2025-10-20 09:38:23	No I do not	Necessity	South Africa needs to focus on the economy and equality and not add more legislation that can be abused and that cannot be managed properly. Less government control and more freedom is needed.	Tanya	Afrikaans	self-employed
2025-10-20 09:45:29	No I do not	Constitutionality	What business is it of the state or government what we believe and who we pray to if at all! This is entirely absurd ! Regulate the things that will enrich the people and the country, like fixing roads, providing running water, creating jobs, providing descend medical facilities and better education. They should rejoice when people have a belief, it keeps people on track and gives them hope. They just want another cog in the "control wheel "	Sandi	English	retired
2025-10-20 09:46:46	No I do not	Other	More over reach and over regulation. Stop meddling in our affairs. We will choose our own God, where and when we pray and when and how we spread his word, without interference from over reaching , agenda driven regulatory bodies and our current useless government which at minimum is again ignoring our constitutional rights.	Kassie		employed individual
2025-10-20 09:49:46	No I do not	Constitutionality	I oppose any attempt by the state to regulate religion. Freedom of belief is a fundamental human right, and no government should have the authority to dictate, approve, or control matters of personal conscience. History has consistently shown that when the state interferes in religion, it leads not to unity but to oppression, discrimination, and social division. A free and neutral state protects peace by treating all beliefs equally—not by controlling them. The role of government is to regulate actions that cause harm, not private convictions or spiritual expression. Once the state begins deciding which beliefs are acceptable, it creates a dangerous hierarchy of citizens and opens the door to political manipulation of faith. For the sake of both democracy and social harmony, the state must remain neutral in matters of religion. Individuals—not governments—are the rightful guardians of conscience.	Friedrich	English	self-employed
2025-10-20 10:00:53	No I do not	Constitutionality	– Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. – Parliament rejected the CRL's proposal for legislation to implement a “Peer Review Committee” system of state regulation of religion. There is no valid or legal reason to revisit this matter.	Herma	English	retired

2025-10-20 10:08:09	No I do not	Constitutionality	Vryheid van geloof word deur die konstitusie gewaarborg en word wêreldwyd ook so aanvaar, behalwe in 'n kommunistiese staatsbestel. Die redes wat aangevoer word vir die nuwe regulasies hou geen water nie; dit is slegs swak bedekte redes om ware Christene te vervolg. (Dit dien gemeld te word dat diegene wat waarlik Christus navolg hulle geensins aan sulke dade sal skuldig maak nie.) Daar bestaan reeds genoegsame wetgewing om mense krimineel te vervolg wat hulle skuldig maak aan dade soos aanranding, uitbuiting, mishandeling, afpersing ensovoorts. Verder wonder mens waarom die voorstelle slegs op mense van die Christelike geloof gemik is. Wat van die wat tot "tradisionele geloof" en "Afrika gelowe" behoort wat hulle skuldig maak aan moord, verminking en ander gruweldade? Doen bietjie navorsing oor wat veral in Kwa-Zulu-Natal en die Oos-Kaap gebeur sodat kragtige "muti" gemaak kan word. Hierdie is duidelik 'n stap in navolging van die regering se kommunisitiese vriende om die Christelike geloof so te reguleer dat dit die party/regering dien en nie meer vrye aanbidding van die ware God en Skepper is nie. Kyk maar net wat hierdie week weer in die VRC gebeur het.	Andrieka	Afrikaans

			https://dearsouthafrica.co.za/regulation-of-religion/?fbclid=IwY2xjawNZpc5leHRuA2FibQlxMQABHuptxDZhtdI22W9ndVRH-0qWwT_wuAe_fothH32-pehhC4X_JsknjEz_QnWXe_aem_XxT4EpLkMEtf-qAahQWHcA ! URGENT ! Hey Crowded House Family. As Kevin explained yesterday at Bryanston, The CRL Rights Commission is a government constitutional body and they are pushing for mechanisms to vet, licence and regulate religious organisations and leaders. This is potentially a massive threat to our freedom of religion which is enshrined in our constitution. The elders are imploring you to please consider signing the petition and sharing this with other saints to do the same. Please note that you are free to hold a different view and the elders are open to discussing this if need be. We are asking and not demanding however we do carry a conviction that the church should oppose this. Below is an option for a response that you can copy and paste. Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prop

You should focus on getting crime and employment fixed and leave prayer alone for the faithful.	Danie		
2025-10-20 14:44:28	No I do not	Necessity	I believe the government should never regulate God's house 'churches'. They don't contribute nor protect churches, neither are all Governmental officials Believers or go to church. As Christians we serve Yahweh and we fund the work of ministry not the government. It is our Right as citizens and freedom of our religion to worship and run our churches, not regulated by The Government. Why would they only want to do so to churches and not other religions? It's living in a Democratic Country that takes away freedom. Also they want to do it in the name of protection against false prophets that steals. You don't regulate churches in order to do so, arrest those that commit crimes.	Zelda	English	employed individual

2025-10-20 16:27:58	No I do not	Constitutionality	State control has led to persecution n many countries. South Africa is supposed to be a free country. If they feel that churches should pay tax on their income they can ask churches to register as businesses and declare their income just like any other business. That is where it should stop	Bennie	English	retired
2025-10-20 16:39:13	No I do not	Constitutionality	Against the constitution. Religious freedom. This isn't China. Persecution of Christian's will not be accepted hank you for sharing this information. I do not support the proposed legislation to regulate religion.	Greg	English	self-employed
2025-10-20 16:44:04	No I do not	Constitutionality	As a Christian, I believe that faith is a personal and spiritual calling — not something that should be controlled, licensed, or regulated by the state. South Africa's Constitution protects freedom of religion and association, and these rights should remain free from government interference. Regulating religion risks undermining spiritual autonomy and could open the door to state influence over matters of belief, worship, and conscience — areas that should remain sacred and self-governed. I therefore respectfully express my opposition to any legislative measures that would grant the state authority to vet or license religious organisations or leaders.	Jackie	English	business owner

2025-10-20 16:47:15	No I do not	Constitutionality	– Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. It is unconstitutional and against each individuals human rights for a Government to regulate someones religious believes ect.	Cora	Afrikaans	retired

2025-10-20 17:06:28	No I do not	Other	This piece of legislation threatens religious freedoms in South Africa, particularly by focusing on the potential overreach of the CRL Rights Commission in regulating religious organizations. 1. The State's Role in Religious Life One of the central arguments against this proposal is that faith is a divine calling, not a state-regulated profession. From a biblical perspective, religion is understood as a personal relationship with God, as outlined in passages like Matthew 22:21 where Jesus states, "Give to Caesar what is Caesar's, and to God what is God's." This suggests a distinction between civil governance (Caesar's realm) and spiritual matters (God's realm). The notion that the state should have authority over religious doctrines or leaders contradicts this biblical understanding. The Bible doesn't advocate for government intervention in religious practices but stresses the autonomy of the Church and its leaders. For instance, 1 Peter 5:2-3 exhorts church leaders to "be shepherds of God's flock that is under your care," emphasizing that leadership in religious communities should be under divine, not state, authority. 2. Freedom of Conscience and Religious Expression South Africa's Constitution guarantees religious freedom (Section 15), which aligns with biblical principles of conscience and belief. Romans 14:5 says, "Each one should be fully convinced in his own mind." This affirms the individual's freedom to choose and express their religious beliefs without state interference. In the same way, Acts 5:29 speaks to the right of the church to operate freely, stating, "We must obey God rather than human beings." Such verses stress the church's divine mandate to govern itself and follow the leading of God, not political authorities. The proposal to regulate religious groups could infringe on this fundamental freedom.	Leon		self-employed

2025-10-21 12:02:17	No I do not	Constitutionality	It is our human right to choose our own religion. The proposal from government threatens freedom of religion, including the spiritual autonomy of faith communities, and violates the Constitution. We call on Parliament and the CRL Rights Commission to protect our constitutional right to religious freedom and reject all attempts to license or regulate faith.	Franciska	English	retired
			Why This Matters South Africa's Constitution guarantees every person: – Freedom of conscience, religion, thought, belief and opinion (Section 15) – Freedom of association (Section 18) – Freedom of religious communities to govern themselves (Section 31) Concerns – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. – Parliament rejected the CRL's proposal for legislation to implement a “Peer Review Committee” system of state regulation of religion. There is no valid or legal reason to revisit this matter.

2025-10-21 12:18:55	No I do not	Constitutionality	I do not support this. Is a way to disadvantage the real called men and women of God. Gifts are from God and not human beings. God can use anyone even the uneducated people hence when they open their mouth it is not the talking but the Holy Spirit through them. This is about religious freedom otherwise most of black pastors will be oppressed.	Phuti	English	Non-profit

			Constitutional and Faith-Based Concerns			
			Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles.			
			Practical and Theological Concerns			
			Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church'

2025-10-21 14:54:30	No I do not	Other	I am a sovereign human being although our parents signed our birth certificates and declared us dead by doing that. A fictional twin of your living entity was born that day. Your so called "strawman" was born. Youtube "your strawman". Your twin brother or sister that you never met or grew up with. A ship births and the harbor master is the doctor that caught you in hospital. A sovereign human being can not be bound to contracts. Thats why each government needs to create a fictional entity of yourself in order to be able to bind you with contractual law. (See "Black's dictionary of law"). Ever wondered why your names and surname are written in capital letters on your id and passport? Because you are freight or a dead entity owned by the government. This is the masonic admiralty law or law of the sea. I am not dead and I have natural law or Gods law that applies to me as a sovereign living person: 1. I reserve the right to say what I want. 2. I reserve the right what I believe in 3. I reserve the right to pray to who where and what I want. 4. I reserve the right to put in my body what I want (No government will mandate or force me to vaccinate myself or my kids). 5. I reserve the right to punish and discipline my kids like the Bible says I must do. 6. I reserve the right to protect myself and my family and property with deadly force if necessary. 7. I reserve the right to speak my language and exercise my culture. 8. I reserve the right to move free and got where and when I want. This Government cal go and catch a hike. Soon they will all fall... The world is waking up very fast. I do not bow my knee to no one but the almighty Jesus Christ my Lord and God in heaven.

2025-10-21 17:02:11	No I do not	Other	The threat to the mechanisms of the Religious and Linguistic Communities (RLC) Rights Commission to screen, license, and regulate religious organizations and leaders in this country threatens freedom of religion, including the spiritual autonomy of faith communities, and violates the Constitution. This is a direct threat to freedom of religion Converts belief into a state category and turns faith into a privilege rather than a right. Turns this country into a communist country where communities may self-censor or abandon religious practices for fear of penalties or loss of legal recognition. It infringes on spiritual autonomy and internal governance This places a communist stronghold to independently interpret doctrines, appoint leaders, and administer sacraments or rituals. Licensing or vetting undermines self-governance and can force groups to conform to state-approved norms in order to operate. It gives unlimited power to external control over who may preach, perform rituals, and even regulate schools associated with a faith, undermining internal discipline and spiritual authority. The pushing for these mechanisms by the CRL does not guarantee constitutional freedom of thought, conscience, and religion or free exercise of religion. Any approach must be non-discriminatory and should protect the rights of all faith communities to practice and govern themselves.	Rina	English	retired
2025-10-21 17:03:51	No I do not	Constitutionality	Why This Matters South Africa's Constitution guarantees every person: – Freedom of conscience, religion, thought, belief and opinion (Section 15) – Freedom of association (Section 18) – Freedom of religious communities to govern themselves (Section 31) Concerns – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. – Parliament rejected the CRL's proposal for legislation to implement a “Peer Review Committee” system of state regulation of religion. 2025-10-21 21:00:45	No I do not	Constitutionality	Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities. 			I believe in the individuals freedom of choice when it comes to faith, religion, culture, language and choosing schools and the right to be taught in your mother tongue in the primary years of schooling. I am however concerned about the cult-like exploitation of people by some religious groups and it’s usually not the rich that becomes the victim of this kind of control, manipulation and all other kinds of disturbing demand from members. Unfortunately, running a Church can be quite the fragile business model and I hate the concept of this. I have no idea what could be done to prevent these evil religious groups or churches or cults for that matter, from sucking innocent people in need of spiritual guidance and the support of a like-minded religious community, into the rabbit hole of false doctrine, unhealthy control and manipulation and almost always unhealthy financial obligations. I agree that it would be great to educate people of the danger that could ultimately ruin their personal life’s, relationships, finances and their basic human right to be the author of their own lives. Believe me, I’ve seen it happen. I’ve seen people being punished when they start to ask the serious questions and those who make it out, often have to start from scratch building a healthy life, repair broken relationships with concerned family and friends that they have cut out of their lives. Most large church groups have a code of conduct but there are many religious groups that rise like muchrooms, taking advantage of the vulnerable to their members detriment. I don’t believe that allowing the government to control this, would be a solution to the exploitation of by some groups. As it goes, they probably have a hidden agenda towards something bigger and this would just be a stepping stone to whatever their ultimate goal is.

			Freedom of Religion forms part of a Democratic Constitution. Thus, the CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. Besides that - Parliament rejected the CRL’s proposal for legislation to implement a “Peer Review Committee” system of state regulation of religion in 2020, So there's no valid or legal reason to revisit this matter. And with South Africa’s diverse religious communities already supporting voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations, there is no need to try and control Pastors/Preachers and Leaders of any Faith based institution. If anyone causes another person's harm through a religious practice, then please deal with that individual according to the law. Do not try to control every faith based religious organisation to try and prevent these individuals from practising - and even threatening to arrest every practitioner of their individual faith. You will quickly have thousands upon thousands of people unnecessarily flooding the already overworked court system, and the real criminals will just get away as always with their schemes and scams. All you are doing now with this commission, is causing a lot of fear, anxiety and insecurity to rise up amongst our law-abiding citizens in this beautiful country, making us feel like we are fast becoming a communist country and that all Democratic freedoms are under threat and will be taken away. This country’s existence and growth has been based on Democracy for many many years - not communism. Please let us all work together in removing the scammers and schemers from our country and communities - and let's not try to harshly regulate the ones that are actually trying their best to build this country. Proper faith and religious practices by every citizen, will in fact make this country a much better place to live in - removing the criminal elements far quicker, than any laws ever will.

2025-10-22 08:13:05	No I do not	Constitutionality	The concern is the vetting process may itself violate faith and beliefs. Being vetted by systems that do not subscribe to same religious standards. Religious organizations are still held to the general laws of the Republic like all organizations and that is enough. It doesn't mean without this proposed process, they are lawless. Constitutional and Faith-Based Concerns	Ntuthu	English	unemployed individual
			Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church’s prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities.

			While it is important for religious leaders to follow the same basic law as all other citizens, I do not believe that religion as a whole can be regulated properly by government. Religion is personal and very subjective, how can a government be allowed to regulate what they do not even understand?			
			I do believe that all people should be able to report illegal activity within their religious group and I believe that there should be places that people can go or phone lines they can call if they want "out" of a particular faith group. They should be given the assistance and protection they need to escape a bad situation, but no government should tell people what they are allowed to believe.	Lindi

2025-10-22 14:58:52	No I do not	Constitutionality	There is a problem with numerous little church sprouting up all the time and avoiding paying tax and other loopholes which are there for the benefit of genuine churches. I understand that government may be trying to address such problems, but at the end of the day, the public has to take responsibility for such abusive behaviour and not support such churches. For government to use the sledge hammer of legislation to deal with such issues, will have many unintended consequences. I do not profess to have the answer to all these issues, but I do not believe that it is constitution to use registration of churches. Perhaps some other remedy needs to be looked at, such as limiting avoidance of paying tax where the mushroom churches are little more than a front to avoid paying tax.	Jozef	English	retired

2025-10-22 19:31:50	No I do not	Constitutionality	The right to worship, or to not worship, according to one's own conscience is a cornerstone of human dignity. Every individual, regardless of creed, culture, or geography, possesses an undeniable claim to honour the God, creator, or higher purpose that gives his or her life meaning. History, offers a stark reminder of the consequences when the boundary between state power and religious authority blurs. Wars fought in the name of religion - Crusades. The solution lies in a definite separation of church and state, a principle that does not diminish the importance of spirituality but rather protects it from politicization. Upholding this separation does not mean erasing faith from public life; it means allowing faith to flourish voluntarily, rooted in personal conviction rather than imposed law.	Deborah	English

2025-10-22 21:50:11	No I do not	Other	Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. As a practising Christian, I cannot support any attempt by the CRL Rights Commission or Parliament to vet, license, or regulate religious organisations and leaders. My faith is not a government program—it is a sacred covenant between God and His people. The Church is not a department of the state. It is the Body of Christ, governed by Scripture, led by the Holy Spirit, and accountable to God alone. South Africa’s Constitution guarantees freedom of religion, belief, and opinion (Section 15). This includes the right of faith communities to govern themselves according to their convictions. The CRL’s proposed mechanisms—however well-intentioned—risk violating this right by introducing state oversight into spiritual matters. Even if framed as “self-regulation,” the involvement of government structures opens the door to interference, bias, and eventual control. We do not deny that abuses have occurred in some religious circles. But existing laws already provide the tools to prosecute criminal behaviour. What’s needed is better enforcement—not new legislation that targets faith itself. As Freedom of Religion South Africa (FOR SA) has rightly pointed out, criminals don’t hide behind religious freedom—they hide behind weak law enforcement 9F742443-6C92-4C44-BF58-8F5A7C53B6F1. Furthermore, the Church is already equipped to hold its leaders accountable through internal peer review, denominational structures, and biblical discipline. To suggest that government must now decide who qualifies as a pastor or what constitutes a legitimate church is not only unconstitutional—it is spiritually dangerous. There is one King in the Kingdom of God, and His name is Jesus. No earthly committee, no matter how well-meaning, has the authority to license His servants or regulate His Church. I therefore call on Parliament and the CRL Rights Commission to reject all attempts to license or regulate faith, and to uphold the sacred and constitutional right of every South African to worship free!	Alicia	English	self-employed
2025-10-22 22:10:31	No I do not	Constitutionality	The government cannot regulate a person’s thoughts. A government cannot regulate a person’s beliefs. What the government must do, is enforce the law.	Gerhard	Afrikaans	self-employed

2025-10-23 11:01:06	No I do not	Other	Too much control by a government is a bad thing, especially when it comes to religion.	Ingrid		retired
2025-10-23 11:14:49	Not fully	Workability	It makes sense to vet religious leaders or other staff in religous institutions (identity, criminal convictions related to corruption/abuse, financial checks etc.) to protect the public and public funds. Need to ensure it does not entitle leaders to use funds to support their lavish lifestyle, more especially to protect vulnerable communities, especially children from sexual abuse. Vetting should be non-ideological, as such, beliefs, sermons, or theology should not be vetted. Otherwise religion is co-opted by government for their own political motives, this is authoritarian and unconstitutional. Rules should be applied equally across faiths and denominations. Perhaps churches and other religous institutions should implement an internal vetting policy (background checks, reference checks, lifestyle or financial checks etc.). Maybe these checks can be regulated - and if for any reason there is a violation, then these leaders or institutions should be held legally accountable. Concerns: Sounds costly to administer and monitor, given that our public funds are already mis-used, and government leaders are already abusing public funds to fund their lavish lifestyles - they themselves need vetting. It is hard to trust another government central system to work - especially if government is using our tax money to fund this. Public funds can be put to better use, to start with - ensuring that shools have proper toilets, not pit toilets, protect vulnerable children and women, alleviate poverty, and get young people employed - fix the bigger social and economic issues that persists. In principal the proposal by government could work if we had a functioning and competent government. So I do not have clear answers, just deep concerns.	Devi	English	employed individual

			Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities.

2025-10-24 10:45:12	No I do not	Constitutionality	Why this matters to me and my family South Africa's Constitution guarantees every person: – Freedom of conscience, religion, thought, belief and opinion (Section 15) – Freedom of association (Section 18) – Freedom of religious communities to govern themselves (Section 31) My concerns are as follows: – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. - It risks religious leaders becoming subject to or tools of state control. - There is no country with similar legislation did not lead to abuse of it by the authorities in that country. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. – Parliament rejected the CRL's proposal for legislation . There is no valid or legal reason to revisit this matter.	Izak	Afrikaans	retired

			South Africa's Constitution guarantees every person: – Freedom of conscience, religion, thought, belief and opinion (Section 15) – Freedom of association (Section 18) – Freedom of religious communities to govern themselves (Section 31) Concerns – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. – Parliament rejected the CRL's proposal for legislation to implement a “Peer Review Committee” system of state regulation of religion. There is no valid or legal reason to revisit this matter. (more info, documents and videos at the link)	Ronel

2025-10-24 15:08:50	No I do not	Constitutionality	South Africa's democracy was hard-won; those sacrifices will not be in vain. A free and thriving nation has no place for ideologies that undermine its people, and it will not be surrendered to those who undermine democracy. The proposal by the CRL Rights Commission to regulate religious organisations and leaders poses a serious threat to the constitutional right to religious freedom in South Africa. While the Commission may argue that oversight is necessary, it is important to recognise that faith is not a profession — it is a divine calling. As such, it cannot be licensed, measured, or controlled by the state. The government has no jurisdiction over the authenticity or validity of personal belief. South Africa's Constitution guarantees every individual the freedom of conscience, religion, thought, belief, and opinion, as well as the right of religious communities to govern themselves. Any attempt to impose state regulation on religious doctrine, ordination, worship, or association undermines these protections and risks turning spiritual leaders into instruments of state control. This is not merely a theoretical concern. Parliament has already rejected the CRL's previous attempt to implement a “Peer Review Committee” system — a legislative mechanism that would have introduced state oversight into religious affairs. There is no legal or constitutional justification to revisit this matter. Moreover, South Africa's religious communities have long demonstrated their commitment to accountability through voluntary means. Charters, codes of conduct, fraternals, and self-governing associations provide robust frameworks for ethical and spiritual integrity without compromising autonomy.	Jazz	English	employed individual
2025-10-24 15:10:56	No I do not	Constitutionality	To regulate religion through state mechanisms is to erode the very foundation of religious liberty. It is a path that risks replacing spiritual guidance with bureaucratic control, and must be firmly opposed in defence of our constitutional values.	Carla	English	employed individual
2025-10-24 15:13:38	No I do not	Constitutionality	Freedom of religion is our constitutional right. Faith is a divine calling and cannot be licensed or regulated by the state.	Nicoline	Afrikaans	retired
2025-10-24 15:22:06	No I do not	Constitutionality	The people of South Africa have no guarantee that the government will be unbiased and fair in their regulation of religion, religious activities, or leaders. If our political leaders do not share or agree with certain beliefs or values, who is to say that they will not try to oppose them? Freedom of religion is should remain a basic human right. People can and should be able to live peacefully and respectfully among each other even if we do not share the same beliefs. Disagreeing with someone is not grounds for state regulation and control.	Lelanie	English	employed individual
2025-10-24 15:40:55	No I do not	Constitutionality	Ek glo die staat staan nou buite sy raam werk en staan ook teen die konstitusionele wet oor godsdienstige vryheid. Dit sê my net een ding die staat maak nou 'n strategiese poging om Christene en hulle geloof en leierskap onder hulle verdrukking te bring en so vryheid van geloof en vrydenke te stroop.	M	Afrikaans	self-employed
			Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church'

2025-10-24 17:01:26	No I do not	Constitutionality		Natalie	English	retired

			It is UNCONSTITUTIONAL as it: Violates Section 15: freedom of religion and conscience. Violates Section 18: freedom of association (including the right not to join a state-approved body). Violates Section 31: right of religious communities to self-govern. Forces religious leaders into state-controlled “Umbrella” structures. It is UNNECESSARY because: South Africa already has robust laws (Criminal Law, SORMA, Children’s Act etc.) that cover all criminal abuses. The issue is not the absence of law—it is poor enforcement of the law. Religious freedom has never been a defence to excuse criminal behaviour. It is UNWORKABLE because: Who decides who qualifies as a “religious practitioner” or can register a religious organisation? Which doctrine will be “official”? Who sets the standard? How will licensing be enforced? What if you disagree with the Peer Review Committee? It is UNAFFORDABLE because: Estimated cost to taxpayers: R750 million start-up + R250 million annually. CRL’s current annual budget is one-fifth of what this scheme would require. Who do you think will pay the license fees for “approved” religious organisations and religious practitioners? It is DISCRIMINATORY because: The Terms of Reference single out the Christian sector. This is not voluntary self-regulation, but the road to State regulation of religion by a quasi-judicial body reporting to Parliament.			
2025-10-24 17:01:55	No I do not	Constitutionality	The Section 22 Committee was formed without transparency. Our church, representing 30 000 members, was not invited. But during the previous CRL’s term we were summoned! Now we are excluded.	Johan	Afrikaans	employed individual

			Constitutional and Faith-Based Concerns			
			Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles.			
			Practical and Theological Concerns			
2025-10-25 10:43:45	No I do not	Constitutionality	Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders co	Maryna	English	self-employed

2025-10-25 10:51:23	No I do not	Other	On what bases do the government think they have any authority whatsoever to decide, dictate, regulate or manipulate religious affairs in whatever capacity. This is and will stay a country free of religious interference or do the government or rather people really have no idea spiritual implications?	Derick	Afrikaans	business owner
2025-10-25 10:54:01	No I do not	Constitutionality	While I may not identify as a deeply religious individual, I find myself increasingly troubled by the government's plans to impose regulations on a fundamental human right. This right is not merely a theoretical concept; it is a vital aspect of our human existence—intensely personal and profoundly essential. It serves as a bedrock for our freedoms, allowing us the space to think deeply, express our beliefs, and chart our own destinies. The very idea of limiting such an intrinsic part of our lives is not only concerning but warrants our urgent attention and resistance.	Meiring	English	retired

2025-10-25 16:06:58	No I do not	Constitutionality	People of South Africa have a right to opinion, choice of religion or thought or belief under the constitution which speaks to respect. Removing the right of people to their own beliefs, opinion, religion and freedom of choice is disrespectful and treats people as unable mentally to make their own choice. South Africa is a multi-cultural country that values its diversity. Removing people's freedom of choice will mean mass indoctrination by the state similar to what the Apartheid regime did. This could then lead to protests, underground subterfuge, mass hysteria and country-wide upsurgance and ultimately war leading to more emigration and loss of international investment in the country	Irene	English	retired
2025-10-25 16:07:13	Yes I do	Necessity	Religion is used everywhere to push agendas and to swindle people out of money while religious leaders are allowed to become more and more wealthy while stealing from their followers. Some religious groups do a lot of good, but many go out of their way to spread hate and division. If your group is good and just you should have no reason to fear oversight.	Ashton	English	employed individual
2025-10-25 16:09:55	Yes I do	Necessity	Yes I support the regulation These churches are held by outside of the country. They brainwashed people convince them to donate their hard earned money in exchange of miracle. Some clean the drugs money through the church business. They prey on despirate people who believe in easy money and miracles They should be regarded and taxed	Fano	English	employed individual

2025-10-25 16:34:25	No I do not	Constitutionality	God gave us free choice to worship as we see fit. Why should any Government have an interest in my religion, my choices, my freedom.	Andrew	English	retired

2025-10-25 16:36:25	No I do not	Other	– Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. - The Lord Jesus does talk to some people and gives them divine guidance. Unlike some minister that talks to the spirits and her dead ancestors.	Pierre	English	retired
2025-10-25 16:40:00	No I do not	Constitutionality	Please can leaders not sacrifice the values and wisdom of the ancestors of this land which are most important to defend, not only for our own freedom and self determination but for the example this will set globally. Africa can heal the whole world. Our value is not in our bank account or even in our gold. It is in our human technology woven through the wisdom of tradition/isintu. You can never tell a sangoma to follow the ancestors of another person! It is antithetical. The sangoma becomes healed by embracing their own unique relationship with their own ancestors. It is written into umthetho weshoba, the law of ancestors power. Will you stand and judge the ways of the ancestors of Africa when it is the most used first response for the majority of the African population when they are sick or need guidance? If you are one of the people judging traditional culture as being uncivilised then you need to check yourself and your arrogant blind ignorance. People dont know what they dont know. When you dont know anything about the embodied healer of Africa, you cannot say you have authority to judge, or to control it.	Geoffrey	English	self-employed

2025-10-25 17:25:56	No I do not	Constitutionality	The state cannot, under any circumstances, prescribe to anybody where to worship, how to worship. This is a personal choice and constitutional right.	Amanda	English	employed individual
2025-10-25 17:26:16	No I do not	Constitutionality		C J	English	retired
2025-10-25 17:26:35	No I do not	Constitutionality	I understand that certain people might be up to bad things under the disguise of religion. Then go after the bad guys. Don't make rules that punish the good. Punish the bad people not the good. Rules need to be thought through properly and carefully. Don't throw the baby out with the dirty bath water. Think properly.	Darryl		
2025-10-25 17:27:03	No I do not	Constitutionality	There should be a separation between church and state. If the state has the power to cancel a license to run a religious organization it could be used to enforce compliance with government policies. Those who are critical of government policy could find their license suspended. If they continued to preach without a license they could be prosecuted. Over time this could lead to church and state singing from the same hymn sheet. No more separation of church and state. During apartheid many churches supported the apartheid regime. But there were brave leaders, like bishop Desmond Tutu, who preached a different message. This legislation could be used to muzzle the next generation of Desmond Tutus.	Jeremy	English	employed individual
2025-10-25 17:28:16	No I do not	Other	It isy right to choose my religion. It can not be regulated as per the constitution. We have right to choose certain things in a democratic country	Ester	Afrikaans	employed individual
			The Church or any religious institution cannot be governed outside of itself. Under no circumstance can a government choose what and who and when and what is taught to its congregations.			
			This is a Communistic Practise that cannot be allowed. This also takes away the freedom of speech and freedom of religion.			
2025-10-25 17:29:03	No I do not	Constitutionality	Irrespective of what's the narrative now and how legitimate it sounds when the power is on the governments side, it will change its mind and manipulate the system.	Wesley	English	business owner

2025-10-25 19:35:39	No I do not	Other	Constitutionality: as a South African citizen I have the enshrined HUMAN RIGHT not only of the freedom to practice my chosen religion, but also the Freedom of Association! My Church, Congregation, Leader and/or beliefs have NOTHING to do with ANY Government or other organization. Necessity is excluded as there are myriad laws governing every possible aspect of a religious gathering or group. Affordability: At an estimated R750m just to set this scam up, this is just another Cadre-favouring money grab. Which WE will end up paying for at GREAT EXPENSE! Workability: well, except for SARS, none of the current policing systems work due to corruption, poor or non-existent training (incompetence) and pure laziness. How is this going to be any different? Neighbour spying on neighbour? NO THANK YOU! The whole concept of regulating religious leaders, groups or activities is a very poorly disguised attempt at further theft from citizens in the short term, and total control in the long run. NO! NO! and DEFINITELY NOT!	D

2025-10-25 19:50:57	No I do not	Constitutionality	To: The CRL Rights Commission From: Apostle M.B.I. Buthelezi Nkandla Christian Centre Subject: Opposition to Religious Regulation of the Christian Church in South Africa Dear CRL Commission, Grace and peace to you in the name of our Lord Jesus Christ. I, Apostle M.B.I. Buthelezi of Nkandla Christian Centre, write to express my sincere and firm opposition to any form of religious regulation imposed on the Christian Church in South Africa. The Church of Jesus Christ operates under divine authority — guided by the Word of God and the Holy Spirit — not by human control or governmental interference. While I recognize and respect the role of the CRL in promoting religious tolerance and protecting the rights of all faiths, I believe that regulating how the Church functions, worships, or governs itself undermines freedom of religion, which is enshrined in Section 15 of the Constitution of the Republic of South Africa. History has shown that whenever the Church is controlled by external powers, spiritual integrity and prophetic voice are weakened. The Church's mission is spiritual — to transform lives, preach the Gospel, and serve the nation morally and socially — not to submit to secular structures that may not share its divine mandate. I, therefore, humbly but firmly stand against the proposed religious regulation of Christian ministries and call upon the CRL to uphold and defend the independence and sacred role of the Church in our democratic society. May God bless South Africa and preserve the freedom of His Church. Yours faithfully, Apostle M.B.I. Buthelezi Nkandla Christian Centre	Mboniseni	English	business owner

2025-10-25 19:57:10	No I do not	Constitutionality	For the government to demand a say in how people worship is the height of arrogance. Politicians serve for a few short years, yet they want to control ministers who have dedicated their entire lives to serving God. Too often, a power-hungry politician tries to impose policies shaped by personal pain or misunderstanding of faith. When the fear of God is present in politics, leaders respect the church, honour the places of worship, and recognize the vital role faith plays in building a moral, value-driven society. But when that fear is absent, politicians seek to silence the church—so that corruption, greed, and self-interest can flourish without accountability. The Bible says, "The fear of the Lord is the beginning of wisdom." The church exists to remind leaders of that truth and to keep society accountable to a higher moral standard. If a politician wants to control the very institution that calls them to integrity, that's the biggest red flag there is. May the people reject any leader who seeks to regulate or silence the church. 2025-10-25 20:11:29	No I do not	Constitutionality	This law will allow for the government to place restrictions on Christians and will lead to Christians been persecuted for the faith, as is the case in many African countries. It will persecute Christians for simply living out their faith and upholding Christian values. In the long term it will silence the Biblical truth that Jesus Christ is the only way, truth and life by which humanity can be reconciled to God. Regards	Jack	English	employed individual
2025-10-25 20:11:32	No I do not	Constitutionality		Lynn	English	employed individual
2025-10-25 20:12:05	No I do not	Constitutionality	The CRL should not regulate religion because doing so would undermine one of our most important constitutional rights — the freedom of religion. Our Constitution clearly protects every person's right to believe, worship, and express their faith without government interference. Allowing the CRL to regulate religion would blur the line between church and state, which is vital in a democracy. Religion should be guided by faith, not controlled by law. South Africa is a country of many religions, and it would be impossible for one body to regulate all of them fairly. Most religious groups already have their own internal systems of accountability and leadership. The CRL's true role is to promote and protect these rights, not to police or restrict them. Giving it regulatory power could open the door to bias, political influence, and the silencing of certain beliefs — which goes against the very principles of freedom and diversity that our nation stands for.	Nonhlanhla

2025-10-25 20:15:25	No I do not	Constitutionality	In a Christian dominated country citizens have the right to belong to the religion of choice (enshrined in the Constitution) without any interference from the 'government'. Any religious interference by this so called ANC 'government' must be viewed with the utmost suspicion. Religious control would be a further step into hard core communism. However, what South Africa needs to be cautious of is the rise of the Moslem faith, often associated with fanatic terrorist gangs such as ISIS, HAMAS, HEZEBOLLAH, HUTHIS, presently sowing havoc in many African countries. Christianity is not tolerated in their countries so why should the Moslem faith be recognised here? There are already demands for the implementation of sharia law in our country.	Peter-Laurie	English	retired

2025-10-25 21:13:28	No I do not	Constitutionality	Government has not the spiritual insight to acknowledge the Sovereignty of God. God is ultimately in control on earth as well. My faith will not be controlled by carnal man.	Mariette	Afrikaans	retired
2025-10-25 21:14:23	No I do not	Constitutionality		Jasper		
			This bill is not necessary if government and society teach their children well. Another bill will lead to over regulations by a government who is increasingly failing society on all facets of service delivery. How will such a failing state be able to government yet another bill? God made us as free human beings and now government wants to play God, but is exceedingly failing to provide the services to society that it needs to as custodian of all resources of the country. Therefore, rather embrace the freedom God established for society and see to education being good and unbiased to create balanced unbiased members of society.			
2025-10-25 21:14:52	No I do not	Constitutionality	Is it not ironic that this same government who wants to impose ever increasingly more laws on a society, is failing society in education to make education amongst the worst ranked in the world? Liberate education to liberate society! Educated citizens will build a better country. How is it possible that our government close down schools that was once opened by citizens with a heart for education? Something is seriously wrong in South Africa!	Johan	Afrikaans	business owner
2025-10-25 21:15:19	No I do not	Constitutionality	This is not a government function and seems to be focused predominantly on Christianity. Focus on governing the country ethically, corruption free and taking care of children and the elderly in a better and more supportive way as religious organisations try to with sometimes limited resources.	Sharon	English	employed individual
2025-10-25 21:15:41	No I do not	Other		Pieter		
2025-10-25 21:17:49	No I do not	Constitutionality	Vryheid van geloof, en die uitlewing of beoefening daarvan, is elke mens se fundamentele reg. God het die mens 'n vrye wil gegee, om te kies en besluite te maak.	Erika		retired
2025-10-25 21:18:32	No I do not	Constitutionality	Hyself dwing geen mens om Hom te dien nie;Hy wil dat ons Hom vrywillig kies en gehoorsaam en liefhet. 2025-10-25 21:53:09	No I do not	Other	I lived in Asia took Bybels and Christian material in to China for years to underground curch. There churches is regulated by forced to register it is called the free self curch but every thing is regulated what they preached how many members and even the Bybels have been changed, where house churches or underground churches is persecuted leaders in prison ,torcherd and killed. This bill must be stored as it will have the same effect here.	Hannes	Afrikaans	unemployed individual
2025-10-25 21:54:08	No I do not	Constitutionality	This draconian style of governance is mimicking that of China. China allows "Christian churches" to function provided that Xi's photo is front and centre of everything and that the church may not preach anything that is deemed inappropriate for the CCP. Is the ANC of the GNU looking to have their own flavor of this?	Dandre		
			This is exactly how socialism (and communism) tries to gain hold in people's lives. The government is "above God". They call the shots, determine what is right and wrong. Anyone who goes against this is cut off or dealt with in a way that the state deems is appropriate. There is only state filled messages.			
			We do not hold trust in the South African government to hold our best interests at heart and so we have every right to be this skeptical. If you really wanted to act in favor of us you would rather deal with the rampant corruption in your own government and stop the surging deaths that are happening every year in our beloved country!			
			I SAY A THOUSAND TIMES NO TO THIS PROPOSAL!

			Freedom of Religion is a sacrosanct right that is enshrined in and protected by the Constitution of the Republic of South Africa. Therefore any attempt by to regulate religion by CRL would not only be a gross violation of the constitution but a huge inequality between in the way religious and cultural institutions are treated.			
			Besides the point of constitutionality, the CRL are NOT a competent body on religious matters and therefore will be merely interfering with my faith.			
2025-10-25 22:05:11	No I do not	Constitutionality	I am not raising these points to protect rogue elements in the Church but to call on the CRL and government to distinguish between criminal activities and genuine faith. Criminal elements masquerading as Christian leaders should be prosecuted and given a fair judicial process.	Ndoda	English

2025-10-26 02:01:36	No I do not	Constitutionality	This is not a communist country. We are the rainbow nation. Freedom to live, to choose life not death. This country belongs to the true living God. Jesus Christ our saviour. The King of kings and Lord of lords.	Deon	English	
2025-10-26 02:02:43	No I do not	Other	We as people of south africa have a right to freedom of speech and freedom of religion We serve one god and one god only The government has no right to steal that away too	Angelique	English	retired
2025-10-26 02:03:26	No I do not	Necessity		David	English	business owner
2025-10-26 02:05:04	No I do not	Constitutionality	The move is unconstitutional; it has hidden agendas. Intentionally or non intentionally; this move could precede or introduce the persecution of the Christian community. It uses a blanket approach; it seems inclusive but the main target is the Christian community. Instead; the government should equip Religious formations to regulate themselves. The reason being that of avoiding not only government , but political interference also in the affairs of religion and cultural rights.	Mthandeni	English	Non-profit
2025-10-26 02:15:06	No I do not	Constitutionality	Every individual has a right to an education, to where they want to live, and work but also the right to choose what they want to believe, think, study, read, follow and vote for. As soon as any of these are removed from a person, the person becomes a puppet, a captive of someone else, and a nation begins to erode and deteriorate. History has demonstrated this over and over. The example of Hitler, communism, and countries where religion has dictated to a nation, all have shown historically to result in wars and strife. Countries governed by freedom for the citizens to choose, have all been countries that have prospered as a nation. Let's learn from history and take the interest of all mankind into consideration and not go back as a nation to discrimination and inequality.	Marian	English	employed individual
2025-10-26 02:15:07	No I do not	Constitutionality		Lynette	English	retired
2025-10-26 02:17:19	No I do not	Constitutionality	We don't need government regulations in our religious beliefs especially the CRL commission it amounts to interference with our beliefs.	Sydney	English	employed individual
2025-10-26 02:28:41	No I do not	Constitutionality	The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, and self-governing associations. This proposal risks religious leaders becoming subject to or tools of state control. –	Minette		employed individual
2025-10-26 02:30:01	No I do not	Constitutionality	This goes against our human rights and all that this country has bled to uphold	Jason	English	employed individual

2025-10-26 03:33:09	No I do not	Necessity		Vuyokazi		employed individual

			Religious communities should not govern themselves independently of national laws because doing so risks creating parallel legal systems that undermine the rule of law, democratic accountability, and equal rights for all citizens. When religious leaders operate without oversight, it can lead to unchecked authority, potential abuse, and the spread of extremist ideologies. From a national security perspective, vetting religious leaders helps prevent infiltration by foreign intelligence services, radicalization, and the misuse of religious platforms for political or violent agendas A. It ensures that individuals in influential positions do not pose risks to public safety or democratic institutions. From a national law perspective, licensing and vetting uphold legal standards, protect vulnerable individuals, and ensure that religious practices align with constitutional rights and human dignity. It reinforces transparency and accountability, especially when religious institutions engage in education, counseling, or community governance.			
2025-10-26 03:37:18	Yes I do	Necessity	In short: religious freedom must coexist with legal and security safeguards to protect both individual rights and societal stability B A.	Malgorzata	English	self-employed
2025-10-26 03:41:16	No I do not	Constitutionality	Another attempt to control and generate finance as well as “job creation!” for cronies. Judge maturity by the amount of freedom a citizen experiences in a state.	Cornelis	English	retired
2025-10-26 03:48:41	No I do not	Constitutionality	We all have the right to practice our religious beliefs as our conscience directs. It is not up to the government to force or deny me this right	Margaret	English	retired

2025-10-26 04:41:18	Yes I do	No concern	I believe this is long overdue. The way so-called "prophets" from eastern and western Africa are taking advantage of our liberal religious rights to conduct criminal activities including defrauding the elderly, money laundering, etc. has skyrocketed due to lack of oversight / regulation. These are not even individuals with any background I theology (education, practice or interest) but they are unscrupulous individuals who see an opportunity to get rich off the backs of gullible/vulnerable hardworking South Africans meanwhile long-standing South African churches are closing down due to being unable to pay rent particularly in most white and some charismatic congregations. Ther reign needs to end. I, personally, am appalled by Change.org's lack of foresight in this matter. They should not let their politics get in the way of a good thing simply because it is an effort by the sitting government. This bill is one that all law-abiding South Africans should get behind. Transparency is not something reputable religious institutions would look to avoid. There is absolutely no threat to religious freedom.	Mosito	English	self-employed

2025-10-26 06:52:04	No I do not	Constitutionality	People must free to choose the religion they subscribe to. Why must it be regulated?	Absalom	English	unemployed individual
2025-10-26 06:53:26	No I do not	Other	This law is sold to the public as something that is meant to protect them, but it will eventually lead to government control over what we believe, say, or even think. It is total and absolute government overreach and one can smell future persecution a mile away. Period. Religion is not a government's to dictate or interfere with. Moreover, Judeo- Christian rights are God-given rights, not rights given to us by tyrants. They're completely overstepping their bounds with this law, following in the footsteps of liberal, corrupt European governments that are already targeting Christians and Jews.	Tania	English	employed individual
2025-10-26 06:54:35	No I do not	Other	I believe in freedom of religion. The state needs to govern this corrupt country with moral values and not interfere in religion	Shahieda	English	self-employed
2025-10-26 06:54:42	No I do not	Constitutionality	I want to have the freedom to choose any religion I want. I don't want to have to conform to any other religions beliefs but my own. I want the freedom to choose how I love and I want my grandchildren to have those same rights, especially my girl grand children.			
2025-10-26 06:54:47	No I do not	Constitutionality	I don't think any government should compel any of its citizens to be a certain religion. That's overstepping your position.			
			Since COVID, I don't trust any government. For a society to prosper, there needs to be less control by government. Especially our government, who, it seems, just want to steal as much money as they possibly can for their own use, nevermind the poor who desperately need help .	Terry	English	self-employed

2025-10-26 07:21:06	No I do not	Constitutionality	Concerns: – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. – Parliament rejected the CRL's proposal for legislation to implement a "Peer Review Committee" system of state regulation of religion. There is no valid or legal reason to revisit this matter.	Leanne	English	employed individual
2025-10-26 07:21:42	No I do not	Constitutionality	We must keep state and church/religion separate. Where there is crime against our law then proper channels must be followed but not regulated and controlled in any way that interferes with our freedom to worship as we believe... 2025-10-26 07:27:37	No I do not	Constitutionality	Government should never have the right to dictate religious doctrine and worship.That is like saying they are equal to God because they can now decide how He is to be worshiped.Where we as a people will be heading moving forward is unthinkable.The moral fibre of society comes from religion,whether you believe that or not it's a proven fact.This should never be accepted.The future of generations is at stake here!!	Shane	English	business owner
2025-10-26 07:28:15	No I do not	Constitutionality	Jesus Christ is the head of the church and the government rests on His shoulder. No government has the aurhority to control the church but Christ. This means Jesus has ultimate authority and leadership over the church, with his followers belonging to and being governed by Jesus. (Colossians 1:18, Eph 1:22, Isaiah 9:6.) The imagery of the government resting on his shoulders symbolises the immense responsibility and authority of a king (SA Government) who would rule justly and bring lasting peace.	Edmie	English	self-employed

2025-10-26 07:29:26	No I do not	Constitutionality	It's a way of taking the free liberty of the Church, even the way they selected the consultation committee- it shows they have no interest in doing the right thing, but they just want to take the rights the Church has. I absolutely do not support what they want to do. If any religious leader or Pastor commits wrong, we have a legal system in place where they will go through its process. Even with the worst of criminals, you will hear people say, they are innocent until proven guilty...if the legal system works, why try other measures when it comes to the Church! You can't punish everyone because of the wrong few.	Sisanda	isiXhosa	employed individual

2025-10-26 07:49:30	No I do not	Constitutionality	Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities	Kgopotso	English	employed individual

2025-10-26 08:32:39	No I do not	Necessity	South Africa already has robust laws that cover all criminal abuses. The issue is not the absence of law—it is poor enforcement of the law. Religious freedom has never been a defence to excuse criminal behaviour. Freedom of speech and freedom of religion are of the utmost importance in a free society. These proposed mechanisms creates a high risk of removing these freedoms. It relies on a certain group's views or convictions, above those of others, of what is considered to be appropriate, which favours this group only, instead of everyone.	Arie		
2025-10-26 08:32:40	No I do not	Constitutionality		André		retired
2025-10-26 08:33:16	Yes I do	Constitutionality	The Constitution must not claim a god or worship on behalf of citizens. The Constitution must no all any religious book that has verses that are against human rights. Religion must not be taught to babies and children because they are not yet able to exercise free will.	Petros	English	retired

2025-10-26 08:38:01	No I do not	Constitutionality			Elize		
			This is absolutely archaic - seems to link directly to when the King and nobility (ANC) told the people what religion to follow and how to follow it or face 'penance'. This is ridiculous. This may also allow a ruling party to not give licenses to some religions and before we know it we will be a 1 religion country - probably Muslim as the ANC don't seem to be able to understand that Muslims do not care for the plight of the people of this country / previously disadvantaged - only themselves. This goes directly against the freedoms that the constitution gives us - the freedom to live a life that is not controlled by or as dictated from, the controlling government party, or a group of people. The basis of MOST Religion helps people determine how to live with each other, how to be better people and how to serve in a dignified and encompassing way. However, any religion is NOT above the basic of (human /) country laws and that's what needs to be stated in the law book - one cannot: kill, rape, imprison, kidnap, sell a person or their body parts, drink the blood of a person if unwilling or murdered, marry when under 18, in the name of / use the excuse of religion. That's where the line of conscience should be drawn to protect the people of a country.		Aimee	English	employed individual

2025-10-26 08:52:56	Yes I do	Necessity	There is too much wrongs and irregularities committed in the name of god . Religion requires strong regulation if they can't do self regulation . The government or any of it's departments cannot oversee the church because:		K		business owner
2025-10-26 08:53:03	No I do not	Other	1. Government is not founded on Godly principles. 2. There is separation between church and state. 3. The church is a Godly institution and man cannot govern that which is of a higher power/authority.		Stephen	English	business owner
2025-10-26 08:53:25	No I do not	Constitutionality	Dit is n aanval op mense regte		Hennie		
2025-10-26 08:53:27	Not fully	Other	Religion itself shouldn't be regulated. There should be a separation between government and religious institutions. I do support the registration of churches and religious organisation's an NGO (purely administrative) and taxation and vetting of financial records of religious orgasations and clergymen. The peer review committees, according to the CRL's media statement focus purely on the Christian religion, and promoting Christianity, which is a red flag in itself because all religions should be treated equally. I don't think the state should have a hand in appointing religious leaders, however, it would be beneficial if denominations have self appointed committees to do this as commercialization of religion is occurring more and more every day by opoortunists to make money.		Dedre	English	self-employed
2025-10-26 08:54:42	No I do not	Necessity	It's deeply unfair and feels like chasing the sunset. Religious people serve and support others freely, helping everyone without expecting anything in return. How can one regulate what God has ordained? Consider this — many pastors take on responsibilities such as caring for orphans, rehabilitating the vulnerable, and supporting the needy — duties that should rightfully fall under government care. Why would anyone want to regulate such acts of service? In my view, that's a definite no.		Mash	English	unemployed individual

2025-10-26 09:12:35	Yes I do	No concern	There are many churches currently which do things that are not humane. eg they make people eat grass. They use these miracles to prey on the vulnerable segments of our society. By regulating these, there would be a body that can be authoritative and can hold them to account.	Olebile	English	employed individual
2025-10-26 09:13:53	No I do not	Constitutionality	Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities.	Elene

2025-10-26 09:19:42	No I do not	Constitutionality	Is it not enough that you are trying to control our schools by implementing the stupid Bela law? Now you want to control our churches as well. You woll not go unpunished! God is going to get you...	Amanda	Afrikaans	employed individual
			There are already enough laws that govern every citizen in this country. The outliers, like those pastors who do terrible thongs, must face the law. The current laws that are in place must be enforced. We do not need separate laws for religion, others Christian won't enjoy freedom of religion and this would be discriminatory. This proposal that has been made as not affordable. The South African fiscus is way under pressure, we don't simply don't have the money to be able to roll this out. The denominations in South Africa are vast, ranging from small churches to big churches. It is not workable to have a committee that oversees churches, and also having been chosen by government, funded by government. It is simply not workable to oversee all the different denominations using a committee. The scope is too big. Lastly, as I said earlier, govern has failed to uphold the rule of law. You can't fail to uphold the current laws and at the same time want to draft news laws. The pastors, churches and leaders that break the law, must be held accountable by the laws of the country and by existing bodies like the SACC or the Evangelical Alliance. It is not necessary to propose new laws.	Johan	English	employed individual

2025-10-26 09:23:51	No I do not	Other	All the concerns mentioned are valid and disturbing. Religion and government are separate entities, both at times very anti human and as such should never meld and the past has shown the utter draconian rule by these two institutions and we still have a "shinning" example where the Muslim fundamentalists and Jihadists show a path of poverty, fear and absolute subjugation to an "entity" whose rules are interpreted and applied by clergy in governing power. It is a terrible picture. Government must stay out of religion and enforce the laws promulgated with participation by the people.	Jakobus PH	Afrikaans	retired

2025-10-26 10:43:48	No I do not	Constitutionality	Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities.	Tamaryn

2025-10-26 10:50:48	No I do not	Constitutionality	The right to freedom of religion is guaranteed in the constitution. For the government to regulate religious affairs is an over reach and breach of the separation between state and church	Alan		
2025-10-26 10:51:36	No I do not	Constitutionality	The proposal by the CRL threatens freedom of religion, including the spiritual autonomy of faith communities, and violates the Constitution. Why This Matters South Africa's Constitution guarantees every person: – Freedom of conscience, religion, thought, belief and opinion (Section 15) – Freedom of association (Section 18) – Freedom of religious communities to govern themselves (Section 31) Concerns – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. – Parliament rejected the CRL's proposal for legislation to implement a “Peer Review Committee” system of state regulation of religion. There is no valid or legal reason to revisit this matter.	Johannes		employed individual

2025-10-26 11:40:34	No I do not	Constitutionality	Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities.	Kyle	English	business owner

2025-10-26 11:44:05	No I do not	Other	Freedom of religion is a cornerstone of human dignity and democratic integrity. No state has the moral or constitutional authority to dictate, restrict, or manipulate an individual's faith, belief, or non-belief. The right to worship—or to refrain from worship—is not granted by government; it is an inherent human liberty that predates and transcends political power. Any attempt by the state to control or coerce religious expression undermines the very foundation of constitutional freedom, erodes trust in governance, and violates the sanctity of conscience. A just society must therefore defend, without compromise, every person's right to choose, change, and practice their faith freely—without fear, interference, or discrimination.	Andrea	English	employed individual

2025-10-26 12:07:13	No I do not	Constitutionality	State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities and goes against faith , religion and spirituality being a divine calling and not a government institution or authority	Tasneem	English	Non-profit
2025-10-26 12:08:12	No I do not	Constitutionality	Niemand kan vir iemand kom voorskryf oof sy geloof nie die Christelike geloof is die oudste in die wereld. Dit is my grondwetlike reg om my geloof uit te leef	Beat	Afrikaans	employed individual
			As all of the Constitutionality, Necessity, Workability and Affordability are also of concern the greatest is that any going concern that accepts money must declare it, if this is so, then it MUST be governed. The practitioners, Prophets-for-Profit, and Pastors are usually self proclaimed - this is in of itself a indication that the Religious sector needs to be more strictly governed, and taxed accordingly. So too for the congregants who, by an large, will follow these practitioners blindly; allowing them to be sprayed in the mouth with Doom or eat snakes, and certainly more ill advised deeds that are detrimental to the congregants and, in some cases, defenseless animals. Now, on to the more depraved side of religion, child molestation, rape and other hedonistic acts of abuse take place in these so called sanctuaries - with less governance or self-governance these acts will continue and, in all likelihood, escalate.			
2025-10-26 12:08:20	No I do not	Constitutionality	Religion is a power over other peoples minds and hearts - it is more dangerous than alcohol or heroin in the wrong hands, therefore, Governance is a MUST!	Liam

2025-10-26 12:09:21	No I do not	Necessity	South Africa already has robust laws (Criminal Law, SORMA, Children's Act etc.) that cover all criminal abuses. The issue is not the absence of law—it is poor enforcement of the law. Religious freedom has never been a defence to excuse criminal behaviour.	Paul		
2025-10-26 12:09:41	Not fully	Workability	I believe in religious freedom—but with a caveat. If any religion promotes hate, prejudice, or seeks to curtail the freedoms of others, it should not be protected under the banner of religious liberty. For instance, a religion that forbids women from attending school or speaking in public is not simply expressing belief—it is enforcing oppression. While the core tenets of a religion may be offensive to some, offense alone is not the issue. The problem arises when those tenets infringe on human rights and decency, especially in contexts where individuals are forced to “obey” or suffer consequences, without the option to walk away freely. In such cases, the religion forfeits its claim to protection. To clarify: consider the Catholic Church’s stance on abortion. A person may choose to have a legal abortion, and while this may be seen as disobedience to Church doctrine, there are no hard consequences like imprisonment or physical punishment. Contrast this with religious systems where disobedience leads to stoning, incarceration, or other severe penalties. That’s where the line must be drawn.	Caroline		retired
2025-10-26 12:10:27	No I do not	Constitutionality	It is UNCONSTITUTIONAL Violates Section 15: freedom of religion and conscience. Violates Section 18: freedom of association (including the right not to join a state-approved body). Violates Section 31: right of religious communities to self-govern. Forces religious leaders into state-controlled “Umbrella” structures.	Marylize		
			When is this person, who is named the president of S A mr. Ramaphosa, have someone EXPLAIN the CONSTITUTION to him, as he clearly does not understand the meaning of all stated in the CONSTITUTION. South Africa’s Constitution guarantees every person: – FREEDOM of conscience, religion, thought, belief and opinion (Section 15) – FREEDOM of association (Section 18) – FREEDOM of religious communities to govern themselves (Section 31) This PHALA PHALA president should rather keep himself busy doing what he promised the people, HIS PEOPLE, who voted for him. This NEEDS his ATTENTION - the HOMELESS, the UNEMPLOYED, the POVERTY STRICKEN AREAS in SOUTH AFRICA, the FRAUD, the CORRUPTION, etc., and STOP MEDDLING in GOD’S WORK and STOP CONFORMING TO EUROPEAN STANDARDS.

2025-10-26 12:31:15	No I do not	Constitutionality	I find this proposal an instrument of Communist control - It is ENTIRELY UNCONSTITUTIONAL Violates Section 15: freedom of religion and conscience. Violates Section 18: freedom of association (including the right not to join a state-approved body). Violates Section 31: right of religious communities to self-govern. Forces religious leaders into state-controlled "Umbrella" structures.	Karin	English	self-employed
2025-10-26 12:32:26	No I do not	Other		Sharon		
2025-10-26 12:32:41	No I do not	Constitutionality	1. Violation of Constitutional Rights- South Africa's Constitution guarantees freedom of religion, belief, and opinion under Section 15, and freedom of association under Section 18. Any state interference in the appointment, training, or regulation of religious leaders would directly undermine these fundamental freedoms. 2. Threat to Religious Independence- Faith communities are, by their nature, self-governing and guided by their spiritual doctrines and internal accountability systems. Government control risks politicizing religion, compromising independence, and opening the door to favoritism or discrimination among different faiths. 3. Existing Laws Are Sufficient- South Africa already has mechanisms to address abuse, fraud, or criminal activity through existing legal and tax frameworks. A separate state regulatory system for religion is UNNECESSARY and could lead to overreach. 4. Diversity and Social Harmony- South Africa's religious landscape is vibrant and diverse. Allowing the government to define or control religious leadership would erode this diversity and threaten the social harmony that depends on mutual respect among faith communities. I call upon the Government of South Africa to: Abandon any plans or proposals to license, register, or otherwise regulate religious leaders and organizations. Engage in open dialogue with religious communities to strengthen ethical accountability from within, rather than through state control. Uphold and protect the CONSTITUTIONAL RIGHTS of all South Africans to freely practice and express their faith. South Africans of all beliefs have fought hard for freedom — including the freedom of religion. Any attempt to place the state above the church, mosque, temple, or synagogue undermines the democratic values our nation stands for. We therefore petition Parliament and the relevant government bodies to respect the autonomy of religious institutions and protect the sacred right to freedom of belief.	Shirley	English	
2025-10-26 12:33:52	No I do not	Constitutionality	Faith has nothing to do with government. Government again trying to meddle where it has no place to. God is watching.	T	English	employed individual

2025-10-26 12:35:17	No I do not	Other	Freedom to believe in any religion is a right, however there is a problem in that religions receive many tax breaks. So how do you define religion? The church of the Flying Spaghetti Monster has as much right under our constitution as Christianity, Judaism, Islam, and any other religion. I therefore suggest that the tax breaks for religious organizations should be cancelled, they should pay rates and taxes in the same way all other organizations do. This should prevent church's from building vast property empires, which pay no tax and are a drain on the community. It will also remove the incentive for every "fly by night" group from declaring themselves a religious organization, simply to get tax breaks.	Chris	English	retired
2025-10-26 12:35:32	No I do not	Constitutionality	When you have people that struggle with basic fundamentals and life consequences that want to make decisions about the very essence of spiritual life, then you have to protect society and even themselves from the disastrous outcomes which is guaranteed. 2025-10-26 13:38:04	No I do not	Constitutionality	Freedom of religion....No control.. Control means limitation of freedom Respect Christian values	Newman		employed individual
2025-10-26 13:38:43	Yes I do	Constitutionality	While the Constitution rightly protects freedom of religion, belief, and association, absolute freedom without accountability has opened the door to widespread spiritual abuse and exploitation in South Africa. I disagree with the argument that government oversight violates constitutional rights. Having personally witnessed the devastating impact of deceptive and harmful religious practices, I believe some level of regulation is necessary for the protection of vulnerable citizens. In recent years, we have seen self-proclaimed prophets and untrained "men of God" manipulating congregations — commanding followers to eat grass, snakes, or drink petrol in the name of faith. Many of these so-called churches are merely fronts for cults or criminal activities, including sexual exploitation and financial fraud. Some imported doctrines, often linked to occult practices, masquerade as Christianity while destroying lives and families. The state has a constitutional duty not only to protect freedom of religion but also to protect citizens from harm. Oversight does not mean interference in genuine worship; it means ensuring that those who operate as spiritual leaders meet ethical and human rights standards. Faith may be divine, but the practice of religion within society affects human lives — and that falls within the state's legitimate concern.	Zim	English	unemployed individual
2025-10-26 13:38:46	No I do not	Constitutionality	You do not have the authority to meddle in matters between me and my God. Christianity is an asset to any government. Fix issues of corruption and lawlessness in government and the nation and see tangible change.	Neill	English	retired
2025-10-26 13:39:42	No I do not	Constitutionality	No man or woman can put God in a box and pre-ordered God when he/she chooses!! No he/she needs God every second of the day.	Danie	Afrikaans	retired
2025-10-26 13:40:38	No I do not	Constitutionality	I do not support this because government needs to tend to the issues of state and stop interfering with religion and what people choose to put their faith in. Politics and religion do not mix because most politicians have zero faith and serve only themselves and they are evil and deceitful. So please just lay off our religious beliefs and how and who we serve. We do not have any faith in them and we will not bow to politicians. They are not worthy!!! 2025-10-26 14:10:27	No I do not	Constitutionality	We have our choice and rights to go to any church and they are not business institutions and must not be registered and managed by their government as they should focus on houses, jobs, poverty, public services not freedom of religion or spirituality. Government should focus on corruption, madlanga commissioning and ad hoc commission of government corruption. Leave religion and spirituality alone	Lerato	English	
2025-10-26 14:11:13	No I do not	Constitutionality	Is one now not allowed to worship the way one believes in. Sounds like socialism.	Pieter	Afrikaans	employed individual
2025-10-26 14:11:58	No I do not	Constitutionality	You can't just walk in and regulate and tax and change everything the way you want. I don't give a damn about the constitution even. Practicing my Christian religion in GOD is my choice and my GOD GIVEN right. You cannot change that. You have no right to tell me what I can and cannot practice in my religion. You have screwed this country enough. Leave our religion out of your sinister little plans.	Timotheus	Afrikaans	self-employed
2025-10-26 14:12:12	No I do not	Constitutionality	South Africa’s Constitution guarantees every person: – Freedom of conscience, religion, thought, belief and opinion (Section 15) – Freedom of association (Section 18) – Freedom of religious communities to govern themselves (Section 31) Concerns – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa’s diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. – Parliament rejected the CRL’s proposal for legislation to implement a “Peer Review Committee” system of state regulation of religion. There is no valid or legal reason to revisit this matter	Pierre

2025-10-26 15:33:04	No I do not	Constitutionality	They can't regulate them self They can't regulate theft They can't regulate corruption They can't regulate murder They should do what government should do and leave faith and whatever goes with it out .	Willem	Afrikaans	business owner
2025-10-26 15:33:19	No I do not	Constitutionality	I believe that state involvement in religious matters—when no criminal activity is involved—is a crime in itself. Freedom of speech and freedom of religion are fundamental to a normally functioning society. The Chairperson, Thoko Mkhwanazi-Xaluva, has publicly stated that she believes she can communicate with her deceased mother. This belief system or spiritual practice forms part of her culture. Therefore, her stance of insulting Christian people for claiming that God speaks to them, and insinuating that they should see a psychiatrist, is highly disgraceful, tactless, and offensive. I believe this demonstrates bias and partiality, which disqualify her from making findings that could influence government decisions. In cultural and family gatherings where people claim to contact their ancestors and perform traditional rites, these practices are no different from church gatherings where like-minded believers come together to express their faith. Any proposed legislation restricting such expressions would affect all groups alike. People of faith and cultural heritage should not be required to obtain tertiary degrees simply to share their beliefs publicly. As Christians, we have one guiding text—the Bible—which neither promotes harm to society nor encourages criminal activity. Individuals who identify as pastors, priests, gurus, or traditional healers and are found to be engaged in criminal behavior should be investigated and held accountable as individuals, not as representatives of their faith.	Monami	English	business owner
2025-10-26 15:33:32	No I do not	Constitutionality	When our country begins to impose such rulings, we risk destroying the heart of our communities and causing people to lose faith in their government. Religious communities should have the right to govern themselves and state involvement should be limited to criminal activity.	Kobus	Afrikaans	unemployed individual

			South Africa's Constitution guarantees every person: – Freedom of conscience, religion, thought, belief and opinion (Section 15) – Freedom of association (Section 18) – Freedom of religious communities to govern themselves (Section 31) Concerns – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. – Parliament rejected the CRL's proposal for legislation to implement a “Peer Review Committee” system of state regulation of religion. There is no valid or legal reason to revisit this matter.

2025-10-26 16:03:39	No I do not	Other	Are they going to regulate the other religions? No they only target the children of God. No I don't support this decision that they want to take. Supporting the South African government's regulation of religion can raise several concerns that might motivate opposition to such measures:	Connie	Afrikaans	employed individual
			1. **Freedom of Belief** : The right to practice one's religion freely is a fundamental human right. Government regulation could infringe upon individual freedoms, stifling diverse beliefs and practices that are essential to personal identity and cultural expression. 2. **Separation of Church and State** : A clear separation between government and religious institutions is vital in maintaining a democratic society. Regulation may blur these lines, leading to favoritism towards certain religions or sects, which can create division and social unrest. 3. **Cultural Diversity** : South Africa is known for its rich tapestry of cultures and religions. Regulation could undermine this diversity by promoting a one-size-fits-all approach to belief systems, disregarding the unique values and traditions of various communities. 4. **Potential for Abuse** : Government oversight can lead to abuse of power, where authorities may misuse regulations to suppress dissenting voices or minority faiths, leading to persecution and discrimination. 5. **Stifling Innovation in Faith** : Many religious practices evolve over time. Regulation could stifle this natural evolution, hindering new interpretations and expressions of faith that resonate with contemporary society. 6. **Public Trust** : The imposition of regulations might erode public trust in both government and religious institutions, as communities may view this as an intrusion into personal and sacred areas of life. 7. **Focus on Socio-Economic Issues** : Instead of regulating religion, the government should prioritize pressing socio-economic issues that affect citizens' daily lives, such as poverty, education, and healthcare.			
2025-10-26 16:03:40	No I do not	Constitutionality	These points illustrate why many may argue against the regulation of religion by the South African government, advocating instead for a society that respects and upholds	Riette	Afrikaans	employed individual

2025-10-26 16:20:54	No I do not	Constitutionality	Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities.	Carrie Anne

2025-10-26 16:32:00	No I do not	Constitutionality	Violates Section 15: freedom of religion and conscience. Violates Section 18: freedom of association (including the right not to join a state-approved body). Violates Section 31: right of religious communities to self-govern. Forces religious leaders into state-controlled "Umbrella" structures.	Johanette	Afrikaans	retired
			I feel this comes against my freedom to practice my faith, if that means new faith organisations needing to be opened but is then shut down due to peer review, then I feel this legislation can hinder religious growth and practice. I believe that if God says "build my church" but man says "no", then it is better to please God than man. So I am against this proposal to regulate. God's word says: Galatians 1:10- "Am I now trying to win the approval of human beings, or of God? Or am I trying to please people? If I were still trying to please people, I would not be a servant of Christ."			
2025-10-26 16:32:09	No I do not	Constitutionality	1 Thessalonians 2:4 - "Rather, we speak as those approved by God to be entrusted with the gospel. We are not trying to please people but God, who tests our hearts."	Diane	English

2025-10-26 16:43:38	Yes I do	Necessity	Daar moet definitief regulasies in plek kom. Sommige gelowe het barbaarse rituele wat blatant net mishandeling en mags aksies is. Soos byvoorbeeld die verkragting van babas, vrouens minderjariges. Dit brutale mutulasie van liggaamsdele en ook geslagsdele. Misdade wat bloot net aan "dis my geloof" afgeskryf word. Selfs ook medisinale rituele waar kruie gebruik word en baie slegte newe-effekte lewer. Ek voel dat godsdiens binne riglyne beoefen moet waar dit almal se regte beskerm. Asook hulle reg om nie daaraan deel te neem nie. Reg tot vrye keuse. Geloof en godsdiens kan ook baie negatief bedryf word.		Martinette	Afrikaans	
2025-10-26 16:44:09	No I do not	Other			Lorna	Afrikaans	retired
2025-10-26 16:44:23	No I do not	Constitutionality	Spirituality, or religion is a personal choice and has nothing to do with anybody else, let alone the government! – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations.		Libby		self-employed
2025-10-26 16:46:34	No I do not	Other	Stay away from regulating religion. You do not understand religion . Since religion has been removed from schools they have deteriorated to the extent that teachers are not able to control the pupils.		Sonja	Afrikaans	employed individual

			Preamble Recognizing the fundamental right to freedom of religion, belief, and worship as a cornerstone of human dignity and social harmony; acknowledging the diversity of religious expression within the nation; and affirming the supremacy of the Constitution as the guiding framework for all civic, cultural, and institutional conduct — this Act seeks to protect religious freedom while ensuring that such freedom does not infringe upon the rights, safety, and constitutional protections afforded to all individuals. --- 1. Purpose of the Act The purpose of this Act is to: a) Guarantee freedom of religion and religious practice without undue government interference; b) Establish clear limitations where religious conduct violates the Constitution or statutory law; c) Provide mechanisms for lawful intervention in cases where religious organizations engage in activities harmful to individuals or the public. --- 2. Definitions For purposes of this Act: a) “Religious organization” means any body, assembly, or institution formed for the purpose of worship, belief, or spiritual practice. b) “Religious practice” means any ceremony, teaching, mission, gathering, or observance conducted in accordance with a belief system. c) “Criminal activity” includes any act prohibited under national law, including but not limited to violence, terrorism, financial crimes, sexual offenses, exploitation, child abuse, discrimination, human trafficking, and violations of constitutional rights. --- 3. Right to Religious Freedom a) Every individual has the right to freedom of thought, conscience, belief, and religion. b) Religious organizations may operate independently of government oversight in matters of doctrine, internal governance, and worship practices. c) No person shall be compelled to participate in any religious practice against their will. --- 4. Limitations on Religious Freedom

			My belief in the Lord Jesus Christ, His crucifixion and resurrection, COMPELS ME to bring His Truth to ALL MANKIND. Nothing will stop me in this work of spreading His Gracious Love. As Jesus Himself stated, as recorded in Luke 19:38-40, when the Pharisees (the religious leaders, or in our case the CRL Rights Commission) told Jesus to silence His followers for proclaiming Him the King of Glory, Jesus said, "I tell you that IF THESE SHOULD KEEP SILENT, EVEN THE STONES WOULD IMMEDIATELY CRY OUT". Jesus, our Creator God, will always have a witness. In as far as the Truth goes, in John 14:6, Jesus states that "I Am the Way and the Truth and the Life. No one comes to the Father except through Me." Jesus invites ALL MANKIND to repent of their wrongdoing, to turn about and follow Him. As a result, we may be ostracised, BUT WE WILL NOT BE SILENCED. Secondly, The Constitution of the Republic of South Africa, Act 108 of 1996 (as Amended), GUARANTEES EVERY PERSON: – Freedom of CONSCIENCE, RELIGION, THOUGHT, BELIEF and OPINION (Section 15) – Freedom of ASSOCIATION (Section 18) – Freedom of RELIGIOUS COMMUNITIES TO GOVERN THEMSELVES (Section 31) My further concerns are that; The CRL Rights Commission is attempting a form of SOCIAL ENGINEERING (similar to BBBEE and it’s associated legislation, regulation and schedules). Faith is a divine calling. It is not a commercial enterprise, and MAY THEREFORE NOT BE LICENSED OR REGULATED BY THE STATE. As per the Constitution, THE STATE HAS NO SAY CONCERNING THE VALIDITY OF RELIGIOUS BELIEF. As such, the CRL Rights Commission has NO CONSTITUTIONAL AUTHORITY/JURISDICTION to regulate religious doctrine, ordination, worship or religious associations. Any form of State regulation is AN EXISTENTIAL, SOCIAL ENGINEERING THREAT to any meaningful right to religious freedom, including the rights of religious communities. Our religious leaders MUST NOT BECOME SUBJECT STATE CONTROL. South Africa’s diverse religious communities already support volunt

2025-10-26 18:23:11	No I do not	Constitutionality	This regulation is a violation of our Fundamental Human Rights, which goes against the Freedom of Belief and Conscience: The right to choose, change, or reject religion - a core human right recognised in international law (Article 18 of the Universal Declaration of Human Rights). This regulation also restricts religious gatherings, symbols, or speech, which further undermines broader civil liberties. - Political Manipulation and Oppression: Governments can use religion regulation to suppress dissent by labelling certain groups as “dangerous” or “extremist,” thus silencing political opponents. Authoritarian regimes tend to favour one religion to justify their power or marginalise minorities, which deepens inequality and resentment. - Discrimination and Marginalisation: Religious regulations tend to target minority faiths, leading to social exclusion, harassment, or violence. This can entrench sectarian divides and fuel radicalisation, as marginalised groups may feel/ become persecuted or driven underground. - Social Fragmentation and Conflict: When the state privileges or suppresses specific religions, it erodes social trust. History shows that religious regulation can spark civil unrest or even wars, as in cases where religious communities resist state interference in leadership/doctrine. - Loss of Cultural and Intellectual Diversity: Religion has historically been a driver of art, philosophy, science, and moral discourse. Overregulation stifles this diversity, producing a homogenised culture and discouraging open debate about ethics and meaning, thus suffocating the growth and diversity. - Undermining Religious Authenticity: When the state dictates what is “true” or “acceptable” belief, faith becomes a political tool rather than a personal conviction, thus robbing man's right to individuality. - Economic and Diplomatic Consequences: Countries with strict religious controls can face sanctions or damaged international reputations, especially regarding human rights. 2025-10-26 18:38:25	No I do not	Constitutionality	Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities. 2025-10-26 18:50:00	No I do not	Constitutionality	The State's regulation of churches in South Africa is not only unconstitutional but also spiritually unacceptable. Our faith cannot be governed by political systems. The Constitution guarantees every citizen the right to freely believe, worship, and gather without interference. When the State begins to regulate the Church, it crosses a sacred boundary — one that separates divine conviction from political control. Faith must remain free, because the moment it becomes regulated, it ceases to be faith.	Florence	English	employed individual

2025-10-26 18:51:37	No I do not	Workability	Government's intention is to protect citizens from being mislead and financially/emotionally hurt/taken advantage of by unscrupulous greedy persons pretending to be religious leaders. But this is not the way to go because I believe there is already legislation for every kind of criminal offense such people subject their "followers" to. Whether it's stealing money through so called donations or convincing people to do personal favours to them, it's all already covered by existing legislation. Moreover, most legitimate church organisations already trains their pastors extremely well and they have to pass exams and practical application of what they were taught. This is enough of a qualification for practicing as a pastor. I wonder why Christianity is targeted? Government should stay out of this sensitive area só necessary for the wellbeing of each and every person.	Thea	Afrikaans	employed individual

2025-10-26 19:07:56	No I do not	Constitutionality	This seems to be an emotional decision taken by the CRL. It was like they were just waiting for an opportune time so they can deal with Christians. It is like only in Christianity that criminality is happening. I am by no means condoning acts of criminality. There are struxcure n place in RSA to deal with those who are offending. Let those structures be strengthened to effectively deal with those who commit crime. Through out history Christians have seriously suffered, even being killed for their faith. Looks like we keep on going back to the same phenomenon being disguised as protecting the vulnerable in the society which is actually is not true. I strongly disagree with the decision of the CRL. They can't do the same for Muslims, traditional leaders. Even if they may do it, it would be only to convince the people that they are not targeting Christians but in reality they know the real target-CHRISTIANS..	Malvern	English	employed individual

2025-10-26 19:18:11	No I do not	Constitutionality	Romans 13:1-4 states that governing authorities are not a terror to good conduct but to bad. I encourage Government and pray for them to have wisdom in carrying out God's wrath on the wrongdoer. Based on my current understanding as presented in the documentation provided by forsa.org.za, the proposal to regulate religion would have to be reconsidered and collaboration with religious leaders would be encouraged to find the best solutions to these challenges while maintaining constitutional right of freedom of religion.	Hugo	English	self-employed

2025-10-26 20:34:07	No I do not	Constitutionality	The state and religion should be separate I believe that it violates Section 15 of the Constitution: freedom of religion and conscience. It also violates Section 18 of the Constitution: freedom of association (including the right not to join a state-approved body). It also violates Section 31 of the Constitution : right of religious communities to self-govern. It forces religious leaders into state-controlled "Umbrella" structures. There are enough laws in South Africa to prosecute persons who wrong against church members or who perform any criminal offence. It is great that countries like Namibia ensure that pastors study at accredited Theological Institutions. Ministers should have checks done on their past to ensure that there is no criminal records against them as they are representatives of the Lord Jesus and should be above reproach.	Maurice	English	employed individual
2025-10-26 20:34:43	No I do not	Constitutionality	Our constitution protects our right for freedom of religion and association. As a Christian, I believe this move to regulate and license religion is to take away my religion and to enforce government agendas upon our churches. If this regulation is allowed it will open the doors for regulating and controlling other things in our lives as South African citizens	Eloise	Afrikaans	unemployed individual
2025-10-26 20:35:04	No I do not	Constitutionality	This could too easily be abused.	Colleen	English	retired

2025-10-26 20:39:47	No I do not	Other	State controlled religion is the end of religious freedom of association. Religious organisations are quite capable of regulating themselves within the constitution of South Africa. We don't want or need one of the most amoral corrupt governments on the planet to tell us who and how to worship - ever.	Esther	English	employed individual
2025-10-26 20:39:49	No I do not	Constitutionality	Keep religion separate. Religion and politics is not to be mixed. South Africa claim to be a free country, freedom of choice and religion.	Melany	Afrikaans	employed individual
2025-10-26 20:39:50	No I do not	Constitutionality	Keep religion separate. Religion and politics is not to be mixed. South Africa claim to be a free country, freedom of choice and religion.	Melany	Afrikaans	employed individual
2025-10-26 20:39:59	Yes I do	Constitutionality	While South Africa's Constitution fiercely protects the right to religious freedom, this sacred liberty is increasingly exploited by individuals who open churches with no accountability, using spiritual platforms to deceive and defraud vulnerable communities. Under the guise of divine authority, some self-proclaimed leaders manipulate congregants emotionally and financially—selling fake miracles, demanding tithes for blessings, or promoting harmful doctrines. The absence of vetting mechanisms allows anyone to claim spiritual leadership, regardless of intent or integrity, turning faith into a business and congregants into prey. This is why many support the idea of responsible oversight—not to regulate belief, but to protect believers from abuse. A balanced framework could help distinguish genuine faith communities from opportunistic operations, without infringing on spiritual autonomy. The goal isn't to license belief, but to safeguard dignity, truth, and trust within religious spaces. Faith should uplift, not exploit—and when sacred spaces become sanctuaries for scams, society must respond with wisdom and care.	Xola	English	employed individual

2025-10-26 20:41:05	No I do not	Constitutionality	Freedom of choice - Why would the government want to prescribe what(or who) I can or my believe? Just like the right of association. I can choose with whom or what religion I associate.	Nic	Afrikaans	business owner
2025-10-26 20:41:07	No I do not	Constitutionality	Freedom of choice - Why would the government want to prescribe what(or who) I can or my believe? Just like the right of association. I can choose with whom or what religion I associate.	Nic	Afrikaans	business owner
2025-10-26 20:41:14	No I do not	Constitutionality	I am writing to record my strong and unequivocal objection to the CRL Rights Commission's renewed attempt to place religion under State control through its so-called "Peer Review" proposal. This proposal is nothing less than a direct attack on freedom of religion in South Africa. It is being dressed up as "self-regulation," but the plan is clear: to give the State the power to decide who may preach, who may lead, and which religious organisations are "approved." That is not democracy — it is State control of belief. Our Constitution already protects the rights of every South African to believe, worship, and associate freely. Sections 15, 18 and 31 are not negotiable. They give each of us the right to follow our conscience and to organise our faith communities without needing a licence from the government. The CRL's plan would strip away those rights and replace them with bureaucracy, committees, and control. I find it deeply offensive that, instead of using existing laws to deal with genuine abuses, the CRL wants to use a few high-profile cases to justify regulating all religious life in this country. We already have strong laws against fraud, sexual abuse, and child endangerment — the problem is not a lack of legislation, it is a lack of enforcement. Turning pastors, imams, rabbis, and priests into government licensees will solve nothing. This plan is also unworkable and unaffordable. Who will decide what counts as a "religious practitioner"? Whose doctrine will be "acceptable"? How will anyone enforce it? And why should taxpayers pay hundreds of millions of rands for another layer of unnecessary regulation? The CRL's own budget can't sustain it, so inevitably religious organisations will be made to carry the cost.			
2025-10-26 20:41:14	No I do not	Constitutionality	Most importantly, this proposal will fundamentally damage the relationship between the State and faith communities. South Africans have fought too hard for freedom to hand it back now. When the State controls religion, history shows that persecution	Susan	English	retired

2025-10-26 20:42:38	No I do not	Constitutionality	1. It Threatens Freedom of Religion The Constitution of South Africa (Section 15) guarantees freedom of religion, belief, and opinion. Regulating or licensing religious leaders would mean the state (or a state-created body) has power to decide who is "fit" to lead a faith community — something that directly infringes on: Freedom of belief: The state would effectively be judging which beliefs are acceptable. Freedom of association: Communities have the right to gather and practise their faith under leaders of their own choosing. Freedom of expression: Preachers and spiritual teachers may feel pressured to censor their teachings to comply with state standards. 2. It Violates Spiritual Autonomy Religious communities are, by nature, self-governing. Each has its own internal rules, leadership structures, and doctrines. If the state begins to vet or license religious leaders: It undermines the independence and internal governance of churches, mosques, temples, and other faith groups. It may impose secular standards on spiritual matters, which are outside the state's competence or jurisdiction.			
2025-10-26 20:42:38	No I do not	Constitutionality	It risks politicising religion, allowing government influence over faith practices and leadership.	Cobus	Afrikaans	employed individual

2025-10-26 21:06:29	Yes I do	Constitutionality	Religion is everyone's right to freedom of association or affiliation, however, due to recent events of religious practice witnessed in public domains, there are some distasteful practices that have raised concerns about the conduct of the so called anointed ones subjecting ordinary worshippers to inhumane treatment. The constitution of RSA as the custodian that is entrusted with upholding every person's right to self determination, it should be given autonomy to set regulated parameters of what practices are regarded as acceptable within the ambit of the law. Laws from their inception were established to regulate human behaviour, to separate humans from non human behaviours, so if religion is not regulated it open itself to misrepresentation to individuals with questionable motives that are not in the best interests of worshippers. Religious leaders seem to have priorities monetary value over the interests of their congregations, and as the country if faced with challenges of crime, human trafficking, organ trafficking, children killings etc religious leaders are implicated in some of these practices. Example: the principal of the school in Eastern Cape and also a high priestess in her congregation is implicated in acts that go against the moral religious practices. Rwanda under the stewardship of Honourable Kagame, he imposed regulation on religion, for the sake of protecting the congregants and the identity of his nation while respecting other religions. Strong Leadership in any country is crucial for the wellbeing of its citizens.	Sabelo	isiZulu	employed individual

2025-10-26 21:58:14	No I do not	Constitutionality	The CRL Rights Commission's push to vet, license, and regulate religious organizations and leaders threatens South Africa's constitutional guarantees of religious freedom (Section 15) and association (Section 18), undermining the spiritual autonomy of faith communities. Existing laws, like the Criminal Procedure Act, already address abuses such as fraud or harmful practices, making broad regulation redundant and overreaching. Licensing risks government overreach, potentially discriminating against minority faiths and echoing authoritarian control seen in countries like China. Faith communities, which often self-regulate and provide vital social services, could face undue burdens or be driven underground, harming the social fabric. Instead of state-imposed licensing, community-driven solutions like voluntary peer reviews should be supported, as Parliament has previously rejected similar CRL proposals for these reasons. 			The proposal by the CRL threatens freedom of religion, including the spiritual autonomy of faith communities, and violates the Constitution. Why This Matters South Africa's Constitution guarantees every person: – Freedom of conscience, religion, thought, belief and opinion (Section 15) – Freedom of association (Section 18) – Freedom of religious communities to govern themselves (Section 31) Concerns – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. 2025-10-27 02:57:12	No I do not	Constitutionality		Hinrich	English	employed individual

			A state owned church for born-again believers is not biblical.  1. The Nature of the Church According to Scripture The New Testament describes the Church (ekklesia) as: A spiritual body, not a state institution (Ephesians 1:22–23, Colossians 1:18). Composed of born-again believers (John 3:3; 1 Peter 2:9). Led by Christ Himself, who is the Head — not the state or any human government (Colossians 1:18). > “My kingdom is not of this world...” — John 18:36 The moment the state owns, funds, or controls a church, it mixes spiritual authority (Christ’s rule) with worldly authority (government power). That contradicts the biblical pattern of the early church, which was independent of political power and dependent on the Holy Spirit. --- ? 2. Early Church Example In the book of Acts: The Church was born through the Holy Spirit, not through government decree (Acts 2). It operated freely under God’s authority, even when the state persecuted it (Acts 4–5). Apostles said, “We must obey God rather than men” (Acts 5:29). This shows that the true church exists even when the state opposes it, not because the state supports it. --- ? 3. When the Church Became “State-Owned” Historically, after Emperor Constantine (around A.D. 313), Christianity became the state religion of the Roman Empire. While that gave Christians legal freedom, it also: Mixed politics with faith, Led to corruption and false conversions, Created a “church system” full of unregenerate (not born-again) members. This was not the pattern of the New Testament church. The Reformation later pushed back against this, restoring the idea of a church made up of true believers only (the “believers’ church”). --- ? 4. The Biblical View A state-owned or state-controlled church: Cannot truly represent Christ’s body.

2025-10-27 03:08:43	No I do not	Constitutionality	Faith is a divine calling, not a profession to be licensed by the state. The CRL has no authority to regulate doctrine, ordination, worship or religious associations. Such regulation would undermine religious autonomy, enable state interference in matters of faith, and threaten true religious freedom. The CRL Rights Commission does not have the constitutional power to regulate: Doctrine or theological beliefs; Ordination of ministers or recognition of spiritual callings; Worship practices or internal governance of religious associations. Its role, as defined by law, is to protect and promote the rights of cultural, religious and linguistic communities, not to police, license, or regulate them.	Karin	English	business owner

2025-10-27 05:43:49	Yes I do	Necessity	Its necessary for the state to intervene and regulate the sector. My concern is the mushrooming of too many religious institutions which surpasses the new factories opened. Some factories close to mae way to the churches. I agree that we religion is a divine calling but its getting abused and misused. Criminals are benefitting from the emotional spirituality of our people. Secondly, its leaders earn too much not to be taxed. regards	Iuvo	English	unemployed individual

2025-10-27 06:08:38	Not fully	Constitutionality	I as a South African, wish that our government will start delivering on the promises they made 31 years ago. They must stop wasting money and try to delete the very people that voted against apartheid in 1994. The government is so focused in hiding their own racist laws and corruption. They lie to the youth of today. They blame apartheid for everything, but fail to recognize that Afrikaners voted against a system that the government is keeping alive. That said religion was brought to Africa by the explorers and settlers. There was no religion before that. I believe it was part of a bigger picture to provide knowledge of Jesus Christ who was sent to die and rise for all sins. Not a specific group, but for everyone that repent and follow this light. I do agree that government should investigate churches and their leaders that steal from the poor and line their own pockets and also from the very government that was voted in by people to bring change to their lives. People don't want freebies, they want to eat and live without fear of being killed, raped or just a victim of crime. Government should rather start investing and looking at what is wrong and start fixing the issues in their own house. Stop spreading hate and fight crime and corruption. I am a strong believer that no man is above God and any man or government that goes against God and His people is fighting a loosing battle with the worst long term consequences. I know our government thinks if people fears them, they have respect. On the contrary fear doesn't create respect, but retaliation and disgust even though to scared to admit. As a God fearing and loving South African, I pray that our government will wake up and turn to God and repent. We are a nation different to the rest of the world. We all have a right to work, education, a safe environment and a just government that don't punish the individual on the colour of the skin or their native language.	Will	English	business owner

2025-10-27 06:18:57	No I do not	Constitutionality	Religion should be a freedom of choice. Everyone has the right to choose the religion that best suits them. The government should focus on running a working, safe and free of crime country. 1st priority should be stopping the corruption!	Michelle		
2025-10-27 06:19:05	No I do not	Workability	I understand where this bill proposal stems from, but it is unconstitutional as I sense that it has 1. Colour attached to it and 2. It is targeting a specific religious whereas there are fal understand the reasoning behind this proposed bill and the concerns that may have inspired it. However, I believe it raises serious constitutional concerns. For one, it seems to carry certain undertones of bias, both in terms of race (“colour”) and in the way it appears to target a specific religious group. We have an issue of fake pastors or exploitative religious leaders which is not confined to one faith or community; it exists across various religious and spiritual movements. Therefore, addressing it selectively risks creating division, discrimination, and mistrust rather than ensuring fairness and accountability across the board.ke religious beliefs across the board	Siphaman dla	English	employed individual

2025-10-27 06:23:35	No I do not	Constitutionality	I as a Citizen and individual person has the rights to live, speak and practice my Christian Believe. YAHWEH Jesus Christ creator of Heaven abd Earth is my Shepherd and not this Government of South Africa to tell me how and what I should believe. I declare to you as this Government that I will lay my life for Jesus Christ and not this evil world where tge Government of South Africa plays cards with the WORLD Health Organization to create a One World order to control me as an Individual. None of the people in parliament that so called present me as an individual has power over me. I will not obey this new trick they want to implement to control religion. I respect what other people believe and we have lived in peace and unity for so long why now want to control each individual to what the should or live to believe. Keep Government out of Religion and focus on what your real purpose is in Parliament. Solve the Corruption, Solve Crime, rethink how Government can leave the Private sector out to create jobs, food on the table and a happy liveable society for all citizens of South Africa. Government/Parliament should start realizing that the Private sector is paying their salaries, projects and funding the so called elite and cartel that creates Corruption and fraud. Focus to stop this and LEAVE MY RELIGION ALONE.	Florein	Afrikaans	employed individual
2025-10-27 06:24:05	No I do not	Constitutionality		Rosalyn	English	retired

			Once the CRL or any similar organisation control religious organisation or churches to "vet" them, then it won't be long before they will control what message a church's preacher or even individuals may deliver and which message of God's Word is permissible or not permissible, because it will "offend" certain groups!!! God's Word must be preached to the world without restrictions!!! If the CRL is allowed to push ahead with their mission it won't only impact churches, but could even extend to individuals (authors) who write books of their faith (in God)!!! And: what to preach in schools (though this is already taking place!). All humans have an inalienable right to freedom of choice of religion (faith) - God gave humans freedom of will! However, no organisation (CRL specifically) has the right to choose my faith - that right has been given by God to humans as individuals!!! Christians will experience suffering, trials and persecution, not only as individuals, but also as the Body of Christ, just as Jesus experienced when He was crucified! We will have to carry our crosses and also help others carry their crosses, just as Jesus carried His cross! The Good News is that we will bear our trials and suffering only for a short while (1 Peter 1:3-9)!!!

2025-10-27 06:27:00	Yes I do	Necessity	I support the proposal or consideration as I am one of the people who strongly believe that SA's constitution is giving away far too many rights hence they are usually abused. Most South Africans are not exposed nor knowledgeable about too many things hence they are taken advantage of while foreigners aware of these liberties take advantage of them. It's the same with religious and spiritual practices, with many citizens being abused and taken advantage of. See how certain churches and spiritual leaders and practices do as they please here in South Africa, occupying empty spaces throughout our cities in the name of freedom of religion and spirituality? I like it the increasing problem of mushrooming shack settlements all over our cities, putting our municipalities under pressure to provide alternative accommodation, it's unfair. Although I am not too sure of how they should be regulated, the truth is that the state needs to intervene somehow to protect the many vulnerable citizens, it cannot be a free for all situation, it needs to stop to save our country. On many levels, the SA constitution needs to be wicked, toned a bit in some areas, it's too sophisticated to our fledgling nation and country, foreigners and unscrupulous people/agencies including NGOs are taking advantage of its liberties. Thank you	Sivengwane	English	business owner

2025-10-27 06:53:20	No I do not	Constitutionality	In a free democracy I have the right and freedom to serve The Lord God Almighty	Florence	Afrikaans	employed individual
			Freedom of religion is a "natural law", it precedes positive law and constitutionality and enjoys greater status as such.			
			If this ever becomes law, the government will become God and dictate what thoughts and beliefs are allowed and they will punish those who disagree with the stroke of a pen.			
			The drafters of this proposal are nothing more than power hungry, manipulative control freaks who want to dictate the values and beliefs that individuals hold.

2025-10-27 07:15:12	No I do not	Constitutionality	It is our constitutional right to be able to choose which religion to follow. No government has the right to take it away from the people of their countries. This is to go backwards in thinking and against what political giants like Nelson Mandela fought for. We already see the downfall of society because of the lack of discipline in homes. We see children doing what they want because this current government has taken discipline out of the homes and schools. To take away our rights to religion and a moral belief system will plunge this country into further darkness	Wesley	English

2025-10-27 07:18:15	No I do not	Constitutionality	I am strongly opposed to the proposed legislation by the Commission for the Promotion and Protection of the Rights of Cultural, Religious and Linguistic Communities (CRL), as it represents a direct threat to freedom of religion, conscience, and association as guaranteed by the Constitution of the Republic of South Africa. Constitutional Protections Our Constitution explicitly upholds every person's right to freedom of conscience, religion, thought, belief, and opinion (Section 15); the right to freedom of association (Section 18); and the collective right of religious communities to practice and govern their faith independently (Section 31). These provisions safeguard the spiritual autonomy of all faith communities from state interference. Why This Proposal Is Unconstitutional The CRL proposal would subject faith communities and religious leaders to state oversight, in effect licensing or regulating religion. Such measures violate the fundamental principle that faith is a divine calling, not a profession. No human authority, least of all the state, has the mandate or moral right to determine who may preach, what doctrines are valid, or how worship should be conducted. The CRL has no constitutional power to regulate the internal affairs of religious bodies — including ordination, doctrine, or governance. Any attempt to do so would establish a form of state control over religion, undermining the very freedoms that the Constitution seeks to protect. Risks of State Control If implemented, this proposal would open the door for political or bureaucratic interference in religious life. It risks turning spiritual leaders into state-approved functionaries and could suppress religious diversity by imposing uniform standards that disregard theological distinctives. Such control is incompatible with South Africa's democratic values and pluralistic society.	Stegman

2025-10-27 07:32:16	No I do not	Constitutionality	The instant where our constitutional rights are meddled with without protest will further corrode our rights to individuality and freedoms guaranteed by it.	Andre		
			Because state has no place interfering in religion . However with the increase in weird cults , ideologies and institutions that have nothing to do with actual religion but brainwashing , money and power eg Scientology is not a religion and has no spiritual nor theocratic basis . The Catholic Church , its clergy and lay people as well as Opus Dei (frightening invasive criminal organisation which stole billions from public with its bank and corporations it took over in the name me of doing God's work and terrible abuses of young often naive people they recruited / recruit essentially into indentured slavery) and various other accredited middle of the road religions have used so called religious or church type operations for criminal activities both in regard to human rights abuses , trafficking and financial crimes and exploitation of the gullible or vulnerable . French Islamists are allegedly leaving France because they feel abused by the state - their activities ,which have no bearing on religion but on the annihilation of Jews , Israel and Christian's and the west and jihad , are being greatly curtailed . There are laws which give government powers to look into these activities of "companies "institutions and bodies and how they're funded- .many of these promote Jihad and are counter western ideals and mores . These are not religious organisations but extremists with genocidal ideology :only one intent , not to integrate nor participate in the freedoms of the west and its people , but to impose its own archaic manmade rules on the host country , always calling for its demise and replacement with its own miserable oppressive rules . These are predatory bodies that that have nought to do with " freedom of religion , thought , gathering etc . There's a definite line between the genuine faithful and those who seek to undermine oppress and predate . The latter need controlling and state needs to intervene here .	Sally	English	retired

2025-10-27 08:21:53	Yes I do	Necessity	I really support this proposal because many religious leaders have been abusing power and their congregants. Most religious groups get away with a lot of human rights violations in the name of "religion" with little to no accountability from it's leaders/ members. Therefore, a call to regulate might be a step to mitigating or a total eradication of wrong doings in religious formations.	Shakespea r	English	unemployed individual

2025-10-27 08:28:41	No I do not	Constitutionality	I wish to remind the CRL Rights Commission of how hard South Africa fought for their freedom. The proposed "Peer Review" strategy is a disguise of an over-reach of State Control. Why do we want that in South Africa? The proposed strategy violates section 15, 18 and 31 of our Constitution. This proposal has already previously been rejected by our Parliament, and I am grateful for their integrity in maintaining the values of our constitution. The solution is not State Control, and history has shown what happens when the State oversteps their overseeing role. I appeal to the CRL Rights Commission to align themselves to our constitution and to refrain from unnecessary and unworkable proposals.	Pam	English	self-employed

2025-10-27 08:33:31	No I do not	Constitutionality	Apart from this being contrary to our Constitution, violating the rights of our people's belief system, it is a total no-brainer to regularise spirituality. No one can control spiritual beliefs. We have a lot of problems in the country or society where they need to focus their energy, rather than wanting to dictate what and how people should believe and conduct themselves towards what they believe in. We have laws in our country, and should anyone break those laws/they should be taken to task irrespective of what they believe in, period!	Godfrey Thulani	English	employed individual
2025-10-27 08:34:04	No I do not	Constitutionality	As an Indian woman, my belief in God, Jesus Christ did not come by force or manipulation or even being in a religious family, my belief of God, Jesus Christ came through personal supernatural encounters with Jesus Christ where He supernaturally He healed my body and countless other supernatural miracles that changed my life and I know hundreds of people that experiece God, Jesus Christ in life transforming ways. I believe our desire to worship and serve God, Jesus Christ who saved us should not be controlled by man. At the age of 38 being born in South Africa where we came from a history of pain and rascism and which was truly grown from a root of godlessness, I believe the church was used across history to bring revival to nations, it was on the prayers of believing Christians (not false christians who had murdered and shown racism which is actually not what the bible teaches, I am not talking about them), true Christians who follow Jesus Christ will always bring positive change and love not because we are capable of it but because Jesus Christ gives us His ability to do the right thing for all people. This should not be controlled but rather embraced so that we all be saved and blessed abundantly. It would be heartbreaking to know that we would be controlled by government when all we want to do is love our God who loves us so deeply and so freely.	Antoinette	English	employed individual

2025-10-27 08:48:38	No I do not	Affordability	Concerns cover Constitutionality and Necessity and the creation of yet another "feeding trough". We are aware that the proposed regulations are a violation of South African citizens rights. This move is TOTALLY UNECESSARY and is just another way for this government to place yet another burden on the SA public , opening another loophole for more corruption. Additionally South Africa is a democratic country where Freedom of religion is every persons' democratic right. That right isn't open to government regulation/control.	Tascha	English	retired
2025-10-27 08:49:04	No I do not	Constitutionality	I agree with the government view that people should be protected from abusive, monetised religion, but we already have laws in place to deal with criminality. Religious leaders should however never be held to be "above the law". Worship as you wish, to whichever imaginary friend you choose, within the boundaries of the law. Those who abuse people's naive trust and siphon away their meagre cash reserves, while themselves living in luxury (and I know some!) should be held accountable.	Vera	English	employed individual

2025-10-27 08:52:23	Not fully	Other	I do agree there is a strong need to address the abuses which are taking place in the name of christianity. (I heard of a young girl (a friend of a friend) who recently died because her mom prohibited her from taking diabetic medicine on the instruction of the mother's church.) How does this get addressed? This type of abuse MUST be strongly addressed - and addressing such a case "after the event" is just far far too late. But the intended "method" using the proposed new legislation is the devil dressed up as an angel of light- it strongly appears that there is an agenda to exclude evangelical christianity from the consulation process and I vehemently oppose such a process. The evangelical sector have to come up with a way of "nipping" that type of abuse before it happens and this creates a big quandry. Perhaps a voluntary association of churches (from across the christian (or wider) spectrum) which ascribe to a minimum agreed set of practices combined with an ongoing media campaign which reaches the least educated poor who are the most vulnerable to such abuse.? And (I hear) many many poor so called evangelical church pastors are only in it "for the money."	Brian	English	retired

2025-10-27 08:54:17	No I do not	Constitutionality	Any attempt to 'regulate' religious bodies or their followers should fall foul of constitutional scrutiny. Key provisions in the constitution Freedom of religion: Every person has the right to freedom of conscience, religion, thought, belief, and opinion. State neutrality: The state must not unfairly discriminate against anyone based on their religion and must remain neutral in its stance toward all religions and worldviews. Religious observances: Religious observances can be conducted at state or state-aided institutions, but they must follow rules set by public authorities, be conducted on an equitable basis, and have free and voluntary attendance. Recognition of religious law: The constitution allows for legislation to recognize marriages and systems of personal and family law that are based on religious traditions. Rights of religious groups: Religious groups have the right to limit certain rights of their members, provided it is done in compliance with the constitution's conditions.		Francois	English	self-employed

2025-10-27 08:54:35	No I do not	Other	– Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. I do not believe that the state is above GOD and therefore state cannot dictate to a sovereign GOD who to call into His holy service. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. I do not believe that the state is above GOD and therefore state cannot dictate to a sovereign GOD how to relate to man. In fact, the state was allowed to govern by that sovereign GOD. But it is a typical man centered life who is so arrogant as to think that they have the power over GOD, or that amplify themselves to gods. The Egyptians, Babylonians, Persians, Greeks and the Romans failed. Are our CRL so arrogant and unwise as to think that they can achieve something which all these mighty kingdoms failed to do. It is a symptom of the depravity of man and therefore the sovereign GOD will remove you. So who is your successor and what is their agenda? – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. The moment that the sate gets involved into politics, the politicians impose their religion on the people. Again, we just look at the more recent examples ie Russia, where only the Russian Orthodox religion is recognised, in China, Syria, Jordan, Iran, Egypt, Tunisia, Morocco, Mali, Sudan where Christians are persecuted. I think we have enough safety, criminal & civil laws. We just need to enforce them better if protection of the civilians against ruthless, lawless individuals exploit innocent victims. We need to spend the money on enforcement not more regulation. Whistle-blowers should be taken seriously. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. 2025-10-27 08:57:52	No I do not	Constitutionality	The South African government is proposing sweeping regulations over religious activity, framed as measures to protect the public. Yet beneath this veneer of concern lies a troubling pattern: a steady erosion of individual freedoms under the guise of safety and order. Once again, we witness a government department engaging in ideological overreach—echoing Marxist strategies that centralize control and suppress dissent. This isn't about safeguarding citizens; it's about consolidating power by regulating every facet of personal belief and communal expression. Yes, abuses within religious institutions exist and must be addressed—but they should be dealt with on a case-by-case basis. Targeting entire faith communities through blanket legislation is not protection; it's coercion. The approach being advanced here is unmistakably ideological: a collectivist method that punishes the many for the sins of the few, all while claiming to act in the public's interest. It's a deeply concerning trajectory.		Trevor		self-employed

2025-10-27 08:58:06	No I do not	Necessity	We, the undersigned, firmly oppose the CRL Rights Commission's renewed proposal to vet, license, and regulate religious organisations and leaders. Such measures pose a direct threat to the fundamental right to freedom of religion enshrined in our Constitution. Faith communities must remain free to govern their own spiritual affairs without state interference. Any attempt to impose bureaucratic control over religious expression undermines the very principles of democracy, diversity, and human rights that South Africa stands for. We call on the government to reject this proposal and protect the constitutional freedom of all people to worship and lead according to their faith and conscience.		Selwyn		
2025-10-27 08:58:25	No I do not	Constitutionality	Religion is not something that must be organised by the state. Religion is a fundamental right of all people to choose who they want to serve. Govern the taxes and everything that goes with it, but do not govern who and what should be preached.		Franco	Afrikaans	business owner
2025-10-27 08:58:29	Not fully	Constitutionality	This is a serious constitutional concern, especially in South Africa. Be that as it may, it is imperative to look at religious practices that involve proselytizing, indoctrination, forced conversion, persecution, torture, mutilation, and killing of humans and animals for the sake of the religion or cultural expression. Look at these religious practices first, should you decide to license and regulate "faith".		Yvonne

			I think that freedom of worship is important in our country. This applies to every religion and culture in South Africa. We have the right to worship in places of worship. This is something that is very hard to come by in many other countries and we appreciate this ruling of freedom of worship. At the moment many churches have their own governing bodies like especially the Full Gospel Church of God in South Africa. This is the affiliated Group that we belong to. We are regulated and governed by our FGC constitution of which we adhere to. The FGC constitution is a Godly, moral, ethical, spiritual, word-based constitution that is in line with the Bible, the Holy Spirit and God himself of how churches should be run. By the government regulating churches, we will be governed by what they say. What they want. What they think is right in their own eyes. This could be detrimental to the way churches are currently run. We don't want to be governed by a worldly and political system. We will be governed by the word of God and our FGC Constitution. We choose not to agree with government regulations of churches because government seeks profit before people. If they want to curtail churches, then investigate and and scrutinize local churches who have foreign preachers performing all kinds of 'fake' miracles with their congregations. That's where government should start. Not come and impose laws for registration etc. Start with the fake prophets and preachers from other countries first. We will not bow down to worldly systems and other agendas except God's agenda.		Chris	English	employed individual

			People leading religious denominations take advantage of Non-regulatory status of religious denominations. This results in a situation where followers or believers of a certain specific religious denomination suffer consequences instead of benefiting from the religion. Suffering :This refers to intention of religion swaying towards commercialising religion, impoverishing congrigants. This also set a negative trend within society. People refer to religion as a vehicle to get reacher swiftly. Once reacher social aspects are compromised. Adultery rises. People moral standing is negatively affected.				
			Spiritual and faith build society. Regulating religion to a certain extent is a requirement. Internationals abuse South Africans while pretending to be healers of ailments of some sorts, asserting payments in the name of Love of Jesus Christ. People pay large sums of money over a weekend then begining of a week money flows out of South Africa illegally so. Youth view on this a future building mechanism. They then abunden education, traditional business and employment.				
			It is indeed appropriate to create a regulator mechanism of religion. It will benefit the people of South Africa. It will reduce lawlessness, restoration of economic activity will have a purpose. Let the constitution of South Africa be amended to include appropriate Religion Practices of any sort.		Dikwena	English

2025-10-27 09:19:44	No I do not	Constitutionality	Right to practise religion is one of the many pleasures we have enjoyed in SA. Many other countries are restrictive for eg. call to prayer at mosque, scarves etc and there are many religious attacks etc as it starts at the head of government who filter down the negative message. I believe placing restrictions could lead to people taking matters into their own hands and will lead to public humiliation. SA has held its head high in this regard for many years space and freedom to practise religion without imposing on others thereby reflecting religious tolerance.	sk	English		employed individual

2025-10-27 09:29:10	No I do not	Constitutionality	Also: they once again want full control and limit up with regard to something that is totally unacceptable	Hanlie	Afrikaans		business owner

			The proposal by the CRL threatens freedom of religion, including the spiritual autonomy of faith communities, and violates the Constitution. Why This Matters South Africa's Constitution guarantees every person: – Freedom of conscience, religion, thought, belief and opinion (Section 15) – Freedom of association (Section 18) – Freedom of religious communities to govern themselves (Section 31) Concerns – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternal, and self-governing associations. – Parliament rejected the CRL's proposal for legislation to implement a “Peer Review Committee” system of state regulation of religion. There is no valid or legal reason to revisit this matter.

2025-10-27 09:41:58	Not fully	Other	Its not the religion so much as the leaders, tying to create cults and scamming followers out of money.T he church must provided audited statement of payment of cash and services to church officials annually, and they must be taxed on it.	Allan	English	retired
2025-10-27 09:42:12	No I do not	Constitutionality	Everything has been destroyed, religion MUST BE untouched. It should not be controlled, regulated. We have free will and trust in our Father God, there is no other way. Every Knee shall Bow. What has ever worked appropriately with our current Leadership, just imagine what this means. They have already removed God out of our schools, now they want to start with churches??? We should all be concerned if they regulate religion. There focus should be on corruption, failed state, unemployment, poverty, high cost of living, crime and endless challenges we faced with. This is another distraction.	Lukia	English	employed individual
			I am writing to object, in the strongest possible terms, to the proposal for state control or oversight of religious affairs.			
			Separation of State and Faith: The primary role of the government is to manage earthly practicalities—governance, infrastructure, economy, and security. Matters of faith and conscience fall outside the legitimate scope of state authority. Attempting to manage religious belief fundamentally confuses the duties owed to the state with those owed to the divine, as articulated in Christian scripture: "Give to Caesar what is Caesar's and to God what is God's." The state must not claim jurisdiction over the latter.			
			Risk of Political Abuse: This proposal creates a dangerous avenue for abuse by political influencers. Granting the state the power to regulate or control religious bodies will inevitably lead to the co-option or suppression of faiths whose teachings or leaders are critical of the government, thereby undermining independent civil society.			
			Power Imbalance: The focus of the government should be on increasing citizen power to hold the state accountable. This proposal does the opposite—it increases the power of the state over its citizens' most private and deeply held beliefs, moving our democracy in an authoritarian direction.			
			Impracticality and Diversity: South Africa is a nation of profound religious diversity. The attempt to fairly or appropriately manage the wide and often contradictory variety of beliefs, doctrines, and practices held by different faith communities is practically impossible. Any regulatory framework will inherently favour some groups while marginalising others, directly violating the spirit of non-discrimination enshrined in our Constitution.			
2025-10-27 09:42:22	No I do not	Constitutionality	I urge the government to immediately abandon this proposal and reaffirm its commitment to the constitutional principle of religious freedom, allowing faith communities to govern themselves autonomously while the state focuses on its necessary governmental functions. 2025-10-27 09:54:07	Not fully	Other	It is not regulating Religion per se, noting who is in the space of Religion in South Afirca is important, to protect citizens against chalatans and people who ruin the lives of others in the name of religion, and robbing others of their life savings and wealth... Especially modern day foreign religious practices... migrating to South Africa..		Kedibone	English	retired
2025-10-27 09:54:18	No I do not	Constitutionality	Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities.		lan		
2025-10-27 09:55:16	No I do not	Constitutionality	While the constitutional right to freedom of religion must be upheld without compromise, it is important to recognise that the proposed oversight mechanisms by the CRL Rights Commission should not be viewed solely as a threat to this freedom. Rather, they present an opportunity to strengthen accountability, safeguard the public, and promote ethical conduct within religious institutions. South Africa has witnessed numerous instances in which individuals, claiming religious authority, have exploited followers financially, emotionally, and even physically. Such actions not only harm vulnerable members of society but also undermine the credibility of legitimate faith communities. Reasonable regulatory measures can assist in preventing such abuses while ensuring that religious organisations operate with integrity, transparency, and respect for human dignity. It is essential, however, that any proposed framework for regulation be developed through meaningful consultation with faith leaders and communities, to ensure that it does not encroach upon spiritual autonomy or doctrinal matters. Properly implemented, such oversight can enhance, rather than diminish, the public's trust in religious institutions. Ultimately, the protection of religious freedom must go hand in hand with the protection of individuals from exploitation carried out under the guise of faith.		Anita	English	employed individual
2025-10-27 09:55:28	No I do not	Constitutionality	South Africa's Constitution guarantees every person: – Freedom of conscience, religion, thought, belief & opinion (Section 15) – Freedom of association (Section 18) – Freedom of religious communities to govern themselves (Section 31) Concerns – Faith is a divine calling, not a profession — it should not be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations.				
2025-10-27 09:55:28	No I do not	Constitutionality	Parliament rejected the CRL's proposal for legislation to implement a "Peer Review Committee" system of state regulation of religion. There is no valid or legal reason to revisit this matter.		Francois	English	employed individual

2025-10-27 10:24:03	No I do not	Other	The South African CRL Rights Commission's push to vet, license, and regulate religious organizations and leaders is a direct threat to freedom of religion, a cornerstone of our Constitution. This overreach infringes on the spiritual autonomy of faith communities, undermining their right to self-governance and free practice. The Constitution guarantees freedom of belief and association, and imposing state-controlled mechanisms risks stifling diverse spiritual expressions. Such regulations could favor certain denominations, marginalizing smaller or non-traditional groups. The CRL's approach assumes religious leaders need state oversight to operate ethically, disregarding existing legal frameworks like fraud or abuse laws that already address misconduct. This move sets a dangerous precedent for state intrusion into private beliefs, eroding democratic principles. Faith communities must retain their independence to thrive, free from bureaucratic overreach that could suppress genuine spiritual diversity and violate constitutional protections. The CRL must reconsider this unconstitutional proposal.	Howard		
2025-10-27 10:24:44	No I do not	Other	Over reaching of the state. Look at our Country, in what chaotic state it is with all corruption. Does this count for all other religions including moslem, hindu, jewish orthodox, Zionist, traditional religions.	Linda	Afrikaans	retired

			I do not support the proposal from the CRL Rights Commission to regulate religion? Each and every person in South Africa has freedom of speech and the right to choose his/her religion as per the constitution. – Freedom of conscience, religion, thought, belief and opinion (Section 15) – Freedom of association (Section 18) – Freedom of religious communities to govern themselves (Section 31)			
			These are my concerns.			
			Faith is a divine calling, not a profession. It cannot be licensed, regulated, or controlled by the state. The state has no authority to determine the validity or legitimacy of any religious belief.			
			The CRL Rights Commission has no constitutional mandate to regulate doctrine, ordination, worship, or the internal affairs of religious associations.			
			State regulation poses an existential threat to the constitutional right to freedom of religion and to the autonomy of religious communities.			
			Such regulation risks turning religious leaders into agents of the state, undermining their spiritual independence and integrity.			
			South Africa's religious sector already maintains voluntary accountability through charters, codes of conduct, fraternal, and self-regulating associations.			
2025-10-27 10:47:53	No I do not	Constitutionality	Parliament has already rejected the CRL's proposal to introduce legislation establishing a "Peer Review Committee" system for regulating religion. There is no legal or constitutional basis to revisit this matter.	Lynette (Elena)	English	self-employed

			The current government has proved over the past 30 year that they cannot govern anything. This commission is nothing other than a witch hunt to prevent South Africans the right of a free living in our country.			
			Religion and religious beliefs should never go against any laws of the country - if it does, the law will be able to step in and address the issue. There is no need for any extra rules or regulations or whatever the commission think it is that they will be doing.			
			Allow South Africans to live their lives within the constitution of our country. Nothing else is needed.			
2025-10-27 10:58:02	No I do not	Constitutionality	Instead of starting up yet another commission - rather focus on the laws we have in place and enforcing those. Rather take the manpower and investigate and illuminate corruption so that the money we have in the country gets applied to building the country.	karin	Afrikaans	self-employed
2025-10-27 10:58:27	Not fully	Other	Although I do believe in religious Freedom, and agree to limit Government interference in religious freedom. In. S.A. we have many so called churches popping up that exploit people. these "scam" churches, harm religion, community's and their followers, they have no regard for zoning, noise, environmental impact or where or how they operate. Some sort of regulation should be enforced to avoid such ill treatment of people in the name of what ever God they choose to follow. Honestly, Conn artists clam to be profits and regurgitate some or other message to brain wash members and followers. In reality they are taking their money to profit themselves. Avoid taxes, get rich, get power, sexually abuse and manipulate people. These churches must be stopped, and some regulation may help. A register could help those seeking a church to identify who has and is legit. i.e vetted and qualified, no criminal history, properly registered as a Place of worship and NPO, correctly Zoned for business, and yes religion is a business for some of them. If the religious leader misleads or exploit their followers, or harms them with "Doom insect sprays" they should be removed and flagged on the register and prosecuted, assets ceased etc. some regulation is necessary, and will the war in Gaza some control over hate speech, inciting voidance, indoctrination and intolerant language is needed. only god knows what is really going on behind closed church doors, some regulation is needed to protect the public, without interfering in freedoms. 			I do not support the CRL Rights Commission’s proposal to regulate religion. While I respect the CRL’s concern about protecting people from abuse or exploitation under the guise of religion, licensing or regulating faith and religious leaders by the state is not the right approach — and it raises serious constitutional and ethical concerns. --- Reasons: 1. Faith is not a profession — it’s a calling. You cannot “license” someone’s belief or divine calling without violating the very essence of freedom of religion (Section 15 of the Constitution). 2. It threatens spiritual autonomy. South Africa’s religious diversity is one of its greatest strengths. Each faith community governs itself — through its own doctrines, ethics, and internal accountability systems. State interference would undermine that independence. 3. It risks state control of religion. History shows that when governments begin regulating belief systems, it often leads to censorship, manipulation, and suppression of minority faiths. 4. The Constitution already protects citizens. Existing laws (such as those against fraud, abuse, or hate speech) can address misconduct without imposing a blanket state licensing system on all religious organizations. 5. Parliament has already rejected this proposal. There’s no legal or constitutional justification for reopening a matter that was found to violate fundamental freedoms. --- Religious freedom means the right to believe, worship, and organize according to conscience — without government approval.			
2025-10-27 11:21:26	No I do not	Other	The CRL’s role should be to promote and protect these rights, not to regulate them.	Hanlie	English	retired

2025-10-27 11:23:11	No I do not	Constitutionality	No religion, whatever it is and propogates, should be regulated. Furthermore the State should not advance funds to only certain religion organisations to ensure that those religions can propagate themselves ahead of those religions not favoured by the State. It is the duty of the State to track down so called religious organisations that use their organisation as a front for unlawful activities (eg drug peddling, prostitution, human trafficking etc). Regulating all religious organisations accross the board is not the way to tackle the unlawful organisations, even if it is more efficient, quicker and less costly. The State could/should also rather encourage religious organisations to pray for assistance to the law enforcement entities for tracking down the unlawfals.	Wouter	Afrikaans	retired

2025-10-27 11:23:35	No I do not	Other	People who regulate will only focus on what they believe is right even if it is wrong. Spirituality and spiritual direction is a personal choice.	Pauline	English	employed individual
2025-10-27 11:23:50	No I do not	Constitutionality		Alex	English	retired
2025-10-27 11:24:02	No I do not	Constitutionality	this is part of the governments wish to control people and their beliefs sufficient legislation is in place in case of any wrong doing by religious entities	sandra	Afrikaans	retired
2025-10-27 11:24:03	No I do not	Constitutionality		Salim		
2025-10-27 11:24:05	No I do not	Other	People must be free to choose and practice whichever religion they want to.	Denise	English	retired
2025-10-27 11:24:07	No I do not	Constitutionality	With the collapse of apartheid, we were granted many rights, including the freedom of religion. The effort to control this by regulating it will deprive us of that freedom and that right. So that should not be supported. While we understand that there are some religious leaders who abuse their privilege and position for their own benefit, the vast majority of us wish to practice our religion in the way that we are free to do so. South Africa has a long history of promulgating laws that are well-intentioned, but the application and implementation of these laws often leads to an abuse of our rights.	Suleiman	English	business owner
2025-10-27 11:24:10	No I do not	Constitutionality	N/A	ROSY	Afrikaans	employed individual
2025-10-27 11:24:14	No I do not	Constitutionality	Government has absolutely nothing to do with religion or any right to decide to make any changes concerning religion. It is something personal. This is a democratic country.	Dalene	Afrikaans	
2025-10-27 11:24:21	No I do not	Constitutionality	I wish to formally object to any action or policy by government authorities that infringes upon the fundamental right to religious freedom. The freedom to hold, express, and practice one’s faith without interference is a cornerstone of human rights and democratic principles. Government authorities have a duty to remain neutral in matters of religion and to protect individuals and communities from discrimination or coercion based on their beliefs. Any attempt to restrict or penalise the peaceful expression of religious conviction undermines both constitutional and international legal protections.	Christiaan	Afrikaans	employed individual
2025-10-27 11:24:41	No I do not	Constitutionality		Christo	Afrikaans	employed individual
2025-10-27 11:24:50	No I do not	Constitutionality	The government should stay out of religion. No interference should be allowed and will not be tolerated or adhered to.	Gilbert	Afrikaans	business owner
2025-10-27 11:25:04	No I do not	Other	South Africa is a democratic state NOT a communist state. Religion is the right of choice and heritage. Instead of concerning themselves with corruption, theft and unbelievable untrust-worthiness, the government should rather constitutionalize accountability for greed, crime and lies. If the government and its leaders pay back what they "take" this country would not be in the non-existent condition of social-economic deprivation.			
2025-10-27 11:25:31	No I do not	Other	Government has killed this country, they cannot kill our right of religious choice as well.	Elize	English	employed individual
	No I do not	Constitutionality		Beve	English	retired
2025-10-27 11:25:48	No I do not	Constitutionality	The state has no business interfering in matters of faith. It shouldn't have any say in church teachings, how churches spend their money, etc. It certainly shouldn't be able to extort money from congregations. Christianity poses no physical threat to people or animals. The state should focus on religions or sects that do promote violence against others and where animals are being killed or hurt as part of rituals. The government doesn't need a new commission or set of laws to do this, though. Simply enforce those that already exist to protect people from physical harm, incitement to violence and animals from cruelty. If the government really wants to impose stricter rules, implement harsher punishment for animal cruelty.	Adele	English	employed individual

2025-10-27 11:39:00	No I do not	Constitutionality	The RCL is leaning towards an oppressive stance, when it comes to religious rights and freedoms. I denounce this type of control and this could lead to the abuse of people physically, emotionally and mentally. What is worrying is that Christianity is being singled out from all the religions that are to be negatively, affected by this motion if allowed. Why is this the case? I do not believe or encourage this, it might work in othe contries but not in our beloved South Africa. Everyone should have the free will to worship who or whatever they choose too. We cannot afford a religious devide in our nation. Our democracy is only 30 years old. Think very deeply about this.			
2025-10-27 11:41:18	No I do not	Necessity	Thank you	James	English	employed individual
2025-10-27 11:41:42	No I do not	Constitutionality	No need to do this. People need freedom to choose. Government should stay out of religion. It can not even govern itself. Look at the mess its in. Yet it thinks it can stick its nose in religion. Fix the Post Office, Municipalities, etc etc first. It will be interesting to see if the Zionists ZCC will be willing to say yes to this. We as people are regulated in so many ways... leave out religions alone. Thank you	YOLANDE	English	self-employed

2025-10-27 12:10:04	No I do not	Constitutionality	Freedom of religion is a basic human right. I believe the every person has the right to live out his or her personal religious values and should not be dictated by any organisation or state department. As long as your faith is not causing harm to others you should be allowed to practice freely.	Shelley		
2025-10-27 12:10:35	No I do not	Constitutionality	Freedom of Religion is also Freedom from the religious views of others. The right to dissent from religion, to engage in syncratic practices, to worship in private, to disagree with both clergy and the state, is essential to a free and open democracy. As Thomas Jefferson wrote, shortly after the USA passed the First Amendment guaranteeing Freedom of Religion: "I never will, by any word or act, bow to the shrine of intolerance or admit a right of inquiry into the religious opinions of others."	David Robert	English	self-employed
2025-10-27 12:11:48	No I do not	Other	It is against the Word of God that the state can dictate how I and who I may worship. Jesus is the way, the truth and the life. It is my human right to choose.	Sonja	Afrikaans	employed individual
2025-10-27 12:12:25	No I do not	Constitutionality	It is our Constitutional right to freedom of speech, health, religion, or any personal choices as a family. I DO NOT CONSENT TO THE INVASION OF ME AND MY FAMILIES CONSTITUTIONAL RIGHTS AS LIVING MAN AND WOMAN.	Ruth	English	unemployed individual

			Concerns – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. – Parliament rejected the CRL's proposal for legislation to implement a “Peer Review Committee” system of state regulation of religion. There is no valid or legal reason to revisit this matter. Finally as a believer and follower of Christ Jesus and His teachings I do not believe that the Institutional church is meant to be the governing authority; but that being said, one cannot take God out of Government; the Creator of the Universe [YHWH] is the ultimate Authority and His Character and Standards of Truth and Morality should most assuredly inform the characteristics of any elected government official or they will default to what so many have become throughout time! Full of themselves and their own power!			
2025-10-27 12:12:44	No I do not	Constitutionality	Ministers in government are called ministers because they were intended to serve the people, to be servant leaders, as should every religious leader, NOT for the people to serve them or for them to become controllers enriching themselves at the expense of their own people!!! 2025-10-27 12:27:11	No I do not	Constitutionality	Religion is my business and has nothing to do with this government, who in my view, should pay more attention to the commandment shared by all religions - thou shall not steal!	Rose	English	self-employed
2025-10-27 12:27:31	Yes I do	Necessity	While concerns about constitutional rights are valid, the moral imperative to protect vulnerable communities from exploitation must also be considered. South Africa has witnessed a troubling rise in fraudulent religious organisations and self-proclaimed spiritual leaders who manipulate faith for personal gain. These entities often masquerade as community-focused, yet they deceive and financially exploit thousands of people—especially those seeking hope, healing, or guidance. Regulation is not about suppressing belief; it's about ensuring accountability, transparency, and ethical conduct. Just as professionals in medicine, education, and law are held to standards, spiritual leaders who wield immense influence should be subject to basic vetting. Licensing could help distinguish genuine faith-based service from opportunistic schemes, preserving the dignity of religious practice while protecting the public. It's unfortunate that more South Africans haven't rallied behind this proposal. The conversation should move beyond legality and focus on the moral responsibility to safeguard spiritual spaces from abuse. Faith should uplift—not exploit—and regulation could be a step toward restoring trust and integrity in religious leadership.	Kresh	English	business owner

2025-10-27 12:46:09	No I do not	Constitutionality	Regulating religion is discrimination and unconstitutional as their is no freedom of religion where the state regulates it. Every religion is already regulated by its own core laws and values that influence and direct the way the religion is practiced. It is impossible for a person outside of that religion to understand, and therefor much more lay down the law for practicing the religion. It is also impossible for the state to fairly and undiscriminatingly apply the essence and spirit behind a religion as every individual involved in the regulation adheres to, understands and submits only to that which they believe and comprehend. Without comprehension of the core of a religion it will be perverted as many things in today's society, and in South Africa, have been perverted to the point of breaking down even the hope of a moral and healthy society. Regulating religion is limiting to a free and fair nation as it will reduce religion to a man-made structure. Religion is not for man to regulate. Regulating religion will break down the free expression of every individual's person and being which again is unconstitutional. Regulating religion smells, sounds, and tastes like a communistic approach to try and control and box society.	Stephanie	Afrikaans	employed individual
2025-10-27 12:46:25	No I do not	Constitutionality	This totally unconstitutional. How can you control individuals religious beliefs and dictate as to whom or what we can believe it. Totally unacceptable !!!	Joanne		retired
2025-10-27 12:47:36	No I do not	Constitutionality	According to the constitution we have the right to religion without the government interfering.	Hennie	Afrikaans	employed individual

2025-10-27 12:54:39	No I do not	Workability	Organised religion, especially Christianity has been misused by chancers and opportunists to exploit vulnerable members of society. Naturally the State will want to intervene. However, with a corrupt Government like South Africa's the State lacks the necessary gravitas to be able to regulate the Church, therefore it is an incompetent State for purpose as intended. Yes, the Church has the freedom of religion, however, with freedom comes responsibility. The Church must be regulated, in principle I agree the Church must be regulated. However, not by the State, the Church must self-regulate. When the Church fails to selfregulate, it creates, a vacancy for an incompetent State to do so. Christian leaders have been silent in the face of social issues affecting society where the Church was the culprit hence it's not surprising that the Government now wants to step in. There already are institutions well capable of regulating the Church, like the Association of Churches, and Federation of Christian Churches, etc. It's time they step up and hold the Church accountable in civic issues, especially those created by those exploiting the Church and Christian faith for deception exploitation, and personal gain. Should the Church be regulated, yes. By the State, NO. By who then, by GOD through His earthly representatives, the Church itself.	Lindie	English	business owner
2025-10-27 12:55:02	No I do not	Constitutionality	It is totally unacceptable and is completely unconstitutional.	Phillip	English	employed individual

			When it comes to matters of faith, many people cherish the freedom to explore, express, and practice their beliefs in ways that feel deeply personal and meaningful. That freedom thrives best when spiritual communities—whether longstanding or newly formed—can operate without undue barriers or oversight. Preserving personal belief. Belief is a deeply individual experience. When external systems begin to define which faiths are acceptable or who is permitted to lead them, it risks narrowing the rich diversity of spiritual expression that makes society vibrant. Supporting emerging communities. Smaller or newer faith groups often face unique challenges. Requiring extensive paperwork, fees, or compliance with rigid standards can unintentionally discourage their growth or push them into obscurity—limiting voices that might otherwise contribute positively to the spiritual landscape. Maintaining healthy boundaries. History has shown that when institutional power and religion become too intertwined, it can lead to confusion over roles and responsibilities. Clear boundaries help ensure that belief remains a personal choice, not a regulated one.			
2025-10-27 12:55:45	No I do not	Constitutionality	Encouraging inclusivity and peace. Most spiritual groups aim to foster peace, community, and moral guidance. Allowing them space to do so—without fear of being shut down for differing views—helps build a society that values dialogue and coexistence.	Jozua		self-employed

2025-10-27 13:53:10	No I do not	Necessity		Elsie	Afrikaans	self-employed
2025-10-27 13:53:19	No I do not	Constitutionality	It is unconstitutional to regulate religion, also infringe our freedom of speech, living in a democratic country it should not even be a topic of discussion.	sumay	English	self-employed
2025-10-27 13:53:22	No I do not	Constitutionality		Petra	English	retired
2025-10-27 13:53:39	No I do not	Constitutionality	It should be obvious that the government has no right to interfere in any way with religious belief or practice. It would violate the constitution and basic common sense as well. The ANC has proved itself totally incapable on all levels. This is just another sinister attempt to extend its corrupting influence on life in our country.	Shauna		self-employed
2025-10-27 13:55:17	No I do not	Constitutionality	I would like to worship my God in the manner that is free for me to choose	Gerda	English	self-employed
2025-10-27 13:55:27	No I do not	Workability	Currently South Africa enjoys peace amongst the different religions. I do not know that there exists any form of religious friction. We live and work in harmony with our fellow Suth Africans of all religions. Why interfere with a harmonious situation.			
2025-10-27 13:55:49	No I do not	Constitutionality	Central control of religion will lead to oppression, as what happened all over the world. Many Religious Groupings are being persecuted all over the world. We do not want to introduce those "Best Practices"			
2025-10-27 13:56:53	Yes I do	Necessity	Whoever is in charge at CRL will attempt to control and subject other religions to the conviction of whomever is in charge.			
2025-10-27 13:57:37	No I do not	Constitutionality	Example - If it is proposed that Protestants should be in Charge. neither Muslims, nor Catholics will accept.			
2025-10-27 13:58:08	No I do not	Other	If the Board of the CRL is democratically elected, demographics will dictate who is in charge. Who will that be. Will this be acceptable to the Christians, the Muslims, the Hindus etc. I suggest all these different Faiths will reject being controlled by any other faith.			
2025-10-27 13:58:14	No I do not	Constitutionality	Currently the Muslims attend Mosques on Fridays and we accept that, the Christians attend church on Sundays, and we accept that and we do not even notice who attends church when. Each religious group practice their Faith in their own time and place, without interfering with others or being interfered with. This is a perfect, peaceful and harmonious co-existence by the different Faiths.			
2025-10-27 13:58:19	No I do not	Other	The CRL will disrupt the current harmony amongst the religious groups in South Africa.	Andre	Afrikaans	retired

				Nelson	English	business owner
2025-10-27 13:58:14	No I do not	Constitutionality	– Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa’s diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations.	Mike	English	
2025-10-27 13:58:19	No I do not	Other	We are a democracy, and our religious rights should not be infringed upon. Governments should not have a say or control my right of religious expression and freedom.	Raeesa	English	employed individual
2025-10-27 13:58:58	No I do not	Constitutionality	This is a complete violation of rights according to any and all constitutions. You cannot take the freedoms of mankind away as you do not own faith. Only a communist regime removes rights from it's citizens. Therein lies the problem of why would a government attempt to remove people's faith. Is it evident that they do not have faith and are only mediums of a global order of Marxism, theft and war. The Nuremberg 2 trials are approaching. Everyone involved in this agenda will face accountability by law. Faith, God, The Good, and the religions of this world cannot be owned by a government. Freedom of speech, freedom of religion, freedom of choice, life, are all inherited by man and are sovereign laws that protect mankind and cannot be undone.	Mike	English	self-employed
				Elsie	Afrikaans	self-employed
				Mert		

2025-10-27 13:59:16	No I do not	Necessity	Religion should not be regulated by the state at all - it is required to act within the laws of the land and the constitution and therefore there is sufficient regulation that renders further government interference in the affairs of faith unwarranted and unnecessary, unless of course there is a more sinister motive, namely a desire from the state to control the narrative. History has taught that this is a very dangerous place to be and there is no doubt that it has no place in a constitutional democracy.	Grant	English	employed individual
2025-10-27 14:03:14	No I do not	Constitutionality	Religion is a freedom of choice and should not be regulated by government.	Jimmy		retired

2025-10-27 14:08:42	No I do not	Other		Vincent	Afrikaans	retired
2025-10-27 14:09:04	No I do not	Constitutionality	There is no reason to regulate religion in this country. We have enough laws to govern what people legally can or cannot do. The explicit regulation of religion is not the way to progress forward. Many times in history or even in modern times this has been done with disastrous outcomes. This is a dangerous road that can lead to persecution for peoples beliefs. Just because I don't believe your religious beliefs or you don't believe in mine does not mean I should further regulate what is preached as we already have laws governing what can or can't be said. I do understand there may be good intentions behind it but one cannot regulate religion effectively, either you land up driving it underground where it operates unseen or you land up with a state altered religion where the religion is no longer in its pure form but remolded to fit the state's view.	Shaun	English	employed individual
2025-10-27 14:09:19	No I do not	Constitutionality	I believe better policing and law enforcement relating to criminal or illegal practices that give religion a bad name would be far more effective. The diversity of religious beliefs in South africa makes it impossible for any regulation system to manage it. Where criminal activities have taken place, wherever it may be, justice must take responsibility.	Paida	English	
2025-10-27 14:10:08	No I do not	Constitutionality	Why is this Government hellbent on controlling all its citizens even ignoring the very constitution that they themselves has brought about.....	stphstrydom@gmail.co	Afrikaans	retired

2025-10-27 15:08:46	No I do not	Constitutionality	We call on Parliament and the CRL Rights Commission to protect our constitutional right to religious freedom and reject all attempts to license or regulate faith.		Cilliers	English	business owner
2025-10-27 15:09:19	No I do not	Constitutionality			Megan	English	employed individual
2025-10-27 15:09:36	No I do not	Constitutionality	There is no need for current valid Church denominations and other faith structures to be regulated. Freedom of religion is any SA citizens constitutional right. If for some reason any religion behaves in a way that transgresses the current good order or acts illegally, then this should be dealt with through the justice system in the normal way as for any other public body or person. No special registration or regulation of religion is required.		Alan		
2025-10-27 15:09:39	No I do not	Constitutionality	Religion cannot be regulated. Ir just does not make sense		Olivia	English	employed individual

2025-10-27 15:14:31	No I do not	Constitutionality	God cannot be legalised or licensed. South Africa is a democratic nation made up of many nationalities, cultures, and faiths, and it is therefore impossible — and unconstitutional — to restrict any individual's freedom of choice in matters of worship or church affiliation. As a Christian, I must have the freedom to express and practise my beliefs in accordance with the Constitution. The government has no business interfering with the personal faith or spiritual convictions of its people. Freedom of religion has always been a cornerstone of South Africa's constitutional order, and any attempt to alter or undermine that freedom would constitute a direct violation of the Constitution itself. We therefore call upon Parliament and the CRL Rights Commission to uphold and protect our constitutional right to religious freedom and to reject any proposal that seeks to license or regulate faith. South Africans must retain the right to choose how, when, and where they worship. General laws of the country already exist to ensure public safety; further regulation of religion is unnecessary and deeply concerning.		Charl	Afrikaans	business owner

2025-10-27 15:24:26	No I do not	Constitutionality	One's faith is a very spontaneous and personal relationship between ones self and God. It is not something that can or should be controlled and dictated by any third party or government. This is another attempt by our government to take control of our every thought, word and move.		Brenda	English	retired
2025-10-27 15:24:27	Yes I do	No concern	In recent years many sexual abuse cases have been lodged against church leaders who assume positions of authority and gain the trust of the community without proper vetting and background checks being done. The proceeds and funds raised in churches are they also misused to further create situations where poor and vulnerable people in the church are victimised. As a man of God, I would not have a problem in having my church registered for tax and being vetted for compliance in many other ways. There should be transparency and control. Nothing to hide in the house of the Lord		H.	English	employed individual
2025-10-27 15:24:40	No I do not	No concern			Ndivhuho	English	employed individual
2025-10-27 15:24:41	No I do not	Constitutionality			Paulina Maria	Afrikaans	retired
2025-10-27 15:25:02	No I do not	Constitutionality	We strongly oppose any attempt to vet, license, or regulate religious organisations and leaders in South Africa. This is a clear threat to freedom of religion and the spiritual independence of our faith communities. Criminal law already exists to deal with anyone who breaks the law. How people worship, what they believe, or how they preach the Gospel is not the government's business unless a crime is committed. To now say that only registered pastors or ministers can preach, teach, or proclaim God's Word—even on the streets—is a serious overreach and control over what people believe. Religious teachings may sometimes conflict with certain lifestyles or beliefs, and out of love, faith communities may warn or guide people according to their understanding of God's Word. Others are free to believe as they choose and attend any church or group. Being able to openly discuss, disagree, and share different beliefs is a sign of a healthy and free community. Government overreach in this area is clearly siding with certain opinions, acting hypocritically, and pushing an agenda that is about control rather than protecting rights. Scripture clearly teaches that governments are accountable to God, and their authority is limited. They exist to serve the people, not to control us or dictate how we live our faith. There is no place for a king or authoritarian system in South Africa. We will not comply with, nor allow, the government to infringe on our human rights, freedoms, and God-given liberties. Religious practice must remain free and independent, and citizens must be free to listen, disagree, and choose their path.		M	English	employed individual

2025-10-27 16:11:29	No I do not	Constitutionality	Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities.	Notmy	English

2025-10-27 16:15:53	No I do not	Constitutionality	This is just another attack on our freedom, choices and values, which each person has the right to express under the Constitution. It will lead to manipulation and expose people in power to bribes, furthering corruption in our country. It will bind the truth, as organisations would need to align with expected ways to renew licenses. It would cause fruitless expenditures and waste a lot of resources as enfoces would need payment, offices, etc. It will require hours of administration, pulling leaders away from serving the Lord and the congregation. No to any regulation of faith and religion. Regulation of religion will undermine the constitution and freedom of choice, worship, etc.	Cornelia	Afrikaans	self-employed

2025-10-27 16:16:00	No I do not	Constitutionality	Religious freedom is an inalienable human right that must be protected unequivocally. Limiting it undermines the dignity of the individual and fractures societal harmony by unjustly restricting conscience and belief. A free society thrives on diversity, not the suppression of faith. We must oppose any measure that limits this fundamental liberty.	Abraham	English	employed individual

2025-10-27 16:25:38	No I do not	Constitutionality	Mr Ramaphosa was part of the people that wrote the constitutional law. But I think the main reason for controlling the religion is just to get their hands on the money because the gravy train is running on empty now. And further more they want to control everything like a Iron curtain state. They are warming up the water small amounts at a time and before we know it. We will all be regulated by the state. They will say jump and we will be forced to ask how high. This is just a small part of a much bigger picture. But people are so busy just trying to survive. That they do not realize what is happening. Wake up South Africa. The end is near for the government to take full control. Do not think for one minute it can not happen in South Africa.	Susan W

2025-10-27 16:26:46	No I do not	Constitutionality	Teen die Voorstel van die CRL Regtekommissie Ek, 'n lid van die Gereformeerde Kerk Komatipoort, wil hiermee my beswaar teen die voorgestelde regulering van godsdiens deur die CRL Regtekommissie uitspreek. Gronde vir my beswaar: • Geloof is 'n roeping van God, nie 'n beroep wat deur die staat gelisensieer of beheer kan word nie. • Die Bybel en ons Gereformeerde belydenisskrifte leer dat Christus alleen die Hoof van die kerk is — nie enige aardse owerheid nie. • Die Grondwet van Suid-Afrika beskerm die vryheid van godsdiens, oortuiging en vereniging (Artikels 15, 18 en 31). • Enige poging tot staatsbeheer oor die kerk bedreig die geestelike outonomie van geloofsgemeenskappe. • Gereformeerde kerke het reeds gevestigde strukture vir selftoesig, dissipline en verantwoordbaarheid binne die kerkverband. Gevolgtrekking: Ek verwerp die CRL se voorstel as ongrondwetlik en teenstrydig met die beginsels van ons Gereformeerde geloof. Die regering het geen mandaat om in geestelike aangeleenthede in te gryp nie.	Johannes Philippus	Afrikaans	employed individual

2025-10-27 17:03:44	No I do not	Constitutionality	We each have the right as individuals to follow the faith we believe in. No government should interfere in that process.	Linda		employed individual
			State and church should remain separate. In a diverse society of multiple religious expressions to try and regulate and control what doctrine and practices are taught is a very dangerous option to follow.			
			There should be overarching legal requirements in place to be and ngo or npo which provide citizens with protections and legal recourse in event of illegal, harmful, or fraudulent practices.			
2025-10-27 17:04:05	No I do not	Constitutionality	There should however not be stipulations about specific dogma or regulations about who is qualified to be a religious leader within any given organisation or group.	Timon	English	business owner
2025-10-27 17:04:20	No I do not	Constitutionality	All over the world people on the street are slowly but surely having no say in how to live their own lives. This is a major concern. This government is so corrupt, and cannot even govern the country, yet they concern them with matters such as this. It shows that there are bigger forces at play. The scamdemic proved it. I am not sure what our vote will achieve though but let us at least try.	Jan	Afrikaans	business owner
2025-10-27 17:05:29	No I do not	Constitutionality		Sunelle	English	employed individual
			No government has the right to prescribe to people their belief or faith. Every human being was created unique, with his own character and desires. God created us and we have the right to honour Him for His greatness and mercy. So let the government mind their own business and leave us to mind ours.			
2025-10-27 17:05:31	No I do not	Constitutionality	Geloof is 'n goddelike roeping, nie 'n beroep nie – dit kan nie deur die staat gelisenseer of gereguleer word nie. Die staat het geen sê oor die geldigheid van godsdienstige oortuigings nie.	Gideon	Afrikaans	retired

2025-10-27 18:08:36	No I do not	Constitutionality	I object to the proposed regulation of the Church will undermine the existence of the Church and Sovereignty of Head of the Church(Jesus Christ) as the Church has been established by God to glorify Him. The legalisation of the Church will be unconstitutional as it will undermine freedom of religion. Church is based on faith not the workings of legislative requirements. Regulating the church might bring imposition of rules and regulations that undermines the mandate of the Church and the blueprint of faith upon which the Church is based and established. And based on what consitutional foundation will the church be regulated? Faith is not based on tangible things but on thr Hope to which we stand and the grace by which we are saved. Church is not based on society moral code but the fear of the Lord and His prevailing power to tranform hearts . While there is mucb occultic practices and prevailing falsehood in the church that endangers the citizens but regulating the church will impose hard regulations that oppose the right to worship God freely. And the fact that there are different religions in SA, makes it injustifiably wrong to regulate the church as there are different practices and traditions for each church which if a blanket regulation is adopted will cause chaos and misalignments	Conny	English	employed individual
2025-10-27 18:08:37	No I do not	Constitutionality	The interference of government in such matters should not be allowed, especially if it forms part of the country's constitution. The original belief, which is fundamentally Christianity in western countries should be preserved, honoured, respected and practiced without prejudice, government rules and regulations forcing believers to conform to a certain ideology. I do however believe that a lot of false teachings and practices have surfaced over the last few decades that should be monitored and regulated by a church body though.	Ronel

2025-10-27 18:59:21	No I do not	Other	People who misbehave will continue to do so. There are laws that protect our nation againstabusers. Regulation will only force christians to go underground. You will have to kill me to silence me about my faith and convictions. The Lord Jesus Christ is worth more to me than life on earth. He changed me into a caring and loving person. Why would I withhold that from other people. Our country needs Him to live in the hearts of everyone. You cannot supress nor silence me to care for people and to love them. You are not God and does not receive His authority to regulate how I believe or obey Him. Beware of tempting God. You should read the Bible and see what happened when governments started to bring state regulations on religion in a country. I will never register or allow a human body to control my freedom to live out my faith in the way that God instructs me from the Bible. I do not submit to doctrine nor regulations, but only to the Bible and to Jesus. You need to experience what it is like to become one with Jesus as He became one with God the Father.	Carel	English	employed individual
2025-10-27 19:01:17	No I do not	Constitutionality	Violates Section 15: freedom of religion and conscience. Violates Section 18: freedom of association (including the right not to join a state-approved body). Violates Section 31: right of religious communities to self-govern. Forces religious leaders into state-controlled “Umbrella” structures.	Anne	English	unemployed individual

2025-10-27 19:45:37	No I do not	Other	It is my God given right to choose Who I want to serve, not the government's right to limit my personal choices	Sune	Afrikaans	self-employed
2025-10-27 19:45:39	No I do not	Constitutionality	There are no way that this government, with this track record of ineptitude can be allowed to have any say in matters of faith. This is a move to control the largest part of the South African community. They can manage a budget, how can they manage faith. No government should be allowed to meddle with faith.			
2025-10-27 19:46:47	No I do not	Constitutionality	The South African government are incompetent and corrupt.	Nathan	English	employed individual

2025-10-27 19:46:49	No I do not	Constitutionality	The CRL proposal poses significant constitutional concerns, as it potentially infringes upon the right to freedom of religion, conscience, thought, belief, and opinion enshrined in Section 15(1) of the Constitution of the Republic of South Africa. Given the diversity of religious beliefs in South Africa, any regulatory system would struggle to manage and oversee religious organizations without impinging on this fundamental right. Furthermore, the CRL proposal appears to be inconsistent with Section 2 of the Constitution, which establishes the Constitution as the supreme law of the Republic. In light of these constitutional imperatives, it is submitted that the CRL proposal is ultra vires and should be set aside. Instead, existing legislative frameworks, such as the Criminal Procedure Act, should be utilized to address any criminal activities, ensuring that justice is served while respecting the constitutional rights of individuals and organizations.	FULUFHELO	English	employed individual

			Constitutional and Faith-Based Concerns			
			Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles.			
			Practical and Theological Concerns			
			Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated.			
			Alternative Approaches			
			Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities. 			Petition: Protect Freedom of Religion in South Africa I, the undersigned citizen of South Africa, stand firmly against any proposal by President Cyril Ramaphosa or the South African government to control or legislate religion in our nation. Our Constitution guarantees every person the right to freedom of religion, belief, and opinion. This right includes the ability to practice, share, and live out our faith freely — without government interference — provided that we respect the rights of others. I believe that any legislation seeking to regulate or control religion would be a direct violation of these constitutional rights and an attack on one of the cornerstones of our democracy. As Christians, we are called to live our faith openly and peacefully. We respect all religions and the diversity of belief in South Africa. However, we will not remain silent while our freedom to worship is threatened. I therefore call on Parliament and the President to: 1. Uphold and protect the constitutional right to freedom of religion. 2. Reject any legislation or policy that seeks to control religious expression or practice. 3. Ensure that South Africa remains a nation where faith can be expressed freely and responsibly.			
2025-10-27 21:03:22	No I do not	Constitutionality	I affirm that religious freedom is not a privilege granted by government — it is a God-given right, protected by our Constitution and essential to a truly democratic society.	Jelanie	English	business owner
			Government has no constitutional right to regulate any religious freedom.			
2025-10-27 21:03:25	No I do not	Constitutionality	They do however have the duty to deal with any criminality under the guise of religious freedom. There is however sufficient existing criminal laws to govern any transgressions, which nullifies the requirement for regulation of religion.	Johan	English	business owner

			We cannot have humans determine who is a messenger for God. It is God's place to judge and God's place to approve. For nearly 2000 years we've had teachers and pastors who were not formally trained, but appointed, anointed and approved by the church. And the church has grown and people's lives have been changed for the glory of God. Jesus will build His church, not the government or any department. The time is coming and is now here when the fear of the Lord will fall in this nation, and those who are illegitimately trying to place themselves in the position of the Lord are going to feel the wrath of God.			
2025-10-27 21:26:02	No I do not	Constitutionality		Anthony

2025-10-27 23:59:47	No I do not	Constitutionality	Its a violation of our human rights. Government wants to have 'control' over everything and everyone, to destroy what God created: to be persons with dignity, self respect, own identity, freedom to make choices, etc. Any person who thinks they are above the King of all Kings will be exposed, and bring to a fall.	Annamarie	Afrikaans	employed individual
2025-10-28 00:01:10	No I do not	Other		HEYLA	English	employed individual
2025-10-28 00:02:37	No I do not	Constitutionality	Religion is not something you can tie to a license. Or regulated it, It is not always bound to in a building..Leaders in the religeous community are people ...the communities look up to and we want to be free to communicate in the religeous language,we want to get together and uplift each other We want to pray and sing because this is what we do ,we read our religeous book and the word of truth..Without that people are mentally dead or criminal minded . The constitution guarantee religions and their communities freedom of speech regarding the religion and what it stands for. Anything against that is a breach of the Constitution .which actually indicates that Gov. can not be trusted.It also indicates the absolute nothing Gov. feels towards religeous people and indicates that Gov wants to control the narrative about freedom of religion ,freedom of speech,of movement,of expression. The unrighteous action against religions must be stopped.	Charmaine	English	retired

2025-10-28 00:40:42	No I do not	Other	As afgetreede bedienaar van die Woord in my land Suid Afrika is dit net bejamerings waardige toestand dat die regering wat nie die vermoee het om die basiese pligte wat van n regering verwag word uit te oefen nie, nou wil beheer uit oefen oor hoe die bevolking hulle wandel met die Lewende God te wil voor skryf. Ek was in 2023 op n uit ryk in Zambia een van die burgers daar waarmee ek saam gewEEK het, het sy beusie met sy bestuurs lesensie, ID, en staatspensioen kaart daarin verloor. Hy het na n sentrale kantoor in Lusaka gegaan en binne 2 ure is nuwe kaarte aan hom voorsien. In Suid Afrika moes ek 6 maande wag vir my peblieke bestuurs permit om uit geryk te word. Kry eers dit waarvoor julle as Staatsfiens weekers ruim voor betaal word in order to en as jul nie weet hoe nie gaan leer by Zambia se amptenare hoe om dit te doen. Om te peuter aan die dinge van die lewende God wie die Ware God van Suid Afrika is, sal Sy Tooren oor jul laat ontketen. So wees gewaarsku, Hy is nie n God wat sluimer of slaap nie, al dink julle meskien so.	Andreas	Afrikaans	retired
2025-10-28 00:43:24	No I do not	Other	Any attempt to regulate religion immediately places the regulator in a self-imposed place above God. Only God is the head of the church. He has set structures in place for its regulation. These are sufficient, so that the church is able to be self-regulating. Freedom of religion is enshrined in the South African constitution. It should not be violated. To do so would open a Pandora's Box that has no good outcomes.	Denese	English	retired
2025-10-28 00:44:32	No I do not	Constitutionality		Dimakatso	English

2025-10-28 06:41:33	No I do not	Other	Our world was never intended to be governed by any human, in the first place. Humanity need to turn back to the Creator of everything, Jesus.	Andrew		

			– Faith is a divine calling, not a profession — it should not be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, and self-governing associations.

2025-10-28 07:30:28	No I do not	Constitutionality	Religion is a personal choice has nothing to do with Government so don't have the right to control it.		Nadine		
2025-10-28 07:30:32	No I do not	Constitutionality	The government has no right to tell anyone what their religious belief should be or who they can worship or not. It's our constitutional right. Fine they took it out of our schools, which I'm not okay with. We are a 80% Christian nation and across the entire world there is a persecution of Christians. You can't tell people what religion they should have in private. The government is overreaching way past its power. Next will be freedom of speech. The government should concentrate on the problems we already have and fix it. Stop lining their pockets and telling us what to do. This is Africa not Europe or America, it won't work here. Stop trying to change our traditions, culture or religion. We won't stand for it. We pay the government, we're the employer not the government ours. I won't stop being a Catholic/Christian just because some corrupt government tries to force me.		Larissa	English

2025-10-28 07:38:30	No I do not	Constitutionality	We have a right to practice our religions freely.	Miranda	English	retired
2025-10-28 07:38:31	No I do not	Constitutionality	This proposal evidently violates our constitutional democracy, in both its proposed legislation and in the process by which it is being brought about. Freedom of religion should be protected and treasured, not controlled and regulated. Any proposed changes should be considered and constructed hand-in-hand with the religious community. The community's voice should be heard and acknowledged, and it should be given the utmost priority in the decision-making process for this proposal.	Lukas	English	
2025-10-28 07:39:00	No I do not	Constitutionality	I will endorse any action to oppose any changes to religious freedom!	Carlos		retired
2025-10-28 07:39:06	No I do not	Constitutionality	Religious freedom is one of the cornerstones of our democracy. The proposal to license or regulate faith communities undermines one of the most sacred rights enshrined in our Constitution — the right to believe, worship, and live out our faith freely, without interference from the State. Faith is not something that can or should be “regulated.” Once government begins to define who is a legitimate spiritual leader or what constitutes an acceptable faith practice, we enter dangerous territory where political power replaces spiritual conviction. Our Constitution already provides mechanisms to protect people from abuse and exploitation under existing law. What we need is accountability for wrongdoing — not control over belief. This is about protecting spiritual autonomy, diversity of belief, and the conscience of every South African. If we allow the licensing of religion, we risk losing one of the very freedoms that define us as a free and democratic nation.	Angelique	English	employed individual
2025-10-28 07:39:07	No I do not	Other	No country without faith works as it is the morals of this ANC leadership is 0 why should we need to have leaders like this for there full term why cant we get rid of them that be a message to other politicians to toe the line	Andrew	English	retired

2025-10-28 08:04:36	No I do not	Constitutionality	The diversity of religious beliefs in South africa makes it impossible for any regulation system to manage it. Where criminal activities have taken place, wherever it may be, justice must take responsibility.	Mokgadi Iris	English	employed individual
2025-10-28 08:04:53	No I do not	Constitutionality	First of all the God is the King this means Religion and Culture led by God. In Earth/ Globe British Monarchy builded everything and created constitution to govern and enforced law where necessary. Today White God is nothing they twist and change law and causing destruction. Religion and Culture both are beliefs and cannot be enforced or used to violate human rights. For example Christians believe in God a Bible is a constitution or law that governs them. Whereas even Christians contradict Bible law but cannot be punished or judge by anyone except God. How many are contradictory to ten commandments? Even governments ! Now sinners cannot punish the innocent because they feel like it. There are fake Pastors that hypnotise congregants to steal away they wealth, they call themselves angels but are aliens. Such should be treated as criminal and law be enforced. We have illegal traditional healers called doctor Musa, Mama Africa etc promising wealth, pennis enlargment, money rats, lottery wins etc. They practice such infront of law system they have consulting rooms in Cities, Towns, rural and Metropolitan areas, no law vet them. We cannot work backwards front, do things the right way. Good Morals and Ethics can only build Religious communities. From Masithule Jack ?? 2025-10-28 08:11:32	No I do not	Constitutionality	South Africa has been developed over more than 400 years. It took hard working of generations before us, people that risked everything including their lives to build a country like ours. What was built up over so many years is constantly being broken down in less than 40 years because of mismanagement of our resources and corruption in our Government. People who built this country had a dream and hope. Our Government took away the hope for our children - that is why their own children are all working in other countries and running away from what their fathers and mothers mismanaged into the ground. Take a nation away from their God and they are powerless. That has been the aim of the ANC since the late 60's. We will not stand for this corrupt government to limit our ability to believe, to preach and reach others on a daily basis. This calling does not fall under the scope of governance of a men, but of God our ultimate authority.	Riaan	Afrikaans	self-employed
2025-10-28 08:12:27	Yes I do	Other	Religion is big business and as such should be regulated, taxed and overseen by a governmental body. Much harm has been done to minority communities and this might at least be mitigated by oversight.	Alan		
2025-10-28 08:12:34	No I do not	Constitutionality	Any abuse can be dealt with in accordance with existing laws. The way this legislation is defined, the CRL will ultimately have control over doctrinal views and beliefs, which would also violate religious freedom. Secondly, registering religious practitioners now subjects spiritual guides to state control (the CRL is a state organ) and, once again, impacts the Church's ability to challenge the state when the state abuses its privileges. It seems that the ANC has forgotten what an effective tool an independent church was to bring about the fall of apartheid!	Johannes	Afrikaans	self-employed
2025-10-28 08:12:34	No I do not	Constitutionality	Any abuse can be dealt with in accordance with existing laws. 2025-10-28 08:21:56	No I do not	Other	While the goal of protecting congregants from abuse, financial fraud, and harmful practices is right and necessary, the means proposed — state-backed regulation, licensing of religious organisations and leaders, registration requirements — pose serious risks to religious freedom, church autonomy, constitutional rights, the vitality of mission and the spiritual life of faith communities. For a faith-community concerned with both holiness and public witness, a better approach might emphasise internal governance, voluntary self-regulation, transparent accountability, strong enforcement of existing laws, and dialogue between church and state, rather than requiring top-down regulatory structures that may undermine core convictions.	Sonya	Afrikaans	retired
2025-10-28 08:23:07	No I do not	Constitutionality	There must freedom of religion without restrictions as long as it doesn't infringe the rights of others	Linki	English	employed individual

2025-10-28 08:23:29	No I do not	Necessity	Continued interference by a Marxist regime which claims to be Christian, however acts as a rogue idiotic and mindless group of corrupt individuals who want to control its citizens and inhibit freedom of choice.	Niel	English	self-employed
2025-10-28 08:24:16	No I do not	Constitutionality	You cannot regulate spiritual matters. The Lord created you and me, regardless of the different ways we think and believe. It is sacrilegious to think that you can regulate people's faith and religion, and it is just a diversion from the real issues: undeniable mismanagement of funds allocated for medical care, education and skills training, lack of real jobs and dignity.	Le Roux	Afrikaans	retired
2025-10-28 08:24:33	No I do not	Constitutionality	The CRL Rights Commission's proposal to vet and license religious organisations directly undermines the core principle of religious freedom guaranteed by the Constitution. Faith is a personal conviction, not a state-sanctioned activity. Allowing government or a regulatory body to decide who may preach, lead, or operate a place of worship opens the door to censorship, bias, and political interference. History shows that once the state begins to regulate belief, it risks suppressing minority faiths and silencing dissenting voices. Religious communities already operate within existing legal frameworks—criminal, financial, and tax laws—making additional regulation unnecessary and constitutionally dangerous.	Andre	English	employed individual

			1. Freedom of Belief and Conscience Religion deals with deeply personal convictions about life, morality, and existence. If a government were to regulate religion, it would effectively be trying to control people's inner beliefs — something no authority can or should dictate. This is why most democratic societies protect freedom of religion as a fundamental human right (for example, Article 18 of the Universal Declaration of Human Rights). 2. Separation of Church and State When religion is regulated, it often leads to political bias — where the government favors certain faiths or discriminates against others. Keeping religion independent helps prevent corruption, abuse of power, or forced conformity, and allows the state to remain neutral in matters of belief. 3. Diversity and Social Harmony Regulating religion could create division and conflict. People belong to many different faiths — or none at all — and imposing control risks alienating or persecuting groups. Religious freedom fosters respect and coexistence in a diverse society. 4. Moral and Cultural Growth When religion is free, it can inspire moral development, art, compassion, and community service. When it's restricted or dictated by authority, faith can become hollow — followed out of fear rather than conviction. 5. Historical Lessons History shows that when governments control religion — for example, through enforced state religions or bans on certain faiths — it often results in oppression, censorship, and even violence (like the Inquisition or modern-day persecution of minority groups).

2025-10-28 09:37:52	No I do not	Constitutionality	I will suggest that the government can enact laws to regulate and control the excesses of some religious leaders especially those that run their ministries like a private enterprise. There is an excessive exploitation of church workers relative to wages and other conditions of service despite the fact that some of these ministries make a lot of money through various dimensions which do not reflect on their assigned responsibilities as NPOs, charity and philanthropic organisations. Despite the fact that they do not pay taxes to the government, the so called religious leaders convert much of these monetary benefits to their personal use by living lavishly negating the spiritual statutes of chastity, poverty and obedience. The orphans, the widows, the homeless and the elderly amongst the congregations are left to fend for themselves as against the tenets of God's law, ordinances and commands. Government must as a necessity put into place the necessary structure to examine or investigate the ways and manners religious leaders apply the financial resources committed to their hands by their followers and faithfuls. Even the communities where these churches are located do not benefit from their activities in any form or manner. This is also against both the civil and spiritual law and obligations.	Uche Odera	English	Non-profit

			South Africa's Constitution guarantees every person: – Freedom of conscience, religion, thought, belief and opinion (Section 15) – Freedom of association (Section 18) – Freedom of religious communities to govern themselves (Section 31) Concerns – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternal, and self-governing associations. – Parliament rejected the CRL's proposal for legislation to implement a "Peer Review Committee" system of state regulation of religion. There is no valid or legal reason to revisit this matter. I have One proposal. - Each and every Religious institution (church, mosque, temple etc.) must belong to some self-governing association of their own choice. The institution and its leaders must then adhere to the charters, codes of conduct and regulations of that association. This is only to protect the public from being coerced, manipulated and exploit for personal gain (outside of the beliefs of that religion and regulations of the association) by institutions and/or its leaders. IT IS NOT TO REGULATE the religion and their leaders. The public must know exactly to which association/s their preferred institution belongs and the charters, codes of conduct and regulations of that association must be easily accessible to any person. It should be easy to submit a complaint against an institution or leader to the association. Complaints must then be resolved within a reasonable time.

2025-10-28 09:48:43	Yes I do	Other	Religious leaders should be subject to the same rules and regulations as any other organisation. They must be taxed the same and must face the same charges as anyone else for wrongdoing. Religion is too often used to manipulate people out of their hard-earned money, and to cover up abuse and corruption.	Steve	English	business owner
			The proposal by the CRL threatens freedom of religion, including the spiritual autonomy of faith communities, and violates the Constitution.			
			This matters because South Africa's Constitution guarantees every person: – Freedom of conscience, religion, thought, belief and opinion (Section 15) – Freedom of association (Section 18) – Freedom of religious communities to govern themselves (Section 31) I have the following concerns: – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternal, and self-governing associations. – Parliament rejected the CRL's proposal for legislation to implement a "Peer Review Committee" system of state regulation of religion. There is no valid or legal reason to revisit this matter.

2025-10-28 09:49:22	No I do not	Constitutionality	No government has the right to override the sovereignty of a living GOD. It's firstly an infringement on our constitutional rights and an offence against all people who love Jesus. I personally will never comply with unjust decisions where the law is whatever the government deems necessary on a particular day. I will continue to serve and preach the Lord Jesus Christ, laws or no laws.	Ansie	Afrikaans	employed individual
			Religion is man made. We are all part of the higher source. No person can tell you how you direct your connection. Ultimately there is only one Source. You heritage governs how you honour that Source mostly Every person needs the freedom to choose how they do that. No person can control you by enforcing their beliefs on you. Man made religion is used to control the masses by instilling fear. The Source of all that is, is a frequency of pure love and light. Definitely not one of control or manipulation. Each person needs to take responsibility for their beliefs and behaviour. And not command another to follow their manmade belief. We are all unique. We are all an aspect of Source . And are constantly connected. Light and love. NOT fear.

			Whilst I completely agree that we should all have the freedom to worship in the ways that we see fit and that align with our religious beliefs in a healthy way. We cannot pretend that there aren't people out there who take advantage of the vulnerable in the name of religion. Things like cults or pastors who abuse their congregation's trust for financial gain. People cannot be allowed to operate with impunity. Faith should not be licensed, however it should be protected from those who seek to misuse and manipulate others. I cannot speak for other religions but as a Christian my question is what have we as a body done to safeguard our faith from charletons?			
2025-10-28 09:59:41	No I do not	Workability	We cannot expect the government to correctly safeguard what is not theirs. The Onus is on us to make sure that people are not abused and more importantly that Christ is not misrepresented.	Storm	English	employed individual

			If one examines the contents of this link: https://giftotruth.wordpress.com/, they will discover that the entire government operates as a fraudulent corporation and that the judicial courts are merely administrative buildings utilizing maritime law, not the law of the land. Consequently, the government, lawyers, judges, and courts do not have jurisdiction over any living man or woman, including their right to freedom of religion. The entire system is fake and fraudulent, and South Africa has been a registered corporation under several names—and is still bankrupt. All government officials, judges, and lawyers are essentially operating as pirates under maritime law and should be held accountable for crimes against humanity. It is time for all citizens to stand up against this injustice and reclaim their true identities, taking responsibility for allowing such evils to take control. We need a complete lockdown of the current system by men and women within the country, removing the entire fake government in favor of smaller, community-based management, and reclaiming our inalienable rights. The ANC, DA, and EFF are essentially one party functioning as a corporation with nefarious intentions. They are traitors who have sold us out, and this situation is the consequence of people being complacent and allowing them to treat us like slaves. We must take action to eliminate this corruption. It is time to arm ourselves with knowledge, stand firm in our beliefs, and fight to reclaim our country, our freedoms, and our right to practice the religion of our choice. This is a crucial moment; we need to unite, pray, and work together to rid ourselves of this evil once and for all. Research the information at the link provided. The more of us who become informed, the quicker we can dismantle this corrupt system.

2025-10-28 10:32:29	No I do not	Constitutionality	It's a violation of the constitutional right to freedom of religion and the right of religious organizations to govern themselves. This is a blatant attack of Satan on the church. The dark forces of evil trying to control and ultimately destroy the spreading of the gospel. It's definitely a spiritual thing. I call on Parliament and the CRL rights commission to reject all attempts to license and regulate religion.	Mattheus	English	retired

			I strongly oppose the proposal by the Commission for the Promotion and Protection of the Rights of Cultural, Religious and Linguistic Communities (CRL Rights Commission) to license, regulate, or vet religious organisations and leaders. This proposal fundamentally contradicts the spirit and letter of the South African Constitution, which upholds the freedom of religion, belief, and association as inalienable human rights. 1. Violation of Constitutional Freedoms Section 15 of the Constitution guarantees freedom of conscience, religion, thought, belief, and opinion. Religion is not a profession that requires state validation — it is an expression of personal conviction and communal faith. Any attempt by the state to “license” belief or leadership undermines spiritual autonomy and the separation of religion and state, both essential to a democratic society. 2. Overreach of State Authority The CRL Rights Commission’s mandate is to promote and protect the rights of cultural, religious, and linguistic communities — not to control or regulate them. Subjecting spiritual leaders to bureaucratic approval introduces an unconstitutional form of state interference into the internal affairs of religious bodies, which are self-governing under Section 31 of the Constitution. 3. Threat to Diversity and Independence South Africa’s strength lies in its religious and cultural diversity. Imposing a state-controlled licensing system risks homogenising belief systems and opening the door to political influence or abuse of power. Such measures could silence minority faiths and independent voices that do not conform to majority or politically favoured doctrines. 4. Existing Self-Regulation Faith communities in South Africa already operate under voluntary self-regulatory mechanisms, including denominational councils, fraternals, codes of conduct, and peer accountability structures. These systems are rooted in faith-based ethics and community trust — not government compulsion.

2025-10-28 10:50:57	No I do not	Other	I have the following concerns regarding the proposed Bill to regulate religion. The issues that are taken are that: It is unconstitutional: It violates Section 15: freedom of religion and conscience. It violates Section 18: freedom of association (including the right not to join a state-approved body). It violates Section 31: right of religious communities to self-govern. Forces religious leaders into state-controlled “Umbrella” structures. It is unnecessary: South Africa already has robust laws (Criminal Law, SORMA, Children’s Act etc.) that cover all criminal abuses. The issue is not the absence of law—it is poor enforcement of the law. Religious freedom has never been a defence to excuse criminal behaviour. It is unworkable: Who decides who qualifies as a “religious practitioner” or can register a religious organisation? Which doctrine will be “official”? Who sets the standard? How will licensing be enforced? What if you disagree with the Peer Review Committee? It is unaffordable: Estimated cost to taxpayers: R750 million start-up + R250 million annually. CRL’s current annual budget is one-fifth of what this scheme would require. Who do you think will pay the license fees for “approved” religious organisations and religious practitioners? I hope that the above concerns will be taken into account when pursuing the bill further. Yours sincerely, George Barrie Ferreira	George	English	employed individual
2025-10-28 10:51:19	No I do not	Constitutionality	The Government has no power to regulate our religion or faith. That is a personal belief system. This Government has failed us in many ways, now they want to invade our private lives by regulating our faith. No that can't happen.	Daphne	English	retired
2025-10-28 10:51:20	No I do not	Constitutionality	Faith is a devine calling and cannot be regulated or whatever by the state. We deserve Freedom of religion, not regulation of religion.	Hendrick Sons	Afrikaans	retired

			Freedom of speech and religion are fundamental rights that form the cornerstone of a just and open society. These freedoms allow individuals to express their beliefs, share their ideas, and practice their faith without fear of government interference or societal pressure. For many, including Christians, these rights are not only constitutional guarantees but also deeply rooted in personal conviction and spiritual calling. Why Freedom Matters Freedom of Speech empowers people to voice their opinions, challenge prevailing norms, and advocate for change. It is essential for personal growth, societal progress, and the protection of minority viewpoints. Freedom of Religion ensures that individuals can worship, practice, and express their faith openly. It protects the diversity of beliefs and prevents the imposition of a single worldview by authorities. Attempts to license or regulate faith threaten these freedoms. When governments or institutions try to dictate how people should believe or express their spirituality, it undermines the very principles of liberty and conscience. Such actions can lead to a loss of diversity, creativity, and the ability to question or improve society. Standing Firm in Faith As Christians, there is a calling to stand up for our faith and live according to the teachings of the Gospel. This includes: Preaching God's gift of grace: Sharing the message that, through Jesus Christ's sacrifice, salvation and everlasting life are offered to all. Living by example: Demonstrating love, compassion, and integrity in daily life, reflecting the core values of Christianity. Respecting others' rights: Defending not only our own freedoms but also the rights of others to believe, speak, and worship as they choose. Responding to Challenges In times when it feels like governments or other entities are trying to impose their way of thinking, it is important to:

2025-10-28 11:09:20	No I do not	Constitutionality	Violate my freedom of choice and right to freedom within democratic society of choice. I do not support the CRL for the following reasons.	Dirk (HAJ)	English	business owner
			1) Forming a government body to regulate Religious Leaders, even through peer review, will not avoid abuses. There are innumerable examples of abuses within well-established religious organisations where priests etc are elected per peer review and abuses have still taken place. These cases demonstrate that peer review and authoritative regulations do not prevent abuses. If abuses take place, the law must be enforced. 2) Regulatory bodies themselves are subject to corruption and end up supporting abuses. These cases are evident in many sectors of governance, where the regulatory body ends up protecting perpetrators and therefore obstructing justice and recourse for victims. The CRL will end up worsening the very problems that it wishes to get rid off. And victims will be worse off than now because the very institutions that are supposed to protect them will fail them without there being any other recourse for the victim. 3) There cannot be a peer review or regulation of religion. Many of the founders of our religions would have certainly failed a peer review. Jesus Christ would have failed a peer review, Prophet Mohammed would have failed a peer review, Buddha would have failed a peer review, because they spoke out against current dogma. Within the Hindu faith there is a scriptural understanding that many more great Divine Incarnation will arrive. These cannot be peer reviewed, as they are often misunderstood by the regulatory bodies. 4) Religion cannot be regulated. It will only go underground, as has been the case over and over again in history. Anyone who has studied religious history will know that any religion or religious group that is regulated or suppressed will merely go underground or become secretive. This kind of scenario would only provide more opportunity for predators.

2025-10-28 11:17:09	Yes I do	No concern	To whom it may concern I agree that the state should regulate religious bodies. This is especially so when they receive tax benefits from operating as religious institutions. it is far too easy to evade labour law, money laundering legislation and tax responsibilities by declaring that one worships an invisible being. If they are operating in the secular world of finance and labour, then they should be subject to the same rules as every other non-profit, although in fact, some churches generate huge profits which should be taxed. Just as they are regulated by the criminal law, so they should be regulated by the laws governing finance and labour in the secular world. Regulation promotes equality with other non-profits, generates government revenue, and ensuring accountability for commercial activities or excessive salaries. Taxing commercial activities, like renting out property, can be justified to prevent an unfair advantage over businesses. Additionally, tax exemptions create an uneven playing field and allows for the misuse of funds.	Max	English	employed individual

2025-10-28 11:34:25	No I do not	Other	The ANC is not trustworthy- they will demonize anything to control everything. Handing over a a religious advisory role to a state linked body risks mission creep: what starts as peer review could morph into registration requirements, audits, or shutdowns for non-compliance, eroding the constitutional firewall between church and state (Section 15 of the Bill of Rights guarantees freedom of religion, belief, and conscience). From a truth-seeking angle, this feels less like a targeted attack on faith and more like bureaucratic overambition amid ANC fatigue—fixing real issues (corruption in all sectors) by layering on more rules. I'd rather see resources poured into enforcing existing criminal laws and supporting civil society watchdogs. Religious groups self-policing through charters (like the 2019 South African Charter of Religious Rights and Freedoms) has worked better historically, preserving diversity without top-down meddling. If the ANC (or any government) wants trust, they should prioritize transparency in the committee's makeup and operations, not vague "consultations." Ultimately, they must deal with the criminals in religious groups using existing criminal laws.	Beulah	English	retired

			This is blatant repression of religion right out of the playbook of atheistic Marxist regimes everywhere in the world! As usual they have cloaked their leaden state control and persecution in a kind of 1984 style Newspeak when black motives are twisted to appear like snowy white altruism! The very title of this malicious legislation speaks for itself "Commission for the PROMOTION and PROTECTION of the RIGHTS of Cultural, Religious and Linguistic Communities (CRL RIGHTS Commission)". When it truth the very intent is to SUPPRESS and DENY the rights of persons practicing religion. As with the late USSR and China today with its persecution of real Christian Churches and trying to force all to join the oppressively regulated "3-Self church" where the state rigorously dictates what they may say and even orders churches to preach support of the Communist state! The ANC would just love to have that power.			
2025-10-28 12:21:15	No I do not	Other	I note too that in practice legislation the main target of hate speech is the Christian Church since truth is the enemy of power hungry dictators! In essence the CRL "rights" legislation is essentially the hateful "Hate" Speech legislation dressed up in fresh clothes. Both are aimed at suppressing free speech!	Christopher	English	self-employed

2025-10-28 12:25:14	Yes I do	Constitutionality	Religion is a business, just like any other and should be treated and governed in the same way. Regulate and tax it, so the farce that is religion can be eradicated from this world.	Rudi		
2025-10-28 12:26:12	No I do not	Constitutionality	I do not support Government intervention in the vetting of religious institutions.	Tom	English	retired
			I do not support the proposal as it goes against our freedom. Religion cannot be regulated as it is not a set rule book or predefined methods. Religion must be practiced in a way that corresponds with the rules of each religious group, and not that of a particular government.			
2025-10-28 12:26:34	No I do not	Constitutionality	It would go against freedom of speech if it were to be governed in any way.	Oswald	English	business owner
			As a Christian, I affirm the State's duty to protect citizens from real harm while rejecting any attempt to license, vet doctrine, or otherwise regulate the Church, which would violate our constitutional freedoms (Sections 15, 18, and 31) and risk State entanglement in theology. The proper remedy for abuses is the consistent enforcement of existing criminal, NPO, tax, immigration, and safeguarding laws—not new laws that empower peer-review bodies to control religious life. Our church supports voluntary self-regulation: robust child and vulnerable-person protection (NRSO/NCPR checks, police clearances, clear policies), financial transparency, participation in local fraternals, and adoption of recognized codes of conduct. We respectfully request that the CRL focus on education, investigation of specific abuses, and referrals using its current powers, while explicitly rejecting any framework that licenses religious practitioners or adjudicates doctrine. 2025-10-28 12:34:09	No I do not	Constitutionality	We are guaranteed freedom of religion by the constitution, and the CRL's proposal impinges on those rights. The desire to regulate 'phony' groups is already covered by the law. Policing and enforcement should be the focus of Government efforts, not additional, un-fundable regulation.	Francis		
2025-10-28 12:34:12	No I do not	Other	My religion is mine and mine alone, no one will govern or tell me how i can and should practice my internal relationship with Jesus. There is one way to the Father, and that is through the Son, Jesus Christ of Nazareth. Amen	Nicolas	English	business owner
			I strongly oppose the CRL Rights Commission's renewed proposal to license and regulate religious leaders and organisations. This proposal is unconstitutional and undermines fundamental rights protected in the Bill of Rights — including freedom of religion, belief and opinion (Section 15), freedom of association (Section 18), and the right of religious communities to self-governance (Section 31). Faith is a spiritual calling, not a profession. The state has no authority to determine religious legitimacy or impose regulatory control over doctrine, ordination, or worship. Parliament has previously rejected the “Peer Review Committee” model, and there is no legal or constitutional justification to revisit this matter. Religious communities in South Africa already maintain voluntary accountability structures. State interference would threaten religious autonomy and open the door to unconstitutional control. I urge the Commission and all relevant bodies to uphold the constitutional rights of all South Africans and reject any measures that would infringe upon religious freedom.

			Constitutional Violations The CRL's proposal violates Section 15 of the Constitution which guarantees freedom of religion. The proposal amounts to state control of religion, as the CRL is defined in the Constitution as a State institution, and its Commissioners are appointed by the President. The CRL Would Have Final Control, Not Religious Communities This is the critical distinction between genuine self-regulation and state control: The CRL's Report clearly states that "the final decision powers shall lie with the CRL Rights Commission," meaning ultimate control of all religion would vest in the CRL. The Peer Review Committee is defined as "an advisory body to the CRL Rights Commission." While the CRL claims this encourages self-regulation, the proposed structure positions the CRL as the final arbiter, which amounts to state interference rather than genuine religious self-governance. Political Control Through Presidential Appointments Since the CRL's Commissioners are appointed by the President, whoever the President appoints would have ultimate power over the Church to decide who can continue as "State-endorsed" churches. This potentially opens the door for government to silence the Church from speaking out about issues which may implicate or negatively reflect on the State. We do not want a repeat of Apartheid views being accepted by government forced on churches. Existing Laws Are Sufficient While there is widespread support for the concerns the CRL has highlighted, the CRL has ignored every submission presenting alternative, viable and well-supported solutions to every issue they have identified. South Africa already has a comprehensive legal framework to deal with misconduct. The South African Police Service, the National Prosecuting Authority, the South African Revenue Service, and the Department of Home Affairs already have the mandate to act against fraud, abuse, or false advertising. There is no need for new legislation that targets.

2025-10-28 13:17:58	No I do not	Constitutionality	Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities.	Debbie	English	employed individual

2025-10-28 13:22:03	No I do not	Constitutionality	Christianity believes in and is built on the teachings of Jesus Christ and not those of Thoko Mkhwanazi-Xaluva or the CRL Rights Commission. This will infringe on the right of freedom to believe and practice a certain religion and impact the right of association for all South Africans. This will change religion and as a result create a new religion devised by man (in this case the government of South Africa) and therefore will no longer be Christianity but rather New Age. The Government should rather spend their time, energy and funding on educating the masses of South Africa to be able to make informed decisions rather than just blindly following leaders, be it Religious or Political leaders, especially Political leaders... There should rather be focused on putting in place better measures to qualify people for service in Government and Government Spheres, and especially for positions in like the OB and for the CRL Rights Commission...	Willem	Afrikaans	employed individual

2025-10-28 13:24:43	Yes I do	No concern	strongly support the CRL Rights Commission's proposal to establish mechanisms to vet, license, and regulate religious organisations and leaders.	Lulama	English	employed individual
2025-10-28 13:25:15	No I do not	Constitutionality	Freedom of religion does not mean freedom from accountability. South Africa has witnessed numerous cases of exploitation, abuse, and financial and sexual misconduct within unregulated religious spaces. These incidents have harmed vulnerable people, tarnished the image of faith institutions, and exposed the lack of effective oversight. Regulation will not undermine genuine faith but it will protect it. By introducing ethical standards, registration, and disciplinary mechanisms, the Commission will help ensure that spiritual authority is exercised responsibly, transparently, and in line with human rights and constitutional values. I therefore call on Parliament and the CRL Rights Commission to move forward with implementing a regulated framework for religious and traditional leaders, balancing the right to freedom of religion with the duty to protect citizens from harm.	Marie	English	retired

2025-10-28 13:28:14	No I do not	Constitutionality	RSA has a full suite of well established criminal laws and health and safety standards on the book already. Having churches and religious institutions answerable to a government authority will make them susceptible to bureaucratic abuse as officials will be able to influence and extort churches in exchange for licenses and approvals. Govt already sponges a ludicrous amount of taxes from society that it is proven to squander in an endless Reem of news articles exposing corruption at every turn. Religion must be respected and there is no room for state control or influence between the people and their higher power.	Mathew	English	employed individual
2025-10-28 13:28:20	No I do not	Constitutionality	Dear Ms. Thoko Mkhwanazi-Xaluva I do not support the CRL Rights Commission's proposal to regulate religious organisations and leaders. The proposal is not only deeply flawed but also constitutionally impermissible. Religious belief and practice are matters of divine calling and conscience, not subjects for state licensing or control. Any attempt to impose state regulation on religious leadership, doctrine, or governance amounts to an unlawful violation of fundamental rights guaranteed under the Constitution of the Republic of South Africa, 1996. Specifically: - Section 15 guarantees the right to freedom of religion, belief and opinion — without qualification. - Section 18 protects the right to freely associate — including within religious communities. - Section 31 affirms the right of religious communities to form, organise, and govern themselves according to their own tenets and convictions. The CRL Rights Commission has no constitutional mandate or legislative authority to interfere with matters of doctrine, ordination, or internal religious governance. Parliament has already rejected the CRL's previous attempt to implement its so-called "Peer Review Committee" system — and rightly so. There is no legal or moral justification to revisit this discredited proposal. Religious freedom is a non-negotiable cornerstone of our constitutional democracy. Any move toward state control over religion is not only dangerous — it is unconstitutional, unjustifiable, and must be unequivocally opposed. Therefore, I state clearly and without reservation: No, I do not support the CRL Rights Commission's proposal. Sincerely,	Jan	Afrikaans	retired

2025-10-28 13:29:14	No I do not	Constitutionality	I don't want the government pushing a one world religion upon anybody, take away anybodys right of freedom in speech , beliefs and choices , especially what anybody belief. it is our right to have faith in out Lord and saviour Jesus Christ King of kings without being arrested or killed for our beliefs if it doesn't mach what they want us to believd or to have fear in ourhearts about what the government will do to us if they find out what we belief in , they do not have the right to have to know or tell us what we should believe in or keep our mouth shut. 2025-10-28 13:37:40	No I do not	Constitutionality	Secular regulation of religion is certainly ambitious. I reject any attempt to license church or religious leader, vet doctrine, or otherwise regulate the Church. I believe this would violate our constitutional freedoms (Sections 15, 18, and 31). I suggest that the CRL find recourse in current legislation to address the problems they believe that the proposed legislation would address. Furthermore I suggest that the CRL expedite the enforcement of existing laws that address the problems they believe that the proposed legislation would address. God gave man free choice. We must do the same. Through His Word/Jesus, He show us the Way to Life. Let each one choose, and then ons day stand before His Judgement Seat. If Pastors do not follow His Word, and people follow them, both will either be accountable before the Law of Earhly Government (regarding to stealing and so forth) or God's Law of Blessings and Curses. A Godless State have no authority otherwise to dictate what each religion teach. The same rule must be for Christianity, Islam, Budism, Satanism, Scientology etc	Jaak	English	self-employed

2025-10-28 14:10:10	No I do not	Constitutionality	From a theological and historical perspective, as a Protestant Christian I tend to affirm: - The lordship of Christ alone over the Church (Ephesians 1:22–23). - The separation of church and state — Caesar has no authority over the pulpit (Matthew 22:21). - The priesthood of all believers — no external human body should “license” who can preach the gospel (1 Peter 2:9). So, when a state institution proposes a “licensing” or “vetting” system for religious leaders, that raises red flags: - It could undermine spiritual autonomy and biblical authority. - It could allow future governments to pressure churches that hold unpopular moral or doctrinal positions. - Once such regulation exists, it’s difficult to stop it from expanding over time. Even if today’s CRL leadership has good intentions (preventing abuse or fraud), tomorrow’s leadership might not.	Louis		
2025-10-28 14:11:34	No I do not	Other	How dare they want to interfere in our churches.. God is in control not them. They took Jesus out of our schools and put sex in our schools. No wonder the children are so out of hand and think they are adults. Let's go back and have religious instruction and sport back into schools then maybe we will have good youth and future leaders for our wonderful South Africa.	Denise	English	retired
2025-10-28 14:14:36	No I do not	Workability	The Bible teaches that believers are all priests. Any one in the congregation may come and share a scripture, psalm, song, exhortation or prophetic word. So who is a religious leader by this definition?			
2025-10-28 14:14:44	No I do not	Constitutionality	It is thus unworkable to register all religious leaders. Furthermore the bible sets the standard for Deacons in Timothy, it is not up to the government to set standards. the Lord qualifies leaders, not the State or a governmental committee. 2025-10-28 14:29:57	No I do not	Constitutionality	Religion should stay independent from government control. The state should not decide who can preach, lead, or form a church. Faith is a personal calling, not something that should require a license. Freedom of religion means churches and faith groups govern themselves, as long as they obey general laws.	Vuyo	English	self-employed
2025-10-28 14:29:57	No I do not	Constitutionality	There needs to be a separation of religion and state.	Andrew	English	business owner
2025-10-28 14:30:16	No I do not	Other	Please explain to me why the Bible was banned from schools, where every child is taught "it is my right". Where will this stop? The parents are no longer allowed to discipline there children but you want to take away my right to exercise my freedom to live and let live within the guidelines of my Bible. I believe in the Holy Trinity, God the Father, Jesus the Son and the Holy Spirit. The Holy Bible is my guide. I do not need to be a Bible basher to conform my neighbors but I believe the way I go about my daily living should be the mirror of my believe for everyone to see. I know we hear horror stories of cults and wrong doing but that should be a matter for the Justice system, not just another law that will be forced down on the blameless and easy targets in my church and congregation. It is my prayer that we should respect all of our neighbors that will bring Peace and Calm to our Land, South Africa, but not by might and power from yet another power tool from government . May we all realise there is only One True GOD and we all will bow on our knees the day HE returns to be the judge and jury of every human being. Proof to me that a piece of license paper/card that gives me the right to drive on our roads, in a safe and orderly manner, will/can stop the horrendous killings of many citizens on a daily basis in South Africa.	Hannie	Afrikaans	retired
2025-10-28 14:30:49	Not fully	Other	They should be allowed to govern themselves, but it would be a good idea to tax all religious organizations as well.	Grant	English	employed individual

2025-10-28 14:33:24	No I do not	Constitutionality	From a theological and historical perspective, as a Protestant Christian I tend to affirm: - The lordship of Christ alone over the Church (Ephesians 1:22–23). - The separation of church and state — Caesar has no authority over the pulpit (Matthew 22:21). - The priesthood of all believers — no external human body should “license” who can preach the gospel (1 Peter 2:9). So, when a state institution proposes a “licensing” or “vetting” system for religious leaders, that raises red flags: - Legalising the observance of Sunday as a day of worship which is unbiblical (God made the 7th day Holy (Saturday: Exodus 20:8)). - It could undermine spiritual autonomy and biblical authority. - It could allow future governments to pressure churches that hold unpopular moral or doctrinal positions. - Once such regulation exists, it’s difficult to stop it from expanding over time.	C Mariam	English	employed individual
2025-10-28 14:33:33	No I do not	Necessity	There is no reason for more laws to enforce more regulation of an important freedom. Freedom of Religion is part of the fundamental necessities of a free Democratic country. There is not reason for more laws. Those who are breaking the law can be prosecuted effectively. The ineffective enforcement of the current laws does not place necessity for more laws. Rather the oversight and discipline to effectively enforce the current laws. We have had the current laws in place without any problem, why will it be needed after all these years to suddenly enforce a new law on the law abiding citizens that are not breaking any laws and need to carry new responsibilities because the government can not enforce the original laws. Basta. Not in our South Africa	Bernard	English	business owner
2025-10-28 14:34:28	No I do not	Constitutionality	To regulate is usually to restrict or to ban which is a Communist principal. Entities regulated or taken over by the government all failed like the Post Office, Education, Police, Defence Force an actually all state departments. The government is power drunk and the Constitution is a paper tiger. Why do they not start regulating the open borders ?! Leave our religion alone, if they regulate Christianity they must also regulate Islam, the latter will not accept it while the former is so diluted that they do not care.	Pieter

2025-10-28 15:33:13	No I do not	Constitutionality	I find the Government counter-productive when it comes to religion, they allow homosexual marriages not only that they enforce religious institutes to approve of this, rebelling against religious concepts, principle and teachings. There is nothing pious about Government, they are the most corruption organisation contributing to hundreds of millions of rands per year lost in corruption, now they want to have a say in religious establishments (procedures and processes), no Government will start wanting to tell us when to pray, fast and make the various forms of worship. Keep away from trying to control religion, what you've done so far is sacrilegious and bad enough, keep away please.	Ndumiso	English	unemployed individual
2025-10-28 15:33:14	No I do not	Constitutionality	No South African government / governmental organization / governing persons / state or parliament may and will ever successfully dare to attempt to dictate anything of their choosing to the triune living God, God the Father, God the Son and God the Holy Spirit. Now here I quote from the Bible, Psalm 2 Verses 1 to 12. It applies completely to this situation now at hand. They dare to challenge the living God and His people living in South Africa! Why do the nations rage, And the people plot a vain thing? The kings of the earth set themselves, And the rulers take council together, Against the Lord and against His Anointed, saying, “Let us break their bonds in pieces And cast Their cords from us.” He who sits in the heavens shall laugh; The Lord shall hold them in derision. Then He shall speak to them in His wrath, And distress them in His deep displeasure: “Yet I have set My King On My holy hill of Zion.” “ I will declare the decree: The Lord has said to Me, You are My Son, Today I have begotten You. Ask of Me, and I will give You The nations for Your inheritance, And the ends of the earth for Your possession. You shall break them with a rod of Iron; You shall dash them in pieces like a potter’s vessel. ’ “ Now therefore, be wise, O kings; Be instructed you judges of the earth. Serve the Lord with fear, And rejoice with trembling. Kiss the Son, lest He be angry, And you perish in the way, When His wrath is kindled but a little. Blessed are all those who put their trust in Him.	Rory	English	retired

2025-10-28 16:39:17	No I do not	Constitutionality	Are we living in a communist country or a dictatorship? Did I go to sleep and wake up in China? For a new country born out of freedom, we are now truly losing the plot.	Nico	English	employed individual

2025-10-28 16:39:23	No I do not	Other	I do not support the proposed regulation of religion or the licensing of religious leaders. As someone who values spiritual autonomy, intellectual freedom and personal sovereignty, I believe this proposal risks entrenching dominant religious institutions while marginalising alternative or non-traditional belief systems. It does not offer meaningful accountability for systemic abuse within mainstream religions, but instead introduces state control over spiritual expression. While I fully support the need for accountability, especially given the history of exploitation by religious leaders, the current proposal fails to address institutional complicity. It targets individuals without reforming the structures that enable abuse. Licensing belief and spiritual leadership through government oversight is not the path to justice. I urge Parliament to reject this proposal and explore more balanced approaches that protect vulnerable communities without compromising constitutional rights or spiritual diversity.	Nadia		
2025-10-28 16:45:59	No I do not	Constitutionality	No Government has the right to dictate how , when and why I should worship God. The anc has become known for being dictators with all their acts in our so - called " democratic " SA. Do your work anc, and leave our freedom- loving, Religion- loving citizens alone, we will not be bullied !	Claudette	English	retired

2025-10-28 16:55:00	Yes I do	No concern	Some Pastors are using Religion wrongly. They made people to eat grass, drink petrol. I grew up knowing that to be a Preacher is a calling. Today it's not a calling, it's making money scheme. Pastors run churches as their properties. We also have fake Pastors in South Africa I oppose the CRL Rights Commission's proposal to vet, license, or regulate religious organisations and leaders. Such mechanisms undermine constitutionally guaranteed freedoms of religion (Section 15), association (Section 18), and community autonomy (Section 31). Furthermore, the creation of an oversight or licensing body risks unequal treatment of different faiths, introducing the potential for religious discrimination and state control over spiritual matters. Oversight and accountability can be achieved through existing laws without compromising constitutional rights or spiritual independence.	Obakeng	English	retired

2025-10-28 17:20:26	No I do not	Constitutionality	Christians are not under law but under grace, the leadership of the Holy Spirit of God thus they need freedom to fellowship with God without the Government interfering with God's Word (Bible).	Samke	English	
2025-10-28 17:21:55	No I do not	Constitutionality	Freedom of religion is paramount. We need to be able to pray openly, worship and gather unhindered, share the Bible without threat, pray in our schools for each other, our government and our country to prosper and be blessed. God must be invited into our daily lives especially in South Africa because of our high crime rates and unemployment rates	Vanya	English	retired
2025-10-28 17:23:58	No I do not	Other	This is a serious infringement on freedom of religion. Christianity requires each member to spread the gospel, and this means each member will need to be registered by the government. This will then create a database of all Christians in the country which is concerning and a violation of POPIA since there is no reason for the government to have a religious database of each citizen. This also places undue financial pressure and the citizens of this country. It will also allow a handful of organizations to control religious belief in order to be accredited. Religious variations within any single faith are widespread and this will allow censorship of different interpretations of each religion which goes directly against our constitutionality protected right of freedom of expression and freedom of religion.	Johan	English	employed individual

2025-10-28 17:42:31	No I do not	Constitutionality	I should have the freedom and the right to worship in any faith that i choose and should not be regulated by any kind of regulation from Government. Most religions have their own regulatory body and that should be more than sufficient	Heather	English	self-employed
2025-10-28 17:44:04	No I do not	Other	I do not see the reason why religious people must be held under a hammer. I am a Christian and God is my Authority. No government is above God Almighty. However we are knowledgeable of the Bible and Bible Prophecy and if our Lord Jesus Christ was despised by the government when He lived on earth, we can understand that governments of today want to make life difficult for religious people. Our Constitution also protects religions and the right of people to uphold their religion.	Isabella	Afrikaans	retired
2025-10-28 17:44:37	No I do not	Constitutionality	There is absolutely no justification for the CRL to embark on this absurd, insane, controlling course of action, which comprehensively violates South Africa's constitution and is totally devoid of necessity, workability, affordability and any other possible factors. This inept, incapable, incompetent government must stop wasting money and other state resources, which the ANC has squandered through massive, gargantuan longitudinal fraud and corruption over the last 31 years by the highest ranking officials to the lowest, who gladly board and travel freely and criminally, far beyond the well defined limits of the law, on South Africa's notorious and criminal Gravy Train. "Cry The Beloved Country" as Allen Paton exclaims tragically from the celestial realm or wherever he is, but for extremely different reasons now and over the past 31 years of criminal ANC rule compared to his repressive, abusive, exploitative and criminal Apartheid State motivation . QED or Quad Erat Demonstrandum!	Dr Neil	English	employed individual
2025-10-28 17:46:58	No I do not	Constitutionality	The government has absolutely no right to regulate religion because doing so would directly violate the constitutional right to freedom of religion guaranteed under Section 15 of the South African Constitution, which explicitly states that "everyone has the right to freedom of conscience, religion, thought, belief and opinion." This right protects both the private and public practice of faith without interference or coercion from the state. Any attempt by the government to control, monitor, or regulate religion would effectively give it power over individual belief systems — something that lies entirely beyond the state's jurisdiction in a democratic society. Such regulation would not only blur the line between church and state but would also undermine South Africa's founding principles of diversity, equality, and human dignity. Infringing upon religious autonomy would mean dictating how, when, or what people may believe or practice — which is fundamentally incompatible with the idea of a free and open society. The state's role is to protect religious freedom, not to govern it. Once the government starts regulating religion, it sets a dangerous precedent for the erosion of civil liberties and opens the door for political misuse, discrimination, and suppression of minority faiths.	Muhammed Yazeed	English	employed individual
2025-10-28 17:49:03	No I do not	Other	Freedom is important for any living being. We are not pupets to be told what to do and religion is the most important factor of freedom. JESUS CHRIST paid for my freedom.	Wouter	Afrikaans	self-employed

2025-10-28 18:08:56	Yes I do	Other	Background The CRL Rights Commission, through its Section 22 Committee, has revived efforts to regulate religious organisations. This follows numerous reports of misconduct by self-proclaimed spiritual leaders, including: Dangerous rituals and harmful practices Financial and psychological exploitation Cult-like manipulation of followers Such abuses disproportionately affect socially and economically vulnerable communities with limited access to legal recourse. 3. Constitutional Framework Freedom of religion under Section 15 is not absolute. It must align with: Section 9: Equality and non-discrimination Section 10: Human dignity Section 12: Freedom and security of the person The misuse of religious authority to inflict harm violates these rights. Therefore, ethical oversight constitutes a constitutional safeguard, not a limitation of religious freedom. 4. Proposed Oversight Mechanism To ensure lawful and balanced regulation, the following framework is proposed: A. Peer-Led Ethical Councils Independent, faith-based bodies empowered to investigate misconduct, suspend unethical leaders, and refer criminal cases to law enforcement — recognised by law but free from state control. B. Mandatory Transparency Religious institutions must disclose leadership credentials, financial activities, and safeguarding policies, with annual ethical audits for high-risk entities. C. Community Education Legal literacy and awareness campaigns, in collaboration with NGOs, to empower congregants to recognise and report abuse. D. Regulation of Conduct, Not Belief Oversight must target harmful practices rather than theological content, thereby preserving spiritual autonomy. 5. Conclusion While freedom of religion is fundamental, it cannot serve as a refuge for exploitation or abuse. Ethical oversight, grounded in constitutional principles and community participation, is both lawful and essential to protect vulnerable citizens.	Bongani	English	student
2025-10-28 18:09:23	No I do not	Other	THE NEW WORLD ORDER is doing it utmost to break down society with the Bela Act, interference of religion, trying to establish a Muslim party, medical insurance costs, and the list goes on and on ...	FRIEDA	English	retired

2025-10-28 18:31:08	No I do not	Other	The state must adress the issue of immigrants through existing policies like the immigration act to regulate foreigners that take advantage of our weak policies, then take advantage of citizens by introducing spiritual cults, and other shocking practices that brainwashes, scam citizens under the burner of religion and spiritual realms. The good example, of Bushiri Omatoso , Milawian, Congolese , who claim to practice traditional healing those township churches introduced in our communities should be illegal.Original SA have enough religions that can be joined by visitors than introduce new ones. Therefore there should be no foreign nationals allowed to introduce or minister without a licence issued upon registration as a community based organization that have clear doctrines that is aligned with the constitution. Currently foreign nationals, who want quick cash they become Pastors, they come and take advantage of citizens, who are spiritually vulnerable then scam citizens all their money pensions then fled the country and there support groups on social media of such victims as we speak some are in mental hospital., some past on due to depression due to government oversight to such. Then locally amend the registration of churches, develop a regulating board to monitor unethical practices that seem to compromises citizens.For example, if people are sprayed with doom , forced eat snakes/ grass or drink petrol ect, like we have witnessed in some churches then that Pastor should be reported to the regulating board .Simple amend the existing policies.Its a gap like allowing so many sercurity companies to be armed more than police ,which are now the hive for hit mans as well as the private motuaries that thumb suck prices and scam citizens. Same case regulations needs to be tighten a nd be implemented	Lungile	English	employed individual
2025-10-28 18:31:19	No I do not	Constitutionality	One cannot regulate how people chose to pray, preach and worship as it is not in the hands of any human being to do so. This is not protection rather silencing and persecution of freedom of worship.	Akani

2025-10-28 20:52:38	No I do not	Other	I Believe In GOD ALMIGHTY & No Person Has The Right To Govern The Way I Choose To Worship My GOD By Their Rules and Regulations That Goes Against GOD'S WORD IN THE BIBLE! I Want To Also Make It known to The ANC & This Commission, You Intefer With The Church Which is THE BRIDEGROOM OF JESUS CHRIST, You Will Surely Invoke THE WRATH OF GOD Over Your Lives and Your Generations To Come!!! Currently the South African context allows Muslims, Jewish and Hindu's to benefit from Christian holidays but the reverse is not true? So this is already imbalanced. What will these change in rules bring? Schools NEED religion to return MORALS to school goers. Removing more and more religion from schools ruins moral fibres and that is evident in young teen births, transgender movements, gang violence, drugs and the like and CHILDREN should focus on becoming individuals that can CONTRIBUTE society, comply to the rules of society and employable individuals that will reject corruption and promote integrity in dealings between individuals. Don't let satan RUIN the family structure. This is spiritually confirmed and practically applied. Our new norm is breeding individuals that are not accountable, dependable or TEACHABLE! DO NOT regulate religion - this is the LAST concern and the RIGHTS of individuals in a "democratic" society.....	DEVANDR AN	English	retired

			Freedom of Religion - No Authority Stands Between Humanity and God In a true democracy, faith is a matter of conscience, not control. The belief that no one stands between man and God upholds a principle central to freedom itself, that every person has the right to worship, question, and live according to their convictions without interference. When government seeks to regulate religion, it moves beyond its rightful purpose. The role of the State is to protect belief, not to define or limit it. Regulation of religion undermines the foundations of democracy by placing human authority in the sacred space of conscience. Section 15 of the South African Constitution guarantees freedom of religion, belief, and opinion. This protection exists precisely because spiritual freedom is inseparable from human dignity. No law or policy should dictate how citizens connect with the Divine, or whether they do so at all. Democracy thrives when all faiths, and non-faiths, coexist under equal protection, without fear or favour. Government must remain impartial, ensuring that no individual or institution acts as a gatekeeper between humanity and God. Its only duty in matters of religion is to intervene when a belief system causes harm or infringes upon the rights and safety of others. I therefore support a constitutional democracy that safeguards belief rather than manages it, where each person is free to follow conscience, guided by personal conviction and accountable only to their Creator.			
2025-10-28 20:55:15	No I do not	Constitutionality	I stand for freedom of religion, conscience, and dignity.	Lynette	English	employed individual
2025-10-28 20:59:58	No I do not	Constitutionality	Freedom of religion is fundamental and vital, and to impose government control is a communist move showcasing the complete collapse of democracy. This must not be allowed at all and is an immense threat to freedom in South Africa.	Juliana	Afrikaans	employed individual

2025-10-28 22:00:32	No I do not	Constitutionality		Dale	English	retired
			It is unconstitutional as the state does not get tot interfere with freedom of religion a, expression and belief in accordance with section 15 of the constitution of 1996 and infringes section 18 - freedom of association as well as section 31 of out constitution. it is uneccesary, as there are other laws banning criminal activities. religion such as christianity is a good thing. Crime should be outlawed and is already, the problem we face is that the executive branch of government is not enforcing the law. There is no need to infringe the freedom of citizens and leaders because the state is not managing crime effectively. religion and people's faith in Christ is the only thing keeping South Africa Afloat.			
2025-10-28 22:04:24	No I do not	Constitutionality	This will cost South Africans money they don't have. This is not an economical decision.	Anestasha	Afrikaans	student

2025-10-28 23:30:59	No I do not	Constitutionality	Freedom of religion and freedom for religion to govern themselves - not have overwatch from government or government enforced institutions, is constitutional and normal. The government must just leave religion alone, as per the constitution.	Keelan	English	self-employed
2025-10-28 23:40:12	Yes I do	Necessity	Dear DEARSA & CRL Rights Commission, South Africa's Constitution is a global treasure, but its freedoms have been exploited. I support targeted regulation to stop abuse and secure our democracy. Why regulate? - Harmful practices: From petrol-drinking “prophets” (Lethebo, Penuel) to ritual abuse in Nigeria, Ghana, and Malawi — vulnerable people suffer. - National security: The 2008 KZN Al-Qaeda cell, ISIS facilitators in Durban, and Boko Haram-linked cartels (Lt Gen Mkhwanazi, 6 July 2025) show how religious fronts enable terror and money laundering. - Unregulated spaces: Illegal spaza shops, NGOs, and SMEs fuel trafficking, counterfeit goods, and cybercrime — FATF greylisting (2023–2025) proved weak controls. What I propose: - Peer-review committees (CRL's Section 22 model) for self-regulation. - Mandatory NPO registration & safeguarding training (child protection, financial transparency). - Intelligence sharing with SAPS/FIC to flag terror financing or trafficking. - Exempt indigenous practices — respect sangomas, ancestors, and culture. - No state control over doctrine — only enforce existing laws (POCA, NPO Act, Children's Act). Global lessons: The UK and US use charity audits and anti-terror laws — not pulpit licensing. Nigeria prosecutes ritual crimes without banning faith. Our rights come with duties. Freedom without accountability breeds chaos. Let's protect the flock, honour diversity, and secure the nation — together. Thank you for your leadership Bapi Ntshangase Proud South African	Bapi	English	self-employed
2025-10-28 23:40:19	No I do not	Constitutionality	We have the the right to our believe and Serve a God who created us for His glory. If others don't, they on there own. 2025-10-29 03:03:32	No I do not	Constitutionality	Firstly, Freedom of Religion is one of the fundamental Rights located in Chapter 2 of the South African constitution. it is one of the rights enshrined in the fundamental rights of all people in the country. This, our constitution as South Africans. The very constitution, the instrument, that boldly affirms the Sovereignty of our state and government. Of course if any of these fundamental rights are challenged or eroded, that would challenge, even erode, the sovereignty of the state, maybe even turn this state into the so called "Banana Republic." The people of this country, its whole citizenry with all its communities like religious or faith communities, its traditional communities, need and deserve to be protected by the state against harassment by individuals or organizations such as the CRL who purport to play "big Brother" and exercise overreach, even overkill into an area of Grace, the dimension of God's Sovereignty.			
2025-10-29 04:03:58	No I do not	Other	The area which they want government to tread into and to regulate is the area best left alone to spiritual or religious headship because the church, "the body of Christ," can or will now and then be challenged by fanaticism and thus needs proper headship to restore order and such. Such wanton tendencies and /or practices do not warrant the state to intervene with such measures as to put up an organ that would seek to oversee or regulate Christian, spiritual, or religious entities.			
2025-10-29 04:05:53	No I do not	Constitutionality	On the contrary, government should allow each and every community to exercise its freedoms enjoyed under our constitution, maybe help in guiding or training such to enable them to exercise such responsibly.

2025-10-29 05:51:04	No I do not	Constitutionality	Our Country is Democratic every Citizen has a right to religion of his or her choice. Government can regulate all those illegal churches around the Bushes as they are not registered Any illegal immigrants come to SA and open strange churches therefore it is wise to start regulating those churches. Actually government must open prayer sessions in schools as kids are experiencing bullying from other students and teacher's. instead they must regulate all the government and independent schools rules as some are abusing kids psychologically and emotional. South African churches are playing a big roll to the community as it closes the gap between government social development and the citizens Sometimes government Social workers are not available to assist poor of the poor but churches step in to close those gaps . Let churches operate free as long as they still follow what they believe	Shongwe	English	employed individual

2025-10-29 05:55:45	No I do not	Constitutionality	To be a Christian religious leader is a calling from God. And can never be regulaterd by government or any commission. There are already laws in SA to protect the citizens against criminal elements in society. Why want to make laws to control and regulate Gods house hold. Its our constitutional right to have freedom to serve God in Spirit and Truth. We reject the CRL plans of control regulate and say NO TO YOU in Jesus name.	Louwrane		Non-profit
2025-10-29 05:57:32	No I do not	Constitutionality		Neville		
2025-10-29 05:57:33	No I do not	Constitutionality	South Africa's Constitution protects: Freedom of conscience, religion, thought, belief, and opinion (Section 15) Freedom of association (Section 18) Freedom for religious communities to govern themselves (Section 31) Legislation is failing us time and time again, the recent BELA Bill made Grade R compulsory, yet rural schools do not have classrooms, no chairs, no qualified teachers. Government needs to fix those areas that need fixing. Freedom of religion is not causing any harm to anyone, and if a religious leader is found guilty of something, the law must take its course as it would for any other person. Government attention is needed so many other places. Child rapists are being granted parole and raping while on parole, how is Government addressing this? This is a form of oppression and discrimination against people of faith.	Candice

			South Africa's Constitution guarantees every person: – Freedom of conscience, religion, thought, belief and opinion (Section 15) – Freedom of association (Section 18) – Freedom of religious communities to govern themselves (Section 31) Concerns – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. – Parliament rejected the CRL's proposal for legislation to implement a “Peer Review Committee” system of state regulation of religion. There is no valid or legal reason to revisit this matter.

			Christianity is a “Theocracy”, not a “Democracy”, and not a “socialist Corrupted communist Organisation” Some religions are based on witchcraft and tribal beliefs that are not from God. Wake up, you have thrown the baby out with the bathwater. This country was originally set on Christian principals, but Governed foolishly. Now iets just governed foolishly. Rather pass a law that no person in any religion may be forced to participate in any action that will lead to harm their body, and if they do so I will be at their own risk, a minister or person practicing such cultivate actions will be charged legally and the participant will waver their rights not obeying the law. You will do well to Rather govern the issues like circumcision to be performed in a provided and safe hospital environment due to health concerns. And so forth.

			Perhaps Government should use their time to regulate spending and root out corruption rather than trying to control religion. They should concentrate rather on employment opportunities for the masses, sorting out our roads and traffic lights, cleaning up the SAPS so that we can trust them again and focus on getting our financial status in order to attract foreign investment again! Why do they continue to stir up bees' nests when the honey is there for the taking? Joh!

2025-10-29 06:57:56	Not fully	Other	Where the religion overtly condones and encourages harm to others, it should be banned outright. Sharia Law still condones the stoning of women and describe the method in detail. Horrific! Please read the book ‘Princess’ . Devil Worshipers commit heinous crimes, look at Alison Botha, as ONE example. We are Christian country. Is there any Christian in the ruling party? Ancestor Worship do not, to my knowledge, order / require people to commit crimes. So it is their choice, just as Christianity is my choice. In Summary, religions which require harm to others need to be outlawed. They are no different from rival gangs which require violence against other gangs.	Ada	English	retired

2025-10-29 07:19:38	No I do not	Other	Love, peace, freedom, no harm, no danger, no threat of harm..... these are religious freedoms that should never be infringed upon by any government or regulation. However, the regulations in place should be for people to be safe and unharmed, and it should allow for freedom of expression in a way that does not harm anyone. If there are religious activities that jeopardize people's wellbeing, then those organizations or religious leaders should be held fully accountable for the infringement of the already current laws in place. As an example, if a religious practice involves harming ones body or killing of any person, that should be immediately banned and the leaders held accountable for those heinous activities (laws are already in place). So no further regulation of religious bodies need to exist. The law stands fine and firm on its own. Thank you	James		employed individual

			While I am fully against their endeavor, the church has been "vetted" for 2000 years.			
			While I agree that oversight and carte blanche is under government purview, people can't run rampant, what authority will they have when it comes to those that are deemed " unofficial".			
			It's like prohibition a 100 years ago. Some groups may even thrive on being vagabonds in the eyes of government.			
			So being vetted is fine have to stand in queues like the rest of us. But an eventual yes or no you are or are not allowed to worship or are, that kind of thing I find unnerving

2025-10-29 08:01:29	No I do not	Constitutionality	All of mankind is under the law of God. We all obey God rather than human beings. All authority is from God: The Bible asserts that there is no governing authority except that which God has established. A ruler's power is not their own but is delegated to them by a higher, divine authority. Government as God's minister: Romans 13 describes the governing authorities as "God's servants" or "ministers." This means they are responsible to God for their actions and serve His purpose of maintaining order and promoting justice on Earth. Accountability to God: Since all authority is derived from God, governments and their leaders are ultimately accountable to Him. This is true even for imperfect or corrupt governments, which God can use for His own purposes.	Nathan	English	
2025-10-29 08:02:48	No I do not	Constitutionality	The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations I totally oppose the state trying to licensed or regulated religion.	Bruce	English	employed individual

2025-10-29 08:20:50	No I do not	Constitutionality	South Africa is constitutionally supposed to be a country where freedom of religion is hailed. By creating a body where government can "regulate" religious organisations, this constitutionla right is negated. If the government has the right to regulate who may be a religious leader, and what religious leaders may teach their folk, the is NO freedom of religion anymore. Before a this law can be promulgated it should be tested against the constitution, else, once again, a lot of time and money is wasted by promulgating a law that is against the constitution, have all the court cases, up to the constitutional court and get the law revoked.	Charl	Afrikaans	employed individual
2025-10-29 08:24:12	No I do not	Constitutionality	Ingrained in the base of the constitution is freedom of religion. Thus the founding persons realized its importance and need to protect it from the state. This further push to control the people is therefore unconstitutional and represents a grave and despicable infringement on such basic rights. This cannot be allowed and must be stopped and fought.			
2025-10-29 08:26:22	No I do not	Constitutionality	This state has no right to power or control to ride roughshod over the peoples beliefs - it is specifically protected and must stay that way.	Jesse	English	business owner
2025-10-29 08:26:28	Yes I do	Constitutionality	Every South African must have freedom of religion and every law breaker must be brought to court and be judged. No one can control God, for he is Almighty.	Mitta	English	self-employed

2025-10-29 08:55:51	No I do not	Constitutionality	Some things are supposed to be just left alone - one of them is religion. For a country that is quite religious why take our freedom of religion away. There is always the hidden agenda of the state finding ways for their own gain, how to enrich themselves by stealing. Government should have no say in religion, they should rather keep to the work that they are supposed to do. With all the corruption in government, there is no way that they can 'direct' religion in an ethical or moral manner. Corruption and unbelieve and religion are opposed to each other. And the most important point, religion is does not have an 'on of button' that government can push at will when they need something done in a certain matter.	Annie	English	employed individual

2025-10-29 09:08:40	No I do not	Constitutionality	I do not support the Regulation of Religion by the state. The CRL commission exists to protect the rights of Cultural, Religious and Linguistic communities not to oppress them. South Africa has sufficient laws and mechanisms to deal with criminality at all spheres of society including the religious community. The peer review mechanism that is state controlled is a direct attack on the rights of the religious community. If for example I have influence over a certain peer review committee in my community, I can use it to silence other Pastors I simply don't like, and that can't be correct. We do not need CRL commission to regulate the religious sector, if there are criminal acts within the religious community, then let law enforcement agencies attend to them.	Bongani	English	Non-profit
2025-10-29 09:09:23	Not fully	Constitutionality	I do not agree on Governmental Control of the Christian Religion which follows the original principal of Christianity born from Judaism. Something that has seemingly been forgotten by some Christian Clergymen standing on Pedestals and joining marches against the Jewish Nation. I denounce the Government and such so called Christians for alienating the Jews in this country by their support of Hamas/Palestine and other radical. This is all a clear threat to true Christianity. I denounce these sects calling themselves Christians and causing harm to good people who want to follow the true Christ but follow these false prophets. Their scandalous abuse of human rights making headlines in newspapers and all Social Media. Go back ; read your Bibles and wise up!	Trish	English	employed individual

2025-10-29 09:34:53	No I do not	Necessity	Government should not regulate religion because freedom of belief is a fundamental human right and cornerstone of a democratic society. When the state interferes in religious matters, it risks imposing one set of beliefs over others, undermining equality and individual liberty. Religion is a deeply personal matter of conscience, and state involvement often leads to discrimination, oppression, and social division. A government that stays neutral in religious affairs ensures that all citizens—believers and non-believers alike—can practice, change, or reject religion without fear or favour. Furthermore, history shows that when governments attempt to control religion, it often results in conflict, corruption, and the erosion of both religious integrity and civic trust. Religious institutions thrive best when they are free from political influence, allowing them to focus on moral, spiritual, and social contributions rather than serving as tools of the state. By maintaining a clear separation between religion and government, society protects pluralism and promotes peaceful coexistence among diverse communities.	Ren	English	self-employed

2025-10-29 10:12:27	No I do not	Constitutionality	In my understanding it is a breach of each persons constitutional rights to create any form of power structure regulating over or dictating and controlling religion. These proposed laws attempts to do precisely that. Which is why I do not support the legislation.			
2025-10-29 10:12:30	No I do not	Constitutionality	There is a responsibility on government to create structures to communicate or facilitate the flow of information between the two bodies in a friendly and acceptable manner, for instance if a marraige happened in the religious sense then it makes sense for the government to create offices where this can be communicated to government if such married persons wishes to also be seen by the court of law and in respect of laws taking into account married or specifying different outcomes for married couples vs unmarried persons. So I do not have any objections to setting up structures of necessary communications, but I am concerned where a religion does not require the government to act legislatively regarding perhaps religious events on any claim by the government towards any access of information regarding matters which are not requested or initiated by the religious body. This matter might require a full debate, but in my opinion the government has no dominion over religion and in my understanding of the constitution this is guaranteed.	M		unemployed individual

2025-10-29 10:16:06	No I do not	Constitutionality	The state has no mandate from the its citizens to regulate religion. If you regulate it, you take away the autonomy of the church. Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities.	Elias	English	unemployed individual
2025-10-29 10:16:52	No I do not	Constitutionality	It is a bad idea because it threatens freedom of religion and association guaranteed by the Constitution. It gives the state power to decide who qualifies as a legitimate religious leader, something no government should control.	Beverley		
2025-10-29 10:16:52	No I do not	Constitutionality		DANICA	English	employed individual

			To whom it may concern: It is with deep regret that once again, the ANC's desire is to initiate change, thereby slowly eroding the rights of its people in one way or another, and this time, our Christian Faith is in the firing line! Yes, the CRL, particularly Thoko Mkhwanazi-Xaluva did say that they would clamp down on other faiths and traditional healers, sangomas, etc. BUT it's Christianity that always seems to be the only sect targeted in any discussion! Quite frankly, it seems that Christian churches and their leaders are the main target as a result! Did u know that faith is a divine calling and not a profession? Therefore, it cannot be licenced or regulated by the state. The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. Parliament has already rejected the CRL's proposal for legislation to implement a "Peer Review Committee" system of state regulation of religion. Why then is the CRL still being allowed to push this? The ANC's inaction communicates that they are in support of it. The CRL's agenda risks religious leaders becoming subject to or tools of state control eg. Control of what is said, taught and done in the general run of the church. South Africa's diverse religious communities already support voluntary accountability. In the Christian sect alone, there are partnerships between churches as well as doctrines and faith statements upheld by groups of churches, not to mention other self-governing associations to which churches might belong. These serve to guide the leaders and protect the people. The CRL seems to be headed up by and comprised of non-believers. How are they going to determine what is right or wrong, truth or lie? They simply can't. I call on Parliament to disband the CRL until such time as their actions are in line with the constitutional mandate. Yours sincerely, Linda Vial 5611290035087

2025-10-29 10:55:49	No I do not	Constitutionality	Concerns – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternal, and self-governing associations. – Parliament rejected the CRL's proposal for legislation to implement a “Peer Review Committee” system of state regulation of religion. There is no valid or legal reason to revisit this matter.	Louis	English	business owner
2025-10-29 10:56:24	Not fully	Constitutionality	Freedom of religion is a must for all. Our Constitution protects the rights of all to have freedom of religion within the scope of the law. I am a member of ACRP (Association of Christian Religious Practitioners) and they will continue to represent us should CRL continue with their proposal. I do believe that religious practitioners must be held accountable to God and the laws of the country they serve and others they visit sharing the gospel. I for this reason believe that ACRP is a good place to start having members vetted and be accountable for share the gospel as guided within the laws of the country we serve. Sadly, some individuals have gone rogue and done some profound things under the banner of religion and must be stopped. This is where regulation in important to control such unlawful or inhumane acts under the banner of religion.	Gavin	English	self-employed

2025-10-29 11:03:24	No I do not	Constitutionality	We, the undersigned citizens of South Africa, strongly oppose any proposed law, committee, or regulatory framework by the CRL Rights Commission or any arm of government that seeks to regulate or control religious institutions, leaders, or practices. Our Constitution (Section 15) guarantees freedom of religion, belief, and opinion — a sacred right that must never be compromised. Any attempt to regulate religion violates this right, opens the door to state interference in faith, and threatens the autonomy and diversity of all religious communities. We affirm: The state has no authority to license, monitor, or approve religious leaders or institutions. South Africa already has adequate laws to address abuse, fraud, or misconduct. True accountability should come through voluntary self-regulation within faith communities, not government control. We therefore reject the CRL's proposed oversight structures and any related bill or policy that would place religion under state regulation. We call on Parliament and the CRL Rights Commission to: Uphold the constitutional right to religious freedom, and Withdraw any measures that undermine the independence of faith communities.	Ciena	English	employed individual
2025-10-29 11:04:10	No I do not	Constitutionality	✚ Freedom of religion is not a privilege granted by the state — it is a right given by God and protected by our Constitution.	Wilma	Afrikaans	retired

2025-10-29 11:29:26	Not fully	Other	Religion should be discarded by all It's not proper practices. Religion are used to exploit the poor blacks and coloured people The leaders in Religion drive fancy cars, wear top name brand suites The congregation must pay for birthday parties and all expenses The poor don't even have money to buy bread. But is forced to pay their church. It's sick to see all this happening. The moslems the same practices they also pay the leaders. Money never get to the poor. So Religion must go We can then focus on clear views. Focus to see things in 3 d. We can focus on maths and science and individual development Churches have connections in drugs and other evils under pretense of Religion It's sad to see the reality of what really happens Government must not regulate churches they must abolish it We need stronger laws to be able to run this country Drug dealers must be executed as soon as they are caught and it was proven that they are dealers. Same for murderers, rapist, fraudsters, looters and children and women abusers Execute them all..when they caught We will then only have proper governance and order	Mareldia		retired
2025-10-29 11:30:12	No I do not	Constitutionality	The fact that we can practise our religious freedom, makes SA unique. Do not take that away.	Monene	Afrikaans	unemployed individual
2025-10-29 11:32:59	No I do not	Constitutionality	If the South African Government becomes involved with religion, first comes legal looting by SARS; corruption by cadres, then suppression of free speech and doctrine in all the denominations; the next step is dictatorship and finally SA will be a godless communist country. Look to our neighbour to the North as an example.	Patricia	English	
2025-10-29 11:34:08	No I do not	Constitutionality	I have great admiration and high regard for our constitution. It was drafted by great minds, through blood, sweat and tears. I have been in full support of the right for people of all religions to practice their religion without prejudice. I understand that during apartheid, the National Party's very distorted version of Christianity was oppressive and, quite frankly, heretical. I wouldn't like us to ever go back to that kind of oppression. However, to over-regulate religious practice is very concerning, given the events in Gaza and the slaughter of Christians in Nigeria. We cannot take that kind of step backwards. I think the alternative is to ensure that all religious institutions are appropriately regulated, pay tax on salaries and submit tax returns showing that they are a not-for-profit organization.	Lindi	English	self-employed
2025-10-29 11:34:41	No I do not	Constitutionality	South Africa's Constitution guarantees every person: – Freedom of conscience, religion, thought, belief and opinion (Section 15) – Freedom of association (Section 18) – Freedom of religious communities to govern themselves (Section 31) Concerns – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. – Parliament rejected the CRL's proposal for legislation to implement a “Peer Review Committee” system of state regulation of religion. There is no valid or legal reason to revisit this matter.	Jan	Afrikaans	retired
2025-10-29 11:34:56	No I do not	Constitutionality	The State should focus on their responsibilities of service delivery, violence free environment and non restrictive policies that became a major burden for economic development. So No, hands off from our religion.	Andre	Afrikaans	retired

2025-10-29 12:31:13	No I do not	Constitutionality	Galatians 5:13- For you were called to freedom, brethren; only do not turn your freedom into an opportunity for the flesh, but through love serve one another. There are a few specific duties assigned to the government in the New Testament, which, put simply, are to punish evil, reward good, and provide justice (Romans 13:3–4). Notice that there is no mention of mandating a specific religion or type of worship. In fact, Jesus Himself did not even require that people believe in Him. Upon learning what it would require, the rich young ruler left in sadness; Jesus let him go (Matthew 19:16–23). Jesus lamented that the Jews were unwilling to believe in Him; He didn't force them to do so (Matthew 23:37). Each person has a choice of whether or not they will believe in Jesus or someone/thing else, and they use their own free will to decide. Because God gave people freedom to choose their own belief system, so should we. Freedom of religion recognizes the God-given gift of volition in man and is therefore inherently supported by the Bible. Because mankind was made in God's image, they were given the gift of freedom of choice (Genesis 1:26; Joshua 24:15). God knows that we will make mistakes, yet He has still endowed us with the freedom to make our own decisions. Because God has given that right to us, we owe that to each other, as well. Even if humans make the wrong choice, they should still have the right to choose. The kingdom of God is not of this world (John 18:36), and no one comes to Christ unless the Holy Spirit draws him. This makes it foolish to entrust the government with decisions about what religion people should have (John 6:44, 63). Neither the will of man nor the requirement of the government makes one a child of God. Salvation comes from a choice to put one's faith in Jesus Christ: "But as many as received Him, to them He gave the right to become children of God, to those who believe in His name: who were born, not of blood, nor of the will	Deborah	English	retired

2025-10-29 16:16:23	No I do not	Constitutionality	Is the constitution existent or is it a facade to make South Africans believe that voting contributes toward their democratic voice when it is only a means to control the masses? If the constitution exists and democracy is in fact a means to give South Africans a voice that does not threaten the well-being of another, then if criminals have the right to speak up for themselves in country where they've bullied others that were not able to stand up for themselves, then surely regular citizens should be able to exercise their faith freely. Stop taking the authority away of parents, the police, and teachers to discipline children and criminals, then maybe you won't have to worry about vetting them as adults., but why should they? Why should they do anything to mitigate crime? No. they are just treating symptoms instead of dealing with root issues. They want to roll out digital identity, not for the safety of the people but for the control of the people, and then inadvertently accuse those who wish to implement discipline, of violating the free will of children, while they are working towards controlling the movement and traffic of adults n this country. How hypocritic, just to maintain stewardship of the economy. And we are expected to bow like fools.	Nastasja	Afrikaans	self-employed
2025-10-29 16:16:30	No I do not	Constitutionality	Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations.	Adebene	English	employed individual

2025-10-29 17:16:21	No I do not	Other	What next does this useless government want to regulate. The air we breathe. Absolutely do not support this or any other stupid ideas they suck out of their thumbs. Why do they want to regulate? Communism or what??	Stuart	English	retired
2025-10-29 17:16:57	No I do not	Constitutionality	Religion is a PRIVATE and PERSONAL matter.	Laraine	English	retired
2025-10-29 17:19:45	No I do not	Constitutionality	An individual's right to religious freedom and association is guaranteed in the constitution (Section 15 and 18). The proposed legislation endangers these constitutional rights. The state has no right to exercise control over religious institutions which operate within the bounds of the law. South Africa already has robust laws (Criminal Law, SORMA, Children's Act, etc.) that cover all criminal abuses. The issue is not the absence of law—it is poor enforcement of the law. Further, there has been no meaningful public participation in the drafting of this legislation. These elements clearly make the proposed legislation unconstitutional and demonstrate over-reach on the part of the state.	Rolf		
2025-10-29 17:20:23	No I do not	Constitutionality	Freedom of religion is a basic human right. If this is indeed a democratic country, this should not even be an issue.	Michelle	English	employed individual

2025-10-29 19:48:41	No I do not	Constitutionality		Ethan	English	student
2025-10-29 19:49:12	No I do not	Necessity	I object to the governance of religion by the state. The laws in our country already cover what could go wrong in a religious setting. Regulation of religion is a contravention of our constitutional right to freedom of religion.	Megan		employed individual
2025-10-29 19:50:09	No I do not	Constitutionality	This infringes on the right of freedom of religion as the CRL will control how people should worship. The oversight role of the CRL appears to be stopping abuses within places of worship. It however means that our Christian Church Leadership will no longer be accountable to God but will have to answer to human beings. It also violates our constitutional right to freedom of religion. Those who are breaking the law by their practices in any religious service should face the law and must be dealt with accordingly. The CRL will be a hinderance to the furtherance of the Kingdom of God which Jesus Christ laid down His life for. Regulation of religion will send South Africa down a dark road.	Granville	English	business owner

2025-10-29 20:33:17	No I do not	Constitutionality	Completely unconstitutional. It's infringes on one's personal belief. You cannot control religion. If it is unconstitutional it cannot stand.	Kimona	English	
2025-10-29 20:33:25	No I do not	Constitutionality	It would infringe my right to exercise religion	Anga	English	student
2025-10-29 20:34:01	No I do not	Constitutionality	I don't fully support the CRL rights Commission because it will threaten our Christian religion of freedom. And may restrict our Christian right of free speech about the gospel (the word of God).			
2025-10-29 20:34:17	No I do not	Other	No human law should threaten any religion. I feel that the government has no power when it comes to how churches conduct their practices. If feel that this bill would restrict my freedom of access to receiving the word of God.	Mvuzo	English	student
2025-10-29 20:34:28	Not fully	Constitutionality	I feel that in some way it is necessary due to people, false priests who use their power and influence to lead people astray. However, in the grander schemes of life, it infringes in people's right to religion and being free to practice it fully and freely.	Pearl	Afrikaans	student
2025-10-29 20:36:55	No I do not	Constitutionality	Each Person should have a freedom of religion. Not all religions follow the same intentions. Not all Christianity for example is the same, each person should be allowed to perform their freedom of religion however way they feel they should. Religion on its own isn't and shouldn't be human led but Spirit led, allow everyone to have conviction and follow what they gain from it. Let people practice free will. We are not robots and we are spirit beings. People deserve to be protected and they should invest themselves where they feel most safe in their vulnerability. As much as not all people vote for a certain party for governance so should they not be led where they do not want to be led. We are people with lives of our own and we deserve to choose what we deserve for ourselves. I get where the intention for this initiative is coming from but please consider the restrictions it could bring to all people.	Kutloano	English	student

2025-10-29 21:10:15	No I do not	Necessity	Personally I think that this is wrong. Aren't we called the rainbow nation for a reason. To celebrate our differences in race, culture and RELIGION. Honestly why are trying to split and break something down even more. Shouldn't we be trying to build this country up instead of breaking it down despite having our differences. Let's be better and stop the CRL from happening, then can we unite and change this country for the better.	Wian	English	employed individual
2025-10-29 21:10:50	No I do not	Other	Government can not regulate church or region gatherings.	EMEJI	English	Non-profit
2025-10-29 21:13:06	No I do not	Constitutionality	I strongly feel that the government should not have a say in people's right to freedom, specifically in how religious duties are carried out according to the Church.	Anel	English	employed individual
2025-10-29 21:13:55	No I do not	Other	Regulating religion will take away the freedom to worship Jesus freely and to preach the Gospel freely to everyone and everywhere as everyone needs to be saved so that they will also one day enter the Kingdom of heaven and have eternal life with the Lord God Almighty Jesus Christ!!! We have been given a great commission to preach the Gospel in Matthew 28 (16-20) 18 Then Jesus came to them and said, "All authority in heaven and on earth has been given to me. 19 Therefore go and make disciples of all nations, baptizing them in the name of the Father and of the Son and of the Holy Spirit, 20 and teaching them to obey everything I have commanded you.	Philani	English	employed individual
2025-10-29 21:16:45	No I do not	Other	Regulating religion will restrict this and in that go against what Jesus has commanded us to do.	Graeme	English	self-employed
2025-10-29 21:16:55	No I do not	Other	The government must stay out of church . They cannot control it or have a say in what is preached or who is allowed to preach.	Neil	Afrikaans	employed individual
2025-10-29 21:18:53	No I do not	Constitutionality	This is all part of the devils work to stop us from preaching the gospel. We must stop them. ???	Yonela	isiXhosa	student
2025-10-29 21:21:02	No I do not	Constitutionality	The Constitution of the RSA guarantees religious freedom. Hence religious activities should be free from government control and influence. In the recent history minorities and specifically Christians had been persecuted under similar regulations in Eastern Europe and under Communist rule. Hence the associated risk of abuse by organs of the state make such "oversight" both unwanted and unwarranted.	Hendrik Petrus	English	retired
2025-10-29 21:23:00	No I do not	Constitutionality		philip		retired
2025-10-29 21:23:29	No I do not	Necessity	This is truly absurd as the Government is aware of Pastor John Annosiki ministry who is a Major threat to them but they ignore how many investments his Ministry is for our country they better reconsider this and I'm ? serious about this as Pastor John Annosiki can disrupt there plans and can cause South Africa to be in poverty for years that's the reason he is leaving South Africa this heart breaking because the Government doesn't realize what a Blessing Pastor John Annosiki is for South Africa, after exposing the Government on social media he knew every single agenda regarding the Government and know the future of every country world wide but this is not over yet as we will be in war in the Spiritual Realms on the 6th December against this evil and I personally can say what ever Pastor John Annosiki say or do we can run with it as it will come to pass, his the last Prophet God is using in the last days I hope the Government will wake up before it's to late!!!!!!!, This is One Spiritual Pastor nobody can fight against and that's why they will try everything to bring him down and many other Churches and he told us way back about this as he can see the future and the past, we are going to disrupt there agendas on the 6th December for Roar for all Nations, Government be prepare what is coming!!!!!!! Don't touch any Christian Church in South Africa as God's Vengeance will be on them this is a Warning for the Government!!!!!!	Hilary		retired
2025-10-29 21:28:40	No I do not	Constitutionality	This comes against the freedom of religion as enshrined in the COnstitution of RSA. I believe that this is only imposed on christian religion instead of all religions in the country (african, hindu, buddists, muslim, islamic etc.).	Babalwa	English	employed individual

2025-10-29 21:32:13	No I do not	Constitutionality	I believe that the Church and the state are two separate entities. They don't mix. Why? ... you learn from history. Just look how people became messed-up in their thinking under Constantine. Every religion is different, and people should be able to have freedom in what they want to believe. But the State is confused in their role. They love to dictate to others what they can or can't do. And because there is some people who are so greedy for money and power, they will sell their souls to the highest bidder, e.g. The One World Religion, who will dictate to mankind once again, what they may and may not do.	Riana	Afrikaans	retired
2025-10-29 21:35:54	No I do not	Constitutionality	I am concerned that this will attempt to regulate my religious freedom . This new legislation proposal from the CRL threatens freedom of religion, including the spiritual autonomy of faith communities – and violates our Constitution. As a Christian, I want to call on Parliament and the CRL Rights Commission to protect my constitutional right to religious freedom and I reject all attempts to license or regulate faith.	Gabrielle

2025-10-30 04:22:08	No I do not	Constitutionality	Government has no right to regulate anyones faith	Tiana		
			Freedom of religion is one of the foundations of a vibrant democracy, along with freedom of association and freedom of expression. To regulate religion is to undermine the people who gave up their lives, their health, their families and their personal freedoms in fighting for freedom in South Africa. To undermine this core freedom would be a betrayal of the very people the government says it wants to protect. There are already mechanisms in place whereby abusive religious leaders can be held to account. I, for one, voted for freedom not tyranny in the Nineties in South Africa. Please do the right thing!	Julia Aviva	English	retired
2025-10-30 04:50:24	No I do not	Other	The church has got nothing to do with the state. As we follow the law of the sovereign God, Creator of heaven and earth.	Leonard	English	employed individual
2025-10-30 05:21:33	No I do not	Workability	Men has never been given the authority to dictate to God what must be done in His Church. Yes I do agree that is some so called Pastor are doing things that are against the Word of God, they must be dealt with accordingly (just like those in government who are feeding their own pockets) they need to be dealt with according to the Country's law. Pastors can't just do what they want to and get away with it, but there is the Word of God, which is the Kingdom Constitution to judge all things that concerns the Church.	Benjamin	English	Non-profit

			I am concerned that this will attempt to regulate my religious freedom .			
2025-10-30 05:52:58	No I do not	Other	This new legislation proposal from the CRL threatens freedom of religion, including the spiritual autonomy of faith communities – and violates our Constitution. As a Christian, I want to call on Parliament and the CRL Rights Commission to protect my constitutional right to religious freedom and I reject all attempts to license or regulate faith.	Cagney		

2025-10-30 05:55:09	No I do not	Constitutionality	It is against freedom of religion and it is discriminatory as it seeks a regulate only Christian religion. How do you regulate how people should believe in what they believe in and how they should practice their religion. This is a totalitarian governance. This will create a confrontational situation between the government and its citizens.	Surprise	English	
2025-10-30 06:00:31	No I do not	Constitutionality	The state has no right to dictate and take my right of freedom to my choice of religion. Politics and religion are two different things. The state must stick to politics and leave religion alone. We have the right to choose our faith.	Sharon	English	employed individual

2025-10-30 11:41:10	No I do not	Constitutionality	Statement Opposing the CRL Rights Commission's Proposal to Regulate Religion I do not support the CRL Rights Commission's proposal to vet, license, and regulate all religious organizations and leaders. Such measures threaten freedom of religion, undermine the spiritual autonomy of faith communities, and violate the Constitution of South Africa. Our Constitution guarantees freedom of conscience, religion, association, and the right of religious communities to govern themselves (Sections 15, 18, and 31). Faith is a divine calling, not a profession to be licensed by the state. The CRL has no authority to regulate doctrine, ordination, or worship, and any attempt to do so risks turning faith leaders into instruments of state control. South Africa's diverse faith communities already practice voluntary accountability through self-regulating bodies, charters, and codes of conduct. Parliament has previously rejected similar proposals from the CRL, and there is no legal or constitutional basis to revisit this issue. For these reasons, I firmly oppose the CRL's proposal to regulate religion and affirm the right of all faith communities to self-govern freely under the Constitution.	Andre	Afrikaans	Non-profit
2025-10-30 11:48:42	No I do not	Constitutionality	Why is government always trying to push legislation that goes against the constitution before at least trying to amend the constitution to allow said legislation first. Anyway, regulating what people believe and who they choose to worship is a basic human right where government has no business interfering in. Following human history, this will open the door to unwarranted, unreasonable religious persecution, the type that gets people killed for being peaceful and law abiding. A definite big NO from me.	Michael	Afrikaans	retired

2025-10-30 12:36:39	No I do not	Constitutionality		Steffie	English	Non-profit

			Government regulations pertaining to religion pose a considerable threat to the fundamental values of freedom and individual rights that underpin democratic societies. When the state intervenes in matters of faith, it infringes upon personal beliefs and cultivates an atmosphere of intolerance and societal division. Religion constitutes a vital component of personal and cultural identity, and individuals must possess the unequivocal right to explore, practice, or choose not to engage in religious observance without coercive intervention from government entities.			
2025-10-30 12:37:59	No I do not	Constitutionality	State involvement in religious practices can lead to adverse consequences, including discrimination against minority beliefs and the suppression of diverse perspectives. Such oversight enforces a constrained interpretation of faith, which fails to acknowledge the rich diversity of human experiences that encompass a wide array of beliefs and traditions developed over time. When governments impose restrictions or dictate the manner in which individuals should practice their faith, they risk alienating community members and exacerbating divisions between different groups.			
2025-10-30 12:50:02	No I do not	Constitutionality	Furthermore, permitting government control over religious matters undermines the foundational principles of democracy that advocate for pluralism and equality. To safeguard both religious liberty and the integrity of governmental institutions, it is essential to maintain a clear separation between church and state. This separation not only upholds the rights of individuals to worship freely but also reinforces the significance of a diverse and inclusive society in which all beliefs can coexist harmoniously. 2025-10-30 14:11:34	No I do not	Constitutionality	Religion is a matter of faith and Devine calling. all those who want to regulate it subscribe to one form of religion or another and probably want to impose their believes on others. Government must be preoccupied with governing the country and leave those called by God to be directed by God. I understand the fears or concerns of the country's leaders. There should be another way to address those without interfering with the speakings of God. Our leaders in this country can not even define Christianity but think they can regulate it. You regulate what you know and understand. You cant just see somebody carrying a bible and call them a Christian and then think of regulating. Let them go to IR Iran and see what came out of regulating religion.			
2025-10-30 14:15:10	No I do not	Constitutionality	Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief.	Thabo	English	employed individual

2025-10-30 20:30:17	No I do not	Constitutionality	The constitution guarantees citizens freedom of religion, where religious belief is by its nature a subjective matter, generally governed by rules from one or other unverifiable and supposedly 'divine' source, e.g. holy book. Because of this inherent subjectivity, it is not praticable to govern or vet something that is only true in the perceptions of the people who believe it, and who differ in their interpretations. Leave the religious to stew in the myths of their choice and let them be scammed by whosoever comes up with next cult - you cannot legislate against people's gulibility.	Lawrence	English	self-employed

2025-10-30 21:26:24	No I do not	Constitutionality	It is total overreach and an outright breach of multiple stipulations in the constitution for the government to attempt to regulate religion in this country. Furthermore, it would require another department with more employees in our already bloated and overpaid government structure wasting more taxpayer funds for no good purpose. There are a lot of far more important issues that need government attention urgently. Try getting on with the business of rooting out crime, creating jobs and making this country functional again.	Gwen	English	retired
2025-10-30 21:28:48	No I do not	Constitutionality	We call on Parliament and the CRL Rights Commission to protect our constitutional right to religious freedom and reject all attempts to license or regulate faith.	Joy	English	self-employed
2025-10-30 21:47:15	No I do not	Constitutionality	It is absolutely absurd that they want to influence and control any religion that they chose. Freedom of Religion is extremely important to us, we do not need to abide by rules and regulations for whatever we believe in.	Andrew	English	self-employed
2025-10-30 21:55:57	No I do not	Constitutionality	The SA Constitution guarantees me the right to practice my religion, which means to practice it in the way the religion has been practices for thousands of years, since before South Africa was a Republic and definitely since before the new Constitutional Republic. Part of our system of governance is a complete separation between state and religion, and any of the propositions would infringe on that. The only regulation that should be in place is to ensure that the country is never run with a religious doctrine replacing the constitution. This is like trying to regulate how I should have my hair cut.	Gary	English	self-employed
2025-10-30 21:56:27	No I do not	Other		Yolandi	Afrikaans	unemployed individual

			My top concern is constitutionally based on the following: 1.) Violation of Freedom of Religion (Section 15): The Constitution guarantees every person the right to freedom of religion, belief, and opinion. State regulation of religion undermines this right by giving government power to interfere in spiritual, doctrinal, and organisational matters that should remain independent. 2.) Threat to Freedom of Association (Section 18): Religious communities have the right to form, govern, and maintain their own associations without state interference. Regulation risks restricting how faith communities organise and practise their beliefs. 3.) Erosion of Equality and Non-Discrimination (Section 9): Once the State begins to “regulate” religion, some beliefs may be favoured or recognised over others, violating the principle of equality before the law and opening the door to religious discrimination. 4.) Contradiction of a Democratic Society’s Pluralism: South Africa’s democracy is founded on diversity, tolerance, and respect for differing worldviews. Regulation of religion contradicts this pluralism by subjecting faith expression to state approval or oversight. 5.) Unnecessary State Overreach: Existing laws already address abuse, fraud, and misconduct within any organisation — religious or otherwise. Additional regulation of religion is not only redundant but a dangerous step toward state control of personal belief. I firmly oppose any attempt by the State to regulate religion. My faith and freedom of belief are protected by our Constitution, and no government has the right to interfere with the spiritual convictions of its people. South Africa’s strength lies in its diversity and respect for conscience — not in control or regulation of it. ???

2025-10-31 07:54:48	No I do not	Constitutionality	God cannot and must not be regulated. God and his Word has ultimate authority. Go read Psalm 1 and Psalm 2! Go read the warnings to kings and rulers. Serve the Lord with fear. And trembling. Any other way will lead to destruction, for His wrath can flare up in a monent. Humble yourselves before him. For the Lord watches over the way of the righteous but the way if the wicked leads to destruction! Have we not already seen how foolishness arrogance and rebellion destroyed and plundered abd devastatedvour country ? Have we not yet had enough of deception and looting and corruption. Have we not yet suffered enough from joblessness and failed pollicies? How much longer are we going to turn a blind eye and a deaf ear to the wonderful promises God makes for those who turn back from their wicked ways and delight instead on our Lord and Saviour Jesus Christ and in his Law as is written up in his Word, the Holy Bible? He is mighty and faithful to save! Stop mocking the Almighty, Everlasting Holy God , the Creater and Sustainer of the universe and the Giver of all our good gifts. He says to seek first his kingdom and his righteousness and all the rest will be added also. I pray that He will turn all of our hearts back to him, my fellow citizens, because ultimately He is going to have the final say over all of our lives. Come, lets honour Him instead of this foolish , godless idea of trying to regulate Him and His worshippers.	Amanda	English

			We are entitled to follow our prescribed religion of choice	vaughan		
2025-10-31 09:53:58	No I do not	Other	Faith is a very personal choice for every SA citizen, and unless that faith is causing lawlessness, chaos or injury to fellow South Africans, freedom of choice should be allowed!!!ALTERNATIVELY...if government wants to push a global new world order...this would most probably be part of the agenda. The public is awake and watching.	Jeanette	English	retired
2025-10-31 10:07:01	No I do not	Other	The government is getting too big for its boots on this one. This is a Christian country, ruled by God alone. The government is a representation of people, not God. Therefore, it ought to leave matters of God to the representation of God, which is the Church. Government is only one facet under the broader aspect of governance. Governance belongs to God, not government. God's governance comes at the hand of the Church. To subject the Church to State is to place the cart before the horse. The two are to work together. Government cannot dictate to the Church. And even if it tries to, it will fail. This is a wasted effort to grasp at control it will never keep, at the expense of the taxpayer, and at the delay of far more important matters in the nation.	Ross	English	self-employed

2025-10-31 10:14:33	Not fully	Other	My one suggestion is that a body/"ombudsman" is established to ensure "believers" are not hood winked/extorted out of their hard earned incomes/pension/savings as with previous foreigners who exploit the vulnerable to enrich themselves like Bushiri, still being allowed to run businesses in south africa. To regulate like china which has it's own "version" of the word of God(Jehova), to prescribe what you may or may not preach is unacceptable and invasion of free choice, choice of association. If the truth is preached, revealed according to the word, so be it! No human based restrictions, opinions, lies and selected application of the word to fit the worlds "acceptable" beliefs like LGBTQ+-, trans, etc.	Petrus	English	retired
2025-10-31 10:16:36	Yes I do	Necessity	The Devil worshippers will also have a claim to the right of worship without boundaries. I am afraid that sacrificing a life is part of their rituals and ceremonies, which is incongruent with right to human life and other living species. Secondly the lack of regulation is already costing some families livelihoods and unjustified financial sacrifices expected from congregants to the benefit of the head of the religious grouping. Thirdly religious organisations without documented fundamental beliefs are a serious red flag to Spiritual Welfare of any God fearing humans.	Bafana	English	retired

			Concerns – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. – Parliament rejected the CRL's proposal for legislation to implement a “Peer Review Committee” system of state regulation of religion. There is no valid or legal reason to revisit this matter.

			RESPONSE TO THE CRL RIGHTS COMMISSION PUSING FOR MECHANISMS TO VET, LICENCE AND REGULATE RELIGIOUS ORGANISATIONS AND LEADERS: As a Christian I believe, all citizens in SA should follow the authority of Government, as Government authority is constituted by the authority of God in line with 1 Peter 2: 13-14. With the exception, when Government is seeking to regulate something outside its authority in direct opposition to Christians obedience to God's authority over His Followers in accordance with His laws, instructions and Commandments in the Bible, which is the Word of God. Where in Acts 5:29 Apostle Peter reminds us: "We ought to obey God rather than men". It is therefore my God given SAfrican Constitutional right to freedom of religion. Without government interference, regulating the autonomy of Christians/ Churches in what and how to believe, teach, preach and live the Word of God.			
2025-10-31 21:23:48	No I do not	Other	I therefore, trust and pray that our Lord God will protect the freedom of religion in SA from governmental regulatory authority over Christians and their churches.	Elizabeth	Afrikaans	retired
2025-10-31 21:54:04	No I do not	Constitutionality	Regulation of religion is a slippery slope and against the Constitution. The Constitution already provides paths to convict criminal religious figures (pastors, rabbi, imam, etc.), since EVERYONE is equal before the law. The government must simply start applying the law that is already there.	Constant	English	employed individual

2025-11-02 08:58:51	No I do not	Constitutionality		Camilla		
2025-11-02 08:59:24	No I do not	Constitutionality	As a believer in God and follower of His Gospel, I do not agree with the regulation of religion. Our duty as people of faith is to preach the Word of God in truth and love — not according to government instruction, but according to Scripture and the guidance of the Holy Spirit. The state should protect the right to believe, not control what is believed or preached. While I understand the need to prevent abuse and misuse of religion, this must be done without interfering with genuine faith practices. I believe the best way forward is through cooperation, where faith communities uphold accountability and integrity among themselves, while the government focuses on enforcing existing laws against exploitation or fraud. Regulation of religion risks silencing sincere ministries and believers who simply want to serve God and their communities. My humble request is that the freedom to worship and preach the Gospel be protected, as it is a sacred right given by God and affirmed in our Constitution.	Deirdre	English

2025-11-02 17:40:45	No I do not	Other	I firmly oppose the proposed legislation to regulate religious organisations and leaders. This Bill threatens South Africa's constitutional right to freedom of religion, conscience, and association by giving the State authority over matters that belong to God alone. Though presented as administrative oversight, the Bill effectively elevates the State above the Church. It seeks to determine who may lead and what may be taught — placing government in the position of defining doctrine. History shows that when the State controls religion, as seen in communist and totalitarian systems, the result is moral collapse, persecution, and the silencing of truth. The Bill does not openly forbid faith, but it prescribes the conditions under which it may exist. Its true purpose appears to suppress the independence of the true Church — the one that speaks truth and calls the nation to righteousness. The Church has always been the moral conscience of society. To subjugate it to political control is to weaken the moral foundation of the nation itself. The role of government is to protect religious freedom, not to restrict or redefine it. We therefore call on the government to withdraw this legislation and uphold the right of every person and community to worship freely. No government stands above God. Christ is the head of the Church — not the State.	Jan	Afrikaans	employed individual

2025-11-03 11:05:08	No I do not	Constitutionality	– Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. Freedom of thought, religion and beliefs cannot be regulated. This would be in direct conflict with the constitutional rights.	Deidre	English	self-employed

			It has been proven throughout history that the moment state and church overlaps or combines, the biggest atrocities against people are committed. The Spanish Inquisition comes to mind and is known as being the most notorious of these. Furthermore, while the state currently can't even arrest and prosecute existing criminals, how do they propose to prosecute these so-called "religious" criminals? Start arresting, prosecuting and punishing the criminals currently employed by the SAPS, SANDF, Public Servants, politicians, MPs, Ministers and Director Generals of all government departments. Once those areas are cleaned up, you might find that the few "criminals" left in the religious communities are totally insignificant. Then there is the tendency of this government of "parenting" the population of SA. If the government believes that the adults / voters in this country need to be protected against their own stupidity by implementing a plethora of idiotic laws, they should rather reconsider the quality and standard of education in this country in stead of thinking up the more ridiculous laws to protect people against themselves. Finally, the typical approach of the evil minded is to always target the one and only religion that consistently promotes, prescribes and propagates love, forgiveness and respect towards fellow humans, Christianity.

2025-11-03 11:54:24	No I do not	Constitutionality	Suid- Afrika se Grondwet waarborg vryheid van geloof. Hoekom sal die staat nou hulself wil behep met beperkinge en vereistes ten opsigte van wie en hoe individue hul geloof en oortuigings wil uitleef. Indien 'n individu en/of groep hom/hulself wil uitleef in hul oortuiging is dit nie vir die staat om te wil inmeng en voorwaardes of vereistes te stel nie. Menigte draers van die Woord het nie formele kwalifikasies nie maar het deur selfstudie en lewenservaring hulself geroepe gevoel om die Woord te verkondig. Daar is menigte voorbeelde in die geskiedenis van dit. Hoekom begin die staat nie eers voor hul eie voordeur vee met hul kader aanstellings en minimum vereistes stel van bekwame aanstellings nie. Wie by die staat gaan byvoorbeeld bepaal of iemand "gekwalfiseerd" genoeg is om 'n spesifieke groep te vorm of om die Woord aan vrywillige meedoeners te lewer. Net so kan ek dan sê ek glo nie om tot my "voorvaders" te bid nie en dit as ongewens te kwalifiseer. Verwys die polemieë in Kwa-Zulu Natal waar die Rooms Katolieke Kerk laasgenoemde praktyk as ongewens verklaar het en die hewige reaksie wat gevolg het. Laat elkeen sy eie "destiny" bepaal. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities	Julian

2025-11-03 19:04:47	No I do not	Constitutionality	A Christian Declaration Against Government Regulation of the Church I, as a South African Christian, firmly reject the CRL Rights Commission's proposal to regulate religion. This proposal violates the constitutional rights to freedom of religion (Section 15), association (Section 18), and self-governance (Section 31). More importantly, it is a direct challenge to the biblical truth that Christ alone is the Head of the Church. Our Core Objections: - It Replaces Christ's Authority with the Government's: The Church is founded by Jesus Christ, who declared, "I will build my church" (Matthew 16:18). Ministry is a divine calling, not a profession for the government to license. We obey God rather than human decrees (Acts 5:29). - It Violates Constitutional Freedoms: The proposal exceeds the CRL's mandate. Parliament has already rejected this overreach, and there is no justification for reviving it. - It Undermines the Church's Prophetic Voice: Making the church subject to government control would compromise its mission and turn it into a state department, silencing its duty to preach the Gospel. The Church is accountable to God and governed by His Word. We cannot and will not accept a system where the government seeks to stand in the place of Christ as the head of His body. 2025-11-04 09:14:41	No I do not	Other	Jesus is the ultimate head of the church, and believers should be free from external control in spiritual matters. Matthew 22:21 ("Give to Caesar what is Caesar's, and to God what is God's"), Matthew 20:25-28, and Romans 13:1, which together point to a distinction between the authority of the state and the spiritual authority of God, which is supreme over the church. Christ is the head of the church: The New Testament clearly states that Christ is the head of the church and its supreme authority, not any earthly government or leader. Church autonomy: The Bible suggests that local churches are to be self-governing, free from external control or interference from secular authorities. Civil vs. spiritual matters: The Bible draws a clear distinction between the government's role and the church's role. Government's role: To punish evil and reward good. Church's role: To govern itself according to spiritual principles, with Christ as its head.	Karen	English	employed individual

Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities	Lorraine	English

2025-11-05 07:09:53	No I do not	Constitutionality	The State's proposal to vet and license religious organisations and leaders threatens South Africa's constitutional guarantees of religious freedom. Section 15 protects the right to freely practise religion, and Section 31 affirms the right of religious communities to govern their own affairs. Any move to require State approval for churches or ministers directly interferes with these rights, undermines the independence of faith communities, and places the power to decide who may minister and what constitutes legitimate doctrine in the hands of government rather than the faith community itself. This sets a dangerous precedent where the State may ultimately determine acceptable beliefs, teaching, and religious qualifications — a clear violation of spiritual autonomy and a fundamental intrusion into constitutionally protected freedoms.	Ken	English	self-employed
2025-11-05 07:26:49	No I do not	Constitutionality	Religion is the corner stone of many societies. Most religions instil morals that express higher values than the laws enforced by government. This law opens the doors for government to control religion to comply with the doctrine of a select few government officials. It seems we are slowly turning into a dictatorship country. The honest people of the country are once again targeted while criminal organisations and gangs are free to indoctrinate their members without a license. No doubt the licenses will not be for free. It's just another ploy by the government to separate hard earned income from the good citizens of this country because they are incapable of building a thriving, sustainable economy.	Neville	English	employed individual
2025-11-05 09:04:24	No I do not	Necessity	The CRL Commission once again attempts to impose state control over religion, striking at the very heart of freedom of religion, cultural identity, community autonomy and represents a direct assault on the SA Constitution. Firstly, the CAPEXIT Party believes it to be UNNECESSARY. There is no legal vacuum that requires new religious regulation. SA already has strong laws that deal with abuse, fraud, exploitation, and all other criminal activities - including Criminal Law, Sexual Offences and Related Matters Act and the Children's Act. The issue is not a lack of law, but a failure of governance and enforcement. Religious freedom has never been a shield for criminality. When individuals commit crimes under the guise of religion, they are already liable under existing laws. To restrict the entire faith sector is authoritarian overreach. Furthermore, it is unconstitutional, a threat to regional autonomy and an attempted centralised power grab by the national government. The CAPEXIT Party has long warned that central government seeks to control every aspect of life, including culture and faith. This latest attempt confirms that the national regime does not trust its citizens to govern themselves. Religious liberty, like political and cultural liberty, must be protected at the local level, free from bureaucratic intrusion and ideological control. We demand that Parliament and the CRL Commission: * Withdraw all proposals to license or regulate faith communities. * Affirm the constitutional guarantee of freedom of religion, belief, and association. * Respect the autonomy of religious groups to self-regulate according to their own beliefs. * End the pattern of state overreach that treats citizens as subjects instead of free people	Jack	English	business owner

2025-11-05 10:21:10	No I do not	Constitutionality	The government has no business dictating religious activities, freedoms, constiutions, etc. We are not a communist state, nor will we ever be. Besides which, many religious institutions are providing help, jobs, intervention, meeting felt needs, etc. - much of which the government (ruling party) is responsible for and already isn't seeing to. It would not be a smart move to limit/disable private contributions from the "religious sector" that are so vitally needed right now - especially for the poor and needy!	Colleen		
2025-11-05 10:25:56	No I do not	Other	What God wants to do in a country and how He wants to work can never be controlled by any Government. Already they want to control how you discipline your children and that is not according to the Word of God. How do they even think of controlling the body of Christ, which God is the head. The Government won't ever be in charge of the God's workings. It is upsetting.	Marietjie	Afrikaans	retired

			South Africa’s Church at Risk of State Control Policing Religion In July 2025, South Africa’s National Security Strategy (2024–2028) identified Christian churches — including charismatic and independent ministries — as potential national security risks, citing a 2017 CRL Rights Commission report. This is deeply concerning. Churches have long been pillars of moral guidance, social cohesion, and community support. Labeling them as threats shifts the State’s role from protecting religious freedom to monitoring and regulating belief. The danger is clear: churches that challenge government policy or speak against corruption could be labeled “radical” or destabilizing. Oversight can quickly become ideological control, violating freedoms guaranteed by the Constitution. Charismatic and independent churches are particularly targeted because they are decentralized, socially influential, and politically independent — qualities that make them spiritually strong but politically inconvenient. Once faith communities are framed as “security threats,” the government sets a precedent for filtering which voices are acceptable, edging toward censorship and authoritarian control. Oversight is justified where crimes occur — fraud, abuse, or exploitation — but it should never be broad, pre-emptive, or framed as a threat to national security. Regulating crimes protects citizens. Regulating conscience controls them.			
2025-11-05 10:30:14	No I do not	Constitutionality	By labeling churches as potential threats, the State risks policing faith itself, undermining both religious freedom and the moral foundation of society.	Sean	English	self-employed

2025-11-06 08:18:37	No I do not	Constitutionality	This proposal is very Muslim oriented where they have Religious Police going around checking on people. In Christianity we are not under the law but live in a relationship with Christ. We don't need to be regulated. This committee has a global agenda of oppression rather than freedom.		Ellen	English	retired
2025-11-06 08:21:08	No I do not	Constitutionality	I serve the only God Trinity, not the government. The bible is the only doctrine that cannot be dictated by government or tailored to fit their worldly mindset.		Michael		
2025-11-06 08:32:42	No I do not	Other	The government or any other secular authority should have no right to interfere in matters of faith, and believing communities. It is ordained from God above.		Stephen	English	employed individual
2025-11-06 08:39:46	No I do not	Constitutionality			Jean	English	retired

2025-11-06 08:39:53	No I do not	Constitutionality	Just legislate against abuses with less loopholes while religions self regulate, because it is unconstitutional for the state to get involved in who can be part of a religion or lead it. This is definitely overreach of the state and will get nothing but resistance from all parties involved in any religion. Religion should be regulating the state ensuring morality and ethics is upheld in the state, not the other way around. This is just another step towards changing our society more towards being totalitarian instead of democratic, which is not how we want things to work in this country. Why would we want more of our freedoms regulated, that is just insane. Why would the state also want to try and mess with something that will make people of any faith get very emotional or angry towards the state, creating an environment of hostility towards the state. I think this is a massive mistake to even consider as all it will do is alienate the people against the state. Freedom of religion is a fundamental right. If there are abuses then tighten up on existing legislation instead of creating an additional unwanted overhead.	Diaan	English	employed individual
2025-11-06 08:50:00	No I do not	Constitutionality	You have no right to do this thing. Stop it. It's not going to work out.	Zarin	English	retired
2025-11-06 08:50:00	Not fully	Constitutionality	Ek dien die enigste God Drie-eenheid, nie die regering nie. Die Bybel is die enigste leerstelling wat nie deur die regering voorgeskryf of aangepas kan word om by hul wêreldse denkwyse te pas nie.	Vernon	Afrikaans	unemployed individual
2025-11-06 08:57:39	No I do not	Constitutionality	Dit is elke persoon se reg om in God te glo of nie teglo nie. Dit is nie `n regerings instelling nie.	David	Afrikaans	retired
2025-11-06 09:01:50	No I do not	Constitutionality	Dit is totaal onaanvaarbaar. Sodra ons die kerk van die Ware God onder regeringsmag wil stel sal ons as n nasie n duur prys betaal.	Hester	Afrikaans	self-employed
			This bill is intending to control the religions and directly undermines our freedom of religion enshrined in the Constituion. If the intent of this bill is regulate criminal acts which are carried out in religious settings, this is not the way to carry that out. Criminal acts carried out within religious settings or in the name of religious practice should and can be dealt with through the justice system and do not require additional mechanisms of control to bring criminals to book. Centralised control is not democracy but communism. The is clearly a case of State overreach and if this bill is signed, the State is set up to start controlling not only freedom of religion but freedom of speech. This is not the role of the State. The State's role is not to control and regulate all aspects of society, but to create a stable and secure environment which is conducive to social stability and economic growth. A bill such as this will not accomplish that but create another ideal platform for corruption and abuse through policing mechanisms. The policing of such a bill would also require additional resourcing, which again is likely to lead to unnecessary spend, placing further strain on the fiscus and leading to unwelcomed probing by inspecting officials of faith gatherings and their administration. The further implications are that prosecutions against various faith institutions are likely to arise, thereby adding an unnecessary burden to the justice system and costing said faith-based institutions legal fees.			
2025-11-06 10:04:53	No I do not	Constitutionality	This bill is completely unacceptable and goes against our constiutional right of freedom of religion and freedom of speech.	Sholto	English	employed individual

2025-11-06 13:42:49	No I do not	Constitutionality	It's not ethical for a government built on Christian standard that prides themselves on the involvement of all religions in this "rainbow nation", to effectively say they control religion in Aouth Africa.	Josh		
2025-11-06 13:44:28	No I do not	Other	My concern is that this will eventually lead to persecution of Christians as we are seeing in other nations. It will be overreach and be unconstitutional and go against the freedom for people to practice their religion without the threat of penalty or persecution. Isn't this what so many bled for already? It feels as if we are on the path to go from a "democratic" republic to a totalitarian dictatorship. What's next and where do we as a people draw the line.	Sean	English	business owner
2025-11-06 13:47:36	Yes I do	Other	I find it disturbing that the mere mention of regulation for religious organisations has prompted such fierce backlash from many faith based groups. The CRL proposal hasn't even been finalised or refined yet many faith based groups are already condemning it. In a country where religious abuse runs rampant, how can one be so quick to dismiss a regulatory proposal whose contents are entirely unknown to you? The reality is that religious organisations have enjoyed exemption from ethical norms for far too long and it's about time some form of regulation took shape. We will have to wait until the particulars of the proposal are elucidated before commenting on the specifics of the proposal. Until then, I find it reasonable to support the general idea of introducing regulations for religious organisations and faith based groups. Freedom of religion should not allow abuse, coercion, or the dissemination of misinformation. We cannot have a society in which the notion of freedom of religion is used as a crude justification for cruel and unusual treatment of any person, nor can we allow religion to be used to justify hateful, bigoted or discriminatory practices and the spreading of anti-scientific misinformation.	Levi	English	
2025-11-06 13:54:47	No I do not	Other		Sharon	English	retired
2025-11-06 14:18:55	No I do not	Constitutionality	People must be free to believe, worship, or reject religion without interference. Heavy regulation risks authoritarian control or persecution. Once the state starts regulating belief or doctrine, it often ends up favouring one worldview—religious or secular—over another. Religion often carries cultural and moral traditions; excessive control can erode heritage and personal identity. Governments can misuse “regulation” to suppress dissent or unpopular beliefs under the pretext of maintaining order. In addition, I dont trust this government.	Johan	English	employed individual

			Constitutional and Faith-Based Concerns			
			Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles.			
			Practical and Theological Concerns			
			Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated.			
			Alternative Approaches			
			Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities			
2025-11-06 18:08:41	No I do not	Constitutionality	It is morally wrong !! It is against our religious freedom! Our country was founded on Christianity and now our government wants to follow the "wokeness" like the rest of the world !! Not that they are christians anyway. IT IS SICK AND EVIL !!	NICHOLAS	English	business owner

2025-11-06 18:23:16	No I do not	Constitutionality		Inge		employed individual
			Grondwetlike en geloofsgebaseerde bekommernisse			
			Skending van Godsdiensvryheid: Die voorgestelde wetgewing skend die grondwetlike reg op vryheid van godsdien, oortuiging en mening. Vir Christene sluit dit die reg in om te preek, te onderrig en gemeentes te lei volgens Bybelse oortuigings sonder staatsinmenging. Bedreiging vir Geestelike Outonomie: Die regulasie word beskou as 'n poging om die interne bestuur van kerke te beheer, wat hul Godgegewe gesag om leiers aan te stel en geestelike sake te bestuur, ondermyn. Inmenging met Vryheid van Assosiasie: Christelike gemeenskappe moet vry wees om te vergader, te aanbid en bedieninge te organiseer sonder staats toesig, in ooreenstemming met Skriftuurlike beginsels.			
			Praktiese en Teologiese Bekommernisse			
			Onnodige Regulering: Bestaande wette spreek reeds kriminele wangedrag aan. Bykomende regulering loop die risiko om die breër Christelike gemeenskap vir geïsoleerde misbruik te straf. Risiko van Staatsbeheer: Lisensiering van godsdienstige leiers kan lei tot regeringsinvloed oor kerklike leerstellings en leierskap, wat die kerk se profetiese stem en onafhanklikheid in gevaar stel. Misverstand van Goddelike Roeping: Die konsep van die lisensiering van geestelike leiers erken nie dat Christelike bediening 'n goddelike roeping is nie, nie 'n beroep nie. Figure soos Jesus en die apostels sou nie onder sulke kriteria gekwalifiseer het nie. Gebrek aan wettige steun: Vorige voorstelle is deur die Parlement verwerp, en bewerings van steun van Christelike denominasies is nie gestaaf nie.			
			Alternatiewe benaderings			
			Selfregulering deur Kerke: Christelike denominasies en onafhanklike kerke het reeds bestuursstrukture, gedragskodes en verantwoordingsmeganismes wat in die Skrif en tradisie gewortel is. Afdwinging van Bestaande Wette: Die fokus moet wees op die toepassing van huidige wette om oortredings te vervolg, eerder as om algemene regulering op alle Christelike leiers en gemeenskappe af te dwing.

			Formal Submission: Opposition to the Regulation and Licensing of Religious Organisations I wish to place on record my firm opposition to the renewed efforts by the Commission for the Promotion and Protection of the Rights of Cultural, Religious and Linguistic Communities (CRL Rights Commission) to vet, license, and regulate religious organisations and their leaders. This proposal poses a direct threat to the constitutional rights and spiritual autonomy of faith communities in South Africa. Constitutional Considerations The Constitution of the Republic of South Africa guarantees: Section 15: Freedom of conscience, religion, thought, belief, and opinion. Section 18: Freedom of association. Section 31: Freedom of religious communities to gather, practise their faith, and govern their internal affairs. Any attempt by the state or a state institution to regulate religious belief, practice, ordination, or governance infringes on these rights and exceeds the CRL's constitutional mandate. Substantive Concerns Violation of Religious Autonomy: Faith is a divine calling, not a profession. Licensing undermines its spiritual nature. Lack of Constitutional Authority: The CRL has no legal mandate to regulate doctrine, ordination, or worship. Risk of State Control: Oversight of religion opens the door to political interference and loss of independence. Existing Self-Regulation: Faith communities already have internal accountability systems. Previous Parliamentary Rejection: Parliament has already rejected a similar “Peer Review Committee” proposal. Conclusion The CRL's proposal is unconstitutional, unnecessary, and contrary to the principles of a free and democratic society. I strongly urge Parliament to reaffirm its previous position and reject any attempt to regulate or license religious organisations or leaders. Protecting the autonomy of religious communities is essential to safeguarding the constitutional freedoms of all South Africans.

			Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities

2025-11-08 14:23:09	No I do not	Constitutionality	I, Wilma Grobler, hereby affirm — in full exercise of my constitutional rights to freedom of religion, belief, and opinion — that the CRL Rights Commission has no rightful, legal, or constitutional authority to regulate religion or matters of faith in South Africa. Faith is a divine calling, not a profession to be licensed or controlled by the state. Matters of worship, doctrine, and ordination fall solely within the spiritual and moral autonomy of individuals and faith communities. Any attempt by the state or the CRL to interfere in these sacred domains would violate the very essence of South Africa’s constitutional commitment to religious freedom and diversity.	Wilma	English	retired

2025-11-09 09:32:36	No I do not	Constitutionality	Existing laws are sufficient to resolve any abuse of power by religious bodies. The state should have minimal to no right to meddle in such personal affairs. State capture of the church undermines the very essence of faith and freedom. When the state controls the pulpit, it silences moral conscience, disregarding divine guidance. The church's role is to speak truth to power, not to serve it. A captured church cannot defend justice, protect the poor, or challenge corruption—it becomes an instrument of oppression rather than a beacon of hope. True faith flourishes only when the church remains independent, accountable to the people and to God.	Nathan	English	employed individual
2025-11-09 09:33:03	No I do not	Necessity	The Government shouldn't have any power over the church; ever.	Aaron	English

2025-11-09 12:20:15	No I do not	Other	People should have the right to practice any religion they would like to and to fall under the leadership of whatever pastor they choose to The state has no right to interfere in what the Lord wants to do through people in the field of ministry as this goes against the law and right and freedom of religion.	Natasha	English	student
2025-11-09 12:20:43	No I do not	Constitutionality	Violates Section 15: freedom of religion and conscience. Violates Section 18: freedom of association (including the right not to join a state-approved body). Violates Section 31: right of religious communities to self-govern. Forces religious leaders into state-controlled “Umbrella” structures.	Martelle	Afrikaans	employed individual

2025-11-09 12:21:14	No I do not	Constitutionality	I'm concerned that the CRL Commission's proposed powers place our freedom of religion at risk. Their plan gives the state too much control over how churches operate, choose leaders, handle finances, and run services. South Africa already has laws to deal with fraud and abuse, so extra regulation is unnecessary and creates more bureaucracy—especially hurting small churches. Religion is diverse, and a government body cannot fairly regulate all faiths without risking political influence or unfair interference. A better solution is self-regulation through church networks, denominational oversight, and internal accountability, rather than state control.	EE	Afrikaans	self-employed
2025-11-09 12:25:55	No I do not	Constitutionality		Daphne	English	retired

2025-11-09 12:28:00	No I do not	Constitutionality	Freedom of religion is of paramount importance because it protects the individual's right to believe, worship, or not worship according to their own conscience — a core aspect of human dignity and liberty. When people are free to follow their faith without fear, societies become more peaceful, diverse, and respectful of differences. Allowing the government to regulate religion opens the door to oppression, discrimination, and the misuse of power, as history has often shown. True freedom can only exist when faith is a matter of personal conviction, not political control.	Candice	English	employed individual

2025-11-09 13:52:50	No I do not	Constitutionality	I strongly oppose any attempt by the state to regulate religion. South Africa's Constitution guarantees freedom of belief, conscience, and association—values that safeguard our democracy and protect diversity of thought. Allowing the government to determine what citizens may believe or how they may worship sets a dangerous precedent reminiscent of the apartheid era, when state power dictated personal conviction. Faith is a matter of individual conscience, not state control, and any law undermining this freedom threatens the very foundation of our constitutional rights.	Albertus Bernardus	English	self-employed

2025-11-09 14:33:47	No I do not	Constitutionality	This is totally against the constitution. Freedom of religion is every persons constitutional right as well as a right to religious freedom in South Africa. I do not tell you not to worship your forefathers, si do not tell me I can not or may not worship the god/God of my choice and where or through which body/bodies I can/can not perform my worship. Trying to control religion is the worst step any government can implement and it is one of the ways that shows a government wants total contril over the population. This step has not been agreed to in the constitution and will be fought against.	Nicolaas	Afrikaans	retired

2025-11-09 15:12:56	No I do not	Workability	I find it shocking that the government would even dare to inerfere with religious fredom. If this law is passed we would no longer be able to call SA a democracy. It would be a communist state. Not to mention it would weaken our all ready strained ties with America. How dare they use their power that God has given them to restrict God's people from worshiping THE ONE AND ONLY TRUE GOD? Who do they think they are? Satan is watching and hoping that the government will accept this proposal. DO NOT PASS THIS BILL! DO NOT PASS THIS BILL! DO NOT PASS THIS BILL! DO NOT PASS THIS BILL! DO NOT PASS THIS BILL! DO NOT PASS THIS BILL!	Larry		student
2025-11-09 15:13:38	No I do not	Constitutionality		Angie	Afrikaans	employed individual
2025-11-09 15:14:06	No I do not	Constitutionality	I reject the CRL Rights Commission's proposal to vet and license religious organizations and leaders, viewing it as a fundamental threat to religious freedom and constitutional rights. The primary danger is the state capture of beliefs. Allowing a government body to license faith effectively grants it the power to define which beliefs or communities are "legitimate." This directly violates the necessary separation of church and state. Licensing would compromise spiritual autonomy by substituting state approval for internal processes like selecting leaders, creating a chilling effect on religious expression. Moreover, the claim that this is needed to curb abuse is misleading. All criminal conduct (including fraud and assault) committed by anyone, including religious figures, is already prosecutable under the general laws of the land. Targeting religious groups with a specific, intrusive licensing scheme is disproportionate and unnecessary. We call on Parliament to uphold the Constitution and reject all attempts to license or regulate faith.	Alfred	English	employed individual

2025-11-09 16:56:28	No I do not	Constitutionality	I disagree with the regulation of religion by the Government. Firstly I don't think that it is constitutional. It's not necessary to add new laws, beyond the current laws. What they propose is risky, because I don't know where it will lead. I want freedom to choose what I believe. I don't want Government to dictate to me who, how or what I believe in or how I practice that faith. It could lead to them wanting to change what the Word of God says. It could lead to me not being allowed to share my faith, etc..... I'm 100% against this bill.	Joy		
2025-11-09 16:58:44	No I do not	Other	Nobody should have the right to decided or dedictate others freedom of religion, not even government.	Teresa	English	employed individual

2025-11-09 20:10:00	No I do not	Constitutionality	We live in a Christian country, based on sound Christian believes, sound BIBLE BASED teachings and see ABSOLUTELY NO REASON WHY WE SHOULD BE POLICED when it comes to Church, our chosen Pastors etc.	Jeanette	English	retired
2025-11-09 20:10:03	No I do not	Constitutionality	There are many other regulations that are already in place to regulate against manipulation or abuse inside the church as well as laws written in the Bible. This will also against our human rights to freedom of religion.	Janine	English	self-employed

			I want to urge all of JoshGen to sign the petition. The more signatures the greater the impact. Parliament will be compelled to take note of the nature of the opposition. If they choose to ignore the signatures any attempt to get the bill passed will amount to an irrational administrative action which will be set aside by the High Court on review.[shorter route]. In addition, we need to muster enough support for an application to have the bill [as a whole] declared unconstitutional,[the bill will be a deliberate infringement of our Chapter 2 rights contained in the Constitution, which includes, inter alia, our rights to freedom of association freedom of speech and religious freedom]. The CRL Rights Commission is totally out of their depth for want of any legal authority to take this stand. I would urge that they disclose the basis[real/actual/factual] for this deliberate step in an attempt to deprive South Africans of their Constitutional right re freedom of association/ freedom of speech / freedom of religious freedom.

2025-11-09 20:41:13	No I do not	Constitutionality	I vehemently oppose this amendment because "legislated self-regulation" is state control of religion disguised in comforting language. When Parliament writes laws, government enforces them, and courts adjudicate them, we are dealing with state machinery, period. No euphemism changes this reality. Religious freedom protects even beliefs the Constitutional Court calls "bizarre, irrational or illogical" because faith spans infinite theological perspectives that cannot be regulated like medicine or law. Unlike professions with standardized knowledge, religion encompasses diverse spiritual traditions that defy uniformity. The moment government determines acceptable religious practice, religious liberty dies. We already have comprehensive laws against fraud, assault, abuse, and financial crimes that apply to everyone equally. If religious leaders commit crimes, prosecute them under existing law with their position of trust as an aggravating factor. We don't need new religious regulations; we need political will to enforce current laws. The religious sector already demonstrates accountability through the voluntary South African Charter of Religious Rights and Freedoms, which the CRL Commission itself signed, making this legislative push a betrayal. This sets a catastrophic precedent beyond religion. If we regulate constitutional rights for "safety," the same logic will destroy freedom of expression, assembly, and association. South Africa's constitutional democracy has been a global beacon. Abandoning religious freedom now tells authoritarian governments worldwide that even strong constitutional protections can be undermined when convenient. The path is clear: reject this amendment completely. Strengthen law enforcement. Support voluntary accountability. Legislative control of religion is tyranny, not democracy. Our constitution and our children's freedom depend on defeating this assault on liberty masquerading as protection.	Jacob Rudolph

2025-11-09 20:50:58	No I do not	Necessity	Religious freedom will be influenced tremendously and there is already enough laws in place to properly deal with spiritual misuses	Henre		
2025-11-09 20:51:04	No I do not	Constitutionality	My main concern is that the government could use this legislation to enforce state control like the Chinese government does. Having the government control what can be taught and how religious institutions operate will completely undermine the freedom of religion laid out by the constitution, and the government could also use this control for their own gain and to further their own agendas, influence elections, and spread propaganda. The justification of this legislation - cases of abuse by religious institutions - is grabbing at straws at best, and happens in such small proportions to warrant a restriction of the entire religious population of the country. Those cases of legitimate abuse should be dealt with by law enforcement and the judicial system.	Matthew	English	student

2025-11-10 07:12:48	No I do not	Necessity	I've been in church my whole life... I've seen people healed , miracles happened , peoples lives changed from the streets to having families and living for God. I've witnessed time after time how the Gospel of Jesus Christ UNCHANGED from what he preached in the bible has become the source of salvation for thousands of people. If you choose to manipulate that and twist it- not only will those great things stop happening but you begin to play God , and that's a very dangerous thing to do. My life was changed when I was 16 and heard the Gospel - if it wasn't preached from the bible it wouldn't have been the same truth that set me free., that set others free and the truth that's been setting people free for thousands of years. Please do not do this you will ruin Christianity , ruin our churches and ruin opportunities of people being set free from oppression, addiction, shame, suicide etc. If you want to serve our country, respect the bible , respect Christianity and let us do what God has instructed us to do for many years. 2025-11-10 07:15:07	No I do not	Constitutionality	This bill go against the freedom of religion as constituted by the South	Jakkie	Afrikaans	self-employed
2025-11-10 07:18:54	No I do not	Constitutionality	Government needs to ultimately be a body voted into office by the people and for the people. When we voted in Mandela and the ANC in 1994 the consitution was as clear as it is today - all citizens have equal rights. Equal right to self expression and freedom of speech are only some of the wonderful freedoms we enjoy in our country. Government will effectively fail the people if they decide to do this as there are many religions in our country. I velieve that since persons of influence and power are one religion over another like Naledi Pandor being a Islamist who believes in Jihad this is effectively a conflict of interest as agendas can be pushed from powers and the people can do nothing about it - even those who did not vote for those in power making the decisions. I believe the evidence of the conflict of interest exists in that fact regarding government leaders and the ICJ case against Israel. I am a Christian and I do not mind a friend being Islamic in faith. However the rights of Christians could also be affected by this to the detriment of our freedoms allotted to us by our constitution. Government should not be allowed to perform this as this signals the dawn of an Islamic South Africa instead of a free South Africa. I do not accept Islamist rule and refuse for my religion or any other religion to be regulated by the state. The state is incapable of fairly governing anything they receive powers of (as has been proven by state owned enterprise time and time again)	Charl		employed individual
2025-11-10 07:20:06	No I do not	Constitutionality	Religious freedom should be maintained without stat intervention. The state or government has no authority over God and His appointments.	Clive	English	employed individual
2025-11-10 07:20:49	No I do not	Other	Every person has the right to seek truth and live according to what they believe is right. Freedom of religion ensures no one is forced to act against their conscience or faith.	Marojean	English	employed individual
2025-11-10 07:20:54	No I do not	Constitutionality	The freedom of serving and how you serve, who you serve should not under any circumstances be controlled by any human. Religious freedom is our constitutional right.	Debbie	English	unemployed individual

2025-11-10 07:35:04	No I do not	Constitutionality	There are enough regulations to combat unacceptable behaviour in church, don't want the government as authority in church, that will be dangerous.	Wian		
2025-11-10 07:37:08	No I do not	Workability	Religion is such a wide ranging concept that it will be impossible to conclude from a religions point of view what is right and wrong. You can't find an external body to determine what is right for an internal group. If the goal is to protect an individual then laws that focus on the the individual are required, which already exist. There is no need to focus on the group which can do more harm than good. Taking lessen from the past, you can't judge the law but the group that will implement it today, you have to judge the law by the potential group that will implement it tomorrow, who you don't know.	Anton	English	retired

2025-11-10 09:22:26	No I do not	Constitutionality	Individuals have the constitutional rights to freedom of expression (Section 16) and freedom of religion (Section 15). It's these freedoms that make South Africa great and encourage diversity (which has many social and economic benefits). Allowing the state to regulate religion infringes upon these basic constitutional rights of every individual - rights that were faught for and that are admired globally. I believe it would be a grave mistake to allow the state involvement in such personal matters of individuals' lives. How each chooses to frame their world view and live is at it's core, possibly the deepest freedom we have. By enabling state involvement, we take that choice away from millions and as a secondary, open the door for much social and political instability.	Kyle	English	employed individual
2025-11-10 09:22:57	No I do not	Constitutionality	I believe that as an individual I have the right to express my relationship with God without state interference	Susan	Afrikaans	retired
2025-11-10 09:27:21	No I do not	Constitutionality	Stop criminalising normal citizens whilst protecting criminals our our state institutions. Freedom of religion is enshrined in our constitution for a reason. We reject your tyranny.	Riaan	Afrikaans	business owner
2025-11-10 09:27:31	No I do not	Constitutionality	Religion is everyone's right and is a freedom that must be enjoyed. Adding licenses to it sounds more like just another money making scheme from the government and doesn't benefit the community in any sense. Religion doesn't come with a monetary value. By trying to push this just shows how corrupt the government has gotten. Repent and realign your values.	Andre	Afrikaans	employed individual

2025-11-10 09:34:01	No I do not	Constitutionality	This violates the constitutional right to freedom of religion, belief, and opinion (Section 15 of the South African Constitution). The Church's mission, doctrine, and governance are determined by God's word and spiritual conviction — not by state regulation. Human authorities (including governments or commissions) may protect civil rights and public safety, but they cannot assume spiritual authority over matters of faith. The Church is accountable to God, who alone judges its faithfulness, integrity, and stewardship. Religious freedom is not only a legal right, but a sacred principle — because the relationship between God and believers must remain free from coercion or external control.	Raynier	English	employed individual

2025-11-10 09:40:08	No I do not	Constitutionality	I do not support this intended action against Christian churches at all. There are sufficient legal guards against excesses of unlawful behavior, and this is nothing but a blatant attempt to shut down churches and silence Christians - anti the Lord God Almighty, our Creator. It is rebellion against Him, and I will not align myself with this proposed legislation.	Bruce Ben Coetzee	English	self-employed
2025-11-10 09:40:39	No I do not	Constitutionality			Afrikaans	retired
			I oppose the CRL Rights Commission's proposal to license and regulate religious organisations and leaders. While abuse and wrongdoing must be addressed, placing churches under state control is not the answer. Our Constitution protects the freedom of religious communities to govern their own beliefs, leadership, and practices without government interference.			
			Christian faith leadership is based on calling, character, and spiritual responsibility—not state approval. If the government gains power to decide who may preach or lead, it risks becoming an authority over doctrine, faith practice, and conscience. This threatens the independence of the Church and opens the door to political or ideological influence.			
2025-11-10 09:41:00	No I do not	Constitutionality	Existing laws already allow authorities to prosecute fraud, exploitation, or harm. These laws should be enforced, not replaced with state control of religion. Religious freedom must remain protected.	Richard	English	Non-profit

2025-11-10 10:36:28	No I do not	Constitutionality	This is absolutely unconstitutional. Freedom of religion is of utmost importance for a free country. We cannot vouch for the sentiments of future governments that could use this as a law to totally destroy people’s faith.	Trevor	English	Non-profit
2025-11-10 10:36:40	No I do not	Constitutionality	The state must keep their hands off of our religious institutions, as it is our right to be involved in a community of our choice, and to choose our own leadership. State regulation will limit freedom, and interfere with our ability to function appropriately. The state is a bureaucracy. Existing legislation is sufficient for the state to deal with corruption, theft, fraud, and civil matters. The state must first uphold the constitution. We will not be controlled.	Ernest	English	employed individual
2025-11-10 10:37:53	No I do not	Constitutionality	Government should not be able to regulate religion. But should investigate those institutions that have no governing body within their religion that deal with irregularities and criminal activities. There are those institutions who out of greed or alternative motives (money laundering, terrorism) exploit or manipulate followers. However, those religious organisations that function as true & honest ones with the community’s interests at heart can be audited or FICA’d but not have government interfere with how they run their religious organisations especially if there is no indication of any wrong doing. Criminal activities within religious organisations, should these take place, should be dealt with individually based on who is involved and what they have done but government should not be allowed “blanket/ generalised” rules governing or restricting all religions as the same.	Marion	English	self-employed
2025-11-10 10:39:25	No I do not	Constitutionality	Life needs every church possible.It is also our constitutional right that is being taken away then.Never try to remove God's church,we are the light and the salt of the world.Without the church the world be entirely dark,and life will be tasteless. Why will they only be regulating Christianity and not Islam and all other religions? This is not acceptable.	Kyman		

			State regulation of the Church in South Africa is unconstitutional under the Bill of Rights and contrary to the principle of “Sphere Sovereignty,” which maintains that Church and State should operate independently before the sovereign rule of God. Constitutional Arguments: Freedom of Religion: Section 15 protects religious practices from state interference. Licenses or regulation would violate this right by making the State judge of legitimate faith. Equality and Neutrality: The Constitution requires state neutrality regarding religion; regulation risks favouring specific religions, echoing apartheid-era bias. Existing Legal Safeguards: Criminal and civil laws already address abuses by religious leaders, so extra regulation of churches is unnecessary. Separation of Powers: Regulating religion politicises it; courts are the appropriate authority when criminal harm occurs. Sphere Sovereignty: The Bible teaches that family, church, and state have distinct roles given by God. State interference in the Church undermines these boundaries and leads to statism. Each sphere should operate directly before God and should not be subordinated. Historical Perspective: South Africa’s past shows the dangers of overlapping authority. Sphere sovereignty helps avoid repeating such mistakes. Practical Implication: Abuse prevention should use neutral civil law, not church regulation, preserving both rights and institutional boundaries. Conclusion: State regulation of the Church infringes on constitutional freedom and sphere sovereignty, which protect the independence and integrity of both Church and State.

2025-11-10 11:25:51	No I do not	Other	My Concerns: 1. Exceeding Mandate The CRL was established to protect religious freedom, not to license or supervise churches. Its current plan to form peer-review councils and approve “recognised structures” effectively turns a Chapter 9 body into a regulator of faith. 2. Threat to Religious Freedom South Africa’s Constitution (Sections 15, 18, 31) guarantees every person’s right to believe, teach and gather freely. Any state-sanctioned system that decides who is a “legitimate” pastor or church undermines these rights and opens the door to state control over belief and conscience. 3. Lack of Evidence The CRL’s original report (2017) cited a few extreme cases of abuse but presented no comprehensive data showing a nationwide crisis. To date, no credible statistics justify using taxpayer funds for a new investigation or oversight structure. 4. Existing Laws Already Apply Fraud, assault, exploitation and financial abuse are already criminal offences. These laws apply equally to religious leaders. The problem is enforcement, not the absence of regulation. 5. Professionalisation Is Misapplied Invoking Section 22 of the Bill of Rights — which allows regulation of trades and professions — misrepresents the nature of Christian ministry. The calling to preach the gospel is not a state-licensed trade but a matter of conscience and faith. 6. Mission Creep and Bias Public comments and CRL publications increasingly describe churches as an “unregulated sector” needing oversight. This language reflects a shift from protecting religion to controlling it, which is inconsistent with our democratic values. 7. Theological and Constitutional Risk Scripture teaches that church authority and accountability rest under Christ and within the believing community — not under government direction. Allowing the state to determine what constitutes “acceptable” belief or leadership endangers both religious freedom and biblical integrity.

2025-11-10 11:54:35	No I do not	Constitutionality	Goes against our freedom to believe and practice our own religion. We are a country with a lot of different cultures and taking away our right to practice our religion will end in huge strikes and propperty/infrastructure damage. It will do more harm to the country when it cannot take anymore.		Angelique	English	
2025-11-10 11:54:53	No I do not	Necessity	I do not support the CRL proposal to regulate religion because it undermines one of the core principles of our democracy — freedom of religion, belief, and association, as enshrined in Section 15 of the South African Constitution. While I acknowledge that there are abuses within some religious institutions that should be addressed, introducing state regulation of religion risks granting government undue power over faith communities. Religious practice is a deeply personal and spiritual matter, and state interference could lead to political manipulation, censorship, and loss of religious autonomy. Existing laws already provide mechanisms to deal with fraud, exploitation, or abuse — without needing additional regulation that targets faith specifically. True accountability and ethical conduct within religious institutions can and should be promoted through self-regulation, interfaith cooperation, and civil society oversight, not through state control. The role of government should be to protect the right to religious freedom, not to regulate or restrict it.		Tanya	English	business owner

2025-11-10 12:16:17	No I do not	Constitutionality			Karlin		
2025-11-10 12:20:06	No I do not	Constitutionality	In a nation born from the ashes of apartheid, where the Constitution stands as a beacon against oppression, the CRL Rights Commission’s renewed push for mechanisms to “vet, license, and regulate” religious organizations and leaders is nothing short of a chilling regression. With over 39,000 public comments flooding in—97% rejecting the proposal—this isn’t a fringe concern; it’s a clarion call from South Africans who cherish their hard-won freedoms. At its core, this drive is dangerous because it invites the state to play god in the spiritual realm. Under the guise of curbing abuses—like the exploitative practices highlighted in high-profile cases—the CRL proposes peer-review committees and umbrella bodies that would effectively license who can preach, pray, or lead a congregation. What begins as “self-regulation” quickly morphs into state oversight, with the CRL as the final arbiter, issuing certificates of legitimacy. This isn’t protection; it’s a slippery slope to censorship and control. Dissenting voices could be silenced as “unapproved,” minority faiths marginalized, and genuine community-led accountability eroded by bureaucratic red tape. History warns us: when governments gatekeep belief, they don’t just police souls, fostering division in a rainbow nation already scarred by exclusion. Worse, it’s flatly unconstitutional. Section 15 of the Bill of Rights enshrines the right to “freedom of conscience, religion, thought, belief and opinion,” extending to individuals and communities alike, free from state interference in their practices—save where they harm others. Parliament decisively rejected similar CRL proposals in 2019, deeming them “unnecessary, unworkable, and unconstitutional” after exhaustive hearings where faith leaders overwhelmingly opposed state meddling. Reviving them now violates not only religious autonomy but also equality under Section 9, by singling out faith groups for scrutiny no other sector faces.		Sean Anthony	English	self-employed

2025-11-10 17:09:00	No I do not	Other	There are laws to deal with dangerous religious offences and offenders - govern well. The state should not control religious freedom	Tracey		
			Religious freedom includes the right of every faith community to govern its own spiritual affairs, leadership, and doctrine without interference or control by the State. Any attempt to license or regulate religious leaders would undermine this autonomy, violate the separation between church and state, and set a dangerous precedent for future restrictions on belief and worship.			
2025-11-10 17:09:46	No I do not	Constitutionality	I therefore respectfully call on Parliament and the CRL Rights Commission to uphold the constitutional protection of religious freedom and to reject any mechanisms that would place the State in authority over religious life.	Karen		employed individual
2025-11-10 17:11:24	No I do not	Constitutionality	No law can ever guide God and He's way of operating. Less alone the Holy Spirit.	Robert	English	employed individual

2025-11-10 18:02:26	No I do not	Constitutionality	The government does not have the right to tell us what to believe and when and how. This goes against the constitution and against my rights as an individual.	Norman	English	self-employed
			Unregulated religious freedom is essential for fostering a diverse and pluralistic society where individuals can express their beliefs without fear of persecution or discrimination. It encourages an environment of tolerance and understanding, allowing various faiths to coexist peacefully. By safeguarding the right to practice any religion—or none at all—societies benefit from the rich tapestry of ideas, traditions, and ethical perspectives that contribute to cultural and social development. Furthermore, unregulated religious freedom serves as a bulwark against authoritarianism, ensuring that spiritual beliefs remain personal and unencumbered by state interference.	Cornelius	English	self-employed

2025-11-11 06:49:05	No I do not	Constitutionality	Religion is a choice Religious freedom and sicial gatherings of like minded individuals, joined together by a common faith, is a basic constitutional right. This right cannot be taken over or regulated by external bodies appointed by the government who do not share the same values or the same faith. If it is found that such a body of people or chuch organisation are acting in a criminal manner, then the current laws of the country can be applied to hold such an organisation to account. To create a special body to enforce external values or principles is inherently an evil and discrimanatory practice and is totally agsinst the South Africns constitution of freedom of speec and of association.	Guilma

2025-11-11 06:53:21	No I do not	Constitutionality	As a Christian, I don't support the CRL Commission because I believe matters of faith should be guided by Scripture and the church community, not by state institutions.	Jamie	English	
				Sheré	English	employed individual

			Not being able to exercise our God given right to worship and serve and teach based on our beliefs as we did for thousands of years before is no less than a communist move, dictatorship and just down right oppression and abuse of our human rights. How is this different from China dictating what their own “RED” bible says. It’s blasphemy to change to Word of God.			
2025-11-11 06:54:27	No I do not	Constitutionality	Deuteronomy 4:2 You shall not add to the word that I command you, nor take from it, that you may keep the commandments of the LORD your God that I command you.	Stephen	English	
2025-11-11 06:56:41	No I do not	Constitutionality	Religion is a choice. Your faith is your religion, it’s a spiritual belief that can’t be decided by any other.	Matthew	English	student
2025-11-11 06:56:53	No I do not	Constitutionality	Wanneer dit kom by die onderdrukking van die mens se vryheid om jou godsdienst volgens jou geloopsopvatting te beoefen, kan verreikende gevolge hê. Niemand mag gedwing word om deel te hê aan dit wat teen jou oortuigings handel nie.Daardie inherente strewe om jou te anker in wat jy glo sal nie verander kan word nie. As jy jou geloof kan uitdruk volgens jou oortuiging en ander mense hulle oortuigings gun , is daar meer verdraagsaamheid teenoor mekaar in 'n diverse gemeenskap. As a concerned citizen, I believe the proposed implementation of the CRL Rights Commission’s recommendations poses a serious threat to the constitutional principles that underpin freedom of religion, belief, and association in South Africa. While the stated intention of the CRL — to protect communities from exploitation and abuse — is commendable, the practical implications of centralising religious oversight under a state-appointed body are deeply troubling. Granting such authority to determine who qualifies as a legitimate religious leader, what constitutes a valid place of worship, or which practices are “acceptable,” opens the door to manipulation and political interference. This kind of centralised control risks creating a system where faith communities must operate under bureaucratic permission, undermining centuries of organic religious expression and autonomy. In extreme cases, it could allow the state to prevent churches or religious groups from gathering, or to silence voices that do not conform to certain ideological or political standards. Our Constitution guarantees every person the right to freedom of conscience, religion, thought, belief, and opinion (Section 15). It also upholds the right to associate freely (Section 18). Any law that enables state interference in the internal affairs of faith communities — regardless of intent — contradicts these rights and could lead to a form of soft tyranny where religious life is regulated through administrative power rather than guided by conviction and conscience. If the CRL’s proposals were to be implemented in their current form, they would set a dangerous precedent for government overreach into areas that should remain independent of political or bureaucratic control. Accountability within religious institutions is necessary, but it must be achieved through transparency, education, and self-regulation — not by subjecting faith to the authority of the state. 2025-11-11 07:22:01	No I do not	Constitutionality	To the Government of South Africa, We, the undersigned citizens, respectfully affirm that the existing laws in our country are sufficient to regulate all matters pertaining to religious practice and expression. We believe that every person should have the right to freely practice, express, and live according to their faith without interference or restriction — as guaranteed by our Constitution. We call on the government to uphold and protect this freedom by ensuring that no new laws, policies, or actions undermine our right to worship and express our beliefs peacefully. South Africa’s diversity of faiths is a strength. Let us continue to live in mutual respect and freedom under the laws already in place. We stand for religious freedom. We stand for faith without fear.	Lindsay	English	employed individual
2025-11-11 07:22:08	No I do not	Constitutionality	Our Constitution was set up to protect the people of this country. Why are laws and regulations being made that go directly against it? The main concern is that more Western religions, like Christianity, will be unfairly targeted and penalized due to the majority non-black and African population that practices it, while African and Eastern religions will be left to function as is. Unless it will be guaranteed that ALL religions will be regulated in the country, I cannot support this, as there is no clear way to prevent this from targeting a specific race or religion to oppress them. I pray that Parliament and the CRL Rights Commission will thoroughly consider all sides of this before passing anything and that they will have wisdom and clarity when making the decision, Amen.	Abigail	English	student

2025-11-11 07:43:13	No I do not	Workability	The government should not be allowed to determine what is or isn't taught in religious ceremonies. The separation of church and state is vital in the democracy of South Africa. Censorship is one of the first steps to a fascist government, as people are no longer allowed to hear or communicate the truth.		Bea	English	employed individual
2025-11-11 07:43:22	No I do not	Necessity			Kimberley	English	employed individual
2025-11-11 07:44:08	No I do not	Constitutionality	It is unconstitutional for the state to dictate or regulate religions activities. Also South Africans have freedom of speech - counting for religious activity as well.		Jacqueline	English	employed individual
2025-11-11 07:45:12	No I do not	Constitutionality	There is no reason to justify the regulation of religion as it is our freedom of speech and constitutional right as a South African citizen to execute this right. To regulate this action is to take away a person's will to live and serve The God that gave us this right to worship Him in a free and humane way as He is the creator of all. The government is not God and has no right to disallow this godly right to serve and share Him and to express His love through the church, the ecclesia, blood washed born again believers to those, like the government and others. The controlling of this act to regulate is a demonic intrusion of a spirit of manipulation and control which is witchcraft and we do not in anyway, shape or form agree on such a decision that the government is contemplating or wants to enforce upon the people of this country. Our prayers are more powerful than the fruitless thoughts and decision and governance of this government. God bless all those who stand for Jeshua Jaweh Elohim, The God of Abraham, Isaac and Jacob. 			Violates Section 15: freedom of religion and conscience. Violates Section 18: freedom of association (including the right not to join a state-approved body). Violates Section 31: right of religious communities to self-govern. Forces religious leaders into state-controlled “Umbrella” structures South Africa already has robust laws (Criminal Law, SORMA, Children’s Act etc.) that cover all criminal abuses. The issue is not the absence of law—it is poor enforcement of the law. Religious freedom has never been a defence to excuse criminal behaviour. Who decides who qualifies as a “religious practitioner” or can register a religious organisation? Which doctrine will be “official”? Who sets the standard? How will licensing be enforced? What if you disagree with the Peer Review Committee? Estimated cost to taxpayers: R750 million start-up + R250 million annually. CRL’s current annual budget is one-fifth of what this scheme would require. Who do you think will pay the license fees for “approved” religious organisations and religious practitioners? No person or organisation can force me or prevent me to practice my faith. In a society and world that is full of decay, evil, corruption and hopelessness we need the good news of Jesus and the guidance of the Holy Spirit and the mercy of God desperately!!			
2025-11-11 07:50:46	No I do not	Necessity	Freedom of Religion provides a critically-needed valuable moral compass to a society and world which is without morals and conscience .	Estelle	Afrikaans

2025-11-11 08:31:16	No I do not	Other	It is not for the state to decide how the gospel of Jesus is shared. The gospel is free. I believe in Jesus Christ and the Holy Bible. This proposal echoes the Sanhedrin's attempt to silence the apostles in Acts 4:18–19: 'Then they called them in again and commanded them not to speak or teach at all in the name of Jesus. But Peter and John replied: "Which is right in God's eyes: to listen to you, or to him?"'. The Bible also warns of systems that seek to control worship and belief—see Revelation 13:7, 16–17. I oppose any mechanism that licenses preaching or regulates doctrine. That authority belongs to God alone, not the state. This violates both Scripture and Section 15 of our Constitution.	Ramon	Afrikaans	business owner
2025-11-11 08:33:55	No I do not	Constitutionality	It is my constitutional right to serve The Living God without interference from the government dictating otherwise or passing laws preventing me and my family from do so.	Jane Anne	English	retired

2025-11-11 08:43:54	No I do not	Constitutionality	I oppose any attempt to vet, license, or regulate religious organisations and leaders because it infringes on the constitutional right to freedom of religion, belief, and association as guaranteed by the South African Constitution. Faith communities are inherently self-governing and derive their authority from spiritual conviction, not from state approval. Government regulation of religious activity risks politicising faith, undermining diversity, and granting the state power to determine what is “acceptable” belief or practice — a power no government should hold. Accountability within faith communities can and should be achieved through their own internal governance, ethical codes, and community oversight, not through state control. Protecting true freedom of religion means preserving the independence and spiritual autonomy of every faith community in South Africa.	Danie	English	business owner

2025-11-11 08:52:08	No I do not	Constitutionality	It’s against my religion to have a government tell me how to worship my God and what to do in my home. If they want to have tribal religion then don’t say that you are Christian	Garth		employed individual
2025-11-11 08:52:40	No I do not	Constitutionality	The Constitution guarantees freedom of religion, and Government has no Constitutional right to control the religious freedom given to citizens. The Government itself is not a religious organization, and therefore has no competence or ability to regulate religious beliefs or practices. Even if the government appointed a committee of religious leaders to do this, it would result in some religious views overuling other views. There is no valid reason for such illegal control, other than trying to prevent illegal activity in the name of religion - spraying insecticide on members, using hate speech against other religions, abuse, etc. There are already laws in place to control such illegal activity, and Government should spend it's efforts in enforcing the existing laws rather than trying to control Constitutional freedoms. 2025-11-11 08:54:28	No I do not	Constitutionality	I strongly oppose any form of state regulation over religious practice or teaching. While Scripture instructs us to respect authority and “give unto Caesar what belongs to Caesar,” that authority should not extend into matters of faith. A state-controlled religion, or government oversight of sermons and teachings, undermines both constitutional freedom and the very nature of personal faith. Once the state begins to dictate or approve what is taught from the pulpit, it ceases to be freedom — it becomes authoritarian control. My faith, and what happens in my home, is between me and my God — not between me, the government, and my God.	Riaan	English	Non-profit
2025-11-11 08:55:09	No I do not	Constitutionality	In this, we will strive and live for freedom - in South Africa, our land.	Kimberley	English	student

2025-11-11 08:57:33	No I do not	Constitutionality	I am signing this petition because I believe that faith and the work of the Church cannot be controlled or licensed by the State. Our Constitution guarantees freedom of religion, and that freedom includes the right of every faith community to govern its own spiritual affairs without interference. Faith is a matter of conscience and conviction — it flows from a person’s relationship with God, not from government permission. When the State begins to vet or regulate religious leaders and organisations, it crosses a dangerous line and opens the door to political influence over matters of faith. While accountability and integrity in ministry are essential, these must come from within faith communities themselves — through their values, leadership structures, and commitment to truth — not through state regulation. I therefore stand firmly for the spiritual independence of all faith communities in South Africa and for the full protection of our constitutional right to freedom of religion. 2025-11-11 09:33:59	No I do not	Necessity	If this law is implemented i feel that the state is trying to "play God". When the government controls what a church can say, it crosses into religious territory — which undermines the separation of church and state. If churches were told what they could or couldn't say, it could easily expand to other groups — schools, media, or individuals — which would threaten broader free speech rights. I believe church and state are meant to be separate: The government doesn't interfere with doctrine, worship, or preaching — as long as laws aren't being broken (e.g., inciting violence or discrimination). This protects both sides: the church from government control, and citizens from government-imposed religion. This act violates a whole lot of things: Violates Section 15: freedom of religion and conscience. Violates Section 18: freedom of association (including the right not to join a state-approved body). Violates Section 31: right of religious communities to self-govern. Forces religious leaders into state-controlled “Umbrella” structures.	Bianca	English	employed individual

2025-11-11 09:39:22	No I do not	Constitutionality	This Act will have far reaching implications for religious institutions and also religious leaders in that the Government will be afforded a very wide power to decide and regulate who may be a religious leader and also which religious institution is fit to remain in existence and which not. These rights are too wide and can create the potential for abuse and cause a situation where religious institutions and also religious leaders are at the mercy and sole discretion of the Government.	Wiaan		
2025-11-11 09:40:02	No I do not	Constitutionality	Religion must remain free and not be governed by authorities or governments.	Lilian	English	retired
2025-11-11 09:41:13	No I do not	Constitutionality	No changes should be made as the current law is already fine in managing any transgressions that occur. Regulating the Church is pointless as it is not the church on its own fault but rather members who are in the vast MINORITY that commit certain tranrgressions	Josh	Afrikaans	student
2025-11-11 09:41:22	No I do not	Constitutionality		Janette		
2025-11-11 09:45:50	No I do not	Other	I feel that every body should have freedom of religion and that it should not be regulated in anyway. However, i think that there should be rules in place that protect it especially for Christians since it is usually us who suffer when things like this wants to change	Elrene	Afrikaans	employed individual
2025-11-11 09:46:36	No I do not	Constitutionality	The proposed law concerning regulating the church in South Africa will not achieve the intended and desired purposes of bringing protection and fighting corruption. Instead, it will be infringing on removing, stifling, and preventing the freedom of religion as written into our constitution. It is also unworkable and will have little effect as there will be hindrances to enforcement. It is an unnecessary waste of time and money to try and regulate and control the church. Most of the religious sector are against this proposed law.	Christine	English	retired
2025-11-11 09:46:50	No I do not	Constitutionality		Elandre		

			Since South Africa is secular constitutional democracy, the state is obligated to remain neutral on religion, protect freedom of belief, and cannot privilege any faith in law or policy. The freedom of religion is intrenched in Section 15 of the Constitution and therefore, the state (whether directly, indirectly or via proxy) can never have the right to vet, license and regulate religious organizations and leaders. The CRLRC's actions will not only violate the Constitution, but also threatens freedom of religion, which includes the spiritual autonomy of faith communities.			
2025-11-11 09:47:11	No I do not	Constitutionality	There is more than ample legislation in place to prosecute criminal spiritual leaders.	Adriaan	English

			I strongly oppose the proposed regulatory framework that would place religious organisations and leaders under state-controlled “Umbrella” structures and mandatory registration systems. This proposal is unconstitutional, unnecessary, unworkable, and financially unsustainable. 1. It Violates Constitutional Rights The proposal infringes on core rights guaranteed in the Constitution of the Republic of South Africa: - Section 15: Freedom of religion, belief, and conscience is undermined when the State prescribes how religious bodies must be structured or governed. - Section 18: Freedom of association includes the right not to join a state-approved religious council. Compulsory membership of a state-controlled structure is an unconstitutional intrusion. - Section 31: Religious communities have the right to practice their religion and govern their internal affairs independently. State oversight into doctrine, leadership structures, or internal governance directly violates this right. Forcing religious communities into state-sanctioned “Umbrella” bodies and subjecting leaders to state licensing or peer review committees constitutes state interference in religious autonomy. 2. It Is Unnecessary South Africa already has comprehensive legal frameworks that deal with any form of abuse or criminal misconduct: - Criminal Law and the Sexual Offences and Related Matters Act - The Children’s Act - Hate Crimes legislation, consumer protection law, tax law, labour law, and more No religious freedom defence exists in South African law to justify criminal behaviour. If abuse occurs in a religious setting, it is already punishable. The problem is not the absence of law, but rather inadequate enforcement. This proposal does nothing to solve that issue. 3. It Is Unworkable in Practice			
2025-11-11 10:00:47	No I do not	Constitutionality	The proposal raises fundamental operational and doctrinal questions with no practical or objective answers: Who will determine who qualifies as a “religious practitioner” or whether a group	Aiden	English	business owner

2025-11-11 11:22:53	No I do not	Constitutionality		Mari		
			This proposed law stands in direct opposition to the Biblical truth that God alone is the head of His Church - not any government or human authority. The Church exists under His rule, guided by Scripture and the Holy Spirit. Any attempt by the state to license or regulate religious leaders undermines that divine order and interferes with our freedom to worship and serve according to God's Word.			
2025-11-11 11:24:33	No I do not	Other	Such legislation would not only restrict the spiritual autonomy of faith communities but also erode one of our most fundamental constitutional rights - the freedom of religion. The role of government is to protect this freedom, not to control or define it. I therefore strongly oppose any law that seeks to place the Church under state authority or oversight.	Elzaan	English	employed individual

2025-11-11 11:25:52	No I do not	Workability	Why not use the existing Powers to control and take the proper action. It is in our Constitution use it. I for one want to why buy a new car ? If the One you have you have never used in any form it's still in Clingrap sealed never opened. I believe that there is unscrupulous so called spiritual leaders. Use the power you already have to take action	Reuben		
2025-11-11 11:26:16	No I do not	Constitutionality	Unconstitutional and will lead to authoritarianism. Mixing church with state is a bad idea. It places the state over everyone, and leaves no authority for the church.	Leon	English	employed individual

2025-11-11 12:54:17	No I do not	Constitutionality	I think it is outrageous and highly objectionable that the state (via the CRL Rights Commission) should be attempting to regulate and control religious organisations in SA. No decent democratic country presumes to interfere in the beliefs and religions of its citizens. A free society should enjoy freedom of speech, expression, association and religion. I am aware that there are many incidents of misbehaviour and criminality perpetrated by religious leaders - Please address those individually and severely if and when they occur. I am quite sure our criminal justice system is equipt to do so. It has frequently occurred to me that when the state or a state department starts interfering most outrageously, such as, most recently, the Dept of Health wanting to make it illegal for smokers to smoke in their own homes, etc., etc., it is usually to distract attention from their inability or disinclination to deal with the really serious problems they should be dealing with, such as hundreds, if not thousands, of South Africans dying of cancer because the Dept of Health has neither the (functional) equipment or the expertise to treat cancer patients expeditiously. Why, one wonders, would the CRL Rights Commission be so determined to legislate to interfere in religious organiations? Perhaps to cover up their failure to protect and promote indigenous languages. Most obvious is their disinclination to lift a finger to protect the language rights of Afrikaans speakers, and most iniquitous their failure to prevent the dire and determined attacks on Afrikaans as a language of teaching and learning. I have been following this despicable campaign for over 20 years. It affects not just the language rights but the education rights of Afrikaans speakers, many of whom are poor and previously disadvantaged, coloured speakers of Afrikaans. One's culture depends on one's language and a primary step towards genocide involves the phasing out of a language in educational institutions. Shame!	Dawn	English	retired
2025-11-11 12:57:27	No I do not	Necessity	To regulate religion and preaching is ungodly and takes away our freedom! We will not allow these types of evils to enter our country!	Leigh-Ann	English	unemployed individual

2025-11-11 13:06:22	No I do not	Other	How can you regulate religion, this is absurd. God chooses leaders and human nature cannot be trusted. Especially not in this country.	Ruchelle	English	
2025-11-11 13:11:04	No I do not	Constitutionality		Evette	Afrikaans	self-employed
2025-11-11 13:14:40	No I do not	Constitutionality	It is UNCONSTITUTIONAL Violates Section 15: freedom of religion and conscience. Violates Section 18: freedom of association (including the right not to join a state-approved body). Violates Section 31: right of religious communities to self-govern. Forces religious leaders into state-controlled “Umbrella” structures. It is UNNECESSARY South Africa already has robust laws (Criminal Law, SORMA, Children’s Act etc.) that cover all criminal abuses. The issue is not the absence of law—it is poor enforcement of the law. Religious freedom has never been a defence to excuse criminal behaviour. It is UNWORKABLE Who decides who qualifies as a “religious practitioner” or can register a religious organisation? Which doctrine will be “official”? Who sets the standard? How will licensing be enforced? What if you disagree with the Peer Review Committee? It is UNAFFORDABLE Estimated cost to taxpayers: R750 million start-up + R250 million annually. CRL’s current annual budget is one-fifth of what this scheme would require. Who do you think will pay the license fees for “approved” religious organisations and religious practitioners?	Johanna	English

People should be free to choose which church they would like to worship at or join. They should have the freedom to choose to join or leave.	Debbie	English	employed individual
			Constitutional and Faith-Based Concerns			
2025-11-11 19:31:41	No I do not	Constitutionality	Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. 			Whats the point of living if everything is controlled for you and you have zero choice or say in what goes in your own life? Free will is the whole point of it, take that away by playing god and the whole society collapses. Who do they think they are? We are made to worship God, that's the whole point of why we were created for in the first place! That's the whole point. Proposing something like this (regulating religion) means that were allowing someone to make all the decisions of disconnecting us from our only True source of living and one of the greatest ways we connect with our Father is through fellowship with our friends and family and freely sharing the word of God in church and talking about Him ❤️. So yes to free will and openly worshiping YHWH, and no to regulate religion!!!	Zonke	English	unemployed individual

2025-11-11 22:24:53	No I do not	Other	Dear mr President I have recently started to do research about church history. I have read about the 1500's - 1800's and the crulety of the state driven Church. Under that leadership there was also the so called witch trials. That was just people that disagreed with the church. A state driven church is an unhealthy thing because if someone rebels against the state and law they should be punished, but no one can controll the spirits! Out of our very own country we see that through a close church/state relationship unspeakable cruelty was committed. If people is unablđ to disagreed with religion what is that other than slavery? Is not the very reason this country have fought and gave thousands of thousand of lives , to fight to be free? The pople of south africa is undera lot of stress. If some ones religion is also taken then their spirits witll be brokm	Marius

2025-11-12 07:01:22	No I do not	Constitutionality	My right to practise the religion of my choice, and to attend a place of worship of my choice, is my constitutional right. Not only that, but it is my God-given right. Religion is an area in which the government should not interfere. Religion shapes culture, lifestyle, belief systems, morals, values and choices. When the government starts controlling and interfering in that, the government must take responsibility for the resulting decline in values, morals and good lifestyle choices amongst citizens. We believe that our religious beliefs unite us, and the freedom to practise these freely are a God-given right. Government interference in this area can open the door to persecution. Further, our youth may see over-regulated religion as off-putting, and this may result in a general decline in youth attending places of worship. The results would be catastrophic for our country.	Nicole		
2025-11-12 07:01:26	No I do not	Constitutionality	My right to practise the religion of my choice, and to attend a place of worship of my choice, is my constitutional right. 2025-11-12 07:30:37	No I do not	Constitutionality	I do not support the CRL proposal to regulate religion. This proposal directly undermines the constitutional right to freedom of religion, belief, and association as guaranteed in Section 15 of the South African Constitution. The State should remain separate from religious practice to ensure true freedom of worship and prevent political interference or bias in matters of faith.			
2025-11-12 07:31:26	No I do not	Other	Religious institutions already function under existing legal frameworks that address issues such as fraud or abuse additional regulation is unnecessary and opens the door to state overreach. Any attempt to "license" or "register" faith communities violates the core principle of religious independence.			
2025-11-12 07:33:20	No I do not	Constitutionality	I urge the CRL and government to uphold constitutional values by protecting, not restricting, the rights of individuals and communities to practice their beliefs freely and without interference.	Malaika	English	employed individual

2025-11-12 09:04:40	No I do not	Constitutionality	Religious freedom is a fundamental right. There is no reason to regulate it unless it leads to abuse in any form - then it's a legal issue. Religion and the practice thereof should be an individual choice, as long as it does not harm or negatively impact others. Referring to the previous point, bias against some religions is not acceptable. It does not give anyone carte Blanche to act aggressively either verbally or physically. Compassion in all forms should be practiced and encouraged. We should create a culture of aversion to all forms of tyranny with regards to control of basic human rights.	Suriuya	English	employed individual

2025-11-12 09:06:21	No I do not	Constitutionality	According to the constitution every one has the freedom to religion but with this Act we has the freedom to religion. But we as Christians will not have the freedom to serve our God in the manner He wants us to serve him	Hazel	English	self-employed
2025-11-12 09:06:22	No I do not	Constitutionality	According to the constitution every one has the freedom to religion but with this Act we has the freedom to religion. But we as Christians will not have the freedom to serve our God in the manner He wants us to serve him	Hazel	English	self-employed

2025-11-12 09:15:48	No I do not	Constitutionality		Matthew	English	business owner
2025-11-12 09:18:28	No I do not	Constitutionality	The proposal that the state should regulate religious institutions directly contradicts Section 15 of the South African Bill of Rights, which enshrines the right to freedom of conscience, religion, thought, belief, and opinion for everyone. This right is amplified by Section 31(1), which specifically protects the right of persons belonging to a religious community to practice their religion together with others and to form, join, and maintain religious associations and other organs of civil society. Direct state regulation of internal religious affairs, doctrine, or organisational structure represents an unjustifiable and excessive infringement upon these fundamental constitutional liberties.	Debra	English	employed individual
2025-11-12 09:18:45	Yes I do	Necessity	Jesus christ is and he will remain in control of this nation Revival fire will destroy all power of darkness from south Africa to Africa I pray may the fear of God return in governments	Masanka Emmanuel	English	Non-profit

2025-11-12 11:02:31	No I do not	Constitutionality	There are already laws in place to counter the crimes this proposal is said to want to correct. These crimes should be dealt with in accordance with those already existing laws. Thus, it is unnecessary to put these restrictions and regulations on churches. Churches are meant to help people on the path of life and to help people in need. Looking at other African nations, more than 9 800 churches have been shut down due to such proposals. If this proposal is implemented, it will go against people's freedom to choose their beliefs and is an oppression of churches.	Stephani

2025-11-12 11:05:53	No I do not	Constitutionality	Practical Concerns and Potential for Abuse • Subjectivity of "Acceptable" Religion: Who would decide which religious practices are "acceptable" enough to be regulated, and what criteria would they use? We fear that such a body would inevitably be biased, likely favouring the dominant or majority religion's values. • Chilling Effect: The mere threat of regulation, investigation, or licensing requirements can discourage the formation of new religious groups, limit open practice, and lead to "self-censorship" out of fear of state sanction.	Alexis	English	employed individual
2025-11-12 11:06:16	No I do not	Constitutionality	Fokus op die regte goed. Geloof is die enigste oplossing vir ons land	Johannes	Afrikaans	employed individual
2025-11-12 11:11:21	No I do not	Constitutionality	This change will regulate and impose our right to live out our faith and disable us to have freedom of religion. I am against it. It will also cost the government a lot of money - we can use the funds elsewhere where it is much more needed.	Paulette	English	business owner

2025-11-12 11:20:04	No I do not	Other	Religious freedom is important because it allows people to genuinely live out what they believe without fear or restriction. Faith isn't something that can be forced — it's a personal conviction that shapes how we see the world and how we live our lives. When people are free to worship and follow God according to their conscience, it creates space for authenticity, respect, and understanding among different beliefs. Without that freedom, people are pressured to conform instead of being real about what they believe, and that's when truth and integrity start to disappear.	Brydon	English	employed individual
2025-11-12 11:20:05	No I do not	Other	Religious freedom is important because it allows people to genuinely live out what they believe without fear or restriction. Faith isn't something that can be forced — it's a personal conviction that shapes how we see the world and how we live our lives. When people are free to worship and follow God according to their conscience, it creates space for authenticity, respect, and understanding among different beliefs. Without that freedom, people are pressured to conform instead of being real about what they believe, and that's when truth and integrity start to disappear.	Brydon	English	employed individual

2025-11-12 11:59:55	No I do not	Constitutionality	This poses a real threat to how churches in South Africa may preach, gather, & disciple. There are laws in place for any necessary actions to be taken for unlawful events.	De Lange	English	employed individual
2025-11-12 12:00:00	No I do not	Constitutionality		Desiree	English	retired
2025-11-12 12:00:29	No I do not	Constitutionality		Jean-Pierre	Afrikaans	employed individual
2025-11-12 12:03:55	No I do not	Constitutionality	I reject this proposal as it is constitutionally unworkable. It fundamentally misunderstands the constitutional separation between the state and religious institutions. The state has no mandate, expertise, or right to define what constitutes 'valid' religious practice or 'legitimate' religious leadership. This is a clear case of government overreach that directly infringes on the rights of faith communities to govern their own affairs as protected by the Constitution.	Hein

			The Problem Isn't the Law, It's the Enforcement. Granting new, concentrated powers to officials chosen by the CRL Rights Commission (or similar bodies) risks repeating a costly pattern observed in South Africa: the abuse of delegated authority. The Core Problem: Poor Enforcement, Not Missing Law South Africa is not lacking legislation. A robust legal framework—including Criminal Law, SORMA, and the Children's Act—already covers all criminal abuses and corruption. The issue is not the absence of law; it is the poor enforcement of existing law. Furthermore, religious freedom has never been a legal defence for criminal conduct. Historical Precedent of Corruption A look at recent history shows that giving state bodies significant power has repeatedly led to corruption. Entitites with massive budgets and discretionary power have proven highly vulnerable. Prominent examples of state bodies and agencies implicated in widespread corruption include: State-Owned Entities (SOEs): Institutions like Eskom and Transnet were compromised during the State Capture era. Government Departments: Corruption has been evident across various levels, from the national Department of Public Works to numerous municipalities. Creating a new set of officials with unreviewed power will likely only open a new door to the same systemic corruption that has plagued other committees and entities in the country. The solution lies in strengthening law enforcement, not creating new opportunities for malfeasance.

2025-11-12 15:14:12	No I do not	Constitutionality	They will take the gospel out of the Bible or the declare it unlawful to preach about Jesus Christ as the only way to the Father. They want to remove that no one can be saved except by the name of Jesus. They want to brainwash people to believe that all people from all religions worship the same God. That is a deception!	Stefan	Afrikaans	Non-profit
			Religion can adequately be regulated under existing law, this proposed law is a threat to the constitutional rights and freedom of South Africans to hold their own beliefs. The apartheids regime did the same: they ignored good council from the Bible that teaches that men and woman are all of the same race - the human race - and they overreached their mandate from God in forcing their ideology and sinful human thinking of on society. By passing this law government will attempt to control, manipulate, segregate, discriminate and victimize people whom they might not agree with. I respectfully ask that the government stop their attempts at this. You might think that you know best and that you will not misuse this oppressive overreach of power, but history is 100% a testimony against you in this. Good, hardworking, law abiding citizens are always the ones suffering under this type of government, and then everybody loses - the government included. The government is only appointed by God, it is not God and it will do well to know it's place in this regard. The government is suppose to do the following: Romans 13:4 - "For he is the servant of God, an avenger who carries out God's wrath on the wrongdoer." For perspective purposes the wrongdoer in this case does not refer to someone with a different believe or viewpoint than yourselves, but what God describes as sinful in His Word, the Holy Bible. Examples would include: murder (assassinations included), theft (corruption included), rape, violence, intimidation and indoctrination causing the youth to learn ways that will set them up for failure going into the future. You do not have to go down this path of destruction, the end is always more suffering, more pain, more injustice, more poverty and more inequality.			
2025-11-12 15:14:41	No I do not	Constitutionality	Also, keep in mind that no amount of government over reach and control has ever stopped Jesus from building His Church.	Willem	English	self-employed

2025-11-12 15:47:40	No I do not	Constitutionality	Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities. 2025-11-12 16:05:12	No I do not	Constitutionality	Freedom of religion is a constitutional right, and for this right to be realised, the separation of church and state is essential. Therefore, the state should have no right to regulate the church in any way, and I do not support the CRL proposal to regulate religion. Though I don't deny that some unfortunate and even harmful things have taken place in certain communities and religious groups which have harmed individuals, these instances can be prosecuted successfully within the framework of existing legislation and were criminal when they occurred. Religious freedom has never been a defence to a criminal charge. Existing laws should rather be enforced more and offenders prosecuted. There is no need to implement additional regulations of religion and the CRL proposal threatens religious freedom in South Africa.	Karien	English

2025-11-12 16:09:14	No I do not	Constitutionality	South Africa is a democracy and we have a free will. If our free will is removed, we'll be a communist country. What would the reason be to take our chosen religion away from us? It would mean that the party in control, like the ANC, has other agendas. That would be a sad day and millions of Christians, of ALL races will no longer be allowed to attend their churches. However, the government will NOT achieve their goal, because God live in us. He'll never leave, nor forsake us. Amen! Churches are Kingdom showcases of the God of heaven. A place where He speaks to His leaders, giving them a heavenly mandate to do His will. Churches are not to be ruled or controlled by government. Government is corrupt and fear the prophetic voice of God and His leaders. No control by government	Karin-Marié	English	retired

2025-11-12 16:12:49	No I do not	Constitutionality	This proposal is unnecessary, unconstitutional, impractical, and unaffordable. We are gravely concerned about the unintended consequences of the CRL Rights Commission and its Section 22 Committee's attempt to address abusive practices among religious leaders. Such measures risk harming the vast majority of ethical and law-abiding leaders. Existing laws already empower prosecuting authorities like SAPS and the NPA to deal with any abusive or illegal conduct by rogue individuals. We therefore urge the CRL Rights Commission to return to its core mandate of safeguarding religious freedom, rather than advancing initiatives that would ultimately restrict it in South Africa.	Zach

2025-11-12 17:51:57	No I do not	Constitutionality	Churches should pray for government - Governments should allow freedom of religion . Christianity is a religion of hope and faith -		Wayne	English	self-employed
2025-11-12 17:52:09	No I do not	Constitutionality			Dewet		
2025-11-12 17:54:54	No I do not	Other	Regulation by force. Removes freedom of religion.		Neil	English	self-employed
2025-11-12 17:56:16	Yes I do	Necessity			Onkarabetse	English	self-employed
2025-11-12 17:56:45	No I do not	Constitutionality	This proposal is unnecessary, unconstitutional, impractical, and unaffordable. Existing laws already empower prosecuting authorities like SAPS and the NPA to deal with any abusive or illegal conduct by rogue individuals. This proposal will risk harming the vast majority of ethical and law-abiding leaders. We therefore urge the CRL Rights Commission to return to its core mandate of safeguarding religious freedom, rather than advancing initiatives that would ultimately restrict it in South Africa.		Keena	English	
2025-11-12 17:58:01	No I do not	Constitutionality			Ingrid	English	employed individual
2025-11-12 18:01:12	No I do not	Constitutionality			Inge	English	employed individual
2025-11-12 18:12:52	No I do not	Constitutionality	It is blatantly unconstitutional. Our constitution guarantees freedom of religion. To have laws monitoring this freedom in a prescribed manner goes against the law itself. It is unnecessary. South Africa has enough laws aimed at preventing abuse of all kinds. The issue is not the absence of laws but the implementation of it.		Ann	English	unemployed individual
2025-11-12 18:15:07	No I do not	Workability			Keagan	English	student
2025-11-12 18:15:07	No I do not	Constitutionality	Onder geen omstandighede mag en kan die staat met vryheid van godsdienst inmeng nie!!		Kalie	Afrikaans	retired

2025-11-12 19:20:53	No I do not	Constitutionality	This threatens freedom of religion, including the spiritual autonomy of faith communities, and violates the Constitution. We call on Parliament and the CRL Rights Commission to protect our constitutional right to religious freedom and reject all attempts to license or regulate our faith.	Francois	English	employed individual
2025-11-12 19:22:09	No I do not	Constitutionality	This threatens freedom of religion, including the spiritual autonomy of faith communities, and violates the Constitution. We call on Parliament and the CRL Rights Commission to protect our constitutional right to religious freedom and reject all attempts to license or regulate our faith.	Suné	Afrikaans	employed individual
2025-11-12 19:23:25	No I do not	Constitutionality	Churches often operate without a state-enforced constitution because a secular government provides freedom of religion, allowing them to establish their own internal rules and governance based on their faith. The separation of church and state ensures the government doesn't interfere with religious practices, and churches are subject to the country's laws like any other organization, rather than having their internal structure dictated by a national constitution.	Johannes Mattheus	Afrikaans	self-employed

2025-11-12 22:12:39	No I do not	Constitutionality	I strongly oppose the CRL proposal to regulate religion. This plan directly undermines Section 15 of the South African Constitution, which guarantees every person the freedom of religion, belief, and opinion. The state has no authority to govern matters of faith — that belongs to God alone. While accountability is important, government control over the Church threatens both our democracy and our spiritual liberty. We must defend, not diminish, the sacred right to freely worship Christ. 2025-11-12 23:18:04	No I do not	Constitutionality	We already have laws that cover what is constitutional in this bill. The head of the commission has stated that if people say they hear from God they are mentally ill. Christianity is based on a relationship with a living God Whose followers hear from Him... This Bill is an attempt to kill Christianity in our country, to make it illegal, by denying us our constitutional right to freedom of religion, and freedom of speech. It is an attempt to put people who believe our beliefs are grounds for mental illness in charge of monitoring us. Let us not forget the huge part Christ played in bringing our country into freedom peacefully. This would be a slap in His face. We ask God to bless our country and people and then agree with someone who says having a relationship with said God constitutes a mental illness. That doesn't make sense. The constitutional laws we already have in place just need to be better enforced and the viable problems this Bill claims to address will then be dealt with. There is no need for this, we do not want it, it goes against our constitutional rights, it goes against who we are as a people, it aims to kill a religion that helped bring it freedom to our country. It is wrong and should not be passed.	Carmen	English	
2025-11-12 23:23:16	No I do not	Constitutionality	Please just enforce the constitutional laws we already have.	Lemmer	Afrikaans	employed individual

2025-11-13 08:39:57	No I do not	Constitutionality	Under our constitution it's a Christian's right to express their faith as well as those who hear the gospel of Jesus Christ, it's their choice to agree or disagree. That's what I understand a democratic right - is the choose for yourself whether to believe or not to believe. Other religions have their Democratic right as well. There are laws which curtail unlawful practice. There is no law against kindness, peace, goodness,patience, joy, love, self- control etc. surely!		Vivienne	English	retired

2025-11-13 10:05:05	No I do not	Other	All of the above concerns are vey much relevant and comes into play . It is not easy to regulate the religion or spirituality of a person because the factors that brings them into existence are different for each group of people and no one will be able to tell what the boundary for a certain religion should be or determine the extremes thereof. As long as what is deemed illegal (criminal), and discriminatory according to the constitution and acceptable standards of practice of a particular religion will still be upheld and there won't be space for abuse to be carried out or perpetuated . This should not be cast and stone but be open and subject to discussion and review on an ongoing basis should new problems arise. The government should not come up with what they think is right or correct according to them but involve all the different stakeholders to get their views before arriving at a conclusion. Fairness and openness should be at the center of this.	Nthabisen g	English	unemployed individual

2025-11-13 10:30:23	No I do not	Other	As a Bible-believing Christian, I believe that God alone is the ultimate authority over His Church. No government can take His place or decide how people should worship or live out their faith. Christ is the head of the Church, not the state, and He is more than capable of guiding, correcting, and regulating His people. Any attempt by the government to license or control religion is not only an overreach but a direct violation of our God-given and constitutional right to freedom of religion. South Africa's Constitution protects this freedom, and it must never be surrendered to political agendas or systems that seek control over the hearts and souls of its people.	Elreta	English	self-employed

2025-11-13 11:59:33	No I do not	Constitutionality	Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church	Kagiso	English	self-employed
2025-11-13 11:59:46	No I do not	Constitutionality	This bill would effectively take away my constitutional right to freedom of religion. Trying to regulate and control what I believe is taking away my freedom to choose the values of the religion I follow.	Bjorn		
2025-11-13 12:03:09	No I do not	Constitutionality	We've seen the example of state controlled religion in china. Bibles being changed to fit the political views of the government and the changes are contradictory to what the Bible teaches. Christians DON'T have the freedom to express their religion there and the same will happen in South Africa if this bill passes.	Roele	Afrikaans	business owner

			Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities.			
2025-11-13 15:14:44	No I do not	Constitutionality	This violates our constitutional rights as citizens of South Africa. By regulating religious organisations and/or authorities, the South African government is stripping away the individual's right to religious freedom. If the regulation of religion is accomplished, I fear that South Africa will be one step closer to becoming a fully Communist country.	Melissa

2025-11-13 17:16:17	Yes I do	Other	I believe religion to be harmful more than it benefits our society. I believe it should be a private thing, no more legal than public indecency, or at the least, smoking pot. One should not be allowed to expose children to it and one should be prosecuted for public displays of religion. However, designated spaces like churches, synagogues and mosques are necessary as it is a place where communities can come and practice in private. Too much hatred has been propagated in the name of gods. I believe in the necessity of a diversity of beliefs, just as i believe in sex being necessary for the continuation of the species. Be that as it may, I don't condone practicing either in public, or in with children. Rather than regulation though, education should always be the first defense against a harmful practice, such as religion. Schools should teach the crusades, they should teach about whats happening in Gaza, about the Uighur genocide in china, about how dangerous extremism comes from ideology.	Dom	English	self-employed
2025-11-13 17:21:27	No I do not	Other	Churches are a place of worship to our sovereign creator God. Under no circumstances should it be regulated by the government. If anything the government should be supportive of the Churches. God blesses the nation that acknowledge Him.	Rose	English	retired

2025-11-14 09:04:44	No I do not	Constitutionality		Talana	Afrikaans	business owner
2025-11-14 09:15:25	No I do not	Other	The seperation of church and state was to avoid the influence of those entities on one another. Regulating religious practice will break the separation and allow government influence in our churches, synagogues and mosques. Religious institutions have a powerful role in shaping a democracy and speaking out against injustice - including injustice practiced by governments. This counterbalance role played by religious institutions should not be allowed to come under government's influence.	Minnie	Afrikaans	employed individual

2025-11-14 09:51:48	No I do not	Workability	This law will destroy families!	Stephanie		
2025-11-14 09:57:29	No I do not	Necessity	The proposed changes are logically incongruent with the constitution and with themselves. If an individual abuses their position of authority within a religious organization in order to take advantage of a vulnerable person, the individual is accountable to existing laws, since no law exempts criminal behavior that has taken place within or as part of the activities of a religious organization. Creating a new law as a solution to non-adherence to the existing law is logically inconsequential. If the individual did not abide by the first law, there is no reason they will abide by the second. Imposing restrictions on the formation of an organization is in direct violation of the constitutional right to freedom of association, since these restrictions by definition would in some circumstances prevent the formation of organizations. In addition, enforcing restrictions on what can be preached based on a externally defined doctrine infringes on the constitutional right to freedom of speech. For a religious organization to self regulate, the decisions relating to the leadership of the organization should be made wholly by those who are part of that religious organization. If an individual that is not part of a religious organization has a say in the regulation related decisions of that religious organization, they are by definition an external party. Logically, an organization cannot self regulate if they are to any degree controlled by an external party. If all members of the decision making committee claimed to be members of all religions, these decision makers would be a contradiction to themselves since different religious organizations have conflicting beliefs. It is thus impossible for any member of any decision making committee to subscribe to all religious beliefs, and any committee or decision making structure that aims to make decisions relating to the regulation of all religious organizations will be externally regulating these organizations. 2025-11-14 11:59:10	No I do not	Constitutionality	I am signing this petition because the CRL proposal to vet and license religious leaders threatens the constitutional right to freedom of religion. Faith communities must remain free to choose their own leaders and practice their beliefs without state approval or oversight. Christian leadership flows from God’s calling and the community of believers—not from government licensing. Allowing the state to approve or reject spiritual leaders risks interference in doctrine and religious practice, and could lead to discrimination against certain beliefs. South Africa already has sufficient law to address abuse or exploitation in any sector, including religious institutions. Enforcing those laws is appropriate; regulating belief is not.	Sheree	English	Non-profit

			I do not support the CRL proposal. As a Christian, I believe the state has no mandate to regulate the church's doctrine, governance, or mission. Christ Himself is the Head of the Church (???????? ?:-?-?), and Scripture—not government—defines how we gather, preach, disciple, and care for people. South Africa's Constitution already protects freedom of religion. Any legislation that seeks to “approve,” monitor, or control the internal life of a church crosses a boundary that threatens this freedom. Churches are not state agencies; they are communities of faith accountable first to God and governed by their own confessions and elders. Abuses should be addressed through existing laws, not through broad state oversight that risks infringing on genuine ministry. We need a free church in a free state—able to preach the Gospel without fear, favour, or political interference.			
2025-11-14 19:45:49	No I do not	Constitutionality	For these reasons, I oppose the proposal in its current form.	Melanie	English	self-employed

2025-11-15 08:14:17	No I do not	Constitutionality	History and contemporary geopolitics teaches us the devastating consequences of state controlled religion. Vibrant multiculturalism does not occur with state controlled religion. Our constitution and current legislation is more than adequate to deal with the small number of instances where religious practice violates the common good. This proposed legislation is not necessary for the maintenance of law and order and a society that respects individual rights while upholding the common good. Such legislation can lead to persecution of religious minorities such as is seen in countries like Iran and China.	Dr Andrew	English	employed individual

2025-11-15 09:05:39	No I do not	Constitutionality	I fully agree with the concerns outlined by DearSA which are pasted below, it is also my constitutional right to choose which religious affiliation I choose to join and how I wish to worship. State control smacks of communism... Concerns that I share: – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. – Parliament rejected the CRL's proposal for legislation to implement a “Peer Review Committee” system of state regulation of religion. There is no valid or legal reason to revisit this matter.	beverley	English	employed individual
2025-11-15 09:05:39	No I do not	Constitutionality	I fully agree with the concerns outlined by DearSA which are pasted below, it is also my constitutional right to choose which religious affiliation I choose to join and how I wish to worship. State control smacks of communism... Concerns that I share: – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. 2025-11-16 07:19:46	No I do not	Constitutionality	To have a truly free expression of belief religion should not be regulated by government. Any untoward behaviour could be addressed by existing criminal laws.	Alet	Afrikaans	employed individual
2025-11-16 07:39:45	No I do not	Constitutionality	As a concerned citizen, I strongly oppose the CRL Rights Commission's Section 22 Committee and proposals to license, register, and oversee religious organizations, launched in October 2025. These measures, rooted in the 2017 report on religious commercialization, threaten Section 15 of our Constitution, which guarantees unconditional freedom of religion, belief, and opinion. State interference risks eroding spiritual autonomy, echoing global precedents of oppression, and contradicts Parliament's prior rejections and our international human rights commitments. While addressing abuses is vital, solutions must empower self-regulating faith communities—not impose top-down control that stifles diversity in our rainbow nation.I urge: Halt the Section 22 Committee; reject all regulatory legislation; prioritize transparent consultations affirming religious independence; and promote voluntary ethics education. Joining over 40,000 voices via DearSA and Change.org, I call for safeguarding our democratic liberty.	Philippa	English	employed individual

2025-11-16 14:22:21	No I do not	Constitutionality	Freedom of belief is essential. The exception is when those who believe and carry out their dogma or belief, causing fear, harm and intimidation including death to those who do not believe in that doctrine, religion or belief.	Jenny	English	retired
2025-11-16 14:28:13	No I do not	Other	It is unconstitutional and even more critical, It is unbiblical for a Godless panel to judge and regulate God's people.	Barbara	English	retired
			Not only is the idea of "State Controlled regulation of religion" UNCONSTITUTIONAL, it is UNWORKABLE, UNAFFORDABLE - and in more than just the materialistic sense of money - and not to mention UNNECESSARY. We — as true Bible-believing, born again Christians, who worship in spirit and in truth — cannot afford to lose our religious FREEDOM. "CRL and State Regulation of Religion" would silence the (true) voice of the Holy Spirit, would subdue the RHEMA work of the WORD (of God), and it would (ultimately) incapacitate the true believers (those seeking and serving the Kingdom of God). The entire "State" proposal is in favor of "dead religion," laying the foundation for a "one world religion" to be introduced — a doctrine without our Savior, YAHUSHA — one where "they" would no longer be held accountable by TRUTH, but those who DO submit to and advocate for the TRUTH would be criminalized instead. I reiterate! The "State proposal" is UNCONSTITUTIONAL, in violation of: * Section 15: freedom of religion and conscience. * Section 18: freedom of association (INCLUDING the right not to join a state-approved body). * Section 31: right of religious communities to self-govern. The "State proposal" is UNNECESSARY: * South Africa ALREADY has robust laws (Criminal Law, SORMA, Children's Act etc.) that cover ALL criminal abuses. * The issue is not the absence of law—it is POOR ENFORCEMENT of the law. = They would do better to invest their time and attention in improving its law enforcement, eradicate the system of its corruption, instead of villainizing religious people. The "State proposal" is UNAFFORDABLE: * Estimated cost to taxpayers: R750 million start-up + R250 million annually. * CRL's current annual budget is one-fifth of what this scheme would require. * Who do you think will pay the license fees for “approved” religious organizations and religious practitioners? = It isn't right / fair of the government to expect of its taxpayers to cover these costs. Period.

2025-11-16 21:24:18	No I do not	Constitutionality	This cannot be passed as this violates the South Africa's Constitution, which guarantees every person: 1. Freedom of conscience, religion, thought, belief and opinion (Section 15) 2. Freedom of association (Section 18) 3. Freedom of religious communities to govern themselves (Section 31)	Angus	English	employed individual
2025-11-16 21:38:31	No I do not	Constitutionality		Michael	English	student
2025-11-16 21:39:30	No I do not	Constitutionality	Why This Matters South Africa's Constitution guarantees every person: – Freedom of conscience, religion, thought, belief and opinion (Section 15) – Freedom of association (Section 18) – Freedom of religious communities to govern themselves (Section 31) Concerns – Faith is a divine calling, not a profession — it cannot be licensed or regulated by the state. The state has no say concerning the validity of religious belief. – The CRL has no constitutional authority to regulate doctrine, ordination, worship or religious associations. – State regulation is an existential threat to any meaningful right to religious freedom, including the rights of religious communities. – It risks religious leaders becoming subject to or tools of state control. – South Africa's diverse religious communities already support voluntary accountability through charters, codes of conduct, fraternals, and self-governing associations. – Parliament rejected the CRL's proposal for legislation to implement a “Peer Review Committee” system of state regulation of religion. There is no valid or legal reason to revisit this matter.	Wendy	English	business owner

2025-11-17 10:28:37	Yes I do	Other	The primary role of the church or any religious organisation used to be to take care of the community. Making sure the elderly are fed, housed and clothed. Making sure the less fortunate in the community are fed and housed, children are able to go to school and are fed and clothed. And ensuring a community where those that have no family have a place where they belong and are connected to other people. This is no longer the case. The church has become a place to mine funds for it's leaders to afford a lavish lifestyle. They are no longer concerned with the care of their community, only in recruiting the wealthy to their congregation to fund their lavish lifestyles. The amount of elderly that are dying on the streets are shocking. The churches used to take care of these people and now they no longer do. It is disgusting and for these reasons, I say it is a neccessity that the government regulate the practices of these corrupt religious organisations. NPO's and NGO's are tightly regulated by the law. Why should these religious organisations consider themselves above the law? Their leaders and members believe that because they are a religious organisation they do not have to abide by the law. They get away with so much corruption because the law does not officially govern them.	Ariella

			Constitutional and Faith-Based Concerns			
			Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles.			
			Practical and Theological Concerns			
2025-11-17 10:37:17	No I do not	Other	Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses.	Natalie	English	
2025-11-17 10:37:55	No I do not	Constitutionality	There exist NO reason to impliment ANY LEGISLATION in this regard. We came 300 years with peaceful and respectful regard for our religion. NO regulation is necessary what so ever!	Emil	English	business owner

			Constitutional and Faith-Based Concerns			
			Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities

2025-11-17 16:48:55	No I do not	Constitutionality	Unconstitutional.	Jacobus	Afrikaans	employed individual
			The State has no business interfering in citizens' religious beliefs. The state is rightfully empowered to act against human rights violations, sexual abuse, and others. If these are carried out by church leaders, church members, or any citizens, all of them should be prosecuted in terms of current legislation. No other regulation is necessary. As often the case in South Africa, we have excellent laws and regulations in place, but the application of these is abysmal. A silly example is the speed limit. Drive along through any roadworks, clearly restricted to 60kph and you will find motorists speeding at a life-threatening pace with no care about any legal consequences. Sort out the application of the law before going to the expense of forming a body to oversee the personal beliefs of South Africans

			I cannot believe that our government is seriously pushing for this to become a reality. Every instance in history where church and state have been joined together the church is corrupted by power and politics, and people suffered because of it, both physically on Earth but also how many countless people were lead astray through history by the leading governmental organized religious organizations of the day, and today possibly do not share in eternal life with Christ. This is a truly horrific violation of not only Christians, but people of all faith traditions and backgrounds, constitutional right to freedom of speech, freedom of religion, and particularly applicable in this case freedom from belonging to some government organization against their will. The role of government is to create and implement legislation that governs the physical lives of its citizens, creating job opportunities, providing service delivery, defending its citizens from foreign and domestic attacks, policing and removing criminal and corrupt elements from society. It is already vastly failing at these purely material jobs, and now the government wants to police who is allowed to share the gospel and lead churches as shepherds of God's people? Let the church govern the church as it has been doing, and leave our religious freedoms as it stands.			
2025-11-17 19:15:57	No I do not	Constitutionality	I personally have ZERO faith in our corrupt, inefficient and poorly managed government to do this well even if it is passed into law and I dread to think what will happen if this legislation is passed.	Altus	English	employed individual

			Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities

2025-11-18 11:07:37	No I do not	Workability	Although my concern lies primarily with freedom of religious expression I find the idea of a government deciding who walks in leadership in religious settings, with no participation in said religion, blatantly idiotic. Not only would this proposal be contradictory towards the right of free speech and religious expression, but it would cause us to slowly begin giving up on our humanity. We cannot put people in a box, expecting them to do everything the government says and calling it democracy. From a humanitarian point of view, taking away someone's right of belief can have severe consequences on our quality of life. As humans we are biologically designed to believe in something greater, take that choice away and whats left? Morals fall away, kindness fall away, humanity suffers. Are we really willing to sacrifice our humanity for something as contradictory as this?	Elizmarie	English	employed individual

2025-11-19 08:33:33	No I do not	Other	Once agaian the government wants to interfere, real communist.			
2025-11-19 08:36:43	No I do not	Other	The Christian church is ruled by Jesus Christ and not the government. Any government putting a Christian in a position where he must choose between adherence to Jesus and adherence to government is not only unwise, but irresponsible and a fool. It wil lead to civil disobedience and consequently to oppression and violence. History has shown that. There are already enough laws to deal with any Christians acting illegally. There is no need for more laws. The ANC/ government has a clear communist agenda. The argument of wanting to protect congregations is untrue. The government wants to control the Christian message. This eagerness to control the church must also not be seen in isolation. Numerous other attempts to control the population is also under way. The proposed amendments to the Firearms Control Act are but one example. It all points to communism in action ... control, control, control. This is a very dangerous situation for all citizens of SA.	CJ	Afrikaans	self-employed

2025-11-19 14:33:49	No I do not	Constitutionality	My take is there's no way you can regulate the issues of faith. The government doesn't have the right to determine how a person must worship. We as Pastors or Ministers are servants of God not religious practitioners as the CLR calls us. HANDS OFF ONSTTETS CONCERNING CHURCHES. Cogta already dismissed this proposal from the CRL's previous attempt. There is no need to pursue it again; it has already been rejected.	Cecilia	English	unemployed individual
2025-11-19 15:13:58	No I do not	Necessity	Also, it is UNNECESSARY South Africa already has robust laws (Criminal Law, SORMA, Children's Act, etc.) that cover all forms of criminal abuse. The issue is not the absence of law—it is poor enforcement of the law. Religious freedom has never been a defence to excuse criminal behaviour. There is no need for the regulation that the CRL proposes. Secondly, freedom of religion is a constitutional right. The CRL proposal violates Section 15, which guarantees freedom of religion and conscience. It violates Section 18, which guarantees freedom of association (including the right not to join a state-approved body). Additionally, it violates Section 31, which grants the right of religious communities to self-govern. Also, it forces religious leaders into state-controlled “Umbrella” structures. 2025-11-19 15:53:08	No I do not	Constitutionality	I believe that the aims and intentions of the CRL Rights Commission and its Section 22 Committee are misguided. I am wary of the pre-conceived ideas they have and are concerned that State initiated regulation of religion will inevitably lead to State interference in religion. There are more than enough laws that can and should be used to address and, if necessary, prosecute unethical or abusive practices of rogue religious leaders. It is a misguided view to throw a regulatory net over all religious groupings and all religious leaders when the vast majority are already well self-regulated.	Wayne	English	employed individual

2025-11-22 07:56:45	No I do not	Constitutionality	The Church Is a Foundation of National Stability: Far from being a threat, churches provide: • Social cohesion where the State cannot • Hope and community in crisis • Charity and relief during poverty and disaster • Moral education that builds responsible citizens • Support for mental and family wellbeing • Leadership development for the youth • Violence prevention through transformation of lives	Archbisho p VN	English	retired
2025-11-22 09:32:54	No I do not	Constitutionality	I DO NOT AGREE with the Government proposals to regulate religion because it threatens the very foundation of our constitutional rights, as South Africans. It violates section 7, 15, 18 & 31. Constitution of the Republic of South Africa, 1996 - Chapter 2: Bill of Rights Number 7.1 and 7.2 of the Bill - Rights reads, “1. This Bill of Rights is a cornerstone of democracy in South Africa. It enshrines the rights of ALL people in OUR country and affirms the democratic values of human dignity, equality and freedom. 2. THE STATE MUST respect, protect, promote and fulfil the rights in the Bill of Rights.” Number 15.1 of the Bill - Freedom of religion, belief and opinion reads: “1. EVERYONE has the right to freedom of conscience, religion, thought, belief and opinion.” I feel the proposal is UNCONSTITUTIONAL, UNNECESSARY and doesn’t make me feel free and safe as a women of South African. It PROMOTES FEAR AND CONTROL. Isn’t that exactly what was promoted years ago before 1994... The bill says EVERYONE has THE RIGHT of RELIGION and BELIEVE. South Africa already has robust laws (Criminal Law, SORMA, Children’s Act etc.) that cover all criminal abuses. THE ISSUE is NOT the ABSENCE of law—it IS THE POOR ENFORCEMENT of the law. Religious freedom has NEVER been a defence to excuse criminal behaviour. Some questions I have: Who decides who qualifies as a “religious practitioner” or can register a religious organisation? Why is it only applicable to some religious movements - where is the equality? Which doctrine will be “official”? How will this affect my direct beliefs because I won’t have the freedom to choose? How will licensing be enforced? What will happen to people we love and trust families after they have been imprisoned? This will cause more pressure and poverty on the community - Will the government provide? Thanks for taking the time to read this comment. To confirm I DO NOT AGREE with the CRL proposal.	Michelle	English

2025-11-23 02:27:16	No I do not	Constitutionality	Die Suid-Afrikaanse Grondwet (Artikel 15) beskerm die vryheid van godsdienst, insluitend die reg om dit te beoefen sonder staatsingryping. Die CRL se voorstelle vir verpligte registrasie en lisensiering van dominees deur staatsverbonde liggame word gesien as 'n direkte inbreuk hierop, aangesien dit die staat mag gee om te besluit wie 'n minister mag wees of nie. Dit ondermyn ook die skeiding tussen kerk en staat, en kan diskriminerend wees deur eers op die Christelike sektor te fokus, wat Artikel 9 (gelykheid) skend.Byvoorbeeld, die South African Church Defenders (SACD) het onlangs regsaksie ingestel teen die Section 22-komitee, en noem dit 'n "ernstige bedreiging vir die grondwetlike reg op godsdienstvryheid" en 'n skuif na staatsbeheer oor die kerk. 2025-11-24 06:50:33	No I do not	Constitutionality	The CRL Rights Commission has clearly overstepped its constitutional mandate by attempting to position itself as a regulator of religious doctrine, leadership and internal governance — functions that the Constitution explicitly protects from state interference. South Africa's Bill of Rights guarantees freedom of religion, belief, and association, and this includes the right of religious communities to govern their own affairs without state licensing, vetting, or ideological oversight. By proposing mechanisms to “approve” religious leaders or determine which organisations are legitimate, the CRL risks creating a de facto state church system — something wholly incompatible with a secular constitutional democracy. Such proposals undermine spiritual autonomy, open the door to political abuse, and fundamentally erode the pluralistic nature of South African society. Instead of protecting rights, the Commission is attempting to expand its authority into areas where it has no legal or moral jurisdiction, and in doing so, threatens the very freedoms it is meant to safeguard. 			COMMENT SUBMISSION ON THE REGULATION OF RELIGION IN SCHOOLS I hereby submit my concerns regarding the proposed regulations affecting religious expression in schools. I am a Christian, and I hold a deep and sincere belief in God Almighty, in Jesus Christ, and in the Holy Spirit. These beliefs form the foundation of my identity, my values, and the principles by which I raise my children. Christianity has played a significant role in shaping the moral and cultural framework of South Africa, and many families in this country continue to rely on these values for guidance and stability. I am deeply concerned that reducing or removing Christian expression, teachings, or practices from our schools will have harmful consequences for our children and society. Faith, especially for Christian families, provides moral grounding, emotional strength, and a sense of purpose. Taking this away risks weakening the moral fabric that supports our communities. I firmly believe that schools should remain places where Christian learners are free to practise and express their faith openly—whether through prayer, religious observances, or the acknowledgement of Christian values. Limiting this freedom undermines the rights of parents to raise their children according to their religious convictions, and it interferes with a long-standing tradition in our nation. I therefore request that any policy or regulation concerning religion in schools must: 1. Protect the right of Christian learners to pray, worship, and express their faith. 2. Respect the wishes of parents who choose to raise their children according to Christian values. 3. Allow schools, where appropriate, to continue Christian practices that are aligned with the community they serve.	Theuns	Afrikaans	employed individual

2025-11-24 09:09:20	No I do not	Constitutionality	Government has absolutely no business regulating religion or any other freedoms. The constitution and is clear. The general laws of the country covering murder theft hate speech etc etc should be enforced on any individual breaking the law. Rule of law			
			I do not support the proposed regulation of religion. Freedom of religion is a fundamental constitutional right in South Africa (Section 15) and should never be subject to state licensing or vetting. History demonstrates the dangers of government control over faith: the Soviet Union and Nazi Germany persecuted religious leaders and suppressed communities, while modern China tightly controls religious practice, criminalising independent worship. Such regulation threatens spiritual autonomy, politicises faith, and allows arbitrary discrimination against minority or dissenting beliefs. Existing laws already address illegal or harmful actions; there is no need for additional control over beliefs or practices. Attempting to license or regulate faith risks undermining parental rights to raise children according to their convictions, weakening moral guidance, and eroding social cohesion. South Africa must reject any attempt to control religion and protect the freedom of communities and individuals to worship without interference.	Frederic	English	unemployed individual

2025-11-24 11:15:48	No I do not	Constitutionality	As a democratic country we have a constitutional right to religious freedom. Our constitutional right necessitates us to reject all attempts to license or regulate any faith that does not publicly call for or instigate physical violence, terrorism or vandalism.			

			We respectfully oppose the CRL Rights Commission’s proposal to introduce compulsory registration and regulatory oversight of religious organisations. The proposal is unnecessary, unconstitutional, and incompatible with South Africa’s commitment to religious freedom. The Constitution protects religious autonomy. Section 15 guarantees freedom of belief and practice, and Section 31 affirms the right of religious communities to maintain their own institutions according to their traditions. Courts have consistently held that the State may not interfere in internal religious affairs such as doctrine, governance, leadership or worship. The proposed framework would intrude directly into this protected area by requiring state-approved structures and compliance mechanisms. The CRL Act does not authorise the Commission to regulate religion. Its mandate is to promote and protect cultural, religious and linguistic rights—not to create licensing schemes or oversight bodies. The proposal exceeds the CRL’s powers and risks creating a de facto Department of Religious Affairs. No legislative gap justifies this intervention. Misconduct within religious settings is already addressed by existing criminal and regulatory laws. The issue is enforcement, not the absence of legal tools. The proposal would disproportionately burden smaller and independent churches and risks future political or ideological misuse.			
2025-11-24 11:54:25	No I do not	Constitutionality	We therefore request that the CRL withdraw the proposal and focus on education, dialogue and voluntary good governance within faith communities.	Viren	English	business owner

			Violates Section 15: freedom of religion and conscience. Violates Section 18: freedom of association (including the right not to join a state-approved body). Violates Section 31: right of religious communities to self-govern. Forces religious leaders into state-controlled “Umbrella” structures. It's unaffordable: Estimated cost to taxpayers: R750 million start-up + R250 million annually. CRL's current annual budget is one-fifth of what this scheme would require. Who do you think will pay the license fees for “approved” religious organisations and religious practitioners? How would it be enforced - who decides who meets "what standard"? If we disagree with the peer review?	Diana-Jane	English

			We already have laws so that the churches people is safe. You can’t regulate the Holy Spirit. It is going against our freedom of speech, as well as our basic right. There is more important stuff to regulate than to try and regulate churches. If only the churches is being targeted, then it just means the truth is being spoken and the devil doesn’t want that. This world needs God, this generation needs God. We aren’t forcing it down anyone’s throat, but only if everyone knew the Goodness of God, they would also want to be a child of God. If someone is forcing it down anyone’s throat, then they don’t understand the Gospel, we can only plant the seed, but God needs to do the work. We are being forced to agree with all this other stuff about the LGBTQ community etc, but nobody is regulating that, so why want to regulate the church? We need to respect everyone else, but our choice of religion isn’t respected at all? And by saying that, if you want to regulate our churches, then you aren’t respecting our religion, which is our basic right.	Tanya	English	employed individual

			I am totally opposed to control of Christianity,, Judaism or any other religion but am left wondering whether this will apply to Islam since the ANC is now aligned with Iran & Hamas in their oppositionnd to Israel.			
			It is very alarming since the the news broke of chartered planes bringing a few hundred so called Palestinian refugees into South Africa with Hamas supporter Suliman of Gift of the Givers. Turns out he has been connected to Hamas since 1991! And now ANC minister, Naledi Pandor, wearing a hijab, proclaiming "we Muslims are a peaceful religion, but we can use Jihad when necessary." This was seen on JNS TV recently.			
			Will Islam also have freedom of religion in RSA since Islam is a death cult intent on beheading all who do not convert to Allah in order to take world control?			
			Islam is also intolerant of any sexual deviance including LGBTQ. Their solution is to behead them too. This means our Constitution will have to be amended!

2025-12-01 20:25:17	No I do not	Constitutionality		Stacey		
2025-12-01 20:32:01	No I do not	Constitutionality	South Africa has a separation of church and state, which is enshrined in its Constitution, guaranteeing freedom of religion and prohibiting the state from establishing an official religion or showing preference to one religion over another. South Africa also guarantees the rights to freedom of speech and religion in its Constitution, allowing individuals to believe, express, and live according to their convictions. If the government were to monitor and require leaders and organisations to register, it would be very easy to silence people/organisations that do not agree with the government.	Alicia	English	
2025-12-01 20:43:45	No I do not	No concern	It is no concern of the Government what people choose as their faith. Freedom of choice without harm should always be optional.	Shubashnee	English	self-employed
2025-12-01 20:43:46	No I do not	No concern	It is no concern of the Government what people choose as their faith. Freedom of choice without harm should always be optional.	Shubashnee	English	self-employed
2025-12-01 21:00:00	No I do not	Constitutionality	The state has no right to regulate or threaten freedom of speech, faith or any person who decides to speak freely especially for the benefit of the people.	andrew	English	business owner
2025-12-01 21:24:47	No I do not	Constitutionality	South Africa has a gold criminal justice system. Do not regulate the work of the Lord. Arrest people violating other people's human right and the exploitation thereof	Roger	Afrikaans	employed individual
2025-12-02 06:11:57	No I do not	Constitutionality	This is the communist playbook. Disarm the public Control religion Spread cadres into all government corners, making all aspects be run by a loyal member (at least financially) making sure the investigators and prosecutors are cadres. And more.	Dermot	English	retired
2025-12-02 06:33:54	No I do not	Constitutionality	I do not support these proposals. I think that the church is not governed by the laws of the country. Even though we abide by the laws, we are accountable to God. The way that this proposed law was instituted, was underhanded and cannot carry my support.	Benedictus	English	employed individual
2025-12-02 06:36:43	No I do not	Constitutionality	South Africa's Constitution guarantees every person the right to freedom of religion, belief, and opinion. This right is fundamental to our democracy and reflects the diversity and dignity of all people in our country. Any attempt by the state to regulate or oversee religion risks crossing the line between governance and interference in matters of faith, conscience, and internal church practice. While I understand the need to prevent abuse and protect individuals, I believe these goals can be achieved through existing laws rather than through state control of religious bodies. Granting government the authority to dictate how religious organisations should function sets a dangerous precedent and undermines the autonomy that faith communities need to worship, govern, and live out their beliefs freely. For these reasons, I respectfully oppose the CRL proposal and urge decision-makers to uphold the constitutional protections that safeguard South Africa's rich and diverse religious landscape.	Liezel	Afrikaans	employed individual

2025-12-02 06:42:36	No I do not	Constitutionality	South Africa's Constitution guarantees every person the right to freedom of religion, belief, and opinion. 2025-12-02 09:38:07	No I do not	Other		Danielle		
2025-12-02 13:14:33	No I do not	Constitutionality	I respectfully express my opposition to the proposal by the CRL Rights Commission to regulate religious institutions in South Africa. While the intention to address harmful practices may be well-intended, the mechanism proposed presents significant constitutional, ethical, and historical concerns. Religious belief and practice fall within the domain of individual conscience and voluntary association. Granting a state entity regulatory authority over doctrine, governance, or religious expression risks creating an environment in which political structures may unduly influence or constrain faith communities. Such authority is susceptible to misuse, particularly in contexts where institutional independence is already vulnerable. The challenges cited by the CRL are adequately addressed by existing civil and criminal legislation. Fraud, exploitation, and abuse can and should be dealt with through law enforcement and the courts, without imposing a licensing or registration regime upon religious organisations as a whole. International and historical precedents demonstrate that when governments seek to regulate religion, it often leads to the erosion of freedom of belief, the suppression of unpopular or non-conforming viewpoints, and the politicisation of spiritual institutions. South Africa should avoid repeating such patterns. For these reasons, I maintain that the regulation of religion is neither necessary nor advisable. Protecting genuine religious freedom—within the parameters of existing law—is essential for a stable and pluralistic society.	Werner	English	employed individual
2025-12-02 14:05:17	No I do not	Other	Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities.	Jochemus	English	employed individual
2025-12-02 14:10:45	No I do not	Necessity	I respectfully express my opposition to the proposal by the CRL Rights Commission to regulate religious institutions in South Africa. While the intention to address harmful practices may be well-intended, the mechanism proposed presents significant constitutional, ethical, and historical concerns. Religious belief and practice fall within the domain of individual conscience and voluntary association. Granting a state entity regulatory authority over doctrine, governance, or religious expression risks creating an environment in which political structures may unduly influence or constrain faith communities. Such authority is susceptible to misuse, particularly in contexts where institutional independence is already vulnerable. The challenges cited by the CRL are adequately addressed by existing civil and criminal legislation. 2025-12-02 14:31:35	No I do not	Constitutionality	I do not support this bill, religious beliefs can't be controlled and regulated.	Hendrik		
2025-12-02 15:02:58	No I do not	Constitutionality	Freedom of religion sits at the very heart of democracy. If this freedom is curtailed South Africa cannot be considered a democracy.	Kim	English	self-employed
2025-12-02 16:53:18	No I do not	Constitutionality	Threat to Religious Freedom: The proposed regulation would give the state significant power over religious institutions, potentially limiting their ability to practice and express their faith freely. Constitutional Implications: The regulation may violate Section 15 of the Constitution, which guarantees freedom of religion, conscience, and belief, as well as Section 31, which protects the right of religious communities to self-govern. Tool of oppression, compelling faith communities to operate under governmental scrutiny and potentially curtailing their independence.	Loucharl	English	self-employed
2025-12-02 18:04:35	No I do not	Other	Our current laws more than adequately cover the prosecution of persons who abuse religious rights and authority. The problem is, the are not being thoroughly implemented. One such failure is the refusal to prosecute Church leaders and/or Church authorities who demand congregant's payslips, so that they can scrutinize whether they are paying tithes or not. This is a clear violation of the POPI Act. A dear lady we knew before her passing was publicly told to stand up and called "a dog" by a Nigerian Pastor, who quite frankly, should have been sent packing back to his own country. The tools are there, asking for new ones that are unneeded seems very suspicious to me, and smacks at an attempt at outside control.	Alan	English	retired
2025-12-02 19:18:25	No I do not	Constitutionality	South Africa is not Europe or Russia with state churches, hence any attempts to vet, license and regulate religious organizations is an infringement on constitutional rights and treat faith communities as spaza shops that must be licensed. The CRL commission limited survey in the 2023/23 FY (page 43 - 49) showed that there were no major problems within religious communities in the South Africa and any insistence on stricter regulation is either aligned with personal agendas or foreign interference. South Africa and perhaps even SADC countries cannot that have religious rights enshrined in the constitution castrated by governments - this is tantamount to apartheid 2.0.	Kenneth

2025-12-05 05:10:18	No I do not	Constitutionality	This is a violation of the Constitution regarding Freedom of Religion. But what is even more alarming is a new Bill by the ANC, MK, EFF & GOOD Parties is that people who support Israel will face prosecution for supporting and upholding Apartheid as a Human Rights violation Globally. My point is that many Christians support Israel because Jesus is the Jewish Messiah who was rejected by the religious leaders of Israel. This Bill is wrongly based on Israel being a colonizer who practices Apartheid and Genocide in Biblical areas of Judea & Samaria (the West Bank) and Gaza because they are ignorant of the Creator God of the Bible GIVING that whole area to Abraham in Genesis Ch 12 v 1-3 & Ch 15 v 7 and to his descendants Isaac and Jacob in an UNCONDITIONAL Covenant FOREVER. Because of their idolatry & disobedience they were scattered globally until 1948 as prophesied by several Prophets like Zechariah Chapter 12. Haj Amin el Husseini who was Yasser Arafat's Great Uncle, was made Grand Mufti of Jerusalem by Brittain in 1919, & declared war on the Jews being in his Palestine. Bear in mind Nelson Mandela's First political visit after his inauguwas to Yasser Arafat following. Mandela stated South Africa would never be free until Palestine is free! Now Gift of the Givers is bringing people from Gaza into RSA & Naledi Pandor who is a Muslim, says Islam is peaceful but may use Jihad when necessary. Seems there is a plan to bring Shariah Law into RSA & make make it the Islamic Republic of South Africa. And now the ANC wants to register ALL religious organizations??? Or only Christian churches to see who supports Israel??? Bear in mind that it was Haj Amien el-Husseini who worked with Hitler & Himmler in organizing the gas chambers to kill Jews in Europe from 1941. Fortunately, Germany was stopped at El Alamein so Jerusalem was saved.			
2025-12-05 08:36:04	No I do not	Constitutionality	El-Husseneni was high regarded & influential among the Arabs. There are dark days ahead for us if this all comes together. I do not support this proposal. Licensing or regulating religious organisations and leaders threatens freedom of religion and undermines the spiritual autonomy of faith communities. Such measures violate constitutional rights, create unnecessary government control, and risk political interference in matters of faith. Parliament should protect religious freedom and reject any attempt to impose licensing or regulatory mechanisms on religious practice. Have to fully agree with this statement made by another South African citizen, and fully aligns with my views = I do not support this proposal. Licensing or regulating religious organisations and leaders threatens freedom of religion and undermines the spiritual autonomy of faith communities. Such measures violate constitutional rights, create unnecessary government control, and risk political interference in matters of faith. Parliament should protect religious freedom and reject any attempt to impose licensing or regulatory mechanisms on religious practice.	Gloria	English	retired

			Constitutional and Faith-Based Concerns Violation of Religious Freedom: The proposed legislation infringes on the constitutional right to freedom of religion, belief, and opinion. For Christians, this includes the right to preach, teach, and lead congregations according to biblical convictions without state interference. Threat to Spiritual Autonomy: The regulation is perceived as an attempt to control the internal governance of churches, undermining their God-given authority to appoint leaders and manage spiritual affairs. Interference with Freedom of Association: Christian communities must be free to gather, worship, and organize ministries without state oversight, in accordance with scriptural principles. Practical and Theological Concerns Unnecessary Regulation: Existing laws already address criminal misconduct. Additional regulation risks punishing the broader Christian community for isolated abuses. Risk of State Control: Licensing religious leaders could lead to government influence over church teachings and leadership, compromising the church's prophetic voice and independence. Misunderstanding of Divine Calling: The concept of licensing spiritual leaders fails to recognize that Christian ministry is a divine calling, not a profession. Figures such as Jesus and the apostles would not have qualified under such criteria. Lack of Legitimate Support: Previous proposals were rejected by Parliament, and claims of support from Christian denominations have not been substantiated. Alternative Approaches Self-Regulation by Churches: Christian denominations and independent churches already have governance structures, codes of conduct, and accountability mechanisms rooted in scripture and tradition. Enforcement of Existing Laws: The focus should be on applying current laws to prosecute wrongdoing, rather than imposing blanket regulation on all Christian leaders and communities			
2025-12-05 13:03:03	No I do not	Other	This has been dealt with before in parliament and the answer was a straight no to state regulating religion. Why is this now reappearing after being settled in parliament.	Trevlynn	English	employed individual

			It infringes on my constitutional right to freedom of religion.South Africa's Constitution already protects freedom of belief, worship, and religious association. The proposed Act gives government excessive authority to monitor, register, and potentially restrict religious organisations. This is incompatible with a free society and contradicts the biblical principle that faith must be voluntary, not state-controlled (2 Corinthians 3:17). Faith cannot be regulated by government without risking abuse of power. Once the state is given the power to define, approve, or regulate religious practice, that power can easily be misused—by current or future governments. History shows that whenever states interfere in religion, it leads to suppression, discrimination, or political manipulation of faith communities. Christian practice flows from conviction, not compliance. Christianity is based on a personal relationship with God, not on state-permitted structures. Regulating sermons, ministry activities, church leadership, or religious gatherings undermines the ability of Christians to follow biblical instruction freely (Hebrews 10:25; Mark 16:15). The Act would punish the majority for the wrongdoing of a few. While isolated abuses exist in some religious spaces, these can be addressed using existing laws on fraud, assault, financial crime, and abuse. You do not create an entirely new regulatory regime that impacts millions of sincere believers just because a small minority misuse religion. It threatens the independence of churches and religious ministries. The Act introduces layers of registration, oversight bodies, and potential disciplinary powers that effectively place churches under state supervision. Christian organisations should remain accountable to Scripture, their congregations, and their own internal governance—not to government-appointed regulators. It undermines the role of faith communities in society.

2025-12-10 14:55:47	No I do not	Other	OBJECTION TO STATE REGULATION OF RELIGION I strongly oppose the CRL Rights Commission's proposal to vet, license, and regulate religious organisations and leaders in South Africa. 1. Constitutional Violations This proposal violates fundamental constitutional rights: Section 15 (freedom of religion), Section 18 (freedom of association), and Section 31 (rights of religious communities to practise their faith and maintain their own associations). A state licensing regime would grant government power to deny the practice of faith—converting a constitutional right into a state-granted privilege. 2. Parliamentary Rejection & Lack of Mandate Parliament's COGTA Portfolio Committee rejected the CRL's 2017 regulatory proposals, favouring voluntary self-regulation instead. The CRL's statutory mandate permits education, investigation, and recommendations—not regulation of doctrine, ordination, or internal church governance. 3. Faith Cannot Be Licensed Religious ministry is a spiritual calling, not a secular profession. The state lacks competence to assess theological qualifications, determine doctrinal validity, or judge the authenticity of religious vocations. 4. Existing Laws Suffice Criminal law already addresses fraud, assault, and abuse. The issue is enforcement, not legislation. Religious communities have also developed robust voluntary accountability mechanisms through charters, codes of conduct, and self-governing associations. 5. Conclusion I urge Parliament to reject any legislation establishing state control over religion and call upon the CRL to respect its constitutional mandate by supporting voluntary self-regulation rather than pursuing unconstitutional state oversight. Respectfully submitted.	Dimosthe nis	English	retired

			OBJECTION TO STATE REGULATION OF RELIGION I strongly oppose the CRL Rights Commission's proposal to vet, license, and regulate religious organisations and leaders in South Africa. 1. Constitutional Violations This proposal violates fundamental constitutional rights: Section 15 (freedom of religion), Section 18 (freedom of association), and Section 31 (rights of religious communities to practise their faith and maintain their own associations). A state licensing regime would grant government power to deny the practice of faith—converting a constitutional right into a state-granted privilege. 2. Parliamentary Rejection & Lack of Mandate Parliament's COGTA Portfolio Committee rejected the CRL's 2017 regulatory proposals, favouring voluntary self-regulation instead. The CRL's statutory mandate permits education, investigation, and recommendations—not regulation of doctrine, ordination, or internal church governance. 3. Faith Cannot Be Licensed Religious ministry is a spiritual calling, not a secular profession. The state lacks competence to assess theological qualifications, determine doctrinal validity, or judge the authenticity of religious vocations. 4. Existing Laws Suffice Criminal law already addresses fraud, assault, and abuse. The issue is enforcement, not legislation. Religious communities have also developed robust voluntary accountability mechanisms through charters, codes of conduct, and self-governing associations. 5. Conclusion I urge Parliament to reject any legislation establishing state control over religion and call upon the CRL to respect its constitutional mandate by supporting voluntary self-regulation rather than pursuing unconstitutional state oversight.

2025-12-10 16:11:56	No I do not	Constitutionality	Absolutely NOT. The state is threatened by and trying to force greater control over our constitutional rights ti freedom of religion.	Ingrid	English	self-employed
2025-12-10 16:47:11	No I do not	Constitutionality	Any attempt to regulate religion should be rejected with scorn. It is unconstitutional to give any government the right to decide who will be allowed to start a church or preach in a church. As with so many things in South Africa the problem is that the state wants to control everything done by law abiding citizens, while doing nothing to enforce existing laws or prosecute actual criminals.	Pieter	Afrikaans	
2025-12-10 17:42:42	No I do not	Constitutionality	I wholeheartedly REJUCT this notion. Religious freedom is as much of a personal choice as all other freedoms. But this shows again how the government wants to control, dictate and force their opinions on others. OUTRAGEOUS!! Government is asking and completely pushing for retaliation for their reckless moves. Government - you ARE warned. You're catering for major retaliation with all your stupid, idiotic policies you're trying to implement!!!	Ian

			I do not support the renewed attempts by the CRL Rights Commission to introduce mechanisms that vet, license or regulate religious organisations and leaders. Such measures pose a direct threat to freedom of religion, freedom of association, and the spiritual autonomy of faith communities. The Constitution guarantees every person and community the right to practise their religion without state interference, provided they do so lawfully. Any attempt to place religious life under state control undermines this foundational protection. Licensing or regulating faith communities would create an environment in which the State determines which beliefs, doctrines or leaders are acceptable. This is incompatible with a democratic society and violates section 15 of the Constitution. There is no constitutional mandate for the State to approve or disapprove religious expression, nor should any arm of government assume authority over spiritual governance. While legitimate concerns such as fraud or abuse must be addressed, South Africa already has adequate laws to prosecute criminal conduct without infringing on religious liberty. Creating additional regulatory structures for religion is unnecessary, unconstitutional and potentially open to misuse. We call on Parliament and the CRL Rights Commission to uphold our constitutional right to religious freedom and reject all efforts to license or regulate faith.

2025-12-11 08:12:18	No I do not	Constitutionality	Die regering word opgeroep om die Woordbediening te beskerm en nie hulself bo God self te plaas deur hul eie ideologie af te dwing nie. Hulle is deur God aangestel om die burgers van die land te beskerm en veilig te laat woon sodat die Woord van God kan bedien word. Die owerheid is ook onderworpe aan wat die Woord hulle leer wat hulle opdrag van die Here is in die samelewing.	Rea	Afrikaans	employed individual

2025-12-11 08:27:53	No I do not	Constitutionality	The proposed regulation of religion is dangerous because it threatens our constitutional right to freedom of religion and conscience. The Constitution already guarantees that everyone may believe, worship, and practise their religion freely without interference from the State. The summary shows that forcing religious organisations and leaders into state-controlled structures and licences would override this basic right and give government power to decide who counts as a “religious practitioner” or which beliefs are acceptable. This kind of control is open to abuse and could divide people instead of protecting them. Secondly, the proposal is unnecessary, unworkable and expensive, and it does not solve real problems in our communities. South Africa already has strong laws – like criminal law, child protection laws, and existing oversight bodies – that can deal with abuse, fraud, or harm, without creating a new system to regulate faith. As the summary says, the real issue is poor enforcement of laws we already have, not the absence of law. Trying to regulate doctrine or religious practice would create uncertainty about who decides what is right or wrong in matters of faith, and this will only distract from tackling real challenges like crime, poverty and unemployment. Finally, this proposal risks undermining unity and trust in our diverse society. Religion is a deeply personal and communal part of life for many South Africans, and people of different faiths already work together in schools, communities and social services. Giving the State power to supervise or control religion will likely be seen as government overreach, creating fear and resistance rather than cooperation. This weakens social cohesion, rather than strengthening it, and could lead to conflict instead of peace among faith communities. South Africa needs freedom, fairness and mutual respect for growth and unity — not laws that may be weaponised or misused against	Anthony	English	employed individual

2025-12-14 16:51:33	No I do not	Other	My belief in the Lord Jesus Christ, His crucifixion and resurrection, COMPELS ME to bring His Truth to ALL MANKIND. Nothing will stop me in this work of spreading His Gracious Love. As Jesus Himself stated, as recorded in Luke 19:38-40, when the Pharisees (the religious leaders, or in our case the CRL Rights Commission) told Jesus to silence His followers for proclaiming Him the King of Glory, Jesus said, "I tell you that IF THESE SHOULD KEEP SILENT, EVEN THE STONES WOULD IMMEDIATELY CRY OUT". Jesus, our Creator God, will always have a witness. In as far as the Truth goes, in John 14:6, Jesus states that "I Am the Way and the Truth and the Life. No one comes to the Father except through Me." Jesus invites ALL MANKIND to repent of their wrongdoing, to turn about and follow Him.As a result, we may be ostracised, BUT WE WILL NOT BE SILENCED. Secondly, The Constitution of the Republic of South Africa, Act 108 of 1996 (as Amended), GUARANTEES EVERY PERSON: – Freedom of CONSCIENCE, RELIGION, THOUGHT, BELIEF and OPINION (Section 15) – Freedom of ASSOCIATION (Section 18) – Freedom of RELIGIOUS COMMUNITIES TO GOVERN THEMSELVES (Section 31) My further concerns are that; The CRL Rights Commission is attempting a form of SOCIAL ENGINEERING (similar to BBBEE and it’s associated legislation, regulation and schedules). Faith is a divine calling. It is not a commercial enterprise, and MAY THEREFORE NOT BE LICENSED OR REGULATED BY THE STATE. As per the Constitution, THE STATE HAS NO SAY CONCERNING THE VALIDITY OF RELIGIOUS BELIEF. As such, the CRL Rights Commission has NO CONSTITUTIONAL AUTHORITY/JURISDICTION to regulate religious doctrine, ordination, worship or religious associations. Any form of State regulation is AN EXISTENTIAL, SOCIAL ENGINEERING THREAT to any meaningful right to religious freedom, including the rights of religious communities. Our religious leaders MUST NOT BECOME SUBJECT STATE TO CONTROL. South Africa’s diverse religious communities already support volunt	Fred	English	retired

2025-12-14 19:56:32	No I do not	Constitutionality	The state has no business regulating religion - this is a hallmark of almost all oppressive regimes that exist or have ever existed. Yes - a minority of religious leaders are despicable evil individuals that exploit their congregations. But obstructing the constitutional freedoms of religion and association as a means of addressing this problem is to negate the huge good that religious organisations bring to society - arguably far more good than any government, past and present, has achieved. Even the apartheid government did not contemplate such draconian interference in the freedom of religion. No, there are more than enough existing laws to deal with crimes committed by individuals in the name of religion. Financial offences, tax offences, sexual offences, extortion, etc. – we have laws for them all, regardless of whether they are committed by religious leaders or not. Prosecute the criminals - it's that simple! There is no need to regulate religion.	Paul	English	employed individual
2025-12-14 22:52:39	No I do not	Constitutionality	This obviously violates the constitution of our country, but more than that is an attack on the church in South Africa with potentially devastating consequences for the country. This blatant evil must be stopped. God be with us.	Grant

			It is UNCONSTITUTIONAL			
			Violates Section 15: freedom of religion and conscience. Violates Section 18: freedom of association (including the right not to join a state-approved body). Violates Section 31: right of religious communities to self-govern. Forces religious leaders into state-controlled “Umbrella” structures. It is UNNECESSARY South Africa already has robust laws (Criminal Law, SORMA, Children’s Act etc.) that cover all criminal abuses. The issue is not the absence of law—it is poor enforcement of the law. Religious freedom has never been a defence to excuse criminal behaviour. It is UNWORKABLE Who decides who qualifies as a “religious practitioner” or can register a religious organisation? Which doctrine will be “official”? Who sets the standard? How will licensing be enforced? What if you disagree with the Peer Review Committee? It is UNAFFORDABLE Estimated cost to taxpayers: R750 million start-up + R250 million annually. CRL’s current annual budget is one-fifth of what this scheme would require. Who do you think will pay the license fees for “approved” religious organisations and religious practitioners?	Nicole	English	
2025-12-15 18:06:41	No I do not	Constitutionality	I believe in a free and fair democratic right to practice spiritual and religious beliefs.	Dianne	English	
2025-12-15 18:10:18	No I do not	Constitutionality	They want to restrict our constitutional freedoms. It is not constitutional to regulate freedom of religion. How this can even be considered is an unfathomable waste of time and resources. So many fought so hard for our constitution as it stands now with its freedoms. This new proposal is a much more sinister control and removal of freedom.	Robert	English	retired
2025-12-15 18:15:51	No I do not	Constitutionality	First of all, freedom of speech, secondly, freedom of religion,. Freedom of association. Why must I be penalized because the ANC and Islam hates Israel? ISRAEL was an ally . No, leave christians out of your hatred and fights.	Rose	English

2026-01-08 12:48:22	No I do not	Constitutionality	One should have the right to choose and follow the religion/faith of their choice with no interference from government at all! I hereby strongly reject the CRL Proposal to regulate religion.	Wendy	English	employed individual
2026-01-08 12:55:45	No I do not	Constitutionality	Constitutionally, it violates very important sections of the South Afrcan Constitution: - It violates Section 15: the freedom of religion and conscience - It violates Section 18: the freedom of association (including the right not to join a state-approved body) - It violates Section 31: the right of religious communities to self-govern. Additionally it forces religious leaders into state-controlled “Umbrella” structures. We need reduced red-tape in government, not more!	Leanne		
2026-01-08 15:18:42	No I do not	Constitutionality	The constitution of SA guarantees freedom of religion which gives us as citizens the right to choose our religion and pursue it without intervention from the state. This is a blatant effort on the part of the government to restrict and interfere with the practice of religion and regulate what is said from the pulpit and will lead to them dictating what is to be preached and what may not be preached. We have adequate protection and recourse against hate speech from the pulpit and if their reason for this bill is to counteract hate speech, its the wrong way to go about it.	Andrew	English	retired
2026-01-08 15:52:01	No I do not	Constitutionality	If it’s against the constitution. Then it’s a simple ‘no’. The constitution is very clear on this matter. Let people pray to whom they want to pray	David		
2026-01-08 15:54:12	No I do not	Constitutionality	This would impede on our democratic, constitutional right on freedom of choice, freedom of religion, freedom of association. How dare you even suggest this? There is no possible advantage to anybody but the government - as this is an attempt to control the nation. Shame on you!! Nelson Mandela must be turning in his grave because you want to take away the liberty he fought for.	Elmarie	English	retired
2026-01-09 01:42:50	No I do not	Constitutionality	THIS IS UTTERLY UNCONSTITUTIONAL AND IT INFRINGES ON THE RIGHTS TFOR SOUTH AFRICANS TO PRACTICE RELIGION FREELY. AGAIN ON A SIDE NOTE, ITS SANGOMAN WHO ARE OUSHING FOR THE REGULATION OF RELIGION. THAT CRL LADY IS A BONAFADE SANGOMA WHO HATES THE CHURCH, PEOPLE XPRESSING HEIR NEED FOR GOD BECAUSE SHE HATES GOD AND HIS PEOPLE. NO NO NO NO NO NO NO TO REGULATION OF RELIGION. WE HAVE ARULE OF LAW IN SA THAT ANYONE WHO DOES CRIME SHOULD BE DEALT WITH ACCORDINGLY BY LAW. THE JUSTICE SYSTEMHAS FAILED AND CRL SAW AN OPPORTUNITY TO BLAME SOMETHING FOR A SYSTEM THAT FAILS TO DOITS WORK. IF THERE IS SOMEONE WHO NEEDS REGULATION IS THAT CRL LEADER, SHE IS OUT OF ORDER AND USED AS MESSENGER I DONT KNOW FROM WHERE TO FIGHT FREEDOM IN SOUTH AFRICA. THIS IS NOT AGAINST OTHER RELIGIONS BUT CHRISTIANITY ONLY. WHY CHRISTIANS? TRY THAT WITH MUSLIIMS AMD LETS SEE. NO NO NO NO TO REGULATION OF RELIGION. 2026-01-22 06:16:44	No I do not	Constitutionality	Once the government has control over religion practice via an act they implemented they then created the foundation to infringe into people religious activities and freedom in the future. Religion is not something any government must have control over. I am no religious person but the fact that they want to mingle in places where they don't belong is concerning. Above all this there will be massive financial implications, who will fund this? Us the tax payers huh? No I have no religion why must my tax be used to support this. And why is this required? What is wrong with the current system?	Eugene	English	employed individual
2026-01-22 21:00:35	No I do not	Constitutionality		Gwen		
2026-01-23 00:04:19	No I do not	Constitutionality	I strongly oppose the CRL Rights Commission's proposal to regulate, vet, license, or oversee religious organisations and leaders. This is a direct and unconstitutional threat to our freedom of religion as protected by Section 15 of the Constitution, which guarantees the right to believe, practice, and manifest faith freely without state interference. The spiritual autonomy of faith communities must remain sacred—no government body should license pastors, dictate worship venues, enforce 'peer-review' committees, or impose registration that could silence or control genuine religious expression. Such overreach risks turning the state into a regulator of conscience and belief, violating core constitutional principles. Parliament and the CRL must reject this entirely and protect, not police, religious freedom!	Cornel	English	employed individual

2026-01-24 20:59:50	No I do not	Constitutionality	Government must shift their focus to preventing fraud, illegal activities, solving crime, and improving health and welfare of citizens. Religion is a personal choice. How on earth will this improve the overall economy?	Chantel	English	employed individual
2026-01-25 15:23:33	No I do not	Constitutionality		Yvonne	English	retired
2026-01-26 08:39:37	No I do not	Constitutionality	I strongly object to the CRL Rights Commission's proposal to regulate religion through licensing, registration, and state-approved umbrella bodies. This proposal violates core constitutional rights, including freedom of religion, freedom of association, and the right of religious communities to govern their own internal affairs. No state institution should have the power to approve, monitor, or control religious doctrine, leadership, or practice. The proposal is unnecessary. South Africa already has strong laws to deal with abuse, fraud, exploitation, and harmful practices. Criminal behaviour is not protected by religious freedom, and existing legislation is more than sufficient when properly enforced. The real problem is not a lack of laws — it is a lack of enforcement. Creating a new regulatory system targeting religion will not fix failures in policing or prosecution. The proposal is also unworkable. It is unclear who will define what counts as a “religious practitioner,” who will set doctrinal standards, or how disagreements between faith groups and state-appointed committees will be resolved. This opens the door to state interference in theology, belief, and internal governance — something no constitutional democracy should tolerate. The financial implications are excessive and unjustifiable. The CRL's proposed system would cost hundreds of millions of rands to establish and maintain, far beyond its current budget. This is an irresponsible use of public funds at a time when essential services are already under strain. This proposal amounts to state control disguised as “self-regulation.” It threatens religious freedom, undermines constitutional rights, and creates a costly bureaucracy with no clear benefit. I request that the proposal be rejected in its entirety.	Hardus		
2026-01-28 08:06:13	No I do not	Constitutionality	Other than religion being guaranteed and protected by the constitution, the government should not be intervening in religious behavior, especially that it should not have power to make religious decisions for a person or organisation. Religious freedom is based on individual choices and beliefs, not something that is imposed on them. This is an area where the state should not control, because it is not the state's responsibility to oversee religion. The government should instead focus on enforcing existing laws that are there to deal with the crimes that the CRL commission use as examples to justify their case. Too often are laws proposed that threaten the freedom of the people or give power to the government, when the actual problem is that things aren't properly enforced.	Aaron	English	employed individual
2026-01-28 23:07:55	No I do not	Constitutionality	The constitution is there to protect the rights of the people, our choice of faith and religion has absolutely nothing to do with a government. Absolutely stand for religious freedom and totally reject all attempts to license or regulate faith. This obsession with our government to try and control everything has to be stopped by all South Africans	Margi	English	self-employed

2026-01-30 13:18:58	No I do not	Constitutionality	By passing this law, the CRL is going blatantly against the constitutional rights of the citizens. Stop it!	M		
2026-01-30 21:38:14	No I do not	Constitutionality	Why do they want to put their nose where it does not belong. Why not a law to regulate them? They want to keep passing laws that make life harder for the citizens of South Africa instead of creating a better life for all?	Arashaad	English	unemployed individual
2026-01-31 21:50:19	No I do not	Constitutionality	I reject, outright, the idea that government has any moral or constitutional right to interfere in or regulate religion. Faith is a matter of conscience, not compliance; conviction, not bureaucracy. History shows us that when the state tries to police belief, it doesn't protect society—it corrupts both power and faith. A government strong enough to dictate doctrine is one that has forgotten the meaning of freedom, and a society that allows it has traded liberty for control. Religion must remain independent of political authority, or it ceases to be faith and becomes just another tool of the state.	Angela	English	employed individual
2026-01-31 21:54:18	No I do not	Constitutionality	Government has no business regulating faith. Belief is not a policy, worship is not a permit, and conscience does not answer to the state. The moment government interferes in religion, it stops protecting freedom and starts exercising control. History has made this lesson painfully clear —and ignoring it is not governance, it's arrogance.	Helen	English	retired

			We all know what this is about...dictatorship in exchange for monetary... The global plan to line everything up for the day when they decide we will “own nothing and be happy”...be owned and controlled. This is outright COMMUNISM... It's about total control. Nothing less! I outright reject is. We must be a number, with a chip, with no right to any choice in anything or any form of freedom, owned by the “Government” and elites. SA is an Christian nation and constitution built on Christian beliefs. Essentially the Government is stripping this away with this proposed “legislation”, with no God given right whatsoever! Stop, look around... the world is in turmoil... because man believes he is God and does not need God. First the breakdown of the family unit, then financial, then the body, speech, now faith... The Government cannot serve two masters. GOD is the author of all - whom himself has said he will never interfere with each individuals free will. Who therefore are the “Government” to?. The “Government” are accountable to the citizens. This free will includes the RIGHT and FREEDOM to believe and live as each will. To choose to live their life on this earth by free will, which will be judged by GOD. No one else. State cannot interfere nor dictate freedoms, especially of faith. The pattern is evident ..downsize human capacity by removing jobs and cash, force everyone digitally, document them, remove freedom of speech, education, financial, health, morals and faith, implement chips to control and surveil every detail of one, under the disguise of “anti money laundering”, Instill fear and control by taking away truth and righteousness under the disguise of the “hate speech” bill, ...signing the WHO pandemic treaty so we can be forced to be injected with whatever the “state” deem when the next “pandemic” arrises and if non-compliance, be persecuted and imprisoned. We are being sold out.			
2026-02-01 00:08:49	No I do not	Constitutionality	Everyone has a Right to practice religion plus who will vet religious leaders & how -if you are not from that faith how can you judge/vett who is to be a religious leader/group!Even if you from that faith if you do not like a certain individual you might not grant them permission to be a Religious leader because of your own biases!	S	English	employed individual
2026-02-01 16:58:38	No I do not	Other	This is one area the state shoul really keep out of. My faith is my choice and the contitution guarantees my freedom to choose. Nobody should be allowed to change that. No person or institution should be allowed to interfere, in which ever manner, in any persons believes. There was valid reasons why the court dismissed this proposal in the previous attempt.	N	English	
2026-02-02 16:25:15	No I do not	Constitutionality	Freedom of religion is a constitutional right. As is Freedom of speech.	Maryka	English	unemployed individual
			This bill sets out to infringe on both these rights. If we start tearing our constitution appart by removing even more rights from ordinary citizens we risk the stability of our democracy. Right now there are several bills proposed that propose exactly that. And I'm left wondering why we don't spend more time wondering about service delivery, curbing wasteful expenses and educating our youth.

2026-02-13 20:03:04	Not fully	Constitutionality	It is everyones own choice which religion they want to follow and how they want to follow it, it is not a matter that should be regulated by the government in the first place. The government should rather consenstrate on matters like service delivery, the state of the economy, work opportunities, foreign investment opportunities etc.	Marco	English	employed individual
			I strongly oppose the proposal to license and regulate religious organisations. This is a direct violation of our constitutional rights to freedom of religion and freedom of speech. Faith communities must have the autonomy to preach and practice according to their convictions, even when that message is unpopular or considered 'offensive' by others. Biblical truth is often uncomfortable, but that does not make it hate speech or a matter for state regulation. Furthermore, giving the state the power to decide who may or may not lead a religious institution blurs the lines between church and state. The government has neither the mandate nor the theological competence to define 'right' or 'wrong' in a spiritual context. This proposal places the government inside our churches where it does not belong.
