, discriminatory law and should be abolished. Scrap these laws, and let business take it's normal course. Black or white, a business should fail or succeed on it's own merits and management. The government is stealing billions every year from businessess in order to "help" "previously disadvantaged" individuals, and yet, unemployment is increasing and the country is slowly collapsing. If businessess could spend that money instead of watching the government waste it, we could have created thousands and thousands of additional jobs. The government cannot ever create jobs - it is not their function. If anything, government should be decreasing the amount of jobs in government, and increasing efficiency in their own systems. Jobs will be created naturally if businessess aren't constantly strangled by mandated racism.	Pierre	Gauteng		employed individual

	2025-06-22 11:58:55	Yes I do	Broad-Based Black Economic Empowerment Framework	Pleaae use correct way to help black people, such as give young black children real education, get real knowledge, plant the idea of hard working is the right way to get better life into people's brain. I believe those ideas are real ways to help dear black brothers and sisters.	Ximei	Western Cape		employed individual
	2025-06-22 11:58:54	Yes I do	Broad-Based Black Economic Empowerment Framework	Time we stabilize our economy. Get rid of BBBEE for good. It has not contributed to the large population at all.	Alf	Mpumal anga		business owner
	2025-06-22 11:58:51	Yes I do	Broad-Based Black Economic Empowerment Framework	The implementation of the current BBEEE policies by the ANC is destructive to the country and hence failing desperately in its concept whilst benefiting the chosen few.	Barry	Western Cape		retired
	2025-06-22 11:56:38	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has only ever been a vehicle for unashamed corruption on a scale the world has never seen before. Instead of encouraging studiousness and hard work, it teaches that people are entitled to the Lamborghini and Mercedes culture. Even if you are as stupid as a rock, your skin colour entitles you to it. This generates resentment in the heart of every Black man that is not driving around in a Mercedes.	Anna	Western Cape		retired
	2025-06-22 11:56:34	Yes I do	Broad-Based Black Economic Empowerment Framework	The BBBEE regulations have failed to empower the masses. 30 years of this has shown that these regulations have mostly been used as a conduit to enrich a few cadres and politically connected persons - sadly failing the man on the street. Starlink has the capability to help educate our nation in geographically difficult locations and the abolishment of BBBEE will assist in the economy growing by sending the correct signals to international investors. We cannot be so blind as a nation to not recognise our failures and try to correct them.	Alex	Western Cape		business owner
	2025-06-22 11:56:26	Yes I do	Broad-Based Black Economic Empowerment Framework	After over 20 years of BEEE policy which seem to improve the lives of some, it is time to encourage foreign investment more than ever, and hence revise or do away with BBEE. It is killing the small business spirit we need, killing foreign investment and also encourages white entrepreneurs out of the country who could be here creating jobs. We need to do away with all the red tape and BBEE is a significant red tape example.	Berenice			
	2025-06-22 11:54:13	Yes I do	Broad-Based Black Economic Empowerment Framework		Jacques	Western Cape		employed individual
	2025-06-22 11:53:24	Yes I do	Broad-Based Black Economic Empowerment Framework	I welcome this opportunity to have my say about changing the BBBEE policy. In the late 1090's I had a Sole proprietership business in South Africa which employed eight employees. My main clients were the Munisipality and a large Mining organisation, who were both not able to continue using my service because of the role out of BBBEE. I was forced to close down, the effect being that my eight employees plus their sixty five financial dependents , plus my family of four , were all left without any income which lasted for an exceedingly long period of time. This policy created financial havoc for a large portion of the South African population. This period of change would have been more acceptable if it had heralded a positive rather than the negative outcome for most South Africans of all ethnic groups. Only a few small sections of the South African Black Community have benefited from this policy. After 30 years of this sheltered type of employment and empowerment it is exceedingly obvious that it has failed, to the detriment of the country as a whole.	Chris	Western Cape		retired
	2025-06-22 11:52:51	Yes I do	Broad-Based Black Economic Empowerment Framework	It's time to actually work for your income not have it handed to you in a basket.	Lieneke	Gauteng		retired

	2025-06-22 11:43:45	Yes I do	Broad-Based Black Economic Empowerment Framework	If BBBEE is removed from all , the economy can start on a road to repair itself.	Johan	Mpumal anga		retired

	2025-06-22 11:43:40	Yes I do	Broad-Based Black Economic Empowerment Framework	If BBBEE is removed from all , the economy can start on a road to repair itself.	Johan	Mpumalanga		retired
	2025-06-22 11:43:31	Yes I do	Broad-Based Black Economic Empowerment Framework	"BB BEE" has been the exact opposite of broad based. All it has done is enrich a select few connected persons, and hold South Africa back. Case in point, while I am not a Musk fan, I do believe Starlink could be beneficial to South Africa, and it is clear that the BEE requirements has prevented this from being available. So it should be removed as a requirement from this (and other) initiatives.	Diane			
	2025-06-22 11:42:54	Yes I do	Broad-Based Black Economic Empowerment Framework	Businesspeople shouldn't be compelled to employ people based on their skin colour instead of their suitability to the job - the new draconian employment equity bill is even more off-putting to expanding a business	Carol	KwaZulu-Natal		business owner
	2025-06-22 11:42:45	Yes I do	Broad-Based Black Economic Empowerment Framework	We are currently listed as the worst country to develop business, let alone our poor infrastructures.. business regulations are making it even more unattractive.	Masood	Western Cape		self-employed
	2025-06-22 11:42:43	Yes I do	Broad-Based Black Economic Empowerment Framework	Jobs, ownership of your own business etc should be completely free from government control. BEE etc has not had the desired effect and has caused more harm and losses in the business field except for the privileged blacks and not the masses	Jenni	Western Cape		retired
	2025-06-22 11:42:42	Yes I do	Broad-Based Black Economic Empowerment Framework	The ANC's constant abuse of B-BBEE framework as a tool to loot government coffers has to stop. Furthermore the B-BBEE framework is a barrier to foreign investment into South Africa which has stifled and will continue to stagnate eceonomic growth. Radical overhaul of the B-BBEE framework is necessary. We cannnot continue to try and move forward as a country until this is addressed.	Stephen	Western Cape		self-employed
	2025-06-22 11:41:47	Yes I do	Broad-Based Black Economic Empowerment Framework	If a special amendment can be made for Starlink/Elon Musk (a previous white South African) then an amendment must then be made for all national companies and businesses and investors and international, therefore B-BBEE & BEE might as well be completely scrapt. BEE/B-BBEE is unfair, discrimination on basis of group punishment which is a war crime according to the 1949 Geneva Convention.	Meisie	KwaZulu-Natal		
	2025-06-22 11:40:31	Yes I do	Broad-Based Black Economic Empowerment Framework	As it is now 2025, so many years after apartheid I believe it is time to treat all young South Africans equally and not still give preference to the previously disadvantaged. By continuing giving certain young South Africans more opportunities we are now disadvantaging a new group of young South Africans.	Melody	Gauteng		employed individual
	2025-06-22 11:39:58	Yes I do	Broad-Based Black Economic Empowerment Framework	The BBBEE IN ITS SUM TOTAL IS HAMPERING PROGRESS IN SA. THIS POLICY BENEFITTING ONE SIDE OF SOCIETY AFTER DECADES OF A 'FREE' SOUTH AFRICA IS NOT LOGICAL. IT DOES NOT ENCOURAGE BUSINESS TO INVEST IN SA AS NO SAVVY ENTREPRENEUR WOULD LIKE TO PUT THEIR INVESTMENT UNDER THESE RULES. SA SHOULD BE OPEN FOR BUSINESS TO CREATE JOBS FOR EVERYONE THAT IS CAPABLE OF DOING THE JOB, NOT BECAUSE OF THEIR SKIN COLOUR.	Simony

	2025-06-22 11:32:28	Yes I do	Broad-Based Black Economic Empowerment Framework	There are two major reasons why the anc are trying to keep Starlink out of SA,with their racist,communist view of the SA Economy. The major beneficiaries of the extortionist data/airtime charges of MTN / Vodacom/Cell C ,are BEE (anc) appointees in these companies.They are terrified of free & fair competition from a White owned foreign company,which will probably decimate their income streams; The anc as a strategy,has kept the rural population"dumbed down",by excluding the biggest portion of their voter base,from having access to what their leaders are really doing,by denying them cheap & proper access to the internet. After 30 years of BEE, which has resulted in the economic destruction of SA - grow up & compete.	Neil			self-employed

	2025-06-22 11:27:49	Yes I do	Broad-Based Black Economic Empowerment Framework	It is 30 years down the line and I am of the opinion that BBBEE should be phased out. It has hindered development, damaged the economy and is an insult to black South Africans. It has caused many qualified people, of all races, to leave the country.	Bev	Western Cape		retired
	2025-06-22 11:27:29	Yes I do	Broad-Based Black Economic Empowerment Framework	Removing BBBEE would encourage inward investment in South Africa.	Tracy			
	2025-06-22 11:26:33	Yes I do	Broad-Based Black Economic Empowerment Framework	The empowerment of those South African citizens impacted by apartheid is understandable. The continuance of the BEE laws however does not achieve this. BEE in its current format enriches a few, enables corruption and favours born free (post 94) born citizens on the basis of race. When discrimination is condoned on this basis the rainbow nation is actually just reverse racism. It's time to be bold, focus the benefit on those SA citizens whose lives were negatively impacted by apartheid and plan when this policy will end. It's time to grow the economy for the benefit of all and not try to redistribute the existing between the have nots. Be bold not cheap politicians.	Nic	Gauteng		employed individual
	2025-06-22 11:25:45	Yes I do	Broad-Based Black Economic Empowerment Framework	The entire BBEEE framework is the biggest barrier currently to economic growth, job creation and providing dignity to all South Africans. It has not worked and will never work - a complete mindset change is required by those in power (but they are probably too corrupt to see the benefits of amending this frame)	Frank	Gauteng		business owner
	2025-06-22 11:24:59	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE is killing our economy	Elmarie	Free State		employed individual

	2025-06-22 11:24:29	Yes I do	Broad-Based Black Economic Empowerment Framework	All of the above are of concern. If we look back over the last 20 years, BBEE has been only for the connected, corrupt and ANC cadres. It's time for all South Africans to have a shot at all kinds of opportunities, unless we want this country to die. it is almost there. South africans are known for their creativity and abillaty to create vast amounts of jobs . Currently they are not able to perform because of government regulations wich has a negative impact on our economy. We need to give ALL South Africans an opportunity to be able to be awarded all kinds of contracts, especially those that will create jobs, better opportunities for all.	claire	Western Cape		self-employed
	2025-06-22 11:24:24	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE is racist and must be abolished altogether . 	2025-06-22 11:12:28	Yes I do	Broad-Based Black Economic Empowerment Framework	Not only is the BBBEE a racist policy but restricts any and all development within South Africa. I have personally removed 3 business out of SA as a simple result. If South Africa is to grow, this and many other policies need to be dismantled.	Craig	Eastern Cape		self-employed
	2025-06-22 11:12:26	Yes I do	Broad-Based Black Economic Empowerment Framework	I agree that the BBBEE policies and framework need to be changed. Whilst I believe in the need for these, the implementation and control of these has not been done correctly. Yes there needs to be upliftment of the HDG however, to dictate that they must be "given" 30% minimum of the ownership of a company is not the way to go about it. If there are no skills or financial contribution being made through discussions in order to form ownership, with agreement on how the company is to operate with the responsibilities of each owner being discussed and resolved, then shared ownership is not possible. The act of giving someone a share of something without compensation is considered a GIFT. therefore the agreement and consent of the giver is required and that is why Mr. Elon Musk has refused to subscribe to this policy. These kind of policies are stiffling the economy of this country. Companies could be established and unemployment will reduce, however, as we (South Africans) canot think of the businesses to start of have the finances therefore, things will remain the same. Partnerships (Business owners) work well together when there is a common goal to be achieved. If there are different business ideoligies between partnerships, etc. then the business will fail. This is the result when ownership is given as a "gift". Policies need to be changed to ensure the economy can grow.	Mark	Gauteng		self-employed
	2025-06-22 11:11:35	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has been proven to be a failure. Only a few of the polically connected people benefit from it. 	2025-06-22 10:10:28	Yes I do	Broad-Based Black Economic Empowerment Framework	If Starlink (Elon Musk's satellite internet service under SpaceX) chooses not to enter South Africa due to the B-BBEE ownership requirements, several consequences could unfold across different sectors and demographics: 1. Slower Internet Expansion in Rural & Underserved Areas Starlink's strength lies in bringing high-speed internet to remote and rural areas—places where fibre and mobile coverage are limited or unreliable. Without Starlink, these communities may continue to experience digital exclusion, reducing their access to: * Online education * Remote work opportunities * Telehealth services * E-commerce and financial inclusion 2. Limited Competition & Higher Prices South Africa's current internet market is dominated by a few players (e.g. Telkom, Vodacom, MTN, Rain). Starlink could have introduced downward pricing pressure and better service through competition. Without it, the status quo may remain: *High data prices *Slower innovation *Limited customer service improvement 3. Missed Opportunities for Tech Growth & Innovation Starlink could have enabled: * Tech startups in rural or off-grid areas * Expansion of IoT infrastructure * Improved capabilities for drones, agriculture, and mining tech Without it, SA might lag behind in digital transformation, especially in sectors like smart agriculture and remote sensing. 4. Education & Research Gaps Starlink's reach could support: * Remote schools and universities in deep rural areas * Field researchers and conservation units in isolated locations Without access to reliable internet, education inequality may deepen. 5. Job Creation Lost A local Starlink rollout could have involved: * Logistics and installations * Customer support operations * BEE partnerships and vendor opportunities By not participating, SA misses direct and indirect employment and skills development.	Rita			
	2025-06-22 10:10:02	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE and AA is destroying our economy. It prevents investment and creates a skills shortage which means less employment for unskilled labour. BEE and AA has had its time to do what it had too. It is now holding us as a country back. 	2025-06-22 10:08:40	Yes I do	Broad-Based Black Economic Empowerment Framework	Broad-Based Black Economic Empowerment has no place in a country that has a 1% GDP growth. If you want foreign investment into the country to encourage industrial growth and reduce unemployment, then BBBEE must be amended to meet this requirement. In the case specifically of Starlink operating locally in SA, it should be viewed as a tool to enhance rural education, equip ALL police stations with reliable communications and enhance internet connectivity for the vast populations living outside the big city areas. Why stifle growth and add to unemployment in this country by using race-based policies?	Selwyn	KwaZulu -Natal		retired

	2025-06-22 10:07:04	Yes I do	Broad-Based Black Economic Empowerment Framework	I support this as BBBEE has had disastrous consequences on the South African Economy. I was a clear extortion racket that would enrich the ANC connected friends only. It would simply make those Investors who enjoyed favoured ANC privilege would be able to enrich themselves beyond their wildest dreams while the commoners or hoi polloi – the average guy would pay the price. BBBEE must be stopped in every sector. We did not in our agreement of the 1992 referendum on ending apartheid in South Africa, that punitive law and divisive law should be allowed. In fact if we were told that this kind of act would be as a result of saying yes would mean whites would pay a price for the past actions of the British political policies the result would have been very different. Whites should never have been made scapegoats for the past. I would also like to see that all protective policies that have been allowed by the regulator that favour the telecommunications sector be stopped immediately. I would like to see that purchases of airtime and data do not expire for the simple reason that when a product is purchased even though it is intangible is the property of the purchaser. It therefore should remain their property. Airtime and data are intangible and do not deteriorate over time and should not therefore have an expiration date. This should never have been allowed as it is legal plunder.	John	Gauteng		retired

	2025-06-22 09:48:04	Yes I do	Broad-Based Black Economic Empowerment Framework	The introduction of Starlink (and other competitors) could improve the circumstances of millions of South Africans substantially. It could: bring free high-speed internet to thousands of rural schools, giving millions of students access to learning tools; enable millions in rural areas to have the connectivity to start new businesses and be connected into the world knowledge system; provide rural communities improved safety through quick communication to security companies and police. Allowing all international operators access to the SA market without any barriers is an obligation of the government under the Constitution. Let the SAn citizen make his own choice on service. If this creates an unequal competitive environment for local operators, the strictures of legislation must be removed from local operators as well. It is immoral for government to prioritise creating significant unearned wealth for a tiny politically-connected wealthy elite above the provision of life-changing services to millions of SAn citizens which they are obliged to serve without favour. So, all BEE regulations (and all race laws) should be removed entirely. They entrench poverty and exacerbate inequality. In the interim, a first tiny step is to introduce DCDT Policy Direction No. 3218. I do not support it entirely in that foreign competitors should not be required to provide any "equity equivalents" to offer their services. This adds to the costs of the services locally and represents a hidden tax on South African citizens. Rather let the government cut wastage and corruption; and provide those same services that it is obliged to do under the constitution from the already substantial tax burden placed on the citizens of SA by its government. So, while I regard Direction No. 3218 as flawed and unnecessary; I support it as a very small and practical move in the right direction away from growth-killing legislation and regulations. 	2025-06-22 09:31:50	Yes I do	Broad-Based Black Economic Empowerment Framework	South Africa needs to remove any obstacle to local and foreign investment so that our economy can grow by at least 6% PA, if it has any hope of reducing unemployment and crating opportunities. All BBEEE is doing is replacing one employee with another from a designated group, so if all things remain equal, no employment has been created. Develop policies that encourage companies; - to employ designated people. - reduce pay disparities from highest paid to the lowest, This can easily be done through things like tax concessions. Reward not punish. Over the past 30 years, BEE has only really benefited the the politically connected elite, encouraging and permitting massive corruption . The new BBEEE policy is just another attempt for the government to get votes from the masses by saying "look what we are doing". Small businesses are the backbone of many economies, If I had 49 employees and wanted to grow and employ more people, would i do it- NO. Employment and GDP growth will come from having the best suitable person in the job, a concept born out by failed SEO's and Municipalities.	Paul	Gauteng		business owner

	2025-06-22 09:19:19	Yes I do	Broad-Based Black Economic Empowerment Framework	It's time to get South Africa on the right track to attract foreign investment. The ANC has for far too long been a hindrance, to the progress of South Africa with all their policies that only benefit the few.	Fredrich	Gauteng		self-employed
	2025-06-22 09:19:05	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is not working. It needs to be removed to facilitate international investment in South Africa remains high for the future.	Marc	Free State		employed individual
	2025-06-22 09:18:37	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has become South Africa's economic downfall and is plunging SA into further economic troubles. It has become clear that it does not work. Instead of employing people based on their proven skills with years of dedication to their craft, BBBEE forces companies to employ unskilled people for critical roles that require these years of experience and skills that cannot be easily obtained through company training. Starting a company is already difficult, unforgiving, and requires so many sacrifices to make it successful, and even then success is not guaranteed. Then you are forced to give it away to someone with no appreciation for what you went through, and have no idea what it takes to keep that company successful and functioning. They also do not have a vision for the company to keep going. They only want the high salary and status without the work and sacrifices. BBBEE should be abolished! Companies must be allowed to employ people based on skills and merit not because of race! Only then will you see economic growth in South Africa. Rather than giving handouts, teach people skills that will make them employable. Those who are lazy should deal with the consequences! You must be eager to learn skills and to work if you want to make it. Any person can acquire skills, merit and experience. But not everyone can aquire a certain race. Hiring based only on something that cannot be aquired by all is economic suicide!	Ashton	Western Cape		employed individual
	2025-06-22 09:18:33	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has never, and will never work, as the majorities culture is to get everything handed to them on a platter behind the guise of an abusive apartheid system. Let's not forget what the anc terrorist did in the towns, townships, and farms when they could not break the NP, the bombings and necklacing of their own people. This system was legislated to achieve BBBEE, 30 years on and nothing but hate and destruction follows in the path of the anc, and the poor education system encourages it, and access to the piggy bank makes it easier. It started with the culture of non-payment of services as a form of protest, it is now ingrained into their DNA, Breakdown, destroy and take what has been built by others. Just look at the new Shaka Zulu series or the old Shaka Zulu movie.	M	KwaZulu -Natal		business owner
	2025-06-22 09:17:43	Yes I do	Broad-Based Black Economic Empowerment Framework	I have a serious concern about the quality of work done by BBBEE companies. Most of the infrastructures done or repaired by these companies do not last	Lindiwe	KwaZulu -Natal		employed individual
	2025-06-22 09:17:39	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE regulations and policies are standing in the way of growth for South Africa. Historically this has shown to not let the best people (no matter their race) work in industry that could be advanced.	Dean	Western Cape

	2025-06-22 09:11:38	Yes I do	Broad-Based Black Economic Empowerment Framework	Removing BBBEE ownership requirements for telecom licenses, as proposed by Minister Malatsi, is a strategic win for South Africa. Currently, these rules hinder crucial foreign investment, notably blocking Elon Musk's Starlink. Starlink offers vital, high-speed internet, especially for underserved rural areas. Waiving the 30% local ownership rule attracts such innovation, bridging the digital divide and fostering economic growth. This shift towards flexible Equity Equivalent Investment Programmes (EEIPs) signals a more pragmatic approach to empowerment, prioritizing job creation and skills development. Ultimately, this policy could set a precedent, attracting more global investment across sectors and truly accelerating South Africa's economic potential. It's about progress over prescriptive rules. 	2025-06-22 08:53:53	Yes I do	Broad-Based Black Economic Empowerment Framework	If people are appointed to positions based on anything else rather than merit and qualifications, e.g. ethnicity, we will have incompetent cadres - because the definition of the word "incompetence" is describing someone not fit for a position judged on merit. In order to create a generation of people from previously disadvantaged backgrounds, who are qualified, they need proper skills, education and experience. These are achieved by: - fixing and modernizing our basic education system (e.g. more money to attract more teachers, build better facilities and review the teaching material to be on par with 2025's technological and economic trends such as AI and investing) - creating more JOBS, so that more people can sustain their families and not be absent!! Our children need present parents, not jobless and stressed and depressed adults! - reducing welfare - many of SA'ers currently use this as an easy way out because there are no jobs and welfare is always available as plan B. All of the above are NOT short-term beneficial to the populist rating of the government - but a good leader (like a good parent) does what is right, and not what is pleasant and comfortable. Look at Japan post-WW2, look at Singapore, look at Turkey and many other countries that were in shambles some time in history, but through collective discipline and LONG-TERM vision managed to claw their way out into prosperity and wealth. Sacrifice status now for a better day-after-tomorrow!	Dima	North West		self-employed

	2025-06-22 08:32:59	Yes I do	Broad-Based Black Economic Empowerment Framework	I appreciate the opportunity to provide input on the proposed policy direction regarding BBBEE requirements for telecommunications licences. While I fully support the vision of an inclusive and prosperous South Africa, I believe that true empowerment and lasting transformation come from quality education and equal opportunity, rather than enforced ownership quotas. Broad-Based Black Economic Empowerment, in its current form, has not achieved the widespread upliftment it was intended to deliver. In many cases, it has created dependency, limited competition, and excluded capable individuals and companies that could contribute to the growth of our economy. I believe that people should be employed and promoted based on merit, skills, and their ability to add value. If we truly want to level the playing field and build a stronger South Africa, we must invest deeply in: • Education that is practical, high-quality, and relevant to the real world • Access to nutrition and basic needs for impoverished communities, so that learners can focus and succeed • Opportunities for all individuals, regardless of race, to thrive through hard work and dedication Giving people something without requiring contribution or effort can be disempowering. True upliftment happens when individuals are given the tools, resources, and environment to achieve success through their own efforts. That's how we create not only personal success, but also strong families, businesses, and communities. South Africa has incredible potential, and by focusing on education, meritocracy, and support for the vulnerable, we can create an economy and society that works for everyone — fairly and sustainably. Thank you for considering this perspective.	Larry	Western Cape		self-employed
	2025-06-22 08:31:58	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is not the answer to grow the economy! We need smart, intelligent, talented people with the right skills and expertise to drive the economy. Irrespective of the colour of your skin! We need leaders and followers, we need entrepreneurs and employees. We can't all be entrepreneurs just because you are black or Chinese! You need a certain skill set!! Get the education system on a higher standard, educate people so we can get smarter, not more greedy and get people to earn and not get poorer by the day!	Sonia	Gauteng		employed individual
	2025-06-22 08:31:46	Yes I do	Broad-Based Black Economic Empowerment Framework	Beee has never been fair to anyone has has caused massive companies to close their doors due to improper management or lack thereof. 	2025-06-22 08:29:17	Yes I do	Broad-Based Black Economic Empowerment Framework	It is destroying South Africa. Preventing international business from investing in South Africa. Starlink is just one that has come up. I understand that there are already massive international companies in South Africa but BBBEE prevents smaller new ones from entering. Prevents job creation, effects our gdp. It would allow for companies to compete for merit, leading to more efficient market outcomes. This will increase investor confidence. It will boost small business growth. Lastly, South Africa will have a greater global competitiveness. With large production companies already threatening to leave, thousands of jobs on the line. The GDP dropping. Rising expenses. South Africa will thrive once again without BBBEE.	Tristan	KwaZulu-Natal		unemployed individual

	2025-06-22 07:49:04	Yes I do	Broad-Based Black Economic Empowerment Framework	Affirmative action has been around for almost as long as apartheid Things should be equall for all. Donald Trump offered opportunity for farmers in the USA but was poorly supported. White people want south africa to work.	Craig			

	2025-06-22 07:48:25	Yes I do	Broad-Based Black Economic Empowerment Framework	I have 2 sections. 1. I would like to hear a more fleshed out plan for what "non-negotiable" equity requirements will be placed upon company disruptors like Starlink. 2. This has been said so many times before but you can't share one pie with thousands of people. You need to bake a bigger pie. We need to stop restricting economic growth in SA through legislation. The economy needs to grow faster and bigger to meet the needs of the population. Starlink is infrastructure that can help many small businesses to grow just like fibre internet did. At this point, B-BBEE policies are tying everyone's feet together in a race so that we can all be equally slow instead of making sure everyone can participate to the best of their ability with proper tools. Funds and policies should be directed towards education in black/poor communities. Start from the ground up.	Àine

	2025-06-22 06:56:29	Yes I do	Broad-Based Black Economic Empowerment Framework		Annalise	Western Cape		self-employed
	2025-06-22 06:53:46	Yes I do	Broad-Based Black Economic Empowerment Framework	The BBBEE requirements need to be reviewed. We need to attract more foreign investment and maintain the large foreign investment in order to achieve economic growth. There are a multitude of multi national companies that struggle with meeting all these requirements and it's a matter of time before they decide that its just not worth their while to continue operations in South Africa. Typically their South African affiliates are less than 1% of their overall turnover. If we make these requirements, particularly with the ownership requirement more attractive & easier to achieve I believe it would go a long way to retain & attract new foreign investment which would have a positive impact on our huge unemployment rate. These are companies listed on stock exchanges out of South Africa. I	Liza

	2025-06-22 06:10:00	Yes I do	Broad-Based Black Economic Empowerment Framework	We need job creation urgently and BBBEE are not getting it done sufficiently as money is lost going to a certain couple of Comrad Individuals and not to where it is supposed to go. Corruption Corruption by the High Elite.	Albertus	Western Cape		employed individual
	2025-06-22 06:05:55	Yes I do	Broad-Based Black Economic Empowerment Framework	It is clear that BBBEE is not working, it is empowering a very small percentage of people whilst allowing some of our best people (who help grow the economy to leave)	Ross	KwaZulu-Natal		Non-profit
	2025-06-22 06:05:14	Yes I do	Broad-Based Black Economic Empowerment Framework		MADELEINE			
	2025-06-22 06:03:31	Yes I do	Broad-Based Black Economic Empowerment Framework	I am a white person who grew up in an underprivileged coloured township. I have black friends who grew up in Bryanston. Black doesn’t mean “previously disadvantaged” anymore. It means black. As white means white, not previously advantaged. I feel I’m lying when I tick “coloured” under race but I feel like I am not being discriminated against by the colour of my skin when I pick “white” and that the person on the other side is putting me in the “no” pile because I’m white. So I choose “other” but that probably makes me look like I’m confused. This BBBEE this has really messed me up and to see them relook at it would be a blessing. To end. Because I am white with no degree, I have not been able to get a job for 5 years and I starve daily because I don’t fit the requirements of being a black person in their companies.	Juaneva	Gauteng		unemployed individual
	2025-06-22 06:02:04	Yes I do	Broad-Based Black Economic Empowerment Framework		Pamela	Western Cape		employed individual

	2025-06-22 06:00:34	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE/BEE is racist by its very nature, and should be scrapped in totality. I understand you say it is to right past injustices against black people, but 2 wrongs don't make a right, so this is not the correct way to do it. You are just perpetuating racism within our society with this policy. Be better than the Afrikaans forefathers. Work together with South Africans of European descent, in order to uplift the entire countries population. Everyone should have a fair chance at a business or for employment positions , regardless of skin colour. The current implementation enriches only a few, it does not get to the millions of poor South Africans anyway, so should be scrapped completely. We also need more foreign investment in this country to bring in foreign currency and to create more employment for South African citizens, and BBBEE/BEE is scaring them away. Starlink in particular will open up the internet and hence the world to our poorest communities, so will bring them into the global economy. Think about how many talented singers/actors/software developers etc we will uncover by granting our poorest people free internet. Think about how many of them could do research and study and learn, from the having the world's knowledge at their fingertips. These successful people will help uplift their own communities more than any government law or policy could do. I also strongly not agree with the 30% local ownership law for international companies, it is scaring away international investors, which we need as a country to bring in foreign technology and capital.	Justin	KwaZulu-Natal		employed individual
	2025-06-22 06:00:33	Yes I do	Broad-Based Black Economic Empowerment Framework	Pure merit system is now appropriate, a full generation since apartheid was abolished. Black no longer strictly means previously disadvantaged so BBBEE just feeds into rich black people getting richer while poor people (of all races) don't have a chance.	Leith	KwaZulu-Natal		employed individual
	2025-06-22 06:00:32	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is unconstitutional. Has to be removed.	Ruaan	Western Cape		unemployed individual
	2025-06-22 05:59:46	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has only advantaged a few, politically connected, individuals and has left the bulk of the population much worse off.	Piet	North West		employed individual

	2025-06-22 00:38:32	Yes I do	Broad-Based Black Economic Empowerment Framework	Due to BBBEE minority's in South Africa face unfair discrimination. BBBEE policy's disenfranchise minority's in South Africa in particular those in skilled and more desirable professions as they are unable to find gainful employment due to discrimination caused by BBBEE policy's which punishe companies who do not meet race quotas. South Africa is a country with a strong and meaningful constitution. In the spirit of the constitution there are several core foundational principles apon which this country is built. Among the most important of those are freedom from discrimination and freedom of choice. BBBEE policy's violate to the highest degree the freedom of minority's in South Africa to choose what work to do, and the freedom for companies to hire minorities to do the work. BBBEE takes away the ability for minority's to be citizens of South Africa because according to the principles set forth in the constitution all citizens are equal under South African law. But if minorities are discriminated against and treated as second class people then can they really be South Africans? BBBEE strips the "South-Africanness" from minorities it takes away their recognition as citizens, it changes lives for the worse. It hurts South Africa. And that is why it needs to be abolished.	Daniel	Western Cape		student

	2025-06-21 23:54:35	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has lost all credibility as a way to 'empower' people. It is extemely stiffling to economic growth and overall, repels rather than attracts investment and economic progress. It has enriched deeply corrupt people and has not uplifted and unskilled the masses of previously disadvantaged. It is a negative and exclusive policy that the highly intelligent, like Elon, one of our own great world talents, outright and rightly rejects. It's more of a shoot-yourself-in-the-foot economic policy. BBBEE must go, it's not working for South Africans. All people need ground-level upskilling to set them up for life. Competence = confidence. Instead of building real competence, we have a greedy elite on the take who don't care about the true empowerment of their economy or people. Let Starlink in, drop the BBBEE requirement for foreign and local investors. End fake empowerment. Start truly empowering people. People gain competence and confidence by working their way up, paying their dues - authentic empowerment would be mass upskilling programmes in agriculture, mining, manufacturing, entrepreneurship, etc. We need skilled people who can confidently provide for themselves into their futures, and better role models. Authentic empowerment. BBBEE is rotten, it must go - very harmful to investment.	Jeanne-Ann	Gauteng		unemployed individual

	2025-06-21 23:37:50	Yes I do	Broad-Based Black Economic Empowerment Framework	The policy not only is racist in a society that is suppose to be equal for all. Everyone is not equal before the law in South Africa and dismissal of the framework will be a step towards a society where all people are able to trade and thrive. This policy is also unfair to black people as it assumes they cannot on their own build wealth and succeed, I do not believe this is true. There are many capable people in all of our population groups and all should be treated with respect with the ability to succeed on their own merit, not burdened by policies that only benefits a few people "rigging the system". This will also encourage investment by global companies being assured they actually have control of their business and the decisions that they need to make. This policy has been destructive and left the average South African with less than in the past.	Rudolf	Eastern Cape		self-employed

	2025-06-21 22:40:35	Yes I do	Broad-Based Black Economic Empowerment Framework	I would like to raise a concern regarding the implications of BBBEE requirements in the context of internet access, particularly with regard to the delays in allowing Starlink to operate in South Africa. While I understand the intention behind BBBEE is to address historical inequalities and promote inclusive economic participation, I believe that in certain cases, such as the introduction of global technology infrastructure, rigid application of these requirements may inadvertently hinder access to vital services for the broader population. In this instance, restricting Starlink based on compliance with BBBEE criteria could delay or deny affordable and reliable internet to underserved communities, especially in rural and low-income areas where traditional infrastructure is lacking. Access to internet is not a luxury—it is foundational for education, economic participation, healthcare access, and safety. Shared community investments in technologies like Starlink have the potential to bring transformative benefits to areas previously excluded from meaningful digital access. In this sense, the broader socioeconomic upliftment that could result from allowing such services to operate should be considered part of the public good. I therefore believe it is counterproductive to block services like Starlink purely on the grounds of BBBEE compliance. A more nuanced approach that enables participation while also upholding the spirit of empowerment may better serve the long-term goals of inclusion and national development. 	2025-06-21 21:22:33	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE does not benefit South Africans at large - it has created an elite, corrupt tenderpreneur culture where black fronting of "preferred" services are the norm. It has created a culture of skin colour over merit, where an elite consortium are rewarded for nothing but being black African, and does not use or encourage the use of actual skills in a true competitive and equal opportunity environment. Forced partnerships based on skin colour is not empowerment, it is elitist reward in a socialist fashion, and hampers access of true entrepreneurs and skills across all racial groups (Except elite and connected black African recipients) to a supply and demand environment.	Leone	Western Cape		self-employed
	2025-06-21 21:21:25	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE AND BEE are racial laws designed to advantage black persons. It racially discriminases against white persons. Skin colour should have no impact on the selection of a candidate for any position. Only skills, experience, qualifications should count.	CHARL	Gauteng		retired

	2025-06-21 19:59:57	Yes I do	Broad-Based Black Economic Empowerment Framework	Forced racial discrimination doesn't work. It hinders growth. It's had 30 years and done very little for the country. This is a step in the right direction.	Stuart			
	2025-06-21 19:59:54	Yes I do	Broad-Based Black Economic Empowerment Framework	The current framework is not addressing the requirement for the best candidate to be employed to do the work to uplift the country and communities, but actually removing skilled resources from the country by forcing those who are the best candidates to find work overseas. This kills the country which has consistently lowered its education standards levels to be able to allow unqualified people to pass, with what is deemed to be a good percentage of a low standard, just to make their BBBEEE policy look like its working. They are lying to themselves, and the state of the country proves that they have been lying to themselves, and to the people. Scrapping the Framework will allow skills to flow back into South Africa and to start to redress the situation, as well as to allow educators who can elevate the standards to cause a real rise in the country's value. Unless the plan is to dumb down the people, destroy the country's industrialisation, and go back to the tribal/ feudal system. If that is the plan, then there will be many who will leave, and a lot of them will be the black population that the ANC says they care about.	William	Gauteng		unemployed individual

	2025-06-21 19:32:12	Yes I do	Broad-Based Black Economic Empowerment Framework	B-BBEE needs to be amended to open the market for investors, for economic growth in our country. Race based employment of unqualified individuals is totally wrong, hindering the progress of our rainbow nation.	Rachel	KwaZulu-Natal		retired
	2025-06-21 19:31:54	Yes I do	Broad-Based Black Economic Empowerment Framework	Bee has excluded many opportunities to create work in South Africa for local south Africans... We really need to scrap the bee laws to invite investment into south africa	Calvin			
	2025-06-21 19:31:52	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is not working. It has been in place for many years and yet unemployment and poverty has increased drastically. It is a flawed system that has been abused and is laced with corruption and few are benefiting. The rich are getting richer and the poor stay poor. Investors from other counties are restricted by this law and our crime, corruption etc is a real turn off for investors! It is also having a massive negative impact of small businesses as they don't get tenders and jobs because of their BBBEE status even though they are the best company for the job and provide good service and competitive pricing. The president always says he is for small businesses but this law/policy will always disadvantage small businesses. If we want to see positive and economic change and growth in this country, things need to change for the benefit all South Africans. The only people who still want BBBEE are those benefiting from it. The gravy train needs to stop if our county is to move forward and grow! Please do the right thing!	Sam	Gauteng		employed individual

	2025-06-21 19:13:24	Yes I do	Broad-Based Black Economic Empowerment Framework	I hereby submit this objection to the continued enforcement of the 30% ownership requirement by historically disadvantaged persons (HDPs) as a condition for issuing Electronic Communications Network Services (ECNS) and Electronic Communications Services (ECS) licences. While the objectives of redress and empowerment are important, rigid ownership-based requirements such as these are increasingly counterproductive. In the case of Starlink, a transformative global technology capable of delivering broadband to underserved rural areas, the BBBEE requirement has effectively blocked access to world-class infrastructure. This not only undermines the rights of consumers in disadvantaged regions but also deters foreign direct investment, stifles innovation, and hampers economic growth. True empowerment must be measured by broad-based access to opportunity, not enforced shareholding structures that create artificial barriers to entry. Government policy must evolve beyond race-based ownership models towards enabling inclusive participation through skills development, local employment, affordable access, and infrastructure upliftment. I urge the Minister to revise the draft policy direction to permit global service providers such as Starlink to operate in South Africa without rigid ownership prerequisites. Growth, connectivity, and development should not be sacrificed on the altar of outdated ideological constraints.	Andre	Western Cape		self-employed
	2025-06-21 19:13:15	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is crippling our country. It has created unemployment and stifled growth. Starlink would help seclude communities with education and communication	Trevor	KwaZulu -Natal		retired

	2025-06-21 18:40:45	Yes I do	Broad-Based Black Economic Empowerment Framework	I think that the policy only favours the well connected only and that most South Africans of colour do not benefit. Besides excluding citizens that are currently put on the back foot based on race, it appears as though that BBBEE only benefit the elite few. If we really wanted to make a positive impact, I would suggest our government negotiating a 30% discount for all South Africans, regardless of race. In addition to the discount we can ask Starlink to supply free internet to schools in rural communities. Improving connectivity will stimulate tourism, improve safety and security and allow rural communities to get quicker access to health care. More digital nomads will also flock to South Africa and spend Euros and dollars which we so desperately need.	John	Gauteng		employed individual

	2025-06-21 17:41:39	Yes I do	Broad-Based Black Economic Empowerment Framework	By removing the BBBEE requirements from Companies , the benefits will far outweigh any perceived disadvantages. Our country desperately needs investment, for obvious reasons and especially investors from abroad, are dissuaded as a result of these BBEEE requirements. BBBEE is discounting the very people that this law is professing to protect. We have well educated and extremely competent Black South Africans in the workplace today, and this law is an insult to them, as it creates the perception that Black South African workers need this law in order to be employed. Competition is healthy and brings out the best in people, not so called protectionism. This country needs it's workforce to be the best it can be in order to attract investment, and BBEEE is not the going to get us there, healthy competition is. Be brave and abolish this law that is outdated and in so doing, empower millions of people living in rural areas of our country, to have access to the internet via the likes of Starlink. This will open up opportunities to so many of these people as they will then have access to the world. Do not withhold this opportunity from them as people from our rural communities are the most neglected and vulnerable citizens. Do right by them please !	Annesia	Gauteng		employed individual

	2025-06-21 17:40:53	Yes I do	Broad-Based Black Economic Empowerment Framework	Starlink should be allowed in South Africa because it offers fast, reliable internet to remote areas where government and telecoms have failed. It empowers education, business, and farming in underserved regions – driving real progress. Blocking it only protects monopolies. As for BEE, it’s time to end it. It entrenches elite enrichment and gatekeeping, not true empowerment. Talent and innovation should lead, not skin colour or political connection. We need policies that unlock potential for all South Africans, not just a few. Let’s enable merit, investment, and access – not more bureaucracy and artificial barriers. The future needs freedom, not filters.	MJ	Free State		employed individual

	2025-06-21 17:01:45	Yes I do	Broad-Based Black Economic Empowerment Framework	Subject: Reclaiming Africa's Digital Destiny: Why Black Industrialists and Indigenous Satellite Technology Are Our Anti-Colonization Strategy in the Digital Age Dear South Africa, Thank you for providing a platform for critical discourse on the future of South Africa's ICT sector. QRevulution Orbit Pty Ltd, a proudly 100% Black Economic Empowerment (B-BBEE) owned South African company, addresses this vital debate with a perspective rooted in our continent's history and its aspirations for genuine liberation. The ongoing discussion around the policy direction on B-BBEE requirements and the potential entry of foreign digital service providers compels us to reflect on a deeper historical parallel. Just as the 1884 Berlin Conference carved up Africa into spheres of influence for colonial powers, setting the stage for resource exploitation and economic dependency, we must be unequivocally vigilant against a new form of "digital colonization" in the 21st century. Allowing essential digital infrastructure and data control, particularly in the critical domains of skies and satellites, to remain predominantly in foreign hands risks perpetuating a Eurocentric model of ownership that can hinder our true sovereignty and self-determination. For too long, the immense potential of Black industrialists in shaping South Africa's high-tech future, especially in strategic sectors like space and digital communications, has gone largely unrecognised and under-supported. This is precisely where the "digital and space wars" will be won or lost – through control of the very skies and communication pathways that connect nations. We are asking: why can't we guard our own territories, both physical and digital? Our firm stance is that Broad-Based Black Economic Empowerment (B-BBEE) is not merely a policy, but a foundational pillar of South Africa's ongoing liberation and equitable development. It is essential for correcting historical injustices and ensuring that economic participation a	Modise Rex	KwaZulu -Natal		business owner

	2025-06-21 17:00:52	Yes I do	Broad-Based Black Economic Empowerment Framework	Broadband connectivity is the life blood of all business large and small. Current policies prevent affordable access to high speed broadband. How does current BBBEE currently support the disadvantaged in this sphere? In this day and age we should be actively and positively pursuing access for all. The internet is never going away and will only improve. 	2025-06-21 14:58:08	Yes I do	Broad-Based Black Economic Empowerment Framework	B-BBEE has had a detrimental effect on our country and economy. It doesn't work in sport, it doesn't work in education, and it doesn't work in business! Only a few connected and elite people have benefited from the act, and it is driving away investment and many entrepreneurs from our country. As a founder and entrepreneur, why must I invest money and work tirelessly to build a business and have to give away equity based on racist laws? It is also absolutely absurd that if I own 100% of a company that employs many black people, that I cannot win tenders or do business with other businesses because I am not black, or don't have a black shareholder? If a black person opens the same company and employs many white people, where is the benefit to that? These laws are absolutely unfair and racist to their core! No problem can be fixed with the same mindset that created it.	Mark	Western Cape		unemployed individual

	2025-06-21 14:26:36	Yes I do	Broad-Based Black Economic Empowerment Framework	The removal of B-BBEE in its current form is unlikely to harm the average South African. On the contrary, it may dismantle a system that, over time, has largely enriched a narrow group of politically connected individuals—the so-called “fat cats”—while failing to meaningfully uplift the majority of historically disadvantaged communities. While B-BBEE was introduced with the noble intention of redressing past injustices and creating inclusive economic growth, in practice it has: Concentrated wealth and opportunity among a small elite. Encouraged tokenism and fronting, rather than genuine development. Stifled broader participation by creating complex compliance systems that benefit large corporations and consultants, not ordinary citizens. Removing B-BBEE could open up the economy to real empowerment—through transparent merit-based systems, investments in education, entrepreneurship, and job creation, and non-racial policies that lift all poor South Africans, not just a select few. For South Africa to move forward, we must be willing to assess not only what was intended by B-BBEE, but what has actually been achieved, and who has truly benefited.	Gilbert	Gauteng		retired

	2025-06-21 14:22:22	Yes I do	Broad-Based Black Economic Empowerment Framework	I voted YES because South Africa urgently needs to embrace competition, innovation, and meaningful infrastructure development — not ideological gatekeeping. Starlink offers a powerful solution to our country’s digital divide, especially in rural and underserved areas where local providers have failed to deliver. Blocking its rollout due to rigid and racially discriminatory policies like BBBEE is both morally wrong and economically self-sabotaging. The current framework doesn’t just hinder global pioneers like Elon Musk — it actively suppresses the potential of thousands of skilled, hard-working South Africans based purely on race. A just and prosperous South Africa must move beyond race-based exclusion and embrace solutions that serve all its people, regardless of colour. Let’s stop punishing excellence and innovation in the name of outdated ideology.	Richard	Western Cape		self-employed
	2025-06-21 14:21:46	Yes I do	Broad-Based Black Economic Empowerment Framework	I think that the whole bee system should be scrapped.....this is a system introduced in other countries to benefit a minority for a limited period. 	2025-06-21 14:10:14	Yes I do	Broad-Based Black Economic Empowerment Framework	All South Africans are looking for momentum, positive change, earning opportunities and economic growth. People in SA are in despair; many have stopped their dreams; some are afraid to set goals while others avoid looking ahead to a SA future for their families. We cannot live with policies 30 years down the line that will retard and create barriers to the real needs of our country and its people. Reparation and redress had its moment; we are living, working and growing together with all our colourful differences but do need vibrant investment and job opportunities. Many of us live with global families and are even funded because their earning capacities are so much stronger.	Jill	Eastern Cape		self-employed
	2025-06-21 14:10:14	Yes I do	Broad-Based Black Economic Empowerment Framework	All South Africans are looking for momentum, positive change, earning opportunities and economic growth. People in SA are in despair; many have stopped their dreams; some are afraid to set goals while others avoid looking ahead to a SA future for their families. We cannot live with policies 30 years down the line that will retard and create barriers to the real needs of our country and its people. 	2025-06-21 12:45:39	Yes I do	Broad-Based Black Economic Empowerment Framework	The ANC should be honest and accept that BBBEE has only pushed investors away. It has not moved the people which it was supposed to empower forward. It has, however, forced many too remain unemployed. Economics does not work with race cards. Wake up ANC, you could have been far wealthier if you used economics to your benefit. You would not even have had to loot the money of the poor. Away with BBBEE and welcome investors.	Yul	Western Cape		retired
	2025-06-21 12:45:30	Yes I do	Broad-Based Black Economic Empowerment Framework	"The whole BBBEE social experiment, originally conceived by one of the big 5 RSA Charrtered Accounting firms, has been a disaster from inception, and fostered more fraud, distrust, hopelessness, anger, frustration, economic regression & collapse and racism than any other social engineering conception ever implementated in the continent of Africa, inclusive of the separate-ethnic-development (apartheid) ideology progressively & stupidly legalised by an Afrikaaner minority in RSA from 1948 forwards. The huge amount of wasted resources used to administer this monster, plus the exponential amount of inefficiency, fraud and incompetence that has followed in its wake is virtually incalculable, and will now take years, if not decades, to reverse. The sooner it is fully, whole-heartedly abandoned by a sensible, forward-looking, non-racist governing body, the better, as it will simultaneously kick the enormous potential for positive growth of the RSA Rainbow Economy into action, with both our Creator's full favour and indeed, His complete, unfettered Blessing. Two wrongs, of which BBBEE is one, never make a RIGHT! It will do well for the racists amongst us, to let that divine judgmental-instruction & comment to sink in deeply! I do not make this observational -comment as an partially ignorant lay-person, like that of President Cyril Ramaposa and other ANC-deceived folk, but as an expert in this field, and as a keen observer of commercial, economic, financial and social-intergrative trends, especially those in the Republic of South Africa " Bretjohn Palmer CA (SA)	Bretjohn	KwaZulu -Natal		self-employed
	2025-06-21 12:45:09	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has never made any sense. Squabbling over a carcass instead of imagining innovative ways to make money and get on and WORK	Laura	Western Cape		employed individual
	2025-06-21 12:45:06	Yes I do	Broad-Based Black Economic Empowerment Framework	BBE & BBBEE has destroyed this country, no sane person will invest in SA with these laws and the labour laws we have,. 	2025-06-21 11:52:17	Yes I do	Broad-Based Black Economic Empowerment Framework	We have been in a democracy for over 30 years. Why is the current policy excluding groups? It is unconstitutional to deny someone fair job opportunity based on their race. That is no different to previous regime South Africa endured. Our country is suffering as skilled workers sit at home when they can be bettering how our country is run. We are stronger by building on each other's strength. Excluding groups based on the color of their skin is racist - no matter who is doing it. Please let us truly be the rainbow nation Nelson Mandela envisioned. And why countries around the WORLD stood by to fight for our freedom from oppression. BBBEEE is just a new form of oppression and it must be abolished.	Bianca	Gauteng		employed individual
	2025-06-21 11:52:05	Yes I do	Broad-Based Black Economic Empowerment Framework	It's a fact accepted by the majority of South Africans, regardless of their party loyalties, that BBBEE and forced local ownership (which will no doubt include the usual corrupt ANC cadres) are poisonous in themselves and therefore repellant to any outside investor, and rightly so.	Malcolm	Western Cape		retired
	2025-06-21 11:52:03	Yes I do	Broad-Based Black Economic Empowerment Framework	My personal experience as a Mechanical Engineer and business owner in South Africa directly underscores the practical challenges and unintended consequences of the Broad-Based Black Economic Empowerment (B-BBEE) policy. Despite holding a Master's Degree and operating a capable business, securing contracts became increasingly contingent on B-BBEE compliance, often requiring significantly higher 'black ownership' percentages than the frequently cited 30%. This effectively created an insurmountable barrier to entry for my business, irrespective of technical merit or competitive pricing. Such practical implications highlight how B-BBEE, in its current implementation, can inadvertently limit economic participation for skilled individuals and established businesses, leading to inefficiencies and an environment where access to opportunities is prioritised over competence and innovation, ultimately hindering broad-based economic growth and disproportionately benefiting a select few who can meet or manipulate the ownership criteria. While redirecting the substantial resources currently consumed by Broad-Based Black Economic Empowerment (B-BBEE) compliance towards direct investment in crucial public services such as service delivery, education, and infrastructure development holds significant potential for more inclusive and sustainable upliftment, this re-allocation must be accompanied by stringent controls and a fundamental commitment to meritocratic governance. True positive change necessitates the appointment and empowerment of competent, ethical, and accountable individuals in positions of management and oversight. Without this crucial element of effective stewardship, there is a significant risk that these redirected resources could become susceptible to the same inefficiencies and misappropriation that have hampered other public initiatives, thereby failing to deliver the intended broad-based benefits to all South Africans. 	2025-06-21 11:32:40	Yes I do	Broad-Based Black Economic Empowerment Framework	It's time that race is no longer a factor in business. How else do generations move forward in equality? Here we have a company that can provide faster and more efficient Internet to the rural areas, but a 'handover' of 30% of the business is expected for this service to be made available in our country… BBBBEE is damaging where growth is impeded.	Martz			self-employed
	2025-06-21 11:31:55	Yes I do	Broad-Based Black Economic Empowerment Framework	I fully support the initiative to enable Starlink and other global telecommunications providers to deliver reliable, fast, and cost-effective internet to the vast regions of South Africa currently lacking adequate coverage. The proposed approach, particularly its commitment to providing free, meaningful, grassroots support to rural schools, is an essential and practical component of genuine transformation. Access to high-speed internet empowers even the poorest schools with the same global library of knowledge and resources available to the most privileged institutions. This connectivity is crucial for developing essential digital skills, significantly enhancing opportunities for future job seekers and entrepreneurs. Equipped with modern digital tools, students across South Africa can benefit from access to world-class teachers and cutting-edge AI resources, rapidly bridging the education gap—a goal that traditional methods would take decades to achieve. It is important to note that similar Equity Equivalent programs have successfully enabled transformation in other industries, including automotive and major software companies, providing proven alternatives to traditional BEE shareholding requirements. I urge the South African government to support this forward-thinking policy and prioritize meaningful upliftment and transformation for millions of rural citizens. It is essential to choose progress over protecting the interests of established telecommunications providers, who have consistently failed to deliver connectivity to the more than 20 million South Africans living in rural areas, despite decades of opportunity and substantial profit margins approaching 40%. The entire BBE Framework needs to be relooked at as it is not fair to all ethnicities and is beginning to form the reverse of apartheid. Things Like Starlink WILL have a huge positive impact on ALL lives - especially rural schools! Thank you for considering this crucial initiative. Yours sincerely	Luke	KwaZulu -Natal		student

	2025-06-21 11:11:56	Yes I do	Broad-Based Black Economic Empowerment Framework	It is truly time to move away from race based laws and allow investors both local and foreign to establish enterprises in South Africa as this will drive employment growth as well as bring much needed technology and benefit to South Africa	Gary			retired
	2025-06-21 11:11:55	Yes I do	Broad-Based Black Economic Empowerment Framework	The economy is suffering because of government insisting people be employed due to the colour of their skin instead of merit, skills & qualifications.	Sara	Gauteng		employed individual
	2025-06-21 11:11:41	Yes I do	Broad-Based Black Economic Empowerment Framework	The ANC BEE policy has not helped ordinary South Africans. It has only made some well connected elites very wealthy and is damaging the economy.	Leslie	Gauteng		retired
	2025-06-21 11:09:17	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE is ineffective costing South Africa billions, all state tenders have to be 51% BEE owned and we all know how effective service delivery is. The so-called local community that should benefit from these tenders is also ineffective and they take the law into their own hands, contributing to South Africa's lawlessness. 30% BEE proposed for Starlink and other companies is preventing Local & Foren investment and job creation we so desperately need.	Stefanus	North West		business owner
	2025-06-21 11:08:58	Yes I do	Broad-Based Black Economic Empowerment Framework	I think it is high time to stop Bee and related discrimination. People that have not benifitted after 31 years will never do anyway. And it is a major stumbling block in the whole S.A. economy. We should work on improving the whole economy and the lives of everyone. Instead of only a few people benefitting to the detrement of everyone else. Everyone that wants to do something but are blocked by laws like Bee, just means the government are blocking people from contributing to the economy. And it just means a better life for some, not a better life for all as advertised.	Jan	Free State		business owner

	2025-06-21 10:50:48	Yes I do	Broad-Based Black Economic Empowerment Framework	The Broad-Based Black Economic Empowerment (BBBEE) requirements, while well-intentioned in their goal to rectify past injustices, have unfortunately fallen short in practice. Instead of genuinely uplifting previously disadvantaged individuals, these policies have, in many cases, merely swapped one elite for another, leaving the majority of those who truly need assistance still struggling. I believe these unintended consequences of BBBEE have significantly contributed to the decline of South Africa's economy, further harming the very people they were meant to help. Therefore, I advocate for the complete removal of all BBBEE requirements from our legislation. This would allow our economy to recover, which I see as the most effective path to job creation and the true upliftment of all South Africans.	Dane			
	2025-06-21 10:49:58	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE throttling busines. Just another way of stealing for the government	Nico	Western Cape		retired

	2025-06-21 10:47:21	Yes I do	Broad-Based Black Economic Empowerment Framework	The BBBEE requirements in general are laudable in that they aim to address historical unfair practices. However, in practice this has only lead to a white elite being replaced by a black elite, with most spreviously disadvantage people getting nothing. As a result of unintentional consequences of the BBBEE policies, I believe that the economy of SA has taken a nosedive, which further negatively affects most of the population. Therefore, I believe all BBBEE requirements should be removed from our legislations. That way the economy can recover, which is the best way to create jobs and uplift previously disadvantaged parts of the citizenry.	Fabian	Western Cape		employed individual
	2025-06-21 10:47:14	Yes I do	Broad-Based Black Economic Empowerment Framework	Do away with racial discrimination and restore our economy and create jobs and a better life for all South Africans and not just the few black elite and criminals that benefit from Beee	Marius	Mpumalanga		retired
	2025-06-21 10:47:04	Yes I do	Broad-Based Black Economic Empowerment Framework	Hopelik kan Starlink 'n einde bring aan die onregverdige BBBEE. BBBEE het nog geensins ekonomies bygedra tot Suid Afrika nie.	Hilgard	Gauteng		retired

	2025-06-21 09:37:48	Yes I do	Broad-Based Black Economic Empowerment Framework	This policy has turned out to be detrimental to certain race groups- which is another form of racism. we have not seen it benefit the poor or the man-in-the-street, who need assistance the most. It HAS benefited the rich who get richer, and the looting and discrimination has not brought any benefits to South Africa as a country which is in the worst shape it has ever been in history. We are fast becoming a banana republic disrespected by everyone for the in-your-face corruption and mismanagement. It is time for this country to treat everyone EQUALLY, allow merit and skills to be the criteria on all levels and perhaps we can save this country.	Liz	Western Cape		self-employed
	2025-06-21 09:36:38	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBBBEEEEE has no value to South Africas economy other than to lead South Africa over the cliff to let it fall to smithereens whilst the poor is getting poorer and the rich is getting richer. Our Government does not have the brain power to come with new fresh ways of job creation. Hence the high unemployment rate. Companies are forced to appoint people unsuited and unskilled for the job so they can maintain their BBBBEEEE status , but the one with the correct knowledge and experiences’ CV is dumped in the trash as their skin is white. 31 Years down the line and the poor black people staying in the townships and informal settlements are now even poorer as Government corruption has stolen their dream of being lifted up and finding a job through government’s job creation initiatives, which are non-existent. All the money allocated to job creation ends up the coffers of the so called people in charge way before any real money can reach the reason why the money was allocated in the first place. Hence the poor becomes poorer. How does BBBBBEEEEE help the poor black person who, after years of unemployment are still unemployed, yet the country boast they are empowering the previously disadvantaged people. Makes no sense at all.	Annelize	Gauteng		employed individual
	2025-06-21 09:36:25	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is not allowing foreign investment in South Africa. It also has a huge impact on SME"s.	Russell	Gauteng		business owner
	2025-06-21 09:35:26	Yes I do	Broad-Based Black Economic Empowerment Framework		Vicki	Gauteng		retired
	2025-06-21 09:35:05	Yes I do	Broad-Based Black Economic Empowerment Framework	This policy has not served the masses, instead giving ANC cadres the ability to advance their own interests in a manner that promotes corruption & does not serve the country. Accordingly, it should be amended to ensure that the 20 years of poor growth & stifled investment is ended & the market forces be allowed to bring about growth.	Donovan	Gauteng		employed individual
	2025-06-21 09:34:52	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE requirements in ALL sectors are RACIST at the core. Injustices of the past are not corrected by Present Injustice of BBBEE. The 30% Black ownership requirement only benefits a very small Black elite and has been doing so for the last 30 years, literally stealing from society and impoverishing the economy. We should NOT have any Racist laws in RSA.	William	Western Cape		business owner
	2025-06-21 09:34:06	Yes I do	Broad-Based Black Economic Empowerment Framework	Our economy needs investors and job creation!! Employment should be based on merit not race. BBBEE has had the opposite effect on economic growth and uplifting the poor, with most of SA worse off now than 30 years ago. BBBEE mostly benefits politically connected corrupt cadres, and unemployment is at its highest ever.	Karla	Western Cape		employed individual

	2025-06-21 09:25:39	Yes I do	Broad-Based Black Economic Empowerment Framework	It's time that EVERYONE in this country be treated the same and given equal opportunity. Apartheid is long gone and the ANC and BBBEE has not been working or improving much except suppress and disadvantage minority groups. People should be employed for their ability and qualifications. Decisions on who gets employed should not be influenced by the colour of ours skins!!	Marijke	Gauteng		employed individual
	2025-06-21 09:25:36	Yes I do	Broad-Based Black Economic Empowerment Framework	I support the plan to align our local structures and legal frameworks to make it possible for Starlink and other international companies to provide services in South Africa that will facilitate growth and development.	Debbie	Gauteng		employed individual
	2025-06-21 09:24:56	Yes I do	Broad-Based Black Economic Empowerment Framework	Anything that creates work for unemployed to better themselves.	Mel			
	2025-06-21 09:24:43	Yes I do	Broad-Based Black Economic Empowerment Framework	There is incontrovertible evidence that BBBEE has mainly succeeded in enriching the few at great expense to the economy and ordinary people who don't have influence with the political elite. If this could be the beginning of breaking down the BBBEE Framework, I support it. We can then look at real projects to empower ordinary people through technical education, apprenticeship schemes, youth employment schemes such as the highly successful JOBS BOOST program being managed by the economic research firm, Krutham. Funding should be re-directed from BBBEE to these programs. The entire education system and curriculums should be directed toward empowering people so that they can be gainfully employed. Scrapping BBBEE will also increase investment, particularly Foreign Direct Investment, providing more opportunity for employment.	Graham	Western Cape		business owner
	2025-06-21 09:24:19	Yes I do	Broad-Based Black Economic Empowerment Framework	It is totally Discrimination based on race which our Constitution does not allow!!!!	Joanne			
	2025-06-21 09:24:17	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE regulations are harming our economy by benefiting only a few well connected individuals while excluding most in practice.	Gideon	Gauteng		unemployed individual
	2025-06-21 09:23:59	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE is s racist sham. How can there be unity if skin colour is part of the country's constitution. Just get rid of it.	Anthony	Mpumal anga		self-employed

	2025-06-21 09:21:17	Yes I do	Broad-Based Black Economic Empowerment Framework	It is time to re-think all policies and maybe a good time to just scrap BBBEE as a whole	Rikus	Gauteng		self-employed
	2025-06-21 09:21:01	Yes I do	Broad-Based Black Economic Empowerment Framework	I feel that BBBEE is not the solution to the average South African getting to a point where they are employed and self sufficient, our unemployment numbers clearly depict that. Only the fat cats at the top of the economic business chain benefit from BBBEE while the employees are hugely disadvantaged by being paid minimum wage. To follow other countries example of where similar requirements like BBBEE have been dismantled is the way to go, best person for the job policies are much more productive and brings a positive business opportunity for future development and economic growth which will help rebuild our country and create a stable job employment base.	Michael	Western Cape		unemployed individual
	2025-06-21 09:20:39	Yes I do	Broad-Based Black Economic Empowerment Framework	THE PLAYING FIELD MUST BE THE SAME FOR ALL-BLACK AND WHITE. THE ECONOMY HAS BEEN OPEN FOR ALL THE PAST THIRTY YEARS. IT IS UNNECESSARY AND HARMFUL TO THE ECONOMY TO EMPOWER ONE GROUP OVER ANOTHER AND TO GIVE AWAY EMPOWERMENT WITHOUT IT BEING EARNED. THE POSSIBILITY ALSO EXISTS FOR EMPOWERMENT IN ITS PRESENT FORM TO BE ABUSED.	Freddie	Western Cape		retired
	2025-06-21 09:19:47	Yes I do	Broad-Based Black Economic Empowerment Framework	The connected few have become millionaires from this ill considered policy. It is time to allow free market forces to grow SA.	Diane	KwaZulu -Natal		self-employed
	2025-06-21 09:19:46	Yes I do	Broad-Based Black Economic Empowerment Framework	I am concerned that BEE has on the whole mostly benefited an elite few and absolutely believe that the only way we are going to grow as a country to the benefit of all will be when we move beyond race and appoint people based on competence and their ability to do the job.	Lorraine	Western Cape		Non-profit
	2025-06-21 09:19:13	Yes I do	Broad-Based Black Economic Empowerment Framework	All the BBEEE compliance issues make it difficult for businesses to operate in SA. This hinders growth because too much time is spent trying to navigate all the hurdles that complying with BBEEE creates. Using a stick, rather than dangling a carrot, is never a good idea. It is demotivating. Rather offer businesses freedom to grow and incentivise them. Make businesses feel valued. They want to employ black people. Training is required so that there is the right calibre of people to fill positions. Provide training colleges of excellence, stimulate rather than hinder business, and it will happen naturally.	Linda	Gauteng		retired

	2025-06-21 09:06:04	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE must end. It is not fit for purpose, but has been used as a vehicle to enrich the corrupt and connected.	Zuko	KwaZulu-Natal		employed individual
	2025-06-21 09:05:29	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE is nothing more than legalised stealing. Apart from not doing anything to enable employment and betterment of the previously disadvantaged, it has almost completely disincentivised entreprerneurial spirit - the very engine of a flourishing economy.	Robert	Western Cape		retired
	2025-06-21 09:05:18	Yes I do	Broad-Based Black Economic Empowerment Framework	Any of the BEE type policies under any guise is detrimental to SA as it is nothing but a continuation of the previous regime's apartheid laws and direction which proved itself to be exclusive and harmful to, at that stage the majority of SA's population. The above enacted laws apparently well intended, like the apartheids laws, benefited a relative small proportion of the masses it was supposed to uplift and caused SA's economy to slow down, stagnate and is headed for total destruction making SA a failed state, unfortunately, like a plethora of states in Africa. These laws, to my mind is contrary to our, at some stage much vaunted, constitution. If it is found to be constitutional, then a rewrite of that portion of the constitution is urgently required, as it is one of the bigger stumbling blocks in SA's potential to be a viable country for its peoples. There are other problems as well, like the ability for the elected to dodge any responsibility for policies made and actions taken with no retribution. It reminds of the historical failed experiment of communism, socialism now pushed under various Kafkaesque scenarios and 1984(book) word play.	Jakobus	Western Cape		retired

	2025-06-21 08:55:50	Yes I do	Broad-Based Black Economic Empowerment Framework	No business model can work based on BBEE framework it’s a formula for failure as is the 30% local ownership - It’s not a helpful business framework other more logical frameworks could be discuss eg training and upskilling of locals	Michelle	Gauteng		self-employed
	2025-06-21 08:55:11	Yes I do	Broad-Based Black Economic Empowerment Framework	I am concerned that the current implementation of BBBEE sometimes prioritises skin colour over qualification and ability. While I fully support redress and empowerment, appointments should be skills-based to ensure that positions are filled by individuals who are capable of fulfilling the responsibilities required. When roles are awarded purely based on demographic targets, it can undermine both individual confidence and organisational performance. This places unnecessary strain on others in the company who may need to carry additional responsibilities, potentially leading to inefficiencies and financial loss. We should ensure that empowerment strategies support individuals in building the necessary skills and qualifications so that appointments are made fairly and based on competence — fostering both respect and sustainable transformation. It should never be about skin colour.	Shayna	Gauteng		self-employed

	2025-06-21 08:53:56	Yes I do	Broad-Based Black Economic Empowerment Framework	Running a business in South Africa as a white entrepreneur with limited resources is like fighting with one hand tied behind your back. Every grant, sponsorship, or funding opportunity is denied, not because of a lack of ability or effort, but purely because of our skin colour. Most of us had nothing to do with apartheid and reject it completely, yet we’re being punished for a system we didn’t create. BEE is a system that reduces people to skin colour instead of recognising merit, skill, or need. Racism doesn’t fix racism. Apartheid was wrong and this is just discrimination in a different form. And let’s be honest, it’s everyone’s money (taxes) funding these systems and programmes that deliberately shut out capable South Africans purely because they don’t tick the right racial box. That’s not progress, it's division! If bringing Starlink into South Africa helps break this cycle and forces the end of BEE, I'm all for it. I want a country where everyone competes fairly, where hard work and ability matter more than skin colour. We can’t build the future by repeating the mistakes of the past. It’s time for fairness and for change.	Steven	Eastern Cape		business owner
	2025-06-21 08:53:54	Yes I do	Broad-Based Black Economic Empowerment Framework	The concept of BBBEE had only empowered a few select people. As a whole is was and is totally unsuccessful. Scrap the bill totally and allow people to use their creativity to create ideas, businesses and jobs. We do not want to create a culture where young people feel that grabbing other people's ideas and businesses will bring them somewhere. Rather let them become innovative and developing their own potential.	Annatjie	Western Cape		retired

	2025-06-21 08:53:48	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has been going on for decades it’s time to stop this nonsense	Jorge	KwaZulu-Natal		unemployed individual
	2025-06-21 08:53:39	Yes I do	Broad-Based Black Economic Empowerment Framework	I support the Minister’s efforts to open the market to services like Starlink, which can bring fast, affordable internet to rural and underserved communities across South Africa. However, current BBBEE and ownership requirements, such as the 30% local shareholding rule for ECNS/ECS licences, often block investment and delay access to critical infrastructure. While transformation is important, BBBEE in its current form is not helping the poor — it benefits a small elite while the majority remain excluded. We need a more practical, inclusive approach that supports investment, skills development, and connectivity — without rigid ownership rules that hinder progress. Let’s prioritise meaningful impact over compliance frameworks that don’t serve the broader public.	Henk	Gauteng		self-employed
	2025-06-21 08:53:24	Yes I do	Broad-Based Black Economic Empowerment Framework	BBEE has been a stumbling block for economic growth since it's inception. While the intention was good it was hijacked and raped to serve and enrich a select few ANC members. If this BBEE policy is removed I certainly will SUPPORT such a change.	Barry	Western Cape		retired

	2025-06-21 08:49:24	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE had a great vision to allow non whites to earn opportunities in the business world. Unfortunately, this concept was never based on working for a share and earning participation in businesses. It thereby become a money pri ting machine for black elites doing absolutely nothing to earn free money. It become a racist law with no benefit to the black majority or the countries economy. Incompetence and greed followed that caused the collapse of a great country. It is fair and factual to say that the BBBEE was and continue to be an evil and racist law that destroyed our country and enriched a lot of ANC comrades. It showcase the stupidity of those beneficiaries that only enriched themselves and did nothing for the upliftment of their own people. If SA have any chance to recover and a better future, BBBEE needs to be abolished immediately, and monies made and received by individuals through this devilish and racist law be returned to the companies so that the economy can get a capital injection and create growth.	Pieter	Northern Cape		retired

	2025-06-21 08:40:51	Yes I do	Broad-Based Black Economic Empowerment Framework	Dear Minister Malatsi, I support the proposed policy direction that would allow companies like Starlink to operate in South Africa without BBBEE-based ownership restrictions. After 30 years of race-based economic policy, it is time to move toward a level playing field where merit, innovation, and service quality drive progress — not mandatory ownership based on historical classifications. We need to create an open, competitive environment that benefits all South Africans through access, affordability, and global technology. Removing BBBEE ownership requirements in telecoms — and potentially beyond — would mark a significant step toward a non-racial, inclusive economy built on equal opportunity, not enforced equity. Let’s unlock progress for all.	Anton	Gauteng		employed individual
	2025-06-21 08:40:05	Yes I do	Broad-Based Black Economic Empowerment Framework		Sohina			
	2025-06-21 08:39:44	Yes I do	Broad-Based Black Economic Empowerment Framework	BBEE has historically not worked, and is grossly unfair. It should never be for a majority group anyhow. In the current economic climate, entrepreneurs should be encouraged and this framework should not deter any business in our country.	Judy	Western Cape		retired
	2025-06-21 08:39:35	Yes I do	Broad-Based Black Economic Empowerment Framework	The ANC has always chosen ideology over development of the people's they claim to act for. Eliminating BBBEE in this instance would be the single most important step in promoting the development of the people by facilitating improved education and consequent relief of widespread poverty within the Black Community.	Colin	Western Cape		retired
	2025-06-21 08:39:07	Yes I do	Broad-Based Black Economic Empowerment Framework	It is for the benefit of every South African regardless of race to remove BEE in total.	Mari			employed individual

	2025-06-21 08:27:51	Yes I do	Broad-Based Black Economic Empowerment Framework	After 30 +years of ANC rule everyone should be equal. BBEEE is racially discriminatory it benefits a few. Mostly it is driving companies to close and leave South Africa leaving behind thousands unemployed.	Nicole	Western Cape		retired
	2025-06-21 08:27:50	Yes I do	Broad-Based Black Economic Empowerment Framework	In my view, the original intent behind Broad-Based Black Economic Empowerment (B-BBEE) — to address historical injustices and promote inclusive economic participation — has regrettably been undermined over time. Instead of uplifting the broader population, the policy has often served to enrich a small, politically connected elite. The implementation of B-BBEE has, in many cases, failed to create meaningful opportunities for the majority of disadvantaged South Africans. The system has encouraged tokenism, patronage networks, and tenderpreneurship, while doing little to foster real skills development, entrepreneurship, or sustainable economic growth in poor communities. It is my belief that for South Africa to move forward, empowerment policies must be restructured to focus on true merit-based inclusion, transparency, and long-term grassroots economic development — rather than benefiting a select few at the expense of the many.	Arno	Gauteng		employed individual
	2025-06-21 08:27:33	Yes I do	Broad-Based Black Economic Empowerment Framework	We need equality in hiring staff and all citizens should get a chance at a job. We also need more jobs so investment is important.	Cheron	Western Cape		business owner

	2025-06-21 08:23:43	Yes I do	Broad-Based Black Economic Empowerment Framework	The ANC - Government had ±30 years to use BEE to destroy SA's economy and utilize their apartheid policies against white, indian, coloured people, etc! It is time to do what a Responsible Government must do, do what is beter for our Economy! Use ability and merit and not Bias to get the best Results!	JL	Gauteng		retired

	2025-06-21 08:23:36	Yes I do	Broad-Based Black Economic Empowerment Framework	Ww need the B-BBEE to fall away completely so that companies can rely on skilled people and not race based. It's nonsense and people are already starving because compabies are either closing down or scalig down. Companies atill standing need tp pay yearly for the certificates and the delay to get the latest certificate also is costing the companies unnessacary clients. Caracter and skills build business not race. Race based laws are the downfall of a company, now the downfall of the person without work, Now the Government aren't getting the taxes they need to build roads and infrastructure-no stealing of funds (pun intended). Now the country is too poor to even survive any onslaught.....the domino effect is taking place at a rate never seen before. All people in this country is getting poorer by the day because of this law. Because of the law people are getting either desperate or stupid but crime is now worse than ever before. RACE BASED LAWS DID NOT WORK IN THE PAST AND CERTAINLY NOT IN ANY OTHER COUNTRY.....IT IS NOT WORKING IN THE GOOD SA EITHER.	Marua	Gauteng		unemployed individual
	2025-06-21 08:23:26	Yes I do	Broad-Based Black Economic Empowerment Framework	Bee can in no way improve RSA's economy. In fact it causes no growth and only benefits a few Cadres.	Hennie	Gauteng		retired

	2025-06-21 07:53:34	Yes I do	Broad-Based Black Economic Empowerment Framework	While the BBBEE policies were effective in rebalancing the wrongs of the past, we are now more than 30 years down the line and these policies are stifiling the jobs market and economic growth. Extrmely wealthy foreign investors should be welcomed with open arms, not told to give away almost a third of their companies.	Monti	Western Cape		employed individual
	2025-06-21 07:53:15	Yes I do	Broad-Based Black Economic Empowerment Framework	Let's get rid of BEE fully from all South African law, it doesn't work. Simple, it's been almost 30 years and majority of Black South Africans haven't benefitted by it. It's a racist policy, facts!	Jess	Gauteng		business owner
	2025-06-21 07:53:03	Yes I do	Broad-Based Black Economic Empowerment Framework		Barbara			
	2025-06-21 07:52:06	Yes I do	Broad-Based Black Economic Empowerment Framework	Over the years it has become apparent that only very few benefit from the current BBBEE framework. I fail to see why any business should stand off 30% to someone who has not contributed to the building and success of that business but merely as a result of the color of their skin. As for the tender corruption and inflated prices which have a direct effect on the poor, who once again are the ones that suffer the most. There should be equal opportunity for all. Yes, Apartheid was wrong in every way and yes, the previously disadvantaged were excluded in many ways. But has BBBEE change anything? Not really. Not for the masses. Only for those that were well connected and still are. Remove BBBEE and see the country flourish in many ways.	Gabby			
	2025-06-21 07:51:45	Yes I do	Broad-Based Black Economic Empowerment Framework	Resources and opportunities are diverted to a more privileged subset of the "previously disadvantaged," leaving the most vulnerable behind.	Nick	Gauteng		business owner

	2025-06-21 07:35:00	Yes I do	Broad-Based Black Economic Empowerment Framework	Independently of one's race or creed, the best candidates should always be given the opportunity to serve	Carlos	Gauteng		employed individual
	2025-06-21 07:34:56	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE only benefits the rich political elite to the detriment of the economy and subsequently making the poor poorer. Time for this to end and build a strong economic South Africa that benefits all, especially the poor. Hospitals, police stations, municipalities, roads, all essential services have been negatively effected due to BEE.	Jonathan	KwaZulu-Natal		business owner
	2025-06-21 07:34:29	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE has, objectively, not worked. Our economy is shrinking and historically disadvantaged groups remain having little chance of achieving equality. We need something else. We need to include people in the economy and incentivize them to said others. The punitive stance of BEE is it's downfall.	Jared	KwaZulu-Natal		
	2025-06-21 07:33:56	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE as it has been implemented over the years has brought more downside than upside to the economy and thus to the overall SA population. It should therefore be scrapped in all sectors.	Ana			
	2025-06-21 07:33:50	Yes I do	Broad-Based Black Economic Empowerment Framework	When will this country learn to use/contract with people/companies based on merit and not make it based on Bee.	Steve	Gauteng		self-employed
	2025-06-21 07:33:48	Yes I do	Broad-Based Black Economic Empowerment Framework	would like to express my full support for the proposed draft policy direction that seeks to enable greater participation in South Africa’s telecommunications sector by removing rigid ownership requirements — particularly the 30% historically disadvantaged South African (HDSA) shareholding threshold for ECNS and ECS licences. This move has the potential to significantly benefit South Africans by allowing cutting-edge global technologies such as Elon Musk’s Starlink to operate locally. Starlink’s presence in the country would drastically improve internet connectivity, especially in underserved rural and remote areas where traditional infrastructure is limited or non-existent. Access to affordable, fast, and reliable internet is a foundational driver of economic growth, education, health services, and job creation. The current BBBEE-linked ownership obligations, while rooted in important goals of redress and transformation, have inadvertently created barriers to entry for innovative international service providers. By modernising our regulatory framework to align with technological progress and global competitiveness, we can ensure that transformation coexists with growth and investment. Your initiative to open this discussion for public comment is commendable and represents a critical step towards balancing inclusivity with progress. Should this policy direction be implemented successfully, it could also pave the way for similar revisions in other sectors, encouraging investment while still upholding South Africa’s broader developmental goals through alternative transformation mechanisms. I urge you to move forward with this forward-thinking reform and unlock the full potential of global partnerships for the benefit of all South Africans.	Friedl	North West		self-employed

	2025-06-21 06:18:01	Yes I do	Broad-Based Black Economic Empowerment Framework	There is no Economic Empowerment. It is destroying the country and we are getting poorer. No growth over 30 years just destruction.	Annie	Gauteng		self-employed
	2025-06-21 06:16:23	Yes I do	Broad-Based Black Economic Empowerment Framework	Transformation shouldn't be top down it should be bottom up by focusing on education and skills development. This evens out opportunity for all while at the same time putting competent people into positions with the right educational backgrounds. BBBEE unfortunately has scared many companies away from South Africa because of having to give away ownership. This has been decorating for the economy and hasn't helped the poor, and unemployed. Every focus needs to be on job creation. BBBEE in the current framework has only significantly benefited the black elite, and unfortunately at the same time, forced companies to focus on the wrong things which has impacted companies service levels, a has limited growth in already well established businesses.	Jonathan

	2025-06-21 05:34:32	Yes I do	Broad-Based Black Economic Empowerment Framework	It has been empirically proven that BBBEE has cost the economy billions and is prone to corruption. It stands as a major barrier to entry for foreign investment and is directly contributing to the loss of valuable jobs in the economy. All race-based legislation should be scrapped in favor of merit-based appointments.	DeVille			
	2025-06-21 05:34:01	Yes I do	Broad-Based Black Economic Empowerment Framework	For the past thirty years reverse apartheid and favouritism have been given the opportunity to demonstrate what can be achieved. Much good but, sadly, also much bad - and much restriction of some latent potential. Any successful venture will benefit the country and create employment across the spectrum. The opportunities created by BEE have been abused by greed. Sadly, there are not enough 'good people' to set the moral and ethical business standards. In thirty years the population has more than doubled but the GDP has not. Any initiative to stimulate the economy, including the relaxation or removal of BEE, will be beneficial. We need a fair open playing field. Opportunities should be available to all. Let's put the spark back into our economy And let's not be blind to some favouritism to the Chinese that appears to be developing. How BEE compliant are their structures?	Richard	Gauteng		retired

	2025-06-21 00:27:26	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE should be viewed as an insult to every self-respecting black person. Someone with a great work ethic and a reasonable amount of talent, sprinkled with some common sense should be able to do well in the world, be it in business or the trades. Surely black people feel insulted being given jobs based on their colour rather than their intellect and drive? Just ask Herman Mashaba - he didn't need any BBBEE assistance. He just needed a R30,000 loan from a bank, which he was granted because he was intelligent, hard working and convincing. There's a man who would be insulted if you suggested his success came from a helping governmental hand!	Bruce	Western Cape		self-employed
	2025-06-21 00:23:03	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE has advantaged only the advantaged. The man in the street has seen no benefit	Cedric	Western Cape		business owner
	2025-06-21 00:20:41	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has only really benefitted a few, and has restricted economic growth, hence negatively affecting the majority. Time to let go.	David			
	2025-06-21 00:12:21	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE policies and procedures is largely responsible for the faltering South African economy both from external and internal investor perspective. The country has suffered from lack of international investment as well as national expansive investment due to this narrowly focused view on color privileged "free" ownership and interests. This should stop to promote a free and inviting business environment.	Tobias	Mpumalanga		retired
	2025-06-21 00:05:34	Yes I do	Broad-Based Black Economic Empowerment Framework	I think this initiative has failed because it has perpetuated apartheid. People have been put in positions based on their colour and not on their skills, experience, ability or intellect. It has set people up to fail precisely because they have been given tasks/jobs they are not able to do. It has been an insult to people because in essence they are being told you're only good for this job because of the colour of your skin, what an insult. This has resulted in a poor outcome; tasks/jobs are not done well and it results in frustration all round for all concerned. People need the right skills/training and then they need to learn on the job/job shadow & get some experience behind them. With regards to 30% ownership, no one should be required to give even 1% of their company to anyone, whatever their skin colour. The owner has worked hard to grow their business and it belongs to them, end of story. It also discourages foreign investment because who in their right mind is going to give away 30% of their company in order to do business in South Africa; they'll rather go some place else where they can retain 100% ownership and hirer the best people to take their company forward and make a profit; the company will be paying their dues in the form of corporate tax so the country they start a business in will benefit in many ways; employees will also pay tax, plus the employees will have money to spend, the company will provide new merchandise or services all of which will help the economy. So stop the 30% & BBBee.	Barbara	Western Cape		retired
	2025-06-20 23:56:48	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE is a structure designed to enrich the few select rich black South Africanss, using a framework that can be circumvented easily by those with money and power, at the expense of billions of rands in foreign investment and is an extremely detrimental policy to the growth of the economy and job opportunities for the average South African.	Ryan	Western Cape		business owner
	2025-06-20 23:56:41	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is only there to support the elite few and the not the people on the ground. 30% equity in a company that they do not add value to or will ever means it's all they want "the elite few" by allowing Starlink into SA with equity provided into schools and rural non connected areas will provide an environment of learning and education, this is the fear of our current government. Educating the rural areas of SA will change the status quo's. An educated pollution is an informed population. You can't pull the wool over their eyes and make false promises. This is the fear of Starlink.	Paul	Gauteng		self-employed
	2025-06-20 23:54:47	Yes I do	Broad-Based Black Economic Empowerment Framework	Scrap this stupid bill completely. It has only and completely destroyed a once 1st world country. It had done nothing for the poor. They are worse off than ever before, except for the parasites sitting in government positions. We have no growth in SA. We need Starlink ASAP.	MP

	2025-06-20 22:56:57	Yes I do	Broad-Based Black Economic Empowerment Framework	While I believe in giving opportunities and allowing for equity in our country, the BBBEE requirements are chasing many people and investment out of the country, making many young tax payers look for opportunities internationally as there is no economic space in the country where their skills and entrepreneurship is welcomed. I love my country and the multicultural atmosphere, but sometimes I don't feel welcome here anymore due to these policies.	Maché	Gauteng		employed individual
	2025-06-20 22:56:54	Yes I do	Broad-Based Black Economic Empowerment Framework		Joan	Mpumalanga		retired
	2025-06-20 22:56:19	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has enriched some elites, but it has never reached lower levels of the economy and is inherently racist. Majority rule does not mean handing over the economy and companies to people whohave never developed the business. By removing or reducing the BBBEE requirements , 5-10% of the proposed company's workforce, a greater effect will be realised. In this scenario, the larger the company, the greater the economic empowerment.	Derek	KwaZulu -Natal		
	2025-06-20 22:54:49	Yes I do	Broad-Based Black Economic Empowerment Framework	Since 1994 BBEEF was a Unconstitutional practice directed to empower the support of the ANC, the card they played. Everyone worldwide looked at the Apartheid approach a practice implemented by the British regime of Europeans and Non-Europeans, and blamed it on the White (European) South African people. Being a 13th generation White South African, with solid Black (South African) relationships we were deprived of Equal Opportunity development. Thus Industry followed the flavour of the day and discarded white people for development, totally ignoring competency and capability. This resulted in people with proven assessed intellect and development potential to be overseen for development, to the detriment of the South African Industry. That is the reason why the wheels are coming apart after 31-32 years.	Willem	Western Cape		employed individual
	2025-06-20 22:52:32	Yes I do	Broad-Based Black Economic Empowerment Framework	By now, I think many people are very well aware that BBBEE has enriched only a very few of the elite and political connected. Previously disadvantage folk remain disadvantaged (low growth, high unemployment etc.). The president spoke recently about people owning the "means of production" (one could ask what "means" and what "production", but, good old Karl Marx terminology). How many workers have been given any chance to participate in owning any shares in any companies, and how many shares have been given to a very small group of insiders? If BBBEE was in any way honest, genuinely disadvantaged people would be given a share instead of political connected folk being given board appointments. Yet another ANC lie. Scrap it and grow the country instead of the already rich, endlessly greedy oligarchs.	Peta	Gauteng		self-employed

	2025-06-20 22:21:00	Yes I do	Broad-Based Black Economic Empowerment Framework	A lot of white skilled people, especially young graduates are leaving the country because only a few can get a job in SA. The job market must be equal and must be for who ever is suitable for a job instead of going according to skin colour.	Ansie	Gauteng		employed individual
	2025-06-20 22:20:31	Yes I do	Broad-Based Black Economic Empowerment Framework	Quite frankly BEE is dead. Every corporate I go to there are no white people to be seen unless they older than 40. BEE has done it's job already - killed off the white man. What is more, incompetent people are being promoted to managerial positions and it shows! Another problem is the arguments around how many persons of a certain racial group there should be. How embarrassing to see racial classification and discrimination 31 years after the end of Apartheid. The new BEEEE requirements will drive business out of South Africa for sure. No one with the capital is going to allow a Racist and Socialist political elite like the ANC to tell them who they should do business with, give them 30% of their business just like that and then still contribute to a 100 billion rand Black Business fund. Finally, the underlying issue? The ANC has not managed to get one competing black owned company to go up against the current companies. If they had, BEE would have been long gone because it would not be needed.	Leon	Western Cape		self-employed

	2025-06-20 22:19:59	Yes I do	Broad-Based Black Economic Empowerment Framework	South Africa is one of the very few countries in the world to entrench legal rights for the demographic majority to the disadvantage of the minorities. A kind or reverse apartheid, if you wish. I don't support BBBEE. I support a merit-based approach and the free market system. Assuming there was ever a good reason to have BBBEE in place to address past wrongs, it should have yielded the necessary benefits and consequences by now. If not, then consider it a colossal failure. Is the ANC to small-minded to own up, admit is a failure, and let economics be the driving force? Starlink can bring the internet to those communities that can not be connected with using more traditional fibre methods. It is also proven to work well in emergency or when there are natural and man-made disasters. Why would any well-intentioned government deny any service provider access to a market, purely for ideological reasons. The ANC has proven time and time again that there is purpose is to create friction in the market and disincentive entrepreneurs. Why learn your lessons at the feet of CHINA, when SINGAPORE has been the better teacher?	Llewellyn	Gauteng		self-employed
	2025-06-20 22:19:48	Yes I do	Broad-Based Black Economic Empowerment Framework	Starlink will open confidence and re-ignite investment sought desperately as even with the BBBEE policies the unemployment touches 50%. Forward thinking, encouraging the youth is required.	Linda	Gauteng		self-employed
	2025-06-20 22:19:48	Yes I do	Broad-Based Black Economic Empowerment Framework	Starlink will open confidence and re-ignite investment sought desperately as even with the BBBEE policies the unemployment touches 50%. Forward thinking, encouraging the youth is required.	Linda	Gauteng		self-employed
	2025-06-20 22:19:46	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE is limiting economic growth. It achieved what it was designed to do and now its time for it to go.	Trevor	Eastern Cape		self-employed
	2025-06-20 22:15:31	Yes I do	Broad-Based Black Economic Empowerment Framework	To me it sounds as if allowing this to law to go through, more South Africans will have to chance to access knowledge and information they may need to learn and grow and flourish. South Africa can and should be a country of flourishing africans. All the colours.	JF	Outside SA	Italy	self-employed
	2025-06-20 22:14:53	Yes I do	Broad-Based Black Economic Empowerment Framework	Black economic empowerment excludes any other global expertise to the detriment of the country	Jennifer-Lee	Eastern Cape		self-employed
	2025-06-20 22:13:26	Yes I do	Broad-Based Black Economic Empowerment Framework	My top concern is that when you put strict guidelines of employment in place, you ultimately leave a chance of sub optimal performance open in that sector, as it cannot be guaranteed that the best candidate for the role was indeed employed.	Jacques			employed individual
	2025-06-20 22:11:59	Yes I do	Broad-Based Black Economic Empowerment Framework	This isn't fair to anyone, for Bee members they just sit and expect but do nothing while other races must hand out. Can't shoot tax payers in foot to accommodate historical stuff. This is inequality. Its completely racist. Everyone has been milked dry enough by the government.	Wari	Gauteng		employed individual
	2025-06-20 22:11:15	Yes I do	Broad-Based Black Economic Empowerment Framework	Giving BBBEE exemptions to overseas foreign companies and investors is the start to improving our economy. Improving our economy will directly and indirectly improve the lives of the masses and those facing historic disadvantage. Bringing Starlink to this nation will benefit and serve the people of South Africa. Let's bring back policies that support the free market system and see our nation and its people rise up. Leaders, I urge you to consider your legacy.	Sarah	Western Cape		employed individual
	2025-06-20 22:10:22	Yes I do	Broad-Based Black Economic Empowerment Framework	This BBBEE is absolutely ridiculous. The people benefitting are from the ANC and it cadres. It should be abolish as it is inclusive for blacks only. Jobs should be given to those that are competent for the role regardless of colour. So many companies are holding back or have folded because of this regulations. International companies are compelled to take on staff who are incompetent and as a result services are being compromised as those who are employed lack the skills because of this BBBEE. This should not be an entitlement at all. Starlink must not relinquish 30 percent as it will be	Jayne	Gauteng		retired
	2025-06-20 22:09:25	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is holding back investment in RSA, ruining our economy and increasing unemployment	Wendy	Western Cape		retired
	2025-06-20 22:09:15	Yes I do	Broad-Based Black Economic Empowerment Framework	It is time to remove the block on economic expansion and freemarket activity and investment that the long standing BBBEE has become in the last decades and bring the economy back to what it used to be to create job opportunities for one and all, rather than enrich a few selected individuals and disadvantage those very many that yearly need the jobs to support themselves and their extended families.	Helge	Gauteng		business owner

	2025-06-20 21:33:56	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has not benefitted the country or individuals. People should be employed because they have the necessary skills needed - this causes you to take pride in what you do and to work to the best of your ability. How can people getting "handouts" feel good about their accomplishments?	Jean	Gauteng		retired
	2025-06-20 21:32:33	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE should be scrapped completely. Cost the country trillions and only a few cadres benefit from it	Riana			self-employed
	2025-06-20 21:29:17	Yes I do	Broad-Based Black Economic Empowerment Framework	I support the proposed amendment to remove BBBEE ownership requirements for ECNS and ECS licences. From an economic standpoint, the current 30% ownership threshold has become a significant barrier to foreign direct investment, particularly in high-growth, high-tech sectors like telecommunications. By deterring global players such as Starlink, we are delaying infrastructure rollout, stifling competition, and missing out on job creation and downstream innovation that affordable, high-speed internet access would unlock. South Africa urgently needs inclusive economic growth, not rigid policy frameworks that restrict market entry and reduce investor confidence. Modern economies thrive on connectivity. Broadband is not a luxury. It is a foundational enabler of productivity, education, healthcare, and entrepreneurship. Starlink and similar providers have the potential to bridge the digital divide, especially in rural areas where the state and legacy providers have consistently under-delivered. Removing the ownership requirement in this sector is not a rejection of empowerment. It is a strategic pivot toward broader economic participation, where more South Africans benefit from access to opportunity, not just equity on paper. I urge the Minister to pass this policy direction and to lead a wider reform agenda that prioritises outcomes over outdated compliance metrics. Empowerment should come through growth, not gatekeeping.	Elize	Western Cape		employed individual

	2025-06-20 20:24:31	Yes I do	Broad-Based Black Economic Empowerment Framework	The current BBEEE framework appears is enriching a few individuals, some controls are needed so it becomes more broadly effective. An idea is each previously disadvantaged person can belong to one board or employed position that contributes to BEE points. The next board etc it does not count. They can use their points once. This allows other previously disadvantaged people to have an opportunity. It needs thought and consideration for the broader population.	George	Western Cape		business owner

	2025-06-20 19:10:20	Yes I do	Broad-Based Black Economic Empowerment Framework	As an engineer with over 40 years of experience in radio and data communication, I wish to raise serious concern over the current regulatory requirement that foreign satellite communication providers must cede 30% of their intellectual property or ownership to a previously disadvantaged South African partner to operate in our country. While I support meaningful transformation and empowerment, this approach is unrealistic and counterproductive in the context of highly advanced satellite infrastructure—especially one of global scale and cost. A network such as Starlink's represents a multi-billion-dollar technological ecosystem, and expecting any local party to purchase a 30% stake is simply not viable. However, if such a provider is willing to invest unconditionally in South Africa by donating equipment and offering free, indefinite satellite internet access to over 5,000 rural black schools, this should be recognised as a far greater and more effective contribution to empowerment and national development than a symbolic equity stake. This technology has the potential to transform connectivity in rural and underserved areas, where traditional networks have failed to reach. Reliable data access will enable economic participation for, tourism operations, mines, remote clinics, schools, and small businesses to mention but a few, unlocking untapped productivity and improving the lives of millions. The long-term national benefit of this infrastructure cannot be overstated. Preventing the deployment of such a solution due to rigid ownership criteria would be a missed opportunity a lose-lose outcome for the country. I respectfully urge your department to reconsider this policy and assess the broader value that such an international investment brings, especially in the upliftment of historically disadvantaged communities and wealth contribution to all people living in our country and inevitably raised tax contribution. We need forward-thinking leaders such as yourself to win	Jan	Mpumal anga		business owner
	2025-06-20 19:09:37	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has successfully impoverished our country as it has benefitted only a few . We need to appoint people in all enterprises, on merit, not on cadre connections or skin colour. This will lead to delivery of goals and achievement and economic growth which SA needs desperately.	Gail	KwaZulu -Natal		retired
	2025-06-20 19:09:26	Yes I do	Broad-Based Black Economic Empowerment Framework	It is clear that BBBEE kill our country's economy	Elizabeth	Gauteng		self-employed
	2025-06-20 19:07:54	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has not helped this country economically. It has limited overseas investors and like Elon Musk they have not come to SA with their products or invested in SA.if foreign investors or our economy grows there will be more employment, we as a country will be able to pay our debts and get out of bankruptcy. It is shortsighted to force companies to have BBBEE, once companies are thriving, the black previously disadvantaged people will get jobs and adequate training in these companies. It’s not about the colour of our skin that is important, it is the economy and the road forward.	Rosemary			employed individual
	2025-06-20 19:07:53	Yes I do	Broad-Based Black Economic Empowerment Framework	BBEEE is clearly the cause of the collapse of the South African economy. Mostly the poorest among our people, the very ones intended to benefit from this idea have suffered the most because of greed and selfishness of those cadres appointments into positions of authority who have no conscience about stealing that which was intended for the upliftment of the people wallowing in poverty. The whole system is rotten to the core. Extinguish this madness as well as entire government at the same time.	Richard	Gauteng		business owner

	2025-06-20 19:05:40	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is crippling our country. An astute person will see that it does not benefit any demographic sector in the final analysis. It is already too late to reverse much of the damage.	Kim			
	2025-06-20 19:05:29	Yes I do	Broad-Based Black Economic Empowerment Framework	The scrapping of BEE is the answer to our economic woes.	Johann	Western Cape		self-employed
	2025-06-20 19:03:39	Yes I do	Broad-Based Black Economic Empowerment Framework	SA has long passed the need for BBEEE. It never achieved what it was intended for and has now just become another means of enriching the privileged and instead holds back the economy, and again disadvantages the poor and unemployed. BBBEE is now a political tool. It seems criminal to deny the poorest rural population access to the internet which could bring opportunities to them.	Claire	Gauteng		retired
	2025-06-20 19:02:57	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has proved to be a curse on this country. Maybe it started with good intentions but the unintended consequences have been totally disastrous. The country after 30 years of this is in ruins.	Lyn	Gauteng		retired
	2025-06-20 19:01:27	Yes I do	Broad-Based Black Economic Empowerment Framework	I believe that BBBEE policies have not helped ordinary South Africans and neither has it provided jobs to its people. even graduates with the result that we have very low economic growth which encourages people to do crime to make ends meet and put food on the table for their families.	Sybil	Western Cape		retired
	2025-06-20 19:00:50	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has not served the people at all : it has made a few very wealthy instead. It has completely destroyed international investment. There is nothing democratic about BBBEE.	Carol	Gauteng		retired
	2025-06-20 18:59:27	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is not achieving its goal, it is crippling our economy and hampers job creation. It has become a vehicle for the rich to become richer, while it does nothing to alleviate poverty. A different policy direction is urgently needed!	Jeanne	Western Cape		retired
	2025-06-20 18:59:22	Yes I do	Broad-Based Black Economic Empowerment Framework	Time for the BBBEEE system to change. Clearly not beneficial to RSA to move forward economically. Not uplifting the majority of people out there only a small percentile benefitting. Need a system that is uplifting for all the people as a whole and a system that makes RSA economically stable and growing.	Carlo	Western Cape		self-employed
	2025-06-20 18:58:21	Yes I do	Broad-Based Black Economic Empowerment Framework	Please do away with this B-BBEEEE nonsense. B-BBEE no longer serves its original purpose of empowering the truly disadvantaged. Instead, it benefits a small, well-connected black elite. Opportunities such as employment and tenders should be awarded on the basis of merit. The most qualified and capable individual should be given the chance to deliver their best — and be held accountable if they fall short.	Michael	Eastern Cape		retired

	2025-06-20 18:42:08	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is detrimental to the economy. It has failed and should be discarded, or we are going to spiral into ruin. If the ANC supported BEE with a strong education system with high standards that produced top notch university candidates, who could in turn be shaped into world class professionals then BEE would not have failed, it would even be supported by everyone, not just one segment of the population. But BECAUSE they destroyed the education system, all the way from primary to post graduate level, we are now in the position where they are trying to legislate unsuitable candidates into positions they may be "qualified" for, technically, but once hired they are incapable of being productive members of the team. Our economy is limping. We need the most CAPABLE people doing the work NOW while we can still turn it around. Scrap BEE, get out of our way with your red tape and suffocating regulations and watch how the small businesses and entrepreneurship you forced us into start popping jobs up like mushrooms. Alternatively, you can watch your skilled workers fly out of this hell hole and leave you with only the poverty-stricken masses and sub-par graduates you created.	S	Gauteng		business owner
	2025-06-20 18:41:46	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE should not be a feature in a Democracy. Cancel it as a whole.	Daniel			business owner
	2025-06-20 18:41:27	Yes I do	Broad-Based Black Economic Empowerment Framework	I still cannot believe that this ANC does not feel ashamed and embarrassed to push BBBEEE. It is nothing more than theft. ANC- get a life and get your people to create their own business instead of stealing from other's that you feel owe you something. The world is watching and laughing at your ideals.	michael	KwaZulu -Natal		retired
	2025-06-20 18:40:44	Yes I do	Broad-Based Black Economic Empowerment Framework	Why does the majority = unwashed masses - get frightened off by the Indian Colored and white MINORITY GROUPS and with begging bowl culture - greedily take anything Free - Somebody always pays for the lazy cadres - ENOUGH - Elon would be doing more for the poor people of our land than the ANC have done in the past 3 decades!! 	2025-06-20 18:37:15	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEEE is discrimination. People should get jobs based on merit and not the colour of their skin. The South African economy is suffering because we are not giving jobs to those who can do it best but just by filling a race quota. The people are suffering due to a poor economy and high unemployment rate. Our public services are a joke because most of the people who hold government/municipal jobs are only there because of their skin colour, and they do not do what they need to do. Stop discriminating against other races because their skin colour is not dark enough, and let's give the jobs to the people who deserve it most and will help strengthen and serve our country.	Petrus	KwaZulu -Natal		employed individual
	2025-06-20 18:37:09	Yes I do	Broad-Based Black Economic Empowerment Framework	I think BBE has not fulfilled is objective. It has only served to make a few black and previously disadvantaged people wealthier while the majority still suffer in poverty. I also believe that other previously disadvantaged groups, such as Indians and mixed races, did not gain from this policy as it centered more on black people. Non the less, I think economic factors needed to be considered in an economic perspective. Race and ethnicity should not be a considered especially now since we have passed 30 years of democracy.	Abdool	KwaZulu -Natal		self-employed

	2025-06-20 17:54:35	Yes I do	Broad-Based Black Economic Empowerment Framework	The South African regulatory framework especially concerning black economic empowerment is too rigid to attract investment in our economy which we desperately need to address high unemployment and lack of economic growth. The cake is shrinking and there is no evidence that the situation can be turned around anytime soon. This BEE is a ploy by the political elite to stay in power because they know that as long as they are corrupt, incompetent and mismanaging the economy they are guaranteed political power. Remember they tell us about the so-called Zuma's ten wasted years though they were part of that also. These mafias who are holding certain sectors of our economy at ransom the majority are BBE wannabes because they feel entitled. Forcing those regulations is detrimental to our economic growth.	Matete	North West		unemployed individual
	2025-06-20 17:54:28	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE in its various forms enriches elite, connected, individuals rather than the broader disadvantaged population. 	2025-06-20 17:13:14	Yes I do	Broad-Based Black Economic Empowerment Framework	here so much corruption from the top down , this is not sustainable for us as a country. Unemployment stands at a record high . BBBEE does not work it is evident . Accountability is the solution all round for those who are robbing our country blind to those who on merit should be employed irrespective of colour!!! Wake up SA our ship is sinking.....	Michael	KwaZulu -Natal		employed individual
	2025-06-20 17:13:09	Yes I do	Broad-Based Black Economic Empowerment Framework	The implementation of the policies espoused in the BBE framework proved not only to be a disaster but a definite catastrophe . Any new framework implementation that promotes the economy of our beloved country must of necessity be fully supported.	Mike	KwaZulu -Natal		retired
	2025-06-20 17:12:59	Yes I do	Broad-Based Black Economic Empowerment Framework	Any rational person can look at the poor annual growth of SA's GDP, the high number of unemployed, especially under 35s, over-regulation of all business (as noted by World Bank), and the poor record we have in generating new businesses, when compared to our peer nations, and then ask why we are one of the poorest performing nations? BEE has been very good to a minority of black business and politically-connected people, including our President, his relatives. It has NOT been demonstrably good to the lower income groups. Of course, there are other factors at play, including public and private sector corruption, a poor education system and inequities inherited from the apartheid regime. However the ANC has been in power for a whole generation now, so the blaming the last point is getting somewhat threadbare. This new direction proposal from ICASA could be a very good way forward, to test alternative approaches to dealing with historic inequities.	Anthony	KwaZulu -Natal		retired

	2025-06-20 17:04:47	Yes I do	Broad-Based Black Economic Empowerment Framework	BBB-EE is not working and has not worked. More should be done to improve schools and make it a safe environment for children & youths to learn - allowing this policy change will help to achieve this and rural schools will be able to have access to the internet and the learning opportunities it brings with it. Do your part to make South Africa great again.	Shannon	Gauteng		employed individual

	2025-06-20 17:04:26	Yes I do	Broad-Based Black Economic Empowerment Framework	I wish to record my support for the proposed draft amendments to the Broad-Based Black Economic Empowerment (BBBEE) framework. In my view, the current implementation of BBBEE has not yielded the broad-based, inclusive economic transformation originally envisioned. Rather, it has too often benefitted a narrow, politically connected elite while leaving the vast majority of historically disadvantaged South Africans economically marginalised. Economic empowerment policies should be designed to uplift and create opportunities for the broader population — particularly in township economies, rural communities, and small and medium-sized enterprises — rather than focusing on ownership structures in large corporates that result in limited, concentrated benefits. The proposed amendments appear to be a step in the right direction, aiming to address inefficiencies and unintended consequences in the existing system. I am particularly in favour of any revisions that promote genuine skills development, entrepreneurial support, and sustainable job creation over mere compliance exercises. It is important that future empowerment frameworks focus on outcomes that have tangible socio-economic impact for the majority of citizens, rather than perpetuating a system that inadvertently consolidates economic benefit in the hands of a few. I therefore welcome the draft amendments and encourage further reforms that will prioritise practical, broad-based, and inclusive economic growth for all South Africans. 	2025-06-20 16:59:40	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is doing damage and limiting investment. Rather give focus to education and upliftment schemes instead of focusing on skin colour. Seriously, if you are trying to protect majority from a small minority then it clearly indicates a problem!! If companies are incentivized to have BBEEE candidates and yet transformation is slow, you have to ask why!? It is because people have not yet been equipped properly! BBBEE is chasing away skills and resources our country badly needs! Rather use those skills and resources to uplift and empower previously disadvantaged people by giving them an education and in turn being able to equip others and be able to carry out jobs because of skills developed, and not put in positions because they are a certain colour. There are a handful of individuals milking the system, whilst the rest of the poor disadvantaged people remain uneducated and become poorer. Our country have so many natural resources, yet still live in poverty.... something has to change	D	Western Cape		
	2025-06-20 16:59:28	Yes I do	Broad-Based Black Economic Empowerment Framework	The BBBEEEEEE companies is useless, they only abuse the the money that they get but produce nothing and contribute nothing. 	2025-06-20 16:53:50	Yes I do	Broad-Based Black Economic Empowerment Framework	Starlink will assist greatly with a improving education of prev disadvantaged people in rural areas. It is a no brainer so lets do it ffs	Justin			employed individual
	2025-06-20 16:53:20	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has not worked for the past 30 years. Why continue along this path if the evidence is clear that it is not benefitting anyone, except a few elite politicians and those linked to them? It also scares off investments, especially from those abroad, as was/is the case with Musk. To grow the economy and benefit the whole of South Africa, BBBEE legislation should be scrapped in its entirety. Give each one equal opportunities so that everyone can equally participate in the economy. This should have a positive effect on the economic growth and unemployment rate.	Tertius	Western Cape		self-employed
	2025-06-20 16:53:19	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE is a huge drain on the economy, destroying businesses and jobs. It drains the public sector, resulting in a rent seeking class that only enriches the political elites. It harms the poorest people because they don't get the services that they should because the public sector is wasting such insane amounts of money on BEE. BEE is a terrible policy that has done more harm to poor people in South Africa than anything else in the last 30 years.	Martin			
	2025-06-20 16:52:32	Yes I do	Broad-Based Black Economic Empowerment Framework	Do not agree with the ownership, a company belongs to who founded it and it's stature holders. 	2025-06-20 16:21:11	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has NOT grown the SA economy. It has NOT created more jobs. BBBEE has enriched tenderpreneurs and incompetent politically connected individuals who are pilfering the SOE's and Private companies they were given a stake in.	Cas	Gauteng		employed individual
	2025-06-20 16:21:03	Yes I do	Broad-Based Black Economic Empowerment Framework	What about the rural school children that do not have access to the internet. How are they to get an education that is in line with education offered in the cities? Let’s stop the gravy train that make a few extremely rich while rest do not receive any benefit. Allow an infrastructure that will enable the CURRENT disadvantaged a decent education and a chance to better their lives & those of their families.	Richard	Gauteng		
	2025-06-20 16:20:52	Yes I do	Broad-Based Black Economic Empowerment Framework		Walter	Gauteng		retired
	2025-06-20 16:20:44	Yes I do	Broad-Based Black Economic Empowerment Framework	Many hard working, highly qualified individuals have suffered greatly because of BBBEE. Our younger generations have no real hope to pursue their studies or aspirations because the opportunities in South Africa are so limited by outdated restrictions. Let true equity and equal opportunities for ALL South Africans reign again. We are a rainbow nation after all, it's high time the law stops advantaging only one small group of people.	Daleen	Eastern Cape		self-employed

	2025-06-20 16:20:26	Yes I do	Broad-Based Black Economic Empowerment Framework	Please consider the removal of B-BBEE requirements across all sectors of the South African economy. While originally introduced to redress historical injustices, B-BBEE in its current form is constraining economic growth, deterring investment, distorting competition, and failing to deliver broad-based inclusion. Reasons: 1. Limited Impact: After more than two decades, B-BBEE has largely benefited a small elite, while the majority remain economically marginalised. 2. Investment Deterrent: Complex compliance burdens have discouraged both local and international investment, particularly in high-skill, high-capital sectors. 3. Weakening of Meritocracy: B-BBEE has incentivised superficial compliance over genuine skills development and innovation, leading to inefficiencies in hiring and procurement. 4. Constitutional and Social Strain: Ongoing race-based policies may undermine constitutional principles of non-racialism and deepen social divisions. 5. Need for Inclusive Growth: Real empowerment depends on universal access to education, infrastructure, opportunity, and capital, not racial quotas. Recommendations: 1. Implement a Sunset Clause: Phase out B-BBEE over 5–10 years, allowing time for a responsible transition. 2. Adopt a Needs-Based Approach: Replace race-based scorecards with a development index focused on socio-economic need, skills, and regional upliftment. 3. Promote True Inclusion: Prioritise reforms that enable all South Africans to participate in the economy,especially through education, entrepreneurship support, and digital access. 4. Foster National Dialogue: Establish a cross-sector platform to co-create a future-fit, inclusive growth policy aligned with constitutional values and global competitiveness. South Africa must move beyond outdated empowerment models toward policies that unlock opportunity for all. Reforming B-BBEE is not a rejection of transformation, but a vital step toward a more united, capable, and prosperous nation.	Jenine	Gauteng		employed individual

	2025-06-20 16:04:45	Yes I do	Broad-Based Black Economic Empowerment Framework	Why an altered BEEE policy for the Independent Comm Authority ONLY? BEEE should be scrapped from all business/establishments in SA, not just altered for one. It only benefits about 100 Political connected elite, an absolute disgrace. It has never served its purpose of uplifting the disadvantaged and NEVER will. All it has achieved is to unfairly enrich a few connected elite, and actually Prevent any growth in our dismal economy, and leave the real disadvantaged people even more disadvantaged. The poor in SA are getting poorer, the enriched few from this BEEE policy did not work for this free money, some have no tertiary education, or even understand bussiness or econmics. It is time people get jobs on merit and willingness to WORK, enrich themselves and not steal and just rely on being a 'connected ' Black (disadvantaged)person in SA to get rich., BEEE has done enough damage to our beautiful country and people (expect for the very few 'connected' ones that are getting millions for doing absolutely nothing!). Our children desperatley needs to be education, to at least read and write -properly, and if Stalrink can help some of them to do it themselves through the internet., as our schools are failing dismally to provide any decent education for the desperate uneducated children in SA, then it is a no brainer to start with Starlink being exempted from BEEE to get 'affordable' and reliable internet to ALL South Africans , but it will not solve the BEEE rot in other businesses in SA. But maybe is is a start to once and for all GET RID OF THIS DISTRUCTIVE, UNFAIR, CORRUPT BEEE IN SOUTH AFRICA !	Louse	Eastern Cape		self-employed

	2025-06-20 16:01:25	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE is done and should be phased out. The man in the street has not benefited by it. There has been no job creation. Investigate the 100 millionaires who have benefited by it,	Ann			
	2025-06-20 16:00:33	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE doesn't benefit the South African economy. It is an obstacle. It benefits the black elite and that's all.	Wendy	Western Cape		business owner
	2025-06-20 16:00:17	Yes I do	Broad-Based Black Economic Empowerment Framework	It is a known fact that BBBEE has only enriched a marginal few and has done nothing for the average black person in the street. All it does is take wealth away from one group and give it to another, it does not create jobs. In order to solve unemployment the economy needs to grow by at least 4% per year and to do that we need foreign investment and BBBEE is preventing that. It is time to get rid of BBBEE and come up with a strategy that will grow the economy, create jobs so that the average Black person and not the elite can benefit.	Brian	Gauteng		retired
	2025-06-20 16:00:07	Yes I do	Broad-Based Black Economic Empowerment Framework	The current policy requiring 30% giveaway is discouraging local and international investment entering the SA economy thereby hindering employment opportunities, GDP growth and the entrepreneurial spirit. There must be an end to BBBEE and a need to encourage the informal sector to properly participate in our economy.	Anthony	KwaZulu-Natal		retired
	2025-06-20 16:00:00	Yes I do	Broad-Based Black Economic Empowerment Framework	People should be empowered on merit of hard work and Christian values like integrity not race.	Charmanzi			unemployed individual
	2025-06-20 15:59:41	Yes I do	Broad-Based Black Economic Empowerment Framework	Lets move forward now in the best interest of all South Africans. 30 Years have passed, and we need to review this law in the interest of our economical growth.	Yvonne	KwaZulu-Natal		business owner
	2025-06-20 15:58:15	Yes I do	Broad-Based Black Economic Empowerment Framework	If South African didn't have its strict BBBEE conditions a large number of international companies would invest in our country thereby creating numerous jobs which would contribute far more to the previously disadvantaged than the BBBEE policy does.	Richard	KwaZulu-Natal		
	2025-06-20 15:57:39	Yes I do	Broad-Based Black Economic Empowerment Framework	BEEE is benefiting only a few who became ultrarich through this scheme in SA. Even the majority of black SA citizens are not benefiting from this, but in actuality it is causing less work, so more joblessness.	Sanette	Gauteng		retired

	2025-06-20 15:56:23	Yes I do	Broad-Based Black Economic Empowerment Framework	Given the elapsed time that has been allowed for the Previously disadvantaged to accure appropriate positions and opportunities to further better themselves i feel it is time to now remove the limitations imposed on the citizens of this fine coultry, and allow for total freedom to grow this country out of its ecomomic degradation that has come to bear heavily on the population, and alow it to grow uniformly to its highest and greatest good, enabeling equal access to internet connection for one and all..	Stuart			
	2025-06-20 15:55:08	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has cost South Africa millions if not billions in revenue whether through international investments or local investments. BBBEE has killed South Africa and only the ANC cadres benefited from it and not the people who was supposed to benefit from it.	Jan	Mpumalanga		employed individual
	2025-06-20 15:54:58	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE and BBBEE have done nothing other than enrich a few politically connected individuals. It is a scam that should immediately be cancelled. There are numerous other methods to uplift the broader population. Chasing away foreign investment in RSA by enforcing idiotic policies like BEE and BBBEE is a sure method to force the entire nation into poverty which is why RSA has a negligible growth rate. The fact is that BEE and BBBEE are going to result in civil war and when this happens all the enriched cadres will have their swiss and forign bank accounts to live off. Stop this BEE and BBBEE immediately.	Warren			business owner
	2025-06-20 15:53:30	Yes I do	Broad-Based Black Economic Empowerment Framework	BBB-EE has and still is destroying jobs and holding back job creation. This racist policy must end now if this country is to survive.	Denis	Mpumalanga		business owner
	2025-06-20 15:53:17	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has not worked. It has enriched very few and unfortunately the majority live in desperate poverty. BBBEEE has stopped investment in SA. It appears that the ANC is not concerned about the lack of economic growth and the factors contributing to the unsustainable unemployment rate.	Glynn	Eastern Cape		employed individual

	2025-06-20 15:20:01	Yes I do	Broad-Based Black Economic Empowerment Framework	Broad-Based Black Economic Empowerment racially discriminates against minorities. The government pretends to defend the constitution, which seeks for South Africa to be a non-racial society yet it continues to add more racially divisive acts and regulations and President Ramaphosa wishes to double down on more ill conceived transformation. Ironically, B-BBEE has not achieved the desired outcome; least of all for the masses of previously disadvantaged individuals. In fact, it has driven the majority of citizens into deeper poverty, joblessness and losing their dignity to earn a living. South Africa boasts more grant recipients than tax payers. This is unsustainable and not something to be proud of. The only exception are politicians and a politically connected elite that benefitted from B-BBEE beyond belief. For the benefit of helping poor people we need to completely rid ourselves of B-BBEE and out-of-control bureaucracy in order to become a destination for foreign direct investment and save the country from total economic collapse. 	2025-06-20 15:14:50	Yes I do	Broad-Based Black Economic Empowerment Framework	This Starlink letter addresses some of the concerns including BBB-EE. Yes there are allowances made for foreign companies to operate here with alternative ways of not having to give up company equity under BBB-EE but we need more relaxed policies that doesn't force "transformation" on a crippling nation (I understand that the concern is not to debate whether BBB-EE works or not but the fact that Starlink cannot operate in SA under the current policies is already an example of it NOT working). I personally think they should accommodate Starlink's request to operate in SA without the 30% local ownership being applied on them. Our country needs the business and the investments that it brings, not more political (or politically tied) elites who can hop in and just grab equity which they didn't work for - under the guise of "benefitting previously disadvantaged people". I'm hoping for more "relaxed" policies regarding BBB-EE to come (and rooting for its complete abolishment).	Dandre	Gauteng		employed individual

	2025-06-20 15:05:04	Yes I do	Broad-Based Black Economic Empowerment Framework	Na meer as 30jaar dat BEE in werking is in Suid-Afrika, kan dit glad nie meer geregverdig word nie. Alle mense in die land het reeds dertig jaar terug gelyke geleenthede gehad en BEE dien glad nie die doel waarvoor dit aanvanklik geskep is nie. BEE bevoordeel swart mense en diskrimineer teen ander bevolkingsgroepe. Dit belemmer ook vooruitgang in die land. Jong mense verlaat die land omdat daar teen hulself en teen hul besighede gediskrimineer word - net omdat hulle nie swart is nie. Dit is onaanvaarbaar !!! Ons verloor kundigheid in die land en BEE ontmoedig jongmense om hul eie besigheid in Suid Afrika te begin - hul begin eerder 'n besigheid oorsee waar hulle self kan besluit wie kan deel in hul winste. Jongmense in ander werksplekke as hul eie, word ook ontmoedig omdat hulle sien hoe swartmense bevorder word net omdat hulle swart is. Hulle emigreer eerder na 'n ander land waar hulle op meriete bevorder en hanteer sal word.	Coenraad	Gauteng		retired

	2025-06-20 15:03:26	Yes I do	Broad-Based Black Economic Empowerment Framework	This form of policy has not yielded what the policy application has intended, nor is currently doing. Instead it has enriched few politically connected individuals. If I was to mention names this space would not be enough. But to mention one person who has benefited immensely from this policy is President Ramaphosa. That's is why he becomes emotional every time this policy is mentioned negatively. The government cannot impose a law/policy that benefits few of the citizens on us and conveniently explain its shortcomings by posing a rhetoric question (IS IT WRONG FOR BLACK PEOPLE TO GET RICH) The question is who are those and how many are they. And most importantly how do they get rich. I submit.	Pablo	Gauteng		employed individual
	2025-06-20 15:02:12	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE empowerment has destroyed SA and has simply enabled systemic corruption and state capture. Only a small number of connected cadres benefit from this disastrous policy, and the poor remains poor and dependent on the state/taxpayer. Recent research exposed the extent of the damage caused by it, and in particular preferential procurement. The most important driver of value creation is Human Capital, which by the way is also the scarcest resource, especially in South Africa. And yet, the ANC has chosen, through BBBEE, to severely limit the participation of extremely talented individuals and race groups in the SA economy. This type of government interference limits economic growth and only morons and thieves fail to recognize the destruction this is causing. What rational investor will be prepared to invest in SA, especially if they have to part with 30% of the investment. laughable is it not. Clearly this government and it's cohorts do not have any ability to understand the numbers. Good luck!!!	merwe	Western Cape		retired

	2025-06-20 15:00:50	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBBBEEEEEE must be removed completely for EVERYONE (NOT ONLY STARLINK) AND EVERY EMPLOYER NO MATTER WHAT THE SIZE OF THE COMPANY can employ who is the most skilled and not because of being FORCED to employ certain people. This ruling has brought SA to its knees with people leaving the Country in droves because they cannot get a job in SA. ALL skill sets have been lost to other Countries because of this ruling. It is time, we as South Africans stand TOGETHER and not be oppressed by the current Government (ANC). SA will flourish and Skills may return to SA by getting rid of this ruling that has NOT worked in any way whatsoever. BRING BACK TRADE SCHOOLS that the Youth can start getting jobs and not sitting at home doing nothing or horribly, getting into drugs.	Tracy Caron	Western Cape		unemployed individual
	2025-06-20 15:00:31	Yes I do	Broad-Based Black Economic Empowerment Framework	Hopefully, if BBBEE is scrapped, South Africa will see more foreign investment which would mean more jobs and therefore less poverty and less crime.	Marcelle	Western Cape		retired
	2025-06-20 15:00:23	Yes I do	Broad-Based Black Economic Empowerment Framework	Leaving aside the personal opinion about Elon Musk, (liked/ not liked) the important question is to look further the personal perspective and look beyond. The fact that it will enable people from remote areas access to the digital world, is a clear advantage for all concerned. If Starlink provides a means to a better education, due to its access to all that the world digitally offers nowadays, I am in favour of scrapping the present limitations by looking at the bigger picture. It will end up benefitting all the population, regardless of skin colour and / or socio-economic standing in life.	mirtha	Western Cape		retired
	2025-06-20 15:00:10	Yes I do	Broad-Based Black Economic Empowerment Framework	It is time to scrap BBBEE. It has only enriched a few already wealthy and politically connected Black individuals. It is a big source of corruption and fronting, it costs organisations a lot of money and unproductive time to try and qualify for tenders. Real Black entrepreneurs and industrialists must by now understand what to do in order to start bona fide businesses and obtain financial assistance and rely on themselves to run their businesses. 	2025-06-20 14:33:54	Yes I do	Broad-Based Black Economic Empowerment Framework	Bee is standing in the way of development of the very people it was designed to help. Starlink could dramatically change the education and work opportunities for many, especially in rural areas (traditionally the poorest and least developed in terms of services). Also it would boost digital nomad tourism hence opening areas previously ignored by local and foreign tourists. The overall economic growth and efficiency, output, etc can only benefit from scrapping governmentally regulated quotas. Let capitalism do what it does best - grow the economy, create jobs, give people the dignity and hope of being employed.	CHERYL	Western Cape		retired
	2025-06-20 14:33:22	Yes I do	Broad-Based Black Economic Empowerment Framework	The purpose of BBBEE is to empower non-white people to get economically empowered through targets on existing and new businesses. This in principle is taking the economic "pie" and slicing it differently. The consequence of the policy is that it does not grow the economic "pie". The Starlink example highlights this very well. With BBBEE we will not have access to newer technology and we will not grow the market. Starlink is very well positioned top service people in remote areas. This cannot be done econimically by present competitors in the market. South Africa needs economic growth. BBBEE hampers economic growth and should be abolished to encourage everyone in the country to start new ventures not just favor black people.	Hennie	Gauteng		employed individual

	2025-06-20 14:32:46	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is a policy that brings the South African economy to its knees - stands in the way of "the best person for the job", which means that positions are given to people not qualified to do the job. There is far too much opportunity for fraud and corruption as morally corrupt groups / individuals bribe these very same unqualified people in order to receive tenders and orders. The policy should be totally scrapped: It will allow for those who wish to have their own businesses to be able to do so unhindered The best person for the job will be in a position to do their work well It will minimize the opportunities for bribery and corruption and the economy will flourish which will then create many more job opportunities.	Maureen	Gauteng		retired
	2025-06-20 14:32:41	Yes I do	Broad-Based Black Economic Empowerment Framework	South Africa's economy is being stifled by policies like BEE that do nothing but enrich the politically connected. It does nothing for the average person looking for a job (and contributes to the growing unemployment rate). This could be a step towards future positive outlook for growth rather than the current victim mindset. Impotence has brought this country into disaray with these bad policies, Most of our well qualified and experienced professionals have moved to other countries due to unemployment caused by BEE requirements. Positions should be graded on merit and not colour and race. We have had many businesses close doors willingly due to the labour legistaltion in this once well orginised country which is now in ruins. Come on Black South Africans, can you not see that Govenment has destroyed our country and has not benefitted the black economy with greedy cabinet ministers and a few cadres stealing from the rich and the poor.	David	Western Cape		retired

	2025-06-20 14:22:02	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEEE has been blatantly used to enrich the few while potentially deterring FOreign Direct Investment	philip			
	2025-06-20 14:21:42	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE did not assist in closing the inequality gap in the past 2 decades. Instead, BBBEE only resulted in corruption reaching unprecedented levels and only a small group of connected individuals to become filthy rich. The economy suffered hugely, as many contracts were awarded to cadres that were never qualified for the work.	Barend	Western Cape		retired
	2025-06-20 14:21:41	Yes I do	Broad-Based Black Economic Empowerment Framework	I feel that BBBEE has outlived its useful purpose. It is now only a mechanism to prohibit growth. An entire generation of South Africans has grown up without apartheid, sharing schools and tertiary institutions, only to be faced with the reversed apartheid effects of BBBEE when they apply for jobs. Qualifications are now equal, opportunities should be equal in the job market. I don't say that Elon Musk forcing government policy is a good thing, I feel that the influence of the Gupta brothers in our recent past is evidence enough that government should not be swayed by individuals, but I do feel very strongly that BBBEE has served its purpose.	Nazwell			
	2025-06-20 14:20:33	Yes I do	Broad-Based Black Economic Empowerment Framework	It is time for these poorly conceived laws to be removed for the betterment of ALL South Africans.	Mark	Western Cape		self-employed
	2025-06-20 14:20:01	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has passed its sell by date. It has benefited politicians and the well connected and led to lack of investment in the economy and needs to scrapped in its entirity	Peter	Gauteng		retired
	2025-06-20 14:19:40	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is a scourge which has caused so much economic hardship in this country. Having it removed in part or in full is a blessing.	Mogamat	Western Cape		business owner
	2025-06-20 14:19:35	Yes I do	Broad-Based Black Economic Empowerment Framework	I find it difficult to believe that the BBBE policy will be reversed, because the select few who have benefitted from it will not like it and will do everthing in their power to oppose it! But it will benefit millions of those who do not have the benefit of free or cheap internet services ultimately more than those cheaply rich people who do not appreciate what they have at the cost of the poor! God bless SA!	Ernie	Gauteng		retired
	2025-06-20 14:19:28	Yes I do	Broad-Based Black Economic Empowerment Framework	B-BBEEF is the greatest hindrance to economic development in South Africa. As soon as ALL B=BBEE and all race-based laws are cancelled the country will have a chance on an economic recovery.	George	Western Cape		retired
	2025-06-20 14:19:19	Yes I do	Broad-Based Black Economic Empowerment Framework	Remove BBBEE entirely and lets get the country working again. BBBEE makes us embarrassed to hold our heads up high.	Gail	Gauteng		retired
	2025-06-20 14:19:17	Yes I do	Broad-Based Black Economic Empowerment Framework	Time to change this BBBEE policy. It hasn't enriched the previously disadvantaged at all. It should be based on your skills irrelevant of your colour, religion or sex. Everyone should have a fair chance. This policy is very racist towards concern people.	Michele	Gauteng		employed individual
	2025-06-20 14:19:13	Yes I do	Broad-Based Black Economic Empowerment Framework	Reverse racism is what BEE is. It must fall.	Zhou	Western Cape		unemployed individual
	2025-06-20 14:18:54	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE has been good in so far as Skills Development and Social Economic Spend. When it comes to the other elements it is grossly unfair to minority groups. Furthermore there is so much corruption and only the elitest get tender deals, so those businesses who are honest and are trying to get work are sidelined anyway, even if they are 100% black owned. BEE is voluntary and I dont know why commerce just dont boycot it as it is not legistated. the next thing to tackle is the latest Employment Equity Bill. Now there is a very unfair bill that is legislated!	Leslie	KwaZulu-Natal		employed individual

	2025-06-20 14:11:31	Yes I do	Broad-Based Black Economic Empowerment Framework	any company should be allowed to work in any space with no prejudice and no political or racial specified inclusions as it does not help competitiveness and free trade, and definitely ensures bias to one over another, and not the best value on offer. thus all prices and service cost are driven up for the consumer, as well as service levels are allowed to be substandard due to policy giving bias to a specific group despite not having the required experience, training or knowledge. it also forces use of higher cost and pricing and taxes as it is prescribed that charges may be higher, and salaries may be higher to previously disadvantaged. this placing burden on an already overcharged tax payer.	Naigel	Gauteng		business owner
	2025-06-20 14:11:25	Yes I do	Broad-Based Black Economic Empowerment Framework	It is time South Africa rejoined the rest of the world and that our politicians were honest enough to admit that their ridiculous policies hindered empowerment in this country. Our "previously disadvantaged" population has not been able to thrive with this policy, in fact more and more jobs have been lost, investors are leaving the country, factories are shutting down and people have become poorer and more desperate. The only people who have gained by this are the government and their families.	Ursula			

	2025-06-20 14:11:07	Yes I do	Broad-Based Black Economic Empowerment Framework	Time to end discrimination against all	Michael	KwaZulu -Natal

	2025-06-20 14:06:55	Yes I do	Broad-Based Black Economic Empowerment Framework	BBEEE is currently being used to discriminate against qualifying companies and therefore, companies without experience, work ethic and/or ability to complete the project, are employed which automatically results in corruption, theft and abandoned projects.	Len	Western Cape		retired
	2025-06-20 14:06:38	Yes I do	Broad-Based Black Economic Empowerment Framework	BBEEE has mainly economically empowered a select group of ANC benefactors but has not been successful in economically empowering the large majority of poor South Africans. That being said, it has been instrumental in securing employment for a very large number of so-called previously disadvantaged South Africans who could be viewed as currently advantaged as, in many instances, better qualified and better suited candidates have been overlooked because of their race. This has however resulted, in much higher employment in previously disadvantaged groups and to this end BBBEE has served its purpose. The biggest gripe I have is that whites are being excluded from acceptance in tertiary study institutions by an entrance scoring system that favors previously disadvantaged groups purley on the basis of skin color. This must now stop and been bases purely on academic performance. There are now enough previously disadvantaged persons in senior positions in large corporate companies to ensure fair recruitment. It is time after 30 years to remove BBBEE as it also divides the nation on racial lines and does not serve the purpose of a unified nation The 30% local ownership requirement discourages foreign investment and thereby limits growth and employment opportunities for all South African. It must be abolished ASAP.	Ivan	Gauteng		retired
	2025-06-20 14:05:54	Yes I do	Broad-Based Black Economic Empowerment Framework	The Government is racist. They are not governing! They are bitter, jealous, immature individuals with no feeling for this vountry. Say one thing infront of an audience and another brhind people s backs. Mandrea did exactly the same!	Jeanette			
	2025-06-20 14:05:53	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE policies benefit ONLY the ANC elite few and their cadres - definitely not the broader population and have given rise to massive corruption. Many studies to show this. None by ANC to show its benefits in terms of economic growth. China eliminated poverty and created jobs in 40 years. ANC has destroyed jobs and created negative growth, primarily due to its ill-conceived BBBEE policies. It you want growth eliminate or reduce substantially BBEE ownership requirements, and encourage all and any investors to invest and grow the economy and invest in the future - all the population will benefit.	Les	KwaZulu -Natal		retired
	2025-06-20 14:05:45	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE does not benefit the poor - it prevents economic competition and growth which could provide jobs for the poor and improve investor sentiment (also stabilising existing jobs). Can't believe that our government still identifies any policies against race these days - the ANC has become as racially focused as the government before them. Sickening.	Timothy	Gauteng		employed individual
	2025-06-20 14:05:29	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE only enriches the politically connected and their families and has done nothing for the average black South African. The growth of the black middle class statistics which politicians use to promote BBBEE can be attributed more to the growth in the public sector employment of black South Africans. The only true way to grow the middle class and create less people dependable on the state is to grow the economy. This can only be achieved with less restriction to investment, particularly foreign investment. I see BBBEE as one of the single most driving forces of poor economic growth. 	2025-06-20 13:57:28	Yes I do	Broad-Based Black Economic Empowerment Framework	Black Economic Empowerment laws in the main have the effect of enriching black elite, stunt business growth, slow employment down and keep away FDI. ANC does not care as the elite have been vastly enriched and they want to keep it that way. Removing the theft of 30% of Starlink shares will not stop BBE or BBEEE , as the proposed Starlink share tax exemption is not new with big international companies entering into SA. Race based employment will still exist even if Starlink does arrive and employs local staff. Elon Musk, PLEASE speak about race based employment being untenable for the vast majority of businesses. From September 2025 this gets much worse!!!! Tell me which businesses can survive the more draconian laws coming soon? Just not enough qualified/trained blacks to go round. No wonder international business gives SA a miss, never mind the rest of us stuck in SA and trying to cope. What is the point?! Running a successful business is hard enough without dealing with giving up 30% shareholding & race quotas and the potential fines that come with not complying. Throwing in the towel is a real option even if this means hardship for the fantastic employees we do have. Just HAD ENOUGH! Shame to John Steenhuisen for being such a wimp in front of Donald Trump. As the leader of the DA, he had a fantastic opportunity to highlight to the world the 30% share tax on businesses plus the racial employment quotas and the damage they do and kept quiet. Others in the room would have taken his lead.	Elizabeth	Gauteng		business owner
	2025-06-20 13:57:17	Yes I do	Broad-Based Black Economic Empowerment Framework	BBEEE policy should be abandoned totally as only less than 100 top politicians and cadres benefit from BBEEE the rest of the poor African people black and other races don't get a cent. So the rich black elite get richer to the detriment of the poor.. Unemployment would change drastically as companies would have more orders and be able to employ more people there by reducing the unemployment in country making more people to support their family	Graham	Gauteng		retired
	2025-06-20 13:57:12	Yes I do	Broad-Based Black Economic Empowerment Framework	I am so glad to see that someone in the government has finally seen the error of their policies. 	2025-06-20 13:52:19	Yes I do	Broad-Based Black Economic Empowerment Framework	As a humanist I am ok with 3B2E ... It represents a polite way to eliminate what a considered to be superfluous 'whiteys' from the country and has successfully managed to reduce the population of said superfluous "whiteys" from what was projected in 1992 to rise from the 5,2000,000 in that year be 6,000,000 by 2025.... To be now ± 3,000,000 .... My own ancestors were people known as "Wolf Warriors" who gave the word Berserk to the English Language ... and they would not have been so kind as to give us the opportunity to Live and to Leave unmolested [or relatively unmolested] However as an Economic Historian the idea of 3B2E has proven history to be as destructive of economic growth as was in their turn the Glen Grey act of 1895 [ish], the subsequent Job Reservation legislation 1920's, and the subsequent disaster of the Separate Development era... Followed slavishly by 3B2E... In other words the concept was, as Karl Marx predicted in paragraph 44 of his 1848 manifesto , hijacked by the 'Dangerous Class". With the result that the country is mired in what old fashioned economists [such as myself] would call a long term DEPRESSION. from which there is unlikely to be a short term solution [I.E. We have just entered month 141 since the last month that RSA's economy grew by more than the population ... thereby classifying it , In pre1971 economic language, to be classed as long term DEPRESSION] On August 15 1971 you may recollect that the world came off the Gold Standard and entered the Fiat [imaginary] money era, after which a country was to be judged ,specifically, on comparative performance. So my ancestors could satisfy their blood lust with the simplicity of knowing that you have successfully managed to create a world in which death by murder is the way of life and that you successfully halved the presence of horrible people by substituting femicide &homicide instead. Thank you.	nicholas	Gauteng		retired

	2025-06-20 13:47:50	Yes I do	Broad-Based Black Economic Empowerment Framework	BBE is not helpful or beneficial to South Africa and 90% of our people.	Les			
	2025-06-20 13:47:44	Yes I do	Broad-Based Black Economic Empowerment Framework	If barriers to investment remain, our economy will never grow. Business must all compete from a level playing field. BBBEE is the root cause of thieving in South Africa	Jonathan	Gauteng		retired
	2025-06-20 13:47:37	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has been a total failure for the poor people it was supposed to help. This is mainly because of the government's corruption resulting in the enrichment of a few power hungry officials and businessmen. It was a total failure in many countries around the world, including the USA for the same reasons but nobody listened when they were told this many years ago. Starlink will benefit the poor in this country, especially in remote areas, who do not have access to the internet which, these days, is crucial to development and empowerment of the poor. BBBEE MUST GO.	Chris	Eastern Cape		retired
	2025-06-20 13:47:36	Yes I do	Broad-Based Black Economic Empowerment Framework	Bypassing BEEE will increase investment and economic growth	Dio	Gauteng		employed individual

	2025-06-20 13:45:16	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE is an obstacle to foreign investment and economic growth. It's been accelerated in the past 15 years, and coincides with the less than 1% economic growth over the same period.	Shalin			
	2025-06-20 13:45:11	Yes I do	Broad-Based Black Economic Empowerment Framework	The appointment of Starlink as the national Internet Service Provider will be the easiest, quickest and most cost effective means of achieving Internet service and WiFi coverage across the entire South Africa. To continue bumbling along the present path we will never achieve this objective or at least most certainly not within the foreseeable future. Taking this step forward will assist in moving the country and the economy in a positive direction. We have stagnated for far too long and for what reason? The inability to make decisions and looking backwards to try and correct wrongs of the past. If we wish to fix this country we're going to have to begin to look forward and begin planning for the future. Ultimately we are the Masters of our own destiny.	Gavin	Western Cape		retired
	2025-06-20 13:45:04	Yes I do	Broad-Based Black Economic Empowerment Framework	Although BEE was well-intended & possibly required in the first 20-odd years since 1994, it has proved to have MAINLY benefited only a few already successful & powerful previously excluded South Africans. There is NO DOUBT that the VAST MAJORITY of poor, previously disadvantaged South Africans are worse off now than before 1994.	Duane	KwaZulu -Natal		self-employed

	2025-06-20 13:44:57	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has been a thorn in the flesh of bunisness and it is about time it was done away with. Companies should be able to choose who to employ based on qualifications and skills and not on the colour of their skin. Get rid of BBBEE and I am sure you will see the SA economy grow profusely. 	2025-06-20 13:37:02	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE and BBBEE have been around for a long time but have not achieved the desired goals. Only a select few, linked to government, have benefited. And they have achieved immense wealth while the the vast majority of previously-disadvantaged people, remain poor, live in squalor and are unemployed. We need this economy to grow. The less business restrictions there are, the higher the chance of small to medium companies coming on line and employing people. BBBEE has stifled their opportunities. BEE and BBBEE has not worked. It should be abolished. Select the right person for the job based on experience and/or qualification, and irrespective of their race or gender. Select the right company to do the job, based on their expertise and experience, irrespective of their BBBEE rating. We've all seen what has happened with government tenders and the mismanagement of SOEs and Municipalities. Less red tape. More business opportunities. More employment of suitably qualified people. 	2025-06-20 13:36:45	Yes I do	Broad-Based Black Economic Empowerment Framework	The BBEEE framework has not been successful in economically empowering the large majority of poor South Africans, that were previously disadvantaged by apartheid policy. In addition the 30% local ownership requirement discourages investment by overseas companies,while at the same time not reaching the same group of poor South Africans. The 30% local ownership requirement should be removed for all foreign companies and foreign investors and replaced by social responsibility investments and expenses. For local companies it should be replaced by share ownership for proven poor South Africans irrespective of apparent racial classification. This ownership should not be transferrable within ten years from the date that it vested in the poor person, to ensure that it becomes a long term asset for them, and is not squandered on short term requirements. Banks should be required to accept these shares as surety for property investments.	Chris	Western Cape		business owner
	2025-06-20 13:36:32	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has done nothing but hurt this country and put people into positions they have no experience in...and rather with increased support for corruption.	Arno	Western Cape		retired
	2025-06-20 13:36:24	Yes I do	Broad-Based Black Economic Empowerment Framework	It has to now come to an end. BEE is unfair and discriminatory. Employment should be earned on merit not colour.	Daniel	Western Cape		self-employed
	2025-06-20 13:36:15	Yes I do	Broad-Based Black Economic Empowerment Framework	BBEE is failing South Africa, especially small businesses creating jobs.	Lise	Western Cape		retired
	2025-06-20 13:36:11	Yes I do	Broad-Based Black Economic Empowerment Framework	if this will translate into BBEE being discarded then I give my approval. BBEE is what is holding SA back from economic growth, especially for the whites in SA and international companies wanting to do business with SA This would be a step in the right direction.	Denise	Western Cape		self-employed
	2025-06-20 13:36:05	Yes I do	Broad-Based Black Economic Empowerment Framework	If we want to succeed in having a successful economy which favours ALL people we have to have job placements on merit.	Pauline	Western Cape		retired
	2025-06-20 13:35:49	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE is a law to help the incompetent to get a job and to open the doors for corruption by which most politicians, including the president benefitted from. No rightminded company owner will provide 30% or even any % ownership to anybody incompetent. BEE only enriches a small group of people whereas the masses stay in poverty. I believe that BBBEE is responsible for our record high unemployment rate.	Hartmut	Mpumalanga		retired
	2025-06-20 13:35:31	Yes I do	Broad-Based Black Economic Empowerment Framework	Only suport this if thy remove all BEE requirements	Willem	Western Cape		employed individual

	2025-06-20 13:23:17	Yes I do	Broad-Based Black Economic Empowerment Framework	It's about time that we got rid of the bee requirement,after 30 years they should be standing on there own 2 feet.	Kenneth	Western Cape		retired
	2025-06-20 13:22:01	Yes I do	Broad-Based Black Economic Empowerment Framework	This is the most ridiculous Bill that's ever been passed and is crimping the country for all South Africas and opening the door for more widespread corruption. Many years ago Mathew Phosa said that BEE would never work and oh boy was he right!	Richard	KwaZulu-Natal		retired
	2025-06-20 13:21:18	Yes I do	Broad-Based Black Economic Empowerment Framework	This has stopped so many people from getting jobs that deserve them as it must go to the correct BBBEE person. Jobs should be on merit and not colour. Companies are closing due to them having to have this ridiculous percentage enforced. South Africa needs to step forward not backward and BBBEE is a major step backward for this country. It needs to go!	Hayley	Gauteng		employed individual

	2025-06-20 13:20:44	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE only enrich a small group of people whereas the masses stay in poverty	Kate	Western Cape		retired
	2025-06-20 13:19:39	Yes I do	Broad-Based Black Economic Empowerment Framework	Let me put it this way, it is a step in the right direction, BBEEE Laws and regulations have hurt SA in the way that companies leave South Africa and International Companies not want to invest or open branches in the unstable SA Market. With these policies, no International funding or investment comes into the country. When a company was built up by an individual and now that person should give 51% of his company away in order to do business with government. I won't invest then and rather move investment to another country without these laws. The environment being created by the Government does not allow a safe area for companies / corporates to flourish and grow. SA rather exports our raw materials than produce it ourselves (Shocking). At the current moment, SA Imports more than export, which is really bad for economic growth and Government interferes too much with local businesses.	De Villiers	Gauteng		employed individual
	2025-06-20 13:19:37	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is counter-intuitive and destructive to any form of normalized growth expectation. Democracy is color blind and as such all that live in this country should enjoy equal opportunity to be educated, deal in all public and private business, and treated equally. It will also to some extent assist dealing with corruption.	Gerrie	Western Cape		retired
	2025-06-20 13:19:17	Yes I do	Broad-Based Black Economic Empowerment Framework	THE FRAMEWORK HINDERS GROWTH AND INVESTMENT IN A COUNTY WHICH NEEDS BOTH TO INCREASE THE TAX BASE AND REDUCE UNEMPLOYMENT.	TANYA	KwaZulu -Natal		self-employed

	2025-06-20 13:01:12	Yes I do	Broad-Based Black Economic Empowerment Framework	It has been 30 years of this and no real improvement. Let’s re work the entire policy and focus on education equity ! Companies donate to education equity for all	Carric	Gauteng		
	2025-06-20 13:00:48	Yes I do	Broad-Based Black Economic Empowerment Framework	The BBBee must be scrapped totally. This has only resulted in the ANC elite and their cronies getting rich. All race-based legislation must be scrapped. It has caused so much lack of investment and lack of employment opportunities. Racism in any form must be condemned. It helps Nobody. Just check history. It never works. Just for information. There are more race based laws in South Africa now, than there was under Apartheid and more division has been created. It is easy to check. Until this ANC government removes all racism from the statute book, we will never be successful. They will NEVER receive my vote until this happens	Jeff	Gauteng		retired
	2025-06-20 13:00:36	Yes I do	Broad-Based Black Economic Empowerment Framework		Michael	Western Cape		retired
	2025-06-20 13:00:03	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE Framework is an old framework that had valid aims but was critically misused disproportionally benefitting a small group of politically connected people rather than uplifting the broader black population. It has been instrumental in state capture and corruption on a huge scale. It discourages Investment and business growth. For economic growth in South Africa, we need a new INCLUSIVE economic approach based on Need, Merit and Opportunity, not race	CHARLOTTE	KwaZulu-Natal		business owner
	2025-06-20 12:58:48	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE is only benefiting a select few individuals and if removed we shall attract more direct foreign investment.	Jock	Limpopo		retired
	2025-06-20 12:58:41	Yes I do	Broad-Based Black Economic Empowerment Framework	All race based policies are a poven failure and must be removed. Job creation is the answer to uplifting the poor.	Erina	Free State		business owner

	2025-06-20 12:58:06	Yes I do	Broad-Based Black Economic Empowerment Framework	With the current SARS rebuild, Labour Department clean-up, CIPC shake up and Banks cleaning up to get SA out of being grey listed, BBBEE is more unnecessary red tape that makes it costly and difficult to do business in SA. As a white person that understands the reasons to help "previously disadvantaged persons", the current BBBEE framework is not the right way. A competent black businessman is not going to team up with white owners, so to get the ownership white owners have to employ less competent black people. The cost of this 1 black owner means less young black candidates can be employed. The companies run by competent black business owners do not need to employ young blacks, as they get level 1 on a plate. This is a big reason why there is such a big issue with unemployment amongst graduates. Removing black ownership, allows companies to employ youth giving them valuable experience, as well bolstering the market. 1 black owner earning a Million Rand buys an expensive imported vehicle (money outflow from the country), buys designer gear (more money leaving our shores) 1 expensive house, etc etc. Employ 10 graduates at R100k they will buy 10 cheap vehicles, they will feed 40 people, buy 10 houses. Pay rates, pay taxes and be 9 less people Government needs to give grants to. Overall the same R1million spend has a positive effect on the economy and the positivety of all South African citizens of all races. So now relate this to Starlink, allow them in but they must use local labour, if they need expertise not available here, they must employ local graduates that can train under the foreigner. Again this will empower and employ the lost generation.	Brendan	KwaZulu -Natal		employed individual
	2025-06-20 12:57:24	Yes I do	Broad-Based Black Economic Empowerment Framework	None of these policies have helped impoverished South Africans or improved the economy. We should be doing everything possible to allow small businesses to succeed.	Taryn Elise	Gauteng		self-employed
	2025-06-20 12:57:19	Yes I do	Broad-Based Black Economic Empowerment Framework	Bee needs to be scrapped	yusuff	KwaZulu -Natal		unemployed individual
	2025-06-20 12:56:52	Yes I do	Broad-Based Black Economic Empowerment Framework	All BEE policies are a block to investment in the country. There is obviously more legislations that are also blocks to investment, notably the expropriation without compensation to name one.	Jonathan	Gauteng		retired
	2025-06-20 12:56:52	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has only enriched a few South Africans and has dragged the countries economy into the ditch, it needs to go in order for all South Africans to be able to work together to build the country into a financial giant	Maureen	Gauteng		employed individual

	2025-06-20 12:55:36	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has lived well past it's sell by date to the extent that the "formerly advantaged" have now become the disadvantaged.	William	Gauteng		business owner
	2025-06-20 12:55:36	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has lived well past it's sell by date to the extent that the "formerly advantaged" have now become the disadvantaged.	William	Gauteng		business owner
	2025-06-20 12:53:51	Yes I do	Broad-Based Black Economic Empowerment Framework	The failed BBBEE has not improved the lot of the masses and furthermore has proved to be a barrier to investment and its consequent improvement in the countary's economy and job creation for those disadventaged peoples.	Patrick	KwaZulu -Natal		retired
	2025-06-20 12:53:42	Yes I do	Broad-Based Black Economic Empowerment Framework	BEEE does not help anyone except the already rich and politically connected, unemployment is at its highest it’s ever been so it has not helped a single person. It is time to scrap the entire policy completely and have free and fair employment based on merit not colour of your skin. This is the exact problem of apartheid in reverse and does not support anybody.	Jacques	Gauteng		unemployed individual
	2025-06-20 12:53:13	Yes I do	Broad-Based Black Economic Empowerment Framework	The existing BBBEE policy only benefits and is not broad based as the name suggest. I fully support providing real benefits to a large group rather than to a small group of politically connected individuals.	David	Gauteng		employed individual
	2025-06-20 12:53:04	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE has stifled business growth and employment opportunities as it seriously only benefits those few elite-individuals over and over and over again. The few BBBEE elites continue to rake in millions, however the other economic classes have been negatively impacted as the SA economy keeps shrinking due to greed, corruption, favours and nepotism. The economically marginalized are worse off as more lay-offs continue, as more business crack under the weight of mind-boggling legislation and are simply forced to close down. Bringing in foreign investment will stimulate the jobs market, and increase the tax-base. The SA government URGENTLY needs to put a stimulus-package together that will benefit the majority, not the BEE-elite-minority! Lift the legislative burden which will increase the employment rate, which brings in more tax for the country. It's so simple, actually.	Ingrid	Gauteng		employed individual
	2025-06-20 12:52:46	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE in its various forms has only benefited the elite black cadres to the detriment of the wider SA economy	Mike	Western Cape		retired
	2025-06-20 12:52:05	Yes I do	Broad-Based Black Economic Empowerment Framework		Frederik (Frieda)	Free State		retired
	2025-06-20 12:51:58	Yes I do	Broad-Based Black Economic Empowerment Framework	There should not be BBBEE. Everybody should be allowed to employ people on competency not the colour of their skin. Don't we want the best person for the job and the best infrastructure and best businesses and a thriving economy? BBBEE and the corruption that is closely associated with it has been crippling our economy for way to long. Get rid of it, we need every bit of help we can get to get our economy going.	Paulette	Western Cape		business owner
	2025-06-20 12:51:12	Yes I do	Broad-Based Black Economic Empowerment Framework	If we want to rebuild South Africa we need to reconsider BBBEE and Employment Equity. Like it or not, but this is actually damaging the economy. I see it at my employer as well. It is time for these 'laws' to go! Let's make South Africa great again.	Tracey	Eastern Cape		employed individual

	2025-06-20 12:51:03	Yes I do	Broad-Based Black Economic Empowerment Framework	Starlink = connectivity for rural areas and, in turn, education. BEE benefits a select few (normally cronies). BEE keeps racial division at the forefront. BEE kills foreign investment. The reason government concerns are in such deep sh1t is due to the appointment of friends and family who, most of the time, don't have the knowledge to 'grow', or even manage, their positions. Government should be using the so-called apartheid knowledge and skills to train and guide those that need it. This would have resulted in an almost seamless transition from pre-1994 to now. At present the government likes keeping people uninformed - so that they can be manipulated.	ivan	Gauteng		retired
	2025-06-20 12:51:01	Yes I do	Broad-Based Black Economic Empowerment Framework	The evidence is clear that the implementation of the framework does not have the desired outcome to empower all South Africans	Lean			
	2025-06-20 12:50:53	Yes I do	Broad-Based Black Economic Empowerment Framework	I agree that transformation should be looked after but the balance of investment and job creation needs to be prioritized. I would suggest that international companies investing into business in South Africa above a X threshold (like startlink) that would create local employment and economic growth be exempted from ownership requirements. I do believe however that other BBBEE obligations be upheld and that perhaps a special tax rate be given to such business if it then does have HDSA ownership making it attractive to further include HDSA ownership even though it is not a definite requirement.	Branden	North West		business owner

	2025-06-20 12:49:15	Yes I do	Broad-Based Black Economic Empowerment Framework	Any legislation that leads to the abolision of racist legislation, poverty and misery for the majority of citizens and the destruction of our suffering countries economy is a fully supported essential.	Frederick	Gauteng		retired
	2025-06-20 12:48:25	Yes I do	Broad-Based Black Economic Empowerment Framework	BEE in any shape or form has had, and can only have, negative consequences for the evonomy and the population at large.	Johan			retired
	2025-06-20 12:48:23	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE should be removed. It is highly unbalanced, and has now created more money to flow into the pockets of top end corrupt fat cats. It does not benefit the general population at all.	Bev	KwaZulu -Natal		
	2025-06-20 12:48:11	Yes I do	Broad-Based Black Economic Empowerment Framework	Only the elite gains wealth by BBBEE- not the poor people that suffer and we as South Africans want these excessive overweight non-sensical race discrimination to end.	Rachel	Limpopo		retired
	2025-06-20 12:47:53	Yes I do	Broad-Based Black Economic Empowerment Framework	Each individual should have the opportunity to compete on merit for any job he/she is qualified for. Employers should not be forced through legislation into some or other race based system when appointing workers. Legislation should also not prescribe to investors who to choose as partners/co-owners.	Hennie	Gauteng		retired

	2025-06-20 12:47:27	Yes I do	Broad-Based Black Economic Empowerment Framework		Mel	Gauteng		employed individual
	2025-06-20 12:47:23	Yes I do	Broad-Based Black Economic Empowerment Framework	We are not in a position to hamper any form of employment creation in this country. If it creates jobs, contributes to the economy, it must be granted. The rich politicians cannot impose more greed at the cost of progress and job creation.	Riaan	Gauteng		employed individual
	2025-06-20 12:47:11	Yes I do	Broad-Based Black Economic Empowerment Framework	This black empowerment nonsense has ruined this country's economy for way too long, and right from the beginning was totally racist and only benefited the blacks with anc connections. it's about time that all of our people get the same opportunity to do business and not have to employ idiots who have no idea about how to run a company and are there just as figureheads and plunder the assets of the company. It is time to allow great people like Elon to come back to SA, bring in very needed economic foreign currency and new expertise, without any hindrances about who to employ. I cannot wait to see Elon wake this country up and get rid of these lazy people who sit on their fat backsides and believe they are entitled !!!!! THE QUICKER THE BETTER, I SAY !!!	Miriam	Gauteng		retired
	2025-06-20 12:47:07	Yes I do	Broad-Based Black Economic Empowerment Framework	BEEE requirements force businesses to put the wrong people in the wrong positions - new hires should be appointed on merit and not skin colour.	Leandri	Northern Cape		self-employed
	2025-06-20 12:46:54	Yes I do	Broad-Based Black Economic Empowerment Framework	The BEE concept makes sense - if it was backed up by a decent education system and if people who get the post get so based on actual merit not just skin colour. And then these sub standard qualified people demand a higher salary and benefits (while the work is done by others) simply because BEE allows it.. If This change allows further developments in our country, creating jobs and competition then Im all for it	Aimee	Gauteng		employed individual
	2025-06-20 12:46:33	Yes I do	Broad-Based Black Economic Empowerment Framework	Our economy cannot sustain or grow with BBEE in place. Employment needs to be based on who can do the job regardless. Its about time we are all given a chance to move forward.	C	Gauteng		business owner
	2025-06-20 12:45:59	Yes I do	Broad-Based Black Economic Empowerment Framework	Despite its noble intentions, the implementation of B-BBEE has faces significant challenges. Issues such as inadequate regulatory enforcement, instances of fronting, and the concentration of benefits among a relatively small politically connected group have undermined its broader goals. These shortcomings have, in many cases, hindered the policy's ability to drive sustainable and inclusive economic transformation. As with many policy initiatives in post-apartheid South Africa, the gap between vision and execution has been a recurring theme. To fully realize the original promise of B-BBEE, a critical reassessment of its mechanisms, enforcement, and outcomes is essential. Effective implementation, greater transparency, and an emphasis on genuine empowerment over compliance-driven box-ticking could contribute to restoring credibility and achieving more equitable growth.	Mark	Gauteng		employed individual
	2025-06-20 12:45:56	Yes I do	Broad-Based Black Economic Empowerment Framework	Starlink = connectivity for rural areas and, in turn, education. BEE benefits a select few (normally cronies). BEE keeps racial division at the forefront. BEE kills foreign investment. The reason government concerns are in such deep sh1t is due to the appointment of friends and family who, most of the time, don't have the knowledge to 'grow', or even manage, their positions. Government should be using the so-called apartheid knowledge and skills to train and guide those that need it. This would have resulted in an almost seamless transition from pre-1994 to now. At present the government likes keeping people uninformed - so that they can be manipulated.	Shirley	Gauteng		employed individual

	2025-06-20 12:36:57	Yes I do	Broad-Based Black Economic Empowerment Framework	Summary of Support for Draft Policy Direction on ECNS/ECS Licensing The proposed draft policy direction is strongly supported as it could enable global satellite internet providers like Starlink to operate in South Africa by removing or revising the 30% HDI ownership requirement for ECNS and ECS licences. While transformation remains important, the current requirement has unintentionally limited access to innovative services critical for digital inclusion, especially in rural areas. Allowing Starlink and similar providers to operate would boost connectivity, drive competition, and support economic growth. The policy also sets a potential precedent for reconsidering BBBEE obligations in sectors where rigid requirements may hinder progress. The Minister is urged to adopt the draft policy in the interest of national development and technological advancement.	Vishal	Gauteng		employed individual
	2025-06-20 12:36:54	Yes I do	Broad-Based Black Economic Empowerment Framework	We need to remove all restrictions that limit the growth of foreign businesses in this country. For the economy to thrive we need foreign companies to invest without hamstringing them with stupid laws - black people will be employed by them and more people will have jobs. More jobs = more tax revenue and economic growth.	Ian	Gauteng		employed individual
	2025-06-20 12:35:51	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEE needs to be totally abolished in order to permit more overseas companies to reinvest in South Africa, which will create more job opportunities for the less fortunate. Allowing Starlink from Elon Musk in will be the first step in the right direction. Let's help South Africa grow again into the beautiful country we all once new.	Doreen	Eastern Cape		retired

	2025-06-20 12:30:18	Yes I do	Broad-Based Black Economic Empowerment Framework	Don't like the man, but the more ANC ridiculous policies we can abolish the better	Jill	Gauteng		retired

	2025-06-20 12:30:16	Yes I do	Broad-Based Black Economic Empowerment Framework	The BBBEE framework needs to removed in its entirety. It is anti-white - exclusive of white people to participate economically in organisations with a headcount of more than 50 employees. All appointments in any size organisation should be based on merit regardless of their skin colour. Legal Challenges: Implementing B-BBEE policies can lead to legal challenges and criticisms, both domestically and internationally. Lawsuits and claims of discrimination can create legal uncertainty and distract from the real goals of economic reform and empowerment BBBEE is racist and counterproductive. Here are some solid reasons why such policies are considered by some to be problematic: Exacerbation of Division: Racist policies, including those that may appear to favour one racial group over another, can exacerbate social divisions and tensions within a diverse society, leading to pervasive resentment rather than unity. This tension can ultimately undermine social cohesion, which is essential for national development. Meritocracy and Competence: Opponents argue that policies based on racial criteria rather than merit can lead to the appointment and promotion of individuals not solely on their qualifications and abilities. This can degrade workplace performance and productivity, as the focus shifts from competence to meeting racial quotas. Stigma Against Beneficiaries: Beneficiaries of B-BBEE may face stigma; their qualifications and abilities may be questioned, leading to a perception of inadequacy. This undermines the confidence of individuals who may have genuinely earned their positions, affecting their workplace morale and their professional reputation. Distorted Business Environment: By emphasizing race over merit, businesses struggle to maintain efficient operations. This can ultimately hinder economic growth and innovation, as companies focus on meeting compliance criteria rather than optimizing their workforce in the best interest of the business. 	2025-06-20 12:07:51	Yes I do	Broad-Based Black Economic Empowerment Framework	Internet access is very important, particularly for education, and the people who need it most are the ones in the very rural areas who have no access to broadband. With rising cost of living, cheap internet is a tremendous benefit and help. The BBBEE laws do not deliver what they intended to do. They have created a very small wealthy elite in the black community, but have done little to address the needs of the greater black population. And by restricting businesses, it actually worsens the unemployment in this country. Reducing regulations and taxes cause entrepreneurship and businesses to flourish, creating jobs, and boosting the economy. It also reduces the burden of welfare on the state, the more people that are employed. People need to learn the benefits of a free market economy. Meritocracy always works - reward the best person with the job regardless of their race - wasn't that the point of getting away from apartheid? Was it not unfair regulations and laws that discriminated against certain people groups in the country and prevented deserving hardworking people from being able to grow and succeed that we all objected to? Socialism and communism always results in poverty. Please let's remove all laws and regulations that are discriminatory and hamper economic growth and thus actually WORSEN things for the disadvantaged people in this country. And let's get as much investment from overseas countries as we can, without driving them off and keeping them away with regulations they are unable or unwilling to comply with! Let's put South Africa and her people first!	Natasha	KwaZulu-Natal		employed individual

	2025-06-20 11:56:00	Yes I do	Broad-Based Black Economic Empowerment Framework	I wish the initial question had a "yeaaah kinda" drop down. I find it odd we're bending over backwards for one specific industry when we've seen the damage it's done to so many others. BBBEEE has murdered this economy and put in place so many loopholes to jump through that doing business is 90% trying to do business and 10 actually working. This needs to be flipped on its head. Scrap it altogether. Hopefully this communications policy paves the way for other sectors to rally against their prohibitive policies and move on to a "best price and best work gets the job/contract/tender" scenario. Merit matters. You get what you pay for is the old adage that used to ring true. Now the end fee, depending on the bbbeee status of who you're dealing with, is padded with fees, over inflated and pays for promises, delays and delay costs and more of what we actually need LESS of. You can probably get more done for the same amount of money at a faster rate with better support or guarantees at a smaller place with ZERO bbbeee compliance. Says everything doesn't it? bbbeee is the mosquito sucking at the fiscus. Lets get rid of it.	Chad	Gauteng		employed individual

	2025-06-20 11:52:38	Yes I do	Broad-Based Black Economic Empowerment Framework	Removing BBBEE entirely will significantly boost the economy and reduce unemployment and enable transformation. It is counterintuitive indeed, but growing the economic “pizza”, by having ingredients to make a bigger one, will feed far more people than “cutting” the pizza into smaller parts. It should not be about who gets slices, but having more slices, especially as it will yield more. It’s common sense. The government is so concerned with “who gets what”, instead of “let’s get more”, which is so destructive.	Richard	Gauteng		unemployed individual

	2025-06-20 11:48:00	Yes I do	Broad-Based Black Economic Empowerment Framework	Despite its best intentions, B-BBEE has not benefitted SA's economy or general public. The policy has created patronage networks among the politically connected elite, thereby robbing other potential entrepreneurs of opportunities. That apart, history has repeatedly shown all over the globe that disadvantaging a minority in pursuit of uplifting a majority is simply unworkable and a recipe for ongoing failure. It is therefore high time this self-serving policy was revised from the ground up. More specifically with regard to relaxing the B-BBEE requirements for Starlink's entry int SA, it is abundantly obvious that SA needs Starlink far more than Starlink needs SA's business, and therefore to block its entry on the grounds of its refusal to accede to B-BBEE demands is just plain stupid.	Patrick	Gauteng		employed individual
	2025-06-20 11:46:22	Yes I do	Broad-Based Black Economic Empowerment Framework	Why should low IQ idiots be allowed to receive free shares in any company. The africans are to lazy and low in intelligence to be able to compete with Indians Coloureds or whites and should thus remain in the job they can find with their qualifications otherwise, just die of hunger created by themselves I hope Musk does not give them even one share in any of his companies Let them buy and work for any share as all other humans have to do	Barry	Outside SA	Prachin Buri	retired

	2025-06-20 11:45:35	Yes I do	Broad-Based Black Economic Empowerment Framework	The BBBEE legislation have not done what it was supposed to do. The BBBEE was supposed to help the previously disadvantaged group of South Africans that lived in poverty, but instead of helping the disadvantaged, it made room for a specific group of people to see how they can corrupt an already poor management of governing bodies. The removal of BBBEE will not only allow much less poverty but also see an increase in job creation which was currently not possible due to these laws.	Megann	Gauteng		employed individual

	2025-06-20 11:18:27	Yes I do	Broad-Based Black Economic Empowerment Framework	BBBEEE benefits no one except for connected ANC and EFF officials. It needs to be done away with. The only way to move forward is to stop dividing everything up in terms of colour. The ANC is destroying jobs, but is to greedy to let go. They are race hustlers and no different from the NAT government - only the colour has changed. It needs to stop. We need international investment and no one in their right mind would give away 30% of their company for a BBBEEE person who contributes nothing, invests nothing and adds no value to a company. No one deserves anything they didn't earn or work for.	Lyle	Gauteng		employed individual

	2025-06-20 11:02:25	Yes I do	Broad-Based Black Economic Empowerment Framework	strongly support allowing Starlink to operate in South Africa to deliver high-speed internet, bridging the digital divide and boosting economic growth. Starlink's services can empower rural communities, foster innovation, and enhance South Africa's global competitiveness.However, the 30% BEE ownership requirement, or any equivalent mandatory local ownership policy, deters investment, reduces competitiveness, and amounts to extortion by forcing companies to cede equity. These race-based or coercive mandates perpetuate division and discourage global businesses. I urge their removal to attract companies like Starlink and signal South Africa's openness to investment. Instead, promote inclusion through voluntary skills training or infrastructure investment.	Thomas	Western Cape		retired

	2025-08-22 11:13:12	Yes I do	30% local ownership	I think 30% ownership on foreign companies is an absolute non-starter that hampers international services from operating in the country. If SA insists on this rule, foreign companies will simply choose not to operate here at all and SA will lose out on a lot of access and privileges that other people all across the world have, which will see us left behind. Starlink will give internet access to areas in SA that are currently unserviced or difficult to service, such as remote locations where more economically disadvantaged people live. Even if the prices are unattainable for individuals, communities will still be able to pool together to get access where no other options currently exist for them. Internet access in our current age is a basic necessity, and to be a just and equitable country we should do whatever we can to ensure as many people in SA have access as possible, which means supporting as much variety and options as we can. While 30% equity is a ridiculous requirement, I think it is good and right that if a foreign company profits from South Africans that they should invest some of those profits back in the country and its people. Skills development and local investment is a good alternative to make sure that happens.	Alexander	North West		self-employed

	2025-07-16 12:06:28	Yes I do	30% local ownership	BBBEE is a racist policy and is a kin to the race based laws of Apartheid. Two wrongs do not make a right, and the victims of the past creating new victims through BBBEE has not over the last 30 years brought the people of South Africa together, nor has it prospered South Africa. This is history repeating itself, in reverse, and is still immoral and wrong without exception. There should never be forced ownership of any entity or organization through law, policy or any other mechanism, political, legal or otherwise. This is counter free trade and has a grounding in communism which is dangerous to the safety of the public and the economy of South Africa. In 50 years will we have reversal of BBBEE to right the wrongs of BBBEE and support the currently marginalized and disadvantaged racial groups which BBBEE has targeted and victimized? 	2025-07-10 11:30:16	Yes I do	30% local ownership	I believe that SA needs as much practical foreign investment as possible. Investment that creates jobs for currently unemployed South Africans. Previously disadvantaged South Africans will benefit on a far greater scale if we can create signifcant employment. Insisting onb 30% local ownership tends to benefit only a few and often it benefits those who already have means. It does not necessarily help ordinary people without means.	John			
	2025-07-10 11:01:54	Yes I do	30% local ownership		MICHEL	Gauteng		
	2025-07-10 10:43:21	Yes I do	30% local ownership	The SA economy is growing very slowly and not contributing towards expanding the economy or reducing the unemployment level. A big issue is the various govt policies which are hindering international investment into SA. A big issue, in this case, is the ICA regulations requiring International companies wishing to enter into the SA communication industry, to provide 30% ownership to a local company/person. Most International companies will shy away from countries where such legislation demands a portion of their company. Simply they, the International company, undertook the start up and development costs over time to create such a operation and now a local investor simply gets "handed" a third of it. In the case of Starlink, this will have benefits for rural access to internet for information, educational and communication needs.	David	Western Cape		retired

	2025-07-09 20:59:28	Yes I do	30% local ownership	BBBEE is merely putting the black person under immense strain as very often the candidate does NOT have the work experience or sometimes even ability to function in the best interests of the compny for whom he/she works. I am against BBB employment equity as it divides our nation on colour. We are all South African, we are the people of South Africa, no matter our racial colour. As an employment equity candidate myself, just because I am not black means I cannot get employed, yet I am as South African as and other born in South Africa. Bring back the internship possibility so companies can grow by employing South African's, regardless of colour, to work in their chosen career as they learn their career, provided they have the start of the educated knowledge required. Burning schools and colleges helps no one, especially those who want to learn, spend hours under candlelight studying to become a Doctor/electrician/plumber/welder in their communities only to have it ripped away. Success is earned not given, so let South African's earn by learning in their careers and succeeding. As a white 'privilged' man who has worked in call centres, IT support and banking on a customer level, I would not feel comfortable if I was given a banking board position, as I have just not had the experience or earned the success needed to be the asset that bank would need in that position.	Hylton	Western Cape		unemployed individual

	2025-07-09 17:53:25	Yes I do	30% local ownership	I have so much to say regarding this subject as a white person. People around the world no matter what skin colour you are have been hurt and abused by other people. It is not right that people do this to other people no matter what skin colour you are or religion. It is wrong. To call it disadvantaged I would disagree. It is part of life. To blame a whole people group based on what some people did is not right either. It is an extreme view. All extreme views tend to abuse and hurt people unnecessarily. At the moment all that BEE has really done to date has got a lot of connected people to politicians to in rich themselves and forget about the real meaning of a "rainbow nation." BEE has not really helped the country the way it was meant to. It is great that black people are part of the economy and are able to buy and sell goods. I totally agree with that. But to limit white people based on the colour of your skin sounds a very extreme view to me. Any business owner who wants to invest in a new country and gets told by that country you must hand over 30% share holding to our country to our local people. He/she is going to think twice before they invest. No matter what skin colour you are. Investors look for returns not "red tape." Investors invest where it is easy to make money not difficult. South Africa is not an easy country to make money. Hence so many years of bad growth. There are many other reasons for this bad growth. But "red tape" is one of them. This policy should change to encourage investment.	Darryl	Gauteng		business owner
	2025-07-09 17:50:19	Yes I do	30% local ownership	We can get the economy growing again for getting more foreign investors into the country - hence more job opportunities will become available for the huge un-employment dilemma in this country!!	Albert	Western Cape		retired

	2025-07-09 03:56:31	Yes I do	30% local ownership	Many folk who have voted no on this platform are from previously disadvantaged communities. We all understand that the apartheid system was very wrong. But BEE is not the way to redress the evils of the past. California had BEE for 12 or more years and scrapped it because it didn't work due to a hundred reasons. If a foreign investor wants to invest and provide services at a profit on SA it should provide real job and or benefit previously disadvantaged. Assist in education infrastructure, part with some of their profits to Community based initiatives and so on. Develop incentive policies NOT penalty based policies. Humans always everywhere prefer the carrot than the stick approach.	Kris	Western Cape		retired

	2025-07-09 00:47:05	Yes I do	30% local ownership	Why should a successful entrepreneur be punished in the sense he/she has to give up 30% ownership of a company they have created based on an identified need for their product or service just because of their skin colour. So, I support the efforts of the Govt to reduce/ eliminate BB-BEE requirements for Starlink. My argument might be different if there was a local South African/ African company able to provide the services that Starlink provides in an effective and affordable manner but at this point in time there isn't. Connecting regional and rural communities and businesses (like farms) to reliable and high speed internet will be a very good thing and provide mid- to long-term additional benefits. 	2025-07-08 22:57:40	Yes I do	30% local ownership	As SpaceX has eloquently laid out in their letter dated 15 June 2025, the ICASA regulations do not line up with current B-BBEE ICT Sector Code, so this is less about "abolishing" B-BBEE (as others have stated) and more about fixing a flaw in the current regulations that is preventing game-changing technology from being deployed in this country. The 30% local ownership requirement within the current ICASA regulations is a blinkered approach and continuing to enforce it is a folly that risks the country being "left behind" from a technology standpoint. The EEIP, used within many other South African industries, is an excellent alternative. Allowing Starlink to operate within South Africa is a net positive for the country and we should be embracing the opportunities it would present to uplift South Africans from all walks of life.	Scott

	2025-07-08 18:23:31	Yes I do	30% local ownership	I strongly support the proposed policy direction to amend BBBEE requirements. This is a vital step towards boosting internet access, particularly in underserved rural areas, by enabling providers like Starlink to enter the market through an equity-equivalent investment program. Such a move fosters competition, innovation, and foreign investment, which are crucial for South Africa's economic growth and job creation. It offers a pragmatic way to achieve transformation goals while attracting global players. Modernizing our regulatory framework ensures we remain competitive and connected, ultimately benefiting all South Africans. I encourage everyone to voice their support for this progressive policy.	Danid	Western Cape

	2025-07-08 14:43:19	Yes I do	30% local ownership	Comment on Proposed Amendment to B-BBEE Requirements for Telecoms I believe it does not make sense to enforce a 30% local ownership requirement on international telecoms companies like Starlink. Such a policy is likely to deter foreign investment, ultimately resulting in fewer jobs and reduced economic opportunities for South Africans. Removing this requirement could open the door to significant advancements in rural connectivity and digital inclusion. Access to fast, reliable internet will support the growth of IT infrastructure and remote work opportunities, promote entrepreneurship, and empower communities that are currently underserved. In this case, easing the ownership requirement could have a far greater net positive impact on South Africa's economy and social development than enforcing rigid compliance. I therefore support the removal of the B-BBEE ownership requirement for foreign telecom operators.	Leoni	Mpumal anga		employed individual
	2025-07-08 14:41:19	Yes I do	30% local ownership	Musk made a massive offer to help schools with connection for free. Why does this not count as helping historically disadvantaged more than just giving the fat cats another 30% for nothing?	andrew	Limpopo		self-employed
	2025-07-08 14:41:18	Yes I do	30% local ownership	Get rid of BEE restrictions altogether. It stifles broad based economic activities/initiatives.	nick	Norther n Cape		retired

	2025-07-08 14:40:24	Yes I do	30% local ownership	I am in favour of any policy which gets rid of BEE requirements. We are all aware that these circulate wealth in SA amongst a small number of elite individuals and individuals with political connections and do nothing to help the disadvantaged, the hard-working or the unemployed. They extremely bad for the economy and therefore for the bulk of SA citizens. The poor and unemployed, as usual suffer worst from the economic damage caused by BEE, the huge costs of preferential procurement and from affirmative action. Affirmative action frequently means that whites (and now often Indians and Coloureds) are not even short-listed or interviewed for jobs (clearly unjust) and the jobs are then filled by black people, selected not on merit but because of the colour of their skins. This may often mean that the person appointed is not the best person for the job, which, in turn, means that right across the economy a high proportion of jobs are being done by someone who is not the person who could do that job best. The effects of this across the whole economy result in low efficiency and productivity levels and very slow growth. Obviously BEE requirements are particularly unjust because they take 30% of the business someone has built up and give it away to someone else who has done nothing to deserve it and will in no way contribute the the value or efficiency of said business. If government wants to improve the opportunities of disadvantaged citizens the best way to do so is to improve the quality of their education (instead of the reverse) and provide opportunities by adopting policies which stimulate economic growth and employment. I am in favour of any policy which moves away from BEE, affirmative action and any other race-based policy.	Dawn	Eastern Cape		retired
	2025-07-08 14:40:16	Yes I do	30% local ownership	BEE has destroyed our economy and has NOT uplifted black people, except for a few politically-connected elite. We need to get rid of it as soon as possible. If this is a start, I am all for it.	Alison	Western Cape		business owner

	2025-07-08 14:28:46	Yes I do	30% local ownership	B-BBEE is damaging the economy and miserably failing to deliver what the public truly needs: JOBS. Job creation—not the forced transfer of business ownership—should be the priority. Nothing is stopping previously disadvantaged individuals from starting and owning businesses, apart from a stagnant, low-growth economy. Business ownership alone will never redress the past, and this government's policies are keeping the idea of redress alive indefinitely. It's time to move away from a culture of victimhood and toward one of responsibility—feeding yourself, educating yourself. Nothing in life is free, and pretending otherwise is a dangerous lie. The real issue in South Africa is not unresolved inequality, but mass unemployment—even among university graduates. We have a growing number of educated people who still can't find work. Replacing a few high-level positions with 'redressed' candidates won't even scratch the surface of the unemployment crisis.	Theron	Gauteng		employed individual
	2025-07-08 14:28:28	Yes I do	30% local ownership	Individuals should be allowed to empower themselves through a merit-based policy and their own knowledge and skill. BBBEE is destroying this country.	Ken	Western Cape		retired

	2025-07-08 08:47:50	Yes I do	30% local ownership	If the previously disadvantaged model is a requirement then it closes the market to foreign investment. Who would want to invest the economy if they are obligated to give 30% away. Nevermind if the government was to say that it needs to be a bigger percentage. This requirement for foreign investment will hinder opportunities for all South Africans, including those who are previously disadvantaged. This will block foreigners wanting to provide life changing services and products that could potentially improve opportunities to improve the socio economic standing. In the effort of transformation as a requirement for foreign investment it will hold back the very people whose lives need to be changed to level the playing field for those who wouldn't otherwise have access to such goods and services. Starlink being one of these life changing opportunities.	Dominique	Gauteng		self-employed
	2025-07-08 08:45:43	Yes I do	30% local ownership		Ndondo	Gauteng		unemployed individual

				What GPT says: Key Problems with BEE Policies in South Africa 1. Perceived Enrichment of a Few Problem: Critics argue that BEE has led to the enrichment of a politically connected elite, rather than broad-based empowerment. Consequence: A small number of individuals or families accumulate significant wealth and ownership stakes, while many intended beneficiaries remain economically marginalised. 2. Fronting and Tokenism Problem: Some companies engage in fronting—appointing Black individuals to positions of ownership or directorship without genuine control or benefit. Consequence: This undermines the spirit of empowerment and perpetuates inequality behind a compliant facade. 3. Increased Red Tape and Bureaucracy Problem: BEE compliance often requires complex documentation, verification, and scorecard management. Consequence: Small and medium enterprises (SMEs) may struggle to compete due to administrative burdens or cost of compliance. 4. Disincentives to Merit-Based Hiring Problem: A focus on race-based targets over skills and merit can lead to hiring or promotion practices that overlook capability. Consequence: This can impact productivity and cause resentment among employees, undermining morale and cohesion. 5. Limited Focus on Long-Term Skills Development Problem: Many BEE initiatives favour ownership and equity deals over meaningful investments in education, upskilling, and enterprise development. Consequence: Without skills, the long-term economic transformation is unsustainable and superficial. 6. Perception of Reverse Discrimination Problem: Some South Africans feel excluded or disadvantaged by BEE policies, especially white and Indian minorities not classified as 'Black' under the framework. Consequence: This can create social division and hinder national unity. 7. Impact on Foreign Investment Problem: Investors may be wary of ownership transfer requirements or regulatory complexity. Consequence: This can deter much-needed foreign capital and l

	2025-07-08 08:26:05	Yes I do	30% local ownership	Dear Minister Malatsi, I fully support the proposed police direction that would remove Broad-Based Black Economic Empowerment (BBBEE) requirements from ECNS and ECS licensing in the ICT sector. The current ownership requirements are outdated and have actively discouraged global investment in South Africa's digital infrastructure. In a country where millions remain without reliable internet access-especially in rural and underserved communities-it is unacceptable that policies intended to uplift are instead limiting progress. The arrival of advanced services such as Starling has the potential to revolutionize connectivity, education, and economic opportunity nationwide. Enforcing rigid ownership thresholds on foreign companies has created a wall, not a gateway, to development. Removing BBBEE requirements in this context is not a dismissal of transformation-it's an evolution of it. We can and must explore alternative means of empowerment, such as infrastructure investment, local training programs, and social upliftment initiatives that deliver direct and measurable impact. This draft policy direction is a critical step toward aligning South Africa with international best practices, encouraging innovation, and unlocking inclusive economic growth. I urge the Department and ICASA to take bold action and approve this amendment without delay. Sincerely, Johan Hennessy	Johan	Gauteng		employed individual

	2025-07-08 08:23:05	Yes I do	30% local ownership	There are much better ways to have the communities benefitted from infrastructure investment than to allow 30% ownership of companies that will only benefit a few connected people.	Dirk	Norther n Cape		retired
	2025-07-08 08:22:55	Yes I do	30% local ownership	People must work hard for their money, we can't hand out opportunities to people without them having earned it. Everything can't be handed out on a silver platter all the time. It's not fair to those who really work hard.	Kathryn	KwaZulu -Natal		business owner
	2025-07-08 08:22:43	Yes I do	30% local ownership	South Africa urgently needs broader internet access to support education, small businesses, and job creation—especially in rural and underserved areas. Starlink's satellite internet technology offers a unique and immediate solution, capable of reaching remote communities that current infrastructure cannot. While BEE remains vital for redress and inclusion, the 30% ownership requirement may unintentionally block high-impact global innovations like Starlink, particularly when the service is not extracting local resources or operating in traditional sectors. In such cases, flexibility within the BEE framework—such as alternative empowerment contributions like skills transfer, local job creation, or digital inclusion programs—should be considered. Allowing Starlink to operate without mandatory equity transfer, especially when it's not targeting wealthy urban markets, would be a pragmatic move that prioritizes connectivity for all South Africans. Empowerment can take many forms, and access to information is one of the most powerful.	Adele	Free State		business owner

	2025-07-08 07:44:06	Yes I do	30% local ownership	I live in a rural community in the Northen Cape. Over 80% of the inhabitants are unemployed due to lack of access to job oppertunities. Remote employment oppertunities cannot be accessed due to lack of signal and Internet availability. Recent development of big solar farms and wind farms will make the area one of the biggest suppliers of independant electricity suppliers in RSA. Starlink access to Internet will increase the oppertunity for local people to I prove the education level of all and to be able to access job oppertunities offered by these power supply companies. Correctly workers from other areas are being brought into our community and local upliftment is neglected. Rural safety will also be vastly improved if local farmers can get access to improved communication networks.	Karin	Northern Cape		employed individual

	2025-07-08 06:21:53	Yes I do	30% local ownership	It is time, that the genre of BBBEE forcing HISTORICAL white-owned companies to GIVE 30% of their companies AWAY to previously disadvantaged black South Africans comes to an end. They had nothing to do with the creation of said company, look what has happened to SA in the space of 30 years. We are basically at junk status and our infrastructure is fucked. It is time EQUALITY returns. And we are ALL COMPENSATED FAIRLY A FOR WHAT WE DO. This where people are posted in positions they don't have the QAULIFICATIONS is nonsense man, this is why our land is where is is. I have no problem with Black South Africans, but they most inane decsion taken 30 years ago is to place someone in a position of power WITH ZERO EXPERIENCE has placed our country into the shit where we see ourselves now. The EFF are a prime example if inane stupidity and behaviour. Hate speech (the book, Animal Farm comes to mind) singing death songs. It is about time EQUALITY is brought into SA for fuck sakes. 	2025-07-08 05:38:28	Yes I do	30% local ownership	New market entrants – including those offering new or disruptive technologies – will not be exempt from transformation obligations. Even if companies are not rolling out large-scale infrastructure, they will be required to make commitments that are substantive and clearly aligned with South Africa's socio-economic development goals. Different technologies may have different rollout models, but transformation is non-negotiable – all players must contribute meaningfully to equity, skills development and economic inclusion. ICASA's regulations may continue to require 30% equity ownership by historically disadvantaged individuals but must also permit commitments envisaged by the ICT Sector Code as valid conditions for applications for individual licences. 	2025-07-07 20:00:53	Yes I do	30% local ownership	I have a small business. I employed 8 people and casuals. Due to BBBEE requirements I lost 3 of my major contracts, although I am supposed to be micro exempted. I could only keep the contracts if I appointed a black partner. My business is too small for that. As a result, 3 of my employees had lost their jobs as well as the casuals. The people on the ground don't benefit from BBBEE.	Paula	North West		business owner
	2025-07-07 19:53:53	Yes I do	30% local ownership	While I fully support South Africa's transformation goals, the 30% local ownership requirement should not block critical infrastructure like affordable internet access — especially in rural and underserved communities. In the case of Starlink, a more flexible or phased approach would still promote empowerment without delaying much-needed connectivity and digital inclusion. I support this direction because at least someone is finally trying to do something positive for the country — bringing real solutions to real problems, like access to internet. Too often, decisions are made for personal gain or political interest, but this could actually make a difference in people's lives. We need to start prioritizing the needs of South Africans over red tape and power struggles.	Liezl	Western Cape		self-employed

	2025-07-07 14:55:38	Yes I do	30% local ownership	As a small business ower, I have been negatively affected by BBBEE for many years. Having had to hand over 51% of the company shares to reach a level 2 and to no avail. In my industry it is level 1 that counts, not service. I am completely opposed to BEE discrimination.	Julie	Western Cape		business owner
	2025-07-07 14:49:19	Yes I do	30% local ownership	Ok we must open the economy to everybody. Stop discriminating against anybody. Let they who wants to work do the work.	Arthur	North West		retired
	2025-07-07 14:49:18	Yes I do	30% local ownership	Ok we must open the economy to everybody. Stop discriminating against anybody. Let they who wants to work do the work.	Arthur	North West		retired
	2025-07-07 14:48:10	Yes I do	30% local ownership	The current framework which has been in place for a long time has not achieved the redistribution of wealth in South Africa- a few have profited but not nearly enough of the South African population have seen their income, opportunities or living conditions elevated. By focussing on skill and technology transfer as well as education, we can empower South Africans to learn and make opportunities for themselves armed with education and knowledge that cannot be takes away from them. The 30% requirements of BBEEE means that wealth just ends up in the hands of a few because of their colour and it doesn't create growth, education and opportunity in a country with a young, ready to go work force which is stuck with one of the highest youth unemployment rates in the world- we need education, knowledge and investment to create opportunities, not the dishing out of equity based on skin colour. We need to give young South Africans an opportunity to thrive, grow, be positive- and this will hopefully- in the long run- have a positive impact of rising crime levels too.	IL	Western Cape		employed individual
	2025-07-07 14:45:53	Yes I do	30% local ownership	I agree that foreign investors should contribute to upliftment, but the 30% ownership for previously disadvantaged folk has not proved to be in the interests of the average citizen, but benefits and enriches a chosen few. More foreign investment is vital to job creation, economic growth and improving services . This needs to be the driver of policy direction.	Sue	Western Cape		retired

	2025-07-07 07:47:24	Yes I do	30% local ownership	BBBEE is the reason why we have high levels of corruption in South Africa. Good and competent Contractors who are not connected to the officials who called for tenders are disqualified. It is then easy to choose contractors who are bbbeee compliant. Tender prices are then irrelevant, and the officials then receive a kick back whilst there is enough money to do the contract. These contractors are mostly inexperienced and usually do not finish their contracts. If BBBEE is abandoned the best contractor will get the job and there will be scope to go in partnership with inexperienced contractors to be trained and gain experience .	Koos	Limpopo		retired
	2025-07-07 07:46:29	Yes I do	30% local ownership	There are many innovative, capable and patriotic people in SA who are being denied opportunity and to impact our country positively. It is time for all SA to work together	Linda	KwaZulu-Natal		retired
	2025-07-07 07:46:26	Yes I do	30% local ownership	30% local ownership where uncontrolled or no oversite in an ANC government who have stolen and mismanaged SA funds for 30 years cannot be allowed to ruin further potential investment in a failed ANC economy.	Lyle	Gauteng		self-employed

	2025-07-07 07:28:17	Yes I do	30% local ownership	Mandating 30% Black ownership for private companies setting up in South Africa can hamper economic growth by creating an unnecessary barrier to investment. While the goals of transformation are valid, forcing equity transfers on new businesses, especially those not seeking government contracts or tenders, can deter foreign and local entrepreneurs who are already committed to contributing to the economy through job creation, local procurement, tax payments, and employee benefits like pensions and medical aid. These companies support broad-based development without needing to cede ownership. BBBEE policies make sense in the context of public-sector partnerships, but extending rigid ownership requirements to all private enterprises risks stifling innovation, competitiveness, and much-needed economic dynamism.	Izak	Gauteng		self-employed
	2025-07-07 07:27:58	Yes I do	30% local ownership	Black empowerment is just a catch phrase for the ANC elite to pig out at the trough....the " empowerment" will never each the people who need it most.	Sally	Gauteng		retired

	2025-07-07 05:17:37	Yes I do	30% local ownership	The largest irony is that BBEEE has become counterproductive. The policy intended to advance growth amongst Historically Disadvantaged Entities are now causing disadvantage to the poor and the rural. The study that Malatsi himself refer to in his letter indicate for every 10% Broadband integration in Middle income countries like South Africa results in 1.21%GDP growth. So now because of ICASA's 30% local ownership BBEEE legislation, it is especially the poor, the undermined, the Rural, the Struggling and Suffering communities of SA that lacks affordable access to fast Broadband Internet. So your BBEEE laws are causing harm specifically to those whom BBEEE is suppose to help. You should change those policies fast in order to promulgate growth again in SA.	Louis			employed individual
	2025-07-07 05:16:58	Yes I do	30% local ownership	In my opinion, there should never have been such a bill in the first place, it has never served the all encompassing citizens of South Africa, but an elite few. This bill has been detrimental to the growth economically and has placed an enormous stress on the relationships of its citizenry as its a racist bill. GET RID OF IT. Let the citizenry of this country do what any citizenry do best and that is naturally grow our economy, without the interference of government. It is time government realized their part in South Africa and that is to serve its people not control them.	Sandra

	2025-07-06 17:58:08	Yes I do	30% local ownership	By removing BBBEE completely it would open many new doors for investment and companies into this country that would afford massive job opportunities and eleviate poverty and crime.	Raymond	Western Cape		employed individual
	2025-07-06 17:56:10	Yes I do	30% local ownership		Elizabeth	Gauteng		self-employed

	2025-07-06 10:52:51	Yes I do	30% local ownership	The non existing South African economic growth and our world record unemployment sits on the back of 30 years of BBBEE policies. It doesn't work to bring economic growth or relieve poverty. It only serves a narrow group of political elites, micromanaging micro parts of the economy. In real terms it's a tax on the buyer where the proceeds of this tax are directed at a small group of predetermined elites AND NOT AT THE STATE'S FICUS. (On a side note, these subjective rules serve as the gateway to corruption and money laundering, as captured in the Zondo state capture commission). We need to make South Africa an attractive investment destination and remove all legislation and policies that counters that commitment of "South Africa is open for business." (i.e. macro-economic reforms). In essence, the concept of central planning must die. The state has the role in supporting this act by dramatically improve basic education (and early childhood development, especially in poor areas), improve infrastructure (roads, rail, harbours and airports), reduce crime and improve the criminal justice system, better public health facilities, and ensure access to an abundance of cheap electricity, safe water and also remove red tape to ease doing business. This is the only way to bring wholesale improvements in South Africa. Removing the 30% local ownership clause for all business sectors, together with other statutory reforms will transform South Africa. Currently there is no growth because of these bad policies.	Werner	Eastern Cape		employed individual

	2025-06-26 08:01:36	Yes I do	30% local ownership	BBBEE under any name has has negatives effects on the economy, not only locally but everywhere in the world that it has been attempted, this contrary to the local narrative has been confirmed by the world economic forum as well as the world banks own finding. When the Afrikaner came into the economy they built a new economy alongside the English run economy and were extremely successful in building their own wealth, they did not need to have it done for them. Any racist policy that requires anyone to give away what they have built is unacceptable, and any system that allows existing business to rather provide support and financial assistance to the black community (which is what this is) is a preferable system.	David

	2025-06-25 11:25:51	Yes I do	30% local ownership	The 30% HDSA ownership requirement for ECNS and ECS licences was meant to promote inclusion and redress inequality. However, in practice, it has become a barrier to innovation and digital access, especially for the disadvantaged communities it intends to empower. The policy must be amended to introduce flexibility in licensing for global satellite-based providers, specifically in scenarios where their services serve public interest objectives such as: 1. Bridging the digital divide in rural and remote regions; 2. Empowering Black learners, entrepreneurs, and communities through access to fast, uncapped internet. Real empowerment is access. Real transformation is ensuring that a child in Lusikisiki can access the same digital opportunities as a child in Sandton. I urge the Minister to amend the current policy framework to allow satellite providers like Starlink to operate under a special dispensation, with tailored transformation commitments that prioritise impact over ownership.	Clara-Marie	Gauteng		employed individual

	2025-06-23 20:01:09	Yes I do	30% local ownership	Racist laws have 100% failure rate. The gift of shares in a company (for NO compensation) dilutes the balance sheet of the investor and there is no control as to who gets the shares. So far ALL such transactions have been gifted to ANC connections thereby depriving the general black population the chance to bring themselves out of poverty. Vouchers, personalised discount to black users of the service and corporate direct investment in education facilities for the disadvantaged would make sure that the investment actually helps those in need and NOT the thieves of the ANC	Larry	Western Cape		business owner
	2025-06-23 19:12:17	Yes I do	30% local ownership	Reverse apartheid is not the reformation this country needs.	Leigh	KwaZulu -Natal		business owner

	2025-06-23 18:19:55	Yes I do	30% local ownership	BBBEE was originally introduced to benefit the previously disadvantaged. Ironically, it only benefits a few who are politically connected and lucky enough to be appointed to the boards of companies. For the vast majority of South Africans, their lives have not changed since apartheid was abolished 30 years ago. Ironically, BBBEE is just apartheid with another name! It does not support the promise of a better life for all! This is a misnomer. The introduction of Star Link , by contrast, will go a long way in assisting those in remote communities to be able to access online education, and thus better themselves so that they may be eventually employed. A solid education, and not BBBEE, is what South Africa desperately need today for a better tomorrow!	Colin	Western Cape		retired
	2025-06-23 18:15:37	Yes I do	30% local ownership	Currently, the 30% is only for a few handpicked individuals. BBBEE should be for all colored, Indian and black people. Currently it's only for a few black people, colored & Indians are excluded.	Patrick	Western Cape		employed individual

	2025-06-23 13:08:17	Yes I do	30% local ownership	It is amazing how the South African ANC cadre government does not understand the issue with the 30% local ownership. Why should anybody handover 30% of their business, technology, patented products etc to a local person??? First it adds 30% more costs to the business and then it discourages foreign companies from investing, which then cuts out, reduces, eliminates future possible job/employment opportunities for the unemployed RSA masses. In the case of starlink its prevents the local population from accessing cheaper and more effective information media. Elon Musk did not get wealthy by handing over 30% of his business to local misinformed lazy people. It seems that China and Russia don't follow the 30% BBEEE principle, only silly western companies, and ofcourse South African companies.	Frank	North West		self-employed
	2025-06-23 13:05:17	Yes I do	30% local ownership	BBBEEE only works for the ANC in their corruption as it is to their advantage and profit to their pockets and only drive away any thought of investing in SA as a safe investment. We need growth and the demise of the ANC and other militant parties. I am also led to believe that the ANC has in itself Covered themselves by importing Chinese workers who have been classified as Black and therefore meet BBBE requirements with several major projects in the Eastern Cape and Gauteng if i understand correctly. these workers are housed within the project and kept out of site. if true it enriches the ANC and deprives thousands of genuine south Africans jobless in the guise of changing the classification of the Chinese to black and thereby meeting their BBBBEE. This must stop and persons responsible if true must be jailed.	Heiki			
	2025-06-23 13:00:01	Yes I do	30% local ownership	I 100% support this decision and can’t urge the relevant parties enough to come to this agreement	Tayne	Gauteng		employed individual

	2025-06-23 10:51:04	Yes I do	30% local ownership	the 30% is again legislation to introduce government control in the area. This disadvantaged S Africans is intended to involve crooks and looters and even if the SA legislation pass Elon Musk will not agree to invest in SA.	Nicos	Western Cape		retired
	2025-06-23 10:45:41	Yes I do	30% local ownership		Cornelia			
	2025-06-23 10:42:10	Yes I do	30% local ownership	The requirement that this industry and others MUST have 30% BBBEEE ownership is resulting in poor overseas investors not seeing SA as an investment opportunity. Any international company will certainly not wish to have 30% of their company controlled by persons or entities they have no business history with. In addition the BBEEE system itself has shown it tends to benefit a group of elite persons who use this as a means to extract benefits and rarely contribute to the well being and development of the company. BBBEEE has been with us for 25 years or so, but our unemployment rate has steadily risen, being around 32% at present, simply because it rarely cascades down to the general black population to whom it should be benefiting. This is the key reason why we desperately need overseas investors and policies that encourage them to invest in SA but not force them into partnerships they do not want.	David	Western Cape		retired

	2025-06-23 10:39:10	Yes I do	30% local ownership	Over the last two decades, the 30% equity ownership requirement under BEE has too often benefitted only a small, connected elite, while leaving the broader poor and rural communities untouched. The time has come to reconsider how we implement transformation—not whether we pursue it. I support the principle that companies operating in South Africa must contribute meaningfully to development. However, transformation should not be reduced to equity transactions that enrich a few at the expense of opportunity for many. Starlink's proposal offers a practical, impactful alternative: providing free high-speed internet to thousands of rural schools and creating jobs through local partnerships. This is real empowerment. We need to allow EEIP models under ICASA licensing to unlock this potential. Transformation is too important to be left in the hands of gatekeepers. The law already allows for inclusive, non-equity-based empowerment—now ICASA must do the same.	Steph	Western Cape		business owner
	2025-06-23 10:39:07	Yes I do	30% local ownership	I feel the 30% local ownership goes to a few already wealthy cadres, with little or no valuable input. BEE would be more supported if the millions of people willing to work were the beneficiaries.	Jean	KwaZulu-Natal		retired
	2025-06-23 10:36:34	Yes I do	30% local ownership		Neil	Gauteng		retired
	2025-06-23 10:32:46	Yes I do	30% local ownership	The 30% local ownership rule hinders investment from overseas. Other means are more inviting like for instance Elons suggestion to provide free internet to schools which actually helps the poor in rural areas instead of money going to BBEEE and not distributed fairly	stefan	Limpopo		self-employed
	2025-06-23 10:31:53	Yes I do	30% local ownership	Forcing 30% previously disadvantaged (black) ownership is holding back technological progress. If we want South Africa to grow and be at the forefront, we need to remove as many hurdles as possible.	Paul	Eastern Cape		employed individual

	2025-06-23 10:27:03	Yes I do	30% local ownership	As a former teacher to all races (thanks to Kriel High Hoërskool Kriel) and it's policy to treat all races equally, I strongly recommend he availability of Starlink for schools and the elderly. However ban the rural area concept that gives an advantage only to rural areas but not to poorer communities. During my years as teacher, I often was frustrated trying to help young parents at school who to had children at early ages, whose children became parents at early school going ages not having the necesarry skills due to the lack of free or cheap technology or funding. Stop the negative BEEE laws and allow RSA to develop!	Maria	Mpumalanga		retired
	2025-06-23 10:26:25	Yes I do	30% local ownership	The BBBEE requirements were specifically made to empower the HDSA community who were systemically disenfranchised from economic and social participation during apartheid. With 31 years passed since democracy, it is time to end the BBBEE which has spawned its own set of race-based discrimination in favour of the overwhelmingly majority race. The policy makes no sense in current scenario. It fosters incompetency, profligacy, waste, inefficiency and distortion in the markets while scaring potential FDI's. The real challenges of the country, unemployment, crime, social and economic inequality, can not be addressed unless there is a massive economic growth spearheaded by private sector, indigenous as well as foreign. Therefore I support the proposed policy and I hope this policy is extended to other sectors as well, except for the extractive sector.	Praveer	Gauteng		business owner

	2025-06-23 10:22:04	Yes I do	30% local ownership	The 30% local ownership is getting SA as a whole nowhere, while enriching the political elite. While the original intention may have been good, the implementation has destroyed the SA economy.	Lindsay	Gauteng		employed individual
	2025-06-23 10:21:54	Yes I do	30% local ownership	OUR ECONOMY NEEDS TO GROW AND BEEE IS STOPING THIS FROM HAPPENING	Karen	Gauteng		self-employed
	2025-06-23 10:20:27	Yes I do	30% local ownership	I support removing the need for 30% local ownership. South Africa needs to embrace innovation that can boost productivity and lower the cost of global connectivity, and enter the global arena on its own two feet without relying on government protection, which holds back investment and economic growth.	Doug			
	2025-06-23 10:20:25	Yes I do	30% local ownership	The introduction of Satellite Connectivity, canot and should not be aimed at advancing money to flow to the pockets of the Elite ANC Cadres. This is a system which will enhance the proficiency and literacy of people on the ground - in the rural areas. These People are deprived from Advanced Education, due to the fact that there is a serious shortage of properly trained Teachers. In addition, every business requires intelligence and connectivity and this will enhance the so called "BROAD BASE" principle. Its not filtering into selected pockets, but in fact does what Government advocates - enhancing the lives of ALL PEOPLE (!!!)	Thys	Gauteng		business owner
	2025-06-23 10:19:53	Yes I do	30% local ownership	I think BEE is inherently racist and has no place in a 2025 South Africa. So abolishing it in any industry is a win, however, we should be careful to not lose our countries telecom sovereignty by having a disruptive force like starlink run local (and by definition smaller) competitors out of business.	Tiaan			employed individual
	2025-06-23 10:17:54	Yes I do	30% local ownership	I support the move to allow Starlink to operate in South Africa and welcome the potential shift away from rigid BEE ownership requirements. While the intention behind transformation policies is important, in practice they have too often empowered connected elites through fronting and phantom shareholding, rather than genuinely uplifting disadvantaged individuals. A more effective model is needed—one that focuses on skills development, access, and real economic participation.	Tabitha	Gauteng		employed individual
	2025-06-23 10:15:53	Yes I do	30% local ownership	To dictate to an international, let alone a local company that it has to have 30%, or ANY percentage of ANY group of people, including "historically disadvantaged" people is absurd. This policy dictates that businesses MUST have 30% black, call it what it is and don't play around with words, which means they must just GIVE a large percentage of a business the owners have taken the risk of raising funds for, spent money and time to employ people for, taken all risks for and explore new markets, all the while that30% just sits back and enjoys the profits without ANY risk to themselves. What lunacy. I wonder what IDIOT came up with this concept laziness and stealing the profits of legitimate businesses.	Tim	KwaZulu-Natal		retired

	2025-06-23 10:12:38	Yes I do	30% local ownership	In order for South Africa to improve our economy and reduce our unemployment we need to employ the right person for the job. We need equal opportunities for ALL South Africans regardless of race, gender, sexual orientation, etc. We also need to curb corruption from the top, i.e. ministers and government officials, to allow every South African the chance to succeed and thrive in our country. We need to stop seeing competition as a dirty word and instead embrace what every individual has to offer South Africa.	Juanita	Western Cape		employed individual
	2025-06-23 10:11:00	Yes I do	30% local ownership	Foreign Direct Investment (FDI) provides infrastructure, skilled management and local employment opportunities, which SA desperately needs. 30% local ownership blocks that.	Cynthia			
	2025-06-23 10:06:58	Yes I do	30% local ownership	I support job creation, not the current BBEEE requirements.	Amanda	Eastern Cape		self-employed
	2025-06-23 10:06:33	Yes I do	30% local ownership	Time for change!	Jenny	Eastern Cape		employed individual
	2025-06-23 10:06:23	Yes I do	30% local ownership	Urgently need changes in this to welcome more investment into the country. Starlink will be hugely beneficial to ALL South Africans!!	Shay	Mpumalanga		employed individual
	2025-06-23 10:05:49	Yes I do	30% local ownership	BBBEE and 30% local ownership are both clearly a major deterant and concern to international investment into the SA economy. SA NEEDS FOREIGN INVESTMENT to fuel economic growth and employment. Its time for change, its time to listen to what the market needs in order to grow, so that there can be a better future for ALL South Africans. The market growth and job employment which will come from these policy changes will benefit more black, coloured and white people in SA so that not only BBBEE elites benefit but ALL SA citizens. Please, for once, lets put the needs of the country and ALL its people first, not what benefits the ruling party.	Dominique	Gauteng		self-employed
	2025-06-23 10:04:25	Yes I do	30% local ownership	Starlink is a company that intends to provide global low latency internet, With crime being so high in south africa having satellite uplinks available to the public will reduce the infrastructure needed to send and receive data without the risk of critical components being stolen. I think documentation preventing this needs to be re-evaluated in todays day and age.	Erwin	Gauteng		employed individual
	2025-06-23 10:03:40	Yes I do	30% local ownership		Philip	Gauteng		employed individual

	2025-06-23 09:30:04	Yes I do	30% local ownership	This would be a small step in the right direction. Equity based policies should be aimed at currently economically disadvantaged South Africans, not previously disadvantaged race groups. This change would be beneficial for the whole country and it would enable Starlink to operate in South Africa changing millions of lives. I support this change to align policy with licensing requirements, however more changes need to be made in order to make this country truly equitable.	Leah	KwaZulu-Natal		unemployed individual
	2025-06-23 09:25:44	Yes I do	30% local ownership	If 30% local ownership is desired, then locals should create these companies themselves. They should not be entitled to access 30% of a company that they played no part in creating and working towards. Business entrepreneurs risk a great deal of their capital, time, energy and ideas to create their companies and they should not have to hand it over to unspecified locals who may have a specific skin colour 30 years after full democracy has kicked in. If the government wants to encourage local black individuals to own companies, it should establish multiple companies and, once they are profitable, hand them over to local black individuals to run. This system is unfair to anybody who risked everything to create a business, but it is even more unfair if it is a foreign company. There are many ways to create employment, but stealing 30% of others people's businesses, should not be the foundation of an economy.	Angela	Gauteng		business owner
	2025-06-23 09:21:05	Yes I do	30% local ownership	Current BBEE only favours the few. Economic growth favours the poorest. Let's focus on that	Dj	Eastern Cape		
	2025-06-23 09:21:02	Yes I do	30% local ownership	It will provide internet connectivity in rural areas – where Internet is most needed – and will even the playing field more than BEE has or ever will.	Sheila	Gauteng		employed individual

	2025-06-22 18:43:44	Yes I do	30% local ownership	I have always maintained that the workspace should be managed on qualification first, then proof of experience, proof of skills and ability to problem solve. It is madness to run a country or business on ineptitude, preferential hiring regardless of ability! As can be seen in our country it has crashed the economy and destroyed a nation!! ?	Pat			self-employed
	2025-06-22 18:37:23	Yes I do	30% local ownership	The 30% local ownership requirement is holding back investment as many major companies refuse to relinquish ownership to take on risk. This should be removed across all sectors to enable small, medium and large enterprises to invest and open up opportunities. More job opportunities results in more economic value added, upskilling of people, and opportunities for entrepreneurship in future to compete with the investors. The beneficiaries of this 30% ownership requirements also do not contribute in a meaningful manner, except, I suspect, to provide political support and enable corruption.	Kenneth	Gauteng		employed individual

	2025-06-22 16:52:27	Yes I do	30% local ownership	Many years ago we had a CECNS and CECS licence in the name of Jabama Safari's CC. We sold our WISP part of the business to Breedenet in 2014 and subsequently they sold to Herotel. During 2022 we sold our membership of the Closed Corporation, Jabama Safari's CC. Both the CECNS and CECS expired as we were not informed that they had to be renewed. Currently the wireless internet service by Herotel in the rural areas, Somerset East a very mountainous area, is extremely poor as they have focused on installing optical fibre in towns and neglected the maintenance and upgrade of their wireless network. I as a sole proprietorship, Martin Swart T/A Jabama Communication, would like to apply for CECNS and ECS license in a small area around Somerset East to service my old clients requesting a superior service. The application will not be successful as I am a one-man operation and thus not BBBEE certified. The application fee of R15 729.00 is non-refundable, even if the application is successful. I find this application fee to be excessive for a sole proprietor with very low turnovers. Another option for my old clients and myself living on the farm Schoongezicht in the Swaershoek valley north west of Somerset East will be Starlink to be approved and the required ECS and ECNS licences issued according to DCDT Policy Direction No. 3218 on 'Equity Equivalents' dated 23 May 2025 .	Martin	Eastern Cape		self-employed

	2025-06-22 11:56:05	Yes I do	30% local ownership	It is evident that the current ICASA regulations and legislation were drafted during a time when Internet services could only be provided by locally based companies with the capacity to build terrestrial infrastructure. However, the emergence of globally based Low Earth Orbit (LEO) satellite Internet service providers presents a new and vital opportunity to improve connectivity—particularly in remote and underserved areas. Unfortunately, the existing regulations, which require 30% black ownership of service providers, do not adequately account for these international entities. An amendment to allow such providers to meet the objectives of Broad-Based Black Economic Empowerment (B-BBEE) through alternative, meaningful mechanisms would be both practical and greatly beneficial. I earn my livelihood by supplying critical support services to remote companies, including clients located outside South Africa. Living in a remote area myself, I have long faced challenges in accessing reliable and consistent Internet. I am one of many South Africans for whom improved Internet access in rural regions could unlock significant economic potential and support the creation of jobs in areas that have traditionally been left behind. I strongly encourage you to implement the proposed changes to ICASA regulations to reflect the evolving technological landscape and to foster inclusive growth through innovative solutions.	Peter	Limpopo		business owner
	2025-06-22 11:55:44	Yes I do	30% local ownership	The ANC government must end the racist BEE policies that we have in South Africa. Enough is enough, we need a free market in order to be able to uplift our people NOT useless laws that prevent both local and international businesses from trading properly in South Africa. Scrap BEE and allow Starlink and others into the country - those of stuck in rural areas with pathetic MTN and Vodacom (read non existant signal!) deserve better - WE WANT STARLINK. 	2025-06-22 11:11:55	Yes I do	30% local ownership	As much as I detest Musk and have no use for starlink I believe that employment should be available to all colours and beee policy should be scrapped.	Colin	Gauteng		retired
	2025-06-22 11:11:48	Yes I do	30% local ownership	work in the NGO sector, supporting some of South Africa's most vulnerable communities. Over the past four years, we have reached more than half a million families through a parenting programme. Our data shows that while over 63% of these families own or have access to a smartphone, more than 95% do not access the internet or use digital resources. This means they remain digitally excluded, primarily due to data poverty and limited or poor ICT infrastructure. Affordable access to Starlink could be a game-changer for these communities. However, the current requirement for 30% BEE local ownership often benefits only the wealthiest 20% of Black entrepreneurs. In this case, waiving the BEE ownership condition for a technology like Starlink could be a far stronger step toward true transformation and digital inclusion than enforcing ownership for its own sake. As South Africa stands on the brink of a digital revolution, rigid application of BEE ownership rules—especially for infrastructure that can address inequality—risks deepening poverty and worsening humanitarian challenges. 	2025-06-22 09:59:33	Yes I do	30% local ownership	1. Improved Internet Access: Starlink's satellite internet can provide high-speed, reliable connectivity to rural and underserved areas in South Africa, where traditional infrastructure is limited or unreliable. This could bridge the digital divide, benefiting millions with better access to education, business, and communication. 2. Economic Growth and Innovation: Enhanced internet access can drive economic development by enabling small businesses, startups, and entrepreneurs to compete globally. It can also attract investment and foster innovation in sectors like e-commerce, remote work, and technology. 3. Competition in Telecoms Market: Allowing Starlink to operate introduces competition, which could lower costs and improve service quality for consumers. South Africa's telecoms market has faced criticism for high prices and inconsistent service, and Starlink could challenge incumbent providers to improve. 4. Job Creation: While the BBBEE requirements aim to promote economic inclusion, Starlink's entry could create indirect jobs through improved connectivity, supporting industries like tech, agriculture, and education. The policy change could also set a precedent for more flexible regulations, encouraging other global companies to invest in South Africa. 5. Global Connectivity Standards: Starlink's technology aligns with global trends in satellite internet, positioning South Africa to keep pace with modern infrastructure. This could enhance the country's competitiveness in the global economy. 6. Potential for Policy Reform: Supporting this policy could pave the way for broader reforms in BBBEE requirements across sectors, making South Africa more attractive to foreign investors while balancing transformation goals. 	2025-06-22 08:31:24	Yes I do	30% local ownership		Gerald	Western Cape		self-employed
	2025-06-22 08:30:08	Yes I do	30% local ownership	We need opportunities to grow our economy, to create jobs and decrease unemployment. Whether you like it or not, BBBEE is too strict and is not pro-poor. Instead of promoting the creation of jobs, it restricts new business formation, and leads to job market stagnation. So many people WANT the dignity of a job. Allow them this opportunity by making it easier for anyone to create a business that will employ others. This will help our economy at large, and as a result, ALL our people. Yes, capitalism sucks but we are in such a terrible unemployment crisis now, we have no choice.	Kathryn	Western Cape		employed individual
	2025-06-22 08:28:29	Yes I do	30% local ownership	As a country we need to move forward with hyper growth, we must create a more seemlessl way of enabling business in south Africa. Our unemployment rate is so high and there are not enough opportunities for our people.	Frank			
	2025-06-22 08:18:43	Yes I do	30% local ownership	BBBEE policy does not empower the broader society. It benefits only those close to power	Supply	Free State		employed individual

	2025-06-21 18:51:33	Yes I do	30% local ownership	It is obvious from proved experience that all BBBEE-policies approved and applied within South Africa's economy at present does cause enormous then irreversible damage and harm to both the South African Economy as a whole and specifically then to the so-called poor citizens it should effectively advance as direct result. In fact each and every, both so-called both poor and middle-class, citizen in South Africa is being caught in a downward economical death spiral in getting poorer and poorer year-on-year, while only a selected fortunate few on the contrary are getting richer at an vast escalated and accelerated rate and scale. Excuse me by reflecting towards race in placing this in context, but I am obviously referring to the vast enrichment of an continuous expanding selected group of black people spesific benefitting directly from BBBEE in this instance. It is further proven that no ordinary then average hard working citizen, regardless race, of our beloved country South Africa had ever received a single dimes direct upliftment from BBBEE policies. BBBEE is eventually actually making South Africa the laughing stock from all quarters in the rest of the world in trying doing business on an equal opportunity in our country. Instead of assisting and guiding poor people in starting their own business in bettering their own life's and livelihood successfully from scratch, the politicians want to place and divert the burden thereto onto those people already running their own business successfully to the benefit of all citizens and South Africa as a whole, i.e. improved employment levels, more income tax, more company tax, increased VAT income etc, etc. Do one still have to guess and wonder why business owners and investors of mega sized companies already started leaving South Africa by an continuously accelerated rate in taking their business to countries benefitting then not degrading their investment expectations and profitability in return. 	2025-06-21 17:20:22	Yes I do	30% local ownership	I support the proposed policy direction to ICASA to amend B-BBEE requirements in the ICT sector. This step is vital for fostering a more inclusive and competitive industry that reflects South Africa's diversity. Amending these requirements will help correct inequities in ownership, control, and access, while empowering smaller black-owned enterprises to grow and compete. It aligns with the goals of Digital Transformation South Africa by bridging the digital divide and expanding access to ICT services. The proposed changes also promote sustainable investment and balance economic transformation with growth. A more inclusive sector will drive innovation, stimulate economic activity, and create much-needed jobs. We commend ICASA for advancing a regulatory framework that supports equity, transformation, and broad-based economic participation in the digital economy.	Carl	Western Cape		employed individual
	2025-06-21 17:15:34	Yes I do	30% local ownership	Demanding 30% ownership is like taxing investors up front to trade and create employment. Government should be incentivising investors who take financial risk, instead of penalising them. ANC have no clue how difficult it is to start and run a successful business as none have any experience in achieving it. No wonder we have such high unemployment, even with the failed BEE and affirmative action in place the last 31 years.	Albert	Western Cape		business owner
	2025-06-21 17:13:31	Yes I do	30% local ownership	We need Starlink to enable outlying country areas to obtain Internet coverage. The 30% indigenous ownership requirement is killing investments. 	2025-06-21 15:46:00	Yes I do	30% local ownership	Dear Mr. Malatsi, South Africa stands at a critical crossroads. We can either continue to cling to outdated policies that are failing our people, or we can be bold enough to say: enough is enough. Let me be frank — BBBEE has failed. It may have been designed with good intentions, but after two decades in practice, it has become a tool for elite enrichment, institutionalised corruption, and lost opportunity. And it is now actively blocking innovation that could uplift the very communities it was meant to help. A case in point? Elon Musk's Starlink. Here we have one of South Africa's greatest exports, offering a transformative technology that can connect even the most remote parts of our country to the digital world. Starlink could be a game-changer for rural education, township economies, online work opportunities, and disaster response. Yet we are turning it away — not because it poses any risk, but because it doesn't tick the boxes on an obsolete ownership scorecard. Let's be brutally honest: Starlink doesn't need South Africa. But South Africa desperately needs Starlink. And if BBBEE regulations stand in the way, then BBBEE needs to go — or be radically reformed. The Case Against BBBEE Below are just a few of the undeniable truths: 1. It Enriches the Few at the Expense of the Many Former President Kgalema Motlanthe himself stated in 2022 that BBBEE has "not benefitted the poor." The policy has created a small, politically connected elite, while black youth unemployment has skyrocketed to over 60%. 2. It Encourages Corruption and Fronting The B-BBEE Commission reported that over 45% of verified deals in 2021 involved fronting or misrepresentation. Instead of driving transformation, it incentivises gaming the system — with little to no impact on the ground. 3. It Deters Foreign Investment and Innovation Starlink is a glaring example. A technology that could empower millions is being blocked by race-based ownership rules. I could go on. Be wise see the bigger picture	Tony

	2025-06-21 14:59:42	Yes I do	30% local ownership	The 30% local ownership always goes to someone who is well connected to the government and benefits a tiny number of people and may create a few jobs. If the 30% BEE local ownership was removed, this would attract more overseas investment. Starlink is invalueable in empowering rural communities by providing internet connectivity - which would take years to reach them through current technologies. Yes, there are other Starlink-type operations out there as pointed out by an ANC minister - but these do not compare with the coverage of Starlink and it will take several years for any of them to reach a similar level of coverage and sophistication of Starlink. Eswatini, Botswana and Zambia already have Starlink !!!! Demanding 30% local ownership of a company is nothing short of extortion - well known to gangsters world-wide. BEE is killing this country !!!!!! We need to act NOW to abolish BEE so that we can create much needed jobs !!!	Tony	Western Cape		
	2025-06-21 14:56:36	Yes I do	30% local ownership	The 'previously disadvantaged' are the same top 1% of the ANC. The real disadvantaged (50-60%) are ignored and stay poor and jobless. BBBEE has evolved in a racist policy that does not create growth or employment. It is sabotaging the country.	Andre	Gauteng		retired
	2025-06-21 14:53:06	Yes I do	30% local ownership	For this country to move forward and also to creat a more competitive market starlink mist be aloud to operate without BBBEE. 	2025-06-21 09:25:53	Yes I do	30% local ownership	I support the removal of BBBEE requirements which are racist in nature and exclude people from participation in the economy based solely on their race. The Government seems to forget that Apartheid was ended by a white vote, not a black struggle. The misdirected belief that punishing the minority who did not make policy and who actively ended it as soon as they were given the choice is not an open act of racism must be ended. As each year passes less and less people who might have benefitted from Apartheid remain, The ANC's failed education policy and not race, religion or culture is the root cause of the failed state. Once the ANC accepts that the only future for the country and its people is a democracy supported by those in the international community who have value to add the sooner the country can start to progress and uplift all. Communism is a failed model, and a dead end street.	David	KwaZulu -Natal		employed individual
	2025-06-21 09:24:20	Yes I do	30% local ownership	My concern is that some of the government policies like this one STIFEL growth. Do you really want this country to turn into Zimbabwe because of short sighted policies that are actually doing more harm than good?	Justin	Gauteng		employed individual

	2025-06-21 06:09:46	Yes I do	30% local ownership	Whilst I support the relaxing of BBBEE regulations I still support the opportunities 30% ownership would afford previously disadvantaged communities to become active in the economy. I am aware that past practice has not been ideal what with the manipulation of the system to benefit a very few politically well connected and their friends. A solution has to be found that allows for a broader base of citizens to become financially active in our economy. Ideally BBBEE should be scrapped fully and all South Africans, including less melinated ones like myself, can freely become investors in a truly new and great South Africa.	Brad			retired
	2025-06-21 06:00:59	Yes I do	30% local ownership	Bbbeee has outlived its purpose and we all are aware that despite its good intention, it was easily overtaken and manipulated by the greedy ANC connected few. The sooner bbee is scrapped the more chances are for the job creation and economic growth.	Dinkoanyan e	Limpopo		retired

	2025-06-20 15:39:33	Yes I do	30% local ownership	After 30 years of BBBEE, it is obvious to all — except the ANC who are personally benefiting from this corrupt system — that it has been a selective enrichment scheme for the connected few (a trillion rands divvied up between 100 free-loading billionaires), leaving most South Africans (the vast majority black) impoverished.	Ingrid	Western Cape		self-employed
	2025-06-20 15:36:20	Yes I do	30% local ownership	We are sick of Narrow Based Black Empowerment, servicing the corrupt at the expense of all citizens.	Sharlene	Eastern Cape		unemployed individual
	2025-06-20 15:32:40	Yes I do	30% local ownership	Transformation is good, but transformation through BBBEE has destroyed our economy. BBBEE only benefits a few politically connected individuals while the majority of the previously disempowered wallow in abject poverty. What has BBBEE done to curb the triple scourge of unemployment, poverty and inequality, the problem that was touted since the dawn of our democracy.... ABSOLUTELY NOTHING. We are still hearing about this scourge to date. BBBEE is not the solution, the solution must come in a form of a benefit to the broader society not those few with connections to power. Let the benefit be long term and solve our current economic problems. Use transformation regulations that empower people and communities immediately and in the long term. There are so many problems that can be solved using transformation laws. Laws that will bring benefits that provide long term and sustainable employment to our youth and graduates, that will assist in broadening affordable electricity to everyone, help fix our current water woes, broadband connectivity to rural and far flung areas, equal and good quality education to all, help fix transportation issues, improve our road infrastructure, assist SMME's through skills transferral and financial assistance, annihilate high crime rate for good... The list goes on and on. Transformation should work for the society at large, not empower and re-empower a few, over and over again. With the kind of issues, some which are caused by our ailing economy and some that existed from the dawn of the new democracy, transformation, if it was implemented effectively and efficiently from the beginning, would have solved all these issues. The country would have a stable and thriving economy, not an economy with most of our working age people dependent on government for handouts. We need to review the transformation laws to benefit all our people and move our country forward. Give our people their dignity back.	Itumeleng	Gauteng		employed individual

	2025-06-20 14:25:58	Yes I do	30% local ownership	Starlink would be able to bring real changes, not just making our already bloated government employees richer with unearned shares whilst the poor continue to suffer. Imagine people in the rural areas having available and affordable connectivity. Imagine rural schools having access to the internet. Imagine the difference it would make to teachers and pupils to have learning tools at their disposal.	Jenny	KwaZulu -Natal		retired
	2025-06-20 14:22:48	Yes I do	30% local ownership		Janet	Gauteng		retired
	2025-06-20 14:20:45	Yes I do	30% local ownership	BBBEE only makes sense, morally and economically, if the 30% consists of QUALIFIED PEOPLE who can do their jobs as well as other people. To impose a black manager on an electrical company even though he works in a sports shop is contra productive, if not downright idiotic, and smells of nepotism.	Clea	Gauteng		retired
	2025-06-20 14:20:42	Yes I do	30% local ownership	Anything that will improve the lives of So uth Africans, especially the unemployed, will help drive the economy and reduce poverty. Scrapping or at least amending BEE to attract investment and create employment and improve services is vital to South Africa's future. BEE has , unfortunately, created a super rich class of black people and encouraged corruption and nepotism while creating an ever widening gap between the rich and poor. It need to go as it is clearly not working, at least not in its current fotm and application.	Valerie	KwaZulu -Natal		business owner
	2025-06-20 14:18:26	Yes I do	30% local ownership	The BBBEE policies are harming our economy, by increasing the obstacles and cost of doing business in South Africa. As a result, they are discouraging investors from investing in South Africa. They need to be scrapped, if we can hope to see the level of investment needed in South Africa to grow our economy by more than the rate of population growth. Only by achieving that will we start to see a sustainable decline in mass, and unnecessary, unemployment. It is time to act now, before it is too late. Failure to act impacts on increased crime levels, (the unemployed must eat) and fuels social unrest, which in turn will inevitably lead to a potentially catastrophic social uprising. Scrap BBBEE and other race based discriminatory legislation, and South Africa will become a booming African Economy, where millions more jobs will be created. A true "win, win" situation.	Roland	Gauteng		employed individual

	2025-06-20 13:07:00	Yes I do	30% local ownership	BEE got no more meaning in our society it is long overdue to get the country back on track it needs to stop immediately otherwise there is no future for anyone	Charles	Gauteng		retired
	2025-06-20 13:06:59	Yes I do	30% local ownership	BEE got no more meaning in our society it is long overdue to get the country back on track it needs to stop immediately otherwise there is no future for anyone	Charles	Gauteng		retired
	2025-06-20 13:06:13	Yes I do	30% local ownership	BBBEE is a handbrake on investment in this Country. Our economy needs all the help it can get from investors . They should be encouraged ,not told who they should employ , in what percentages .	Heather	Gauteng		self-employed
	2025-06-20 13:02:46	Yes I do	30% local ownership	Any investment from outside the country should be greatly encouraged, otherwise the government is stirring the same pot to find revenue. 30% local ownership (even if it is bought, though probably not!) is ridiculous. That does not benefit the poor but puts more money into the pockets of the rich and is a deterrent to investment.	Denise			retired
	2025-06-20 13:00:25	Yes I do	30% local ownership	We need to lower the cost of the internet service . Competition is good for the consumer and this will allow rural areas to have access to the services. We should allow business to do business and reduce red tape successful business will pay tax which will assist government to provide social services.	Yvette	Gauteng		retired
	2025-06-20 12:56:24	Yes I do	30% local ownership	We need to have a Free Market if South Africa is to survive. We need to do away with dodgy procurement deals and middle men.	Jacqueline	Gauteng		retired

	2025-06-20 12:24:42	Yes I do	30% local ownership	If you cannot buy in to own the business (or part thereof), is effectively theft to just hand over ownership! Rather scrap BBBEE in its entirety so that business can operate without any hinderances, which in turn will ensure the business can operate effectively and if prosperous grow. If a business grows, more employment opportunities will be created! If more employment opportunities are created, salaries and wage can be used to buy into the business if the employees wish to do so! Business ownership only benefit elites (whom leech and syphon money out of businesses!), not the general populace being employed.	Theron	Gauteng		employed individual
	2025-06-20 12:24:38	Yes I do	30% local ownership	By removing the BBBE policy it will encourage foreign investment and job creation. That is what RSA needs desperately.	John	Gauteng		retired
	2025-06-20 12:23:40	Yes I do	30% local ownership	It is patently clear that BBBEE ownership rules have only benefited a small minority of politically connected individuals. Black South Africans do not need ownership; they need jobs! If having to relinquish ownership drives businesses away, then BEE is bad! We cannot have a nation of business owners; we need jobs for employees!!	Gareth	Eastern Cape		employed individual

	2025-06-20 12:12:14	Yes I do	30% local ownership	There is no justification for a BBEE policy 30 years after democracy. This policy only helps to enrich the select few & does not in any way help the poor or marginalized. If anything, as this is an additional cost, it has to be passed on to the consumer eventually, thus pushing up the cost to the consumer, & in many instances., making it unaffordable. Also, this policy only helps to make people in an entitlement mode , & stifles any form of initiative to discover or innovate anything. Ask the question honestly, what have you invented that you can lay claim to & be proud of. We have enough latent which needs to be nurtured & developed.	Atmaram	KwaZulu -Natal		retired

	2025-07-16 18:29:17	Yes I do	No concern	It would be a great advantage to have Starlink here, and BBBEE has not really benefitted the grassroots populatoin and has discourafged investment, so the condition for Starlink will not impacr South Africa detrimentally.	David	KwaZulu-Natal		retired
	2025-07-16 17:37:09	Yes I do	No concern	As an educator and trained health care provider, who has worked in rural settings, I truly think we need solutions to improve services to all and this potential access to communication and internet services throughout South Africa will open doors for many people across South Africa, who simply don't and haven't had access to date. The rest of the world is rapidly gaining from the advantages that come with communication and information opportunities (especially in this digital age) and so we will be even more surpassed if we don't come up with viable solutions for people (especially your young people)to access information which is globally available soon. The added social investments will provide many extra opportunities for many people and change the lives of South Africans who need economic investment from large global companies. We have to grow our economy and utilise every possible opportunity to do this; otherwise, we will all suffer the consequences of a weak economy, and the poor will suffer the most. 	2025-07-14 17:17:24	Yes I do	No concern	Loosening B-BBEE restrictions for Starlink would actually BENEFIT the very people the policy aims to uplift! It will rapidly expand internet access to rural and previously disadvantaged communities, where traditional infrastructure is lacking. By enabling affordable, high-speed connectivity, Starlink would empower millions through online education, remote work, and digital entrepreneurship, achieving real economic inclusion, and even strengthen security by improving connectivity for rural police stations. In this case, easing rigid ownership requirements advances the broader goal of empowerment, delivering tangible, long-term benefits that reflect the true spirit of B-BBEE. I therefore support this amendment and urge our government to continually seek ways to attract meaningful investment into South Africa, so that our economy can grow, and our people can access better opportunities for work and development.	Ed	Western Cape		employed individual
	2025-07-14 16:12:04	Yes I do	No concern		Davne	Gauteng		retired

	2025-07-10 08:10:29	Yes I do	No concern	BEE does not work. The fat cats get fatter and poor people struggle!	Heleen	Western Cape		business owner
	2025-07-10 08:05:42	Yes I do	No concern	DUE TO BBBEE , SA LOST EXPERIENCE, AND THAT CREATE THE STATE SA IS IN NOW, NO MAINTENANCE, NO DEL. SERVICE, LOADSHEDDING, CORRUCTION, BRIBERY ETC	SONJA	Gauteng		self-employed
	2025-07-10 08:01:28	Yes I do	No concern		Amanda	Western Cape		retired
	2025-07-10 08:01:13	Yes I do	No concern	Government needs to abolish the past prohibitive and restrictive BBBEE policies across ALL sectors if RSA wishes to be included, and fully active, within the global community. 30 year old racially based policies cannot and should never have validity or bearing upon our economics, it is locally and globally crippling. These laws are undermining, non-inclusive of all citizens, and provide a crutch. It prohibits RSA from being fully active and accepted globally, and restricts certain entrepreneurship and development domestically. It is a narrow-sighted policy which needs to be abolished altogether across ALL sectors. Govt continues to underestimate and undermine the spirit of SIMUNYE in South Africa because of these policies. Time to end it totally.	Monicque	KwaZulu-Natal		employed individual
	2025-07-10 07:59:52	Yes I do	No concern	End this now across every sector for a better South Africa	Patrizia	Gauteng		unemployed individual

	2025-07-09 21:27:29	Yes I do	No concern	This technology would go a very long way to transform the lives of the present and previously disadvantaged in South Africa and could potentially be the catalyst in producing another "Elon Musk" from a disadvantaged background. I wonder if we would be having this conversation if Mr Musk came from the preferred demographic background. Many South Africans of colour, who received the same educational background as him, are not subject to the same restrictions. Therefore the colour of a person's skin appears to be the main objection and not that he was not previously disadvantaged.	Meryl			
	2025-07-09 21:23:22	Yes I do	No concern		Lynette	Gauteng		retired
	2025-07-09 21:18:27	Yes I do	No concern	in 2025, basic internet should be a human right and free to the public. Absolutely no question. To with hold that from the people should be deemed theft of a basic human right.	Nick	Western Cape		self-employed

	2025-07-09 20:14:25	Yes I do	No concern	BBBEE and all other BEE related policies hinder progress and are just another wasteful admin procedure for companies. The unemployment rate has INCREASED since BEE started right in the beginning. It hasn't worked in SA (and it didn't work in USA either) - except for the ANC "connections" who benefitted. It would be great to see some interventions in education to raise the bar on ethics, morality, people skills, progressive mindset, fatherhood issues in the home, childhood PTSD, and tertiary education to open up better opportunities for people from disadvantaged groups. This is not to force employment, but to empower people with personal development and "inner" skills so they can progress better in life.	D	Western Cape		business owner
	2025-07-09 20:10:39	Yes I do	No concern		Juan Anton	North West		business owner
	2025-07-09 20:07:43	Yes I do	No concern	BEE and all these have put a stranglehold on small businesses and entrepreneurs it will be a very good thing to have these restrictions and unnecessary laws removed.	Mary Rose

	2025-07-09 10:57:58	Yes I do	No concern	BBBEE is doing exactly what the apartheid government did... Benefit one race over another. We need to stop focusing on race, and focus on things that matter, like growing our economy, creating jobs, getting rid of corruption and crime!	Jameela	Gauteng		employed individual
	2025-07-09 10:55:24	Yes I do	No concern	I believe BBBEE reforms need to focus more on empowering the poor of South Africa. Black ownership should not be the only way this is achieved. I therefore support the amendment, and particularly because technology like Starlink can uplift and help educate rural communities, especially rural schools.	Daniel	Gauteng		employed individual
	2025-07-09 10:54:11	Yes I do	No concern	Remove all discriminatory laws. Allow business to flourish within a well managed tax framework. Investment will flow in & create jobs! The economy will boom. Why is the rest of Africa now ahead of SA in terms of growth. Privatise all the SOE's! The money used to bail them out can be used on social upliftment programs.	Michael	Eastern Cape		self-employed

	2025-07-09 10:21:17	Yes I do	No concern	It is time to open up innovation and our entire economy in South Africa. BEE might sound nice to some, but how is it helping when its killing our economy? Stop this nonsense and rather create opportunities for skills development and entrepreneurship in SA. That is what will unleash our economy and create employment. Not this childish economic plan of taking away from white businesses and giving a significant proportion of their business to Blacks, hoping that somehow their economic drive will remain unchanged, as vigorous as before. It won't. Elon's Starlink proves this clearly, and our pathetic GDP growth rate in SA proves this! Let's make a change to help South Africa, not cripple it!	Loraine	Western Cape		self-employed
	2025-07-09 10:19:29	Yes I do	No concern	When something is good - is has to be good for all the people not for a group of people then it is not good - no results 30 years later - from functioning manuciapalities roads railways airways hospitals schools etc to non functioning - this has to change for the better of all the people in SA	HC	Western Cape		retired

	2025-07-09 09:28:54	Yes I do	No concern	It may be time to re-evaluate and consider amendments to the current BBBEE and Employment Equity (EE) legislation in South Africa. While these frameworks were implemented with the intention of addressing historical inequalities, there are growing concerns about unintended consequences that may, in some instances, hinder organizational effectiveness and broader economic progress. In my professional experience, I have witnessed situations where appointments were made primarily to meet equity targets, rather than based on skills, experience, or merit. This can have a detrimental impact on both the performance and sustainability of businesses. Our national priority should be to appoint the most capable individuals and partner with the most competent companies—regardless of race. South Africa has evolved, and so must our policies, to ensure that transformation supports both inclusion and excellence. Let us put the success of our country first—for the benefit of all South Africans, and for the future we are building for our children.	Tracey	Eastern Cape		employed individual
	2025-07-09 09:26:32	Yes I do	No concern	This is a very positive step to actualy do something positive and concrete to build South Africas"s economy and promote foreign investment	Martin	Gauteng		retired
