Cape Independence Party (CAPEXIT) rejects the Democratic Alliance's new draft History Curriculum and Assessment Policy Statement (CAPS) Bill

The DA has once again shown that they are the same as the ANC, if not worse.

Ms Siviwe Gwarube, the new DA Education Ministers proposal may as well have been produced by the EFF.

Gwarube's new proposal will change our children's History curriculum to remove all study of the key Historical events over the last century that shaped the world. Removing any reference to the central role that Western European nations played in the formation of the modern world and the civilisation we see around us today.

Instead, she wishes to focus South African children's education purely on an Afrocentric and Communist Marxist agenda.

If this new DA Bill is allowed to pass, we will see the education system in this already failed and collapsing state follow ideologies that pursue even worse and more extreme Communist economic and political models.

This Education Bill will be a death nail, condemning our next generation of youth to a future where they are blind to the realities of History and all of its real world and honest complexities.

We cannot allow this to pass.

In an independent Cape we will guarantee that our youth will be equipped with an education that arms them against the dangers of a centralised and totalitarian government, that seeks to enslave the productive to the unproductive, through endless bureaucratic red tape and racist laws. While at the same time brainwashing

our children that they are entitled to do nothing, to be nothing, and to expect a fascist government to feed them, clothe them, and raise them.

This government can barely keep the lights on or supply clean water out of our taps, never mind build a productive economy of confident and self-reliant human beings.

If this Communist Bill that the DA has presented is allowed to pass, it will be the end of South Africa's already broken schooling system, and will usher in a new generation of children that are more radicalised, racist, and extremist than what the ANC and EFF already is.
